Congressional Record

SEVENTY-FOURTH CONGRESS, SECOND SESSION

SENATE

FRIDAY, JUNE 19, 1936

(Legislative day of Monday, June 15, 1936)

The Senate met at 11 o'clock a. m., on the expiration of the recess.

THE JOURNAL

On request of Mr. ROBINSON, and by unanimous consent, the reading of the Journal of the proceedings of the calendar day Thursday, June 18, 1936, was dispensed with, and the Journal was approved.

CALL OF THE ROLL

Mr. ROBINSON. I suggest the absence of a quorum.

The VICE PRESIDENT. The clerk will call the roll.

The legislative clerk called the roll, and the following Senators answered to their names:

Adams	Clark	La Follette	Radcliffe
Ashurst	Connally	Lewis	Reynolds
Bachman	Copeland	Loftin	Robinson
Bailey	Couzens	Lonergan	Russell
Barkley	Davis	McAdoo	Schwellenbach
Benson	Dieterich	McGill	Sheppard
Bilbo	Duffy	McKellar	Shipstead
Black	Frazier	McNary	Smith
Bone	George	Maloney	Steiwer
Borah	Gerry	Metcalf	Thomas, Okla.
Brown	Gibson	Minton	Thomas, Utah
Bulkley	Glass	Moore	Townsend
Bulow	Guffey	Murphy	Truman
Burke	Hale	Murray	Tydings
Byrd	Harrison	Neely	Vandenberg
Byrnes	Hastings	Norris	Van Nuys
Capper	Hatch	Nye	Wagner
Caraway	Hayden	O'Mahoney	Walsh
Carey	Holt	Pittman	Wheeler
Chavez	King	Pope	

Mr. LEWIS. I announce that the Senator from Alabama [Mr. BANKHEAD], the Senator from Colorado [Mr. COSTIGAN], the Senator from Mississippi [Mr. HARRISON], and the Senator from Nevada [Mr. MCCARRAN] are absent because of illness, and that the Senator from Massachusetts [Mr. COOLIDGE], the Senator from Ohio [Mr. DONAHEY], the Senator from Oklahoma [Mr. GORE], the Senator from Kentucky [Mr. LOGAN], the junior Senator from Louisiana [Mrs. LONG], the senior Senator from Louisiana [Mr. OVERTON], and the Senator from South Carolina [Mr. SMITH] are necessarily detained.

Mr. MCNARY. I announce that the Senator from California [Mr. JOHNSON] is absent because of illness, and that the Senator from Vermont [Mr. AUSTIN], the Senator from New Jersey [Mr. BARBOUR], the Senator from Iowa [Mr. DICKINSON], the Senator from New Hampshire [Mr. KEYES], and the Senator from Maine [Mr. WHITE] are necessarily absent.

The VICE PRESIDENT. Seventy-nine Senators have answered to their names. A quorum is present.

TRIBUTE TO THE LATE SENATOR FLETCHER

Mr. LOFTIN. Mr. President, I ask unanimous consent to have printed in the RECORD a tribute to my late colleague, Senator Fletcher, written to me by Mr. George Albert Ingham, of Collingdale, Pa.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

COLLINGDALE, PA., *June 18, 1936.*

United States Senator LOFTIN,
Care of the United States Senate,
Washington, D. C.

DEAR SENATOR LOFTIN: The passing of Senator Duncan U. Fletcher came as a great shock when the news of it reached me this afternoon. Every gift of mind and body Senator Fletcher gave freely for the pure love of his fellow creatures, not counting the cost so far as regarded himself. There is no point of our common everyday life as a country which he did not touch, no cause of charity he did not help, no kindness he failed to render when opportunity was his. Some of us wait so long before speaking the generous acknowledgment of kindly deeds, but Senator Fletcher had an insight into the hearts of men and women that was almost wonderful, and he never failed to give the word of appreciation, or to show by some token that he knew, when anybody had striven to do his best, in some little way that perhaps no one else would ever have noticed. Just little deeds of kindness all the day long, little considerate acts and words to the highest and to the lowest, a quick "thank you" for the tiniest service and a warm, quick pressure of his kindly hand when words were sometimes impossible. Never slow to see the good in all he met and always so quick to look for the upward striving in even the weakest of mankind and to give the sadly needed encouragement to a tired heart or overpressed brain. He lived every moment of his life to the full and touched life at every side. He loved the touch of human things, even while the Eternal was his unfaltering guide, and he loved the things of this world as a healthy minded man usually does, wisely and with a happy understanding which made him a most delightful companion. His individuality was charming, with its zest for joy and service.

His passing is too recent for us to gage all that it may yet mean, but a thought comes to me of what a wonderful thing a man's life can be made, when devotion to duty is its ideal.

> "Like warp and woof, all destinies are woven fast,
> Linked in sympathy like the keys of an organ vast,
> Pluck one thread and the web ye mar;
> Break but one of a thousand keys,
> And the paining jar through all will run."

He never let a heart become sad from want of a kind word, or waited to give the roses of joy till it was forever too late. The sweet savor of his life is fragrant in its influence on all our hearts. There are friends from afar who will mourn him with a passion of regret. My sincerest sympathies in your great loss is extended to you and the great State of Florida.

A sincere friend of Senator Fletcher.

GEORGE ALBERT INGHAM.

MESSAGE FROM THE HOUSE

A message from the House of Representatives, by Mr. Haltigan, one of its reading clerks, announced that the House had passed without amendment the bill (S. 4464) to authorize the coinage of 50-cent pieces in celebration of the opening of the San Francisco-Oakland Bay Bridge.

The message also announced that the House had agreed to the amendment of the Senate to each of the following bills of the House:

H. R. 9485. An act to convey certain lands to Clackamas County, Oreg., for public-park purposes; and

H. R. 10356. An act authorizing the Secretary of the Navy to convey a right-of-way over certain lands situated in Solano County, Calif., to the State of California for State highway purposes.

The message further announced that the House had agreed to the amendments of the Senate to the bill (H. R. 9654) to authorize the purchase by the city of Scappoose, Oreg., of a certain tract of public land revested in the United States under the Act of June 9, 1916 (39 Stat. 218).

The message also announced that the House had agreed to the amendment of the Senate to the concurrent resolution (H. Con. Res. 58) affecting the enrollment of H. R. 12624, the First Deficiency Appropriation Act, fiscal year 1936.

The message further announced that the House had agreed to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 8597) to amend section 13 of the act of March 4, 1915, entitled "An act to promote the welfare of American seamen in the merchant marine of the United States; to abolish arrest and imprisonment as a penalty for

desertion, and to secure the abrogation of treaty provisions in relation thereto; and to promote safety at sea"; to maintain discipline on shipboard, and for other purposes.

The message also announced that the House had agreed to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 2456) to provide for the appointment of an additional district judge for the northern and southern districts of West Virginia.

The message further announced that the House had agreed to the report of the committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill (H. R. 10919) making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1937, and for other purposes.

The message also announced that the House had passed the following bills and joint resolution, in which it requested the concurrence of the Senate:

H. R. 3472. An act to amend section 23 of the Immigration Act of February 5, 1917 (39 Stat. 874);

H. R. 7221. An act to authorize the shortening or termination of the stay in the United States of certain aliens not admitted for permanent residence, to authorize the deportation of certain aliens admitted for permanent residence, and for other purposes;

H. R. 12325. An act to protect for American actors, vocal musicians, operatic singers, and orchestral conductors the artistic and earning opportunities in the United States, and for other purposes;

H. R. 12532. An act to authorize the furnishing of steam from the central heating plant to the District of Columbia;

H. R. 12681. An act to amend section 1 of the act of Congress entitled "An act to fix the salaries of officers and members of the Metropolitan Police force, the United States Park Police force, and the Fire Department of the District of Columbia", approved May 27, 1924, and for other purposes; and

H. J. Res. 336. Joint resolution to clarify the provisions of section 4 of the act of May 24, 1934, with regard to period of residence required of an alien husband of a citizen of the United States as a prerequisite to naturalization.

ENROLLED BILLS AND JOINT RESOLUTION SIGNED

The message further announced that the Speaker had affixed his signature to the following enrolled bills and joint resolution, and they were signed by the President pro tempore:

S. 1794. An act to effectuate certain provisions of the International Convention for the Protection of Industrial Property as revised at The Hague on November 6, 1925;

S. 2119. An act for the relief of Amos D. Carver, S. C. Turner, Clifford N. Carver, Scott Blanchard, P. B. Blanchard, James B. Parse, A. N. Blanchard, and W. A. Blanchard, and/or the widows of such of them as may be deceased;

S. 2127. An act to amend section 4471 of the Revised Statutes of the United States, as amended;

S. 2712. An act to amend section 23 of the Independent Offices Appropriation Act, 1935;

S. 4552. An act to extend the retirement privilege to the Director, Assistant Directors, inspectors, and special agents of the Federal Bureau of Investigation;

S. 4622. An act to amend section 2 of the act entitled "An act granting the consent of Congress to the Alabama State Bridge Corporation to construct, maintain, and operate bridges across the Tennessee, Tombigbee, Warrior, Alabama, and Coosa Rivers, within the State of Alabama", approved May 26, 1928;

S. 4737. An act to provide for the sale of the Port Newark Army Base to the city of Newark, N. J., and for other purposes;

H. R. 5368. An act to provide for the addition of certain lands to the Chalmette National Monument in the State of Louisiana, and for other purposes;

H. R. 8442. An act to amend section 2 of the act entitled "An act to supplement existing laws against unlawful restraints and monopolies, and for other purposes", approved October 15, 1914, as amended (U. S. C., title 15, sec. 13), and for other purposes;

H. R. 12869. An act to liberalize the provisions of Public Law No. 484, Seventy-third Congress, to effect uniform provisions in laws administered by the Veterans' Administration, to extend the Employees' Compensation Act with limtiations to certain World War veterans and other persons, and for other purposes; and

S. J. Res. 278. Joint resolution to modify and extend the act entitled "An act to include sugar beets and sugar cane as basic agricultural commodities under the Agricultural Adjustment Act, and for other purposes", approved May 9, 1934, as amended, and for other purposes.

BENEFIT PAYMENTS UNDER AGRICULTURAL ADJUSTMENT ACT

The VICE PRESIDENT laid before the Senate a letter from the Secretary of Agriculture, transmitting, pursuant to Senate Resolution 265, directing the Secretary of Agriculture to furnish the Senate with certain information concerning producers (submitted by Mr. VANDENBERG, and agreed to Apr. 27, 1936), a part of the material called for in the resolution that could be promptly prepared and stating, "A supplementary report will be submitted covering payments for those 1935 programs where payments are not yet substantially complete", which, with the accompanying papers, was ordered to lie on the table.

Mr. VANDENBERG subsequently said: Mr. President, the Secretary of Agriculture has reported to the Senate in response to Senate Resolution 265.

I ask unanimous consent that the report and all of the tables in connection therewith be printed as a Senate document.

The VICE PRESIDENT. Is there objection? The Chair hears none, and it is so ordered.

PETITIONS AND MEMORIALS

The VICE PRESIDENT laid before the Senate a letter in the nature of a petition from the Young Women's Christian Association, Reno, Nev., praying for the enactment of the so-called Kerr bill to strengthen the immigration laws, which was referred to the Committee on Immigration.

He also laid before the Senate a resolution adopted by the board of governors of the Illinois State Bar Association, favoring the enactment of House Joint Resolution 237, for the establishment of a trust fund to be known as the Oliver Wendell Holmes Memorial Fund, which was referred to the Committee on the Library.

He also laid before the Senate a resolution adopted by the Anti-War Conference of the Intermediate Section, Young Circle League of America, New York City, N. Y., protesting against increased appropriations for the Army and Navy, which was referred to the Committee on Military Affairs.

He also laid before the Senate a telegram from a convention of districts 1, 7, and 9, United Mine Workers of America, Hazelton, Pa., embodying a resolution of the convention favoring the enactment of the so-called Guffey bill, being the bill (S. 4668) to regulate interstate commerce in bituminous coal, and for other purposes, which was ordered to lie on the table.

REPORTS OF COMMITTEES

Mr. SHEPPARD, from the Committee on Military Affairs, to which was referred the bill (S. 2492) to provide further for membership on the Board of Visitors, United States Military Academy, reported it without amendment and submitted a report (No. 2425) thereon.

He also, from the Committee on Commerce, to which was referred the bill (H. R. 12490) authorizing a preliminary examination of the Levisa Fork of Big Sandy River in the vicinity of the Breaks of Sandy, reported it without amendment and submitted a report (No. 2426) thereon.

Mr. SCHWELLENBACH, from the Committee on Military Affairs, to which was referred the bill (S. 940) to provide for the further carrying out of the award of the National War Labor Board of July 31, 1918, in favor of certain employees of the Bethlehem Steel Co., Bethlehem, Pa., reported it without amendment and submitted a report (No. 2437) thereon.

Mr. McGILL, from the Committee on Agriculture and Forestry, to which was referred the bill (S. 4786) to authorize the Secretary of Agriculture to make such adjustments and

revisions found to be due on contracts entered into by the Government with crop producers under the Agricultural Adjustment Act, reported it with an amendment and submitted a report (No. 2438) thereon.

Mr. BULOW, from the Committee on Civil Service, to which was referred the bill (H. R. 12717) to provide for the right of election by employees, subject to the provisions of the Civil Service Retirement Act, of a joint and survivorship annuity upon retirement, reported it without amendment and submitted a report (No. 2440) thereon.

Mr. BAILEY, from the Committee on Claims, to which were referred the following bills, reported them severally without amendment and submitted reports thereon:

H. R. 820. A bill for the relief of James A. Henderson (Rept. No. 2446);

H. R. 1365. A bill for the relief of E. G. Briseno (Rept. No. 2439);

H. R. 2335. A bill for the relief of Cora Akins (Rept. No. 2447);

H. R. 3763. A bill for the relief of William Randolph Cason (Rept. No. 2448);

H. R. 3777. A bill for the relief of the Herald Publishing Co. (Rept. No. 2442);

H. R. 6105. A bill for the relief of the New Amsterdam Casualty Co. (Rept. No. 2443);

H. R. 9191. A bill for the relief of dependents of James B. Kiley (Rept. No. 2449);

H. R. 10258. A bill conferring jurisdiction upon the United States District Court for the Eastern District of Arkansas to hear, determine, and render judgment upon the claim of Adam D. Hampton (Rept. No. 2444); and

H. R. 11863. A bill for the relief of Clark F. Potts and Charles H. Barker (Rept. No. 2445).

Mr. LOFTIN, from the Committee on Claims, to which was referred the bill (H. R. 6920) for the relief of Ella Goodwin, reported it without amendment and submitted a report (No. 2441) thereon.

Mr. GIBSON, from the Committee on Claims, to which was referred the bill (H. R. 3179) for the relief of Jesse Ashby, reported it without amendment and submitted a report (No. 2450) thereon.

Mr. DIETERICH, from the Committee on the Judiciary, to which was referred the concurrent resolution (S. Con. Res. 41) to authorize a joint committee to investigate the Black Legion, and for other purposes (submitted by Mr. ROBINSON (for Mr. BENSON) on June 8, 1936), reported it without amendment, and, under the rule, the resolution was referred to the Committee to Audit and Control the Contingent Expenses of the Senate.

ENROLLED BILLS AND JOINT RESOLUTIONS PRESENTED

Mrs. CARAWAY, from the Committee on Enrolled Bills, reported that on June 18, 1936, that committee presented to the President of the United States the following enrolled bills and joint resolutions:

S. 1318. An act to authorize the Secretary of the Interior to investigate and adjust irrigation charges on irrigation lands within projects on Indian reservations, and for other purposes;

S. 1795. An act to effectuate certain provisions of the International Convention for the Protection of Industrial Property as revised at The Hague on November 6, 1925;

S. 1976. An act to amend the act entitled "An act making appropriations for the military and nonmilitary activities of the War Department for the fiscal year ending June 30, 1927, and for other purposes", approved April 15, 1926, so as to equalize the allowances for quarters and subsistence of enlisted men of the Army, Navy, and Marine Corps;

S. 3257. An act to amend the World War Adjusted Compensation Act;

S. 3344. An act to appoint one additional judge of the District Court of the United States for the Eastern and Western Districts of Kentucky;

S. 3371. An act for the relief of John Walker;

S. 3441. An act for the relief of C. T. Hird;

S. 3488. An act to provide for an examination and survey to determine the best utilization of the surplus waters of the San Juan River and the Animas River and to determine the feasibility and cost of storing such waters and of diverting them to the Rio Chama and Rio Grande;

S. 3784. An act to extend the benefits of the Adams Act, the Purnell Act, and the Capper-Ketcham Act to the Territory of Alaska, and for other purposes;

S. 3805. An act to authorize the Secretary of the Interior to reserve certain lands on the public domain in Nevada for addition to the Walker River Indian Reservation;

S. 3907. An act for the relief of the State of Nevada;

S. 3956. An act for the relief of Jacob Kaiser;

S. 3997. An act to authorize the Secretary of War to lend War Department equipment for use at the Eighteenth National Convention of the American Legion, at Cleveland, Ohio, during the month of September 1936;

S. 4038. An act to amend an act of Congress approved March 3, 1863, entitled "An act to reorganize the courts in the District of Columbia, and for other purposes";

S. 4105. An act authorizing the Secretary of Agriculture to convey certain lands to the Maryland-National Capital Park and Planning Commission of Maryland for park, parkway, and playground purposes;

S. 4132. An act to amend section 4b of the National Defense Act, as amended, relating to certain enlisted men of the Army;

S. 4252. An act to provide for the modification of the contract of lease entered into on June 12, 1922, between the United States and the Board of Commissioners of the Port of New Orleans;

S. 4461. An act to extend the times for commencing and completing the construction of a bridge across the Missouri River at or near Brownville, Nebr.;

S. 4462. An act to extend the times for commencing and completing the construction of a bridge across the Missouri River between the towns of Decatur, Nebr., and Onawa, Iowa;

S. 4463. An act to extend the times for commencing and completing the construction of a bridge across the Missouri River at or near the cities of South Sioux City, Nebr., and Sioux City, Iowa;

S. 4584. An act to amend the Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755), to extend and adopt its provisions to the convention between the United States and the United Mexican States for the protection of migratory birds and game mammals concluded at the city of Mexico February 7, 1936, and for other purposes;

S. 4618. An act granting the consent of Congress to the Louisiana Highway Commission to construct, maintain, and operate a free or toll highway bridge, or a railway bridge in combination with a free or toll highway bridge, and approaches thereto, across the Mississippi River at or near Baton Rouge, La.;

S. 4654. An act to amend an act entitled "An act to distribute the commissioned line and engineer officers of the Coast Guard in grades, and for other purposes", approved January 12, 1923;

S. 4658. An act to aid the several States in making certain toll bridges on the system of Federal-aid highways free bridges, and for other purposes;

S. 4667. An act to prohibit the commercial use of the coat of arms of the Swiss Confederation pursuant to the obligation of the Government of the United States under article 28 of the Red Cross Convention signed at Geneva July 27, 1929;

S. 4680. An act authorizing the State of Wisconsin to construct, maintain, and operate a free highway bridge across the Mississippi River at or near La Crosse, La Crosse County, Wis.;

S. 4709. An act authorizing the Interstate Bridge Commission of the State of New York and the Commonwealth of Pennsylvania to reconstruct, maintain, and operate a free highway bridge across the Delaware River between points in the village of Barryville, Sullivan County, N. Y., and the village of Shohola, Pike County, Pa.;

S. 4710. An act authorizing the Interstate Bridge Commission of the State of New York and the Commonwealth of Pennsylvania to reconstruct, maintain, and operate a free highway bridge across the West Branch of the Delaware River between a point in the vicinity of the village of Hancock, Delaware County, N. Y., and a point in the town of Buckingham, Wayne County, Pa.;

S. 4734. An act to provide for hurricane patrol in the Gulf of Mexico and environs during the hurricane season;

S. J. Res. 187. Joint resolution authorizing the President of the United States of America to proclaim October 11, 1936, General Pulaski's Memorial Day for the observance and commemoration of the death of Brig. Gen. Casimir Pulaski;

S. J. Res. 235. Joint resolution authorizing the Secretary of Agriculture to expend funds of the Agricultural Adjustment Administration for participation by the United States in the 1936 Sixth World's Poultry Congress;

S. J. Res. 243. Joint resolution authorizing distribution to the Indians of the Blackfeet Indian Reservation, Mont., of the judgment rendered by the Court of Claims in their favor; and

S. J. Res. 245. Joint resolution authorizing distribution to the Gros Ventre Indians of the Fort Belknap Reservation, Mont., of the judgment rendered by the Court of Claims in their favor.

BILLS INTRODUCED

Bills were introduced, read the first time, and, by unanimous consent, the second time, and referred as follows:

By Mr. SCHWELLENBACH:

A bill (S. 4789) for the relief of Mr. and Mrs. James Hagan; to the Committee on Indian Affairs.

By Mr. BROWN:

A bill (S. 4790) to correlate certain governmental functions, and for other purposes; to the Committee on Agriculture and Forestry.

By Mr. LONERGAN:

A bill (S. 4791) to amend the Revenue Act of 1932 with respect to the deduction for estate-tax insurance; to the Committee on Finance.

By Mr. WAGNER:

A bill (S. 4792) to reimburse manufacturers for extra cost of manufacturing due to deepening of Oswego and Erie Canals, New York State; to the Committee on Claims.

HOUSE BILLS AND JOINT RESOLUTION REFERRED

The following bills and joint resolution were severally read twice by their titles and referred as indicated below:

H. R. 3472. An act to amend section 23 of the Immigration Act of February 5, 1917 (39 Stat. 874);

H. R. 7221. An act to authorize the shortening or termination of the stay in the United States of certain aliens not admitted for permanent residence, to authorize the deportation of certain aliens admitted for permanent residence, and for other purposes;

H. R. 12325. An act to protect for American actors, vocal musicians, operatic singers, and orchestral conductors the artistic and earning opportunities in the United States, and for other purposes; and

H. J. Res. 336. Joint resolution to clarify the provisions of section 4 of the act of May 24, 1934, with regard to period of residence required of an alien husband of a citizen of the United States as a prerequisite to naturalization; to the Committee on Immigration.

H. R. 12532. An act to authorize the furnishing of steam from the central heating plant to the District of Columbia; and

H. R. 12681. An act to amend section 1 of the act of Congress entitled "An act to fix the salaries of officers and members of the Metropolitan Police force, the United States Park Police force, and the Fire Department of the District of Columbia", approved May 27, 1924, and for other purposes; to the Committee on the District of Columbia.

MISTREATMENT OF AMERICAN CITIZENS ABROAD

Mr. NYE submitted the following resolution (S. Res. 325), which was ordered to lie over under the rule:

Whereas there has been lodged with Members of the Congress of the United States from time to time complaints that citizens of the United States have been and are being grossly mistreated while in certain foreign countries, and that all efforts to obtain assistance from the proper officials of the Government of the United States in behalf of such citizens have been futile; and

Whereas it is charged that these conditions are influenced by large corporate interests holding valuable oil concessions, and others interested in investments in bonds and other property in said foreign countries; and

Whereas if the charges have any foundation in fact the Congress is under solemn obligation to promptly take steps through appropriate legislation to correct said conditions hereinbefore recited; and

Whereas it is alleged that departments of the Government of the United States have become an agency for protection of large corporate interests operating abroad—especially in Latin-America—where the most absolute form of military dictatorships have been established to protect said interests and make possible the exploitation of the people of our sister republics: Now, therefore, be it

Resolved, That the Foreign Relations Committee of the Senate, acting through a subcommittee thereof, or otherwise, be, and the same is hereby, empowered to fully investigate said charges to the end that the Congress of the United States may be fully informed:

(a) Whether there is any basis in fact for such charges.

(b) What legislation should be passed to remedy said conditions.

(c) Whether any statute of the United States has been violated.

That in pursuance of the duties imposed upon said subcommittee or committee, empowered to act under this resolution, it shall be empowered to subpena witnesses and require them to produce such papers, records, books, documents, or other evidence desired by such subcommittee or committee, and to produce such other data as they may deem necessary, and to hold such investigation at such place or places as to them may seem expedient.

That there is hereby appropriated the sum of $50,000 from the contingent fund of the Senate to carry on said investigation.

JOHN R. TURNER—WITHDRAWAL OF PAPERS

On motion by Mr. GEORGE, it was

Ordered, That the papers filed with the bill (S. 2768) for the relief of John R. Turner be withdrawn from the files of the Senate, no adverse report having been made thereon.

FLORIDA SHIP CANAL—DATA COMPILED BY THE LATE SENATOR FLETCHER

Mr. LOFTIN. Mr. President, I ask unanimous consent that some data and information compiled by the late Senator Fletcher on the subject of the Florida ship canal be printed as a Senate document.

The VICE PRESIDENT. Is there objection? The Chair hears none, and it is so ordered.

ADDITIONAL DISTRICT JUDGE FOR NORTHERN AND SOUTHERN DISTRICTS OF WEST VIRGINIA—CONFERENCE REPORT

Mr. NEELY submitted the following report:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 2456) to provide for the appointment of an additional district judge for the northern and southern districts of West Virginia, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the said bill and agree to the same with an amendment as follows: In lieu of the matter stricken out and inserted by said amendment insert the following:

"That the President of the United States, by and with the advice and consent of the Senate, is hereby authorized to appoint an additional district judge for the northern and southern districts of West Virginia, who shall, at the time of his appointment, be a resident and a citizen of the State of West Virginia; and who, when appointed and qualified as provided by law, shall exercise all the powers conferred by existing law upon judges of the District Courts of the United States; and who shall, as to all business and proceedings arising in said northern and southern districts of West Virginia, as now constituted or which may be transferred thereto, succeed to and possess the same powers, and perform the same duties within said districts, that are now possessed and performed by the district judges heretofore appointed for and now serving therein, respectively.

"The present district judge for the northern district of West Virginia shall hold regular terms of court in said northern district, at the following places and times, that is to say:

"(a) At the city of Martinsburg on the first Tuesday in April and the third Tuesday in September in each year;

"(b) At the city of Wheeling on the first Tuesday in May and the third Tuesday in October in each year;

"(c) At the city of Elkins on the third Tuesdays in June and November in each year;

"(d) Said judge shall also hold such special terms as may be necessary for the orderly dispatch of the business of said court; the same to be held at said places and at such times as he shall appoint.

"The present district judge for the southern district of West Virginia shall hold regular terms of court in said southern district at the following places and times, that is to say:

"(a) At the city of Bluefield on the third Tuesdays in January and June in each year;

"(b) At the city of Lewisburg on the first Tuesday in March and the third Tuesday in September in each year;

"(c) At the city of Charleston on the third Tuesdays in April and November in each year;

"(d) Said judge shall also hold such special terms as may be necessary for the orderly dispatch of the business of said court; the same to be held at said places and at such times as he shall appoint.

"The district judge for the said northern and southern districts of West Virginia, to be appointed under this Act, shall hold regular terms of court in said northern and southern districts at the following places and times; that is to say:

"(a) At the city of Clarksburg, in said northern district, on the second Tuesdays in January and September in each year;

"(b) At the city of Parkersburg, in said northern district, on the third Tuesday in March and the second Tuesday in October in each year;

"(c) At the city of Huntington, in said southern district, on the second Tuesdays in May and November in each year;

"(d) Said judge shall also hold such special terms as may be necessary for the orderly dispatch of the business of said court; the same to be held at said places and at such times as he shall appoint: *Provided, however,* That whenever a vacancy shall occur in the office of the district judge for the northern district of West Virginia the judge appointed pursuant to the authority granted by this Act shall become the district judge for the northern district of West Virginia and no successor shall be appointed to the vacancy thus occurring in the position created by this Act."

And the House agree to the same.

M. M. NEELY,
CARL A. HATCH,
WARREN R. AUSTIN,
Managers on the part of the Senate.

FRANCIS E. WALTER,
ROBERT L. RAMSAY,
U. S. GUYER,
Managers on the part of the House.

The report was agreed to.

BUSINESS AND ECONOMIC CATECHISM

Mr. McKELLAR. Mr. President, I ask unanimous consent to have printed in the RECORD an elementary presentation of comparative factual data on business conditions in the United States, prepared by the Department of Commerce.

There being no objection, the matter was ordered to be printed in the RECORD, as follows:

BUSINESS AND ECONOMIC CATECHISM—AN ELEMENTARY PRESENTATION OF COMPARATIVE FACTUAL DATA ON BUSINESS CONDITIONS IN THE UNITED STATES

Question. How many automobiles were produced in the United States in 1932?

Answer. 1,370,678.

Question. Was production that high in 1935?

Answer. Yes; more than twice as high. To be exact, 3,946,934.

Question. Has the improved trend continued in 1936?

Answer. In the first quarter of 1936 there were 1,072,581 produced, compared with 355,721 in the same period of 1932.

Question. What was the increase in the national debt in the depression and post-depression periods?

Answer. In the last 2, or depression, years of the Hoover administration the national debt was increased $5,000,000,000, and in the 3 recovery years of the Roosevelt administration the increase was $11,000,000,000.

Question. Was there in either administration a concurrent or compensating rise in the national income produced?

Answer. In the last 2 years of the Hoover administration, when the debt was increased $5,000,000,000, there was an accumulated decline of forty-two and eight-tenths billions in national income produced. In other words, the accumulated income produced by the people of the entire Nation dropped from $67,900,000,000 in 1930 to $53,500,000,000 in 1931 and to $39,500,000,000 in 1932.

In 3 years of the Roosevelt administration the national income produced by all the people progressively improved for an accumulated gain of about $25,000,000,000, while the debt rose $11,000,000,000, so that the net gain in income of the people over the increase in the Federal debt was $14,000,000,000. The national income rose to $41,900,000,000 in 1933, to $48,600,000,000 in 1934, and from $53,000,000,000 to $55,000,000,000 in 1935.

To sum it up, during the 2 depression years under Hoover the accumulated loss in income produced by the people was $42,800,000,000 and $5,000,000,000 was added to the Federal debt, while during the 3 years of the Roosevelt administration income of the people gained $25,000,000,000 and the debt increased $11,000,000,000.

Question. Records show that farm income has increased each year since 1932. Was that due altogether to rental and benefit payments?

Answer. The accumulated rise in farm income since 1932 has been $5,903,000,000, of which $1,352,000,000 was rental and benefit payments, leaving a net gain, exclusive of benefit payments, of $4,551,000,000. The following table of gross farm income, showing a 51-percent gain in 1935 over 1932, best illustrates the situation:

Year	Total income	Rental and benefit payments
1932	$5,337,000,000	None
1933	6,405,000,000	$278,000,000
1934	7,300,000,000	594,000,000
1935	8,100,000,000	480,000,000

From the foregoing, it will be seen that in 1933, income, including benefit payments, increased $1,069,000,000 over 1932, in 1934 the increase was $2,067,000,000, and in 1935 the increase was $2,767,000,000, an accumulated increase of $5,903,000,000. Subtracting the benefit payments, the accumulated gain was $4,551,000,000.

Question. While the farmer's income has shown these increases under the Roosevelt administration, is it not true that he has been paying a correspondingly higher price for everything he has been compelled to buy?

Answer. No. Since 1932 prices received by the farmer for his products have risen 66 percent, while the cost of the goods he has bought has risen only 17 percent. Stated in another way the index (1910–14 base) of what the farmer received in 1932 was 65 and what he paid was 108. By 1935 this ratio had narrowed and the index of what he received had risen to 108 and what he paid for goods bought was 125.

Question. Does this mean that the farmer has more actual dollars under Roosevelt than he had under the Hoover administration?

Answer. The purchasing power of farm income, less expenditures, rose from 55.9 in 1932 to 83.1 in 1935, or a rise of 50 percent.

Question. What is the trend in bank suspensions?

Answer. There were 5,102 suspensions in 1930, 1931, 1932, and 449 from January 1 to March 15, 1933, with aggregate deposits of $3,500,000,000. From March 16 to December 31, 1933, there were 179 licensed and 1,121 nonlicensed banks suspended. In 1934 there were 984. By 1935 these suspensions had dropped to 92 compared with 1,456 in 1932.

Question. Has there been any recession in commercial failures?

Answer. There were 11,879 in 1935, compared with 26,355 in 1930, 28,285 in 1931, 31,822 in 1932, 20,307 in 1933, and 12,185 in 1934. There were 167.8 percent more failures in 1932 than in 1935.

Question. A great deal is being published about revival of the construction industry that sunk to such low levels during the depression. Are there any figures on this activity?

Answer. In 1932, contracts awarded in 37 Eastern States were valued at $1,351,159,000. In 1935 the aggregate figure was $1,844,545,000, while in 1936 the gain has been more pronounced. In the first 5 months of 1936 construction aggregated $996,523,600, a gain of 81 percent over the same period of 1935. A survey of construction permits in 100 cities, scattered from coast to coast, conducted by the Department of Commerce for the month of May revealed a gain of 76 percent over May 1935.

Question. Construction has evidently been reflected in lumber consumption, which in 1933 was down to 13,105,000,000 board-feet. Is this industry still depressed?

Answer. At the rate of consumption during the first half of 1936, it is estimated that 20,000,000,000 feet will be consumed during the year, making it the best year since 1930 and 50 percent ahead of 1933. Consumption last year was 18,235,000,000 board-feet.

Question. It seems the building revival should have affected the common-brick industry.

Answer. It has quite substantially. Shipments of 306 manufacturers in 1935 were 59.5 percent greater than in 1933, and in the first quarter of 1936 the gain over the comparable 1933 quarter was 125.3 percent.

Question. In that same connection, the paint and varnish industry has probably been affected.

Answer. Quite substantially. Sales of 579 companies in 1933 amounted to $220,303,893. In 1935 this had advanced to $334,277,609, an increase of 51.7 percent. In the first 3 months of 1936 the gain over the comparable 1933 period was 104.5 percent.

Question. Electric-power production is a fairly accurate index of general business conditions; are we consuming more or less than in former years?

Answer. Electric-power production has reached an all-time high record, which indicates that industry and domestic consumers in greater numbers are using increasing amounts. The production in 1935 was 99,398,000,000 kilowatt-hours, compared with 83,153,000,000 in 1932 and 95,936,000,000 in 1930. The trend continued upward in 1936, production in the first quarter having risen to 26,765,000,000 kilowatt-hours, compared with 21,913,000,000 in the 1932 quarter.

Question. Has the machinery industry benefited by the increased purchasing power of the farmer?

Answer. In 1932 the value of the principal classes of farm machinery manufactured had dropped to $117,000,000. In 1935 this had risen to $331,998,066, a gain of 184 percent.

Question. Machine-tool orders are said to reflect conditions in the heavy-goods industries. Are the machine-tool makers recovering from their slump?

Answer. In May 1936 the index of orders in the machine-tool industry stood at 118.8, compared with 73.3 in the same month of 1935 and 15.3 in May 1933, so that the May 1936 orders were 677 percent greater than in May 1933.

Question. Changing the subject slightly, what has been the trend in bituminous-coal production?

Answer. Last year 369,324,000 short tons were produced, compared with 309,710,000 tons in 1932. In the first quarter of 1936 production was 111,938,000 tons, compared with 89,320,000 in the same period of 1932.

Question. We hear a great deal about cotton and the loss of our cotton-goods markets. Is it really true that we are losing our cotton-textile business?

Answer. No. The records show that in the year ending July 31, 1935, there were consumed in this country 5,361,000 bales, compared with 4,866,000 bales in 1932, while in the first quarter of 1936 the consumption was 1,657,000 bales, compared with 1,375,000 bales in the same quarter of 1932. The export of 5,180,000 bales in 10-month period of August 1935 to May 1936 was 13 percent higher than in the corresponding period of 1934–35.

Question. Has cotton-spindle activity increased with cotton consumption?

Answer. Yes. Spindle activity in April of this year was the largest for that month since 1930, or 7,320,000,000 spindle-hours, compared with 5,199,000,000 in April 1932.

Question. Considerable wool is consumed in this country, too. Without going into too much detail, what is the situation as to wool?

Answer. Industries consumed 26.9 percent more wool in 1935 than in 1933, while for the first 4 months of 1936 the gain over the same period of 1935 was 77.4 percent in the United States.

Question. Has there been much fluctuation in the volume of men's clothing manufactured during the past few years?

Answer. Reports of 352 manufacturers of men's suits show a quantity gain of 18.6 percent in 1935 over 1933, while the first quarter of 1936 the industry had a gain of 45.2 percent over the same period of 1933. Gains in the overcoat-manufacturing business were even larger.

Question. What about the oil-burner business?

Answer. This industry has experienced considerable revival as shown by reports of 152 companies who shipped 138,899 in 1935, compared with 89,666 in 1933, a gain of 54.9 percent. Improvement was still more marked in the first quarter of 1936, with a gain of 152.3 percent over the same quarter of 1933.

Question. There seems to be considerable enthusiasm over the mechanical-stoker business. Is that business increasing, too?

Answer. This industry has shown remarkable strides. Sales in 1935 increased 162.9 percent over 1933, and for the first 3 months of 1935 the gain over the 1933 quarter was 390.4 percent.

Question. Are people buying more or fewer hose?

Answer. Reports of 246 principal hosiery-manufacturing companies show an increase in production of 9.2 percent in 1935 over 1933, while in the Philadelphia district the increase was 21.3 percent. In the first 3 months of 1936 total production increased 22 percent over the same period of 1933.

Question. Footwear is an item of major importance in industry and is quite sensitive to the economic condition of the people. When the family budget is cramped the shoe-repair shop is usually busy. When we are prosperous we buy new shoes. What is the situation with reference to shoe production?

Answer. In 1935 there were 383,761,499 pairs of boots, shoes, and slippers produced in the United States compared with 350,381,737 in 1933, a gain of 9.5 percent. The gain has been more pronounced in 1936, production in the first 3 months having been 98,158,110 compared with 77,677,686 in the same period of 1933, a gain of 26.4 percent.

Question. What about stock prices?

Answer. The stock price index is based on 1926 at 100. In 1932 it stood at 48.4 and in 1935 at 78.5. In the first quarter of 1936 it had advanced to 105.7, compared with 57.1 in the same quarter of 1932. It should be explained that these indices are based on 421 leading stocks.

Question. The rise in stock prices seems to have been rather phenomenal. What about bond prices?

Answer. The 1932 index of 81.1 rose to 102.3 for the year 1935 and for the first quarter of 1936 moved up to 107.6, compared with 82.4 in the 1932 quarter. From these figures it will be seen that investors have realized excellent profits.

Question. Is much money going into new capital issues? That is, has there been a backward or forward movement of funds for investment in new securities for business and industrial financing?

Answer. In 1932 new capital issues amounted to $1,192,248,000 and in 1935 the total was $1,412,112,000. You will be interested to know that in 1933 the total was only $709,515,000. Under recent legislation investors are given a sense of stronger security in their investments.

Question. Has there been any material change in the trend of corporation earnings in the last 4 years?

Answer. According to the table compiled by Standard Trade & Securities, net income of 921 corporations in the year 1932 was $348,301,000; in 1933 it rose to $996,306,000; in 1934 to $1,304,033,000; in 1935 to $1,785,532,000.

Question. Retail trade comes nearer being understood by most of us, and the cash register in the general merchandise store is the best index of all. Has retail trade really benefited during the recovery period?

Answer. These figures are interesting and significant. The period of 1929–31 is generally accepted as an appropriate base period equivalent to 100. Compared with that base, the index of rural sales of general merchandise stood at 63.1 in 1932. In 1935 it had risen to 99.4, and this was sustained in the first quarter of 1936. The 5-and-10-cent store index rose from 80.0 in 1932 to 91.5 in 1935.

Question. Have department-store sales increased, too?

Answer. This index is based on the 1923–25 period, and in 1932 stood at 69 but advanced to 79 in 1935. The trend in 1936 is still higher, the May index standing at 88, compared with 67 in May 1933.

Question. The status of factory employment seems to be somewhat of a controversial question. Just what is the actual condition as to this?

Answer. Using the 1923–25 period as an index base of 100, the index stood at 64.1 in 1932, while in 1935 it was 82.2. In the first quarter of 1936 it averaged 83.4, compared with 68.9 in the first quarter of 1932.

Question. Have factory pay rolls increased also?

Answer. There has also been marked increase in pay rolls. Using the same index base as on employment, the pay-roll index stood at 46.1 in 1932, while in 1935 it was 70.3. In the first quarter of 1936 it was 73.6, compared with 53.7 in the first quarter of 1932.

Question. We all know that higher wage scales are being paid by most business and industry to their workers, but at the same time we also know that the work hours are shorter. What effect has this had on the per-capita income of employees?

Answer. That is an interesting question. In 1933 the average per-capita income of employees, exclusive of work relief, in all industries was $1,097. In 1934 this had risen to about $1,100, and in 1935 the estimate was $1,200.

Question. Since steel is a key industry and there is reported to have been so much activity in the heavy-goods industries, what are the facts regarding steel-ingot production?

Answer. Steel has experienced remarkable recovery. In 1935 production was 33,940,000 gross tons, compared with 13,464,000 in 1932. In the first quarter of 1936 production was 9,353,000 gross tons, compared with 4,400,000 gross tons in the same quarter of 1933, and reached a 6-year peak.

Question. Railroad traffic is usually accepted as another appropriate index to general conditions. Are the railroads carrying more or fewer loaded cars than in 1932?

Answer. In the first 5 months of 1936, total carloadings amounted to 3,351,801 cars, compared with 2,656,168 in 1933 and 3,026,021 in 1934.

Question. What has been the effect on net operating income of railroads?

Answer. Net operating income of railroads has gained from $53,876,000 in the first 4 months of 1933 to $146,114,000 in the first 4 months of 1936, an increase of 171 percent.

Question. There seems to be much discussion about the effect of new trade policies on foreign trade, and since this phase of business activity affects all people directly or indirectly, just what is the situation with reference to exports and imports?

Answer. In 1932, the total value of our exports to foreign countries had dwindled to $1,611,016,000, but in the year 1935, they had risen to $2,282,874,000. Imports also rose from $1,322,774,000 in 1932 to $2,047,485,000 in 1935. In the first quarter of 1936, exports were valued at $575,297,000, compared with $458,870,000; imports in the first quarter this year were valued at $573,942,000 compared with $397,708,000 in the 1932 quarter. While several reciprocal trade agreements have been negotiated with important foreign countries, insufficient time has elapsed to fully evaluate the program. In the case of Cuba, however, negotiated in September 1934, results have been gratifying with exports and imports increasing 32 percent in 1935 over 1934, while the first quarter of 1936 showed a gain of 47 percent over the 1935 quarter.

SWEDEN PUTS GOVERNMENT IN BUSINESS

Mr. BENSON. Mr. President, I ask leave to have printed in the RECORD an article from the Washington (D. C.) Daily News of the 17th instant, by William Philip Simms, headed "Sweden Puts Government in Business; Makes It Pay; Budget Is Balanced."

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Washington Daily News, June 17, 1936]

SWEDEN PUTS GOVERNMENT IN BUSINESS; MAKES IT PAY; BUDGET IS BALANCED—EXAMPLE POINTED TO AMERICANS WHO FEAR NEW DEAL; STATE HAS MANY MONOPOLIES; PEACE POLICY AIDS

(This is the first of six articles on economic conditions in Sweden by William Philip Simms, Scripps-Howard foreign editor.)

Americans who damn President Roosevelt for trying to give the rank and file a break should visit Europe. They should at least take in Germany, Russia, Italy, and Spain—and then they should see Sweden.

In Germany, Russia, and Italy they would find that things have already gone to one extreme or the other. In Spain they would hear conservatives and reactionaries moaning that fascism is the only thing that can possibly save us from bolshevism.

But Sweden, they would learn, long ago adopted the middle course which Spain now dolefully regrets she overlooked. One week in this country would convince Americans that many of the things for which they curse Roosevelt are not only accepted institutions in Sweden, but are among the things to which that country owes her salvation from the fate of Russia, Germany, Italy, and Spain.

SWEDEN SERENE

A large part of Europe lives in fear of what may happen tomorrow. Sweden is serene, her living standard as high as ours, and her prosperity the envy of her neighbors.

Only 50,000 are unemployed. And some of these, Prime Minister Per Albin Hansson said, are seasonably jobless. On a basis of population that would compare with a million unemployed in the United States instead of ten or twelve million.

Construction in some areas, he said, has reached an all-time high. Homes, apartment houses, industrial and business structures are going up on all sides. Sweden's budget is balanced at $250,000,000—equivalent in America to a $5,000,000,000 budget.

And instead of most of it going to pay for past and future wars, the biggest slice of it is earmarked for social betterment, such as old-age pensions, unemployment insurance, an elastic public-works program adjusted to take up the job slack, sick benefits, and so on.

GOVERNMENT IN BUSINESS

A number of factors, national and international, have contributed to Sweden's enviable position.

1. The Government is in business—big business—both for yardstick and fiscal purposes. Its enterprises are profitable.

2. By public-works programs, farm aid, and other means of helping the masses tide over the depression—a policy dating back to 1914, when the World War first dislocated her labor situation—Sweden cushioned the depression's shock.

Swedes are ardent lovers of liberty, economic, civil, and personal. Yet the Government has retained ownership of most of Sweden's waterfalls. It sells power on the same footing as private concerns. Current ranges from around 1 cent a kilowatt-hour to 2¾ cents, the average being under 2 cents.

The Government owns most of the principal railways. These are almost all electrified.

About one-fourth of the total forest area belongs to the Government. And while commercial enterprises are forbidden to enlarge their holdings, the Government is steadily adding to its for purposes of conservation. It sells forests products.

GOVERNMENT SELLS LIQUOR

The liquor business is a state monopoly which adds $50,000,000 a year to her income. This money goes for the promotion of temperance, to pay off the nation's bonded debt, and for rural aid.

To Sweden belong the telephone and telegraph. A 3-minute talk from Stockholm to Malmo, nearly 600 miles, costs about 18 cents, day or night. A full party line costs about $21 a year.

The radio comes under the same general management—the telegraph board. This, however, is farmed out to a partnership composed of the newspapers and the radio manufacturers. The Government receives an annual tax of $2.50 per set, a third of which is turned back for programs. No advertisements and no politics are allowed—save on special occasions when all parties have an equal go at the mike.

GOVERNMENT SELLS TOBACCO

Tobacco is another government monopoly, and there has been talk of gasoline and coffee joining the list. The nation also owns most of its mineral deposits such as iron, copper, sulphur, silver, and gold, in the mining of which it again becomes the partner of private industry.

Thus Sweden has knocked into the proverbial cocked hat the favorite American bromide that governments can't make business pay. In this country State enterprises are run as efficiently and as profitably as any other enterprise.

The formula is simple. Sweden keeps politics out of business. Graft is virtually unknown. She puts up the money, as any capitalist might do, hires the best technicians procurable and tells them to go to it.

In her competition with private industry, she is scrupulously honest. Each industry must pay its way. It is fairly capitalized. No tax money goes to support it. All the overhead any business encounters is added in.

Less sensibly managed, Sweden might be a poorhouse. Instead, she has a standard of living equal to any. Having had peace for 125 years—her last conflict was with Russia when she lost Finland—she is not paying for stupid wars. Old-age pensions, agricultural aid, hospitalization, temperance, popular education come foremost. Sweden has no illiterate class.

By providing so many price measures, every one of her 6,250,000 people benefits by an unusually low cost of living. They are in pocket hundreds of millions of dollars annually, or have been able to buy just that much more of the things which go to make life worth living.

PRICE YARDSTICKS IN SWEDEN

Mr. BENSON. Mr. President, I ask unanimous consent to have printed in the RECORD an article appearing in the Washington Daily News of Thursday, June 18, 1936, entitled "Yardstick for Everything People Buy Provided in Sweden."

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Washington Daily News, June 18, 1936]

YARDSTICK FOR EVERYTHING PEOPLE BUY PROVIDED IN SWEDEN—RESULT IS FAIR RETURN, LOW PRICES, AND HARD LUCK FOR THE CHISELERS

(Second of six dispatches on economic conditions in Sweden, written after careful investigation, by William Philip Simms, who has just returned from that country.)

(By William Philip Simms, Scripps-Howard foreign editor)

A dollar will go further in Sweden than in any other country in northern, central, or western Europe.

Not our dollar, of course. It suffers on exchange here as well as elsewhere. What I mean is living is cheaper. Swedes get more for their money.

And the reason is yardsticks. The state, the city, and the cooperative groups have set up a measure for almost everything one buys. The masses, therefore, can tell just how much they are being stung when they make a purchase.

NOT EASY TO FOOL

So the cheats and the chiselers have to look sharp to fool a Swede. There's a yardstick for everything from electric-light bulbs, and the current required to make them glow, to crackers, fertilizers, bicycle tires, and the rental on a two-room flat.

I mean this. I have already described how and why the Swedish Government is in the railway, mining, telephone, telegraph, liquor, tobacco, hydroelectric, and other businesses. Now let's have a look at housing.

In America we have been talking about slum clearance for the last quarter of a century. In Sweden they don't just talk; they do it. Some of it is being financed by the Government, some by municipalities, some by private or cooperative movements, and some by combinations of these.

JUST HITTING STRIDE

Approximately $100,000,000 has gone into such projects in recent years, and the movement seems just to be getting into its stride. And that is a big sum for a small country. Sweden lacks a couple of million people of having the population of Greater New York.

The Government—state and city—has put up most of this money. But it has cost the taxpayers nothing. The Swedes are a practical, business-like race. Most people, they found, are reasonably honest and can get along themselves—provided they have a little help. So the Government is merely helping by lending.

About the time, toward the end of the World War, when Americans found themselves sleeping in garrets and cellars, or doubling up, whole families of them, in two or three rooms because of the housing shortage, the Swedes were suffering the same fate.

WENT INTO ACTION

In Sweden, as in America, there was a sort of landlords' trust and rentals soared. But while little or nothing was done about it in the United States, the hard-headed, horse-sensible Swede got action.

A national organization was formed with a long Scandinavian name. But it went by its initials—H. S. B. It stands for the Tenants Savings Bank & Building Society. This society planned three types of apartment houses containing flats varying from one room, kitchen, and bath, to five rooms, kitchen, and bath.

The prospective tenant put up 10 percent of the cost of his flat. The Government advanced the balance and the houses sprang up. Tenants have 20 to 30 years in which to pay, in the form of rent. And the payments are much lower than similar flats could be rented for elsewhere.

On the cheapest of the flats no down payments were required. All the state or city did was to investigate the applicant's character. If he seemed all right he was taken on trust. Almost 100 percent of this class paid on the dot.

EIGHTY DOLLARS GETS HOME

The city of Stockholm has a somewhat similar project. By some it is called magic homes. On city-owned land in the suburbs, it has staked out lots. On these, workers may build their own homes, under municipal supervision, and municipally financed at a fraction of the normal cost.

To get one of these homes all one needs is a good reputation and $80. The city takes care of the rest, the owner, however, doing most of the labor himself. The houses are of the ready-made variety and are comparatively easy to set up. No jerry-built structures are permitted, however. There must be a properly cemented, water-proofed cellar, adequate wiring, heating, and plumbing. Everything must conform to Stockholm's strict building regulations. The total cost is about half what it would be if privately purchased and financed.

Stockholm has lost nothing on this venture. Nor have other municipalities which have undertaken similar projects. The city has a mortgage on the home until paid for and collects a small ground rent. The lots are leased for 50 years and the leases may be renewed if the city has no need for the ground.

MOSTLY COOPERATIVE

It is estimated that 25 percent of the Swedish population live in homes cooperatively built in one way or another. Nor does this include those who bought into so-called cooperative apartment houses privately built for profit.

When President Roosevelt said he intended setting up a hydroelectric power station to serve as a yardstick for rates in the United States, he stirred up one of the biggest hornets' nests of his administration. He was dubbed a "red", a Socialist, a regimenter of big business, and an imitation dictator. Yet Sweden was well on her way in the yardstick business when President Taft was in the White House and Franklin D. Roosevelt was just a young man up in New York State.

To the Swedes nothing seemed more natural. Rightly or wrongly, they somehow look on the state as their instrument. They believe its duty is to make life more secure, and more worth living for all its citizens, not for just a privileged few.

The whole thing is open and aboveboard. No cards are concealed up the Government's sleeve. It pays the regular wages. It takes into account the full commercial value of the enterprise—even if it always owned the power site, mine, or whatever it is—writes off depreciation and all the rest of the overhead, then insists on a fair return. The answer is a yardstick.

In Sweden the yowler doesn't get very far. He knows what is being done is fair. He knows that 99 percent of the public benefits by it. So he makes up his mind to play the game and get his share of the business by giving his customers just as good or better, if he can, for their money.

If he can carry on only by gouging, he is simply out of luck. He folds up.

OKLAHOMA PROHIBITION AMENDMENT—ADDRESS BY R. L. WILLIAMS

Mr. TYDINGS. Mr. President, I ask permission to have inserted in the RECORD an address by Judge R. L. Williams delivered in the City Hall at Muskogee, Okla., June 15, 1936, on the subject of a proposed amendment to the Oklahoma Constitution. I am making this request at the instance of the senior Senator from Oklahoma [Mr. GORE], who is temporarily absent.

There being no objection, the address was ordered to be printed in the RECORD, as follows:

Mr. Chairman, ladies, and gentlemen, I have been requested to discuss the proposed initiative amendment to repeal the provisions prohibiting the manufacture and sale of intoxicating liquors of the Oklahoma Constitution to be voted on at the second primary election on July 28, 1936.

Section 1 recites that the amendment shall be an exercise of the police power to protect the economic welfare, health, peace, and morals of the people of the State and to prohibit forever open saloons, to eliminate the evils of the unlawful manufacture, selling, disposing, and transportation of alcoholic beverages. The contents of the measure do not justify this statement. No doubt thousands of persons signed the petition for this measure on that statement and were thereby deceived as to what was contained in this proposed constitutional provision. This statement should be likened to the kiss of Judas preparatory to the betrayal of Christ, for in my judgment, if this proposed amendment is adopted, it will undermine the liberties and rights of the people of this State.

There is nothing in this bill that will prevent the maintenance of the saloon under this commission. On November 22, 1935, I submitted a draft relative to such repeal for the consideration of Hon. George A. Henshaw, the attorney and representative of the interests seeking this repeal, which contained the following provision:

"The prohibiting within each and every part of this State, by the Constitution of the State of Oklahoma, of the manufacture, sale, barter, giving away, or otherwise furnishing, except as hereinafter provided, of intoxicating liquors, including all spirituous, vinous, and malt liquors, is hereby repealed; with the proviso that no spirituous liquor, which includes brandy, rum, whisky, and gin, shall be consumed, under any circumstances, on the premises on which it is permitted to be sold or distributed."

That limitation would have operated upon the commission and any of its licensees or distributees. But you find no such effective provision incorporated in this proposed amendment, though the same was directly and specifically called to their attention. Further, this amendment as now proposed puts it within the power of the commission to locate a dispensary or a liquor house under the commission or licensee under rules and regulations promulgated by the commission having the force of law which cannot be repealed or modified by the legislature in any county within the State, without regard as to whether the citizenship of that county desire liquors to be dispensed therein. No protection is provided for a county where the majority of the people do not desire a dispensary or whisky store, or licensee to dispose of or sell intoxicating liquors. Utter disregard of the rights of the people in such subdivisions is disclosed and no provision for local option by county or otherwise.

Section 2 creates a monopoly in the purchase and sale of all alcohol and alcoholic beverages within the State, which is contrary to the purpose expressed in section 32, article 2 (Bill of Rights of the Constitution), which provides that perpetuities and monopolies are contrary to the genius of a free government, and shall never be allowed. The creation of a monopoly in favor of any agency, whether private or public, is contrary to the very genius of free institutions, and a free republic cannot permanently exist under such conditions.

Section 3 makes it lawful to manufacture, sell, keep for sale, possess, transport, alcohol or alcoholic beverages in the State of Oklahoma, subject to the provisions of this monopoly created and to be administered by a commission of three persons to be appointed by the Governor without the consent of the senate or any other agency.

The words "alcoholic beverages, commission, person, package, sale or to sell, special agency, or license" are defined in section 4. "Sale" or "to sell" means to solicit or receive an order for; to keep or expose for sale; to offer for value or gratuitously; to peddle; to possess with intent to sell; to traffic in, for any consideration, promise or obtained, directly or indirectly, or under any pretext or by any means whatsoever, to procure or allow to be procured for any other person; and "sale" when so used, shall include every act of selling. The words "special agency" or "license" means a person especially designated or authorized by the Commission to sell alcoholic beverages subject to the provisions of said act.

Section 5 provides for a commission of three to be appointed by the Governor, without confirmation by the senate. Most of the executive appointments provided for in our State constitution to be made by the Governor are subject to confirmation by the senate. No such safeguard is here preserved. Unlimited power is thus conferred upon the Governor. The chairman of the commission of three as designated by the Governor is made the managing officer. The commission have the power to appoint a secretary and attorney, who shall serve at the pleasure of the commission, and such clerks, stenographers, inspectors, auditors, chemists and employees as may be necessary as determined by the commission, who fixes the duties, salaries, and compensation of the employees, no restriction being imposed either as to the number or compensation. The same section gives power to the commission to manage and control exclusively, after such appointment by the Governor, subject to be removed for misfeasance and malfeasance in office only by proceedings on information in the District Court of Oklahoma County. The section provides:

"The commission is hereby vested with authority to make all rules, regulations, and requirements pertaining to the manufacture, sale, transportation, handling, and other operations pertaining to traffic in alcoholic liquors within the State of Oklahoma, subject to appeal, as herein provided. The commission shall also be vested with authority to establish State dispensaries or stores, to enter into sales contracts, or issue licenses to manufacturers, dispensers, rectifiers, wholesalers, and special agencies, and to revoke after a hearing all licenses so issued."

With respect to the intoxicating-liquor monopoly thus conferred, the Governor, through the commission, would have such power as was exercised by a czar or ruler with absolute power, subject to the Federal Constitution. It also gives the commission authority to buy and sell whisky, provide warehouses for its handling, etc., making the monopoly complete and exclusive in the commission as an agency of the State. And such unlimited powers applies also to revenues. Mark the words:

"The commission may fix all revenues and profits accruing to the State of Oklahoma from permits, licenses, wholesalers, special agencies, retailers, dispensers, or manufacturers, and the amount the State shall receive per gallon or otherwise for such alcoholic beverages."

This provision deprives the legislature of all taxing power pertaining thereto. In the history of this Republic and its several States the taxing power has rested solely in the legislature, which represents the sovereign people. This amendment in effect changes our form of government. The States and the Federal Government were created with three branches—executive, legislative, and judicial—each coordinate and a check on the other. Why the necessity to concentrate this power in a commission? If that is essential, why should not the rule apply generally, thus eliminating the legislative branch of Government, thus leading to monarchy? You cannot make a breach and opening and then stop. The principle adopted by our fathers in our Government must live or it must die, and here in a subject relating to intoxicating liquors are we to make the opening that is to pave the way to destroy free institutions? Mark you, section 6 says:

"Such charges and all rules and regulations of the commission shall have the force and effect of law until changed by the commission."

The legislature has no power to change any of these provisions. Further provision is made that the legislature can extend the power of the commission, but in no way decrease same. Section 1, article V, of the constitution, which provides that the legislative authority of the State shall be vested in a legislature consisting of a senate and a house of representatives, the people reserving to themselves the power to propose laws and to enact or reject the same at the polls independent of the legislature, and also reserve power at their own option to approve or reject at the polls any act of the legislature, insofar as the subject of intoxicating liquors is concerned is modified and to that extent repealed, such power to rest exclusively with said commission. This provision has the effect of repealing all powers of legislation whether by the legislature or by the initiative power, relating to intoxicating liquors. It does not repeal the power of the legislature to submit a constitutional amendment relative thereto, nor the power through initiative and referendum to submit such a constitutional amendment, but it does take away the power from the legislature and from the people through the initiative and referendum to legislate relative to this matter. Why this distrust of the people? Why this distrust of the legislature? Why this grasping of power, if not for the purpose of getting beyond the power of the people? I can tell you why. On November 28, 1935, I wrote the

Honorable George A. Henshaw with reference to this matter, and on November 29 he replied as follows:

"I appreciate very much your position in reference to securing a system of administering the liquor control law free from any real political interference or making it possible for a political machine to be organized for the purpose of controlling the State politically. Your position in the matter should be considered by those who may finally pass upon the kind of liquor-control measure to be submitted, and I shall bring all sides and arguments in any conference in which I may be in, either with the administration or with the proponents of the repeal measure. * * * My proposition here is to drive the professional prohibitionist out of the field as well as the bootlegger. If the bootlegger business cannot be driven out, the real moral value of any legal control would be impaired. I want to get the major legislative control out of the legislature. * * * I hope to prevent any prohibition discussion in the selection of the legislature, but center the same on one man, the election of the new Governor whom the people shall have a right to select, and demand a commission that will operate for the purpose set forth in section 1. * * * I personally favor no interference by the legislature except to pass laws to aid the commission, as named in section 1, then if this regulation should prove unwholesome, the people could repeal it in its entirety by their vote and adopt prohibition."

It was the intention of the author to take all power away from the legislature relative to the matters herein mentioned and confer the same on the commission to be appointed by the Governor, and then the elective officer that the interests planning to make money out of the sale of intoxicating liquors would mainly be interested in would be the Governor. They would then have no special concern in the election of members of the legislature. When conditions exist so that this vast machine entrenched behind this liquor monopoly supported by a Governor elected by it and the various other departments of State under his control with hordes of employees, operate as a political machine as they will, it would be impossible for the people interested in good government to elect a Governor.

When the initiative and referendum was adopted it was never dreamed that it would be arranged so as not to afford the people opportunity to carefully consider measures submitted under such power. That provision as placed in the constitution was not self-executing, it being contemplated the legislature would carry it into effect so as to give the people an opportunity to deliberate. In many of the States having similar constitutional provisions relating to initiative and referendum it is provided that the initiative measure must be first submitted to the legislature, who may submit it in the form it is presented, and also, at the same time, submit a competing measure, so the people will have an opportunity at the ballot box to vote for one of the measures and against the other. In some States, provision is made for initiative assemblies composed of representatives from the districts in the State, provision being made for such representations. After an initiative petition is filed, then the initiative assembly is called. The assembly meets and considers the measure. The legislature or initiative assembly may frame a competing measure, each to be submitted to the people at the same election. The question being whether the competing measure shall be adopted in lieu of the proposed measure, or the proposed measure to be adopted in lieu of the competing measure. These measures are printed and furnished to each voter at public expense. The legislature can provide such system here under our constitutional provision. But as to this provision being submitted at the instance of the representative of the liquor interests that are to make money out of the sale of intoxicating liquors drawn by their representative, he having consulted with the liquor interests and then with the Governor with a view of his calling a special election to submit it, I happen to know that a great percent of the last legislature desired to submit an amendment providing simply for repeal with the proviso that "no spirituous liquor, to include brandy, rum, whisky, and gin should be consumed, under any circumstances, on the premises on which it is permitted to be sold or distributed."

Press reports during that period carried the news that the Governor did not want the legislature to handle such, as he thought it would interfere with his legislative program, and for that reason it wasn't considered by the legislature. A matter that affects the people so vitally ought not to be left to the representative of the liquor interests to determine what kind of repeal measure should be submitted, and I doubt the advisability of its hasty submission, and at the primary election, when it may become complicated with political fortunes of individuals. The people may not have sufficient time to become familiar with its complicated provisions.

Section 17 of this proposed amendment expressly repeals not only all provisions of the constitution relative to prohibition but also all existing laws in conflict with this repealing amendment, which provides that hereafter it shall be "lawful to manufacture, sell, keep for sale, possess, and transport alcoholic beverages in the State of Oklahoma", except article 1, chapter 16, of the Revised Laws of Oklahoma, 1931. Section 16 of this proposed amendment provides that said article 1 shall remain in full force and effect until changed by rules and regulations of the commission. Said article 1 of said chapter 16 permits the Governor to prescribe rules and regulations for the sale of pure grain alcohol, etc., and to establish warehouses in which to store such alcohol. Section 6 of this proposed amendment provides:

"* * * It shall be the duty of the attorney general, or any county attorney, upon the written request by the commission or the Governor, to institute civil or criminal proceedings for the violation of any rules, regulations, or laws of the State of Oklahoma in reference to the control, possession, and sale of intoxicating liquors, if, in the judgment of the attorney general or the county attorney, the facts or circumstances submitted by the commission warrant or justify such legal action."

The only rules, regulations, or laws that are to be in force outside of said article 1, chapter 16, herein referred to (and that only remains in force until the commission repeals it) are the provisions of this proposed amendment and rules and regulations which have the effect of law promulgated by this commission. It does not become the mandatory duty of the attorney general and the county attorney to make such prosecutions, when it is called to their attention by written request by the Governor or the commission, but rests in their discretion to do so. Under this constitutional provision the elective officers, the attorney general, and the county attorney cannot institute any of these prosecutions or suits unless that written request is made by the Governor or the commission. Those who may violate these rules and regulations having the effect of laws cannot be prosecuted unless the Governor or the commission so request. When I read this provision I was slow to believe that whoever framed it intended to create such a condition, and reached the conclusion it was the result of drawing a constitutional provision without having the same considered in a deliberate way by the representatives of all parties interested. Then further it says:

"The Governor and the commission shall be charged with the duty of enforcing all provisions of this amendment and rules and regulations, or laws, that may be promulgated or enacted under provisions of this amendment."

Such rules and regulations having the force of laws can only be enacted by the commission. The legislature cannot change or amend a rule or regulation made and promulgated by this commission. All it can do is to add to its powers. It further provides:

"All members of the commission and all employees that may be designated by the commission shall be police officers of the State with the same power and duties in reference to the enforcement of this amendment and the rules and regulations prescribed thereunder now possessed by sheriffs of this State in their respective counties. It shall be the duty of the Governor to issue a commission to all such police powers to be exercised by virtue of such commission."

These so-called peace officers have jurisdiction all over the State. They will have power to search premises, to arrest people, being responsible to no one except the commission. The legislature has no power over them. Courts will have no power over them unless the Governor or the commission shall submit the matter to the attorney general or county attorney to institute proceedings. In the counties, cities, and towns where these intoxicating liquors are sold no power exists in the legislature to provide for any of the funds derived from the profits or license or permits arising from the sale of vinous, malt, and spirituous liquors in restaurants, coffee shops, liquor stores, and other agencies to be applied as aid to such counties, cities, and towns to provide additional local police and protection to its citizens rendered necessary on account of such intoxicating liquors being sold and dispensed in such local communities. And for the legislature to impose taxes to be levied and collected by the counties, cities, and towns to meet this additional necessity of policing for protection would be a burden that would be unjust and could not be economically borne. If it is contemplated that the commission, out of the funds derived under this liquor monopoly, is to provide this additional policing, and that the Governor and the commission are to commission such police officers to preserve order in the counties, the cities, and towns thus rendered necessary, it discloses a purpose to decentralize local government and to centralize government in the Governor and the commission.

One can scarcely believe that such was the purpose, but it seems that such is the result, and shows the inevitable conclusion that this amendment should be voted down and if one is to be submitted in the future it should be submitted by the legislature where careful hearings will be had before committees and every possible phase of the matter presented.

Section 10 provides that: "The commission shall permit, under rules and regulations prescribed by it (that is, under laws to be made by it), the sale of beer, wine, ale, and other alcoholic beverages (which would include whisky, rum, gin, and brandy) to be served for consumption with meals in bona-fide hotels, clubs, and restaurants or dining cars in trains, approved as such by the commission. The alcoholic contents of such alcoholic beverages served with meals, as herein provided, shall be under the rules and regulations prescribed by the commission. Such rules and regulations shall strictly provide against the establishment of saloons either directly or by subterfuge. All other alcoholic liquors shall be sold only in original packages, containing not less than one-half pint (that means not less than 4 ounces) for consumption off of the premises where sold. Apartments and rooms in regular hotels rented by a bona-fide occupant shall be considered off the premises."

With the commission fixing rules and regulations permitting the licensee to dispense intoxicating liquors in a hotel building it is difficult to conceive how many hotels would be established without becoming in fact saloons.

If when a man or woman, or both, come in for a room same could be assigned or rented to him or her or both of them, then

the alcoholic liquor could be sent up to the room and there served. In the days of the saloon the bar would be downstairs and sometimes in the rear and sometimes upstairs would be the gambling room, and then in other rooms upstairs would be rooms for prostitution. Under this provision it would not be difficult to bring back the same conditions that formerly existed with a bar, a bawdyhouse, and a gambling room all combined into a hotel. I am impressed that this provision was drawn with a view of promoting business rather than promoting temperance.

In section 8 provision is made for a temperance review board. What will they review? That proposed board is to be composed of nine district judges, the rules and regulations of the commission as herein provided for are to be subject to appeal to the temperance review board by county commissioners of any county or by any city, town, or municipality in the State of Oklahoma, the appeal to be filed with the clerk of the supreme court, under some simple and adequate procedure adopted by the commission, which procedure may be changed or modified by the temperance review board. What are the powers of that review board? No provision is made that the review board can substitute its order or rule or regulation in lieu of a rule or regulation made by the commission, nor that any of the contracts for the purchase of whisky and plants and the acquiring of warehouses and the outlay of hundreds of thousands of dollars and for borrowing as much as $400,000 can be reviewed and the judgment of this review board substituted therefor. This provision is ineffective. I do not charge that they are seeking to deceive you, but in the most charitable way I say it is the result of hasty framing of amendments. The only power that is left with the legislature is in section 11, where it says:

"The legislature may enact laws extending the powers of the commission and prescribe penalties for the violating of any of the provisions of this amendment or rules and regulations having the effect of law."

It cannot repeal or modify or change any rule or regulation made, and the statement by the attorney who drew this provision, from which I have quoted, shows it was his purpose that it should not have such power.

I was opposed to national prohibition, and in my early years I was in favor of local option by counties, but on account of the Indian situation I reached the conclusion that I should support State-wide prohibition at the election of the State. I felt that on account of the peculiar conditions that existed and the treaty obligations existing in favor of the red man made it necessary, and I fearlessly stood by that proposition. I think that the question of repeal ought to be submitted to the people of this State, but not under such a provision as this, that would practically destroy the State as a part of a republic, and lead to the creation of a corrupt political machine. An amendment providing for the repeal of the prohibition provisions of the constitution, not to take effect until 90 days after the legislature adjourns, should be submitted by the legislature, the people in the meantime to have an opportunity to elect a legislature on that issue. Then if it was repealed, if a two-thirds majority of each house of the legislature for regulation, so that it would take effect at once, could not be obtained, the 90-day period would cover the situation, for then the legislative regulatory bill would be in effect with the expiration of the 90 days.

The proviso that no spirituous liquor, which includes brandy, rum, whisky, and gin, shall be consumed under any circumstances on the premises on which it is permitted to be sold or distributed should be attached to the proposed repealing provision. And, further, I suggested to Judge Henshaw that if they were determined to have a commission under a monopoly, that this provision should be incorporated:

That the Oklahoma State liquor-control board shall consist of the Governor; the two district judges in the State with the longest continuous service in such capacity, but from different districts; the president of the Oklahoma State University; the president of the Oklahoma College for Women; and two electors to be designated by the president or chancellor of all "A" class colleges and universities in the State in nowise supported by public taxation or such presidents or chancellors as participated in such designation.

It was herein contemplated that this so-called liquor board would name a commissioner to handle this matter. Due respect to the Governor was shown in suggesting him as a member of the board. Certainly the president of the State university and the president of the women's college would not be unfriendly to the Governor, as the major appropriations for these institutions would be approved by the Governor. The two district judges in the State longest in continuous service would have been elected by the people from five to six or seven times, and that was proof evident of high character and integrity, and the two electors selected by the presidents and chancellors of these church schools would be men of the highest integrity and character.

This would have removed the matter from the domain of politics and the matter would not have been handled for the primary purpose of making money or getting revenue or political manipulation, but to truly promote temperance and sobriety and to do away with the lawlessness connected with whisky. I submitted both plans but each time my urging fell on deaf ears. I cannot see any difference between the bootlegger ab initio criminal and a body of men building up a political machine through a liquor monopoly. I would rather have the bootlegger as a known criminal agency and enemy than to have such agencies of the State liquor monopoly poisoning the political life of the State, because it would eat in and undermine morally the public life of the State. To my mind, there is nothing good about whisky, except when it is used as a medicine, but unfortunately so many of the human race have an appetite for it, and the question is to fix it so that we can let them get it without them participating in or aiding the violation of the law. The problem should be whether you have absolute prohibition or whether you have such control of liquor as to permit the man that is ready and eager and provided with the funds with which to get it and drink it, to let him get it without participating in or aiding in the violation of the law, but fix it so that although he has the funds and he is ready and willing, yet if he is a drunkard, that he cannot procure it. These are the problems we must meet and solve as steady, sensible, and unselfish citizens.

REPUBLICAN NATIONAL PLATFORM—EDITORIAL FROM WASHINGTON DAILY NEWS

Mr. MURRAY. Mr. President, I ask unanimous consent to have printed in the RECORD an editorial from the Washington Daily News of June 13, 1936, relative to the Republican national platform.

There being no objection, the editorial was ordered to be printed in the RECORD, as follows:

[From the Washington Daily News, June 13, 1936]

A MAJOR FAILURE

Among the false and sour notes of that discordant medley that is the Republican platform is one declaration that is in key with a growing American chorus. This is:

"The administration of relief is a major failure of the New Deal."

The critics of Federal relief policies are not confined to any party, class, or group. They include many thoughtful students of the subject, most of them friendly to Mr. Roosevelt. Grateful as these are for the President's humane and forthright action in accepting Federal responsibility for feeding the restless, hungry millions whom the Hoover administration fed with cheerful phrases, they are not satisfied with the costs, the practices, and the planlessness of the relief administration during the past 3 years.

The Republicans' relief program may or may not point to the right solution. They would return administration to nonpolitical local agencies, continue Federal grants in aid with a "fair proportion" of the burden assessed to States and localities, establish the merit system in administration, separate public works from relief, and build public works "only on their merits." Finally, they call for "a prompt determination of the facts concerning relief and unemployment."

Whether the Republican Party's relief program should be approved in full depends on how it is interpreted. But certainly the last plank is sound.

We must know more about this new burden, now costing us billions, creating deficits, piling up a dangerous debt. Now we know hardly anything.

President Roosevelt can go far toward taking this question out of partisan politics. Congress is still in session. He can ask Congress before adjournment to create an expert fact-finding, policy-guiding board, finance it with ample funds, and man it with the Nation's most distinguished and public-spirited citizens. They can bring a report to the next Congress shedding light upon and thinking through this baffling problem in all its phases.

A handful of Republicans in a committee room can't settle the relief problem. Neither can Mr. Roosevelt's busy little group of relief administrators.

HON. MAURY MAVERICK, OF TEXAS

Mr. BONE. Mr. President, I ask unanimous consent to have printed in the RECORD certain extracts from statements having reference to Hon. MAURY MAVERICK, a Member of the House of Representatives from Texas, and also an editorial relative to him.

There being no objection, the excerpts and editorial were ordered to be printed in the RECORD, as follows:

As a result of this record during his first term of office, Robert S. Allen and Drew Pearson, of the widely syndicated Washington Merry-Go-Round, announced:

"The Congressman of the year: MAURY MAVERICK, of Texas. Because of his consistent campaign for freedom of speech, freedom of the press, and to keep this country out of war."

Finally, and in summation, the liberal New York Post gave this editorial estimate of the Congressman from the Twentieth District of Texas:

"Representative MAURY MAVERICK, of Texas, is one of those men who make politics worth reading about.

"He is something new in Congress. He is a man who isn't afraid to speak his mind. He has proved quite a shock to sedate old Members of the lawmaking bodies. They can't understand him.

"The general public may not always understand him, either, but that is unimportant. The important thing is that they like him.

"The little guy has sold himself to them and to the country."

The Baltimore Sun, commenting editorially:

"It happens he was born in San Antonio, educated in Texas and Virginia, served in France, was badly wounded in action, and was cited for gallantry and extremely meritorious service. Too bad there aren't more like him in Congress. * * *"

SEVEN HUNDRED NEWSPAPERS COMMENT FAVORABLY

Over 700 newspapers throughout the country commented favorably on his fight for civil, religious, and academic liberties.

The Pittsburgh Press declared in a page 1 editorial:

"MAURY MAVERICK assailed the bills abridging the rights guaranteed in the first amendment. He attacked the tyranny of California planters, the bunk about communism in the Army and Navy, the attempt to inflate the handful of Communists in the country into a "red menace." He advised Army and Navy officers to go back to their business of defense and discipline and Congress to its job of relieving the distress of the people."

Even the arch-Republican New York Herald Tribune, shedding its party prejudices, remarked:

"These measures * * * can easily be perverted into instruments for the suppression of free speech and freedom of action, and so are more of a danger to the civilian population than to the military. Such measures most certainly belong on the 'must not' list. Representative MAVERICK is to be congratulated on his stand."

LEADING AMERICAN COLUMNIST'S PRAISE

Heywood Broun, in his widely syndicated column, declared:

"MAURY MAVERICK is truly a liberal in the best sense of the word, and is representing liberalism at its best when he fights to have the Bill of Rights restored to the Constitution."

Mr. MAVERICK's fight for a stringent American neutrality policy undoubtedly played an important part in the enactment of the present neutrality legislation. Rodney Dutcher, of the Scripps-Howard papers, outlined this struggle:

"It was the red-hot indignation of certain Members, conspicuously Senator HOMER BONE, of Washington, and Representative MAURY MAVERICK, of Texas, which impressed and infected others to the extent of wrecking a neat plan to bury the proposals designed to keep us out of war.

* * * * * * *

"The law Congress passed imposes the arms embargo, licenses munitions exports, and lets the President lay down minor restrictions. It was a distinctive, if not complete, victory for MAVERICK."

At the conclusion of this fight the New York Sun, though bitterly antiadministration, felt obliged to remark:

"MAURY MAVERICK's name is almost too good to be true. The young Texan, quite a sizable chunk of dynamite packed in small compass, has been among those counselors who urged Mr. Roosevelt to meet his opponents 'head-on.' At the same time, he has never compromised his principles when they conflict with White House policy. For a newcomer, he's decidedly out in front and an increasingly important figure in the House liberal group."

VILLARD—NATION'S HONOR ROLL

And Oswald Garrison Villard, editor of The Nation, noted happily:

"The emergence of a group of first-term Congressman enthusiastically progressive, including MAVERICK, of Texas, has been the happiest event of the present Congress."

Later Mr. Villard was to find this high estimate entirely vindicated when the Nation's board of editors selected Mr. MAVERICK for its "1935 Hall of Fame" or "National Honor Roll" because—

"* * * His refusal to submit to party discipline was in no small measure responsible for the existing neutrality legislation."

Mr. MAVERICK's campaign on behalf of the Tennessee Valley Authority was succinctly described in the Florence (Ala.) Times:

"Passage of that bill also is being largely credited to the efforts of the Texan."

Summing up his effort for T. V. A., the Nashville Tennessean declared:

"The Texas MAVERICK has been an invaluable ally of T. V. A., of the South, and of the President. He has been a dynamo of energy and a forceful champion of progressive government."

PUBLIC OPINION, JOURNAL OF SOUTHWEST, URGES REELECTION

Public Opinion, a leading nonpartisan journal of the Southwest, of which the Honorable Jules Appler is editor and publisher, strongly urges the reelection of Congressman MAVERICK in the following editorial:

"MAURY MAVERICK SHOULD BE RETURNED TO CONGRESS

"This is the last issue of Public Opinion before the Democratic primaries are held. The people of San Antonio and Bexar County have before them a vital matter to decide—whether an honest, conscientious, and valuable public official is to be retained in public office or be replaced by another, with no just reason to justify his removal.

"Public Opinion is not prompted by any selfish motives in the position which it has taken in this matter, and if MAURY MAVERICK was to offer in any manner to remunerate the publisher of this magazine we would consider it an insult.

"As every citizen of San Antonio knows, although Harry Wurzbach was a Republican, he was so useful to this city, as he was on the Military Affairs Committee and through his efforts many hundreds of thousands of dollars were appropriated by Congress for the different military posts in and around San Antonio, that both Republicans and Democrats continued to return him to Congress. This is as it should be.

"It is no more than just that the same rule of justice should apply to MAURY MAVERICK, as he is on the Military Affairs Committee of Congress and is working hard to have millions of additional money appropriated for the different military establishments around San Antonio.

"Public Opinion believes no one can offer a just reason why MAURY MAVERICK should not be returned to Congress."

MAVERICK WILL BE MEMBER OF SUBCOMMITTEE ON AVIATION, WHICH IS SO IMPORTANT TO SAN ANTONIO

Hon. LISTER HILL, who is in line to be chairman of the Committee on Military Affairs next year, has written that Mr. MAVERICK will be on the Subcommittee on Aviation next year. The letter is as follows:

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, D. C., June 6, 1936.

Hon. MAURY MAVERICK,
House of Representatives, Washington, D. C.

MY DEAR MAURY: I am advised that you are leaving today at 1 o'clock for Texas, and I am not sure that I will have the pleasure of seeing you before your departure. I am therefore taking this means of conveying to you my appreciation of your kindnesses to me during this Congress and of your splendid work on the Committee on Military Affairs.

You have the honor to represent a great district, which, as you know, comprises some of the most important links in our whole system of national defense; and you have certainly been diligent and indefatigable in looking after them.

As you know, if the Democrats win in November—and I feel absolutely confident that they will—I will be in line to be chairman of the Committee on Military Affairs. As you also know, most of the members of the Subcommittee on Aviation of the Committee on Military Affairs are Members who have had long tenures of service. I want you to know, however, that if I am chairman it will give me great pleasure to appoint you on the Subcommittee on Aviation. This will place you in a fine strategic position for service to your district and for service to the whole country.

Permit me to wish for you a happy summer and all success on your renomination and reelection.

With kindest personal regards and every good wish, I am,

Very sincerely,

LISTER HILL.

PRESIDENT ROOSEVELT'S MESSAGE TO DETROIT SEAWAY CONFERENCE

Mr. BONE. Mr. President, I ask unanimous consent to have printed in the RECORD President Roosevelt's message to the Detroit Seaway Conference on Wednesday, March 11, 1936.

There being no objection, the message was ordered to be printed in the RECORD, as follows:

The Great Lakes-St. Lawrence Seaway and Power Conference at Detroit is a welcome and significant event. Farm and civic leaders from all sections and official representatives of States and cities are assembling for a most practical purpose on the border between Canada and the United States.

The immediate objective of the conference is the support of constructive measures to utilize the natural resource of the chain of inland seas and connecting rivers which form one of the great frontiers of the world. It has been the historic policy of the two nations to use this frontier solely as an instrumentality of peace.

Under this policy an opportunity is now presented to complete a seaway comparable in economic value to the Panama Canal. The public development of St. Lawrence power is inseparably linked with the navigation project.

The improvement of this great resource for the dual purposes of navigation and power is an important part of the program of the present administration. It will enable us to take the next step to extend to the Northeast benefits already assured from works completed or under construction in the Tennessee Valley in the Southeast, at Boulder Dam in the Southwest, and on the Columbia River in the Northwest.

I wish the conference at Detroit to be assured not only of continued unremitting effort to complete the seaway and power development but also of my strong conviction that recent events have helped to clear the way for action upon the broadest lines of public benefit.

In a message to the United States Senate, I pointed out that the construction of dams and locks in the 120-mile stretch of the St. Lawrence River, between Lake Ontario and Montreal, is virtually all that is required to complete the seaway from the head of the Lakes to salt water, and that the same works will provide an abundant supply of cheap power in proximity to a great industrial and rural market.

At that time, I stated the belief that this improvement is without any question going to be completed in the near future and that it should be carried forward by both nations instead of by one. That is my view today.

Such a development as we propose to carry out in the Great Lakes-St. Lawrence Basin unquestionably will result in greater activity for all ports and transportation agencies. This has been the history of all new navigation projects and improvements directed to better commercial communication in this country and throughout the world. The fear that the seaway will result in injury on the lower Mississippi or to our Atlantic ports is groundless.

The use of electric energy is gaining so rapidly today that no sane person would dare to assert that after the 7 years required for construction of works, St. Lawrence power would provide a surplus above actual needs. As a matter of fact, careful studies have shown that there will be a serious shortage of electric energy in the Northeast before the project can be completed.

The Tennessee Valley project demonstrates the advantage of unified planning to develop the resources of a great river basin. If the whole of the Great Lakes Basin were all in one country, either in the United States or in Canada, its development would surely have been completed years ago. The mere fact that this natural resource is shared by two countries should not be allowed to hold back an improvement promising the same social and economic gains to both countries.

To expedite action, it is necessary and desirable to adapt existing plans for the improvement of the Great Lakes-St. Lawrence Basin to the mutual interests and respective needs of the two countries. This is obviously required if we are to secure prompt ratification by both nations.

The Great Lakes–St. Lawrence Treaty of 1932 has not been ratified in either country. Something further than mere resubmission of a treaty is called for under these conditions.

We are seeking, therefore, a new approach to the problems involved in the many projects for improvements in the Great Lakes–St. Lawrence Basin.

The solid basis of good will and cooperation which exists between the United States and Canada, their common interest in the development of the Great Lakes–St. Lawrence Basin for navigation and power and the present and future needs of the Province of Ontario and the State of New York for dependable sources of cheap power supply will, I am confident, prove helpful factors. As the result of years of study, and with mutual recognition of well-established rights, it should be unnecessary to enter into lengthy negotiations or to discard thoroughly tested engineering plans.

It is inconceivable that either of the two nations, bound together by such a tradition of international amity, should stand in the way of the other's utilization of its share of such a great common resource when such use becomes desirable or necessary to its economic progress. It is certain that a plan of development is feasible which, while enabling each nation to meet its requirements, will not demand of the other any undertaking with which it feels itself unprepared to proceed.

Let us be realistic and frankly face the fact that delays have not been due to any failure of negotiations to reach an accord among the four sovereignties involved: The Federal Government of the United States, the Dominion Government of Canada, the Province of Ontario, and the State of New York. Delay has sprung, rather, from fears of economic harm to special localities or to special interests, which I have always believed are grossly exaggerated, and especially from opposition based upon the fact that the power available in these boundary waters is publicly owned and will be generated and distributed, under existing laws, by public agencies in both Canada and the United States.

Provision for the public use of St. Lawrence power was made under a contract between the Dominion Government and the Province of Ontario in 1932. A similar accord, also contingent upon ratification of a treaty, was reached between the United States Corps of Engineers and the Power Authority of the State of New York and upon my recommendation was ratified in 1933 by the United States House of Representatives. Considering all the elements involved, I am more than ever convinced that means can be found to go forward with the development on terms that will serve public requirements.

The Great Lakes-St. Lawrence project is in keeping with the spirit of the times and with the policy of cooperation now firmly established on this continent.

More than 100 years ago the United States and Canada set the first successful example in disarmament by withdrawing ships of war from the Great Lakes. Today these nations, each respecting the complete sovereignty of the other, share an international border of 5,000 miles without a single fort along its entire length. Recently, the two nations took prompt action to effect a reciprocal trade agreement by which prohibitive barriers to mutually beneficial commerce across this frontier have been removed.

In the light of these accomplishments agreement upon the construction of useful works to serve the needs of both countries should present no insuperable difficulties. This is especially true when we consider that these works will enhance the usefulness of the substantial improvements already made by each country as integral parts of a seaway already complete over most of the distance from Duluth-Superior to the Atlantic. And we must remember that equal navigation rights are guaranteed to both nations over the entire system under treaties which are in force today.

For the United States and Canada to demonstrate the full value of such a policy on a frontier that spans a continent would contribute immeasurably to security and progress in the Western Hemisphere.

With the will to cooperate present, I feel we may look forward confidently to the early undertaking of this project on terms acceptable to the two great neighboring nations.

CIVILIAN CONSERVATION CORPS—ADDRESS BY SENATOR GUFFEY

Mr. NEELY. Mr. President, I ask unanimous consent to have printed in the RECORD a radio address delivered by the Senator from Pennsylvania [Mr. GUFFEY] on June 19, 1936, on the subject of the Civilian Conservation Corps.

There being no objection, the address was ordered to be printed in the RECORD, as follows:

On March 4, 1933, when Franklin D. Roosevelt took over the task of righting and reconditioning a capsized rudderless ship of state as it drifted aimlessly in an ocean of discouragement, he first tightened the seams of agriculture, industry, and finance. Then he turned his attention to an even graver problem—the saving of hundreds of thousands of youths of our country as jobless and disheartened they drifted over the land, aimless and demoralized—an easy prey for revolution and crime.

To remedy these conditions, the Seventy-third Congress authorized the organization of the emergency conservation work, which has since become popularly known as the Civilian Conservation Corps—or the C. C. C.

The purpose of this act included the construction, maintenance, and carrying on of works of a public nature in connection with the forestation of lands, prevention of forest fires, flood and soil erosion, plant pests and disease control, the construction, maintenance, or repair of paths, trails, and fire lanes, and the relieving of the acute condition of widespread distress in unemployment, the restoration of the country's depleted national resources and the advancement of an orderly program of useful public works.

In order that there should be manpower available with which to undertake the work, an organization was set up known as the Civilian Conservation Corps. Originally the number of men to be enrolled was fixed at 250,000 of citizens between the ages of 18 and 25 who were physically fit, unemployed, unmarried, and who had dependents.

In addition to the enrollment of 250,000 young men, there also were selected 28,225 veterans of the World War or previous wars who were then unemployed. A man who enrolled had to agree to allot a substantial part of his cash earnings or allowances to his dependents.

The selection of men was handled jointly by the United States Department of Labor, which organization took charge of the enrollment of the younger men; by the Veterans' Administration, in the selection of war veterans; and by the Bureau of Indian Affairs, Department of the Interior, in the selection of enrollees for the Indian reservation camps.

The War Department mustered in the men, transported them into work camps, took charge of camp sanitation and hygiene, and made suitable provisions for recreation and physical development of these young men. The work projects which provided employment were largely carried on under the supervision of various bureaus of the Department of Agriculture, including the Forest Service, the Department of the Interior, and the Department of War.

Before going any further into the make-up or accomplishments of the Civilian Conservation Corps it should be emphatically stated that the C. C. C. was and is entirely a voluntary organization. The C. C. C. makes no discrimination because of race, creed, color, or politics. The term of enrollment is 6 months, with a privilege of reenrollment. However, to eliminate competition between the C. C. C. and private industry for the services of these men, if a youth obtains a private position he can be honorably discharged at once from the C. C. C.

At the time of the inauguration of the C. C. C. there were large numbers of boys and young men who had taken to the highways and boxcars and had become a junior hobo element. Contacts with case-hardened floaters, tramps, and itinerants with criminal tendencies were having a demoralizing effect on these boys who had left their homes because there were no jobs for them.

It was, therefore, necessary not only to provide employment for these youths, but also to rebuild their confidence in themselves and their future. The Civilian Conservation Corps program utilized the forests, parks, and eroded lands of the Nation to supply work. This work was undertaken wherever found without regard to State boundaries on Federal and State lands, and when necessary in the public interest on private land.

The very nature of the work, aside from the educational facilities offered in the camps, had a tendency to rebuild the morale as well as the bodies of the enrollees.

There are many who do not know just what a C. C. C. camp is and how it is organized. Each camp is made up of about 200 young men in the charge of an Army officer, with assistant officers and a camp surgeon, all of whom are members of the United States Army Reserve. These officers have entire charge of shelter, mess, supplies for the camp, discipline, welfare, and sanitation. Each camp has a project superintendent, whose duty it is to plan and supervise the execution of all field work.

Each morning the camp commander turns over to the project superintendent all the men of his company except those actually needed to carry on the necessary camp functions. The camp foremen, who assist the project superintendents, are chosen for their special fitness to the type of work which is being undertaken.

While the Army has charge of the men in the camp, and civilian agencies operate the actual work in the forests and parks, it should be clearly understood that the C. C. C. camps are not military or semimilitary institutions. There is no military drill, no manual of arms, nor military discipline in the camps. The youth does not become subject to any military law; he remains a civilian from the beginning to the end of his enrollment.

Perhaps too much emphasis is being given here to the details of camp procedure, but it is my opinion that the great humanitarian work involved in the C. C. C. far outweighs the monetary value of its achievements.

The record of the work accomplished includes millions of trees planted, thousands of acres surveyed for eradication of plant pests and diseases and millions of man-hours spent in fighting forest fires.

The young men who are doing this splendid work present a much more interesting study. In 1933, without employment or the opportunity for employment, with the situation ripe for development of criminal tendencies, this country faced a situation

where the youths of the Nation were being destroyed. These youths today are learning the value of regular habits, orderliness, cleanliness, and good citizenship.

Let us survey 1 day's routine in the C. C. C. camps.

Reveille sounds at 5:10 in the morning when the boys turn out and engage in calisthenics followed by camp policing until 6 o'clock when the call for breakfast is sounded.

Following breakfast, work assignments are made and as soon as inspection has been completed, trucks rumble away to various work projects. This camp, for instance, is engaged in a reforestation project. Arriving at the scene of work many of the boys strip to the waist in the popular working style and plant pine seedlings on an eroded slope. In a few years, when these pine seedlings have grown to trees, there is a blanket of natural cover to protect the bottom lands and reservoirs, and thus erosion will be checked and controlled.

If the work areas are within a reasonably short distance of camp, the boys return for lunch. If not, they have lunch brought to them in the field. In either case they are back in camp by 3 o'clock, where they have certain chores to perform and then the big event of the day—dinner. The food is plentiful, appetizing, varied, and nourishing. You will not hear any complaints about the quality of C. C. C. rations.

The evenings belong to the boys. They may go to town, to a movie, or they may have a show or boxing or wrestling matches in the recreation hall of the camp, but it is usual for most of them to devote a greater part of the evening in attending one of the educational courses that are being conducted. A few work upon their particular hobby while the reading facilities of the recreation hall attracts others. In a majority of cases these men employ their leisure time in bettering themselves and taking advantage of the educational opportunities offered them.

The educational programs in the camp have made very steady and significant progress. Many of the 500,000 young Americans who were in the camps during the past year, came from homes that afforded little opportunity for education and where the living conditions were unwholesome and insanitary. It is the aim of the C. C. C. to take these young men and provide the educational background that they were denied and so train them that they may be able to fill useful positions in the industrial or business world.

C. C. C. education has been built around the individual interests and needs of each man. To this end, great care has been exercised in the selection of camp advisers. Approximately 60 percent of them were experienced teachers, while the remaining 40 percent had business or industrial experience. So it may be seen that the educational phase of the program is in qualified hands.

A C. C. C. schoolhouse is usually a portion of the recreation hall or some other camp building. As the study work is also voluntary, there is no need for school discipline. The young men taking advantage of the courses offered are willing workers. It is their ambition to remedy their deficiencies, and many partake in vocational training, partly through lessons and partly through the actual work done in the field, such as stone masonry, surveying, forestry, and road building.

We have touched upon the physical and the mental opportunities afforded in the camps. There is yet another sphere of activity, the religious welfare of the enrollee. The President, recognizing the need for religious work in a character-building program for the C. C. C., said in a letter of February 13, 1934, addressed to the Chief Chaplain of the United States Army: "To build this exemplary character is our great task. Without it the abundant life cannot be realized, and the best citizens and the best soldiers of a country are those who have put on the armor of righteousness." A man's religion includes his ideals, his moral standards, as well as his object of worship. It directs his will, thoughts, and emotions. It is his inspiration.

Reserve Army chaplains have been appointed and, in addition, regulations provide for the services of volunteer clergy from all faiths, who conduct religious services in the camps.

The national total of employment for the 3 years ending March 31, 1936, was approximately 1,250,000 enrollees whose average time in camp was 8 months. In addition there were 125,000 war veterans, 20,000 Indians, 50,000 technical experts, including graduate foresters and engineers, as well as construction foremen and other supervisory personnel, 3,000 college graduates employed as camp education supervisors, and upward of 50,000 skilled and unskilled mechanics who were furnished with employment for varying lengths of time.

These men have completed worth-while projects for improving our forests and parks and have aided materially in reducing the huge annual losses from forest fires, insects, and diseases. They have also contributed to the halting of soil wastage of valuable agriculture and timber lands, have developed recreational areas in our parks and forests and, finally, have given invaluable assistance in flood-control operations.

The director of emergency conservation work, Mr. Robert Fechner, recently stated: "The bare columns of figures showing work accomplishments of the C. C. C. may appear cold and uninteresting, but they speak volumes to the forester, conservationist, and to the millions of citizens interested in preserving, expanding, and developing the timbered areas that still remain in this country despite the wasteful and extravagant misuse of our forest resources in past years."

The construction of truck trails, fire lookouts and observation towers, telephone lines and other fire presuppression activities of the C. C. C. have substantially reduced fire losses during the past 3 years that it has been in force.

The elimination of worthless trees, thinning of dense stands, the planting of over 558,000,000 trees, are all part of a general program for the reforestation of millions of acres of cut-over, burned, or otherwise denuded land.

The recent spring floods have been a bitter lesson to many of us. The muddy rivers, carrying away topsoil of our forests and farms, silting dams and blocking channels, left a trail of havoc and destruction. The annual loss through the depletion of our natural resources is staggering.

A recent report on flood destruction in New England states that the flood damage appears greater this year than in 1927, except in the Winooski Valley. The C. C. C. erected flood-control dams in the Winooski Valley of Vermont largely by war-veteran companies working under the supervision of the Corps of Engineers. During the recent flood there was no widespread flood destruction in Winooski Valley, although in 1927, 55 lives were lost and there was widespread destruction of property and cattle. The people of this valley are grateful, and the dams have demonstrated that they have paid for themselves in the destruction that has been prevented.

It is my desire to summarize briefly what has happened in my home State, Pennsylvania. The same story with certain variations could be told of any State. Fire prevention and suppression have perhaps been the outstanding work of the camps on the Pennsylvania forest areas. The average acreage burned over during the years 1933 to 1935, inclusive, during which time the C. C. C. was in operation, showed a decrease of more than 40,000 acres from the annual average for the period 1925 to 1932. Over 57,000 man-days were spent by C. C. C. men in Pennsylvania fighting forest fires in a period of almost 3 years. Approximately 2,500 miles of direct trails and an equal number of foot and horse trails were constructed, and 438 bridges built, affording fire fighters an opportunity to protect many additional acres of forest land.

Over 14,000,000 trees were planted and 1,000,000 acres of State forests and national-forest lands have been surveyed for forest stand, cultural, and planting needs. Wildlife conservation activities have long been an outstanding factor in Pennsylvania's administration of outdoor areas, and the C. C. C. has been of great assistance in prosecuting this work. More than 1,600 pools for fish rearing have been built. Stream improvements have been completed along 635 miles of streams. The C. C. C. has stocked Pennsylvania streams with more than 60,000,000 young fish. Direct employment for varying periods has been provided for an aggregate of 107,000 Pennsylvania men, of whom 97,300 were young men and war veterans. On April 15 of this year there were 25,000 Pennsylvania men in the C. C. C. camps.

Obligations incurred in the operation of C. C. C. camps for the State of Pennsylvania through March 20, 1936, approximated $76,903,000. Each enrolled man in the corps received a basic cash allowance of $30 a month, out of which the young men and the war veterans allotted from $22 to $25 of their monthly cash allowance to needy dependents, and these allotments were mailed direct to the families of the boys by the War Department. Pennsylvania C. C. C. boys allotted to dependents at home approximately $15,556,000 during this period.

The total obligations of the emergency conservation work for the first 3 years, through March 31, 1936, incurred in the operation of the C. C. C. camps, amounted to $1,235,467,612.11. The pay of members amounted to $370,662,319.29, and there was allotted out of their pay to dependents a total of $275,910,309.83 as of April 30, 1936. The popularity of the camps, as evidenced by the universal desire of citizens and towns to have camps located, when feasible, within a close proximity, is partly attributable to the beneficial effects of expenditures by the men of the camps. The purchases of shoes benefited the New England manufacturer as well as the western cattle grower. The purchases of clothing, of machinery, and other equipment aided in furnishing private employment. The pay of enrollees to dependents provided purchasing power to needy families, the benefits of which were felt in every section of the United States.

We have said that in 1933 there was a joint problem of conserving not only our natural resources but in rebuilding and restoring the morale of our youth. It has been said that "an idle mind is the devil's workshop", and it is therefore interesting to note the recent comments of the superintendent of one of the Middle Western State reformatories, who said: "In September 1932 our population was 808, which fell off until on April 25, 1936, we have but 466. It is reasonable to believe that the C. C. C. camps of this State have contributed to the falling off of the population of this institution, and the value of these camps to American youth can never be measured in dollars and cents."

There is a universal feeling of respect for the officers of the United States Army, and the recent statement of the major general in charge of one of the corps areas in discussing the C. C. C. is therefore well worth repeating. He said, "Criticism of the C. C. C. in this section has grown less and less until at the present time it is virtually nonexistent. Yet I am still asked whether or not I think the C. C. C. is worth continuing. My answer is 'yes.' This answer is not because of the value of the work done measured in dollars and cents, although that is great. It is because of the value of the C. C. C. in taking boys off the streets and giving them useful work, because of the marked development in the mental and physical health of the enrollee, because of the discipline inculcated. In short, my answer is 'yes' because the C. C. C. builds men." The people of the United States echo these sentiments and recently gave the Congress a virtual mandate to continue the C. C. C. at its present strength.

THE MERCHANT MARINE

The Senate resumed the consideration of the bill (H. R. 8555) to develop a strong American merchant marine, to promote the commerce of the United States, to aid national defense, and for other purposes.

The VICE PRESIDENT. The question is on the amendment offered by the Senator from Oregon [Mr. STEIWER] to the amendment in the nature of a substitute.

The amendment proposed by Mr. STEIWER to the amendment is as follows: On page 23, between lines 16 and 17, to insert the following new paragraph:

Notwithstanding the foregoing provisions of this section, not to exceed 20 percent of the members of the crew of a passenger vessel employed only in the steward's department may be aliens ineligible to citizenship.

Mr. CLARK. Mr. President, before the vote is taken on the Steiwer amendment, I desire to submit an observation. One of the principal purposes of this bill, and every other ship-subsidy bill, is the protection of American labor—the men who "go down to the sea in ships." Of course, I do not think that ship subsidies ever work that way, and before the conference committee we had the testimony of that grand old man of the seamen's union, Andrew Furuseth, who has devoted a long life of self-sacrifice to the interest of protecting the rights and improving the conditions of American seamen, who testified that the subsidy did not get down to the laborer at all, that it was absorbed by the shipowners and ship operators. But taking at its face value the purpose of the bill, which is to protect American labor, then, Mr. President, I say there is no justification for breaking that down by subjecting American labor, to the extent of 20 percent, to the lowest form of oriental competition. If there is any justification for the bill at all, it is the protection of American labor, and when we start to break that down by permitting the employment on ships of 20 percent oriental labor we have absolutely defeated the declared purpose of the measure.

Mr. DUFFY. Mr. President, will the Senator yield?

Mr. CLARK. I yield to the Senator from Wisconsin.

Mr. DUFFY. I happened to be on the same trip that the Senator mentioned yesterday, and I was wondering if the Senator felt that our American ships should not cater to the trade of people who live in Japan and China. I am in general agreement with what the Senator says, but if we are going to have Chinese, Japanese, and other Asiatics travel on American ships—and I think the American ships need all the income they can get—it might well be that some small leeway should be allowed in the case of the steward's department, which comes in contact with that class of passengers. I do not know whether 20 percent is the correct figure, but it seems to me that that might be taken into consideration.

Mr. CLARK. I think that catering to the oriental trade is a delusion and a snare.

The whole theory of the bill is that we have to depend on American trade for the American merchant marine. I apprehend the American subsidized lines compete to a very small extent with oriental lines for passenger-carrying traffic from oriental countries. I am very certain that the Japanese lines, which are our chief competitors for oriental business, do not make any provision for the employment of Americans because they are also seeking American trade. It seems to me if the theory of the bill that the rights of American seamen should be protected is to be carried out it is a mistake to make an exception of 20 percent in favor of orientals who comprise the cheapest and lowest form of competition. An American who happens to travel on a Japanese line does not do it because he will have American seamen on the ship. A Chinese or Japanese citizen who happens to prefer to ride on an American line will do it because he has some reason to prefer that line rather than that he is going to find oriental seamen on the ship.

Mr. DUFFY. I apprehend the Senator would find more Japanese and Chinese speaking the American language than he would find among those employed as waiters in this country, any who are able to talk Japanese or Chinese.

Mr. BLACK. Mr. President——

The VICE PRESIDENT. Does the Senator from Missouri yield to the Senator from Alabama?

Mr. CLARK. I yield.

Mr. BLACK. As I understand, the amendment which has been offered would permit 20 percent of the employees in the stewards' department to be composed of those who are not eligible for American citizenship.

Mr. CLARK. Yes; and who cannot land in our ports when the ship puts into Honolulu or Seattle or Los Angeles or New York. None from among that 20 percent would be allowed even to go ashore.

Mr. BLACK. The Senator is objecting on the ground that we are providing a subsidy from the American taxpayer the object of which, as expressed by those who favor it, is to give employment to American citizens. As I understand, the Senator believes that if we are taxing the American taxpayer to give employment to American citizens the money should be used for that purpose.

Mr. CLARK. That is correct.

Mr. BLACK. Our investigation showed that in spite of activities of certain interests to obtain subsidies, always based on the ground that it was for American labor, it developed that certain shipping interests were at the same time always actively engaged in trying to have as high an exception as could be obtained so that as many foreigners as possible could be employed.

Mr. CLARK. That is a fact which was also developed in the hearings before the Commerce Committee on this very matter. As I said a moment ago, Mr. Andrew Furuseth, president of the Seamen's Union over a period of some 30 years, testified before the Senate Subcommittee on Commerce that it was his positive opinion that the whole ship subsidy system does not work to the benefit or tend to improve the conditions of American seamen.

I have devoted a great deal of time to efforts to devise a scheme within the law by which the subsidy granted to the various shipbuilders and ship operators on account of labor costs might be made a specific trust so there would be some assurance when the American taxpayers are taxed for the alleged benefit of American labor that American labor would get the benefit. However, I have been unable, either by myself or with the aid of those whom I have consulted, to devise such a system within the law which would be practicable. Therefore I am of the opinion that the benefits to American labor are to a large extent figments of the imagination; but if there are any such benefits under the law, I insist they should belong to American labor and that the taxpayers of the United States should not be taxed for the purpose of keeping in operation a device by which oriental seamen may be employed.

The PRESIDENT pro tempore. The question is on agreeing to the amendment of the Senator from Oregon [Mr. STEIWER] to the amendment in the nature of a substitute.

Mr. CLARK. I ask for the yeas and nays.

The yeas and nays were ordered, and the legislative clerk proceeded to call the roll.

Mr. BILBO (when his name was called). I have a general pair with the senior Senator from Iowa [Mr. DICKINSON].

Mr. DAVIS (when his name was called). I have a general pair with the junior Senator from Kentucky [Mr. LOGAN]. Not knowing how he would vote, I withhold my vote.

The roll call was concluded.

Mr. BARKLEY. I announce the unavoidable absence of my colleague the junior Senator from Kentucky [Mr. LOGAN]. If present, he would vote "nay."

Mr. McNARY. I have a general pair with the senior Senator from Mississippi [Mr. HARRISON], who is necessarily absent from the Chamber. Therefore I withhold my vote.

Mr. METCALF (after having voted in the affirmative). I inquire if the senior Senator from Maryland [Mr. TYDINGS] voted?

The PRESIDENT pro tempore. That Senator has not voted.

Mr. METCALF. I have a general pair with that Senator. Not knowing how he would vote, I withdraw my vote.

Mr. BULKLEY. I have a general pair with the senior Senator from Wyoming [Mr. CAREY]. Not knowing how he would vote, I withhold my vote. If at liberty to vote, I should vote "nay."

Mr. GLASS. I have a general pair with the senior Senator from Minnesota [Mr. SHIPSTEAD]. I do not know how he would vote on this question and therefore withhold my vote.

Mr. MCNARY. I announce that the Senator from California [Mr. JOHNSON] is absent on account of illness.

I also announce the following general pairs:

The Senator from Vermont [Mr. AUSTIN] with the Senator from Ohio [Mr. DONAHEY];

The Senator from Maine [Mr. WHITE] with the Senator from Louisiana [Mrs. LONG];

The Senator from New Jersey [Mr. BARBOUR] with the Senator from Georgia [Mr. GEORGE];

The Senator from Vermont [Mr. GIBSON] with the Senator from South Carolina [Mr. BYRNES]; and

The Senator from New Hampshire [Mr. KEYES] with the Senator from South Carolina [Mr. SMITH].

Mr. ROBINSON. I announce that the Senator from Alabama [Mr. BANKHEAD], the Senator from Colorado [Mr. COSTIGAN], the Senator from Mississippi [Mr. HARRISON], and the Senator from Nevada [Mr. MCCARRAN] are detained from the Senate on account of illness.

The Senator from New Hampshire [Mr. BROWN], the Senators from South Carolina [Mr. BYRNES and Mr. SMITH], the Senator from New Mexico [Mr. CHAVEZ], the Senators from Massachusetts [Mr. COOLIDGE and Mr. WALSH], the Senator from Ohio [Mr. DONAHEY], the Senator from Georgia [Mr. GEORGE], the Senator from Oklahoma [Mr. GORE], the Senator from Illinois [Mr. LEWIS], the Senator from Kentucky [Mr. LOGAN], the Senators from Louisiana [Mrs. LONG and Mr. OVERTON], the Senator from California [Mr. MCADOO], the Senator from Iowa [Mr. MURPHY], the Senators from Montana [Mr. MURRAY and Mr. WHEELER], the Senators from Maryland [Mr. RADCLIFFE and Mr. TYDINGS], and the Senator from New York [Mr. WAGNER] are necessarily detained.

The result was announced—yeas 7, nays 46, as follows:

YEAS—7

Burke	Duffy	Hastings	Townsend
Copeland	Hale	Steiwer	

NAYS—46

Adams	Clark	Lonergan	Reynolds
Bachman	Connally	McGill	Robinson
Bailey	Couzens	McKellar	Russell
Barkley	Dieterich	Maloney	Schwellenbach
Benson	Frazier	Minton	Sheppard
Black	Gerry	Moore	Thomas, Okla.
Bone	Guffey	Neely	Thomas, Utah
Borah	Hatch	Norris	Truman
Bulow	Hayden	Nye	Vandenberg
Byrd	Holt	O'Mahoney	Van Nuys
Capper	King	Pittman	
Caraway	Loftin	Pope	

NOT VOTING—42

Ashurst	Costigan	La Follette	Overton
Austin	Davis	Lewis	Radcliffe
Bankhead	Dickinson	Logan	Shipstead
Barbour	Donahey	Long	Smith
Bilbo	George	McAdoo	Tydings
Brown	Gibson	McCarran	Wagner
Bulkley	Glass	McNary	Walsh
Byrnes	Gore	Metcalf	Wheeler
Carey	Harrison	Murphy	White
Chavez	Johnson	Murray	
Coolidge	Keyes	Norbeck	

So Mr. STEIWER's amendment to the amendment was rejected.

Mr. MOORE. Mr. President, on page 75, line 20, I move to strike out the words "or to vessels of other operators."

The bill provides that the subsidized owners may repair their own ships. Possibly that is all right; but the bill goes further than that and includes the ships of other operators. Therefore, the Government is putting these companies in competition with the independent shipbuilders or ship repairers.

I do not see how there can be any objection to the amendment, which merely strikes out "or to vessels of other operators."

Mr. COPELAND. Mr. President, before the Chair puts the question, let me say just a word.

There are many instances where, in a foreign land, or even here, there would be facilities for the repair of subsidized vessels, and it might well happen that an independent concern, a small owner, might wish to make use of those facilities. If there are any profits, they are all used anyway in liquidating the loan or the debt or the advances made to the subsidized ships; but our thought in formulating the language was that these facilities ought to be used by anybody who cared to make use of them.

The PRESIDENT pro tempore. The question is on agreeing to the amendment offered by the Senator from New Jersey to the amendment in the nature of a substitute.

The amendment to the amendment was agreed to.

Mr. BLACK. Mr. President, on behalf of the Senator from Idaho [Mr. BORAH] and myself, I offer an amendment on the subject which the Senator from Idaho discussed yesterday. We have worked out the amendment, which I send to the desk and ask to have stated.

The PRESIDENT pro tempore. The amendment to the amendment will be stated.

The CHIEF CLERK. On page 27 it is proposed to strike out, commencing on line 3 and continuing through line 18 on page 28, and in lieu thereof to insert the following:

(b) As soon as practicable after the filing of any such application the Commission shall proceed to attempt to adjust all differences with such contractor, including any claims of the contractor against the United States and any claims of the United States against such contractor arising out of its foreign ocean-mail contract. In adjusting such differences and claims the Commission shall not take into consideration any prospective or speculative future profits but shall consider any and all payments theretofore made by the United States pursuant to such mail contract, and the profits realized as a result thereof, and the interest paid and the interest due according to law on construction loans, and all other facts deemed pertinent. If the contractor shall be willing to accept such determination and receive payment for the amount determined by the Commission to be a fair adjustment of such differences, the Commission is authorized and directed to enter into and execute a settlement agreement with such contractor wherein such contractor shall release the United States from any and all further claims arising from such contractor's mail contract: *Provided*, That the Attorney General of the United States may, if he is dissatisfied with such finding, appeal the same to the Court of Claims within a period of 60 days from the date such settlement is agreed upon, of record, by the Commission and the contractor. If such appeal is not taken for the United States by the Attorney General within 60 days from the record agreement between the Commission and the contractor, the contractor shall be paid any sum of money due him under such settlement agreement from any funds controlled by the Commission or hereafter appropriated for that purpose; or if such appeal is taken by the Attorney General, then, within 60 days from the rendition of the final judgment by the courts, the contractor shall be paid any sum of money due him under such judgment from any funds controlled by the Commission or hereafter appropriated for that purpose.

(c) If the holder of any ocean-mail contract terminated by the provisions of section 401 of this title does not enter into and execute a settlement agreement as provided in subsection (b) hereof, such holder may sue the United States in the United States Court of Claims, but such suit shall not be maintained unless brought before January 1, 1938. If suit is filed in the Court of Claims, the claimant and the United States shall have the right in such court to set up and have determined and adjusted by the court all legal and equitable claims, differences, offsets, credits, and recoupments to which either may be entitled, to the end that all conflicting claims, assertions, and rights may be fully, fairly, and completely settled and adjudged by the court, including any question as to the legality of the contract as originally made or as modified, altered, or amended. The jurisdiction of said court to award any damages or payments to the ocean-mail contractor is hereby expressly limited to an award of just compensation under the provisions heretofore set forth, and such just compensation shall not include any allowances for prospective profits or for speculative future profits that might have been realized by the claimant if permitted further to carry out the contract. The remedy herein provided shall be exclusive, and no other suit shall be maintained by the applicant or by any other person in any court of the United States arising out of any claims under or connected with said contract.

The PRESIDENT pro tempore. The question is on agreeing to the amendment offered by the Senator from Alabama,

on behalf of himself and the Senator from Idaho, to the amendment in the nature of a substitute.

Mr. BLACK. Mr. President, I think I can explain very briefly the differences between this amendment and the bill as written.

There was considerable objection on the part of some Senators to the bill as written, on the ground that there was no remedy for the United States, through its legal representatives, if the commission should render a finding of an excessive amount of damages on account of the cancelation of a contract.

In order to afford the Government a remedy in that situation, this amendment gives to the Attorney General of the United States the right to appeal from a decision of the commission within a specified length of time. This is but fair and just, by reason of the fact that if a contractor were not satisfied with the amount awarded he would have the right, under the bill, to go into court and file a suit. The effect of the amendment in this respect, therefore, would be to give a similar right to the United States Government through the Attorney General of the United States.

In the second place, the provisions of the bill have been so redrafted as to guarantee an exclusion from consideration, as elements of damage, of any speculative or prospective profits which are contemplated as possible to accrue under a contract. While the draftsmen of the bill are of the opinion that the measure in its present form would most likely contain such limitation, we are of the opinion that certainly no injury could come to the Government or to the parties by having such profits expressly excluded by the bill.

In addition to that, whatever might be the method of reaching a conclusion in court, the amendment would restrict the commission, in case of a settlement, from any consideration of prospective or speculative profits. That would be the effect of the amendment which we have offered.

Mr. BORAH. Mr. President, I am particularly interested in the amendment for the reason that I think there ought to be some opportunity upon the part of the Government to have any action of the commission reviewed. There is a question involved as to the legality of one feature of the pending measure, but for myself I think we ought to undertake to lay down this rule. I am, therefore, very much in favor of the amendment, which is offered after consultation with the Senator from Alabama.

Mr. COPELAND. Mr. President, I think that in the main, so far as I am personally concerned, I do not object to the amendment. But I believe that the provision in the first part of the amendment, subdivision (b), would hamper the commission very much in making settlements. It provides:

> In adjusting such differences and claims the commission shall not take into consideration any prospective or speculative future profits.

Of course, it is more or less absurd for me to make this argument, but the courts have held that in determining just compensation it is not for a legislative body to lay down rules as to what should be considered just compensation. I am advised that the courts in some very recent decisions have taken that position.

I would not object to the second part of the proposed amendment, subdivision (c), because if the judicial decisions were overstepped, the matter would be properly dealt with by the courts. If the Senator would be willing to omit the first part of the amendment, subdivision (b), and add the proviso at the end of subdivision (b) as written in the bill, so that the Attorney General would be permitted to go into court to raise the question of whether or not a matter had been properly adjusted by the commission, I would have no objection to that, or to the second part of the amendment. I feel, however, that there would be delays in the adjustment of contracts if the commission's hands should be tied, and needlessly, because by the adoption of the proviso the first part of subdivision (b), as proposed by the two Senators, the Attorney General would be given the right to go into court regarding the matter. I ask the Senators how they feel about that suggestion.

Mr. BLACK. Mr. President, so far as the first paragraph is concerned, I am far more interested in that than I am in the second paragraph. There is some question as to the right of the Congress in connection with fixing a rule as to recoverable damages when a case gets into court. There is no question as to the right of the commission to settle a case on any basis it sees fit to adopt.

Frankly, I desire to tie the hands of the commission so tight that they cannot unlock them with reference to awarding damages based on any prospective or speculative profits. It was with the aim of tying the hands of the commission, of whomever it may be composed, so that they could not give any such damages, that I wanted to amend that feature of the committee bill. My judgment is that instead of hampering the commission it would be a decided advantage to the commission and to the Government. In my judgment, better settlements would be obtained, which, while they might be in smaller amount, probably would be fair and adequate.

I do not want any question left in the mind of any commission which may be appointed; I do not want them left under the impression that they have a right, in awarding damages on the cancelation of a contract, to take into consideration the fact that the contractor has been getting two or three million dollars a year which he should not have had, and has been getting his money loaned to him at an interest rate of one-eighth of 1 percent, which he should not have had. Under the bill as it is written, in my judgment, the commission would have that right, and I do not want them to have the right to consider such facts in connection with settlements.

If the parties go into court and can sustain the legality of the interest rate of one-eighth of 1 percent, which I do not believe they can do, and can sustain the legality of this large subsidy, which I do not believe they can do, then they would have a right to recover actual damages. But it is my aim and purpose in connection with this part of the amendment to let the commission know that, in connection with making a settlement as to damages, they would not have a right to look at what the ship operators may have made in the future on illegal contracts, if they are illegal. In my judgment, that is absolutely essential so far as the Government is concerned, if the Government's interests are to be protected.

I fully understand that a great deal depends on the type of commission that is to be appointed by the President. I fully appreciate the fact that if a commission should be appointed and approved by the Senate which had close relationship with the shipping interests or which had any affiliation with them, secret or open, the operations of the bill would be a miserable failure. In other words, what I desire to do, as stated so aptly by the Senator from Illinois [Mr. LEWIS] aside, is to equalize the situation and to give a contractor, if he thinks a settlement is not just, the opportunity to go into court, and let the court determine the matter. Then, if the contractor can maintain the legality of his contract and can maintain his right to collect the exorbitant profits which existed in connection with some of these contracts, he would have a right to do so. But so far as any adjustment and settlement is concerned, I want the commission to understand beyond the peradventure of a doubt that they have no right on earth to award one thin dime to any contractor on account of future or speculative or prospective profits which he might have obtained through contracts which the courts might later have held illegal if they had been sent into court.

I believe this is a very important and very necessary amendment.

Mr. COPELAND. Mr. President, I wish someone else would argue this point, someone with legal training; but in the absence of such an advocate, I must do the best I can.

The proposal of the two Senators relates first to the adjustment of the contracts with those corporations which are likely to be candidates for new arrangements, for new contracts under this proposed law. It is very desirable, as I see it, that there should be speedy adjustment of such differences. We have entered into a solemn contract with

each corporation involved, a contract between the Government of the United States represented by the Post Office Department and the ship operators, a solemn contract that if they will do so-and-so the Government will pay them so much money. Now, it is proposed to cancel those contracts; to do away with each contract. The two Senators are setting up a yardstick as to how the contracts may be canceled, and have inserted language that "any prospective or speculative future profits shall not be taken into consideration." Certainly, Mr. President, we would wish the Government of the United States, in abrogating a contract or in entering into a settlement of a contract, to be just as fair in its attitude as a private individual would be who was seeking to set aside a contract he had made with some other private individual. We do away with that by the proposed language. We tie the hands of the commission. If we cannot trust the commission we had better not have any law. Somebody must be trusted. However, if we adopt the second part of paragraph (b) with the proviso that the Attorney General, if he is dissatisfied, may go into court, we have given the Government its protection.

So far as the second point is concerned, that is an adjustment where there is to be a wiping out of the relationship between the Government and some contractor who does not desire to continue the carriage of the mail, I have no objection to that. I have no objection to setting up standards in such cases, because the court itself would give protection to all parties concerned. However, I do think it is unfair to include it in the first section.

I beg the Senator to modify his amendment by striking out the language of his amendment down to the proviso, and then let the proviso which permits the Attorney General to go into court remain, and that the language as regards the termination of relationships, as provided in the second paragraph, be continued.

In support of the argument, I present and ask unanimous consent to have printed in the RECORD at this point, a comment on the legality of the proceedings.

The PRESIDENT pro tempore. Without objection, the matter will be printed in the RECORD.

The matter referred to is as follows:

JUST COMPENSATION

The important case is that of *De Laval Co.* v. *United States* (284 U. S. 61). This case involved, first, the taking over by the Government of a contract between the De Laval Co. and private parties for the construction of engines for ships and the subsequent cancelation of this contract by the Government as to the uncompleted work at the end of the war. The Court held:

"In this view the Government canceled its own contracts, and it is hard to see why the Russell Co. case is not strictly applicable. Moreover, the act of June 15, 1917 (ch. 29, 40 Stat. 182), authorized the President to cancel 'any existing or future contract', etc., and this language, as we have held, applies whether the contract is with the Government or between private parties. In either case cancelation is an exercise of the power of eminent domain, and the liability of the Government is for just compensation. There is no warrant for saying that the elements to be considered in fixing just compensation are different in respect of the two classes of contracts. The Russell Co. case dealt with a Government contract, but *Brooks-Scanlon Corporation* v. *United States* (265 U. S. 106) involved the requisition of a private contract, and this Court, holding that the claimant was entitled to just compensation, defined the term as follows (p. 123):

" 'It is the sum which, considering all the circumstances—uncertainties of the war and the rest—probably could have been obtained for an assignment of the contract and claimant's rights thereunder; that is, the sum that would in all probability result from fair negotiations between an owner who is willing to sell and a purchaser who desires to buy.'

"Obviously this does not justify the allowance of anticipated profits, although, of course, the fact that the contract, if carried out, would be profitable is one of the circumstances which naturally would be considered by one seeking an assignment of the contract, and must be given its proper weight in fixing just compensation. But that is very different from an allowance of anticipated profits as in the case of a breach. Whether the contract taken or canceled is one with the Government or is a private contract, the result of the two cases is that just compensation means the same—'the value of the contract at the time of its cancelation, not what it would have produced by way of profits * * * if it had been fully performed' " (pp. 71, 72).

The amendment indicates a desire (1) either to insert language with respect to anticipated profits which is unnecessary or (2) to invade the jurisdiction of the courts in the awarding of just compensation. It is the theory that if a Government contract is canceled by legislative direction, then there is no breach of the contract, and the contractor is entitled to just compensation which does not include any anticipated profits. If this is a correct interpretation of the court's views of the cases cited above it is clear that no language with respect to anticipated profits is necessary. If this is not a correct interpretation of the court's decision, then the inclusion of this theory in this bill is an effort to preclude the court from passing upon an issue which is clearly a judicial function.

The legal questions involved here are:

(1) Is the termination of the mail contracts by congressional direction as provided in this bill a breach of contract or a taking by eminent domain?

It is suggested that the rule of damages is different. In any event, certainly the question of whether the act of Congress constitutes a breach of contract or a taking by eminent domain is a judicial question to be determined by the courts.

(2) What constitutes just compensation or the true measure of damages in the event of the termination of the mail contracts under the provisions of this bill?

This is also a judicial question and not one for determination by a legislative body. Even if termination of these contracts is a taking by eminent domain and even if just compensation does not include anticipated profits as stated by the Supreme Court in the Russell Motor Car Co. case, yet it is obviously unfair to make this short definition of just compensation and limit the jurisdiction of the courts to this short definition when the Supreme Court stated in the De Laval case:

"Obviously, this does not justify the allowance of anticipated profits, although, of course, the fact that the contract, if carried out, would be profitable is one of the circumstances which naturally would be considered by one seeking an assignment of the contract, and must be given its proper weight in fixing just compensation. But that is very different from an allowance of anticipated profits as in the case of a breach."

Do they wish to prohibit the Commission and the courts from following the language just quoted from the decision of the Supreme Court in the De Laval case, because they state that an allowance for anticipated profits shall not be made and by inference they would prohibit the consideration of anticipated profits as an element in arriving at the value of the contract terminated, although the Supreme Court says that this is obviously an element which must be considered? If the law should contain a provision excluding anticipated profits it should also authorize the consideration of anticipated profits in arriving at just compensation or the fair value of the contract terminated.

It is clear that the decision of whether determination of these contracts is a breach of contract or a taking by eminent domain is a judicial question and also the measure of damages to be applied in such a case is a judicial question, and it is contrary to the spirit of our institutions for the legislative body to attempt to invade the strictly judicial field. Congress should stop with authorizing suit for just compensation and leave to the courts the determination of just compensation in the light of all the facts in each case. This was what was done with respect to the war contracts involving billions of dollars. Congress did not at that time find it necessary to define either the measure of damages or just compensation. This was properly left to the courts and there is nothing in the records of the suits arising out of war contracts justifying the thought that the United States did not receive justice at the hands of the courts and that the legislative body should limit and restrict the jurisdiction of the courts.

Mr. COPELAND. May I ask the Senator from Alabama if he will not do what I have asked of him?

Mr. BLACK. Mr. President, I am not willing to leave even to the discretion of the Attorney General, whoever he might be, at any time the right to say that under a settlement prospective and future damages shall be paid to the holders of these contracts. I do not believe the holders of such contracts are entitled to have prospective damages. It is my judgment that the Postmaster General was right in his report to the Congress in which he set out with reference to each separate and single contract that it is an illegal contract. Therefore, if these contractors desire to prove that the contracts are not illegal, if they desire to try to get more damages, they can do so in the court, but they will have to do so in the court by sustaining the legality of their contracts under the provisions of our amendment. I sincerely hope the amendment will be agreed to.

Mr. COPELAND. Mr. President, I move that the portion of the amendment offered in paragraph (b) down to the proviso be eliminated.

We are trying to build up an American merchant marine. We are trying to have merchant ships built in American shipyards. We are trying to induce Americans who are interested in the operation of ships to operate American ships under the American flag. I am frank to say that I think the first part of the proposed amendment would delay for a long time the settlement of the contracts and the consummation

of the object we have in mind. I appeal to the Senator from Idaho and ask him if there is not some reason in the suggestion I have made. Let the first part of the amendment be omitted. Let the proviso remain, that the Government shall be protected through the provision that the Attorney General's department go into court to test the matter if there is any doubt about it. Leave in the amendment the last part which provides for the final termination of the contracts, where time is not an element anyway. The operators are simply going to quit, and that is all there is to it. By retaining the first part of paragraph (b) I am as sure as I can be that there will be a material delay in the progress of what we have in mind and the attempt we are making. I appeal to the Senator from Idaho and ask his opinion regarding the matter.

Mr. BORAH. Mr. President, I joined with the Senator from Alabama in the formulation of the amendment. As I said in the beginning, I was primarily interested in the proposition of securing a review upon the part of the Government of the action of some representative tribunal of the Government. After discussing the matter with the Senator from Alabama I joined with him in the amendment, and I am going to support his amendment.

Mr. COPELAND. Mr. President, for the sake of the record I move that the amendment be modified as I have suggested.

The PRESIDENT pro tempore. The clerk will state the amendment of the Senator from New York to the amendment of the Senators from Alabama and Idaho.

The LEGISLATIVE CLERK. In the amendment proposed by Mr. BLACK to the amendment in the nature of a substitute, it is proposed to strike out the following:

(b) As soon as practicable after the filing of any such application, the Commission shall proceed to attempt to adjust all differences with such contractors, including any claims of the contractor against the United States and any claims of the United States against such contractor arising out of its foreign ocean-mail contract. In adjusting such differences and claims, the Commission shall not take into consideration any prospective or speculative future profits, but shall consider any and all payments theretofore made by the United States pursuant to such mail contract, and the profits realized as a result thereof, and the interest paid and the interest due according to law on construction loans, and all other facts deemed pertinent. If the contractor shall be willing to accept such determination and receive payment for the amount determined by the Commission to be a fair adjustment of such differences, the Commission is authorized and directed to enter into and execute a settlement agreement with such contractor, wherein such contractor shall release the United States from any and all further claims arising from such contractor's mail contract.

Mr. BLACK. Mr. President, a parliamentary inquiry.

The PRESIDENT pro tempore. The Senator will state it.

Mr. BLACK. The vote now to be taken, as I understand it, will be on the amendment which the Senator from New York has proposed to the amendment which the Senator from Idaho and I have offered.

The PRESIDENT pro tempore. That is the vote which is about to be taken.

Mr. BLACK. I hope the amendment of the Senator from New York will be voted down.

The PRESIDENT pro tempore. The Senator from New York has moved to strike out a certain portion of the pending amendment. The question is on the amendment of the Senator from New York to the amendment offered by the Senators from Alabama and Idaho.

The amendment to the amendment was rejected.

The PRESIDENT pro tempore. The question recurs on the amendment of the Senators from Alabama and Idaho to the amendment in the nature of a substitute.

The amendment to the amendment was agreed to.

Mr. BLACK. Mr. President, I desire to suggest a very slight amendment which I am sure will be acceptable to all those who favor the pending bill. I should like to call the attention of the Senator from New York [Mr. COPELAND] and the Senator from Pennsylvania [Mr. GUFFEY] to the matter, because I am certain this slight amendment will be acceptable to both of them. Section 807 is a new section which has been added and which gives the Maritime Commission the right to regulate lobbying. It is copied from the holding-company measure. There are about five words which I believe should be added in order to accomplish the purpose intended. If the Senator will look on page 82, line 10, it will be noted that it requires certain registrations on the part of those who advocate or propose any matter affecting shipbuilders, and so forth—

Before the Congress or any Member or committee thereof, or before the Commission or any member, officer, or employee thereof.

Those words were taken from the holding-company law but since, in some aspects, the regulation of this measure will be in other departments, in order to accomplish the full purpose it is my judgment it would be wise to add these words after the word "Commission", "or any other Government agency."

I am sure that neither one of the proponents of the measure would have any objection to that, because it further carries out the purpose contemplated.

Mr. COPELAND. So far as I am concerned, I have no objection.

Mr. GUFFEY. I have no objection.

Mr. BLACK. I should like to offer the amendment on line 10, page 82, after the word "Commission", to insert the words "or any other Government agency."

The PRESIDENT pro tempore. The question is on the amendment offered by the Senator from Alabama to the amendment in the nature of a substitute.

The amendment to the amendment was agreed to.

Mr. CLARK. Mr. President——

Mr. BONE. Mr. President——

Mr. CLARK. I only desire to address the Senate for a very few minutes. I have ostensibly been holding the floor now for an hour and have been yielding to one Senator after another.

The PRESIDENT pro tempore. The Senator from Missouri has the floor.

Mr. CLARK. I desire to detain the Senate very briefly for the purpose of explaining the reasons which actuate me and certain other Senators who share my views in refraining from our expressed intention of opposing this bill so long and as determinedly as our physical strength would hold out, which, of course, at this stage of the session would have the effect of preventing the passage of the measure.

I cannot support this bill or any other ship-subsidy measure. I cannot do it because I believe it to be wrong in principle, because I believe it to be un-American, and certainly because I believe it to be contrary to the long-established tenets of the Democratic Party.

Mr. President, I have seen struggles over the subject of ship subsidies in this country for 35 years, and always the Democratic Party has, with substantial unanimity, as a matter of principle, opposed ship subsidies. I recall 30 years ago, in the closing days of the Congress, when the Congress was about to expire by limitation on the 4th of March, after one of the bitterest battles that I ever saw in the House of Representatives, a ship-subsidy bill was passed by 1 vote, and that only by the action of one Member of the House in certifying to what every man present on that floor knew to be a falsehood, that he had been present when his name was called, or should have been called, and failed to hear it. Immediately after the vote had been announced, the responsible leaders of the Democratic Party in the House came over to the Senate and enlisted the efforts of that brilliant Senator from Tennessee, the late Edward W. Carmack, who proceeded, in the closing days of the session, in a filibuster extending over 4 or 5 days, to talk that bill to death. I do not believe that as a matter of Democratic principle and policy it has ever been controverted that it is absolutely indefensible to tax the taxpayers of the United States for the private profit and remuneration of private individuals.

Yesterday there was inserted in the RECORD without reading a speech delivered in 1915 by the present junior Senator from California [Mr. MCADOO], who was then Secretary of the Treasury. I am sorry that it was all inserted in the

RECORD without reading, because there is one paragraph of it that, to my mind, clearly and conclusively states what has been the tradition of the Democratic Party on the subject of ship subsidies. I am going to detain the Senate for just a moment to read that paragraph, because I think it is an admirable statement.

> What is the real fight in this merchant-marine controversy? It is a fight for subsidies. What are subsidies? They are gifts from the United States Treasury to favored corporations, firms, and individuals who operate ships.

Mark that sentence, Mr. President—

> What are subsidies? They are gifts from the United States Treasury to favored corporations, firms, and individuals who operate ships. Why should we give away millions of dollars of the people's money each year to favored shipowners over whose rates and service we have no control? Wouldn't it be more sensible for the Government to spend these millions in building up a splendid naval auxiliary merchant marine which can be controlled and operated in the interest of all the people? If we adopted the policy of subsidies, wouldn't corporations and individuals with the strongest and longest pull get most of the money, as they always have done when free money has been distributed by the Treasury in the "good old days of special privileges"? Every shipowner and every ship monopolist wants subsidies. Of course they do. They would profit by them, and they are going to make a desperate fight for them in the next Congress.

This was in 1915, mark you, Mr. President.

> But they can't succeed, because no Democratic Congress will pass a ship-subsidy bill and no Democratic President will approve one. The Democratic Party is in control of the Government and is pledged by its platform and record against subsidies. Why, then, contend for the impossible? Why not accept the only practical plan—the creation by the Government of a naval auxiliary merchant marine with the money the subsidists want the Government to give to them? The Democratic Party declared in its platform for a merchant marine created by constitutional methods. To build a naval auxiliary and use it to create a naval reserve of officers and men and to build up American commerce is a constitutional method.

Mr. President, I do not believe there is a Member of this body who is more firmly and more ardently opposed to Government interference in private business or to embarking on Government ownership than I. Senate bill 1, now pending in this body, is a bill introduced by myself to provide for a cost-accounting system, with a view to keeping the Government out of private business. But, Mr. President, when a situation such as is presented by the controversy over the merchant marine comes to be considered, the ordinary rule of the Government staying out of business does not apply, because it is asserted—and with reason apparently—that this is a field in which private capital will not embark; that the necessity for an adequate merchant marine for carrying American products to the markets of the world cannot be filled by private capital, unless the Government goes down into the Treasury and takes the taxpayers' money to build the ships and operate the ships.

Mr. President, in the hearings before the Commerce Committee, in the debates in the Commerce Committee, I have repeatedly asked a question which has never yet been adequately answered. The question is this: If, in order to maintain a merchant marine, it be necessary to take the money of the taxpayers of the United States, even to the extent of 100 percent for the construction of ships, even if it be necessary to pay an unlimited operating subsidy, then why should not the Government, whose taxpayers have built the ships and whose taxpayers are operating the ships, own the ships? Why should it be necessary to say to a private individual, "We will build the ships for you; we will pay you a subsidy, if necessary, of a hundred percent; we will operate under a system by which you take the profit and we take the losses, and then have to go to the necessity of negotiating with you in the event of war or any other national emergency when we want to take the ships for a public service"?

Mr. BONE. Mr. President, will the Senator yield?

Mr. CLARK. I yield.

Mr. BONE. I would not interrupt the Senator except to say to him that I had intended to speak on this bill, but he is doing such an excellent job that I am going to waive any right that I might have to speak on it. I wish, however, to call the Senator's attention to a statement appearing in the Washington News of a few days ago. The author of the statement says:

> In the last 18 years the Government has invested nearly $5,000,000,000 in subsidies, loans, and construction of ships, yet the United States stands virtually at the bottom of the list of maritime nations in the number of cargo vessels of 2,000 tons and up built in the last 10 years.

Mr. CLARK. That is perfectly correct; and I will say to the Senator that, after spending $5,000,000,000, over a period of a few years, comparatively, we have not as good a merchant marine as we had when we started.

Mr. BONE. Does the Senator conceive of any reason, if the taxpayers of this country build the ships out of the Public Treasury, why the Government should not own them?

Mr. CLARK. I cannot, and I have never heard an answer to that question.

Mr. BONE. Is there any reason why we should not be perfectly honest with the people of the country and build these vessels as auxiliaries to our Navy instead of this camouflage of attempting to build up a merchant marine for the private profit of the shipowners by subsidies out of the Treasury of the United States?

Mr. CLARK. I cannot conceive of any reason on earth.

Mr. HATCH. Mr. President——

Mr. CLARK. I yield to the Senator from New Mexico.

Mr. HATCH. The Senator was referring to the question he had asked.

Mr. CLARK. Yes; I have stated the question I asked.

Mr. HATCH. I was quite anxious to get the answer.

Mr. CLARK. There has never been any answer to it, even in the committee by Senators who are championing this measure or by any witness before the committee.

Mr. BONE. Mr. President, will the Senator yield again?

Mr. CLARK. I yield.

Mr. BONE. I do not want to intrude on the Senator. I merely wish to call the attention of my brethren to some declarations of my own party. It will take just an instant and will refresh our memory.

Mr. CLARK. I thank the Senator for his suggestion.

Mr. BONE. In 1904 the Democratic Party made a very strong declaration about this very matter, pointing out that it favored "the upbuilding of a merchant marine without new or additional burdens upon the people and without bounties from the Public Treasury."

Again in 1908 the Democratic Party said practically the same thing, that the merchant marine should be built without burdening the people and without a bounty from the United States Treasury.

Again in 1912 the Democratic Party enunciated the same doctrine, and finally in 1924, when the conservative John W. Davis was the nominee of the Democratic Party, it declared in its national platform:

> We oppose as illogical and unsound all efforts to overcome by subsidies the handicaps to American shipping and commerce imposed by Republican policies.

They were denouncing the Republican Party for employing the subterfuge of subsidies in order to get around the difficulties which followed from that condition.

Mr. TYDINGS. Mr. President——

Mr. CLARK. I yield to the Senator from Maryland.

Mr. TYDINGS. I merely desire to caution my friend from Washington not to read the 1932 Democratic platform. [Laughter.]

Mr. BONE. May I suggest that if the American people in their critical frame of mind will examine the platforms of all parties, they will find nothing to make them proud of any of the American political parties.

Mr. LEWIS. Mr. President——

The PRESIDENT pro tempore. Does the Senator from Missouri yield to the Senator from Illinois?

Mr. CLARK. I yield.

Mr. LEWIS. Complaints are made against the building of ships which shall serve as an aid to the Government incidental to the merchant marine. How does that become a matter of the Government aiding private business? Is

not that the Government building its own defenses and merely spending its own money for Government defenses?

Mr. CLARK. That might be true, but that is not provided for in this bill nor has it been provided for in any ship-subsidy bill which has ever been introduced. Shipowners have always advocated, not that the Government should operate its own ships, but that the Government should go down into its Treasury and take the money of the taxpayers of the United States and give it to the private profit of the shipbuilders and operators of the country. It is to that that I am objecting.

Mr. President, for the reasons that I have stated, of course it would be perfectly impossible for me to support this measure or any other ship-subsidy bill, but we are confronted by a condition, by a peculiar condition, which makes this bill the lesser of two evils.

Let me say in passing that I think the Senator from Pennsylvania [Mr. GUFFEY], the Senator from Vermont [Mr. GIBSON], and the Senator from New York [Mr. COPELAND] are to be commended for the honest and persistent efforts which they have made for months to report a bill which would remove as many as possible of the most objectionable features of the ship subsidy bill as it passed the House at the last session or of the so-called Copeland bill introduced at the present session. The Senator from Pennsylvania and the Senator from Vermont made a long persistent fight in the committee for bills which they themselves had introduced, and the proposed amendments contain many of the features of a character beneficial to labor which were in the Gibson bill and the safeguards for the public interests which were intended to be provided for in the Guffey bill.

While in all conscience the proposal in itself is vicious enough, yet it is a distinct improvement over either the bill as it passed the House or the so-called Copeland bill. Moreover, the consideration which moves the Senators who feel as I do not to prolong unduly the debate on the measure is the fact that, bad as it is, it is an infinite improvement over the system now in force in the form of the so-called fake ocean-mail contracts, the contracts which have been so bitterly and so conclusively denounced by the Postmaster General of the United States.

Mr. BONE. Mr. President, will the Senator yield further?

Mr. CLARK. I yield to the Senator from Washington.

Mr. BONE. I have in my desk several publications of organizations which are committed to the building of a very large merchant marine as auxiliary to the Navy. One can wholly sympathize with their desire to have naval auxiliaries, and that is what impelled me to suggest we ought to go ahead and build them as such. But the same groups are pointing out the great peril to our whole fabric of Government which arises from the pressure groups, as they call them, the minority pressure groups who come to Congress and seek what they designate as special privileges, to loot the Treasury for the benefit of special groups.

Does not the Senator from Missouri contemplate this proposal as a tacit bid or challenge to groups who feel that the shipowners are going to become wealthy overnight from subsidies? Is it not a bid or invitation to any of those groups which have been so vociferously denouncing outfits like the Liberty League to come to Congress and endeavor to accomplish the same thing for their own benefit?

Mr. CLARK. I agree with the Senator from Washington. On the other hand, we are confronted by a condition. That condition is that there is in effect today an actual subsidy system, although it is not called a subsidy system, but operates under the disguise of mail contracts. It is in effect a subsidy—a more vicious and indefensible subsidy than the one set up in the pending bill—and when confronted by the question of either permitting that condition to remain in effect or passing the bill as it is now before us, I choose the lesser of the two evils.

Mr. BLACK. Mr. President——

Mr. CLARK. I yield to the Senator from Alabama.

Mr. BLACK. With reference to the statement made by the Senator from Washington, I think the Senator from Missouri will agree with me that for the first time, so far as we know, in the history of the Government a subsidy bill has been offered, and has gotten thus far along, which provides a limitation of profits, a complete supervision of subsidiaries, associates, and affiliates, and a limitation on salaries; that there has been offered here the nearest approach to a bill in the nature of a subsidy that would protect the public.

Mr. CLARK. I think the statement of the Senator from Alabama is absolutely correct.

Mr. BLACK. In addition to that, it also contains provisions which for the first time require that the lobbyists for the shipping interests, many of whom perhaps are in the galleries now, as they usually are, shall register and reveal how much they receive. So far as this bill and the present system are concerned, there can be no question that the bill is an infinite improvement over the present system.

Mr. CLARK. I think the Senator from Alabama is entirely correct, and it is for that reason that I do not intend to pursue my opposition to the measure and kill it by talking it to death.

Mr. BLACK. I think the views of the Senator from Missouri and mine are very much in accord. If those who favor a subsidy are not willing to pass the bill with these provisions, I am sure the Senator agrees with me that the time would be here to attempt to defeat ship-subsidy legislation and see if it is possible for us, when Government money is being spent, to have the Government own the ships which are built.

Mr. CLARK. I agree entirely with the Senator from Alabama, and that brings me to the one thought I have in conclusion. There have been rumors around the Capitol, at least, so I have been advised, that the shipping interests of the United States, those who desire to secure subsidies, much prefer to have the present system remain in effect rather than to have the bill passed. To that end they hope, so it is said, to sidetrack the passage of this measure in the House of Representatives and to procure a reappropriation of the $29,000,000, or whatever sum is necessary for carrying out the present ocean-mail contracts.

I desire to concur in what the Senator from Alabama said yesterday and to join with him in giving notice that if the bill be not passed and an endeavor shall be made to reappropriate that money or make a new appropriation for carrying out the present ocean-mail contracts, we will use every honorable means to defeat any such legislation.

Mr. BORAH. Mr. President——

Mr. CLARK. I yield to the Senator from Idaho.

Mr. BORAH. I have always been opposed to a ship subsidy, but there is a very difficult question here to solve, and that is whether, in view of the present condition of the law and the system which prevails, we will not be serving the public interest by getting rid of that law and passing the pending bill.

Mr. CLARK. There is very strong ground for the Senator's contention in that matter. I personally feel that I should not vote for a ship subsidy bill of any kind, but, for the reason stated by the Senator, I do not propose to conduct any prolonged opposition to the bill.

Mr. BORAH. It does not seem to me, when I vote for the lesser of the two evils, that I am necessarily endorsing the principle of either of them.

Mr. CLARK. I think the Senator is correct. I personally was pledged to vote against a ship subsidy; I so pledged myself before my constituents; and, accordingly, I feel bound to vote against it. But a man who is opposed to a ship subsidy may logically and conscientiously vote for this measure as the lesser of the two evils.

Mr. COPELAND. Mr. President, I ask unanimous consent to insert in the RECORD at this point two quotations from our report on the merchant marine bill. I should not wish the historian to think there was no answer to the remarks of the Senator from Missouri.

The PRESIDENT pro tempore. Without objection, it is so ordered.

The matter referred to is as follows:

SUBSIDY PAYMENTS NOT A GIFT TO SHIPOWNERS

The contention that the subsidy payments provided would constitute a gift to the shipowner cannot be substantiated by even the most prejudiced reasoning.

The facts are—

1. The shipowner never receives the construction differential subsidy because it is paid to the shipbuilder in order that ships may be built in the United States instead of abroad, and is necessary to maintain the American standard of wages.

2. The operating-differential subsidy merely reimburses the shipowner for the excess of the cost of American labor and materials over the foreign cost of the same items, an amount he would not pay at all if he chose to operate a foreign-flag ship.

3. In accordance with the President's message, and subject to his approval, subsidies paid by competing foreign governments to their shipping may be partly or wholly equalized. Without this it should be apparent to even the most casual student of economics that American shipping could easily be driven from the seas.

In consideration of its contract the Government receives—

1. Naval and military auxiliaries.

2. Protection and extension of American foreign commerce, and assurance of available transportation for it.

3. Employment for American labor, and consequent reduction of relief expenditures.

4. The right of requisition at low cost to the Government.

5. The right to specify and confine the operation of the vessels to a definite trade route.

6. Registry of vessels under the American flag for at least 20 years.

7. The use of American materials and supplies.

8. Right of readjustment of contracts.

9. Right to control the sale, transfer, and management of vessels.

10. The right to impose upon the shipowner, in the conduct of his business, a multitude of restrictions not borne by shipping or any other business.

11. Right to specify that national-defense features of no value for commercial purposes be incorporated in the ship.

12. Possibility of reducing even the limited parity attained by recapture of profits.

The above is but a partial list of the rights and benefits secured by the Government in consideration of its contract to place the American shipowner in the position he would be if he chose to build abroad and operate under a foreign flag.

* * * * * * *

Government shipbuilding and ownership of ships in foreign trade is no solution of our merchant-marine problem; it is utterly impracticable. It would not reduce the construction cost of ships, nor the operating cost. It is proverbially more expensive, tied down with red tape, and not so effective in results. History records no successful merchant fleet that was Government-owned. No merchant fleet of any of the principal maritime nations that sails the seas today in foreign trade is Government-owned. The rehabilitation of the British merchant marine so soon after the war is due largely to the fact that the ships taken over by the Government were almost immediately restored to private ownership and operation. Our lesson in Government shipbuilding and ownership has already cost us billions of dollars and placed a heavy mortgage upon our taxpayers, a debt which will take generations to discharge. The opportunities which it affords for maladministration are without parallel.

It should be remembered that the President's message of March 4, 1935, contains no suggestion of Government ownership or operation, nor can any such theory be reconciled with that message.

* * * * * * *

GOVERNMENT FINANCING

It is contended that if the Government puts up all the money, then it should own the ships, operate them either directly or under charter, and get the profits, if any, from such ownership. In the first place, under the proposed bill the Government does not put up all the money. The operator must put up 25 percent of the foreign cost of the ship, the identical amount required if he chose to build in certain large European shipyards; and he must satisfy the Authority of his financial ability to maintain the ship in service. He must also repay to the Government the other 75 percent of the foreign cost. This is not a gift from the Government, but a deferred-payment plan, to be authorized only after receiving adequate guaranties of its payment, together with interest. Moreover, the risk has not proved great. Out of Government loans of $148,000,000 (on a construction and reconditioning investment of $215,000,000) made under the existing merchant marine legislation, less than $3,000,000 is in default, a most creditable record as compared with any loan risks taken in recent years.

A further point generally overlooked in discussing what percentage of the cost of a ship the Government might possibly put up is the nature of the construction differential. A ship that would cost $1,000,000 if built in the United States and $600,000 if built abroad is worth just $600,000 in foreign trade. The shipowner does not get a million-dollar ship, as is stated, because its utility value is $600,000. American labor benefits from the difference, not the shipowner.

Because of the provision authorizing the Authority to purchase old vessels, it is said that an operator might get a new vessel by putting up but a small part of the 25-percent cash payment required, as the rest of the 25 percent would come as a credit on the old vessel. The credit the Authority may give for an old vessel is narrowly limited to the lowest depreciated cost on a 20-year-life basis, and then only if a new vessel is constructed. It is wholly within the power of the Authority to refuse a new vessel unless it is in the interest of the United States to have the old vessel retired and a new one built.

Mr. SCHWELLENBACH. Mr. President, the statements of the Senator from Missouri and the Senator from Alabama place many of us in very much of a dilemma.

I am opposed to ship subsidies. I am opposed to the present system. It seems to me, following through the idea expressed by the Senator from Missouri, that the question we have to ask ourselves is whether or not it is going to be possible, if the present law remains in effect, because of its viciousness, to wipe out ship subsidies altogether; and whether or not, if we enact this measure, which is a little better than the present law, it will result in the permanence of ship subsidies just because of the fact that it is not so vicious.

I should like to ask the Senator from Missouri his opinion upon that question. The Senator has had infinitely more experience in this matter than I have had.

Mr. CLARK. I will say to the Senator from Washington that I do believe there is a possibility that if any legislation on the subject should fail at this session of Congress, it might be possible in a future Congress to set up what I believe to be a proper system. On the other hand, I do believe there is very grave danger that if this measure should be defeated it might be possible to make a new appropriation for continuing the present system. I am by no means convinced that the passage of this bill will settle the matter, because I think it is a fight that will have to be carried on until a proper solution is arrived at.

Mr. O'MAHONEY. Mr. President, I offer the amendment which I send to the desk.

The PRESIDENT pro tempore. The amendment to the amendment will be stated.

The LEGISLATIVE CLERK. On page 83, after line 20, it is proposed to insert a new section, as follows:

SEC. 810. It shall be unlawful for any contractor receiving an operating-differential subsidy under title VI or for any charterer of vessels under title VII of this act to continue as a party to or to conform to any agreement with another carrier or carriers by water, or to engage in any practice in concert with another carrier or carriers by water, which is unjustly discriminatory or unfair to any other citizen of the United States who operates a common carrier by water exclusively employing vessels registered under the laws of the United States on an established trade route from and to a United States port or ports.

No payment or subsidy of any kind shall be paid directly or indirectly out of funds of the United States or any agency of the United States to any contractor or charterer who shall violate this section. Any person who shall be injured in his business or property by reason of anything forbidden by this section may sue therefor in any district court of the United States in which the defendant resides or is found or has an agent, without respect to the amount in controversy, and shall recover threefold the damages by him sustained, and the cost of suit, including a reasonable attorney's fee.

Mr. O'MAHONEY. Mr. President, I desire to say briefly that this amendment was drafted as a result of the colloquy in which the senior Senator from New York [Mr. COPELAND], the senior Senator from Missouri [Mr. CLARK], myself, and other Senators engaged last night.

The original Shipping Act, passed several years ago, contains a specific exemption from the penalties of the antitrust laws for certain combinations of shipping lines which would otherwise be unlawful as in restraint of trade. The law at the present time—title 46 of the United States Code, section 813—provides that—

The Board, upon its own initiative, may or upon complaint shall, after due notice to all parties in interest and hearing, determine whether any person not a citizen of the United States and engaged in transportation by water of passengers or property—

(1) Has violated any provision of the preceding section; or

(2) Is a party to any combination, agreement, or understanding, express or implied, that involves in respect to transportation of

passengers or property between foreign ports, deferred rebates, or any other unfair practice designated in the preceding section, and that excludes from admission upon equal terms with all other parties thereto, a common carrier by water which is a citizen of the United States and which has applied for such admission.

It is represented, on apparently good authority, that American citizens operating such lines have applied for admission to conferences of which foreign lines are members, and have been denied that admission. Without the amendment which is proposed, therefore, we should have the anomalous condition that the United States would be in the position of paying a subsidy to an American line which was in truth and in fact engaged in a conspiracy with foreign lines to discriminate against another American line. This amendment will, I think, obviate that very unwise and improper and unjustifiable condition.

It is my purpose in presenting this amendment to make it clear to the Commission that it is the intention of Congress not to pay subsidies of any kind to any American line which is willing to enter into any combination with other lines, including those operating under foreign flags, to crush American competition.

This is a bill to encourage American shipping, not one to aid foreigners to retard it.

I am told that the Shipping Board in the past has not enforced the law which so clearly provides that American lines, on application, are entitled to admission to any conference. A closed combination of this kind is indefensible, and surely should not be supported by the Treasury of the United States.

In order to give an opportunity to those who may be injured by illegal combinations of the kind I have described to protect themselves I have incorporated in this amendment the principle of section 4 of the Clayton Act which permits the victim of such unfair practices to sue for treble damages.

Mr. COPELAND. Mr. President, I am not sure what will be the effect of this amendment. I am an agnostic in that respect. I feel that the Senator from Wyoming has formulated the language in such manner that it is likely, perhaps, to protect the very thing he has in mind. I hope so. I am fearful that it may put the American shipper and the American operator of ships at a disadvantage, and more or less under the whip and lash of foreign-flag owners. However, so far as I am concerned, I have no objection to the inclusion of the amendment in the bill.

The PRESIDENT pro tempore. The question is on agreeing to the amendment offered by the Senator from Wyoming [Mr. O'MAHONEY] to the amendment in the nature of a substitute.

The amendment to the amendment was agreed to.

Mr. O'MAHONEY. Mr. President, I desire to offer an additional amendment, if I may have the attention of the senior Senator from New York. On page 52, line 6, I move to insert, after the word "service", the words "or services."

That is merely a clarifying amendment, designed to eliminate the possibility that the use of the word "service" in the singular might operate to prevent carrying out the remainder of the section.

Will the Senator from New York accept that amendment?

Mr. COPELAND. I have no objection to the amendment.

The PRESIDENT pro tempore. The question is on agreeing to the amendment offered by the Senator from Wyoming [Mr. O'MAHONEY] to the amendment in the nature of a substitute.

The amendment to the amendment was agreed to.

Mr. O'MAHONEY. Mr. President, if I may have the attention of the Senator again, I observe that section 101, in lines 4, 5, and 6, page 1, provides, in the declaration of policy, that the United States should have a merchant marine "sufficient to carry its domestic water-borne commerce and a substantial portion of the water-borne export and import foreign commerce." Section 861 of title 46, the present law, declares the policy to be that the United States shall have "a merchant marine of the best equipped and most suitable types of vessels sufficient to carry the greater portion of its commerce." I ask the Senator why the word "greater" has been eliminated, and the word "substantial" inserted in its place. Does not that constitute an abandonment of the present policy?

Mr. COPELAND. It does not so far as I am concerned, but for diplomatic reasons it was deemed wise that this language should be changed.

Mr. O'MAHONEY. Mr. President, I offer the additional amendment which I send to the desk and ask to have stated.

The PRESIDENT pro tempore. The amendment to the amendment will be stated.

The LEGISLATIVE CLERK. It is proposed to add, at the proper place in the bill, a new section, as follows:

Whenever the Commission finds that any common carrier by water has charged rates so unduly low as to be detrimental to the commerce of the United States, the Commission shall, after due hearing and investigation, fix such minimum rate or rates for that carrier and its competitors in the trade involved as it deems proper, and thereafter it shall be unlawful for any common carrier by water in the trade involved to charge rates any lower than those so determined by the Commission.

Mr. O'MAHONEY. Mr. President, in explanation of this amendment I shall content myself with saying simply this:

In passing this bill, or any ship-subsidy bill, we find ourselves in the position of obligating the Treasury of the United States and the taxpayers of the United States to make gifts to shipping lines. At the same time we have permitted these lines to enter into conferences with foreign lines whereby shipping rates are agreed upon. It has been suggested that if the Shipping Board should exercise the power which it undoubtedly has to punish or prevent these illegal combinations, the result might easily be not only the elimination of the American lines from the conference, but an attack at their very existence by foreign lines. The only answer to that is to grant to the Commission the power which the Interstate Commerce Commission has over railroads, to fix minimum rates, so that it would be impossible for the foreign lines to drive American lines from the sea.

Mr. BONE. Mr. President, will the Senator yield?

Mr. O'MAHONEY. I yield to the Senator from Washington.

Mr. BONE. As I heard the amendment stated, it seemed to me—perhaps I am wrong—that it would give the Commission set up in the bill the right to regulate these rates when they came into competition with rail rates, because it refers to a competition that would be "detrimental to the commerce of the United States." It does not say "the water-borne commerce of the United States."

Mr. O'MAHONEY. I shall be very glad to insert "water-borne" before "commerce."

Mr. BONE. I think clearly any reasonable interpretation of this amendment would compel the Commission immediately to examine into the rate structure of the rail carriers of the United States. It would seem so to me. Perhaps that is what the Senator intended.

Mr. O'MAHONEY. I should be quite willing to accept an amendment adding the words "water-borne commerce."

Mr. BONE. I could not presume to amend the Senator's amendment.

Mr. COPELAND. Mr. President, some years ago I tried hard to have this language included in the intercoastal act, because, so far as I am concerned, I have always believed in such a provision for other reasons than those mentioned by the Senator.

Suppose a man had some old ships he desired to get rid of. He could cut the rates so low that he would utterly destroy the legitimate business. I have no objection to the amendment.

Mr. SHIPSTEAD. Mr. President, I desire to call the attention of the Senator from Wyoming to the fact that a bill involving this very principle has been before the Committee on Interstate Commerce of the Senate, hearings have been held, and no action has been taken, and there is no possibility of action being taken on this bill, after the members of the committee have considered the evidence brought forth against any action along this line.

Mr. O'MAHONEY. Does the Senator mean to convey the impression that the committee feels it is unwise?

Mr. SHIPSTEAD. Yes. The chairman of the committee is not in the Chamber. I wish he were here to speak for the committee; but since he is not here, I take it upon myself to call the Senator's attention to this fact. This is too important a measure to be introduced in a hurry as an amendment to a bill of the character of the one before us.

Mr. O'MAHONEY. Let me say that I was not aware of the fact that such a proposal was pending before the Committee on Interstate Commerce. Of course, I realize that it is a matter of the utmost importance, but it seemed to me that the logic of the bill before us demanded an amendment of this character. I may say to the Senator, however, in view of what he has said, that I shall not undertake to press the amendment.

Mr. SHIPSTEAD. The amendment would cover both foreign and domestic shipping. Does the Senator withdraw the amendment?

Mr. O'MAHONEY. I shall not press the amendment.

Mr. BONE. Mr. President, I have tendered two amendments to the bill, which I sent to the desk and asked to have stated by the clerk.

The PRESIDENT pro tempore. The clerk will state the first amendment to the amendment in the nature of a substitute.

The LEGISLATIVE CLERK. In the amendment on page 74, after line 22, it is proposed to insert the following:

The foregoing provision respecting the requisition or the acquisition of ownership by the United States shall run with the title to such vessel or vessels and be binding on all owners thereof.

Mr. BONE. This is an addition to section 802.

Mr. COPELAND. Mr. President, so far as I am concerned, I am perfectly willing to accept the amendment.

The PRESIDENT pro tempore. The question is on agreeing to the amendment to the amendment.

The amendment to the amendment was agreed to.

The PRESIDENT pro tempore. The clerk will state the second amendment offered by the Senator from Washington.

The LEGISLATIVE CLERK. It is proposed to amend subdivision (b) of section 902, on page 85, line 1, before the word "The", by adding thereto:

Except in cases of vessels where a construction differential subsidy has been allowed and paid, in which case the value of the vessel for the purposes of this section shall be established as provided in section 802.

Mr. COPELAND. Mr. President, the Senator from Washington has been good enough to allow those of us who have been advocating the bill to see his amendment, and we have no objection to it.

The PRESIDENT pro tempore. The question is on agreeing to the amendment to the amendment.

The amendment to the amendment was agreed to.

Mr. BONE. Mr. President, the Senators from Washington have received some communications, to one of which I referred yesterday, concerning repairs to American subsidized ships in Chinese harbors, and I ask that the clerk read these communications to the Senate. They are very brief.

The PRESIDENT pro tempore. The clerk will read.

The legislative clerk read as follows:

SEATTLE, WASH., *June 17, 1936.*

Senator LEWIS B. SCHWELLENBACH,
2440 Sixteenth Street:

Steamships *President Coolidge, President Monroe, President Jefferson, President Polk, President Van Buren,* and *President KcKinley* have been drydocked in Hong Kong. Am sending airmail letter with details. These are American Mail Line and Dollar Steamship Companies.

P. B. GILL,
Agent, Sailors' Union.

CENTRAL LABOR COUNCIL OF SEATTLE AND VICINITY,
June 15, 1936.

Hon. HOMER T. BONE,
Senate Office Building, Washington, D. C.

HONORABLE DEAR SIR: It has been called to our attention that the Dollar Steamship Co. and its affiliated lines are docking their ships at Hong Kong, China, for general overhauling, painting, etc. It has always been the general policy of this company to do most of the maintenance work on their ships with oriental labor.

We are advised that our Government is paying these companies large subsidies in the form of mail contracts. Therefore we believe something should be done to prevent the taking away of this work from our American shipyards, which should go to our American workers when the Government is paying millions for relief.

Trusting that you may be able to do something in this matter, and with best wishes, we are,

Very truly yours,
CENTRAL LABOR COUNCIL OF SEATTLE AND VICINITY,
C. W. DOYLE, *Secretary.*

MARITIME FEDERATION OF THE PACIFIC COAST,
WASHINGTON DISTRICT COUNCIL NO. 1,
Seattle, Wash., June 15, 1936.

Mr. HOMER T. BONE,
White House, Washington, D. C.

HONORABLE MR. BONE: Please find attached a copy of a clipping from the South China Morning Post, of Hong Kong, China.

Hoping you will take some favorable action, I am,

Sincerely yours,
B. DRYSDALE, *Secretary pro tempore.*

[From South China Morning Post of May 22, 1936]

CHANGE OF POLICY—HONG KONG BENEFITS FROM LINERS DOCKING HERE—DOLLAR LINE PROGRAM

Hong Kong has reason to be extremely pleased with the change of policy by the Dollar Line, for it means thousands of dollars to this port for docking charges. Already this year there have been four large liners docked here which have never before been laid up in the colony, and now the company has announced that during this year all the American Mail Line ships will be docked here.

The four ships already docked include the largest liner of the company, the *President Coolidge,* and three of the smaller ships, the *President Monroe, President Jefferson,* and the *President Polk.*

The *President Van Buren,* which was due here today but was speeded up to arrive at 4 p. m. yesterday, is now in Kowloon dock and will be overhauled and painted before sailing, direct from the dock, on Saturday at 9 a. m.

The next ship to be docking here will be the *President McKinley* on June 3, and following her will come the *President Jackson,* the *President Grant,* and the *President Jefferson.* There will probably be other liners during the remainder of the year, but this has not been definitely decided yet, since the company normally only books up four or five ships ahead.

The work will be split up between the two major dock companies here, and will mean a steady and profitable amount of work to them which may become a regular feature of their yearly service.

Mr. BONE. Mr. President, the purpose of having these communications read to the Senate is to advise the Senate of what has been transpiring in connection with repair work on these ships, which were heavily subsidized. It is my understanding that the Senator from Pennsylvania [Mr. GUFFEY] has submitted an amendment to the pending bill which touches this particular class of work. Of course, it is not my right and privilege to have the amendment reported, and I hope the Senator from Pennsylvania is willing to have the amendment offered at this time and disposed of. I sincerely hope the amendment will go into the bill.

Mr. GUFFEY. Mr. President, the amendment was offered yesterday. I should like to have it considered and acted on at this time.

The PRESIDENT pro tempore. The clerk will state the amendment.

The CHIEF CLERK. In the amendment on page 38, line 10, it is proposed to strike out the period after the words "United States" and to insert the words "as defined in paragraph K of section 401 of the Tariff Act of 1930;" on page 55, line 18, to strike out the word "and"; on page 55, line 24, change the period to a semicolon and to add the following words "and (7) that whenever practicable, the operator shall use only articles, materials, and supplies of the growth, production, and manufacture of the United States, as defined in section 505a herein, except when it is necessary to purchase supplies and equipment outside the United States to enable such vessel to continue and complete her voyage, and the operator shall perform repairs to subsidized vessels within the continental limits of the United States, except in an emergency."

Mr. BORAH. Mr. President, what is the effect of the amendment?

Mr. COPELAND. As I understand, the intention is to require the use of materials the product or manufacture of the United States in repairing vessels, and that so far as

possible repairs shall be made in continental American shipyards.

Mr. GUFFEY. The Senator has correctly stated the purpose of the amendment.

Mr. COPELAND. So far as I am concerned, I join my distinguished colleague on the committee in favoring the amendment.

The PRESIDENT pro tempore. The question is on agreeing to the amendment to the amendment.

The amendment to the amendment was agreed to.

Mr. BLACK. Mr. President, I offer an amendment, on page 34, line 19, after the words "Pacific coast", to insert the words "or Gulf coast." I can explain my amendment in about a minute.

The bill provides for a differential in shipbuilding of 6 percent if ships are built on the Pacific coast. Frankly, I am opposed to such a differential. It is my belief that it is not justified. If it is included in the bill, however, I see no reason why it should be limited to the Pacific coast. Therefore I have offered an amendment which would give the same differential to ship construction on the Gulf coast. I am informed by those who assert that they know that there is justification for the differential on the Gulf coast if there is justification for the differential on the Pacific coast.

As I understand the differential, it is to this effect—and if I am wrong I ask to be corrected—if bids are called for in connection with the construction of a ship and a bid is obtained from the Atlantic coast of one amount, and a bid is obtained from the Pacific coast for an amount 6 percent greater, the bid which is 6 percent greater would be considered on a par with the bid from the Atlantic coast. That, as I understand, is the provision which provides for a differential. If that differential is to be given to shipbuilding on the West coast, I see no reason why it should be excluded from shipbuilding on the Gulf coast. Therefore I have offered the amendment.

Mr. COPELAND. Mr. President, I assume that the Senator is facetious in offering the amendment, or else he is loyal to his own section of the country, and I assume it is the latter. I wish to say that I own a house within 500 feet of the shore of the Gulf of Mexico. I believe I also belong in the Gulf section.

Mr. President, surely the Senate will not accept the amendment proposed by the Senator from Alabama. The reason why the Pacific coast was given the advantage of a 6-percent differential was because, after study of the question and a consideration of statistics from the Commerce Department, the Commerce Committee determined that the cost of the materials going into a ship built on the Pacific coast is about 6 percent greater than when the ship is built on the Atlantic coast or on the Gulf. The steel and many other products and materials which are used in the construction of ships must be shipped by rail or by ship through the Canal to the Pacific coast. So there is ample reason why there should be a differential. When the Senator from California [Mr. JOHNSON] presented the amendment at first the percentage proposed was 10 percent. Then, after examination, as I have said, by the Department of Commerce experts, it was found that the fair differential is 6 percent.

Mr. President, I hope the Senate will not accept the amendment for the reasons I have suggested.

The PRESIDENT pro tempore. The question is on the amendment of the Senator from Alabama to the amendment.

The amendment to the amendment was rejected.

The PRESIDENT pro tempore. The amendment of the Senator from New York is open to further amendment. If there be no further amendment, the question is on the amendment, as amended.

The amendment, as amended, was agreed to.

The PRESIDENT pro tempore. The question is on the committee amendment, as amended.

The amendment, as amended, was agreed to.

The PRESIDENT pro tempore. The question is on the engrossment of the amendment and the third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time.

The PRESIDENT pro tempore. The question is, Shall the bill pass?

Mr. McNARY. I suggest the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

The Chief Clerk called the roll, and the following Senators answered to their names:

Adams	Clark	La Follette	Radcliffe
Ashurst	Connally	Lewis	Reynolds
Bachman	Copeland	Loftin	Robinson
Bailey	Couzens	Lonergan	Russell
Barkley	Davis	McAdoo	Schwellenbach
Benson	Dieterich	McGill	Sheppard
Bilbo	Duffy	McKellar	Shipstead
Black	Frazier	McNary	Smith
Bone	George	Maloney	Steiwer
Borah	Gerry	Metcalf	Thomas, Okla.
Brown	Gibson	Minton	Thomas, Utah
Bulkley	Glass	Moore	Townsend
Bulow	Guffey	Murphy	Truman
Burke	Hale	Murray	Tydings
Byrd	Harrison	Neely	Vandenberg
Byrnes	Hastings	Norris	Van Nuys
Capper	Hatch	Nye	Wagner
Caraway	Hayden	O'Mahoney	Walsh
Carey	Holt	Pittman	Wheeler
Chavez	King	Pope	

The PRESIDENT pro tempore. Seventy-nine Senators having answered to their names, a quorum is present.

The question is, Shall the bill pass?

Mr. COPELAND. Mr. President, I understand the motion to be that all after the enacting clause in House bill 8555 be stricken and that in place of an amendment heretofore offered the bill as perfected may be substituted.

The PRESIDENT pro tempore. The Senator has correctly stated the parliamentary situation.

The question is, Shall the bill pass?

The bill was passed.

The title was amended so as to read: "An act to further the development and maintenance of an adequate and well-balanced American merchant marine, to promote the commerce of the United States, to aid in the national defense, to repeal certain former legislation, and for other purposes."

Mr. COPELAND. Mr. President, I move that the Senate insist upon its amendments, ask for a conference with the House thereon, and that the Chair appoint the conferees on the part of the Senate.

The motion was agreed to; and the President pro tempore appointed Mr. COPELAND, Mr. SHEPPARD, Mr. GUFFEY, Mr. McNARY, and Mr. GIBSON conferees on the part of the Senate.

Mr. CLARK. Mr. President, I did not insist on a roll-call vote on the ship-subsidy bill, but I desire to have the RECORD show that I voted against the passage of the bill.

FEDERAL EXPENDITURES FOR COTTON COOPERATIVES—EXTENSION OF SENATE RESOLUTION 185

Mr. McKELLAR. I move that the Senate proceed to the consideration of Senate Resolution 313, being Calendar No. 2435.

Mr. LA FOLLETTE. Mr. President, what is the parliamentary situation?

The PRESIDENT pro tempore. The parliamentary situation is that the Senator from Tennessee has moved that the Senate proceed to the consideration of Senate Resolution 313.

Mr. McKELLAR. Mr. President, for the present I again withdraw the motion which I made.

The PRESIDENT pro tempore. The motion is withdrawn.

REGULATION OF INTERSTATE COMMERCE IN BITUMINOUS COAL

Mr. NEELY. Mr. President, I move that the Senate proceed to the consideration of House bill 12800, to regulate interstate commerce in bituminous coal, and for other purposes. The bill is identical with a bill which is on the calendar, known as the Guffey coal bill, except that a few amendments have been made to the text of the Senate bill.

Mr. McNARY. I inquire if that is what is ordinarily referred to as the Guffey coal bill?

Mr. NEELY. Yes; it is the same bill.

Mr. McNARY. Agreeable to a promise made to some Members of the Senate, I suggest the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

The Chief Clerk called the roll, and the following Senators answered to their names:

Adams	Clark	La Follette	Radcliffe
Ashurst	Connally	Lewis	Reynolds
Bachman	Copeland	Loftin	Robinson
Bailey	Couzens	Lonergan	Russell
Barkley	Davis	McAdoo	Schwellenbach
Benson	Dieterich	McGill	Sheppard
Bilbo	Duffy	McKellar	Shipstead
Black	Frazier	McNary	Smith
Bone	George	Maloney	Steiwer
Borah	Gerry	Metcalf	Thomas, Okla.
Brown	Gibson	Minton	Thomas, Utah
Bulkley	Glass	Moore	Townsend
Bulow	Guffey	Murphy	Truman
Burke	Hale	Murray	Tydings
Byrd	Harrison	Neely	Vandenberg
Byrnes	Hastings	Norris	Van Nuys
Capper	Hatch	Nye	Wagner
Caraway	Hayden	O'Mahoney	Walsh
Carey	Holt	Pittman	Wheeler
Chavez	King	Pope	

The PRESIDENT pro tempore. Seventy-nine Senators having answered to their names, a quorum is present.

The question is on the motion of the Senator from West Virginia [Mr. NEELY] to proceed to the consideration of House bill 12800.

Mr. BORAH. Mr. President, I understand that the motion to proceed to the consideration of the bill is debatable?

The PRESIDENT pro tempore. It is.

Mr. BORAH. Mr. President, the bill covered by the motion, being House bill 12800, has for its purpose the establishing of machinery for fixing prices for coal which is being shipped in interstate commerce. I suppose a more important measure has not been submitted to the Senate at this session than this particular bill. It proposes to place the Government in the role of fixing prices upon one of our natural resources. I would not have any objection whatever to taking up the measure if it were not for the fact that the Congress is now upon the very eve of final adjournment, and we cannot, in reason, have any more time than today, unless the session continues tonight, and even then, today and tonight, to deal with the subject, because I take it that the tax bill must necessarily come in shortly to be considered, and it is assumed that that bill must be disposed of when it is ready to be considered. In other words, we will be debating this measure under the pressure of adjournment and while Senators are necessarily engaged in considering matters which are always associated with adjournment. I feel that we ought not to consider this measure under these conditions. We cannot do justice to the subject.

I myself am very much opposed to the measure, and I want it understood if the bill shall be taken up that I shall not consider that I am limited in time in presenting it simply because there are no Senators present to hear what I have to say and simply because we are getting ready to adjourn. I do not mean that I shall kill time in order to defeat the measure. I would not do that. But I do mean that I shall take such time as seems reasonable to present so grave a matter notwithstanding the desire and urge to adjourn. It seems to me that we ought to consider this measure under different circumstances and conditions.

There is no reason in the world why we should fix the price of coal if we are not prepared also to fix the price of oil, if we are not prepared to fix the price of gasoline, if we are not prepared to fix the price of all other commodities which may be substituted for coal; and, unless we are prepared to fix the price of the substitutes, this measure will work to the detriment of the coal industry and not to its benefit, and will work to the detriment of labor engaged in the coal industry and not to its benefit. It must be understood that the measure as it is now presented has eliminated the labor provisions of the law which was passed at the last session of Congress. The only thing now with which we are purporting to deal is giving the power to a commission composed, in the majority, of coal owners, to fix the price of coal, and the question of fixing the price of wages, of dealing with labor, has been eliminated from the measure entirely.

It can be seen, therefore, Mr. President, that it not only presents a new proposition but it presents an extraordinarily important proposition, and it occurs to me that we ought not to undertake to dispose of it in the closing hours of the session.

I understand perfectly that the argument is made that there is a situation in the coal industry which requires attention and some relief. If this were a mere emergency measure, and were dealing with a labor situation direct as an emergency measure, much as I might be opposed to it, I should not interpose any objection to its consideration. But, on the face of the bill, this is not an emergency measure. It is a measure proposing permanently to establish the principles of price fixing on the part of the Government of the coal shipped in interstate commerce.

There is involved in it, aside from the question of policy, the question of power to do what it is proposed to do. It is not my purpose at any time during this debate to urge the question particularly of our power. If we have determined upon the policy, I think we have the power, in regulating commerce, to adopt the method of price fixing as a method of regulating commerce. Whether or not this bill comes within that category would have to be determined after examination of the terms of the measure. But, generally speaking, I have no doubt that Congress has the same power to fix prices upon commodities shipped in interstate commerce that a State has to fix prices upon commodities shipped in intrastate commerce. However, the question arises as to whether the bill itself, as drawn, comes within that principle, because it would seem quite clear that the proposal is to undertake to control more than the shipment in interstate commerce. For instance, Mr. President, there are a number of States where the production is in harmony with the consumption in the State, and such States would not be brought under the control of the bill, as a matter of fact, by reason of shipment in interstate commerce. Nevertheless, as I understand the terms of the bill, there is an effort to control even this class of commodities.

Mr. President, almost every conceivable proposition which might arise with reference to establishing a wholly new policy, that of the Government entering into the field of establishing prices and fixing prices for commodities, is involved in this bill. It is an interesting question, and I certainly would not object considering it under any proper conditions; I wish, however, to register my objection to considering it at a time when everybody's mind is fixed on disposing of the tax bill and going home. Do we wish to take up a measure which in fact creates a monopoly and under the protection of the Government permits that monopoly to fix the price of a fuel essential to the health and comfort of millions and do all this while we are packing our trunks for home? I hope we shall not do so.

APPROPRIATIONS FOR TREASURY AND POST OFFICE DEPARTMENTS—CONFERENCE REPORT

Mr. BILBO obtained the floor.

Mr. GLASS. Mr. President, will the Senator yield to me?

The PRESIDENT pro tempore. Does the Senator from Mississippi yield to the Senator from Virginia?

Mr. BILBO. I shall be glad to yield.

Mr. GLASS. I ask the Senator to yield to me in order that I may submit a conference report on the Treasury and Post Office Departments appropriation bill, and request the Senate to consider it. The measure has been delayed now for 8 weeks, and it ought to be disposed of. There is but one item in disagreement, and that has now been adjusted.

Mr. BILBO. I shall be glad to yield, with the understanding that I do not lose my place on the floor.

Mr. GLASS. I present the conference report on the bill.

The PRESIDENT pro tempore. The conference report will be read.

The report was read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate numbered 48 and 52, and the amendment of the House to the amendment of the Senate numbered 49 to the bill (H. R. 10919) making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1937, and for other purposes, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendment numbered 48.

Amendment numbered 49: That the Senate recede from its disagreement to the amendment of the House to the amendment of the Senate numbered 49, and agree thereto.

Amendment numbered 52: That the House recede from its disagreement to the amendment of the Senate numbered 52, and agree to the same with an amendment, as follows: Restore the matter stricken out by said amendment, amended to read as follows:

"Payments Under Merchant Marine Act Contracts: For payments under contracts entered into by the Postmaster-General prior to March 4, 1933, or any modification thereof, under the provisions of the Merchant Marine Act of 1928 (U. S. C., title 46, secs. 891–891x), $26,500,000, of which $4,500,000 is an estimated amount representing the equivalent poundage-rate cost of transportation of the mail carried on vessels under such contracts and $22,000,000 is an estimated amount representing additional assistance toward the development of the American merchant marine: *Provided*, That no part of this sum shall be paid on contract numbered 56 to the Seatrain Company."; and the Senate agree to the same.

CARTER GLASS,
KENNETH MCKELLAR,
CARL HAYDEN,
FREDERICK STEIWER,
Managers on the part of the Senate.

LOUIS LUDLOW,
JOHN J. BOYLAN,
EMMET O'NEAL,
JOHN TABOR,
CLARENCE J. MCLEOD,
Managers on the part of the House.

Mr. GLASS. I now ask unanimous consent for the present consideration of the report.

The PRESIDENT pro tempore. Is there objection to the request of the Senator from Virginia to proceed to the consideration of the conference report indicated by him.

Mr. BLACK. I object to considering the conference report at this time.

The PRESIDENT pro tempore. Objection is made to the consideration of the conference report.

Mr. GLASS. I move that the Senate proceed to the consideration of the conference report.

The PRESIDENT pro tempore. The question is on the motion of the Senator from Virginia.

Mr. BLACK. I desire to discuss the motion.

The PRESIDENT pro tempore. The question of proceeding to the consideration of a conference report is not debatable. The question is on the motion of the Senator from Virginia to proceed to the consideration of the conference report.

Mr. BLACK. I suggest the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

The Chief Clerk called the roll, and the following Senators answered to their names:

Adams	Clark	La Follette	Reynolds
Ashurst	Connally	Lewis	Robinson
Bachman	Copeland	Loftin	Russell
Bailey	Couzens	Lonergan	Schwellenbach
Barkley	Davis	McAdoo	Sheppard
Benson	Dieterich	McGill	Shipstead
Bilbo	Duffy	McKellar	Smith
Black	Frazier	McNary	Steiwer
Bone	George	Maloney	Thomas, Okla.
Borah	Gerry	Metcalf	Thomas, Utah
Brown	Gibson	Minton	Townsend
Bulkley	Glass	Moore	Truman
Bulow	Guffey	Murphy	Tydings
Burke	Hale	Murray	Vandenberg
Byrd	Harrison	Neely	Van Nuys
Byrnes	Hastings	Nye	Wagner
Capper	Hatch	O'Mahoney	Walsh
Caraway	Hayden	Pittman	Wheeler
Carey	Holt	Pope	
Chavez	King	Radcliffe	

The PRESIDENT pro tempore. Seventy-eight Senators having answered to their names, a quorum is present.

The question is on the motion of the Senator from Virginia [Mr. GLASS] to proceed to the consideration of the conference report on the Post Office and Treasury Departments appropriation bill.

Mr. BILBO. Mr. President——

The PRESIDENT pro tempore. The Senator from Mississippi has the floor.

Mr. SCHWELLENBACH. Mr. President, a parliamentary inquiry.

The PRESIDENT pro tempore. The Senator from Washington will submit his parliamentary inquiry.

Mr. SCHWELLENBACH. Mr. President, I inquire whether or not, in view of the fact that the Senate has just passed a bill upon the subject of ship subsidies, it is possible in a conference report to present to the Senate the question of the continuation of the present ship-subsidy system by the inclusion in the conference report of an item of appropriation of $29,000,000 for ship subsidies.

The PRESIDENT pro tempore. The Chair is under the impression that that question is more a matter of argument which the Senator or the Senate might determine better than could the Chair.

Mr. BLACK. Mr. President, a parliamentary inquiry.

The PRESIDENT pro tempore. The Senator will state it.

Mr. BLACK. Would it be proper or improper for the Chair to state whether or not the conference report, which it is desired to consider at this time, contains an appropriation of $29,000,000 or thereabouts for the purpose of carrying out the old ship-subsidy contracts?

The PRESIDENT pro tempore. The Chair does not consider that it would be proper for him to state what is in a written report. The report speaks for itself.

Mr. BLACK. I ask for the yeas and nays on the motion of the Senator from Virginia.

The yeas and nays were ordered, and the legislative clerk proceeded to call the roll.

Mr. KING (when his name was called). On this question I have a pair with the Senator from New Jersey [Mr. BARBOUR]. Therefore I withhold my vote.

The roll call was concluded.

Mr. DAVIS. I announce my general pair with the junior Senator from Kentucky [Mr. LOGAN]. I understand that if he were present he would vote as I am about to vote, and I am therefore at liberty to vote. I vote "yea."

Mr. BILBO (after having voted in the negative). I have a general pair with the senior Senator from Iowa [Mr. DICKINSON]. I transfer that pair to the senior Senator from South Carolina [Mr. SMITH] and let my vote stand. I am not advised how either the Senator from Iowa [Mr. DICKINSON] or the Senator from South Carolina [Mr. SMITH] would vote if present.

Mr. MCNARY. I announce the following general pairs:

The Senator from Vermont [Mr. AUSTIN] with the Senator from Alabama [Mr. BANKHEAD];

The Senator from Maine [Mr. WHITE] with the Senator from Massachusetts [Mr. COOLIDGE]; and

The Senator from New Hampshire [Mr. KEYES] with the Senator from Louisiana [Mrs. LONG].

Mr. LEWIS. I announce that the Senator from Alabama [Mr. BANKHEAD], the Senator from Colorado [Mr. COSTIGAN], and the Senator from Nevada [Mr. MCCARRAN] are detained from the Senate on account of illness.

The Senator from North Carolina [Mr. BAILEY], the Senator from Massachusetts [Mr. COOLIDGE], the Senator from Ohio [Mr. DONAHEY], the Senator from Oklahoma [Mr. GORE], the Senator from Florida [Mr. LOFTIN], the Senator from Kentucky [Mr. LOGAN], the Senators from Louisiana [Mrs. LONG and Mr. OVERTON], the Senator from California [Mr. MCADOO], the Senator from New Jersey [Mr. MOORE], the Senator from South Carolina [Mr. SMITH], and the Senator from Montana [Mr. WHEELER] are unavoidably detained.

The result was announced—yeas 53, nays 16, as follows:

YEAS—53

Adams	Bulow	Chavez	Duffy
Bachman	Burke	Connally	George
Barkley	Byrd	Copeland	Gerry
Borah	Byrnes	Couzens	Gibson
Brown	Caraway	Davis	Glass
Bulkley	Carey	Dieterich	Hale

Harrison	Maloney	Robinson	Tydings
Hastings	Metcalf	Russell	Vandenberg
Hatch	Minton	Sheppard	Van Nuys
Hayden	Murphy	Stelwer	Wagner
Lewis	Neely	Thomas, Okla.	Walsh
Lonergan	Pittman	Thomas, Utah	
McKellar	Radcliffe	Townsend	
McNary	Reynolds	Truman	

NAYS—16

Benson	Clark	La Follette	O'Mahoney
Bilbo	Frazier	McGill	Pope
Black	Guffey	Murray	Schwellenbach
Bone	Holt	Nye	Shipstead

NOT VOTING—26

Ashurst	Costigan	Loftin	Norris
Austin	Dickinson	Logan	Overton
Bailey	Donahey	Long	Smith
Bankhead	Gore	McAdoo	Wheeler
Barbour	Johnson	McCarran	White
Capper	Keyes	Moore	
Coolidge	King	Norbeck	

So Mr. GLASS' motion was agreed to, and the Senate proceeded to consider the report of the committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill (H. R. 10919) making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1937, and for other purposes.

Mr. BILBO. Mr. President——

The PRESIDENT pro tempore. The question is on agreeing to the conference report.

Mr. BILBO. Mr. President——

Mr. BLACK. The Senator from Mississippi is trying to obtain the floor, and has the floor, as I understand.

The PRESIDENT pro tempore. The Chair did not intend to cut off any speech. He wishes to say, however, so far as the present occupant of the chair is concerned, that if a Senator yields for a roll call, or yields for any other purpose, he loses the floor, but will be recognized again.

Mr. BLACK. That is what the Senator from Mississippi is asking for.

Mr. BILBO. I am now asking for the floor.

The PRESIDENT pro tempore. The Chair does not intend to cut off the Senator, but wishes to state that the Chair has stated the pending question. The question is on the adoption of the conference report. If the Senator from Mississippi desires recognition, the Chair will recognize him.

Mr. BILBO. I thank the Chair.

Mr. President, at the time I secured the floor there was pending before the Senate a motion to take up for consideration the bill known as the Guffey coal bill. I obtained the floor not for the purpose of discussing the Guffey coal bill, although the subject I propose to discuss may present some of the colors of coal, and some of the facts I propose to give to the Senate, when brought into connection with real truth and orderly government, may produce the heat that coal would produce under proper conditions.

As I understand, the motion to take up the conference report on the Post Office and Treasury Departments bill is a privileged motion, and by vote of the Senate the report is now open for discussion.

It was my understanding, when we had under consideration the Copeland compromise bill on the ship-subsidy question, that it would pass by agreement without even a roll call. The understanding, as stated by several Senators, was that the Congress found itself between the devil and the deep blue sea on the question of ship subsidy, because there is in the bill which is now before the Senate in the form of a conference report an appropriation of $26,000,000 or $29,000,000 which is clearly understood to contain indirect subsidies, and that upon investigation the Postmaster General has reported that all the ocean-mail carrying could be accomplished with about $4,000,000, leaving in the neighborhood of $22,000,000 of pure subsidy for the shipbuilding companies.

It was understood by those who are opposed to ship subsidies—and I am opposed to any sort or kind of a ship subsidy—that the preferable dose that we had to swallow at this session of Congress was the Copeland bill, and we swallowed it only with the understanding that the twenty-six or twenty-two million dollars would be extracted from the measure now under consideration. To force the Senate at this time to adopt the pending conference report, which carries in it twenty-six or twenty-nine million dollars, of which twenty-two million dollars is pure subsidy to the shipping companies, to my mind is not exactly a square deal to those on the floor of the Senate who are opposed to ship subsidies. It strikes me, therefore, that action on the conference report should be suspended until the House shall have acted upon the Copeland bill.

I have had some experience in legislative matters down in my home State. I always preached and tried to practice the doctrine of square dealing, even in legislative matters. Nothing is to be gained by such tactics as those to which I have referred. As a matter of fact, I am willing to join now with those who are opposed to handing out the public funds to the favored few, and speak until Congress shall adjourn.

The subject to which I wish to call attention on this occasion is a continuation of my discussion yesterday of the judiciary; but I have prepared some statements to be made, and I should like the especial attention of the Senators who are interested in this subject while I give them my observations.

It has been said by Alexander Hamilton, who happens to be the idol or ideal of some public men in America, that "the interpretation of the laws is the proper and peculiar province of the courts." Mark you, I said "interpretation." It is the courts' constitutional right to ascertain and determine the meaning of any particular act passed by a legislative body. Due to a weakness or incapacity inherent in all languages, it is impossible for our lawmakers to convey with fixed precision and accuracy the meaning at all times intended and sought to be embodied in a given statute. Hence, it follows that different conclusions may be drawn and widely varying constructions placed upon the declaratory acts of a legislative department of government. Anyone who has had experience in legislative matters knows that that is true.

This unavoidable condition would seem to impose upon the judges in our courts additional discretionary powers to those frequently found in the text of the law itself. It therefore follows that the people are governed in many instances not by the law as written by the legislative body, but by the law as understood by the courts. Congress may write the laws, but the courts interpret and construe them, and by so doing necessarily themselves engage in the business of legislating.

From this fact arises the importance not only of selecting for the judiciary men of the highest integrity and the utmost probity, men whose minds and hearts evidence a sympathetic understanding and appreciation of the intricate and perplexing problems to be adjudicated in a changing world, but also of reviewing from time to time, with strict and severe scrutiny, the records of those who have been entrusted with judicial authority.

Thomas Jefferson, in a letter addressed to Mr. Jarvis, the editor of a newspaper called The Republican, September 28, 1820, said:

> Our judges are as honest as other men and not more so. They have, with others, the same passions for party, for power, the privilege of their corps. * * * Their power is the more dangerous as they are in office for life, and not responsible, as the other functionaries are, to the elective control.

Again, in a letter to Monsieur A. Coray, dated October 31, 1823, Mr. Jefferson wrote:

> At the establishment of our Constitution, the judiciary bodies were supposed to be the most helpless and harmless members of the Government. Experience, however, soon showed in what way they were to become the most dangerous; that the insufficiencies of the means provided for their removal gave them a freehold and irresponsibility in office; that their decisions, seeming to concern individual suitors only, passed silent and unheeded by the public at large; these decisions, nevertheless, become law while precedent, sapping by little and little the foundations of the Constitution, and working its change by construction before anyone has perceived that that invisible worm has been busily employed in consuming its substance. In truth, man is not made to be trusted for life, if secured against all liability to account.

It is well, at this time, that the Congress begin to turn here and there an all-searching eye upon the general activities and adjudications of that great body of men comprising our Federal judiciary. We have had occasion very recently to turn the great searchlight of investigation upon the official conduct and divers machinations of a Florida Federal judge, with the result that he was impeached by the House of Representatives and removed from office by the Senate.

Not so long ago, special Senate and House committees made reports with respect to bankruptcies and receiverships, concerning which the words "despicable" and "unconscionable" were used in describing prevailing practices. Throughout the past, bankruptcy acts, as they apply to bankers, corporations, and large mercantile interests, have been so laxly enforced and judicially interpreted that it was by no means difficult to defraud creditors and escape with the proceeds. A propertied bankrupt can conceal his assets and through the assistance of adroit lawyers and a corrupt judge be given complete liberation on quibbling technicalities.

It is an old adage that property rights are sacred in the United States, but Congress in these investigations has found an exception to this that was thought to be a truism. Bankruptcy and receivership proceedings have been used to destroy property and loot the savings of the thrifty. The amazing thing about it all is that this looting is done "with due process of law." The Federal judges name receivers and trustees for reorganization, and not only that, but these judges have the last say about the things these receivers and trustees do, and also fix the fees they receive.

This investigation shows that almost invariably the stockholders in these bankrupt institutions receive nothing while the trustees and the bondholders' committees and the attorneys are paid fabulous sums for their services. The Senate committee found in one case that $4.97½ was paid in fees for every dollar paid to general creditors. All these things were accomplished through the tacit acquiescence of the judge whose duty it was to pass judgment upon the merits of the object sought to be obtained.

In the Richfield Oil receivership in southern California, the committee found that no creditor had received any part of his claim when the receivership was 32 months old. The book value of assets during that time showed a shrinkage from $130,000,000 to $41,949,000. A subsequent appraisal disclosed assets of $23,821,000. The receiver had piled up an operating loss of $10,594,210, but during that time the attorneys, auditors, appraisers, and receiver received in fees $1,500,000. All of this was accomplished with the full knowledge and understanding of a tacitly agreeing judge.

The cloistered concurrence of indiscriminating and corrupt judges in the unfair and unjust proposals of designing and scheming attorneys are never flashed in bold headlines across the pages of the newspapers. These secret settlements of large corporate and business interests behind closed doors, effected oftentimes by partisan judges and high-salaried and high-powered lawyers, dissipating the funds of the institution in question to the detriment of small investors after a manner highly profitable to the larger stockholders and creditors upon whose shoulders a rightful proportionate share of the losses should be borne, are seldom brought into the great white light of publicity.

My own efforts in a recent hearing before the Judiciary Committee of this body to bring out irregularities and improper adjustments with respect to the liquidation of the First National Bank of Gulfport and the First National Bank in Gulfport proved fruitless on account of being denied by the committee the opportunity to submit competent and relevant testimony with respect thereto and all of this in spite of the fact that I was in position to make proof that through the improper exercise of this discretionary power that reviewing and approving judge permitted the dissipation of the funds which these banks had bought, to the great loss of depositors and small stockholders, while millionaire stockholders, creditors, and certain speculating debtors were shown every possible form of favoritism.

Not only have property rights, for so long a time held sacred in the United States, been disregarded and denied proper protection by the Federal judiciary, but human rights and liberties as well.

Permit me to bring to the attention of the Senate one outstanding instance: A citizen in Mississippi, by the name of William Pace, on January 11, 1932, was indicted for violation of the National Prohibition Act. This petitioner, on April 18, 1932, pleaded guilty to this indictment in two counts charging him with having, on January 11, 1932, unlawfully possessed and sold intoxicating liquor without setting forth any particular amount of whisky so possessed and sold. Pace was sentenced by Judge Edwin R. Holmes to be confined in the United States Penitentiary at Atlanta, Ga., for a period of 1 year and 1 day from the date of his delivery. The indictment to which William Pace pleaded guilty, omitting the caption, read as follows:

> The grand jurors of the United States, impaneled, sworn, and charged at the term aforesaid of the court aforesaid, on their oath present, that on or about the 11th day of January 1932, in the county of Washington, in the western division of said district, and within the jurisdiction of said court, William Pace did knowingly, willfully, and unlawfully possess intoxicating liquor, to wit, whisky fit for use and intended for use for beverage purposes, said act being then and there prohibited and unlawful; and being further in violation of and otherwise than as authorized or permitted by the National Prohibition Act, contrary to the form of the statute in such case made and provided, and against the peace and dignity of the United States.
>
> Count 2. And the grand jurors aforesaid, on their oath aforesaid, do further present, that the said William Pace, on the 11th day of January 1932, in the county of Washington, in the western division of said district, and within the jurisdiction of said court, did knowingly, willfully, and unlawfully sell intoxicating liquor, to wit, whisky fit for use and intended for use for beverage purposes, said act being then and there prohibited and unlawful; and being further in violation of and otherwise than as authorized or permitted by the National Prohibition Act, contrary to the form of the statute in such case made and provided, and against the peace and dignity of the United States.

On November 17, 1932, Pace filed an application for a writ of habeas corpus, on the ground that the sentence was void because in excess of what could be lawfully imposed under the amendment of January 15, 1931, to the Jones amendment of the National Prohibition Act. This application came before Judge Underwood, of the Federal district court at Atlanta, Ga., for hearing. Pace was given his freedom by Judge Underwood. Permit me at this juncture to quote from the decision of Judge Underwood:

> The question presented is, then, whether an indictment for the sale of whisky, brought under the Prohibition Act, as amended January 15, 1931, for an offense committed after January 15, 1931, which fails to allege that the amount of intoxicating liquor involved is more than 1 gallon, will support a sentence greater than the maximum authorized by said amendment and directing imprisonment in a penitentiary.
>
> Under the Jones law (45 Stat. 1446), prior to its amendment, the quantity of the liquor sold was immaterial, and the same sentence, up to a maximum of 5 years in the penitentiary, could be imposed, whether the amount involved was 1 or 100 gallons. There was a provision which informed the courts that it was the "intent of Congress that the court, in imposing sentence hereunder, should discriminate between casual or slight violations and habitual sales of intoxicating liquor, or attempts to commercialize violations of the law."
>
> This proviso, however, was "only a guide to the discretion of the court in imposing the increased sentences for those offenses for which an increased penalty is authorized by the act." * * * Apparently sentences under the Jones law, despite the expressed intent of Congress, oftentimes were so severe for minor offenses, or by Congress thought to be, that this wide discretion left the judges was restricted by the amendment of January 15, 1931, which undertook to classify as casual or slight violations all transactions involving 1 gallon of intoxicating liquor or less, provided the defendant had not, within 2 years, been convicted of violating the National Prohibition Act and was not a habitual violator, and fixed the maximum term of imprisonment at 6 months in jail, which, of course, could not be served in a penitentiary.
>
> * * * * * * *
>
> This amendment carved out certain offenses from the Jones law and made them misdemeanors, leaving the others punishable as felonies. There could not be included in the latter class any case which falls in the misdemeanor class, and any sentences imposed in the last-mentioned class which exceed the maximum penalty provided by the amendment, or provide for the service of such sentences in a penitentiary, would be void as beyond the jurisdiction of the court and subject to be set aside on a habeas-corpus proceeding.

This being true, the indictment must allege, as essential elements of the offense, the fact that more than 1 gallon of liquor is involved or that defendant has been convicted within 2 years of violation of the act or was engaged in habitual violations of same. If such allegation is not made, the indictment will be held to allege the lesser offense only, and any sentence providing for imprisonment in a penitentiary or in a jail beyond the maximum term provided by the amendment would be void.

This case thereafter was appealed to the Circuit Court of Appeals for the Fifth Circuit, and was entitled *Aderhold* v. *State* (65 Fed. (2d) 790). Judge Nathan P. Bryan rendered the opinion in this case. Judge Bryan, now deceased, is the man whom Judge Edwin R. Holmes succeeded, and Judge Holmes is the man who sentenced William Pace unlawfully. Permit me now to quote the decision of Judge Bryan, confirming the decision of Judge Underwood:

We think the decision was correct. Under the National Prohibition Act the maximum imprisonment authorized for the first offense of selling was 6 months. By the Jones Act of March 2, 1929, it was increased to 6 years, regardless of quantity; but by the amendment of January 15, 1931, the maximum punishment originally provided for a first offense in the event of a sale of not more than 1 gallon was restored, and was in force in 1932 when Pace made the sale on account of which he was indicted. Before the amendment of 1931, the severity of the sentence did not necessarily depend on the quantity of liquor sold, and it was therefore held that the quantity need not be alleged in the indictment. * * * But since the adoption of that amendment the quantity alleged to have been sold becomes of vital importance to the defendant. If he sells a gallon or less, he has committed a misdemeanor and cannot be punished by imprisonment exceeding 6 months in jail; whereas if he sells more than a gallon, he has committed a felony and can still be imprisoned for 5 years in the penitentiary. The indictment ought, therefore, to allege whether the sale was of a gallon or less, or of more than a gallon. Without such an allegation the trial court has no guide for determining the maximum punishment which he is authorized by law to impose.

William Pace was not the only man unlawfully sentenced by Judge Holmes. Hundreds of others in Mississippi, since the passage on January 15, 1931, of an amendment to the Jones Act, have been unlawfully sentenced to be confined in the United States penitentiary for the sale or possession of a gallon or less than a gallon of intoxicating liquor, and under indictments identical in form to the one to which William Pace pleaded guilty.

Mr. President, my colleagues on the floor of the Senate will well remember how on the 19th day of March, when the Holmes confirmation case was before the Senate, I recited in detail how I had begged and pleaded with the subcommittee, of which the junior Senator from Nebraska was chairman, as well as with the whole committee itself, to permit me to bring before the Senate the depositors committee of the First National Bank of Gulfport, the First National Bank in Gulfport, and other competent witnesses who had first-hand information, to establish the fact that Judge Holmes had knowingly approved settlements and issued orders in the liquidation of these banks involving assets of over $4,000,000, wrecking financially close on to 6,000 depositors, many of whom were widows, laboring people, young men who had worked for years to get money to go to college, and releasing from just liabilities the rich and politically powerful. Senators will also remember that I pleaded with them to let me bring the records and other competent witnesses—not bootleggers—to show conclusively that Judge Holmes had openly and flagrantly violated the laws of Congress and had flown into the face of decisions of the Federal courts in this country, and had sent hundreds of my constituents to the penitentiary, some of whom came from some of the best families of my State, and were branded with the name of felon because of this judge's indifference, indolence, carelessness, viciousness, and recklessness. The subcommittee and the full committee, for reasons best known to themselves, refused to give me that opportunity. Senators will remember that I made my plea to the Senate to recommit the case in order that I should have an opportunity to show those facts. The Senate refused, largely, I take it, because of the custom to follow the recommendations of its committees.

Now, as a matter of vindication of my position, and in substantiation of my claim, I have made a partial investigation on my own account of some of the facts that were kept from the knowledge of the Senate. I have done this because I did not want any Senator to think for one minute that I would make claims which could not be substantiated by the records and by competent evidence. I secured the services of two reputable attorneys; I had one of them read all the indictments found in the records at Jackson, Miss., charging Federal violation of the liquor law since January 15, 1931. Out of 78 indictments he found that Judge Holmes had sent 50 of my constituents to the Federal penitentiary in open violation of the laws of Congress, the indictments charging only misdemeanors. I had the other attorney read all the indictments on file in the Federal court at Biloxi, Miss., and out of 135 indictments for violation of the Federal prohibition law, Judge Holmes sent 63 persons to the Federal penitentiary when they were indicted and charged with being guilty of only misdemeanors. This is only a partial list, as I have not had the opportunity, up to the present time, to get the records checked at the other points where Judge Holmes held court in the southern district of Mississippi. Here is a record of 113 citizens of my State, my constituents, most of them white men, indicted for misdemeanors carrying with them a maximum penalty in each case of only $500 fine and 6 months in jail without hard labor, yet this judge was either so ignorant of the law which he was sworn to execute, or he was so indifferent to the rights of the citizens of this country, or so vicious and tyrannical that he robbed them of their liberty and of their rights under the laws and Constitution of our common country and sent them to the Federal penitentiary, branding them as felons for life, placing the shadow and odium upon their names and their wives and children and loved ones for all time to come. Remember this is only half the story—this is only a partial list of the unfortunate victims of this judge's indolence, wickedness, tyranny, and viciousness. I am giving the Senate the penitentiary number of each victim, his name, date of sentence, and length of sentence, and here they are:

List of citizens sentenced to Federal penitentiary by Judge Holmes on misdemeanor indictments

No.	Name	Date of sentence	Length of sentence	Race
36982	Tom A. Bass	Feb. 19, 1931	1 year and 1 day	White.
36983	H. D. McGraw	Feb. 18, 1931	do	Do.

39646	Johnny Williams	do	1 year and 1 day	Do.
39645	Willie Evans	do	3 years	Do.
39644	Sam Scott	do	1 year and 1 day	Do.

As I have already stated, a few weeks ago, this Senate, upon an indictment, impeached Judge Ritter, largely because, in violation of law, he took a few paltry dollars which did not belong to him. We removed him, we drove him from the Federal judiciary of the United States. Now here is a judge who has robbed more than 113 citizens of this country of something far more valuable than money. By an examination of this list Senators will find that he has worked at hard labor in the penitentiary these 113 citizens altogether over 141 years, or 51,672 days, or 1,240,128 hours, all without authority of law. No tyrannical despot, or vicious and heartless oppressor of humanity who has ever disgraced civilization has committed such a crime. Yet we are supposed to be living in a land of law and order, freedom and justice.

I believe that simple justice demands that Congress pass a relief act for each and every citizen Judge Holmes has sent to the penitentiary in violation of law, paying, or in part compensating him for the time he served unjustly in the Federal penitentiary. Mere dollars can never repair the great injustice done, but, in a measure, will compensate him for the time spent at hard labor. This great crime was committed in the name of the Government, and by an agent of the Government. Then why should not the Government pay for the great injury done?

I will, from time to time, give the Senate more and more of this judge's record as I continue my investigation—a record which is a disgrace to our Government and a black spot on our judiciary that can and should be removed.

Mr. HOLT. I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. LOFTIN in the chair). The clerk will call the roll.

The Chief Clerk called the roll, and the following Senators answered to their names:

Adams	Clark	La Follette	Radcliffe
Ashurst	Connally	Lewis	Reynolds
Bachman	Copeland	Loftin	Robinson
Bailey	Couzens	Lonergan	Russell
Barkley	Davis	McAdoo	Schwellenbach
Benson	Dieterich	McGill	Sheppard
Bilbo	Duffy	McKellar	Shipstead
Black	Frazier	McNary	Smith
Bone	George	Maloney	Steiwer
Borah	Gerry	Metcalf	Thomas, Okla.
Brown	Gibson	Minton	Thomas, Utah
Bulkley	Glass	Moore	Townsend
Bulow	Guffey	Murphy	Truman
Burke	Hale	Murray	Tydings
Byrd	Harrison	Neely	Vandenberg
Byrnes	Hastings	Norris	Van Nuys
Capper	Hatch	Nye	Wagner
Caraway	Hayden	O'Mahoney	Walsh
Carey	Holt	Pittman	Wheeler
Chavez	King	Pope	

Mr. LEWIS. I announce the absence of certain Senators and the reasons therefor as on a previous roll call.

The PRESIDING OFFICER. Seventy-nine Senators having answered to their names, a quorum is present.

MESSAGES FROM THE PRESIDENT

Messages in writing from the President of the United States were communicated to the Senate by Mr. Latta, one of his secretaries.

MESSAGE FROM THE HOUSE

A message from the House of Representatives, by Mr. Haltigan, one of its reading clerks, announced that the House had passed without amendment the following bills and joint resolution:

S. 1896. An act to provide for interest payments on American Embassy drafts;

S. 2293. An act for the retirement of employees of the Alaska Railroad, Territory of Alaska, who are citizens of the United States;

S. 4784. An act to permit mining within the Glacier Bay National Monument; and

S. J. Res. 251. Joint resolution granting the consent of Congress to the city and county of San Francisco to construct a causeway and highways on Yerba Buena Island in San Francisco Bay, and for other purposes.

The message also announced that the House had passed the bill (S. 3055) to provide conditions for the purchase of supplies and the making of contracts, loans, or grants by the United States, and for other purposes, with amendments, in which it requested the concurrence of the Senate.

The message further announced that the House had severally agreed to the amendment of the Senate to the following bills and joint resolution of the House:

H. R. 237. An act for the relief of the Rowesville Oil Co.;

H. R. 254. An act for the relief of the Farmers' Storage & Fertilizer Co., of Aiken, S. C.;

H. R. 11103. An act to extend the times for commencing and completing the construction of a bridge across the Mississippi River between New Orleans and Gretna, La.; and

H. J. Res. 179. Joint resolution authorizing the President to present in the name of Congress a Medal of Honor to J. Harold Arnold.

The message also announced that the House had passed a joint resolution (H. J. Res. 639) to provide certain administrative expenses for the Division of Territories and Island Possessions, Department of the Interior, and for other purposes, in which it requested the concurrence of the Senate.

HOUSE JOINT RESOLUTION REFERRED

The joint resolution (H. J. Res. 639) to provide certain administrative expenses for the Division of Territories and Island Possessions, Department of the Interior, and for other

purposes, was read twice by its title and referred to the Committee on Appropriations.

ADMINISTRATIVE EXPENSES, DIVISION OF TERRITORIES AND ISLAND POSSESSIONS

Mr. HAYDEN. Mr. President, by direction of the Committee on Appropriations, I report back favorably without amendment the joint resolution (H. J. Res. 639) to provide certain administrative expenses for the Division of Territories and Island Possessions, Department of the Interior, and for other purposes. I ask for the immediate consideration of the joint resolution.

The PRESIDING OFFICER. Is there objection?

There being no objection, the Senate proceeded to consider the joint resolution.

Mr. TYDINGS. Mr. President, I have just come into the Chamber. What is the resolution under consideration?

The PRESIDING OFFICER. It is House Joint Resolution 639, to provide certain administrative expenses for the Division of Territories and Island Possessions, Department of the Interior, and for other purposes.

The question is on the third reading of the joint resolution.

The joint resolution was ordered to a third reading, read the third time, and passed.

INTERNAL-REVENUE TAXATION

Mr. VANDENBERG. Mr. President, inasmuch as the new tax bill has now apparently been agreed upon, and we are generally informed respecting its terms, I wish to make a very brief statement respecting my opinion of it.

I desire to register in a few brief sentences my reasons for opposing this tax atrocity. I consider it to be a climax in the unsound, wishful, disruptive economics which have become the national curse. It races toward the further destruction of every real impulse which would encourage recovery, reemployment, and recaptured security. It is at war with the public welfare and will fall like a plague upon many of its victims. It will deserve the thundering rebuke which the American people will register against it when they understand what has been done to them.

In the first place, the conference report brings us essentially a new bill which never has been put to the probe of congressional debate. It is the makeshift product of a star-chamber House and Senate conference, which in sheer desperation has subordinated principle to expediency. It, as is our weary action on it, is precipitated more by an anxiety to adjourn than by any such adequate consideration as ought to precede a new levy of some $700,000,000 upon the already breaking backs of American taxpayers. To pretend that we proceed deliberatively would be the sum total of political hypocrisy, because we do not. This is a blind and sinister speculation in the rights and resources of 125,000,000 people. Irresponsibility will not soon register a greater conquest.

In the second place, this bill reaches for more and ever more revenue without any semblance of corollary effort to economize—to economize even just a little—in Government expenditures. We still linger in the blighting era of the great pay off. Every penny which this new and deadly tax proposes to raise could be obtained out of current economies if there were the remotest disposition to curb the bureaucratic spendthrift system which has attached itself like a vampire to the blood stream of the public credit.

In the third place, this punitive tax on surplus is the latest and the worst of the serial assaults that are being made on thrift and prudence, at a moment when these old-fashioned "horse and buggy" virtues are prerequisite to the restoration of the national character and equilibrium. The amazing idea that "rainy day" precautions have come to be a vice, to be discouraged by law, is no less wanton and suicidal, in my view, than the earlier but kindred spectacle of a government that deliberately destroyed food in the presence of a hungry people.

In the fourth place, this tax on surplus encourages big business and monopoly. It crucifies little business and denies it growth. Those who are already fat can keep their fat. Those who are lean must stay lean or pay the heavy penalty for the temerity of their aspirations. Thus it bluntly curtails American opportunity; and thus it blindly circumscribes tomorrow's employment opportunities. As a result it is a blow to those who toil, a blow to labor even as it is a blow to capital. Through tax pressure we substitute the judgments of Federal bureaucrats for the judgments of private ownership in the management of private business; and thus we approach more candidly the Fascist state.

These are but a few of the burning reasons why this legislative crime should not occur. But they suffice.

Oh, yes; we need more revenues; and I am prepared to help you get them whenever the formula is rational, and whenever it includes an honest conservation effort to bring the Budget within sight of balance. But this is not a rational formula. It seeks revenue at the expense of recovery, when recovery is our best assurance of revenue; and it attempts, once more, desperately to hide from the mass of our citizenship that they, and they alone, finally must pay these enormous bills which we contemptuously charge to the next generation. Nor does it encourage hopes of Budget balance when our contemplated expenditures next year, untouched by any semblance of retrenchment, will exceed even those of the present prodigal year by an amount fully equal to the new revenues herein contemplated. We are merely financing our latest spree.

This bill is beyond extenuation or apology. Like many another impetuous experiment which we have suffered, it will create more problems than it solves. It ought to die in an unsung grave. Upon its tombstone should be carved those forgotten words of the present President of the United States, uttered in his first and long-since forsaken message to the Congress:

> Most liberal governments are wrecked on the rocks of loose fiscal policy.

CALL OF THE ROLL

Mr. BLACK. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The Chief Clerk called the roll, and the following Senators answered to their names:

Adams	Clark	La Follette	Radcliffe
Ashurst	Connally	Lewis	Reynolds
Bachman	Copeland	Loftin	Robinson
Bailey	Couzens	Lonergan	Russell
Barkley	Davis	McAdoo	Schwellenbach
Benson	Dieterich	McGill	Sheppard
Bilbo	Duffy	McKellar	Shipstead
Black	Frazier	McNary	Smith
Bone	George	Maloney	Steiwer
Borah	Gerry	Metcalf	Thomas, Okla.
Brown	Gibson	Minton	Thomas, Utah
Bulkley	Glass	Moore	Townsend
Bulow	Guffey	Murphy	Truman
Burke	Hale	Murray	Tydings
Byrd	Harrison	Neely	Vandenberg
Byrnes	Hastings	Norris	Van Nuys
Capper	Hatch	Nye	Wagner
Caraway	Hayden	O'Mahoney	Walsh
Carey	Holt	Pittman	Wheeler
Chavez	King	Pope	

The PRESIDING OFFICER. Seventy-nine Senators have answered to their names. A quorum is present.

CONTRACT ADJUSTMENTS UNDER AGRICULTURAL ADJUSTMENT ACT

Mr. McGILL. Mr. President, from the Committee on Agriculture and Forestry, I report favorably Senate bill 4786, and ask for its immediate consideration.

Mr. McKELLAR. Mr. President, let the bill be reported.

The PRESIDING OFFICER. The bill will be reported by title.

The CHIEF CLERK. A bill (S. 4786) to authorize the Secretary of Agriculture to make such adjustments and revisions found to be due on contracts entered into by the Government with crop producers under the Agricultural Adjustment Act, reported with an amendment.

Mr. McGILL. Mr. President, I ask unanimous consent for the immediate consideration of the bill. In the report filed by the committee is a letter from the Secretary of Agriculture explaining in detail the purpose of and necessity for the bill, which has the unanimous support of the Committee on Agriculture and Forestry. It is recommended by the

Secretary of Agriculture and will not entail any additional cost upon the Government. It is desired merely to correct some defects which the Secretary of Agriculture is unable to overcome in connection with certain contracts which the Department feels the United States Government is morally obligated to fulfill. Because of rules which were in existence prior to January 1936, the Department has been unable to fulfill certain of the contracts previously entered into.

It is my understanding there is no opposition from any Department of the Government to the passage of the bill. It affects some 50,000 or 60,000 contracts entered into under the Agricultural Adjustment Act, about 20,000 wheat contracts, and about 30,000 cotton, tobacco, corn, and hog contracts.

Mr. KING. Mr. President——

The PRESIDING OFFICER. Does the Senator from Kansas yield to the Senator from Utah?

Mr. McGILL. I yield.

Mr. KING. The statement made by my able friend that it is not opposed by any of the executive departments and is endorsed by them is not a compelling reason, so far as I am concerned, for the acceptance of this measure or any other measure.

By that statement I do not mean, of course, to criticize the Department, but all departments of government, of this and of all other governments, and all executive agencies, are more or less greedy for power and for the extension of their authority.

I appeal to the Senator now to inquire whether or not the bill would give to the department interested additional authority and power, whether it imposes any additional obligations upon the Federal Government, or whether it is a simple attempt to rectify a possible injustice which may have been inflicted upon some of the agriculturalists in the United States.

Mr. McGILL. In my judgment, it does not create any additional or new obligation on the part of the Government. In his letter the Secretary has stated that it will not entail any additional cost to the Government. I believe the Secretary is correct in his statement in the letter that these are contracts which the Government is morally obligated to fulfill. Inability to fulfill the contracts is merely due to some rules which were in existence at the time the Butler case was decided, which decision prevented the Secretary of Agriculture from carrying out the contracts.

Mr. GEORGE. Mr. President, I desire to ask the able Senator from Kansas if it is not true that this bill merely permits the Secretary of Agriculture to correct allocations made both to a political subdivision and to individual farmers where it has subsequently been shown to him that there was a mistake in the original allocation.

Mr. McGILL. That is exactly correct.

Mr. GEORGE. By virtue of an existing rule or provision of the statutes, the Secretary did not have the authority to make that allocation; and this bill does not enlarge his power. It simply gives to him power to make an equitable allocation in accordance with the facts which, in the first instance, would have justified such allocation.

Mr. McGILL. That statement of the Senator from Georgia, I think, is exactly correct.

Mr. McNARY. Mr. President, as a member of the Committee on Agriculture and Forestry, I am familiar with the provisions of the bill and approve the measure, and I hope consent may be given for its immediate consideration.

Mr. KING. Mr. President, in the light of the suggestions made by the Senator from Kansas in reply to my interrogations and to the question propounded by the Senator from Georgia, I shall not object.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the Senate proceeded to consider the bill (S. 4786) to authorize the Secretary of Agriculture to make such adjustments and revisions found to be due on contracts entered into by the Government with crop producers under the Agricultural Adjustment Act, which had been reported from the Committee on Agriculture and Forestry with an amendment, on page 1, line 4, after the word "adjustment", to strike out "continued" and insert "contained", so as to make the bill read:

Be it enacted, etc., That the third sentence of the item "Payments for agricultural adjustment" contained in the Supplemental Appropriation Act, fiscal year 1936 (Public, No. 440, 74th Cong.), is amended by striking out the period at the end thereof and inserting in lieu thereof a semicolon and the following: "and the determination of the Secretary as to the correct base acreage and production figures (regardless of the figures on which the contract was based) and as to the person or persons entitled to receive such fair and equitable payments shall be final and conclusive."

The amendment was agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

WORLD PEACE

Mr. KING. Mr. President, in the closing hours of Congress there is always more or less of uncertainty and no little confusion. There is some confusion concerning the tax bill, which has been before Congress for several months, and the Senate has just received a castigation, possibly deserved, at the hands of the Senator from Michigan [Mr. VANDENBERG] because of its provisions. Efforts are being made to secure the passage of the so-called Guffey bill, as well as other measures, more or less important. Members of the House and the Senate are eagerly awaiting the hour of adjournment, and undoubtedly the country will be greatly relieved when this session of Congress has ended.

There is confusion also throughout the world, and it may not be inopportune for me to submit a few observations concerning conditions and the imperative necessity of movements looking toward the settlement of international controversies and the promotion of world peace.

Sir Alfred Zimmern, in his work entitled "The League of Nations and the Rule of Law", declares that the primary purpose of the League was to eliminate once and for all the fear of war.

General Smuts, one of the great statesmen of his day and generation, predicted that the League constituted an agency for the common welfare as "* * * a great organ of the ordinary peaceful life of civilization."

Italy was a member of the League of Nations. She participated in the activities of the League from the date of its formation, and had repeatedly signified her devotion to the high purposes of the League as well as the obligations which it and 52 other nations had assumed when they became signatories to the Kellogg-Briand Pact, which solemnly declared for the renunciation of war as an international policy and the settlement of all international disputes by pacific means.

The unprovoked attack upon a weak and primitive people by the powerful military forces of Italy has aroused deep concern among peoples in all parts of the world.

The violation by Germany of the Locarno Treaty, as well as its obligations as a member of the League, and the military adventure of Mussolini, which for the moment has been crowned with success, have led many who looked to the League of Nations for the protection of the weak against the aggressions of the strong and powerful to despair of the future of civilization. Many fear that all efforts to promote world peace will be unavailing, and that sanguinary conflicts destructive of men and nations are the certain and awful fate of the peoples of the world.

This, however, is no time for despair. Neither the people of this Republic nor those in other parts of the world should surrender to the chauvinistic and militaristic spirit which seems to be regnant throughout the world. The forces of peace, world fellowship, and righteousness must never confess defeat, but with firm resolution, armed with a knowledge that they are enlisted in the cause of humanity, they must press forward, knowing that ultimately the banner of peace and justice will be supreme in all the world.

The League of Nations is not dead, and the moral and spiritual forces of the world will not confess defeat. In my opinion, the peoples of the world will sooner or later discover that a policy of national isolation is fraught with danger, and they will perceive that the common interest of all, as well as an enduring civilization, must rest upon the

concept of world solidarity. The fierce spirit of nationalism may triumph for awhile, but in the end its fires will be extinguished. Undoubtedly, dark clouds hang over the world, and there are unmistakable evidences of a rising tide of militarism. The tragic and cruel lessons of the World War seem to be forgotten, and chauvinists and jingoists in many lands are trying to arouse people against nations with which they should be at peace and to dissolve the bonds of friendship, and, indeed, union, which have existed in the past.

The tread of millions of armed forces echoes in various parts of the world, and unbearable burdens of taxation are laid upon the backs of the people for the purpose of building and maintaining powerful military machines. Appropriations for military purposes by one nation are seized upon as pretexts for larger appropriations by other nations, thus creating a vicious cycle, the results of which, if not broken, cannot prove other than disastrous to the world. The enormous appropriations for military and naval purposes by this Republic since the World War have led other nations to increase their military and naval appropriations.

I am reminded of the statement of Lord Lothian, who recently stated that—

> Armaments inevitably produce war. They may give security, but only at the price of war. Armaments, of course, are justified on the ground that they are merely legitimate instruments of national security, but no nation can make itself secure by armaments except by having armaments which will give it victory in the event of war; that is, by making its neighbors unsecure. Hence the perpetual repetition throughout history of competition in armaments ending in periodic war.

Germany's rearmament arouses fear in France, and leads to increased military appropriations; and Italy's mighty military force arouses fear in neighboring States and diverts the minds of the people from the paths of peace and profitable labor into an atmosphere filled with mixed fear and hate. There are many who believe that only by a collectivist system among nations can war be averted and the toiling millions be permitted to devote their energies to building up a social order in which security, peace, and happiness will be the inheritance of all.

If not in our day, it is certain that in the future the peoples of the world will be bound together in the bonds of unity and peace, or they and their cities and nations will be destroyed, and the whole world will present a melancholy scene of devastation and destruction.

It is a rational view that in order to prevent armaments there must be a bona-fide renunciation of war, and back of that renunciation a national desire and determination to accept the obligations implied in such renunciation.

I do not concede that the efforts to establish a League of Nations have been in vain, notwithstanding its efforts to prevent international conflicts have in some cases proven abortive. It is a slow process to secure the eradication of jealousies and racial prejudices among peoples. Whatever law and order exist in communities and states are not the products of a day or a year. Municipal law has been developed during the centuries; and even in our own and other lands, codes relating to human conduct and which regulate human relations are being changed and modified. The advancement of humanity has been slow, but there has been progress since tribal days. I believe the horizon of the peoples has widened, and more and more the world is beginning to realize that there is a moral universe, and that walls erected by men to prevent world peace and world union will be broken down by the advancing forces of justice until righteousness and the kingdom of heaven shall be established on earth.

It is claimed by some that war is necessary for the improvement of the race by the elimination of the unfit. That may have been the theory of the German military school, as well as corresponding schools of thought in some other lands. It has been contended that force is essential to the development of normal civilized life and that therefore nations should develop much of their resources in the preparation for war. Thus, in a kind of vicious circle the nations have sought security in armaments and endeavored to justify their military preparations as measures of defense. Whenever there was a policy for peace it was negative and not affirmative, and unfortunately many nations were organized for war rather than for peace.

The contention that big armies and big navies make for peace is refuted over and over again, and the situation in the world today is a further refutation of the false philosophy which has prevailed among many peoples with respect to the necessity of military policies and powerful armies and navies. The military armaments which burden the world today are tragic proof of this false philosophy, and constitute compelling arguments in favor of affirmative and positive movements for a limitation of armaments and for international peace, and should compel an aggressive campaign to ameliorate the fierce and narrow spirit of nationalism. I believe the peoples of the world have a broader horizon than many political leaders, and certainly than the advocates of militarism in many parts of the world. Our Nation is in a position to lead the world for disarmament and world peace. Its impregnable position, its resources, its material strength—to say nothing of what I hope is its spiritual and moral power—should give to it a crown of leadership in a world movement to organize all peoples for peace. There is an obligation resting upon the United States, in view of the important part which it played in negotiating the Kellogg-Briand Pact, to give to it vitality and binding force among all signatories to that instrument. We have spoken much about the good-neighbor policy. That means that our Nation is not an isolationist but a copartner in all movements for social progress and the happiness and peace of peoples everywhere.

Theodore Roosevelt perceived the necessity of cooperation among all nations and in his Nobel prize speech declared in effect for a concert or League of Nations and for a world organization—one which would be able to maintain peace against any recalcitrant nation that ran amuck and disturbed the peace of the world. But, as indicated, the spirit of militarism, of narrow and parochial nationalism is insinuating itself in various parts of the world. It gives specious reasons for conscripting boys and men for war, and laying its oppressive hand upon field and farm and the sources of industry and production.

This Republic has appropriated for military and naval purposes during the period since the World War more than any other nation in the world. There were appropriated for the Army and the Navy for this fiscal year more than a billion dollars, and there will be expended for military and naval purposes for the next fiscal year more than $1,250,000,000. This huge sum will exceed that expended by any other nation for the same fiscal year. In my opinion, there is no justification for such an oppressive burden to be laid upon the backs of the American people.

The Committee on Finance, of which the able Senator from Georgia [Mr. GEORGE] is a member, has been laboring for weeks to discover sources from which additional revenues may be obtained in order to meet the mounting expenses of the Government and the unfortunately increasing deficits. Many have contended that the enormous deficits have been created by extravagance upon the part of the Federal Government and that many appropriations which have been made find no justification. A bill, as a result of the work of the Committee on Ways and Means and the Committee on Finance, will be reported today to the House and undoubtedly the Senate will be called upon to consider the same tomorrow. It levies additional taxes of approximately $700,000,000, which are to be added, of course, to the already heavy burdens of taxation which the American people have to bear. Recently the Secretary of the Treasury testified before the Committee on Finance that notwithstanding the large appropriations which have been made the deficit for the current fiscal year will approximate $6,000,000,000. As stated, the members of the Committee on Finance have struggled to obtain a few hundred million dollars—an insignificant sum measured by the appropriations made by this Congress for the next fiscal year. The Government will expend between a billion two hundred and fifty million and a billion five hundred million dollars for

military and naval purposes for the next fiscal year, and there will be large expenditures to meet the enormous obligations of the Government because of past wars.

The United States has no foe. As I have indicated, its position is impregnable. Notwithstanding the spirit of unrest and fear in the world, I affirm that the time is ripe for a frontal attack upon war and for a world movement to bring about relief from military burdens and for the establishment of an international tribunal to which resort may be had in the settlement of international controversies. The benignant spirit of municipal law and its happy consequences can and should be imported into international relations. There can be developed an international spirit, even a code of laws which will be the precursor of a higher standard of civilization, and the maintenance of a reign of law and order in all lands.

What justification can there be for our Nation and other nations expending five or six billion dollars annually for military purposes when millions of people need food and clothing and habitations? Instead of wringing taxes from the peoples of the world in the preparation for the destruction of millions upon bloody battlefields, humanitarian policies should be inaugurated and carried into effect which will provide for the needs and wants of the people and for their social, physical, and moral welfare.

Mr. President, a heavy responsibility rests upon this Republic to lead the way from confusion and conflict into the light of a brighter and better day. That it will measure up to this responsibility should be the earnest endeavor and sincere prayer of all who enjoy the rich inheritance bequeathed by the founders of this Republic.

THE FOREIGN DEBTS AND DEMAND FOR TERMS AND CONDITIONS OF MORATORIUM GRANTED UNDER HOOVER ADMINISTRATION

Mr. LEWIS. Mr. President, I have with considerable pleasure deferred until this moment addressing the Senate on a subject in which I am greatly interested, in order that we might listen to the remarks of the distinguished Senators who have addressed the Senate. We have all particularly noted the important business features of some of the suggestions and the very clear and illuminating address of the Senator from Utah respecting the League of Nations. While I greatly oppose his view, one cannot overlook the fact that his view is one held by many in our country.

Mr. President, I wish to bring the Senate to the consideration of a matter which, to my way of thinking, is of great value and much importance and as to which I fear we shall hear much in the very near future.

I have often addressed this body—and for its generosity from time to time I acknowledge great indebtedness—upon the matter of the debt due this country by foreign-nation debtors. In one of the addresses made lately, but which may be remembered, I warned my own administration and I told this honorable body that it would be found that our honorable opponents, whom we speak of as Republicans, would make an assault upon the present administration on the ground that it had failed to collect the debts and would make a political issue of and an attack on us based upon that specific ground. Let it be said that we rarely heard a voice from our honorable opponents upon the other side either in support of any policy demanding the payment of these debts and never of late a suggestion of any method of their payment. One or two exceptions must be noted. I observe before me, as an illustration, the Senator from Minnesota [Mr. SHIPSTEAD], who has always had a suggestion to make, indicating his desire that something be done looking to a resumption of payment of the debts. There are other Senators around us; but, Mr. President, among the others, I take it, there simply existed the wish of citizens, but as the representatives of their great party never a voice was raised.

Mr. President, the platform of the honorable Republican Party as framed at Cleveland during the past few days specifically refers to the debts, condemns the administration, and charges the Democratic administration, as led by Franklin Roosevelt, with making no effort to collect the debts.

I see our distinguished friend the Senator from Michigan [Mr. VANDENBERG] taking his seat. We recall that when some of the discussions were up he brought to the attention of the Senate a measure which really prevailed in the Government of some years back, which pledged the securities that were then in existence for the payment of these debts; and we are compelled at this moment to ask, What has become of those securities? But I turn now also, sir, to ask this honorable body: What reasons do our honorable opponents have to hold this administration up as due condemnation from any source in this country, or anywhere else, on the theory that it is responsible for the failure to collect any form or sum of these debts?

I advise Senators to recall their history; to remember that the distinguished ex-President of the United States, Mr. Hoover—satisfactorily to his own purposes, let us feel—held a private conversational conference, as he sat in the comfort of the breezes on the banks of the Rapidan in a neighboring State to the Capital, and there entertained the Premier of England, Mr. MacDonald, and his colleague, Mr. Laval, of France—colleagues in the same purposes. Sir, what transpired there is not written; but we do know that after these conferences, whatever they were in form and manner, there came the hurried decision of the former President of the United States wherein he granted the moratorium exempting these great creditors from the payment of the installments which were then due to the United States; and equally, sir, excusing them in some form from the payment of the debts.

I invite Senators' attention now to the fact that since that moratorium, which was granted when Congress was not in session, and when the then eminent President of the United States was content to send telegrams to the different Members of this honorable body informing them that he had assumed in his Executive capacity to issue the moratorium that released the debts which were due to the United States, there was never a word as to what was said, the reasons for the exemption, the causes therefor, or the justification, if such there was.

It is at this point that I ask our honorable opponents, or whoever may be interested in this phase of the subject, what was the agreement between our former President, speaking for the United States of America, and these foreign lands and their representatives, as the result of which not one payment has been made since, either upon the principal or upon the interest?

One other query I regard as most material. Why is it that from none of these eminent representatives abroad has there come any statement to their own people, in any public manner, as to what the conference consisted of, what were the terms proposed, what were the details accepted, and what really was done there?

Here, Mr. President, I ask my own Government, and at this point I ask my administration, if there be any record as to what did transpire between these eminent representatives. If so, I desire that record brought to light and disclosed to the public. If the present administration, out of a tender consciousness of what may be called gentility and propriety, has withheld revealing the contents of that document, if there be such, or disclosing the actual details of the understanding, if there was such, then sir, it is time now to abolish that particular phase of courtesy, in view of the fact that our honorable opponents have found it agreeable to their standard to assail the administration on the ground that it has not collected the debts, and to use the words of their platform, "has been making no effort to do so."

Mr. TYDINGS. Mr. President, will the Senator yield?

Mr. LEWIS. I am pleased to yield to my friend the Senator from Maryland at this point.

Mr. TYDINGS. I should like to point out to the Senator that, as he knows, the war debtor nations have made no payments to the United States of America on account of the debts since the Hoover moratorium, with the exception of Finland.

Mr. LEWIS. Which was not a war debt, I may say to my able friend, as I understand it.

Mr. TYDINGS. That is correct. The Senator knows that under two administrations—that of Mr. Hoover and the present administration—insofar as the legislative branch has been advised, there has been no effort to collect the debts, or a part of the debts, or to reach some understanding about the debts. The matter has simply lain dormant. I should like to ask the Senator whether in times like these, when we struggle so long to raise a few extra hundred millions of dollars with a new tax bill, which is very burdensome, the Senator does not feel that it would be the part of wisdom, inasmuch as we are the creditor nation, for us to take the initiative and say to these countries, "While it is true we sold you cotton during the war at 40 cents a pound—cotton now is considerably less—and other commodities at war prices, you having paid for them with the money which we loaned you, will you make payment in kind, or in gold, or in services; or in what way do you propose to settle, so far as is possible, the obligation which is owing to the United States?" I ask the Senator if he does not think it wise for our Government to take the initiative, in that it has all to gain and nothing to lose when the present circumstances are weighed in the balance.

Mr. LEWIS. Mr. President, the suggestion of the able Senator is filled with much that may be said to be of wisdom and propriety; but I invite the Senator to recall that while he was present and doing me the honor to hear me upon a former occasion touching the debts, I brought to the attention of this body what I felt was the duty of my administration—I use the word "mine" meaning ours—to take some initiative to ascertain what proposition the debtors would make to us with a view of settling this obligation. I must say to my able friend that I was never able to get a direct reply.

I observe from the public press that some statement had been made by one of the officers of our administration to the Ambassador of one of the great debtors; and the only reply made—I do not happen to have it before me—was, "We are not now ready to advance any other proposition than that we are not now able to pay."

Mr. TYDINGS. Mr. President, will the Senator further yield?

Mr. LEWIS. Of course, I am glad to yield to my friend.

Mr. TYDINGS. I should like to refer to a matter with which the Senator is familiar, so that I may ask him another question.

The Senator knows that the war debts owing to our Government amount to about eleven and one-half billion dollars, all payable in gold. The Senator likewise knows that under the administrations of Presidents Harding, Coolidge, and Hoover the people of the United States bought foreign bonds to the extent of fourteen and one-half billion dollars, so that the governmental debt owing to the United States, plus the foreign bonds held in the United States or sold in the United States, totals $26,000,000,000, all of which is payable in gold.

Therefore, with a $26,000,000,000 debt owing to America, with only five and a half billion dollars in gold in all the world outside of our country, it is perfectly obvious that no substantial curtailment of the principal of the debt is going to be paid either to our Government or our people until our Government takes the initiative and, in conjunction with the debtor nations, attempts to set up a scheme which will be workable. Does not the Senator agree with that point of view, and is it not incumbent upon us to take the lead if we hope to re-collect this money?

Mr. LEWIS. Mr. President, I again reaffirm that the able Senator expresses what is to be considered as a deep proposition, but I differ from him in the respect that I am not able to accept the idea that the creditor, and only the creditor, should advance the suggestion of the method of payment. I admit the payment of gold cannot be, for the reason the Senator from Maryland has well stated, namely, the lack of quantity, the lack, indeed, sir, of the whole opportunity and privilege, but I say that if obligations could be entered upon of long distance by which securities issued by our debtors could be used by our Government in some form to lighten its heavy debt of taxes, either by transfer or as security, and at the same time some arrangement could be made by which the produce of the debtor countries of such character as we ourselves do not produce in sufficient quantity and which we do not produce at all there could easily be brought about the basis of a settlement of these obligations. I cannot concede that we could take from these nations a supply of goods to the amount that would fulfill the debt such as described by the able Senator from Maryland without closing our factories, depriving our workmen of employment, and so invade the protection of our own industry as to work complete chaos and destruction.

Mr. TYDINGS. Mr. President, will the Senator yield?

Mr. LEWIS. I yield again to my friend from Maryland.

Mr. TYDINGS. I think there is much force in what the distinguished Senator from Illinois has said. It might be in such a conference that we would find acceptance of any considerable amount of goods would not be advisable and would have to reject that form of payment. It would be apparent also in such a conference that the nations would not have enough gold with which to pay. Therefore, if we are going to refuse to accept their services or goods, on the one hand, in partial or complete payment, and cannot get the gold, upon the other hand, then we should be like an individual who has money owing to him which his debtor, for one reason or another, may not be able to pay in full, and therefore the thing to do is to make a survey of the situation and get the best that can be obtained, the point being that as we are now constituted we are getting nothing but acrimony instead of international alimony. [Laughter.]

Mr. LEWIS. Mr. President, that we are not getting international alimony is due to the fact that our marriage was a very unfortunate affair of international alliance, for which there should have been high voice from America forbidding the banns. [Laughter.] But I answer and say the Senator from Maryland states the viewpoint I entertain, that there should be some move looking to some suggestion of the method of payment. I cannot, however, concur in the thought that the debtors should remain silent and take no initiative looking to payment. I feel the obligations upon the debtor to begin, but I concur when the debtor does begin that we should have a spirit in which we could hold a conference looking to what will be fair and just if proposed by the debtor.

Mr. TYDINGS. Mr. President, will the Senator yield further?

Mr. LEWIS. I yield, of course.

Mr. TYDINGS. I should like to point out to the distinguished Senator from Illinois the further observation that it might be unwise to consider the matter of the payment of the war debts as a single issue. Certainly it appears from the physical aspect of the case that full repayment of the debts is very doubtful. Therefore, if that be a fact, and America has to make concessions, it seems the part of wisdom to me that at one and the same time we should use whatever concessions we make in the effort to bring about a certain amount of disarmament among the debtor nations, if possible, through proper leadership and equitable arms arrangements, and should also work for the stabilization of international currencies and for the promotion of the widest balanced world trade commensurate with the financial situation.

Mr. LEWIS. Mr. President, I concur, sir, that some action could be taken, but I am not able to adopt the thought that my country should descend from the very high place of finance it now occupies, with its money of the greatest value, credit, and reputation of that of any country in all the world, and assume to stabilize it by dropping down to the varying form of the franc that wheels through the atmosphere of nations as some flying machine guided by a blind pilot, or of the money which prevails today in England, where, under a half-managed currency system, there is no certainty of action other than the deposit of certain gold on call designed

to maintain value in behalf of its pound. I cannot see how stabilization would do otherwise than drop our money to a lower point and allow it to be stabilized by the lesser money of those who are our debtors.

Mr. TYDINGS. Mr. President——

Mr. LEWIS. Of course, I yield to my friend again.

Mr. TYDINGS. I think the Senator missed the point of my observation. We have already devalued our dollar and gone off the gold standard, not so much as a matter of national policy, but because other nations devalued their money and went off the gold standard, making some action on the part of our own Government more necessary than it otherwise would have been. The point is that no one nation can stabilize permanently its currency so long as all the other nations of the world go off the gold standard or change the value of their money, because of the effect upon international trade alone. Therefore the only hope of order being brought into the field of currency stabilization must come from some sort of international agreement, in which contingency I do not assume for a moment that it would be necessary for the United States further to devalue its dollar, but that, upon assurances being given by other countries that further devaluation of the currency would occur only under a consideration of the economic adjustments which enter into that question, we would have an outlook which would be secure rather than an uncertain one which must persist so long as there is no agreement between nations affecting currency stabilization.

Mr. LEWIS. Mr. President, all the able Senator has been saying is further proof of the propriety of some kind of gathering that would initiate early whatever proposals the debtor nations have to make looking to the discharge of their obligations to us.

I now bring to the attention of the Senate the fact that of late, during the last week, great nations, large debtors of the United States, when the demand was made by our country for the sums due brought to us the mere reply, "We have nothing more to say other than that we cannot meet the payment." I wish to know—and I rise at this moment seriously to present the question—what were the terms of the moratorium? Is it not true that eminent statesmen of Europe have told their people, through proper channels, that have been protected, that there was an agreement between the then President of the United States and themselves that released the debts? Is it not true that their people, believing that such debts were released as a result of the secret conference between the President of the United States and representatives of foreign governments, are feeling themselves secure in the repudiation of the debts, upon the theory that it is justified by an arrangement which they know has been made between the representatives of their government and the then President of the United States? I want to know what that agreement was, and I should like to have our country know if the debts were released or if there has been a step forward looking to their release through the proper jurisdiction of the President of the United States. The mere fact that he was called a Republican is immaterial; he was the President of the United States, and if he did that which was in his power and authority, our people will endorse it; but we wish to know what he did, and more particularly we wish to know what our foreign debtors are relying upon to assure them that their conduct before the world is honorable when they repudiate their debts, deny their obligations, and refuse to pay a dollar upon that which is conceded everywhere long since to be due the United States of America. Knowing these countries as I do, I cannot assume that they deliberately do a dishonorable thing with no reason to justify them.

Mr. President, I may be pardoned by you and by the Senate when I say that I was in Europe in a small official position in 1926. President Harding had named three members of his Cabinet and two others in connection with the readjustment of the debts. Many billion dollars were released.

Mr. DAVIS. Was that not under President Coolidge?

Mr. LEWIS. No, sir; at that time it was under President Harding. The action of the Coolidge administration came later. Let me say to my able friend from Pennsylvania, who has just interpolated a very pertinent inquiry, that a large part of these billions was debts incurred after the war; the one to Austria, as an illustration, the second one to France, and to England. Surely these were commercial obligations. These cannot be said to have been the debts of a war which these eminent leaders of certain of our debtors are holding up before the people as a war maintained in our behalf, because, after the war, the money was obtained from us upon the theory that we were aiding their commerce, lifting their people to new opportunity, giving them encouragement. Surely, as to these debts, it cannot be said that the moratorium was a moratorium of war debts. What excuse did the administration have, and will they give us their reasons why these debts, incurred after the war as obligations to the Treasury of the United States and on account of private money lent to private individuals with the supervision of the Government, were to be in nowise paid or accounted for?

Mr. TYDINGS. Mr. President——

Mr. LEWIS. I again yield to the Senator from Maryland.

Mr. TYDINGS. I desire to point out to the distinguished Senator from Illinois that it does not lie in the mouth of the opposition party to criticize the debt policy of this administration for the very obvious reason that under the administrations of Presidents Harding, Coolidge, and Hoover all foreign loans negotiated, and the bonds which were sold to our people in that 9-year period, bore upon the documents themselves the imprimatur of the State Department of the United States. Thus under those three Presidents were those private loans, amounting to $14,500,000,000, made by our people after the World War to foreign governments, approved; and therefore, as most of those loans are in default, and were economically unsound in many, many cases, the whole depression, in my opinion, is largely tied up with the fact that we were furnishing our customers the money with which to pay for the large exports of our goods during the 1920–29 period.

If I may transgress further for a moment, I should like to invite the attention of the Senator from Illinois to the fact that during those years we sold about $5,000,000,000 worth of American goods abroad every year; and we could not have sold so large a volume of goods to a people who were in the financial condition in which our foreign customers were had it not been for the fact that we were lending them the money with which to pay for our goods. When the loans stopped in 1929, our business fell off and the depression set in.

Therefore it does not come with good grace from our friends on the other side of the aisle to find any fault with a war policy which was brought on by necessity, while they overlook the larger policy of the $14,500,000,000 loaned in time of peace, which loans were insecure, and which laid the foundation for a false prosperity and a very genuine depression.

Mr. LEWIS. Mr. President, the Senator from Maryland revives my memory to the fact that the loans on bonds to South America lost us more than $800,000,000, and that as to one of those countries a representative of the Commerce Department of the United States, whose name I think we may recall is Mr. Dennis, capable in the discharge of his duty, called the attention of this Government to the fact that the bonds which were being issued by those governments were fraudulent; that there was a fraud involving the son of the President, who had interested himself personally. Mr. Dennis was, in the language of the streets, "called down" for daring to assume to advise the State Department of the facts. As the Senator from Maryland ably said, that government in power through the State Department gave its approval to the issue of those securities and the sale of them to Americans, and defrauding them of the amount stated by the Senator from Maryland.

Mr. TYDINGS. Mr. President, will the Senator yield further?

Mr. LEWIS. Certainly.

Mr. TYDINGS. I wish to point out also to the Senator from Illinois that many men upon this floor attempted to stop the policy of having the Federal Government approve private transactions between foreign governments and citizens of the United States, but that that went on until the distinguished Senator from Virginia [Mr. GLASS] was able to have a resolution passed through Congress forbidding the Secretary of State under Mr. Hoover from approving any more foreign loans.

Mr. LEWIS. I thank the Senator. While I know of the history, I did not return to this body until some time after those events; and I accept them as stated by the Senator from Maryland. At this moment, thanking him for the information, I yield to the Senator from Pennsylvania [Mr. DAVIS], who endeavored to interrupt me a moment ago, and whom, unintentionally, I ignored.

Mr. DAVIS. Mr. President, if we make no effort to collect the debts due us, would it not at least be reasonable to have a formal acknowledgment of debt renewed from time to time, so that nations now using their resources for military purposes which incite to war shall be compelled to reflect that their activities are carried on with the money which they owe America? Thus, this mountain of debt would stand as a monument of peace.

Further, can any policy be more dangerous to the peace of the world than our present policy, wherein the State Department winks at evasion of debt payment, extends the advantages of our domestic markets to debtor nations, and with both American resources and financial credit enables foreign powers to continue a ghastly race toward military preparation which has but one end in view, to wit, the precipitation of world war?

Mr. LEWIS. Mr. President, I join with the Senator from Maryland [Mr. TYDINGS] and the Senator from Pennsylvania [Mr. DAVIS] in the expression that if something were done to lessen the armament race and the great expenditures which are made in that behalf, and if the sums so expended were paid on account of their debts to us, they would go very far toward the payment of the debts due us, and relieve something of the very heavy obligations we are placing upon our people. Not only that, but such a course would tend to awaken again from our people some respect and friendship for the nations which hourly are losing the respect of our fellow mankind. There is constant rumor and charge against those nations of lack of faith and of conduct unbecoming honor. Little by little all of the trade which my able friend from Maryland [Mr. TYDINGS] depicted as possible would be denied those nations and ourselves, from the fact that our people would not justify or endorse their representatives trading with a people who could do such dishonorable deeds.

Mr. TYDINGS. Mr. President, will the Senator yield again?

Mr. LEWIS. I am glad to yield.

Mr. TYDINGS. I think it ought to be said, in answer to the interrogatory of the Senator from Pennsylvania, without defending or condoning the large expenditures for armaments made by the debtor nations, that if they were not to expend a single dollar on armaments of any kind or description, the difficulty of paying the debts would still exist, because the money they are spending upon armaments is all spent within their own countries, and the transfer problem of the gold itself is a difficult one—to make $5,500,000,000 of gold in all the rest of the world pay off $26,000,000,000 of governmental and private debts. If they were buying their war materials in this country, the situation would be different; but while the money is collected in taxes in England, for example, and is expended in England, the financial situation will remain the same whether there is a dollar spent on armament or whether it is all spent on good roads or anything else.

The second observation of the Senator from Pennsylvania discloses that he does not like the reciprocal-trade policies of the present administration. I desire to point out that we did not have those reciprocal-trade policies 4 years ago, and we had the biggest depression in the history of the world under the economic isolation of Hoover and Harding and Coolidge. It is because we desire a wider market for American goods, operating upon the theory that the more we trade the more prosperity and the more labor we shall have for everybody, rather than upon the theory that the less trade the more work and the more prosperity for everybody, that we have indulged in the reciprocal-trade agreements, which happily are making more work for the people of this country than the policy which brought on the depression under the three previous administrations.

Mr. DAVIS rose.

Mr. LEWIS. First, before the Senator from Pennsylvania responds, I cannot accept his statement that the officials of the administration were "winking" at the policy of our foreign debtors not to pay their debts. I do not know what facial expression from time to time could have disordered their countenances when they realized that they could not collect a dollar, and were constantly met by the assertion of the debtors that they could not, or would not, pay. This much I do know—that I fear they have failed to realize that a generous attitude toward the debtors has not increased that which the Senator from Maryland has just described—the opportunity for reciprocity in the commercial dealings and in the trading processes.

I fear my administration has fallen into the very great error of assuming that its generosity in not pressing the debts in many quarters where they should have been pressed would have aided the commercial policy and enlarged prospective trade for America. Those to whom we have extended our many kindnesses, instead of rewarding us with their appreciation and gratitude, have turned upon us their scorn, and have scoffed at us as a nation of credulous officials and foolish people.

Mr. TYDINGS. Mr. President——

The PRESIDING OFFICER. Does the Senator from Illinois further yield to the Senator from Maryland?

Mr. LEWIS. I yield.

Mr. TYDINGS. I wish to point out to the Senator from Pennsylvania and the Senator from Illinois that if they will follow the history of the United States from 1893 down to this hour, they will find the greatest years of prosperity in America were the years when we imported the most goods from foreign countries. The reason is perfectly obvious. It was because during the years we imported the most goods from foreign countries, we sold the most goods to foreign countries. Our foreign customers used the money they received from selling their goods to us to pay for the goods which we were selling to them; and without selling to us, obviously they could not buy from us. The goods always are the medium of exchange. The money is only an incident to the transaction; and when we have imported the least amount of goods we have sold the least amount of goods abroad. As that is the history of this country since 1893, in the absence of some other facts I cannot subscribe to the narrow policy of economic nationalism as we had it under Mr. Hoover.

Mr. DAVIS. Mr. President——

Mr. LEWIS. I yield to the Senator from Pennsylvania for the moment.

Mr. DAVIS. If the Senator calls the years from 1893 to 1897 years of prosperity, the years we have just passed through in the depression surely were much more prosperous than those years.

Mr. TYDINGS. The Senator misunderstood me. I said that from 1893 down to 1936 the Senator will find that every year in which our imports were the greatest our exports were the greatest, and every year in which our imports were the smallest our exports were the smallest, because people cannot buy from us unless they can sell to

us any more than the farmer can buy a pair of shoes or a suit of clothes until he sells something which he produces.

Mr. LEWIS. Mr. President, I wish to say that we observe from one of these great debtors two demands which we all must now consider. One is that no proposition should be made, either by our Government or by them, and accepted by our Government, that shall not apply to all of the debtors; and I observe the names of Poland, Rumania, and Greece, the smaller countries, and Italy, particularly. I also say, however—and I invite the attention of the able Senator from Oklahoma [Mr. THOMAS] on this point, knowing him to be especially interested along the line referred to—that the eminent Chancellor of the Exchequer of England tells us that any attempt to pay the debts in the method suggested—referring to my statement as an illustration—would so disarrange the balances between countries that neither trade nor finance could be continued without great loss and, in one instance, great dishonor. Let me ask the able Senator from Oklahoma wherein are balances so disturbed by paying either money or goods that it may be said that the payment wholly disturbs and sets at unrest the commercial and financial arrangements between these lands, keeping in mind, I may say to the Senator from Oklahoma, the suggestion of the able Senator from Maryland as to what he calls the stabilization of our currency?

Mr. THOMAS of Oklahoma. Mr. President, if I may presume to make an observation prior to attempting to make a suggestion, every one knows that during the World War America loaned our Allies a vast amount of money. This money was in the form of credit and expressed in commodities. We did not loan the Allies gold. We did not loan them silver, excepting a very small amount to Great Britain. We did not loan them currency. We simply loaned them credit expressed in bushels of wheat, in pounds of cotton, in pounds of meat, and in manufactured goods. Because at that time the dollar had a very low valuation, the price of these commodities which we loaned our Allies was very high. In other words, we loaned credit to our Allies on the basis of a bushel of wheat for $2.50, a pound of cotton for 40 cents, and other things in proportion.

After the war was over, in an effort to adjust the debts, we exacted that our Allies should pay us by evidences in the way of bonds on the basis of the then valued gold dollar; and after the obligations were signed and delivered to our Government, the allies found that they could not pay us in terms of commodities; they could not pay us in wheat; they could not pay us in cotton; they could not pay us in either gold or silver, because they did not have and could not secure the gold. They could not pay us in commodities or goods because they could not pay the tariff duties and still have anything left to apply on the indebtedness. Therefore, inasmuch as France and the United States had a corner on gold, they could not possibly get that commodity.

Had the Allies wanted to pay us in cotton, we should have exacted 8 pounds of cotton for 1 pound loaned, because we loaned them cotton based on 40 cents a pound, and at the time they were supposed to pay, cotton was worth 5 cents a pound. So we were exacting or requiring them to pay us back 8 pounds of cotton where we loaned only 1 pound of cotton. At the time they were supposed to pay wheat had fallen to 30 cents per bushel. We loaned them wheat at the rate of $2.50 a bushel. So, in the last analysis, at one time we expected our Allies to pay us back in wheat at the rate of 8 bushels for 1 bushel which they borrowed. On the same basis, we loaned them one hog during the war, and when pay day came, we, in effect, demanded that the Allies pay us back seven or eight hogs.

Of course the Allies could not and did not pay on such a basis. They did not have the gold. They could not get the gold. So the policy of the United States in retaining the highest tariff wall in history and maintaining the highest valued dollar in a generation, has made it utterly impossible for the Allies to pay; and I hold no brief for the Allies.

Now I wish to ask the distinguished Senator from Illinois a question. Does he think it is just, equitable, fair, or even honest, for us to demand or even expect the Allies to pay us back a value represented in either commodities, goods, or gold several times that which they received when the original loans were made?

Mr. LEWIS. Mr. President, in reply let me say that I am conscious of the fact that during my service in 1926 abroad, where I served with others to whom I now wish to give much credit—Mr. Richard Olney, who was a member of the Commission named by President Harding as one of the lay members, in addition to the members of the Cabinet—it must be admitted that England canceled something like five billions of the indebtedness due her, for what reasons and under what circumstances I am not able to reveal. I reveal only the conclusion. But I say to my able friend from Oklahoma, if it be true, as true it must be, as I gather from his calculations, that the payment to us by any system would mean a great loss to the debtors, then I ask the debtors to come forward and set forth wherein they are at a disadvantage, wherein they would suffer some loss, and present a proposition which in its fairness would be just to us as well as generous to them, and let us then decide among ourselves upon a new basis, according to the theory and equity suggested by the Senator from Oklahoma, through which we would have some recognition of the debts, and on some basis of payment that would be at least recognizing the rights of the United States.

Mr. BONE. Mr. President, will the Senator yield?

Mr. LEWIS. I yield to the Senator from Washington.

Mr. BONE. One of the very unhappy aspects of this problem arises, however, out of the fact that while there is the vast differential in the valuation of commodities to which the Senator from Oklahoma has referred, this vast debt is reflected in outstanding bonds which the American people now have to pay.

I so much admire the views of the Senator from Illinois with respect to the war debts, I find myself so wholly in accord practically all the time with his views in this matter, that I am tempted now to ask him whether the thing he is describing, and which we have discussed so frequently on this floor, is not an outstanding example of the folly of trying to make profit out of war. All the vast debt that is now piled up on us was, at the time it was being incurred, looked upon as a tremendously valuable thing to the economic life of America; but every one of the dollars that were thought to be profit then have become ashes in our mouths today. Instead of being golden apples of Hesperides, they are the apples of Sodom. There cannot be any profit in war; for all the profit that Americans thought they were making by preserving this doctrine of the freedom of the seas, and carrying on this traffic with the warring nations, has now finally reflected itself in the vast debt that crushes us here in our hour of adversity.

I have not heard the able Senator from Illinois discuss that aspect of the matter. I know it is a rather delicate subject, and it touches men here in different ways, politically and economically; but it is one of the horrible aftermaths of war. The idea people have that they can make money out of war is the most stupid and foolish thing that a man can possibly imagine; and the most illusory thing on earth is war profits.

Mr. LEWIS. I catch the viewpoint of the Senator from Washington along the line of the humane policy upon which he has addressed the Senate from time to time. I observe the Senator from Oklahoma rising, and I seem unintentionally to have cut him off.

Mr. THOMAS of Oklahoma. Mr. President——

The PRESIDING OFFICER. Does the Senator from Illinois yield to the Senator from Oklahoma?

Mr. LEWIS. I yield to the Senator.

Mr. THOMAS of Oklahoma. The question suggested by the Senator from Washington [Mr. BONE] reinforces the position which I thought I made plain a moment ago. The

same bonds in value that the foreigners are under obligation to pay rest upon the American people today. These bonds, to the extent of at least $16,000,000,000 remaining unpaid, are the bonds issued during the war. Of our present indebtedness, $16,000,000,000 represents unpaid bonds issued during the war. Those bonds were issued on the basis of these high prices—$2.50 wheat, 40-cent cotton, $1.50 corn, and other things in proportion. Now the American people are required to pay those bonds with a higher-valued dollar, which means in goods at cheaper prices, and even against our home people at this time there is a requirement to pay back, say, two bushels of wheat for one they borrowed, and to pay back four pounds of cotton for one that was borrowed in 1917 and 1918. The holders of private foreign securities want the public war debts canceled to the end that the resources of our former Allies may be applied to the liquidation of their private obligations.

It is more than possible that persons interested in collecting private foreign loans may be responsible for bringing about and maintaining conditions which absolutely prevent the possibility of our Allies living up to their financial agreements. The Allies, for reasons best known to themselves, have not given the real reason as to why they have defaulted their solemn obligations. As I understood this matter, good faith on our part demands that we intimate to our Allies that it would be agreeable to reconsider the whole question of war debts and to adjust such debts on the basis of the repayment of value comparable to the value received.

Mr. LEWIS. Mr. President, I wish to conclude. I have made perfectly clear that my first desire was to know what the terms of the moratorium were, and upon what basis the privileges were granted these nations of the release of their debts.

I ask also that there be a record in my own administration, that the State Department shall from no tender sense of politeness, or what is called "politeness" in diplomacy, withhold the truth from the American public.

Mr. President, there has been presented in the last few weeks to our Government the suggestion by the larger debtors of some method of adjustment of certain portions of the debts which will not run counter to the reciprocity trade treaties which are now under consideration. As France under her new order has announced a desire to settle the debts, that they may maintain and continue the friendship with the United States, and as a leading officer of England has remarked within the last few days that there surely would be some form of adjustment, I suggest to England that there is rubber, and to France that there is silk. These two alone, if there be none other, represent a quantity which could at least be contributed in such sum as our necessities may require, and begin at least the payment of the installment and the interest now due.

What I ask for, sir, is an exhibition of good faith on the part of the debtors; a spirit of honor, such as they would exact from us, and something which may lead, in the discharge of these obligations, to lifting the heavy burden from the backs and shoulders of the American public, and rescue it from having to drain its Treasury and its pockets in order to pay the debts that are upon us in the salvation of the needy in our country.

I seek the justice which we seek between nations, and I ask the further consideration by my State Department and by my Government of the debts, and that they serve as the agents of the American people in enforcing the recognition and payment of the debts in some manner that would be just to our people and fair to the debtors.

With Warwick to Hastings, in the diplomatic history of England, we say, "Courtesy to all—servile to none."

MESSAGE FROM THE HOUSE

A message from the House of Representatives, by Mr. Haltigan, one of its reading clerks, announced that the House had passed the bill (S. 4699) to provide a commissioned strength for the Corps of Engineers, United States Army, for the efficient performance of military and other statutory duties assigned to that corps, with amendments, in which it requested the concurrence of the Senate.

COMMISSIONED STRENGTH FOR CORPS OF ENGINEERS

The PRESIDING OFFICER (Mr. LOFTIN in the chair) laid before the Senate the amendments of the House of Representatives to the bill (S. 4699) to provide a commissioned strength for the Corps of Engineers, United States Army, for the efficient performance of military and other statutory duties assigned to that corps, which were, on page 1, line 6, to strike out all after the word "and" where it occurs the first time down to and including the word "further" in line 1 of page 2, and to insert "the President is hereby authorized to call to active duty with the Regular Army such number of officers of the Organized Reserves and for such time as may be necessary to meet the demands made and to be made upon the Engineer Corps of the Regular Army notwithstanding the provisions of section 37a of the act of June 3, 1916, as amended: *Provided";* On page 2, line 2, after the word "Engineers", to insert "and the Reserve officers of the Corps of Engineers"; and on page 2, line 8, to strike out all after the word "employed" down to and including the word "act" in line 13.

Mr. SHEPPARD. I move that the Senate concur in the amendments of the House.

The motion was agreed to.

RESTRICTION OF IMMIGRATION—DEPORTATION OF ILLEGAL ENTRANTS

Mr. CAPPER. Mr. President, I have just received a copy of resolutions adopted at the annual encampment of the United Spanish War Veterans for the Department of Kansas, held at Topeka on May 15, in which they take a strong stand for the deportation of all aliens who are in the country illegally. They also protest against keeping millions of people on the relief and other public pay rolls who come from other countries and have refused to become naturalized citizens of the United States.

The resolutions were sent to me by the department commander in the following letter:

HEADQUARTERS, DEPARTMENT OF KANSAS,
UNITED SPANISH WAR VETERANS,
Leavenworth, Kans., May 26, 1936.

The Honorable ARTHUR CAPPER,
United States Senate, Washington, D. C.

DEAR SIR: The following resolution was adopted at the annual encampment of the United Spanish War Veterans, Department of Kansas, regarding the deportation of all aliens who are in the country illegally:

"With our estimated 3,000,000 aliens in this country illegally and an equal number on relief, with an undue proportion of aliens in our insane asylums and our prisons, we earnestly recommend the purging of relief rolls, public pay rolls, and public-works pay rolls of this undeserving class, to the end that relief be extended solely to American citizens in need, and that public jobs be filled by Americans.

"We favor the further drastic restriction of unassimilable aliens and the deportation of all illegally residing aliens who have not made the proper attempts to obtain citizenship; and that we restrict immigration by blocking the ports of entry and putting men in charge there who will really see that the laws are enforced."

Hoping that you will use your influence to secure the passage of some bill along these lines, I am,

Yours respectfully,

J. E. MCBRIAN,
Department Commander, Kansas United Spanish War Veterans, Leavenworth, Kans.

Mr. President, I am in hearty sympathy with the stand taken by the Spanish War veterans of my State as set forth in these resolutions. I cannot see any valid reason why the Government of the United States should be called upon to take care of the unemployed of other nations. Let it be understood that I think that would be a fine thing for us to do if we could afford to do it. But under present circumstances, after 15 years of almost continuous farm depression, I say that load is too heavy.

I note by the latest census reports there are some fourteen or fifteen millions of foreign born in the United States. Of

these, some 4,500,000 are aliens; that is, they are not naturalized citizens, nor have they started to take out naturalization papers.

I have nothing against the foreign-born citizens of the United States. The foreign-born citizens of our country are just as much entitled to whatever we have in these United States as are native-born citizens of the United States. But I do not believe it is our duty—in fact, I do not believe it is fair to our own people—to carry the load of the foreign born who come here to make a living but decline to take the responsibilities of citizenship.

Unfortunately, there are a large number of criminals among these foreign-born noncitizens. They should be deported, and deported just as fast as they are found. It is estimated that there are some 20,000 of these who have criminal records. I say they should be returned to the lands from whence they came and just as speedily as they can be picked up and packed out.

I wish most devoutly that economic conditions in this country were such that we could welcome to our shores all foreign born not criminals who would like to come to our country. But that is not our condition. We are having trouble caring for our own people, and I include among our own people all foreign born who have become citizens of the United States. But that still leaves more than 4,500,000 foreign born not citizens. These are of two classes. Either they have businesses or jobs, or they are listed among the unemployed. If they have jobs, those jobs would be filled by Americans if the aliens did not hold the jobs. If they are on the unemployed lists, they add that much to the relief burden under which our people are staggering.

But in addition to thousands of criminal aliens there are several hundred thousand foreign born who entered this country in defiance of the immigration laws, or at least through their evasion.

I say that under present circumstances, with 10,000,000 unemployed in this country, our first duty is to our own people, not to those who do not think enough of this country to become naturalized citizens of this country.

Therefore, I am in favor of and will support legislation dealing with foreign born:

First. That will require deportation of all criminal aliens.

Second. That will require the deportation of all aliens who have entered this country illegally.

Third. That will require the deportation of all aliens who, after having lived here a reasonable length of time, refuse to take out naturalization papers.

CONVEYANCE OF LAND TO MINNESOTA

Mr. SHIPSTEAD. Mr. President, I ask unanimous consent for the present consideration of Calendar No. 2568, relating to the sale of land by the United States to the State of Minnesota.

There being no objection, the Senate proceeded to consider the bill (H. R. 11331) to authorize the sale and conveyance by the Department of the Interior to the State of Minnesota of the SW¼NW¼ sec. 3, T. 159 N., R. 35 W., fifth principal meridian, in the State of Minnesota.

Mr. KING. Mr. President, may I ask the Senator the position of the Secretary of the Interior and the recommendation of the Committee on Public Lands and Surveys on the bill?

Mr. SHIPSTEAD. Mr. President, I have a letter from the Secretary of the Interior approving the sale provided for in the bill, and there is a unanimous report of the Committee on Public Lands and Surveys.

Mr. KING. Is the land mineral?

Mr. SHIPSTEAD. Oh, no; it has been sold, under the Federal Drainage Act, for taxes, and has been bought by the State. The State desires to get possession so as to use the land for a lookout station for the Forest Service, but must pay certain charges which the Government of the United States requires to be paid before it will give title.

The PRESIDING OFFICER. The question is on the third reading of the bill.

The bill was ordered to a third reading, read the third time, and passed.

BOOTH & CO., INC.

Mr. COPELAND. Mr. President, I was absent from the Chamber in connection with the ship-subsidy bill when the calendar was called a few days ago, and two bills were passed over because there was no one present to explain them. One was Calendar No. 2507, House bill 10504, for the relief of Booth & Co., Inc., a Delaware corporation. The Secretary of War makes no objection to the passage of this bill, and an identical bill was passed in the Seventieth Congress. I ask unanimous consent that the Senate consider the bill at this time.

Mr. DAVIS. What is the number of the bill on the calendar?

Mr. COPELAND. Calendar No. 2507.

The PRESIDING OFFICER. Is there objection to the request of the Senator from New York?

There being no objection, the bill (H. R. 10504) for the relief of Booth & Co., Inc., a Delaware corporation, was considered, ordered to a third reading, read the third time, and passed.

CREATION OF THE TREASURY AGENCY SERVICE

Mr. COPELAND. Mr. President, the other day when Calendar No. 2448 was called I interposed an objection. I do not know how other Senators may feel about it, but, so far as I am concerned, I wish to withdraw any opposition I had to Calendar No. 2448, House bill 12556. I ask that the bill be reported in order that the Senate may know what it is.

Mr. VANDENBERG. Mr. President, I shall object to the consideration of that bill.

The PRESIDING OFFICER. Objection is heard.

TONIO MORI MOTO

Mr. COPELAND. Mr. President, I call attention of Senators who may be interested to Calendar No. 2529, House Joint Resolution 388, and ask that it be given immediate consideration.

The PRESIDING OFFICER. The clerk will report the joint resolution by title.

The LEGISLATIVE CLERK. A joint resolution (H. J. Res. 388) to authorize the issuance of a reentry permit to Tonio Mori Moto and his readmission upon application while such permit remains valid.

Mr. COPELAND. Mr. President, before objection is made permit me to make a brief explanation of the joint resolution. Homio Mori Moto came to this country when he was a child. He is a Japanese and ineligible to citizenship in our country. When he grew up he married an American woman and has a child by that wife, which is, of course, an American citizen. This man, if he were to go back to his country, as he desires to do, for a few weeks on account of the illness of his old mother, cannot be readmitted to this country. Bear in mind that he is not eligible to deportation. He cannot be excluded. He has been in this country so long that under our laws he cannot be excluded.

Mr. DAVIS. Mr. President, will the Senator yield?

Mr. COPELAND. I yield.

Mr. DAVIS. I understand he cannot even become a citizen.

Mr. COPELAND. He cannot become a citizen, but he cannot be excluded. His wife is an American citizen. His child is an American citizen. I think in the interest of humanity this man should be permitted to go back and see his old mother. If we do not pass the joint resolution he is going to stay in this country. I can see no possible objection to permitting him to reenter this country.

The PRESIDING OFFICER. Is there objection to the present consideration of the joint resolution?

There being no objection the joint resolution (H. J. Res. 388) was considered, ordered to a third reading, read the third time, and passed.

COLLECTION OF DEMOCRATIC CAMPAIGN FUNDS

Mr. METCALF. Mr. President, it is my understanding that postmasters throughout the United States have received letters bearing a rubber-stamp facsimile of the signature of Postmaster General Farley, acting as chairman of the Demo-

cratic National Committee, urging them to join in a campaign to raise funds to head off a Republican landslide this November. While Postmaster General Farley has attempted to disclaim any part in this campaign, it is only reasonable that he should be held responsible for the acts of the Democratic National Committee. No man can at the same time be Postmaster General of the United States, chairman of the Democratic National Committee, and chairman of the New York State central committee, without taking full responsibility for the use of his name.

Two of these letters asking postmasters to have "a personal part" in the "Roosevelt nominator" plan "to raise a substantial part of the national campaign fund for President Roosevelt", have turned up in Rhode Island. One of them was received by a second-class postmaster, and I think it should be read at this time.

DEMOCRATIC NATIONAL COMMITTEE,
JAMES A. FARLEY, CHAIRMAN,
Hotel Biltmore, New York City, June 13, 1936.

DEAR : I know that you will want to have a personal part in the great national Democratic rallies which are being called to hear President Franklin D. Roosevelt accept his renomination at the national convention in Philadelphia on Saturday evening, June 27.

The Roosevelt Nominators have been formed to organize these rallies, and to raise a substantial part of the national campaign fund for President Roosevelt, for presentation to the party's national treasury when he makes his speech of acceptance, and to launch then and there the victory campaign itself.

The goal is unprecedented and the plan is remarkable. The movement has been made possible because President Roosevelt has created the opportunity for the display of universal public enthusiasm by arranging to go in person to the convention to receive the notification of his renomination and to respond immediately with his speech of acceptance. To hear his address in the presence of a host of 100,000 Democrats, the national convention will hold an open-air session in Franklin Field. The great central national rally at Franklin Field will have its counterparts in cities and towns throughout the country.

I am giving you additional details in the enclosed leaflet and I am also sending you a copy of the Roosevelt Nominators enrollment roster, which will be furnished in necessary quantity to the local chairman.

Here is what I am asking you to do. It is to select without delay a prominent Democrat of your community to act as chairman of the Roosevelt Nominators for your community, secure his acceptance, and wire me, care of Democratic National Committee, Hotel Biltmore, New York, his name and address.

Please hand him the organized material enclosed in this letter so that he can begin organizing immediately. He will be sent at once an official certificate of appointment as chairman of the finance division of the Democratic National Committee for the community, and will be supplied with additional material and enrollment rosters.

Time is short, and I will appreciate your prompt action. With personal thanks to you for the complete support I know you will give this effective plan, and with best wishes,

Sincerely yours,

JAMES A. FARLEY, *Chairman.*

I have it on very good authority that Postmaster Edward F. Carroll, of Providence, R. I., has admitted receiving a large supply of Roosevelt nominator letters bearing what is purported to be the rubber-stamp signature of Postmaster General Farley. If this be true, and I have every reason to believe that it is true, the postmasters acceding to the wishes of the Democratic National Committee would be violating section 218, title 18, of the Criminal Code, and subject to 3 years in prison or a fine of $5,000, or both. I quote the law:

No person in the executive civil service shall use his official authority or influence for the purpose of interfering with an election or affecting the results thereof. Persons who by the provisions of these rules are in the competitive classified service, while retaining the right to vote as they please and to express privately their opinions on all political subjects, shall take no active part in political managements or political campaigns.

The statute also states that it is unlawful for such an employee to—

Directly or indirectly solicit, receive, or be in any manner concerned in soliciting or receiving, any assessment, subscription, or contribution for any political purpose whatever, from any other such officer, employee, or person.

Section 53 of this code states that—

Whoever shall violate any provision of this title shall be fined not more than $5,000, or imprisoned not more than 3 years, or both.

I should like to know how long these acts, apparently unlawful, are to continue. Are we witnessing the emergence of the old type of Tammany in the Federal Government? Has the spoils system completely wrecked all resemblance to a respectable civil service, and will the American people and our courts of justice tolerate the wrecking of our merit system for political purposes? Very recently Mr. J. Edgar Hoover, who has done a noble job of law enforcement in this country, made the statement that Public Enemy No. 1 was "politics."

I should like to call to the attention of the Department of Justice the following alleged assertions:

First. The postmaster at Providence, R. I., received a supply of letters similar to that bearing the rubber-stamp signature of Postmaster General Farley, urging him to take an active part in a campaign to raise funds for the reelection of President Roosevelt.

Second. That the postmaster at Providence, R. I., made the following public statement:

I am a Democrat and I have always been a Democrat. I am also the postmaster; and when there is a change of administration I expect to go out. Until then I feel it is my duty to do everything I can to help the Democratic Party in the State and in the Nation.

Third. That on Wednesday evening, June 17, 1936, the postmaster at Providence, R. I., inspired by the letter alleged to have been signed by Postmaster General Farley, attended a meeting at the Providence-Biltmore Hotel of a group of Roosevelt nominators, called for the purpose of organizing to solicit money for campaign funds.

If these allegations are true—and there is every evidence to substantiate them—it is apparent that the Criminal Code is being widely violated.

is being widely violated, and I call the attention of the Department of Justice to this fact.

Mr. MINTON. Mr. President, will the Senator yield for a question?

The PRESIDING OFFICER. Does the Senator from Rhode Island yield to the Senator from Indiana?

Mr. METCALF. Certainly.

Mr. MINTON. Just what part of the Criminal Code is being violated in this instance?

Mr. METCALF. It is stated in my speech, as the Senator will see if he will read it. I will not go back to it now.

Mr. MINTON. I am afraid that would be a little laborious. I was wondering if the Senator could tell me.

Mr. METCALF. I would have to go through the speech in order to do so.

Mr. ROBINSON. Mr. President, I shall not claim the time of the Senate to discuss the statement of the Senator from Rhode Island, just concluded; in fact, I heard only a small portion of it. I desire, however, to point out briefly the fact that the letter purporting to have been issued by Mr. Farley shows on its face that it was not issued by him. The letter begins with the statement—

Mr. James A. Farley has arranged to finance the entire national campaign by selling Presidential nominator tickets—

And so forth.

I ask leave to have inserted in the RECORD, as a part of my remarks, the statement issued by Mr. Farley on Wednesday, June 17, 1936, relating to this subject.

The PRESIDING OFFICER. Is there objection? The Chair hearing none, the statement will be printed in the RECORD.

The statement referred to is as follows:

WEDNESDAY, JUNE 17, 1936.

In response to a number of inquiries from newspaper correspondents regarding the charge that fourth-class postmasters were being solicited to contribute to the Democratic campaign fund, Postmaster General James A. Farley today made this statement:

"I have noticed the publication of a letter purporting to be signed by me and made public by Representative HALLECK, of Indiana, who says that the letter illustrates the manner in which the entire Postal Service is being mobilized as a campaign machine in behalf of the New Deal.

"I wish to state with absolute definiteness that I never signed such a letter, that I never saw such a letter, or authorized nor countenanced the signature of such a letter.

"It is perfectly obvious from the form of the letter itself that it never emanated from me, for it begins by stating that 'Mr. James A. Farley has arranged to finance the entire national campaign by selling Presidential nominator tickets at $1 each in every section of the country' and then purports to be signed 'James A. Farley.' Furthermore, no such letter was issued through the Democratic National Committee headquarters, either here in Washington or in New York.

"It is possible that some overzealous individual, desirous of swelling the receipts from the meetings that will be held all over the country to listen to the speech of acceptance that will be delivered from Franklin Field, Philadelphia, may have affixed a rubber-stamp signature such as I understand the letter carries. But if so, it was entirely without my knowledge or consent.

"The Post Office Department has been particularly careful to warn postmasters to keep within the law in any political activities. The Republican Congressman who the newspapers say produced the letter was careful to avoid stating when or where it was mailed, or by whom received, so that I have been unable to trace the letter. All he said was that he had received it from a fourth-class postmaster 'specifically protected by the civil-service laws from campaign solicitation.'

"I have caused to be printed in the Postal Bulletin, which will go to every post office in the United States, this order:

" 'It has been brought to my attention that letters and statements have been circulated bearing my name and purporting to be approved by me urging postal officials and postal employees to purchase tickets for participation in events of a political character. All officials and employees in the Postal Service are admonished to give no credence to such letters and statements, as I have not and do not approve of the use of my name in connection with such solicitations by or from people in the Postal Service.

" 'The attention of the entire personnel of the Postal Service is directed to section 208, title 18, of the Criminal Code, which makes it unlawful for any officer or employee of the United States, or any person receiving any salary or compensation for services from money derived from the Treasury of the United States, to directly or indirectly solicit, receive, or be in any manner concerned in soliciting or receiving, any assessment, subscription, or contribution for any political purpose whatever, from any other such officer, employee, or person.' "

MESSAGE FROM THE HOUSE

A message from the House of Representatives by Mr. Chaffee, one of its reading clerks, announced that the House had passed without amendment the following bills of the Senate:

S. 2039. An act making it a felony to transport in interstate or foreign commerce persons to be employed to obstruct or interfere with the right of peaceful picketing during labor controversies; and

S. 4268. An act to authorize the Secretary of War to set apart as a national cemetery certain lands of the Fort Snelling Military Reservation, Minn.

The message also announced that the House had agreed to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 3247) to amend title II of the National Industrial Recovery Act as amended by the Emergency Appropriation Act, fiscal year 1935, and as extended by the Emergency Relief Appropriation Act of 1935.

The message further announced that the House had agreed to the reports of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to each of the following bills of the House:

H. R. 3952. An act for the relief of Mr. and Mrs. Bruce Lee; and

H. R. 11140. An act to provide more effectively for the national defense by further increasing the effectiveness and efficiency of the Air Corps of the Army of the United States.

The message also announced that the House had agreed to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 1362) for the relief of Ramey Bros., of El Paso, Tex.

The message further announced that the House had agreed to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 11581) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of such District for the fiscal year ending June 30, 1937, and for other purposes; that the House agreed to the amendment of the Senate to the amendment of the House to the amendment of the Senate numbered 1 of the bill, and that the House receded from its disagreement to the amendment of the Senate numbered 75 and concurred therein.

TREASURY AND POST OFFICE DEPARTMENTS APPROPRIATIONS—CONFERENCE REPORT

The Senate resumed the consideration of the report of the committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill (H. R. 10919) making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1937, and for other purposes.

Mr. GIBSON. Mr. President, I ask unanimous consent for the immediate consideration of Calendar No. 2325, being the bill (H. R. 9058) for the relief of the Baker-Whiteley Coal Co.

The PRESIDING OFFICER. Is there objection?

Mr. GLASS. Mr. President, what is the pending question?

The PRESIDING OFFICER. The question is on agreeing to the conference report on the Treasury and Post Office Departments appropriation bill.

Mr. ROBINSON. Mr. President, I cannot consent to the consideration of bills on the calendar, considering the state of the business of the Senate at this time. The pending question relates to the conference report.

The PRESIDING OFFICER. Objection is made.

The question is on agreeing to the conference report.

Mr. BLACK. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The Chief Clerk called the roll, and the following Senators answered to their names:

Adams	Clark	La Follette	Radcliffe
Ashurst	Connally	Lewis	Reynolds
Bachman	Copeland	Loftin	Robinson
Bailey	Couzens	Lonergan	Russell
Barkley	Davis	McAdoo	Schwellenbach
Benson	Dieterich	McGill	Sheppard
Bilbo	Duffy	McKellar	Shipstead
Black	Frazier	McNary	Smith
Bone	George	Maloney	Steiwer
Borah	Gerry	Metcalf	Thomas, Okla.
Brown	Gibson	Minton	Thomas, Utah
Bulkley	Glass	Moore	Townsend
Bulow	Guffey	Murphy	Truman
Burke	Hale	Murray	Tydings
Byrd	Harrison	Neely	Vandenberg
Byrnes	Hastings	Norris	Van Nuys
Capper	Hatch	Nye	Wagner
Caraway	Hayden	O'Mahoney	Walsh
Carey	Holt	Pittman	Wheeler
Chavez	King	Pope	

The PRESIDING OFFICER. Seventy-nine Senators having answered to their names, a quorum is present. The question is on agreeing to the conference report.

Mr. BLACK. Mr. President, the Senate now has under consideration the report of the conference committee on the Treasury and Post Office Departments appropriation bill. When this bill was originally before the Senate, this body, as I recall, by an overwhelming vote, struck out the appropriation to make payment on the ocean-mail contracts. As the bill returns from conference the report recites the following:

That the House recede from its disagreement to the amendment of the Senate no. 52, and agree to the same with an amendment as follows: Restore the matter stricken out by said amendment, amended to read as follows:

This is the provision that now appears:

Payments under Merchant Marine Act contracts: For payments under contracts entered into by the Postmaster General prior to March 4, 1933, or any modification thereof, under the provisions of the Merchant Marine Act of 1928 (U. S. C., title 46, secs. 891–891X), $26,500,000, of which $4,500,000 is an estimated amount representing the equivalent poundage-rate cost of transportation of the mail carried on vessels under such contracts and $22,000,000 is an estimated amount representing additional assistance toward the development of the American Merchant Marine: *Provided*, That no part of this sum shall be paid on contract no. 56 to the Seatrain Co.

In other words, Mr. President, if the Senate shall adopt the conference report it will provide an appropriation of $26,500,000 to make payment for ocean-mail contracts. It, therefore, becomes important that the Senate thoroughly understand what is meant by this report.

Mr. McKELLAR. Mr. President——

Mr. BLACK. I yield to the Senator from Tennessee.

Mr. McKELLAR. I invite the Senator's attention to section 401 on page 26 of the subsidy bill passed today, which provides as follows:

No contract heretofore made by the Postmaster General pursuant to the provisions of the Merchant Marine Act of 1928 for the carriage of mail shall be continued in effect after June 30, 1937, and after that date it shall be unlawful for any officer of the United States to pay from any public fund any compensation to the holder of such contract for services thereunder except for such voyages as were completed prior to the expiration date herein fixed and for voyages commenced prior to said expiration date and which shall not have been completed prior to said expiration date.

If the bill becomes a law the appropriation carried in the conference report on the Post Office and Treasury appropriation bill will be absolutely necessary to carry into effect that provision.

Mr. BLACK. I agree with the Senator. If the committee will wait until the House has acted upon and accepted the bill which was passed today by the Senate, so far as I am concerned I shall have nothing further to say.

Mr. GLASS. Mr. President, the Senate ought to know that the committee has waited about 8 weeks.

Mr. BLACK. I think the Senator is correct and so far as I am concerned, I believe the Senate should wait many more "8 weeks" before it reinstates the appropriation without the enactment of proper legislation. To that subject I intend to address myself.

That is not only my feeling, but it is the feeling of a number of other Senators, and it is our intention to do everything possible to see that the appropriation shall not prevail unless and until the bill which was passed by this body today and which provides regulation for the expenditure of those funds shall have been enacted into law.

In response to the statement of the Senator from Tennessee [Mr. McKELLAR], it is quite true that the bill as passed provides that the contracts shall continue in force and effect until July 1937, but there is nothing that would give more joy and more satisfaction to the lobbyists who have been gathered here today, and who are here now in full force, than to be able to have the appropriation bill passed at this time and then, if possible, bring about the defeat of the merchant-marine bill which the Senate today passed and which provides regulation of the method of expenditure of the people's money.

Mr. CLARK. Mr. President——

Mr. BLACK. I yield to the Senator from Missouri.

Mr. CLARK. Bearing out what the Senator has just said, I went up to the Commerce Committee room a little while ago and it was so filled with shipping lobbyists that I could hardly get inside the room.

Mr. BLACK. I can readily understand that.

Mr. McKELLAR. Mr. President——

The PRESIDING OFFICER. Does the Senator from Alabama yield to the Senator from Tennessee?

Mr. BLACK. I yield.

Mr. McKELLAR. The Senator knows that I was opposed to the bill which was passed today by the Senate. If we had had a yea and nay vote on it, the RECORD would have shown that I was against it. However, that bill provides, and probably wrongly provides, that the old contracts shall be continued until June 30, 1937. It all depends on whether the conference report is adopted as to whether that provision of the so-called subsidy bill can be carried out. I would have preferred, and I think the entire Appropriations Committee, or if not the entire committee at least a majority of it, would have preferred that all payments under these alleged contracts should have been stopped, and we did so provide in the appropriation bill; but now that the merchant marine bill actually provides for the continuance of the contracts until June 30, 1937, it is obvious that we will have to appropriate the additional $22,000,000.

Mr. CLARK. Mr. President, will the Senator from Alabama yield?

Mr. BLACK. I yield.

Mr. CLARK. I called attention this morning, and the Senator from Alabama himself called attention yesterday, to the situation which might develop. So far as I am concerned, I would have preferred not to have the ship-subsidy bill at all, and to have the appropriation for the present ocean-mail contracts omitted or discontinued. That would have brought about a situation which would have compelled action along the line which I believe to be the proper line; namely, a situation in which the full interests of the Government would be protected.

I think most of us who entertain the views held by myself and the Senator from Alabama agree that the bill which passed the Senate this morning is an improvement over the present situation, but if the Senate should now adopt the conference report it would put it entirely within the power of those who prefer the present ocean-mail contract system to any new system containing any regulation, to kill the merchant-marine bill and leave the situation in status quo.

Mr. McKELLAR. In other words, the Senator feels that those who are really interested in the subsidy would prefer to have the subsidy bill defeated?

Mr. CLARK. Yes; I think the shipping interests prefer the existing ocean-mail contracts to a subsidy bill. While it is an outright, frank subsidy bill, it contains certain regulatory provisions which are entirely absent from the present law. If the shipping interests could bring about the approval of the conference report and then kill the bill which was passed by the Senate this morning, they would be glad to do it, because it would bring about a perpetuation of the present situation.

Mr. McKELLAR. That is the reason why I was opposed to the passage of the subsidy bill.

Mr. CLARK. I would have preferred not to pass the subsidy bill if I had been certain the conference report reinstating the $26,500,000 could be defeated, but with the defeat of the subsidy bill and the reinstatement of the appropriation of $26,500,000, we are simply perpetuating the present ocean-mail contracts.

Mr. BLACK. Mr. President, may I say in response to what has been said by the Senator from Tennessee [Mr. McKELLAR] that I think there is no doubt that those who are drawing down money under these contracts which the Postmaster General has declared to be illegal would prefer to have the appropriation approved and to have the subsidy bill defeated as it was passed by the Senate this morning.

Here is the reason: There is now no regulation whatever as to the method of expenditure of the $26,500,000 by the ship companies. The bill which passed the Senate this morning limits the profits, limits the salaries, limits the bonuses, limits the securities, provides safeguards for labor, requires that the new authority created shall promulgate rules and regulations regarding the registration of every lobbyist who comes to Washington or who resides in Washington and who seeks to influence legislation or seeks to influence Government contracts. It is my belief that if that provision had been in effect several years ago the Government would have been several million dollars better off. I am absolutely sure if there had been originally a provision in the Jones-White Act which limited profits and limited bonuses and salaries and gratuities paid out of the taxpayers' money, the taxpayers of the United States would have saved many million dollars.

It is but natural that the gentlemen who are drawing this subsidy should desire to continue in exactly the same method they have been proceeding in the past. Was not that illustrated last year?

At the very close of the session, the question of the continuation of this subsidy or the passage of a new bill came up. I objected at that time on this floor and sought to defeat the continuation of the subsidy, stating that unless it was defeated no legislation on the subject could possibly get through both Houses. We were not successful in defeating the appropriation at that time. The subsidized shipping interests were perfectly satisfied. They continued to draw their funds on these contracts which the Postmaster General has reported to be illegal. They have continued to draw their funds up to this very day. If it is possible to break down the opposition to this conference report—which I do not believe is possible during this week—but if it is possible to do it, and if the

efforts to pass the conference report in this body are successful, I predict that no legislation will go through at this session of Congress regulating the method of paying these subsidies. I predict further that at the next session, just as at this one, the matter will go along from time to time and from month to month until the end of the session of Congress, and then the same question will come up about the appropriation, and we shall have the same old fight.

Mr. President, we do not believe the matter should be handled in that way. We took the position last year that the only way to bring about the passage of legislation on the subject was to cut off the money which was flowing through these illegal contracts. We now take that position. It is true that under the bill which was passed today, in order to bring about a thorough and complete readjustment with perfect fairness to the Government and to those who are operating the shipping lines, the contracts need not necessarily be canceled until next June.

It is therefore perfectly proper that this appropriation bill should pass at this session of Congress, if and when that bill becomes the law. On the other hand, in the public interest we believe that unless that bill becomes the law, not one dime should be appropriated by this Congress to carry on these illegal contracts.

That is the fight we are waging. That is the fight we intend to continue to wage on this question.

In order that there may be no question about the issues involved, it is my intention to read at some length from the report of the Postmaster General in connection with this subject. Of course, it will be impossible for me to read this entire volume in the 3 or 4 hours I intend to address the Senate at this time; but I shall endeavor to read as much of it as I can within the limited period of time allotted to me on this subject.

Mr. HATCH. Mr. President, will the Senator yield?

The PRESIDING OFFICER (Mr. MALONEY in the chair). Does the Senator from Alabama yield to the Senator from New Mexico?

Mr. BLACK. I yield to the Senator.

Mr. HATCH. What is the volume the Senator has in his hand?

Mr. BLACK. This volume is entitled "Investigation of Air Mail and Ocean Mail Contracts; Letters from the Postmaster General to the Chairman of the Special Committee", which contains the report made by the Postmaster General to the President of the United States on the legality of the very contracts which are in issue at this time.

Mr. HATCH. I was wondering if that is the volume which contains the testimony regarding the expenses incurred by a certain person in the interest of shipping during last session, I believe. One year they amounted to something like $250,000.

Mr. BLACK. Oh, yes; some of that evidence is in this volume. The Senator from New Mexico is talking about the gentleman who spent 75 cents a day for tips, who was down here, and who spent a great deal of his time in Washington in connection with his contracts.

Mr. HATCH. I recall that that testimony was quite interesting, and I am sure the Senators would be interested in hearing it read today.

Mr. BLACK. I shall certainly attempt, before I finish, to read it. If I do not read it in my remarks at this time, it may be possible that I shall discuss the same matter again tomorrow morning early, or tomorrow at some time during the day; and in my second address, if I do not reach it now in due course, I shall endeavor to find that particular item, because it is a most interesting one.

I am reading from the report of the Postmaster General to the President on the very contracts which are involved in this conference report. Let us see, first, the history at the beginning of letting these contracts. It was in 1928 that the Jones-White law was enacted. I read now from page 4 of the report of the Postmaster General to the President of the United States:

> As soon as the Merchant Marine Act of 1928 was passed, the ship operators, especially those who were operating over established trade routes and more especially those who had purchased vessels from the Shipping Board with a contract of guaranteed service, began their efforts to secure ocean-mail contracts. It is pointed out that in every case the purchasers of Shipping Board vessels operating over exclusive trade routes were awarded mail contracts. Practically all of them were let at the maximum rates permitted by law, notwithstanding the fact that they had already entered into solemn and binding agreements with the Shipping Board, and supported their agreements with bonds to operate the vessels purchased, over the identical route, for periods of 5 or more years. There was no valid reason, therefore, for awarding mail contracts to those who had entered into such agreements with the Shipping Board and made such bonds, and already were well established and entrenched in their trade routes.
>
> The course generally pursued by those desiring to secure mail contracts was for them to send their representatives to the Post Office Department and Shipping Board and have the Post Office Department establish a so-called mail route over their identical trade route, beginning at the same ports and ending at the same ports then served by the trade route. In every case there was the formality of an advertisement—

This is not my language; this is the language of the Postmaster General, which was written after hearings extending over a period of months of sworn evidence, with the Government and the contractor represented at the hearings.

Now let me proceed.

> In every case there was the formality of an advertisement, but in fact it was a mere formality because it was so worded as to the ports to be served, the type of vessels to be used, and the length of time within which service might be required, that without exception the contract was awarded to the bidder favored by the Post Office Department and the Shipping Board, and, with few exceptions, at the highest rates allowed by law. In fact, with the exception of a very few cases, there was only one bidder for the route, and always the favored bidder got the contract.
>
> After the first contracts were awarded to the existing lines, two other kinds of bidders entered the picture. One was the prospective contractor who agreed to build new ships. In that case an estimate was made as to a so-called differential between the cost of construction and operation under American flags, as compared to the cost in foreign countries. After negotiation with the Shipping Board and Post Office Department and agreements having been reached as to the type of construction, the route would be advertised with the usual short-time service initiation and with immediate building requirements, which would not allow time even for the making or drawing of plans. The rate of pay had already been agreed upon in an amount which the Government officials and ship operators had determined to be a fair estimate of such differential. This matter will be discussed later.

In other words, the Postmaster General states with reference to all the contract that although the law said they should be let to the highest bidder, before the plans were ever drawn up calling for the bids the rate of payment has been agreed upon between the representatives of the Government and the contractor, who will receive his full compensation under those contracts if this conference report shall be adopted.

Those are the words of the Postmaster General which I have read. I now read further:

> It may be said that in spite of the fact that authority had been taken away from Government officials to negotiate mail contracts, by the act of 1928, and imposed upon them the duty to award the contracts by competitive bidding, nevertheless they continued to make private agreements and negotiate private contracts. Their advertisement was a mere sham and matter of form.

The Postmaster General, after a hearing at which all these people were represented before him, after considering all of the evidence under oath, reported that the very advertisement on which these contracts were let was a mere sham and a mere matter of form.

If this conference report shall be adopted and no legislation shall be passed, next year about the end of the session it will be necessary again to read to the Senate that we are again appropriating this money on contracts based on advertisements which are a mere sham and pretense and a fraud upon their face.

Mr. President, let us see what happened a little later. Let us turn to page 8. It is not my intention to read all this. It would take a little too long, because there are 766 pages. But I now refer to page 8, still reading from what the Postmaster General said:

> When the Merchant Marine Act of 1928 was passed by Congress, the principal argument urged was that it was necessary to establish a permanent merchant marine on a sound basis. Congress assumed that this would be done, and that the enormous sums

advanced as mail pay, the general provision for loans by the Shipping Board at low rates of interest, and the low sales price of Shipping Board vessels would result in the establishment of a strong merchant marine for the United States. The recent investigation has shown that comparatively little of the enormous grants has gone into the building of a permanent merchant marine on a sound basis.

The liberal treatment accorded to the operators under the ocean-mail contracts has resulted in much waste and extravagance. Too many of the contractors have diverted these grants or subsidies, or by whatever name this aid may be called, to other than sound shipping operations. Many of them have employed lobbyists and special representatives at enormous fees.

It may be possible that I am honored this afternoon by having some of these gentlemen listen to my remarks and to my reading of the report of the Postmaster General. I hope so.

Many of them have employed lobbyists and special representatives at enormous fees. They have paid high salaries and excessive dividends. In order to pipe these funds away from the mail contracting company, they have organized holding companies, operating companies, terminal companies, agency companies, stevedoring companies, repair companies, towboat companies, and supply companies, thus freezing out independent firms.

One of the worst things in connection with the method of operation heretofore under these subsidies has been that very thing, the freezing out of small, independent groups attempting to engage in business without the aid of governmental subsidies. The evidence before our committee showed that in numerous instances subsidized companies have not been satisfied with the profits they made from their subsidized ship lines, but had taken advantage of their natural monopoly by reason of their subsidies and had taken away the business from small, independent towing companies, independent terminal companies, and independent stevedore companies.

It might be interesting right at this point to call attention to a few of the investments made by stevedoring companies and towing companies in this country, and the profits obtained from their investments. I intend at a later time to put this entire statement in the RECORD. It has not been published by the special committee up to this date, but some of it is most interesting.

Let us take, for instance, the Pacific Lighterage Corporation. I call the attention of the Senator from Washington to this matter. The Pacific Lighterage Corporation at Seattle, Wash., is affiliated with the Dollar interests.

Mr. BONE. Mr. President, will the Senator yield?

Mr. BLACK. I yield.

Mr. BONE. It is simply too terrible for contemplation to have the Senator from Alabama bring out these Washington ghosts. We want to hide our shame out there.

Mr. BLACK. This company has been doing very well. It it a lighterage corporation. The Dollar Co., as many know, is subsidized. We have in our report, which I may include in my remarks tomorrow, the record of the phenomenal growth of this company from $500 until it reached, as I recall, about $8,000,000 in a short period of years. During that time, of course, a few moderate salaries of from fifty to one hundred thousand dollars were paid out from time to time. But we did not make a report on the Pacific Lighterage Corporation, although we have the evidence.

The machinery and equipment of that company, according to this report, and the depreciated value amounted to $14,492.43. From 1927 to 1932 the net profits of this company, whose property had a depreciated value of $14,000, amounted to $1,442,156.67. That, I assume, is what would be called a reasonable profit by this company engaged in this business at that time.

The compensation of the officers during that period amounted to $96,675. The dividends in cash amounted to $1,130,750. Of course, we all know that there is no money and no profit at all in any of the business connected with these governmental subsidies.

However, it is interesting to note that during this period of 5 years the profit from this $14,500 investment amounted approximately to one and a half million dollars.

Mr. HOLT. Mr. President, will the Senator yield?

Mr. BLACK. I yield.

Mr. HOLT. How did that compare with other businesses during that period?

Mr. BLACK. It is perhaps true that there were few businesses which did not have a governmental subsidy or a governmental monopoly that could hope to make such a tremendous profit as that. The percentage has not been figured out, and I am sorry it has not been. I would imagine, just from a rough guess, it would easily be 10,000 percent.

Now let us go to another company. I shall refer to one down in Savannah, Ga. The name of the company is the Dixie Stevedore Co. It is affiliated with the South Atlantic Steamship Line, which also draws a subsidy from the United States Government.

This company had an investment, according to its report, of $1,404.32. Let us see how its profits ranged during that period. From 1926 to 1934 the net profit of this company was $495,214.34. The investment was $1,404.32.

These figures are very interesting. I have a list of them here from all over the United States. The chief interest lies in the fact that there have been a number of strikes of those engaged in working for stevedoring and terminal companies. There is very little money invested in any of these companies. They make their profit from human labor, and therefore we see that with an investment of $1,404, one company during the period mentioned made net profits of $495,214.34 out of human labor. During that time it paid cash dividends of $480,500.

Here is another one, the Georgia Stevedoring Co., of Brunswick, Ga. It also is connected with the South Atlantic Steamship Lines, a subsidized line. Bear in mind that these stevedoring companies and terminal companies have practically no investment in cash. They do their work with human beings. They employ them at one price and sell their services at another price. That may be partially responsible for the great strike we read about which occurred on the Pacific coast. It is interesting in that connection to remember the profits which I read at the very beginning of my remarks.

Let us look at the Georgia Stevedoring Co. at Brunswick, Ga., and let us see what its investment was. It showed machinery and equipment depreciated at $5,878.61. Let us see what its profits were from 1920 to 1934. They were $1,295,651.46. Officers' compensation during that period amounted to $265,967.96. It is not surprising in the face of these figures that there have been numerous strikes on the part of the employees of these stevedoring and terminal companies throughout the Nation.

Here is one down at Galveston, Tex., the Oceanic Stevedoring Co. of Texas, connected with or affiliated with the South Atlantic Steamship Lines. It had an investment of $512.70. This stevedoring company had an investment, according to its books, in machinery and equipment, the depreciated value of which was $512.70. From 1926 to 1933 it had net profits of $143,600.64.

To those who are not familiar with the history of the ocean-mail contracts I may state that it has been reported from year to year that they were all losing money, but when finally we obtained the report of the stevedoring companies with which they do business and which were affiliated with them, and the report of the terminal companies, of the agency companies, and the various other associates, subsidiaries, affiliates and holding companies, it always developed, when the profits were combined, that all of them were making a profit and were not working at a loss.

Let us go up to Baltimore and see what is happening at Baltimore, Md. Here is the Atlantic Coast Shipping Co. of Maryland, Baltimore, affiliated with the American-South African Steamship Line. According to their books they had machinery and equipment at a depreciated value of $32,972.49. Note that; almost $33,000 invested in machinery. They paid in cash dividends from 1929 to 1932, a period of 4 years, $1,471,409.66. That probably is a reasonably good dividend to pay on an investment of $32,000. But we must not forget that the profits made by the stevedoring company and the terminal company do not come from their

investment in dollars. They come from the fact that they employ the men who do the work as stevedores and in connection with the terminal facilities at one wage rate and sell their labor at another wage rate.

Here is an independent company in Baltimore which did very well—the Covington Marine Corporation. It had in investment, according to its books, $122.35. That is a reasonable investment for a stevedoring company. From 1923 to 1932 their net profits were $148,167.99. Their officers' compensation was $198,184.

Mr. TYDINGS. Mr. President, will the Senator yield?

Mr. BLACK. I yield.

Mr. TYDINGS. Does the Senator know how much of that income was charged to foreign ships?

Mr. BLACK. No; I do not. I do not know how much of any of this was charged to foreign ships. The Senator has not been here while I read some of these figures. They are very illuminating. I called attention before the Senator came in to the fact that stevedoring companies and terminal companies of various kinds have little if any investment. They make their profit by employing men and then selling the services of those men. The first one I read, for instance, showed, with an investment of $14,000 in machinery and equipment, there was a profit in 5 years of approximately $1,500,000. That profit was made out on the Pacific coast. During a portion of that period there was considerable controversy between the companies and the men as to the amount of wages they were to receive.

Here is one, the Matson Terminals, Inc., another company on the Pacific coast. It operates in San Francisco. It is affiliated with the Oceanic & Oriental Navigation Co. I have the figures here on it from 1926 to 1933. It had a rather large investment compared with some of the others. It had an investment in depreciated machinery and equipment of about $91,000. During that period it made a profit of $2,971,062.93. It was in San Francisco, as I recall, that there was a strike by the men claiming that they were securing inadequate compensation for the services performed by them, and they were held up by a certain section of the press of this country as engaged in communistic activities.

Here we have a real fact which tends to show the reason why these men were demanding a fairer share in the profits of the company. We find, with an investment of $91,000 in machinery and equipment, that over a period of 7 years from 1926 to 1933 there was a total net profit of approximately $3,000,000. How was that made? It was made in the main by employing workmen as stevedores engaged in terminal facilities and paying them one price and selling their services for another price. This company is affiliated with the Oceanic & Oriental Navigation Co., which draws a huge subsidy from the United States Government, and which is included in the contracts which would be paid off with little hope of change if the conference report should be adopted.

Mr. President, I ask that this entire list be incorporated in my remarks at this point in the RECORD. I may state, in order that there may be no misunderstanding as to what this is, that it is information which was given to the Special Committee Investigating Ocean and Air Mail Contracts, in answers to questionnaires, and in evidence which was obtained from various companies directly and from their reports.

There being no objection, the statement was ordered to be printed in the RECORD, as follows:

Name	City	Affiliated with—	Period covered (dates are inclusive)	Net profits	Officers' compensation	Dividends (cash)	Machinery and equipment depreciated	Date
Pacific Lighterage Corporation	Seattle	Dollar interests	1927–32	$1,442,156.67	$96,675.00	$1,130,750.00	$14,492.43	Dec. 31, 1927

Mr. BLACK. Mr. President, there are many others I could read showing profits made in various sections of the country. This has been in the main, however, limited to those associated with subsidized companies.

There was one interesting feature we discovered in connection with the stevedore companies. We found in one company in New York the profits were so immense and it was so difficult to distribute the profits as dividends that they paid their directors $100 for each directors' meeting when they met as directors of the stevedore company.

I apologize for having departed temporarily from the report of the Postmaster General.

Mr. CLARK. Mr. President——

The PRESIDING OFFICER. Does the Senator from Alabama yield to the Senator from Missouri?

Mr. BLACK. I yield.

Mr. CLARK. May I ask the Senator if that was the same stevedore company whose president admitted on the witness stand that he did not know where it was located or where its offices were located and had even forgotten he was president of the company?

Mr. BLACK. I read the profits of one of the companies. It is true that the president of one of the companies, when asked about the company, did not recall its name, did not recall where it was located, did not recall the fact that he was president. He had forgotten that he drew $7,500 salary from it the previous year as president. That company was located on the west coast, but it finally developed that the head office of the company was located in New York.

I now return to the report of the Postmaster General and read from page 15 as follows:

> Proceeding upon the sound theory that it is necessary that this Government must have an adequate merchant marine, I am definitely of the opinion that decided changes must be made in the administration of the subsidy.
>
> The reports on each contract, which are sent herewith, do not contain positive, definite recommendations as to what treatment I would advise being given in each case.

I digress long enough to state that it is my intention to take up each of the several contracts in order that the Senate may understand the varying reports made upon each separate contract.

> It is pointed out wherein the contracts appear to have been illegally or improvidently awarded; and, wherever possible, suggestions have been made that economies might be effected in the particular contracts under consideration. It appeared that in practically every case the contract was a negotiated contract, and that the contracts in most instances were awarded at the highest rates possible under the law.
>
> I am further of the opinion that if the American merchant marine is to be operated under private ownership and receive substantial aid from the United States, the shipowners should not only contribute a considerable portion of their own means, which they have not done except from funds derived from their Government operations, but they should also be required to deal fairly with the Government and efficiently operate their businesses.
>
> If the merchant marine is to be continued for the benefit of foreign commerce, then it is my opinion that all sections of the United States should be equitably served, that there should be a careful survey of trade routes, and that money should not be squandered by operation over routes that do not justify the expense; nor should the number of routes or sailings thereon be so numerous, as in the past, that they would have no commercial value to the country.
>
> An immediate construction program should be mapped out.
>
> The evidence undoubtedly and clearly shows that we do not have enough fast and modern vessels either to compete in foreign commerce or for our national defense. We are woefully lacking in vessels that may be used as naval auxiliaries. If Government aid is given in the construction of new vessels, the Government should be protected, by contract, with the right to take the vessels over at their cost, less reasonable depreciation, in case of emergency.

I digress at this point in connection with this report to call attention to the fact that in the bill which was passed by the Senate today this recommendation of the Postmaster General was adopted. The Senator from Washington [Mr. SCHWELLENBACH], feeling there might be some question as to whether or not the bill accomplished that purpose in the form in which it was presented to the Senate, offered an amendment which was adopted in order that it might be so clear that no one might misunderstand.

I continue reading:

> As stated herein, at least ten of the ocean-mail contractors are engaged or affiliated in operating foreign-flag vessels or are agents for competing foreign-flag lines.

In this connection I may state, relative to the inquiry propounded to me by the Senator from Maryland [Mr. TYDINGS] a few minutes ago, that it is doubtless true that some of these stevedore companies affiliated with the subsidized lines did do business with foreign steamship companies. That would naturally follow since ten of those ocean-mail contractors drawing subsidies from the Government are engaged with or affiliated in operating foreign-flag vessels or as agents for competing foreign-flag lines. In other words, under these contracts, which will be tentatively approved by this body if the conference report should be adopted at this stage of the proceedings, according to the report of the Postmaster General 10 of the contractors are affiliated or associated with foreign-flag ships in competition with subsidized lines, which subsidies are paid by the taxpayers of this country.

Going further, the Postmaster General says:

> A truly American merchant marine cannot be expected to develop as a result of encouragement and aid to these foreign-flag operators and agents.

In other words, the Postmaster General calls direct attention to the fact that if this conference report is adopted, by that action we shall be benefiting foreign-flag lines. Of course, the talk has always been that the object was to subsidize American lines, employing American citizens.

Reading further from the Postmaster General:

> It has not been the intention of Congress that operators of vessels engaged in the protected intercoastal and coastwise trade should be given aid to stifle out their other American competitors who receive no Government aid. Nevertheless, by one subterfuge or another, a very great many of the ocean-mail contractors, especially some of the larger ones, have resorted to the practice of creating subsidiary corporations for that purpose, to which much Government aid has been poured through the parent company; others are intercoastal almost exclusively in their business, but have been permitted to receive mail contracts and pay because they happen to touch at some foreign port on their intercoastal routes.

In other words, Mr. President, the Postmaster General is calling attention here to the fact that we have a large number of American companies that are engaged in intercoastal traffic. They have, as competitors, other companies which are engaged in intercoastal traffic. Under our law, we give a monopoly of the intercoastal trade to American companies; but the Postmaster General calls attention to the fact that we subsidize some of the intercoastal lines, and require unsubsidized American companies to compete with favored subsidized companies in the intercoastal trade.

Continuing further, the Postmaster General says:

> All American operators in the protected trade should receive the same treatment. Aid in that particular trade should be given to all or none, and any change in policy or law should carry with it the same kind of protection and benefits to all.

I might pause here to call attention to the fact that the bill which was passed today meets that objection of the Postmaster General, and does away with this special privilege to some of the companies.

Reading further from the Postmaster General's report:

> The Government cannot hope to receive the full measaure of benefit from its expenditures if those who receive Government aid in the form of mail contracts, or otherwise, are permitted to operate in an extravagant manner and pay unconscionable fees, salaries, and dividends; and to organize subsidy companies, such as machine shops, agencies, or other companies, which are permitted to make exorbitant profits and incidentally, stifle independent shops and firms; or to own, or in turn to be owned wholly or in any substantial part, by holding companies that have exorbitant expenses.

Mr. POPE. Mr. President, will the Senator yield to me?

The PRESIDING OFFICER. Does the Senator from Alabama yield to the Senator from Idaho?

Mr. BLACK. I yield.

Mr. POPE. To what extent is that objection taken care of in the present bill?

Mr. BLACK. In my judgment, we have gone as far as it is possible to go at this time in taking care of that particular objection in this bill.

Mr. POPE. It does take care of the matter of salaries?

Mr. BLACK. Yes; it takes care of the matter of salaries; but in the bill that was passed today the salaries are limited to $25,000. It was my own judgment that those who depend for their incomes upon money from the Federal Treasury should not draw as much as $25,000. Many of those who hold up their hands in horror when we talk about limiting the salaries paid by a subsidized company out of Federal money will also hold up their hands in horror if we offer to pay a Government employee one-tenth of what they are perfectly willing to have paid to the officials of the subsidized company. Of course, there is this difference: When we supply the money out of the Treasury as a subsidy we are worshiping at the shrine of nominal private operation.

So long, therefore, as we worship at the shrine of private operation, and we observe that symbol, it is perfectly all right to take the taxpayers' money and permit salaries of $100,000 to be paid.

Several years ago, when the Reconstruction Finance Corporation was first created, I offered an amendment to provide that those who borrowed money from the taxpayers should not pay salaries more than the amount paid the Vice President of the United States. My recollection is that my proposal received 18 votes in the Senate. I then raised the limit to $25,000, and then raised it to $100,000; but the proposal still had, as I recall, only 18 votes in the Senate. It was perfectly all right to limit the salaries of persons who were paid out of the Public Treasury when they worked directly for the Government. It was a rather horrible crime on my part, however, at that time to suggest that merely because they got their money from the Federal Government through a loan from the Reconstruction Finance Corporation, they likewise should have their salaries limited, so long as they had to depend upon the Public Treasury.

Mr. POPE. Mr. President——

The PRESIDING OFFICER. Does the Senator from Alabama further yield to the Senator from Idaho?

Mr. BLACK. I yield to the Senator.

Mr. POPE. Of course, the Senator must have in mind the contention that private industry is so much more efficient than public administration that that fact should permit private officials to draw very much larger salaries than public officials draw.

Mr. BLACK. Of course, the theory is that if we will go through the form of making it private operation by putting our hands down into the Public Treasury and taking out the money and putting it into the treasury of a private corporation, instantaneously, simply by a magic touch, the situation is so changed that the employee of the company that draws the taxpayers' money should have no limitation on his salary. That, of course, is done on the theory that he is a far more capable executive when he works for a private company which draws public money than he is when he works for the Government which pays him public money.

Mr. POPE. Mr. President——

The PRESIDING OFFICER. Does the Senator from Alabama further yield to the Senator from Idaho?

Mr. BLACK. I yield further to the Senator.

Mr. POPE. And it is also one who has that type of philosophy who criticizes so severely the expenditure of Government funds, the "extravagance" of the Government in taking care of the poor and the needy, and who at the same time will spend, for salaries and for other expenses, very large sums in private industry?

Mr. BLACK. The Senator is absolutely correct. It is the old theory of spending other people's money. It has been my philosophy from the beginning, with reference to any business which has to be supported by the Public Treasury, that if the Public Treasury supplies the funds, the Government should control the business.

Mr. BONE. Mr. President, will the Senator yield?

Mr. BLACK. I yield to the Senator from Washington.

Mr. BONE. I am wondering if the bill in its present form, as it passed the Senate today, contains, in the judgment of the Senator from Alabama, provisions sufficient in themselves to prevent a siphoning-off of the funds allowed under this bill into the hands of subsidiaries, such as lighterage companies and other subsidiaries of the character the Senator has described, and which were so vividly portrayed in the investigations made by his committee. I think that is very important; and I desire to know whether those provisions were sufficient to prevent, in the future, abuses of that character.

Mr. BLACK. I fully agree with the Senator that it is important; and, in my judgment, practically so far as it is possible to do so with any subsidy bill, it has been done in this measure.

There is a very decided difference between regulating the business which the Government actually controls, without any intermediaries, and attempting to regulate a business where the Government supplies the money through subsidies but has to depend upon intermediaries.

Our investigation showed that with reference to some of these companies practically all of the money, every dollar of it, had been supplied by the United States Government.

Mr. BONE. Mr. President, I find myself wondering all the time, in the light of the revelations of the Black committee, why it is that astute and clever American businessmen were not smart enough to know that when they were getting this money from the United States Treasury, just so much lagniappe, if they permitted the abuses which grew up under that system to continue they would inevitably destroy the very thing they sought to preserve. At this moment I cannot understand why men were so disregardful of the ordinary rules of common prudence. They might have known that ultimately this thing would become known and that it would destroy itself, as abuses inevitably tend to do. Apparently they were not satisfied to get this easy money out of the Treasury but they wanted to permit these subsidiary outfits to siphon off, to drain off, all this vast sum into the hands of the subsidiaries, where it could not properly be charged to the operation of the vessels.

I think the Senator will agree with me that there probably would not have been this demand for a change, a demand which had to be met, if it had not been that these abuses simply grew intolerable. I cannot imagine the American people ever looking with complacence on any outfit getting as much as $114,000 for hauling 1 pound of mail across the ocean. The American people are dead to every standard of decency, and certainly financial justice and decency, if they tolerate that.

If we are to be compelled to pay out such ungodly sums of money for hauling the mail, we had better own the boats; because if we have to continue to place around the necks of the people huge taxation in order to carry on the merchant marine, it would be infinitely better if we should own the vessels. As a taxpayer myself, I would rather pay those taxes knowing that the Government owned the boats than to be paying out that money in order to make private profits for some men who are part of an organization which has put over some of this rough stuff in the past.

I think the records of the Black committee present one of the most ominous pages of American history; I think I am justified in putting it that way. They reveal a very unhappy attitude of mind on the part of businessmen toward their own Government, men who ought to have been above that, because the Jones-White Act was enacted in the sacred name of patriotism.

I know the Senator has read many of the arguments advanced in behalf of the Jones-White Act. I have a lot of the matter touching that measure here, and I know out West we were told that the Jones-White Act was one of the great pieces of statesmanship, that it was drawn here very carefully by able Members of Congress.

In the very records of the Munitions Committee there is evidence that every line of that measure, practically without

exception, was written by attorneys for the private steamship interests of this country, brought down to Congress, and over $200,000 was spent in Washington put the bill across.

As the Senator from Alabama knows, the bill contained a lot of very peculiar provisions, one of them a provision that in the event the Government wanted one of the vessels which it had built, which it had "sugared" and subsidized at figures that were astounding—if it wanted one of those vessels to preserve this Republic in time of war peril, it then had to pay the outfit which got the boat from the Government the then fair market price or value of the boat.

It was suggested on the floor of the Senate yesterday that in case of war, when a nation's back was against the wall, when the will to live rose paramount to every other consideration, the price of tonnage would go out of sight. The bill coldly, deliberately provided that this Government could be rooked to the extent of paying wartime, inflated, boom prices for tonnage if it was to get one of the vessels back.

I asked one of the outstanding witnesses before the Munitions Committee about some of the peculiar provisions in the Jones-White measure and he expressed great astonishment that this provision was in the bill. But he said it was just an illustration of some of the terrible things that were put over on the country in this law that we know as the Jones-White Act.

I asked him at that time how it came about that a bill went through Congress which provided that Uncle Sam was to put up nearly all if not all the money for the boats, and then, if it had to take them back, it was required to pay the then fair market price for the boats, which would be the wartime price. Every Member of the Senate knows that in time of war the price of tonnage jumps clear out of sight. Yet that bill coldly provided that this Government should pay these fellows the inflated wartime prices for the boats.

There was no explanation of that peculiar thing. I asked this gentleman, who was the president of the New York Shipbuilding Co., one of the Big Three, about the matter. I said, "Mr. Wilder, can you tell us who drew the Jones-White Act"?

This man spoke from the book. He was not a gentleman expressing any theoretical opinion. He was a man who came down here handling the money. He said, "Mr. Jones drew the preamble."

I stated to him that I was talking about the peculiar phraseology of the act, and asked him what attorney drew it. He said, "I do not know what attorney. I did an awful lot of work on it."

This was the president of the New York Shipbuilding Co. This was not a patriotic gesture of a patriotic Member of the House of Representatives, but the president of the New York Shipbuilding Co., which was to make great profits out of this merchant-marine program contemplated under the Jones-White Act.

He said:

I did an awful lot of work on it, and I am not an attorney. Hundreds of different people were working on it, and came in with contributions.

It was a sort of omnium gatherum of odds and ends supplied by the Big Three and the private shipbuilding interests of the country, who were sitting around waiting to get their fingers on the money to be available under the measure.

I said "private shipbuilding companies."

Mr. WILDER. Private shipbuilding companies, and particular ship operators.

Senator BONE. Who drew the provisions in the Jones-White Act authorizing the sale of these vessels at a tiny fraction of their cost to which was added a provision that if the Government took them back in case of war, they would pay the price the company wanted to exact for the boats?

Mr. WILDER. Is that in the Jones-White Act?

Senator BONE. That is in the Jones-White Act, in practical effect.

Mr. WILDER. I thought that antedated it.

Then I answered that this would require the payment of the going market value of the boats in case of war.

Mr. President, that was an illustration of how that thing was handled at that time, and how coldly, purposefully that bill was put through, containing provisions which any careful examination of the bill would have revealed. It meant a ruthless raid on the Treasury in the event of war.

Mr. CLARK. Mr. President, will the Senator from Alabama yield to me?

Mr. BLACK. I yield.

Mr. CLARK. The Senator from Washington will recall that the testimony in the same investigation, given by the same witnesses, disclosed that this one fellow, representing three shipbuilding companies, had expended in excess of $250,000 at one session of Congress.

Mr. BONE. That was the session at which the Jones-White Act was passed.

Mr. CLARK. To get the Jones-White bill passed.

Mr. BONE. Yes.

Mr. CLARK. Obviously they expected to get the money back in some way. There has been nothing in the record of any of the investigations which has indicated that the New York Shipbuilding Co., the Newport News Shipbuilding Co., or the Bethlehem Co., or any of the rest of them, were putting out money for their health.

The Senator will also recall that in the shipbuilding contract which the New York Shipbuilding Co. had with the Government during the war, on a cost-plus basis, they included in the basis on which the percentage of cost plus should be figured such items as very large expenditures for wine, liquors, and cigars, and when I questioned the auditor of the New York Shipbuilding Co. about it, he said that liquor and wine were just as necessary concomitants of shipbuilding as steel was. There were also included in the basis on which they were going to figure their own profit under the contract, as part of their overhead, the expenses of maintaining a representative in China and one in Japan during the World War. That was figured into the base as part of the cost on which their percentage was to be figured.

I am just wondering if the same system of bookkeeping and the same system of figuring wines, liquors, and cigars, and Chinese and Japanese representatives and other elements of that sort is to be carried into the subsidy business, as apparently it has been in figuring the basis of compensation in the air-mail contracts. I am wondering whether we are still to have that same system in existence.

Mr. BONE. My friend the Senator from Missouri will recall that in one instance one of the contracts even permitted the company to charge off the amount of income tax it paid as an operating expense. To me it is one of the most astounding things which has been uncovered.

Mr. CLARK. Let me say, if the Senator from Alabama will permit me, that in the particular instance to which the Senator from Washington refers we had an amusing illustration of the way in which they handled their books and the way in which they charged the Government. If the United States Government charged the New York Shipbuilding Co.—I believe that was the one in connection with which the incident came up—a million dollars income tax, the Government did not get the million dollars, but the New York Shipbuilding Co., having a 10-percent cost-plus contract, was not only reimbursed for the million dollars tax, but was paid $100,000 on top of that under the cost-plus contract, because the Government charged the million-dollar tax.

Mr. BONE. The most astounding aspect of this whole problem is that if a man in public life dares so much as to criticize that sort of business certain people in this country who ought to be above such a thing and who ought to have the welfare of the country and its people at heart—because unless their welfare is served and preserved there cannot be any prosperity in this country—will subject a person who dares make such criticism to the most scathing denunciation, and even question his honor and integrity, and intimate that he is not a loyal citizen of the Republic, simply because he dares be so profane as to lay his hand on such a golden calf. I suggest to my friend the Senator from Alabama that such conduct has led to a great deal of bitterness on the part of a great mass of people, when they

see a man in public life damned and anathematized simply because he seeks to correct extreme abuses.

If people in this country desire public men to approach a solution of public problems dispassionately, without bitterness, they must learn one thing, and that is to quit criticizing men in public life who are merely trying to correct gross public abuses, and if they do not understand that simple thing we are in for some hard sledding in this country. The sooner the people of the country understand that the better. A man is not unpatriotic, he is not an enemy to his country when he objects to his country's being rooked. He is not an enemy of this country, he is not an enemy of our Republic, nor an enemy of the boys and girls growing up when he objects to a man's getting something for nothing. Yet we have the peculiar condition in this country of a great many people, and well-meaning people, who, in their conservatism, or what they think is conservatism, simply feel that it is bad to criticize anything, although in their hearts they recognize a certain practice as being a gross and grave abuse. That attitude is 10 times as dangerous as the criticism itself, because the very repression that is suggested thereby in itself dams up the reservoirs of just wrath, and this mountain of wrath keeps piling up and piling up and piling up until finally we get to a point where those who sincerely and honestly would seek to correct abuses find themselves confronting such a public sentiment that it is impossible sometimes to apply remedies which are not too drastic.

I feel that the Senator from Alabama probably agrees with that statement. He has been himself a target for a great deal of abuse for trying to show up a great many things which have been uncovered by the Black committee in its investigation of the air-mail contracts and ocean-mail contracts. Senators should recognize abuses, particularly those on this side of the aisle, and ought to be courageous in attacking abuses, because if they do not root them out the Democratic Party has no right to live. Certainly if the Democratic Party cannot devote itself to social service and making life a little better and sweeter for the mass of the people—and it can only achieve that objective by working for standards of economic justice—if the Democratic Party cannot do that and set its face resolutely toward the eastward in that kind of a task, it must pay the price that must be paid by any party or group—the loss of public confidence.

I only hope we have the nerve to go ahead, not without intelligence, but to go ahead dispassionately and clearly, as befits lawyers, of whom there are a great many on this side of the aisle, and set our hands to the task of correcting the abuses before they grow so great and so threatening that they make the people of the country believe that in being quiescent we are betraying the people. That is why I am glad, Mr. President, that at least some remedial steps are being taken here, perhaps too slowly to suit some of us; perhaps faster—God only knows—than people can absorb, but at least our duty seems to be plain to drive ahead and try and correct these things. That is why I am so sympathetic with the work which the Senator from Alabama performed in disclosing these conditions, and I am astonished that any group of Americans can find anything to criticize in the Senator's work in uncovering what he has uncovered.

I apologize to the Senator for having taken so much of his time, but I rather resent that the Senator from Alabama should be so criticized by those of reactionary minds for uncovering the things which he has uncovered.

Mr. BLACK. Mr. President, I appreciate very greatly the interruption of the Senator, and his reference to the work of the committee on which I served. In line with the suggestion which was made as to the work done in Washington, I am reminded of some evidence which came out before the committee. Several gentlemen are engaged in the shipping business. One of the partners was berating another member of the partnership and told him in substance that he had not been contributing his part in the work of the business. He said that all this particular partner did was to pussyfoot around Washington. His partner very frankly wrote back to him and told him that he must realize that in their business there was nothing which equals in importance this very pussyfooting around Washington. That it was necessary that he be here, that he be on the job constantly with reference to subsidies and modifications of the contracts, and so forth.

Then a little later, in connection with the statement that efforts are made to punish Members of the Senate and House, we had some very interesting evidence with reference to my friend the Senator from Tennessee. The Senator from Tennessee had been very active in seeking to protect the Public Treasury from the ravages of some of these gentlemen from time to time. Naturally his activities had aroused their wrath. So they arranged to send a series of editorials to be published in various papers in the State of Tennessee. They sent them out through an organization which operates in connection with the Mississippi River. The statement was that if they could build a sufficient fire under the Senator from Tennessee they believed that they might be able to cause him to change his course.

Mr. CLARK. They would try to build a fire under me also.

Mr. BLACK. Undoubtedly they would try to build a fire under the Senator from Missouri or under any other Senator who attempts to see that the public interest is protected.

I asked one of the gentlemen of whom we were making inquiry something about the editorials, and in commenting I said, "You did not get very far that way, did you? It is my understanding that the Senator from Tennessee continued his fight in connection with that contract." He was compelled to admit that the fire in that connection had failed to accomplish any purpose whatever so far as he could discover. That evidence came out in the record, and it is but a sample of the method that is used from time to time in connection with these matters.

Mr. President, I again apologize to the Senate for departing for a time from the report of the Postmaster General. I have been delayed longer than I expected to be.

I realize, since there are 766 pages of this document, that it will require perhaps a little more expeditious action than I have been taking heretofore in order to complete discussion of the report. I now read from page 20 of the letter of the Postmaster General. This is with reference to the letting of a contract on foreign ocean-mail route no. 4, and reads as follows:

> Negotiation for this contract was instituted by letter from Frank C. Munson, president of the Munson Line, to the Postmaster General, dated May 22, 1928. On June 18, 1928, E. R. White, Superinterdent of the Division of International Postal Service, wrote to the Munson Line, enclosing a copy of a pamphlet containing the information contained in the newspaper advertisement, together with certain other information, and inviting the Munson Steamship Line to submit a proposal on route no. 4. The files of the Post Office Department do not reveal that any copy of the pamphlet advertisement was transmitted to any person other than the Munson Steamship Line by a letter inviting a proposal on this line. Twenty-six days elapsed between the date of first publication of the advertisement and the date when bids were opened, and 34 days elapsed between the first publication of the advertisement and the date when the beginning of service was demandable. Testimony tc the effect that no person other than the Munson Steamship Line could reasonably determine its ability to perform the contract in time to submit a bid for the service, is uncontroverted. There was only one bid, that of the Munson Steamship Line, which was at the maximum rates permitted by law.

The reading of this document containing the report of the Postmaster General would bring to the attention of Senators with increasing monotony the same statement, "There was only one bid", "There was only one bid possible", "This bid was for the maximum amount."

I continue reading from page 20:

> CHANGES IN THE CONTRACT ON ROUTE NO. 4
>
> The service provided in the contract was "from New York to Buenos Aires by Rio de Janeiro and Montevideo and such other intermediate ports at which contractor's vessels may call."
>
> The contract further contained the provision, "that if mutually agreed to by the Postmaster General and the contractor, the Post Office Department may extend the service to additional ports, curtail the route to omit ports, change the service to substitute ports or increase or reduce the number of trips, with allowance of not exceeding the contract rate for the increased outbound mileage involved, and with a deduction at the contract rate for any decreased outbound mileage involved."

On January 29, 1930, Mr. Frank C. Munson requested that route 4 be extended to include the port of Hamilton, Bermuda, and further requested that he be permitted to make 26 "extra voyages" to Bermuda. On February 3, 1930, the Postmaster General directed a memorandum to the Second Assistant Postmaster General, as follows:

"Please draft a suitable answer to Mr. Munson. It seems to me that until the Merchant Marine Committee disposes of the controversies before it, it would be wise for us to mark time."

This memorandum contains a pen-and-ink notation from the Second Assistant Postmaster General to E. R. White, Director of the Division of International Postal Service, as follows:

"Be guided by P. M. G. remarks. It would cause a great row were we to grant Munson's request now."

At this time an amendment had been introduced providing, according to Congressman Davis, who introduced it, "that the mail contracts authorized in the 1928 act shall not be awarded to any company which directly or indirectly operates foreign-flag ships in competition with American-flag ships in the foreign trade of the United States."

The foreign-flag activities of Frank C. Munson are later discussed. On March 14, 1930, the service on route 4 was extended to include Hamilton, Bermuda.

On December 22, 1930, Mr. Munson again addressed to the Postmaster General a request for 26 more trips per year to Bermuda, stating in his letter that:

"As a part of this request we recognize your wish to have us agree to build, and will agree within 4 years to deliver on this route a rebuilt steamship *Mount Vernon* or steamship *Agamemnon*, and within 8 years, provided the present contract is extended for a similar 10-year period, a new passenger steamer of not less than 25,000 displacement tons, and 20 knots speed."

On January 24, 1931, an order was signed by the Second Assistant Postmaster General permitting the Munson Line to make not more than two trips a week additional from January 26 to April 30, and not more than one trip each 2 weeks from May 1 to June 30, 1931. The order states:

"The contractor having agreed to such increase and having agreed further that the Postmaster General may reduce the service so as to omit the additional trips herein authorized if the contractor fails, by April 1, 1931, to agree with the Postmaster General upon a program of ship construction."

No program of ship construction was ever agreed upon. However, the Postmaster General at no time reduced the service, but by successive orders dated May 22, 1931, June 15, 1931, July 9, 1931, August 20, 1931, September 21, 1931, November 6, 1931, March 30, 1932, July 11, 1932, September 29, 1932, October 24, 1932, November 30, 1932, and December 6, 1932, continued this service to December 31, 1932. This action was taken in spite of the fact that on August 11, 1931, the Second Assistant Postmaster General advised Mr. Munson that the condition of the appropriation would not enable the Post Office to continue the service beyond the end of August.

Under this arrangement the Munson Line, during the fiscal year ended June 30, 1931, made 54 voyages for which it received $374,833.06 passenger revenue, $183,274.07 mail pay, and only $21,326.09 freight revenue, a total of $598,291.07, including $18,857.85 miscellaneous revenue. For the succeeding fiscal year 1932, there were 66 voyages, passenger revenue being $348,007.82, mail pay $368,566.62, and only $56,581.23 freight revenue, a total of $793,846.52, including $20,690.85 miscellaneous revenue. For the fiscal year 1933, there were 39 voyages, the passenger revenue being $201,968.81, the mail pay $197,586.88, and the freight revenue only $28,653.64, a total of $438,136.48, including miscellaneous revenue of $9,927.15.

The total result of this operation shows that there was received revenue in the amount of $1,830,274.07 of which $749,427.57, or 41 percent, was mail pay. The passenger revenue was $924,809.69 and the freight revenue only $106,560.96, miscellaneous revenue amounting to $49,475.85. The above revenue computations take into account 23 voyages during the fiscal year 1931, on which the mail pay was on a poundage basis.

I will repeat that sentence. I am afraid some of the Senators did not understand it:

The above revenue computations take into account 23 voyages during the fiscal year 1931, on which the mail pay was on a poundage basis. There were 136 voyages under this arrangement and 23 voyages on the poundage basis. All voyages under this arrangement were voyages of ships which sailed from New York to Bermuda and returned to New York. Voyages on the mail route from New York to Buenos Aires by way of Bermuda are not included. This arrangement has been terminated, the last voyage having been made in the fiscal year ended June 30, 1933.

At this time, Mr. President, I desire to place in the RECORD certain figures from page 26 of the Postmaster General's report relating to the salaries of the officials of the Munson Steamship Co.

From 1926 to 1934, inclusive, the following salaries were paid, according to this report:

Carlos W. Munson, chairman of the board	$329,200
Frank C. Munson, president	465,600
F. M. Kellog, vice president	158,500
C. B. Kellog, vice president	$158,500
W. B. Keene, vice president	119,700
Asmus Leonhard (who retired in 1932), vice president	68,640
J. W. Reynolds, secretary	107,820
C. M. Dimm, treasurer	101,500

(Dimm ceased to be treasurer on Sept. 1, 1933.)

The total amount of these salaries for this 9-year period is $1,509,460. In addition to the above salaries, the company set up on its books in 1929 provision for a bonus to the officers of the company in the amount of $100,000; $58,818 was actually drawn, $32,400 by F. C. Munson, $20,000 by Carlos W. Munson, and $6,418 by other officers. The sum of $41,182 still stands as a credit on the books of the Munson Steamship Line.

I now turn to page 63 of this report. I have been placing in the RECORD some of the salaries and bonuses that were paid, but only a few. I expect to place in the RECORD a great many more before I shall have finished. Now, I wish to call attention to some of the wages paid to the crews. These figures are with reference to the American South African Line, Inc.

It will be recalled by those who have been closely following my remarks here this afternoon that I placed in the RECORD previously the profits of the stevedoring companies connected with this particular concern. I now quote from the report of the Postmaster General, on page 63, this statement:

CREW WAGES

The United States Shipping Board wage and manning scale in force when this contractor received a mail contract was $3,496 per month for a Hog Island type vessel. It was developed that the contractor is now paying on a similar type vessel the sum of $2,855, or a difference of $641 per month per vessel. This is equivalent to an annual difference of $7,692 on each vessel. Based on the continuous operation of four vessels of this type—the *City of New York* being a different type—the difference in wages and manning requirements is equivalent to an annual reduction of approximately $30,768. This reduction in crew wages and manning requirements was brought about by the contractor, notwithstanding the fact that the contractor was realizing in net profits a handsome return on its invested capital, as has already been shown.

It will be noted that this company, which had and still has a contract which is included in the amounts sought to be paid to the subsidized shipping companies, reduced the wages of its seamen upon obtaining this subsidized contract. There seems to be no belief on the part of some that it is necessary to pay wages to people who work in the lower scale of wages on a par with what the Government pays them, although there is tremendous opposition to requiring those who draw salaries out of Government money for subsidized vessels to be compelled to accept salaries as low as those paid to people who work for the Government.

Let us see what this company did during the time it was reducing the wages of its seamen.

The company was then operating without a subsidy:

The contractor, under private operations, for the period from December 19, 1925, to December 21, 1928, immediately preceding the award of the mail contract, made a profit of $311,576.04. During the period of the mail-contract operations extending from January 1, 1929, to December 31, 1933, the contractor made a net operating profit, before income tax, of $1,186,881.05, or a net operating profit of $1,004,881.75 after income tax.

That is the time when the wages of the employees, the seamen, were going down:

During the period prior to October 1, 1928, when this contract was awarded the contractor collected in mail pay under the 1920 act approximately $100,000 and for the last 3 months of 1928, under the 1928 act, approximately $14,000, or a total of $114,000. Deduct this latter sum from the profits of $311,576.04 and there remains a net profit, without considering mail pay, of approximately $197,000. This latter sum will approximate 10 percent per annum return on the outstanding capital stock of the company for the 3-year period preceding the award of the mail contract.

In other words, before the mail subsidy was given to this company it made 10 percent per annum profit on its investment. That, however, was not sufficient.

The contractor has made during period of mail contract, before income tax, a profit of $1,188,881.03, which profit has averaged approximately 77 percent per annum on the outstanding capital stock ($306,600) of the company.

This is one of the companies that is included in this twenty-six and a half million dollars. I read further:

The net investment of the stockholders has increased each year due to an accumulation of undivided profits.

It will also be remembered that when the undivided profits remained there undistributed the individuals who made the profits did not have to pay an income tax as an individual would have done had he not invested in the corporation. They permitted their profits to remain in the corporation, with the payment of the regular corporation tax, instead of being compelled to pay in the higher income-tax brackets as they would have done if the profits had been distributed.

A substantial amount of the contractor's capital has, however, been invested in securities; but if it should be assumed that the contractor has tied up in the operations of its steamship business an average sum of $1,000,000, which is considered a high estimate, then the profits, before income tax, during the period of the mail contract (depression years) would have yielded a return of approximately 23 percent per annum. It may also be pointed out that the contractor's profits were determined after the payment of substantial executive salaries, legal fees, the carrying charges on the new vessel and the inclusion of depreciation on the new vessel.

The profits referred to hereinbefore are exclusive of all intercompany profits. The Atlantic Coast Shipping Co. of Massachusetts, Inc., the Atlantic Coast Shipping Co. of Maryland, Inc., and the Overseas Shipping Co., Inc., are affiliates of the contractor through interlocking directorates. These companies performed the stevedoring services of the contractor for the period from October 1, 1928, to August 1933, and during such period their net profits from the services rendered the American South African Line, Inc., are reported to have been $42,035.14.

This contractor has paid in dividends to December 31, 1933, the sum of $189,142, $38,698 of which applies to period prior to mail contract and the balance of $150,444 during the period of the mail contract.

NET WORTH

The net book worth of the American South African Line, Inc., at December 31, 1933:

Capital stock:		
Issued for cash, 3,638 shares at $100	$363,800.00	
In treasury, 572 shares at $100	57,200.00	
		$306,600.00
Surplus:		
Net earnings, December 1925 to Dec. 31, 1928, inclusive		311,576.04
Net earnings during period from Jan. 1, 1929, to Dec. 31, 1933, inclusive, of miscellaneous earnings of $292,794.65		1,297,676.60

Mr. CLARK. Mr. President, will the Senator yield for the purpose of letting me suggest the absence of a quorum?

Mr. BLACK. I yield.

Mr. CLARK. I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. McGILL in the chair). The clerk will call the roll.

Mr. McKELLAR. A parliamentary inquiry. Has any business been transacted since the last roll call?

The PRESIDING OFFICER. Business has been transacted since the last quorum call, the Chair is advised by the parliamentary clerk. The clerk will call the roll.

The Chief Clerk called the roll, and the following Senators answered to their names:

Adams	Clark	La Follette	Radcliffe
Ashurst	Connally	Lewis	Reynolds
Bachman	Copeland	Loftin	Robinson
Bailey	Couzens	Lonergan	Russell
Barkley	Davis	McAdoo	Schwellenbach
Benson	Dieterich	McGill	Sheppard
Bilbo	Duffy	McKellar	Shipstead
Black	Frazier	McNary	Smith
Bone	George	Maloney	Steiwer
Borah	Gerry	Metcalf	Thomas, Okla.
Brown	Gibson	Minton	Thomas, Utah
Bulkley	Glass	Moore	Townsend
Bulow	Guffey	Murphy	Truman
Burke	Hale	Murray	Tydings
Byrd	Harrison	Neely	Vandenberg
Byrnes	Hastings	Norris	Van Nuys
Capper	Hatch	Nye	Wagner
Caraway	Hayden	O'Mahoney	Walsh
Carey	Holt	Pittman	Wheeler
Chavez	King	Pope	

The PRESIDING OFFICER (Mr. McGILL in the chair). Seventy-nine Senators having answered to their names, a quorum is present.

Mr. GLASS. Mr. President, will the Senator from Alabama yield to me, so that I may make a brief statement touching the controversy?

Mr. BLACK. I yield.

Mr. GLASS. Mr. President, some uninformed persons might receive the impression that the 5 hours of discussion we have had this afternoon has been directed against the adoption of the conference report on the Treasury and Post Office bill. As a matter of fact, those of us who are well informed know perfectly well that that is not the case. The appropriation of from $26,000,000 to $29,000,000 for foreign mail has appeared in every appropriation bill enacted since 1929 in pursuance of contracts made by the Postmaster General who was in office when the contracts were made. The appropriation has been passed in the Senate without any word of protest, as I recall, from the gentlemen who now think they are speaking against this appropriation, and without any protest from any source except from my next ranking colleague on the Appropriations Committee, the Senator from Tennessee [Mr. McKELLAR]. As a matterof fact, that Senator and I, members of the Appropriations Committee, have been protesting for the past 3 years against this appropriation in the guise of an appropriation for foreign mail service; and this year we protested so vehemently and so successfully against it that it was omitted from the appropriation bill. The bill went to the House and the House declined to agree to the bill as reported to the Senate and passed by the Senate omitting this appropriation.

But for the fact that we eliminated the appropriation in question from the bill, we should never have had the so-called ship-subsidy bill before the Senate at all. The very fact that we eliminated that appropriation, alleged to be for foreign mail, when, as a matter of fact, only $4,500,000 of it was for foreign mail, the balance being for ship subsidy, produced the merchant marine bill, the only rationally fair bill on the subject that has been presented to Congress for a long time.

I simply do not wish any Senator or anyone else to get the impression that this is something new, that it is something presented here by reason of lobbyists. Lobbyists know whom they should see, and as well they know whom they should not see. I have never had a lobbyist come to my office. I have never read one of their letters. If there were any lobbyists in Washington they made absolutely no impression upon the Appropriations Committee in reporting this item. The only way we could reach an agreement with the House conferees, who were practically under instructions by vote of the House on this item, was by requiring that it be separated and that we should no longer practice the fraud of pretending to appropriate $26,000,000 for foreign mails when only $4,500,000 of that amount was ever used for foreign mails. Therefore we made the separation. In the conference report as presented it will be found that only $4,500,000 of the total amount of $26,000,000 is applied to foreign mails, the remainder being applied to ship subsidies.

I desired to make this brief statement in order that this long discussion may not be misinterpreted into any criticism or reflection upon the Senate Committee on Appropriations.

Mr. BLACK. Mr. President, may I state that with practically every word the Senator has uttered I am in thorough accord. He has doubtless forgotten I joined with the Senator from Tennessee [Mr. McKELLAR] and the Senator from Virginia [Mr. GLASS] from year to year in opposition to these appropriations. It is absolutely correct that both the Senator from Virginia and the Senator from Tennessee have vigorously opposed these appropriations and that the Senator from Virginia has called attention from time to time to the fact that they constitute a fraud on their face in that, while they purported to be for the carriage of mail, they are in reality a ship subsidy.

In my judgment, the Senator from Virginia is absolutely correct in his statement that if we had not stricken from the original bill this appropriation for carrying out these contracts, it would have been wholly impossible to have gotten as far as we have in connection with a rational subsidy bill.

Mr. GERRY. Mr. President, will the Senator yield to enable me to submit a request for the consideration of a bill at this time?

Mr. BLACK. I am going to yield the floor in 2 or 3 minutes.

Mr. GLASS. Mr. President, I do not want anything done which would interfere with the conference report. Those

who know parliamentary law, as I do not, may easily displace the conference report. I am not going to have it displaced. If the request of the Senator from Rhode Island would not displace the conference report, I shall not object; but if it should, I shall object.

Mr. ROBINSON. Mr. President, I think it is generally understood that consideration of other matters by unanimous consent would not displace the pending business, which is the conference report.

Mr. GLASS. Then I shall not make any objection.

Mr. GERRY. I ask unanimous consent for the present consideration of Calendar 2448, House bill 12556, which was reported from the Finance Committee favorably. It proposes to create in the Treasury Department a Treasury agency service which combines the Customs Agency Service for the Enforcement Division of the Alcohol Tax Unit of the Internal Revenue Bureau and a secret service, and also the enforcement of the Narcotics Act.

The PRESIDING OFFICER. The Senator from Rhode Island asks unanimous consent for the immediate consideration of a bill, which will be reported by title.

The CHIEF CLERK. A bill (H. R. 12556) to create the Treasury Agency Service, to provide for the more adequate protection of the revenue and a more effective enforcement of the revenue and other laws administered by the Treasury Department, and for other purposes.

The PRESIDING OFFICER. Is there objection?

Mr. VANDENBERG. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. McKELLAR. Mr. President, will the Senator from Alabama yield?

The PRESIDING OFFICER. Does the Senator from Alabama yield to the Senator from Tennessee?

Mr. BLACK. I yield.

Mr. McKELLAR. As I understand the position of the Senator from Alabama and those who are cooperating with him, it is that if the conference report is agreed to and the appropriation is made, in his judgment, the shipping companies will have enough influence in the House to prevent the passage of the ship bill which was passed by the Senate this morning?

Mr. BLACK. I would not want to make a statement about the House. It is my judgment that the best way to obtain the passage of the shipping bill is to delay action upon the appropriation contained in the conference report.

Mr. McKELLAR. It seems to me in the present temper of the Senate—and I do not know about the temper of the House at this time—if the shipping companies should take any such step as that, they would lose in the very near future any legislation at all, because, in my judgment, the Senate would never stand for any such procedure upon their part.

As the Senator knows, I am utterly opposed to the ship-subsidy bill. My opposition has long been known. I did not vote for the bill today. I voted against it. I do not favor it. I do not think it is a wise policy. I am utterly opposed to it, just as much so as is the Senator from Alabama or any other Senator, because I believe it is wrong. To my mind it is an utterly monstrous thing that big, rich shipping companies, with enormous incomes, should ask that we should add to their incomes a Government bounty. I am utterly opposed to it. Perhaps it might be the best plan to agree to the conference report, and if the shipping companies undertake to interfere with the passage of the bill in the House, it would aid us in preventing the passage of a ship-subsidy bill in the future.

Mr. BLACK. It is my belief that my idea and attitude in connection with the subject are in accord with the ideas and attitude of the distinguished Senator from Virginia [Mr. GLASS] and of the Senator from Tennessee. There is a difference in judgment as to the best method of obtaining the result which I think all of us desire.

I believe we would make better progress, though I do not desire to make any request, if the conference report should be laid aside for other matters to be taken up. It is our intention, and I say it frankly, to discuss the conference report at great length. That is the intention of quite a number of us. If I thought by the adoption of the conference report at this time we could obtain the enactment of proper legislation to carry on in line with the suggestion made by the Senator from Tennessee and the Senator from Virginia, I should not object to a vote on the conference report, because so far as the remainder of the conference report is concerned I am very strongly in favor of it.

Personally, I cannot see where any injury would be done at all if we should lay aside the conference report until the House has acted on the subsidy bill which was sent over to it today. While it is not my intention at the present time to continue the discussion further, yet several of my colleagues are waiting to take the floor. I myself could discuss it at great length but for the fact that I think it should be discussed by others from different viewpoints and by those who might make the attack in a far more effective manner than I can.

Mr. GLASS. Mr. President, I do not think the Senate should be deprived of the opportunity of hearing the eloquent Senators who wish to discuss the matter.

Mr. BLACK. I have no objection to giving the Senate that privilege. We simply want it distinctly understood that we do not desire to stand in the way of other proposed legislation which is awaiting action. We have no hesitation in informing the Senator from Virginia that we shall be glad if he will stay with us until tomorrow morning and listen to us discuss the conference report.

I yield the floor.

MESSAGE FROM THE HOUSE

A message from the House of Representatives by Mr. Chaffee, one of its reading clerks, announced that the House had passed the bill (S. 5) to prevent the adulteration, misbranding, and false advertising of food, drugs, devices, and cosmetics in interstate, foreign, and other commerce subject to the jurisdiction of the United States for the purposes of safeguarding the public health, preventing deceit upon the purchasing public, and for other purposes, with an amendment, in which it requested the concurrence of the Senate.

The message also announced that the House had passed the bill (S. 4020) to authorize the acquisition of lands in the city of Alameda, county of Alameda, State of California, as a site for a naval air station and to authorize the construction and installation of a naval air station thereon, with amendments, in which it requested the concurrence of the Senate.

The message further announced that the House insisted upon its amendments to the bill (S. 2953) to provide for the inspection, control, and regulation of steam boilers and unfired pressure vessels in the District of Columbia, disagreed to by the Senate, agreed to the conference asked by the Senate on the disagreeing votes of the two Houses thereon, and that Mr. PALMISANO, Mr. PATMAN, and Mr. DIRKSEN were appointed managers on the part of the House at the conference.

The message also announced that the House had passed the following bills, in which it requested the concurrence of the Senate:

H. R. 12971. An act to amend the act of Congress approved May 27, 1935 (Public, No. 73, 74th Cong.), authorizing the Secretary of Commerce to convey to the city of Grand Haven, Mich., certain portions of the Grand Haven Lighthouse Reservation, Mich.; and

H. R. 13001. An act to eliminate unnecessary expense in the administration of estates of deceased and incompetent veterans, and for other purposes.

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

The message further announced that the Speaker had affixed his signature to the following enrolled bills and joint resolutions, and they were signed by the Vice President:

S. 283. An act for the relief of Beatrice I. Manges;

S. 2047. An act to promote the general welfare of the Indians of the State of Oklahoma, and for other purposes;

S. 2456. An act to provide for the appointment of an additional district judge for the northern and southern districts of West Virginia;

S. 2912. An act to repatriate native-born women who have heretofore lost their citizenship by marriage to an alien, and for other purposes;

S. 3440. An act to amend certain acts relating to public printing and binding and the distribution of public documents and acts amendatory thereof;

S. 3841. An act to amend an act entitled "An act to establish a uniform system of bankruptcy throughout the United States", approved July 1, 1898, and acts amendatory thereof and supplementary thereto;

S. 4026. An act to amend the National Defense Act of June 3, 1916, as amended;

S. 4464. An act to authorize the coinage of 50-cent pieces in celebration of the opening of the San Francisco-Oakland Bay Bridge;

S. 4512. An act to amend section 641 of the Code of Laws for the District of Columbia;

S. 4568. An act to permit construction, maintenance, and use of certain pipe lines for petroleum and petroleum products in the District of Columbia;

H. R. 237. An act for the relief of the Rowesville Oil Co.;

H. R. 254. An act for the relief of the Farmers' Storage & Fertilizer Co., of Aiken, S. C.;

H. R. 4900. An act to amend the naturalization laws in respect of residence requirements, and for other purposes;

H. R. 9485. An act to convey certain lands to Clackamas County, Oreg., for public-park purposes;

H. R. 9654. An act to authorize the purchase by the city of Scappoose, Oreg., of a certain tract of public land revested in the United States under the act of June 9, 1916 (39 Stat. 218);

H. R. 10356. An act authorizing the Secretary of the Navy to convey a right-of-way over certain lands situated in Solano County, Calif., to the State of California for State highway purposes;

H. R. 10630. An act making appropriations for the Department of the Interior for the fiscal year ending June 30, 1937, and for other purposes;

H. R. 11103. An act to extend the times for commencing and completing the construction of a bridge across the Mississippi River between New Orleans and Gretna, La.;

H. R. 11140. An act to provide more effectively for the national defense by further increasing the effectiveness and efficiency of the Air Corps of the Army of the United States;

H. R. 12848. An act to provide an additional place of holding terms of the United States district court in the eastern district of Kentucky, and to amend section 83 of the Judicial Code, as amended;

S. J. Res. 241. Joint resolution to declare December 26, 1936, a legal holiday in the District of Columbia;

S. J. Res. 272. Joint resolution to provide for the maintenance of public order and the protection of life and property in connection with the Presidential inaugural ceremonies in 1937;

S. J. Res. 273. Joint resolution authorizing the granting of permits to the Committee on Inaugural Ceremonies on the occasion of the inauguration of the President-elect in January 1937, and for other purposes;

S. J. Res. 280. Joint resolution to ratify and confirm the appointment of Isaac Gans as a member of the Alcoholic Beverage Control Board of the District of Columbia;

S. J. Res. 286. Joint resolution fixing the date of meeting of the Seventy-fifth Congress; and

H. J. Res. 179. Joint resolution authorizing the President to present in the name of Congress a Medal of Honor to J. Harold Arnold.

REGULATION OF FOOD, DRUGS, AND COSMETICS

The PRESIDING OFFICER (Mr. McGILL in the chair) laid before the Senate the amendment of the House of Representatives to the bill (S. 5) to prevent the adulteration, misbranding, and false advertising of food, drugs, devices, and cosmetics in interstate, foreign, and other commerce subject to the jurisdiction of the United States, for the purposes of safeguarding the public health, preventing deceit upon the purchasing public, and for other purposes.

Mr. COPELAND. I move that the Senate disagree to the amendment of the House, ask for a conference with the House on the disagreeing votes of the two Houses thereon, and that the Chair appoint the conferees on the part of the Senate.

The motion was agreed to; and the Presiding Officer appointed Mr. COPELAND, Mr. BAILEY, Mrs. CARAWAY, Mr. CLARK, Mr. McNARY, Mr. VANDENBERG, and Mr. GIBSON conferees on the part of the Senate.

INSPECTION OF VESSELS CARRYING EXPLOSIVES, ETC.

During the delivery of Mr. BLACK's speech,

Mr. COPELAND. Mr. President——

The PRESIDING OFFICER. Does the Senator from Alabama yield to the Senator from New York?

Mr. BLACK. I do.

Mr. COPELAND. I know the Senator does not wish to have the trend of his thought broken; but I ask unanimous consent for the immediate consideration of Calendar No. 2541, being the bill (S. 4780) to extend the laws governing inspection of vessels, and for other purposes. It has to do with dangerous steamship cargoes, and we hope will be passed by the House tonight.

Mr. DAVIS. What is the calendar number of the bill?

Mr. COPELAND. It is Calendar No. 2541, Senate bill 4780.

The PRESIDING OFFICER. Is there objection to the request of the Senator from New York?

Mr. McKELLAR. One moment.

Mr. GLASS. Mr. President, I shall have to object if the consideration of the bill will interfere with the consideration of the conference report.

Mr. McKELLAR. I hope the Senator from New York will withdraw the request for the present.

Mr. COPELAND. Of course, if my request interferes with the parliamentary procedure I shall not press the matter; but I did not understand that that would be the case. The bill is a very important one. It has to do with the transportation of inflammables, dynamite and other explosives, on ships. There has been a great urge to pass the bill, and it is the belief of the House that if it could be passed here it would have action over there.

Mr. GLASS. Yes; but if we do not adopt this conference report the United States Treasury and the Post Office Department will be without funds, and will be unable to operate.

Mr. COPELAND. I shall not press the matter; but will not the Senator make an exception of this particular bill?

Mr. McKELLAR. I ask the Senator to bring it up a little later, if he will.

Mr. COPELAND. I thank the Senator.

After the conclusion of Mr. BLACK's speech,

Mr. BONE obtained the floor.

Mr. COPELAND. Mr. President, will the Senator yield to enable me to submit a request for the immediate consideration of a bill?

Mr. BONE. I yield for that purpose.

Mr. COPELAND. I ask unanimous consent for the immediate consideration of Senate bill 4780.

The PRESIDING OFFICER. The bill will be reported by title.

The CHIEF CLERK. A bill (S. 4780) to extend the laws governing inspection of vessels, and for other purposes.

Mr. ROBINSON. Mr. President, may I ask the Senator from New York a question?

Mr. COPELAND. Certainly.

Mr. ROBINSON. Was the bill on the calendar when it was called yesterday? I am impressed that the measure is one which should receive consideration. I do not know who objected to its consideration when the calendar was called yesterday.

Mr. COPELAND. It was not reported until after the call of the calendar was completed yesterday.

Mr. ROBINSON. And no request has heretofore been made for its consideration?

Mr. COPELAND. Only the request which I submitted a few moments ago.

Mr. ROBINSON. I have no objection to the consideration of the bill.

The PRESIDING OFFICER. Is there objection to the request of the Senator from New York?

There being no objection, the bill (S. 4780) to extend the laws governing inspection of vessels and for other purposes was considered, ordered to be engrossed for a third reading, read the third time, and passed, as follows:

Be it enacted, etc., That title 52 of the Revised Statutes is amended by inserting after section 4417 thereof a new section designated section 4417a to read as follows:

"SEC. 4417a. (1) All vessels, regardless of tonnage, size, or manner of propulsion, and whether self-propelled or not, and whether carrying freight or passengers for hire or not, that shall have on board any inflammable or cumbustible liquid cargo in bulk, except public vessels owned by the United States, other than those engaged in commercial service, shall be considered steam vessels for the purposes of this title and shall be subject to the provisions thereof: *Provided*, That this section shall not apply to vessels having on board only inflammable or combustible liquid for use as fuel or stores or to vessels carrying liquid cargo only in drums, barrels, or other packages.

"(2) In order to secure effective provision against the hazards of life and property created by the vessels to which this section applies, the Board of Supervising Inspectors, with the approval of the Secretary of Commerce, shall establish such additional rules and regulations as may be necessary with respect to the design and construction, alteration, or repair of such vessels, including the superstructures, hulls, places for stowing and carrying such liquid cargo, fittings, equipment, appliances, propulsive machinery, auxiliary machinery, and boilers thereof; and with respect to all materials used in such construction, alteration, or repair; and with respect to the handling and stowage of such liquid cargo; the manner of such handling or stowage, and the machinery and appliances used in such handling and stowage; and with respect to equipment and appliances for lifesaving and fire protection; and with respect to the operation of such vessels; and with respect to the requirements of the manning of such vessels and the duties and qualifications of the officers and crews thereof; and with respect to the inspection of all the foregoing: *Provided*, That the provisions of this section shall not apply to common carriers engaged in interstate or foreign commerce which transport such liquid cargo by water insofar only as such common carriers are subject to the regulations formulated by the Interstate Commerce Commission under the provisions of section 233 of the act of March 4, 1909 (ch. 321, 35 Stat. 1135), as amended (U. S. C., 1934 ed., title 18, sec. 383). In establishing such rules and regulations the Board of Supervising Inspectors may, with the approval of the Secretary of Commerce, adopt rules of the American Bureau of Shipping or similar American classification society for classed vessels insofar as such rules pertain to the efficiency of hulls and the reliability of machinery of vessels to which this section applies. In establishing such rules and regulations, the Board of Supervising Inspectors shall give due consideration to the kinds and grades of such liquid cargo permitted to be on board such vessel.

"(3) Before any rules and regulations, or any alteration, amendment, or repeal thereof, are approved by the Secretary of Commerce under the provisions of this section, except in an emergency, the said Secretary shall publish such rules and regulations and hold hearings with respect thereto on such notice as he deems advisable under the circumstances.

"(4) No vessel subject to the provisions of this section shall, after the effective date of the rules and regulations established hereunder, have on board such liquid cargo, until a certificate of inspection has been issued to such vessel in accordance with the provisions of this title and until a permit has been endorsed on such certificate of inspection by a board of local inspectors, indicating that such vessel is in compliance with the provisions of this section and the rules and regulations established hereunder, and showing the kinds and grades of such liquid cargo that such vessel may have on board or transport. Such permit shall not be endorsed by a board of local inspectors on such certificate of inspection until such vessel has been inspected by such board of local inspectors, or by any other board or officer of the Bureau of Marine Inspection and Navigation designated by the Director thereof, and found to be in compliance with the provisions of this section and the rules and regulations established hereunder. For the purpose of any such inspection approved plans and certificates of class of the American Bureau of Shipping or other recognized classification society for classed vessels may be accepted as evidence of the structural efficiency of the hull and the reliability of the machinery of such classed vessels except as far as existing law places definite responsibility on the Bureau of Marine Inspection and Navigation. A permit issued under the provisions of this section shall be valid for a period of time not to exceed the duration of the certificate of inspection on which such permit is endorsed, and shall be subject to revocation by a board of local inspectors whenever such a board shall find that the vessel concerned does not comply with the conditions upon which such permit was issued: *Provided*, That the provisions of this subsection shall not apply to vessels of a foreign nation having on board a valid certificate of inspection recognized under law or treaty by the United States: *And provided further*, That no permit shall be issued under the provisions of this section authorizing to be on board any vessel, described in the provisions of sections 4472 and 4278 of the Revised Statutes, section 234 of the act of March 4, 1909 (ch. 321, 35 Stat. 1135), as amended (U. S. C., 1934 ed., title 18, sec. 384), and section 8 of the act of August 2, 1882 (ch. 374, 22 Stat. 189; U. S. C., 1934 ed., title 46, sec. 171), any of the materials expressly prohibited to be carried on such vessels by the afore-mentioned provisions.

"(5) Vessels subject to the provisions of this section shall have on board such shipping documents as may be prescribed by the Board of Supervising Inspectors with the approval of the Secretary of Commerce indicating the kinds, grades, and approximate quantities of such liquid cargo on board such vessel, the shippers and consignees thereof, and the location of the shipping and destination points.

"(6) (a) In all cases where the certificate of inspection does not require at least two licensed officers, a board of local inspectors shall enter in the permit issued to any vessel under the provisions of this section the number of the crew required to be certificated as tankermen.

"(b) A board of local inspectors shall issue to applicants certificates as tankerman, stating the kinds of liquid cargo the holder of such certificate is, in the judgment of such board, qualified to handle aboard vessels with safety, upon satisfactory proof and examination, in form and manner prescribed by the Board of Supervising Inspectors with the approval of the Secretary of Commerce, that the applicant is in good physical condition, that such applicant is trained in and capable efficiently to perform the necessary operations aboard vessels having such liquid cargo on board, and that the applicant fulfills the qualifications of tankerman as prescribed by the Board of Supervising Inspectors under the provisions of this section. Such certificates shall be subject to suspension or revocation on the same grounds and in the same manner and with like procedure as is provided in the case of suspension or revocation of licenses of officers under the provisions of section 4450 of this title.

"(7) The owner, master, or person in charge of any vessel subject to the provisions of this section, or any or all of them, who shall violate the provisions of this section, or of the rules and regulations established hereunder, shall be subject to a fine of not more than $1,000 or imprisonment for not more than 1 year, or both such fine and imprisonment.

"(8) The rules and regulations to be established pursuant to this section shall become effective 90 days after their promulgation unless the Secretary of Commerce shall for good cause fix a different time."

DEPARTMENTS OF TREASURY AND POST OFFICE APPROPRIATIONS—CONFERENCE REPORT

The Senate resumed the consideration of the report of the committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill (H. R. 10919) making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1937, and for other purposes.

Mr. BONE obtained the floor.

Mr. HOLT. Mr. President——

The PRESIDING OFFICER. Does the Senator from Washington yield to the Senator from West Virginia?

Mr. BONE. I do.

Mr. HOLT. Before the Senator begins, I suggest the absence of a quorum.

The PRESIDING OFFICER. The absence of a quorum having been suggested, the clerk will call the roll.

The legislative clerk called the roll, and the following Senators answered to their names:

Adams	Clark	La Follette	Radcliffe
Ashurst	Connally	Lewis	Reynolds
Bachman	Copeland	Loftin	Robinson
Bailey	Couzens	Lonergan	Russell
Barkley	Davis	McAdoo	Schwellenbach
Benson	Dieterich	McGill	Sheppard
Bilbo	Duffy	McKellar	Shipstead
Black	Frazier	McNary	Smith
Bone	George	Maloney	Steiwer
Borah	Gerry	Metcalf	Thomas, Okla.
Brown	Gibson	Minton	Thomas, Utah
Bulkley	Glass	Moore	Townsend
Bulow	Guffey	Murphy	Truman
Burke	Hale	Murray	Tydings
Byrd	Harrison	Neely	Vandenberg
Byrnes	Hastings	Norris	Van Nuys
Capper	Hatch	Nye	Wagner
Caraway	Hayden	O'Mahoney	Walsh
Carey	Holt	Pittman	Wheeler
Chavez	King	Pope	

The PRESIDING OFFICER (Mr. BILBO in the chair). Seventy-nine Senators having answered to their names, a quorum is present.

Mr. ROBINSON. Mr. President——

The PRESIDING OFFICER. The Chair has recognized the Senator from Washington [Mr. BONE].

Mr. ROBINSON. Will the Senator from Washington yield to me?

Mr. BONE. Yes.

Mr. ROBINSON. Mr. President, it is apparent that for the present, and in the immediate future, no progress can be made respecting the conference report now under consideration. I think we all realize that if the session is to terminate tomorrow, it is necessary to facilitate the business of the Senate as much as possible.

There is on the Senate calendar a measure which a number of Senators are very anxious to have considered at this time. From my inquiries, I learn that there is opposition to the passage of the bill; but I believe the work of the Senate will be expedited if an opportunity is afforded to take it up.

I therefore ask unanimous consent that the conference report now before the Senate be temporarily laid aside. It is my information that every effort is being made in the body at the other end of the Capitol to take action regarding the so-called ship-subsidy bill, which passed the Senate only today about 1 o'clock. That bill, however, is a House bill, our consideration of it being confined largely to Senate amendments reported by the Committee on Commerce.

I ask also that the Senate proceed to the consideration of House bill 12800, a bill to regulate interstate commerce in bituminous coal, and for other purposes.

Several Senators addressed the chair.

Mr. ROBINSON. Just one moment. I ask unanimous consent first that the conference report be temporarily laid aside.

Mr. HASTINGS. I object.

Mr. ROBINSON. I suggest to the Senator from Virginia that he consider withdrawing his motion for the present.

Mr. HASTINGS. Will the Senator yield to me?

Mr. ROBINSON. The motion is a preferential motion, and can be made at any time.

Mr. HASTINGS. Mr. President——

Mr. ROBINSON. Just one moment. The Senator from Virginia would manifestly sacrifice nothing by taking the course I am now proposing. Otherwise, what will happen will be a continuation of a filibuster which has already been conducted for some hours. If the Senator from Virginia will withdraw his motion, I assure him that when he is ready to resume consideration of the conference report, I will be glad to cooperate to bring it back before the Senate.

Mr. HASTINGS. Mr. President, will the Senator yield before he makes the request of the Senator from Virginia?

Mr. ROBINSON. I yield.

Mr. HASTINGS. I should like, in all fairness, to state to the Senator from Arkansas and to other Senators that absolutely nothing will be gained by any such procedure. The bill which he suggests taking up when the conference report shall be laid aside is a measure of very great importance, involving very serious questions, upon which Senators have different views. It involves a price-fixing feature which is objectionable to many. To many of us it seems it would create a monopoly, to which we are opposed, and I desire to say frankly to the Senator from Arkansas, after having consulted others who are interested in the matter, that there is not a hope, even if we stay here night and day, to have that bill passed by next Monday night.

Of course I appreciate the fact that after the Democratic convention we may return, and while I doubt whether there are votes enough either to have the bill taken up or to pass it, it may be that it can be done at that time; but in all frankness, and without any desire to be presumptuous with respect to it, I wish to say that it is not possible within the period of tonight and the next two days to pass that bill through the Senate. I am sure the statement I make is concurred in by many other Senators who are present.

Mr. ROBINSON. Mr. President, I realize that the Senator has expressed his good-faith opinion, and I know that he indicates that I am merely proposing to trade one filibuster for another. [Laughter.] At the same time, I feel that it is entirely possible that the opinions of many Senators on the subject may change. At any rate, there should be an opportunity for the consideration of the bill to which I have referred, and I am reluctant to yield.

I inquire whether the Senator from Virginia is disposed to withdraw his motion.

Mr. GLASS. Mr. President, I am always disposed to follow the leader on this side, and out of respect to his suggestion I yielded to his desire to ask unanimous consent to lay the conference report aside in order that the other bill might be brought up. But I am not willing to withdraw the conference report, with due respect to the Senator.

Mr. ROBINSON. As I understand, the Senator declines to withdraw his motion?

Mr. GLASS. I do.

Mr. ROBINSON. Very well, Mr. President; I do not see that there is anything to be accomplished by pressing the matter further, and I know of nothing except to let the war go on. [Laughter.]

The PRESIDING OFFICER. The Senator from Washington has the floor.

Mr. McNARY. Mr. President, may I address an observation to the Senator from Arkansas?

Mr. ROBINSON. Certainly.

Mr. McNARY. In view of the situation described by the Senator from Arkansas, would he not now consent to a recess until 11 o'clock tomorrow morning?

Mr. ROBINSON. Mr. President, I do not feel that that would be fair to the proponents of the conference report. I am unable at this time to comply with that suggestion. Even though the effort to do business should prove futile, I think we should continue our efforts.

Mr. McNARY. Mr. President, if I may make another suggestion, I suggest that the Senate now take a recess until 8 o'clock this evening.

Mr. ROBINSON. I cannot agree to that.

Mr. CLARK. Mr. President, may I make a suggestion to the Senator from Arkansas?

Mr. ROBINSON. Certainly.

Mr. CLARK. Those of us who are intent on not perpetuating an appropriation for the present ocean-mail contracts have been in conference this afternoon, I may say, with some of the responsible Members of the House of Representatives who are interested in the proposition. We were told some time this afternoon that the ship-subsidy bill would be taken up for consideration in the House, and we were prepared at any time, had we been informed that the House had passed the bill, which the Senate passed this morning under what we thought was an agreement, to permit a vote on the conference report which is now pending.

Instead of that, the House has recessed until 7:30 o'clock this evening. Our information is that the bill will be taken up for consideration when the House resumes its session this evening. I think I can assure the Senator from Arkansas that no substantial progress will be made until information has come from the House that the ship-subsidy bill has been passed. If the Senator desires to hold the Senate in session, of course, that is his privilege, as leader of the Senate. There are a number of us here who are prepared to speak at some length on this subject.

Mr. ROBINSON. Mr. President, I think I should interrupt the Senator from Missouri to say that I have been advised by the supporters of the so-called Guffey coal bill that they would not look with favor on the discontinuance of efforts to do business in the Senate and thus be denied any opportunity to have consideration of the bill to which I am referring.

Mr. CLARK. Mr. President, let me say to the Senator from Arkansas that the discussion which has taken place here today has nothing on the face of the earth to do with the Guffey coal bill, so far as most of us are concerned.

Mr. ROBINSON. That is the very point. While on the face of the record the Guffey coal bill is not involved, the conduct of the filibuster on the conference report has prevented an opportunity for a vote on a motion to take up

the Guffey coal bill. To recess now out of respect for that filibuster would be to yield the opportunity which may be afforded to consider that proposed legislation.

I feel frankly that an opportunity should be afforded to take up that bill and test out whether the sentiment of the Senate is opposed to the measure. That test might very well come on a motion to proceed to the consideration of the bill. If the Senate should vote down the motion to proceed to the consideration of the measure, as the Senator from Delaware [Mr. HASTINGS] indicates in his opinion would be done, I should consider such action as final respecting the Guffey coal bill for the present session, and I believe the Senator from Pennsylvania [Mr. GUFFEY] and the Senator from West Virginia [Mr. NEELY] and others who are interested in the proposed legislation would take that view. If the bill should be taken up, I realize that fact would not assure its passage. I wish to be frank about that matter. However, it would give an opportunity for those who favor the proposed legislation, as well as those who oppose it, to discuss the measure, and it would enable us to reach a conclusion respecting the practicability of passing the bill in the time that remains.

Mr. CLARK. Mr. President, I will say to the Senator from Arkansas, speaking for myself, and I believe I also speak for the Senator from Alabama [Mr. BLACK], the Senator from Washington [Mr. BONE], and a number of Senators who are very much interested in the ship-subsidy proposition which we have been fighting, that we have no disposition on earth to delay the consideration of the Guffey coal bill. So far as I am concerned, I am against the Guffey coal bill and intend to vote against it, but I am, frankly, willing for it to be taken up. However, we are in a situation here where, in our view, we cannot afford to allow the adoption of the conference report carrying an appropriation of $29,500,000 for the present ocean-mail contracts until the bill which was passed today by the Senate shall have been considered and passed by the House. Otherwise we shall still be in the same stalemate we have been in for years on the present ocean-mail contract system.

If the Senator from Arkansas can secure an agreement to take up the Guffey coal bill and postpone the consideration of the conference report until after the House shall have taken action, so far as I am concerned, I shall have no objection, although I intend to vote against the Guffey coal bill.

I have been informed, however, that in spite of all negotiations which have taken place today, by which the House has agreed to pass the ship-subsidy bill which was considered and passed by the Senate this morning, very high Government officials are at the other end of the Capitol trying to have such action postponed.

I wish to say, so far as the talk of lobbyists is concerned, that I do not think any Member of this body or anybody else would for a moment concede that the lobby of the Shipping Trust would have any influence on the Senator from Virginia [Mr. GLASS], or the Senator from Tennessee [Mr. MCKELLAR], or the Appropriations Committee; but I myself went up to the Commerce Committee this afternoon, and the room was so chock full of lobbyists of the Shipping Trust, many of whom I recognized, because I have seen them here and heard them testify in hearings, that I myself could hardly get inside of the room.

I desire to absolve the chairman of the Appropriations Committee from any participation in that, because he was in his private room trying to take a nap when I went in and woke him up. A little later I was standing outside the main door of the Senate Chamber, and I saw a group of these lobbyists pass by on their way to the House four abreast, like a wartime-strength infantry company.

As one who does not desire the present ocean-mail contracts to be preserved, I am not willing to take any chance by allowing the conference report to be adopted while the bill which was passed by the Senate today might be defeated and the present system be perpetuated.

Mr. NEELY. Mr. President——

The PRESIDING OFFICER. Does the Senator from Washington yield to the Senator from West Virginia?

Mr. BONE. I yield.

Mr. NEELY. The Senator from Delaware objected to the unanimous-consent request of the Senator from Arkansas [Mr. ROBINSON] to lay aside the conference report temporarily in order to enable the Senate to vote on the question of proceeding to the consideration of the Guffey coal bill. Later the Senator from Delaware indicated that he thinks the motion, if submitted, would be lost. In the circumstances will not the Senator from Delaware withdraw his objection and let us vote on my motion to take up the coal bill?

I am authorized to state that the Senator from Pennsylvania [Mr. GUFFEY], the author of the coal bill, joins me in agreeing that if the Senate, on a roll call, refuses to adopt my motion, no further effort will be made between now and tomorrow night by either the Senator from Pennsylvania or me to proceed to the consideration of the coal-conservation bill. Manifestly, a negative vote now would demonstrate the futility of endeavoring to obtain an affirmative vote within the next 24 hours.

The PRESIDING OFFICER. Does the Senator from Delaware desire to respond?

Mr. HASTINGS. Mr. President, I have no authority at the present time to consent to anything. The Senator from Virginia [Mr. GLASS] has objected to laying aside consideration of the conference report.

Mr. ROBINSON. Oh, no, Mr. President; the Senator from Virginia did not object to my request, I will state for the information of the Senator from Delaware.

Mr. HASTINGS. I thought he did.

Mr. ROBINSON. No; it was the Senator from Delaware who objected. I did make a second suggestion to the Senator from Virginia, after the Senator from Delaware had objected to my request, and that was that he withdraw his motion for the present, in view of the fact that he can renew it within 5 minutes if he chooses to do so; but the Senator from Virginia at that time did not assent to it.

In order that the matter may be made clear, I now ask unanimous consent that the conference report be temporarily laid aside. I will state frankly that if that is done it is my intention to move the consideration of the Guffey coal bill, and thereupon a test can be had as to whether the Senate desires to take it up.

Mr. VANDENBERG. Mr. President, I will save the Senator's time by announcing that I shall object.

Mr. KING. There are others likewise who would object.

Mr. ROBINSON. I apprehended that there might be, but I wished to find out.

The PRESIDING OFFICER. The Senator from Arkansas having been satisfied, the Senator from Washington may proceed.

Mr. ROBINSON. I will state that the Senator from Arkansas is not satisfied. He is informed. [Laughter.]

Mr. MCNARY. Mr. President, will the Senator from Washington yield?

Mr. BONE. I yield.

Mr. MCNARY. Is the Senator now convinced and converted to the belief that it is useless to go forward at this time, and may not a recess be taken until 8 o'clock so as to afford Senators an opportunity to have dinner?

RECESS

Mr. ROBINSON. I move that the Senate take a recess until 8:30 o'clock this evening.

The motion was agreed to; and (at 6 o'clock and 50 minutes p. m.) the Senate took a recess until 8:30 p. m.

EVENING SESSION

At the expiration of the recess, the Senate reassembled.

MESSAGE FROM THE HOUSE

A message from the House of Representatives, by Mr. Haltigan, one of its reading clerks, announced that the House had passed the bill (S. 81) to provide for the collection and publication of statistics of peanuts by the Department of Agriculture, with amendments, in which it requested the concurrence of the Senate.

The message also announced that the House had passed the following joint resolutions, in which it requested the concurrence of the Senate:

H. J. Res. 608. Joint resolution extending for 2 years the time within which American claimants may make application for payment, under the Settlement of War Claims Act of 1928, of awards of the Mixed Claims Commission and the Tripartite Claims Commission, and extending until March 10, 1938, the time within which Hungarian claimants may make application for payment, under the Settlement of War Claims Act of 1928, of awards of the War Claims Arbiter;

H. J. Res. 641. Joint resolution making appropriations for the payment of expenses incurred in an election contest for a seat in the House of Representatives from the Twentieth Congressional District of the State of New York; and

H. J. Res. 642. Joint resolution to enable the Secretary of Agriculture to apply such methods of control of grasshoppers as in his judgment may be necessary.

GRAND HAVEN LIGHTHOUSE RESERVATION, MICH.

Mr. VANDENBERG. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of House bill 12971, authorizing the Secretary of Commerce to convey to the city of Grand Haven, Mich., certain portions of the Grand Haven Lighthouse Reservation. The departments concerned are all in harmony. A similar bill is on the Senate calendar, and, therefore, I am moving that the Senate proceed to the consideration of the bill which has passed the House.

The bill (H. R. 12971) to amend the act of Congress approved May 27, 1935 (Public, No. 73, 74th Cong.), authorizing the Secretary of Commerce to convey to the city of Grand Haven, Mich., certain portions of the Grand Haven Lighthouse Reservation, Mich., was read twice by its title.

The VICE PRESIDENT. Is there objection to the present consideration of the bill?

There being no objection, the bill was considered, ordered to a third reading, read the third time, and passed.

On motion by Mr. VANDENBERG, the bill (S. 4779) to amend the act of Congress approved May 27, 1935 (Public, No. 73, 74th Cong.), authorizing the Secretary of Commerce to convey to the city of Grand Haven, Mich., certain portions of the Grand Haven Lighthouse Reservation, Mich., was ordered to be indefinitely postponed.

HOUSE JOINT RESOLUTIONS REFERRED

The following joint resolutions were each read twice by their titles and referred as indicated below:

H. J. Res. 608. Joint resolution extending for 2 years the time within which American claimants may make application for payment, under the Settlement of War Claims Act of 1928, of awards of the Mixed Claims Commission and the Tripartite Claims Commission, and extending until March 10, 1938, the time within which Hungarian claimants may make application for payment, under the Settlement of War Claims Act of 1928, of awards of the War Claims Arbiter; to the Committee on Finance.

H. J. Res. 642. Joint resolution to enable the Secretary of Agriculture to apply such methods of control of grasshoppers as in his judgment may be necessary; to the Committee on Appropriations.

AMENDMENT OF NATIONAL INDUSTRIAL RECOVERY ACT—CONFERENCE REPORT

Mr. GEORGE. Mr. President, I submit a conference report on Senate bill 3247, which I think will lead to no debate.

The report was read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 3247) to amend Title II of the National Industrial Recovery Act, as amended by the Emergency Appropriation Act, fiscal year 1935, and as extended by the Emergency Relief Appropriation Act of 1935, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the House amendment, insert the following: "That the acquisition by the United States of any real property heretofore or hereafter acquired in connection with any low-cost housing or slum-clearance project heretofore or hereafter constructed with funds allotted to the Federal Emergency Administration of Public Works pursuant to title II of the National Industrial Recovery Act, the Emergency Relief Appropriation Act of 1935, or any other law, shall not be held to deprive any State or political subdivision thereof of its civil and criminal jurisdiction in and over such property, or to impair the civil rights under the local law of the tenants or inhabitants on such property; and insofar as any such jurisdiction has been taken away from any such State or subdivision, or any such rights have been impaired, jurisdiction over any such property is hereby ceded back to such State or subdivision.

"SEC. 2. Upon the request of any State or political subdivision in which any such project has been or will be constructed, the Federal Emergency Administrator of Public Works is authorized to enter into an agreement, and to consent to the renewal or alteration thereof, with such State or subdivision for the payment by the United States of sums in lieu of taxes. Such sums shall be fixed in such agreement and shall be based upon the cost of the public or municipal services to be supplied for the benefit of such project or the persons residing on or occupying such premises, but taking into consideration the benefits to be derived by such State or subdivision from such project.

"SEC. 3. Such payments in lieu of taxes, and any other expenditures for operation and maintenance (including insurance) of any low-cost housing or slum-clearance project described in section 1, shall be made out of the receipts derived from the operation of such projects. To provide for such payments and expenditures the Federal Emergency Administrator of Public Works is authorized from time to time to retain out of such receipts such sums as he may estimate to be necessary for such purposes.

"SEC. 4. (a) In the administration of any low-cost housing or slum-clearance project described in section 1, the Federal Emergency Administrator of Public Works shall fix the rentals at an amount at least sufficient to pay (1) all necessary and proper administrative expenses of the project; (2) such sums as will suffice to repay, within a period not exceeding sixty years, at least 55 per centum of the initial cost of the project, together with interest at such rate as he deems advisable.

"(b) Dwelling accommodations in such low-cost housing or slum-clearance projects shall be available only to families who lack sufficient income, without the benefit of financial assistance, to enable them to live in decent, safe, and sanitary dwellings and under other than overcrowded housing conditions: *Provided*, That no family shall be accepted as a tenant in any such project whose aggregate income exceeds five times the rental of the quarters to be furnished such family. The term 'rental' as used in this subsection includes the average cost (as determined by the Federal Emergency Administrator of Public Works) of heat, light, water, and cooking, where such services are not supplied by the lessor and included in the rent.

"SEC. 5. In connection with any low-cost housing or slum-clearance project described in section 1, the Federal Emergency Administrator of Public Works, with the approval of the President, is authorized to dedicate streets, alleys, and parks for public use, and to grant easements."

And the House agree to the same.

That the Senate recede from its disagreement to the amendment of the House to the title, and agree to the same.

WALTER F. GEORGE,
DAVID I. WALSH,
Managers on the part of the Senate.

CHESTER THOMPSON,
JOHN D. DINGELL,
FRANK CROWTHER,
Managers on the part of the House.

Mr. GEORGE. Mr. President, I move that the Senate agree to the conference report.

The motion was agreed to.

STATISTICS OF PEANUTS

The VICE PRESIDENT laid before the Senate the amendment of the House of Representatives to the bill (S. 81) to provide for the collection and publication of statistics of peanuts by the Department of Agriculture, which were, on page 2, line 9, to strike out "and/or" and insert "or"; and on the same page, line 10, to strike out "and/or" and insert "or."

Mr. GEORGE. Mr. President, I move that the Senate concur in the House amendment.

The motion was agreed to.

NAVAL AIR STATION, ALAMEDA, CALIF.

The VICE PRESIDENT laid before the Senate the amendments of the House of Representatives to the bill (S. 4020) to authorize the acquisition of lands in the city of Alameda, county of Alameda, State of California, as a site for a naval air station and to authorize the construction and installation of a naval air station thereon, which were, on page 3, line 14, to strike out all after word "all" down to and including "Alameda" in line 22 and insert "encumbrances: *Provided, however,* That at least $1,000,000 be expended for

or contracted to be expended in the actual work of development of said naval air base by December 31, 1939, otherwise said lands shall automatically revert back to said city of Alameda"; on page 3, line 24, after the word "install", to insert "acquire"; and on page 4, line 14, to strike out all after the word "appropriated" down to and including the word "act" in line 2 of page 5 and insert "such sums as may be necessary to effectuate the purposes of this act, but not over $15,000,000."

Mr. WALSH. I move that the Senate concur in the House amendments.

The motion was agreed to.

THE BONUS

Mr. CLARK. Mr. President, yesterday the Senate passed Senate bill 4785. An identical bill, House bill 13001, passed the House today. This is a bill very strongly recommended by the Treasury Department, having to do with the payment of the bonus, on the ground, as the Treasury Department informs us, that the veterans entitled to the bonus are dying at the rate of between 75 and 80 a day. Since the Bonus Act was passed some 10,000 veterans have died.

Recently the Comptroller General has issued an order which precludes the payment of a bonus certificate to the heirs of a deceased veteran unless a legal representative has been appointed by a court, which in many cases would result in the poor widow of a veteran having to spend half of her inheritance from her veteran husband in court proceedings.

The bill passed the House unanimously, and was unanimously reported by the Committee on Finance. I, therefore, ask that the bill which passed the House be now taken up for consideration by the Senate.

The bill (H. R. 13001) to eliminate unnecessary expense in the administration of estates of deceased and incompetent veterans, and for other purposes, was read twice by its title.

The VICE PRESIDENT. Is there objection to the present consideration of the bill?

There being no objection, the bill was considered, ordered to a third reading, read the third time, and passed.

On motion by Mr. CLARK, the bill (S. 4785) to eliminate unnecessary expense in the administration of the estates of deceased and incompetent veterans, and for other purposes, was ordered to be indefinitely postponed.

SEVENTY-FIFTH ANNIVERSARY OF THE BATTLE OF GETTYSBURG

Mr. BARKLEY. From the Committee on the Library, I report back favorably without amendment the joint resolution (H. J. Res. 532) for the establishment of a commission in commemoration of the seventy-fifth anniversary of the Battle of Gettysburg in 1938, and I ask unanimous consent for its present consideration.

The PRESIDENT pro tempore. Is there objection?

There being no objection, the joint resolution (H. J. Res. 532) for the establishment of a commission in commemoration of the seventy-fifth anniversary of the Battle of Gettysburg in 1938 was considered, ordered to a third reading, read the third time, and passed.

EXPENSES OF AN ELECTION CONTEST, HOUSE OF REPRESENTATIVES

The PRESIDENT pro tempore laid before the Senate the joint resolution (H. J. Res. 641) making appropriations for the payment of expenses incurred in an election contest for a seat in the House of Representatives from the Twentieth Congressional District of the State of New York, which was read twice by its title.

Mr. McKELLAR. I ask unanimous consent for the present consideration of the joint resolution.

The PRESIDENT pro tempore. Is there objection to the request of the Senator from Tennessee?

There being no objection, the Senate proceeded to consider the joint resolution.

The joint resolution was ordered to a third reading, read the third time, and passed.

DEPARTMENTS OF TREASURY AND POST OFFICE APPROPRIATIONS—CONFERENCE REPORTS

The Senate resumed the consideration of the report of the committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill (H. R. 10919) making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1937, and for other purposes.

Mr. ROBINSON. I suggest the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

The Chief Clerk called the roll, and the following Senators answered to their names:

Adams	Clark	Lewis	Reynolds
Ashurst	Connally	Loftin	Robinson
Bachman	Copeland	Lonergan	Russell
Bailey	Davis	McAdoo	Schwellenbach
Barkley	Dieterich	McGill	Sheppard
Benson	Duffy	McKellar	Shipstead
Bilbo	Frazier	McNary	Smith
Black	George	Maloney	Steiwer
Bone	Gerry	Metcalf	Thomas, Okla.
Borah	Gibson	Minton	Thomas, Utah
Brown	Glass	Moore	Townsend
Bulkley	Guffey	Murphy	Truman
Bulow	Hale	Murray	Tydings
Burke	Harrison	Neely	Vandenberg
Byrd	Hastings	Norris	Van Nuys
Byrnes	Hatch	Nye	Wagner
Capper	Hayden	O'Mahoney	Walsh
Caraway	Holt	Pittman	Wheeler
Carey	King	Pope	
Chavez	La Follette	Radcliffe	

The VICE PRESIDENT. Seventy-eight Senators having answered to their names, a quorum is present.

Mr. BONE. Mr. President, during the course of the remarks of the Senator from Alabama [Mr. BLACK] this afternoon I took occasion to refer to the attitude of critics of men in public life who presumed to criticize the tremendous, profligate expenditures of the United States Government in connection with the operation of the ship and air-mail subsidy program which our Government has been carrying on for many years.

I said at that time that these critics castigated men in public life for daring to lay profane hands on that sort of an operation, an operation which, in my judgment, was nothing short of a loot of the United States Treasury.

During the course of the investigations by the Munitions Committee of the United States Senate we had before that committee a well-known citizen of the United States, who was one of the most vociferous critics of those who sought either to limit the increasing expenditures for armament or to limit the operations under the air-mail and ocean-mail program. That man was William B. Shearer; and for the information of the Members of the Senate I am going to read from the record of the Munitions Committee a little of the sworn testimony given by Mr. Shearer, and I think it will be very revealing as indicating the attitude of mind of those who presume to sit in criticism of those who desire to protest against what they conceive to be and honestly believe to be vicious abuses in the Government.

It seems that Mr. Shearer, who was a high-class lobbyist for shipbuilding companies and who claimed credit for having wrecked one peace conference at Geneva, had written a certain letter, and in this letter Mr. William B. Shearer made use of this expression:

> Twelve Senators only opposed the cruiser bill, of which nine are recorded in the Department of Justice records with past affiliations with the Communist Party.

I suggested this afternoon, Mr. President, that the men who have the viewpoint of Mr. Shearer and men who have the viewpoint of those who object to any criticism of this profligate and wanton expenditure of public money to enrich a few are generally very intemperate in their expressions. There is very little limit placed upon the bitterness and the pungency of their remarks when they presume to criticize. The Senator from Missouri [Mr. CLARK] took this witness in hand at about this point and asked:

> Mr. Shearer, who were the nine Senators who were recorded in the Department of Justice records as having had past affiliations with the Communist Party?

Mr. President, I think that most of the good lawyers in the Senate will agree with me that it is at least in some States almost libel per se to write of a man that he is a Communist, that he is bent upon overthrowing our form of government. So here we find this man saying of and concerning nine

United States Senators, some of whom are still Members of this body, that they had Communist affiliations. This very intemperate charge was made because these Senators had the temerity to vote against an appropriation which they considered too large. It may have been an error of judgment on their part; possibly they were wrong, and perhaps they did not measure up to the patriotic standards of Mr. William B. Shearer, but again he exemplified the attitude of mind of that type of critic who cannot restrain his bitterness, cannot restrain his intemperance, cannot restrain that innate impulse to be mean, harsh, and unjust. Let us go into this record and find out now just how accurate these glib gentlemen are when they indict Members of the Senate.

Mr. CLARK. Mr. President, will the Senator yield?

Mr. BONE. I yield.

Mr. CLARK. The Senator will also recall that before the Munitions Committee a letter was put in evidence from Mr. Shearer to some of his employers, who were the members of the ship-building trust, in which he said, in so many words, that he felt justified in accusing any Seantor or any Representative who happened to vote against his proposals for a big Navy of being Communists and traitors and disloyal citizens. That exemplified not only the spirit of Mr. Shearer, but apparently the purpose and animus back of those who employed Mr. Shearer, and who continued to employ him for long months after he had publicly denounced them and sued them in the courts of the United States.

Mr. BONE. The Senator from Missouri is absolutely correct. I think when we get through with this record tonight, it is going to be an eye-opener to some Members of the Senate who exercised their prerogative of voting their own consciences and their own honest desires in this body. I desire to show Senators, when they presume to do a thing like that, the risk they run at the hands of superheated patriots such as Mr. Shearer, who did precisely and exactly as the Senator from Missouri has indicated.

In response to a further question by the Senator from Missouri, Mr. Shearer produced the book that contained all this hideous record, this dark and gloomy story of communism on the part of Members of this august body. Mr. Shearer announced that he did not write this book, but the documents and photographs compiled by the Department of Justice after a certain raid in Michigan revealed the names and the dark fact that Members of the United States Senate were in an unholy conspiracy to overthrow the Government of the United States by reason of having communist affiliations. As a red sniper and a heresy hunter and a witch burner there probably is no one in the United States who approaches Mr. Shearer in the degree of efficiency he has achieved. It is unfortunate that he did not live in the time of Cotton Mather so he could have burned over slow fires those who suffered the irremediable misfortune of disagreeing with the gentleman.

Mr. BARKLEY. Mr. President, will the Senator yield to me for the purpose of asking unanimous consent for the present consideration of a bill?

Mr. BONE. I yield.

GEORGE M. COHAN

Mr. BARKLEY. Mr. President, the House has passed the bill authorizing the President to confer a medal upon George M. Cohan, who wrote the song Over There during the war. I ask unanimous consent that the Committee on the Library be discharged from the further consideration of the bill, and that it be considered at this time.

The PRESIDING OFFICER. Without objection, the Committee on the Library is discharged from further consideration of the bill.

Mr. McNARY. Mr. President, is that bill on the calendar and is it a House bill?

Mr. BARKLEY. It is a House bill. It has been referred to the Committee on the Library, and on account of other matters it has been impossible for the committee to consider it. It is simply a gesture of appreciation. There is no expense to speak of involved in connection with the bill. The Senator will recall that Mr. Cohan wrote the song Over There during the war, and prior to that he had written another song, A Grand Old Flag. The granting of the medal to Mr. Cohan is simply in recognition of his services to his country.

Mr. McNARY. The bill involves the granting of a medal rather than carrying an appropriation.

Mr. BARKLEY. The bill carries no appropriation.

The PRESIDENT pro tempore. Is there objection to the present consideration of the bill?

There being no objection, the bill (H. R. 4641) authorizing the President to present a gold medal to George M. Cohan was considered, ordered to a third reading, read the third time, and passed, as follows:

Be it enacted, etc., That the President is authorized to present, but not in the name of Congress, a gold medal of appropriate design to George M. Cohan, in recognition of his services during the World War in composing the patriotic song Over There, and prior thereto that thrilling song A Grand Old Flag.

DEPARTMENTS OF TREASURY AND POST OFFICE APPROPRIATIONS—CONFERENCE REPORT

The Senate resumed the consideration of the report of the committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill (H. R. 10919) making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1937, and for other purposes.

Mr. BONE. Mr. President, at this particular point in this very remarkable and enlightening inquiry the Senator from Missouri [Mr. CLARK] asked Mr. Shearer who were the Senators who were listed as Communists by the Department of Justice of the United States. The big G-men had been doing some work investigating our honorable body and had uncovered this hideous plot against the Republic. Mr. Shearer said: "Let us get at it. Read it and find out."

The Senator from Missouri was a bit obtuse evidently at this point and was not able to follow the gentleman who was in front of us. Finally the Senator got around to the book, and then Mr. Shearer announced that these Senators had struck below the belt, and he said: "When a thing of that kind gets dirty, we all have to resort to dirt."

And so Mr. Shearer got dirty in the fashion which I am now about to describe. I asked Mr. Shearer at that time——

Mr. CLARK. Mr. President, may we have order?

The PRESIDENT pro tempore. Senators will be in order, and the occupants of the gallery will likewise be in order.

Mr. BONE. I am surprised. I thought my brethren had more curiosity about these Communists. I thought everybody in this presence would keep quiet and let me make this revelation in the manner in which I should like to make it. [Laughter.]

I asked Mr. Shearer if he had the list of Communist Senators to whom he had referred, and he said we would have to read the book. I said to Mr. Shearer:

> You name one of them as Senator Swanson, of Virginia, now Secretary of the Navy. Do you want to identify Mr. Swanson as a Communist?

Mr. Shearer announced he was referring to the book where the Senator had been thoroughly and completely identified as a Communist. Of course it ought to give Members of the Senate a very great thrill to know that their friend and former colleague and associate, Claude Swanson, of Virginia, is a Communist! "Comrade" Swanson is identified. [Laughter.]

Mr. Shearer then said:

> Take another one I am going to point out to you.
> Senator BONE. McKELLAR, of Tennessee; KENDRICK, of Wyoming.

Two well-known, outstanding Communists and fellow "reds" of Claude Swanson! [Laughter.]

Then Mr. Shearer announced I was reading the names in the manner in which I had read the names a day or two previously, which seemed to annoy Mr. Shearer very much. It may have been something in the inflection of my voice. I tried indeed to be patient with this superheterodyne patriot, but I admit he was trying my patience sorely.

Mr. CLARK and Mr. NEELY addressed the Chair.

The PRESIDENT pro tempore. Does the Senator from Washington yield, and if so, to whom?

Mr. BONE. I yield to both Senators. [Laughter.]

Mr. NEELY. I merely wish to ask the Senator from Washington if Representative BLANTON has been informed about these Communists in the Senate? [Laughter.]

Mr. BONE. I assure my friend from West Virginia that I do not want to cause Mr. BLANTON any more trouble. He is having lots of trouble and he might not survive the shock if he knew this end of the Capitol was infested with Communists. [Laughter.]

I yield now to my friend from Missouri.

Mr. CLARK. Has the Senator given the Senate the benefit of the name of the pamphlet in which Mr. Shearer denounced the present Secretary of the Navy and the senior Senator from Tennessee [Mr. MCKELLAR] and the late Senator Kendrick, of Wyoming, and numerous other distinguished Senators as Communists? As I recall, the title of the pamphlet which was sent out with funds supplied by shipbuilders and by Mr. William Randolph Hearst, it was the Cloak of Benedict Arnold.

Mr. BONE. The Senator's memory is treacherous. That was another outstanding document prepared by this great flag waver, this 1,000-percent American.

Mr. MCKELLAR. Mr. President——

The PRESIDENT pro tempore. Does the Senator from Washington yield to the Senator from Tennessee?

Mr. BONE. I yield.

Mr. MCKELLAR. In presenting this testimony from this man Shearer, does the Senator vouch for it? Is the Senator reiterating the charges of this unmitigated scoundrel? Is that what the Senator is doing here tonight? The Senator is smiling. If that is what he is doing, he is smiling in a very bad situation.

Mr. BONE. If the Senator will bear with me a little while I shall be very glad——

Mr. MCKELLAR. I wish the Senator would answer my question. My question was whether the Senator is vouching for his witness?

Mr. BONE. I am merely indicating the type of man.

Mr. MCKELLAR. Cannot the Senator answer one way or the other? Is he afraid to answer? [Laughter.]

Mr. BONE. I am very certain my friend must know by this time that I am not vouching for him. I should hate to express my private opinion of Mr. Shearer at this time.

Mr. MCKELLAR. I think the Senator ought to say whether or not he is vouching for this unmitigated falsifier from whom he is reading.

Mr. BONE. I am going to get around to identifying Mr. Shearer's viewpoint a little later.

He continued

These men at this point—

That is to say, these Senators who came under the criticism described by Mr. Shearer—

were embarrassed by the Conference for Progressive Political Action.

Mr. MCKELLAR. Mr. President, will the Senator yield again?

Mr. BONE. Very well.

Mr. MCKELLAR. The Senator is engaged in a filibuster before crowded galleries. He is undertaking to read before the occupants of the galleries, I believe in a facetious manner—I think the Senator intends to be facetious—the charges of some miscreant of whom probably no one in the galleries ever heard. I think the Senator is doing a very ungracious and very improper thing in reading the statements of this man for whom he says he does not vouch, who he says is not worthy of belief, and yet here in this body he is undertaking in a filibuster, a filibuster against the Treasury and Post Office Department appropriation bill, before crowded galleries, to read from the statements of a man for whom he says he does not vouch. The Senator ought not to do such a thing. It is unbecoming, ungracious, improper, and wholly out of place in a body of this kind.

Mr. BONE. I not only do not vouch for this man, but this man was the subject of the most vigorous attack at the hands of the Munitions Committee. His name is William B. Shearer. I think the Senator will agree with me he is one of the biggest crooks in the United States, a man hired by the shipbuilding companies and referred to on the floor of the Senate repeatedly as "the big bass drum of Geneva." He was the man credited with having wrecked one of the peace conferences at Geneva, in 1927, I believe it was. William B. Shearer's statements shocked every decent, wholesome, patriotic American, in my judgment, and the incident was one of the outstanding stenches in the public life of Washington.

Mr. MCKELLAR. Just a moment.

Mr. BONE. I am not yielding further to the Senator.

Mr. MCKELLAR. The Senator is reading here on the floor of the Senate that vile, infamous stench to which he referred.

Mr. BONE. I agree with the Senator.

Mr. MCKELLAR. I think it is unbecoming on the part of the Senator.

Mr. BONE. I agree with the Senator, but I do not know whether the Senator heard my remarks in the beginning. I am merely pointing out, and I think the Senator understands, as I am sure everyone else does, how utterly intemperate, how utterly baseless are the charges made by the very men who have fought to preserve the very things the Senator from Tennessee has opposed on this floor time after time and for doing which he has earned my unstinted admiration.

Mr. CLARK. Mr. President, will the Senator yield?

The PRESIDENT pro tempore. Does the Senator from Washington yield to the Senator from Missouri?

Mr. BONE. Yes.

Mr. CLARK. I can very readily understand the natural indignation of the Senator from Tennessee at anything a man like William B. Shearer might say about him; but while a filibuster may be in progress, I suggest to the Senator that it is to a very pertinent point of the conference report now under consideration that the Senator from Washington is addressing his remarks. In other words, the issue presented in this conference report is as to whether or not, by the appropriation of $29,500,000, and the possible failure of the House to take action on any reformatory measure having to do with ocean-mail contracts, the present situation may be preserved.

It has been in evidence before the Munitions Committee, and I think before the Black Ocean Mail Committee, and I am certain it was in evidence before the Munitions Committee, that Mr. Shearer was one of the lobbyists who participated to a very large extent in the $250,000 fund which was created for the passage of the so-called Jones-White Act. I am certain the Senator from Washington took no more stock than I do in the charges against such eminent citizens as the Secretary of the Navy, the Senator from Tennessee, the late Senator from Wyoming, and other eminent citizens; but the Senator from Washington certainly is entitled to show the methods by which the shipbuilders, acting through lobbyists like Wilder and Shearer, have created in this country an impression that Members of the House and of the Senate, no matter what their high rectitude might be, were not loyal to the United States. In other words, the Senator from Washington is trying, as I take it, to show the methods which have been employed for the purpose of creating the system which we are trying to eliminate tonight.

Mr. BONE. I thank the Senator from Missouri for his observations because he has stated the case better than I could hope to state it. This man Shearer admitted in this testimony—and we all knew from experience that it occurred—that he had circularized various groups all over the United States with this intemperate, vicious, and unfair attack upon men in public life in Washington for daring to lift their voices against abuses like those which were discussed here this afternoon. My purpose is to point out the utter folly and the utter stupidity, aside from the utter unfairness, of this kind of business; to point out how men in public life are made the butt of this sort of cruel attack when they dare stand up and vote as the Senator from Tennessee and others voted here. I hope the Senator from Tennessee does not think I in anywise agree with this man, for before the committee I had an exchange with the gentleman that was anything but pleasant.

Now I am going to continue with this testimony.

TREASURY AGENCY SERVICE

Mr. COPELAND. Mr. President, will the Senator yield to me for just a moment in order that I may ask unanimous consent for the consideration of a bill?

Mr. BONE. Yes.

Mr. COPELAND. I ask unanimous consent that House bill 12556 be laid before the Senate and that it be considered at this time.

The PRESIDENT pro tempore. The clerk will state the title of the bill.

The CHIEF CLERK. A bill (H. R. 12556) to create the Treasury Agency Service, to provide for the more adequate protection of the revenue and a more effective enforcement of the revenue and other laws administered by the Treasury Department, and for other purposes.

The PRESIDENT pro tempore. Is there objection to the present consideration of the bill?

Mr. DAVIS. Mr. President, what is the bill?

Mr. COPELAND. This bill is to permit a reorganization within the Treasury Department of activities already there. There has grown up a number of activities—the Narcotics Division and other divisions in the Internal Revenue Bureau—as to which it seems desirable to the Secretary of the Treasury that there should be a consolidation of these activities within the Department.

Mr. ROBINSON. The bill has been unanimously reported by the Finance Committee?

Mr. COPELAND. It has been; yes.

The PRESIDENT pro tempore. Is there objection to the present consideration of the bill?

There being no objection, the Senate proceeded to consider the bill, which was ordered to a third reading, read the third time, and passed.

Mr. O'MAHONEY. Mr. President, I desire to offer an amendment to the bill.

The PRESIDENT pro tempore. By unanimous consent, the votes by which the bill was ordered to a third reading and passed will be reconsidered. The bill is before the Senate and open to amendment.

Mr. O'MAHONEY. Mr. President, on page 1, lines 8 and 9, I move to strike out the words "The Secretary of the Treasury is authorized" and to substitute in lieu thereof "The President is authorized, by and with the advice and consent of the Senate," so that the provision for the appointment of the head of this agency will make it necessary that the nomination be made by the President and sent to the Senate for confirmation.

Mr. TOWNSEND. Mr. President, may I ask what bill is before the Senate?

The PRESIDENT pro tempore. The bill before the Senate is House bill 12556, to create the Treasury Agency Service, to provide for the more adequate protection of the revenue and a more effective enforcement of the revenue and other laws administered by the Treasury Department, and for other purposes.

Mr. TOWNSEND. I object to the consideration of the bill.

The PRESIDENT pro tempore. The Senator from Delaware objects.

AWARDS OF MIXED CLAIMS COMMISSION, ETC.

Mr. CLARK. Mr. President, will the Senator from Washington yield to me?

Mr. BONE. I yield to the Senator from Missouri.

Mr. CLARK. By direction of the Committee on Finance, I ask unanimous consent to report back favorably, without amendment, House Joint Resolution 608, extending for 2 years the time within which American claimants may make application for payment, under the Settlement of War Claims Act of 1928, of awards of the Mixed Claims Commission and the Tripartite Claims Commission, and extending until March 10, 1938, the time within which Hungarian claimants may make application for payment, under the Settlement of War Claims Act of 1928, of awards of the War Claims Arbiter.

The PRESIDENT pro tempore. Without objection, the report will be received.

Mr. McKELLAR. Mr. President, wait one minute. What is the matter before the Senate?

Mr. CLARK. The matter before the Senate is the conference report on the Treasury and Post Office Departments appropriation bill. I am asking unanimous consent to take up a joint resolution which passed the House today, and which is certified by the Committee on Finance and by the Treasury Department as being an emergency matter.

Mr. President, let me say that the joint resolution simply provides for the extension of the time within which Hungarian claimants may make application for payment, under the Settlement of War Claims Act of 1928, of the awards of the War Claims Arbiter which have already been allowed, and for which the money is in the Treasury. The joint resolution does not provide for a single charge of any kind against the Treasury. It simply extends the time limit; and unless the joint resolution is passed, certain claimants will be debarred of their rights.

I ask unanimous consent for the present consideration of the joint resolution.

The PRESIDING OFFICER (Mr. DUFFY in the chair). Is there objection to the present consideration of the joint resolution?

There being no objection, the joint resolution was considered, ordered to a third reading, read the third time, and passed.

EXECUTIVE SESSION

Mr. ROBINSON. Mr. President, if the Senator from Washington will yield for that purpose, I should like to move an executive session. There are on the Executive Calendar a number of matters which require consideration, and particularly a treaty which has been before the committee for a prolonged time.

Mr. BONE. I shall be very happy to yield if I do not lose the floor.

Mr. ROBINSON. Very well. I move that the Senate proceed to the consideration of executive business.

Mr. CLARK. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER (Mr. DUFFY in the chair). The Senator from Missouri will state it.

Mr. CLARK. By agreeing to the request of the Senator from Arkansas, the Senator from Washington will not lose the floor, will he?

Mr. ROBINSON. Certainly not.

Mr. BONE. I do not wish to lose the floor by yielding.

Mr. McKELLAR. Mr. President, another parliamentary inquiry: Will the conference report lose its place?

The PRESIDING OFFICER. It will not.

Mr. ROBINSON. Mr. President, I move that the Senate proceed to the consideration of executive business.

Mr. CLARK. Mr. President, would not the Senator be willing to include in his motion that it be understood that the Senator from Washington [Mr. BONE] will have the floor at the conclusion of the executive session?

Mr. ROBINSON. Certainly. I ask unanimous consent that the Senate proceed to the consideration of executive business, and that when that business shall have been disposed of, the Senator from Washington, now having the floor, may resume the floor.

The PRESIDING OFFICER. Is there objection?

There being no objection, the Senate proceeded to the consideration of executive business.

EXECUTIVE MESSAGES REFERRED

The PRESIDING OFFICER laid before the Senate messages from the President of the United States submitting sundry nominations (and withdrawing a nomination), which were referred to the appropriate committees.

(For nominations this day received, and nomination withdrawn, see the end of Senate proceedings.)

EXECUTIVE REPORTS OF COMMITTEES

Mr. SHEPPARD, from the Committee on Military Affairs, reported favorably the nomination of Col. Frank Maxwell

Andrews to be major general, commanding general, General Headquarters Air Force, with temporary rank from June 16, 1936, and also the nominations of sundry other officers for appointment to temporary rank in the Air Corps of the Regular Army, under the provisions of the act approved June 16, 1936.

He also, from the same committee, reported favorably the nominations of several officers for promotion in the Regular Army.

He also, from the same committee, reported favorably the nominations of several officers for appointment, by transfer, in the Regular Army.

Mr. WALSH, from the Committee on Naval Affairs, reported favorably the nominations of sundry officers in the Navy and the Marine Corps.

Mr. KING, from the Committee on Finance, reported favorably the nomination of Richard L. Disney, of Oklahoma, to be a member of the Board of Tax Appeals for a term of 12 years from June 2, 1936, vice Herbert F. Seawell, term expired.

Mr. McKELLAR, from the Committee on Post Offices and Post Roads, reported favorably the nominations of sundry postmasters.

Mr. NEELY, from the Committee on the Judiciary, reported favorably the nomination of Albert Branson Maris, of Pennsylvania, to be United States district judge for the eastern district of Pennsylvania.

Mr. DIETERICH, from the Committee on the Judiciary, reported favorably the following nominations:

John W. Clancy, of New York, to be United States district judge for the southern district of New York; and

Samuel Mandelbaum, of New York, to be a United States district judge for the southern district of New York.

The PRESIDING OFFICER. The reports will be placed on the Executive Calendar.

If there be no further reports of committees, the calendar is in order.

TREATY—SAFETY OF LIFE AT SEA

Mr. PITTMAN. Mr. President, I ask that the treaty on the safety of life at sea be laid before the Senate and that it be considered at this time.

The Senate, as in Committee of the Whole, proceeded to consider Executive B (71st Cong. 2d sess.) the International Convention for Promoting Safety of Life at Sea, signed at London, May 31, 1929, which was read the second time as follows:

INTERNATIONAL CONVENTION FOR THE SAFETY OF LIFE AT SEA

PREAMBLE

The Governments of Germany, the Commonwealth of Australia, Belgium, Canada, Denmark, Spain, the Irish Free State, the United States of America, Finland, France, the United Kingdom of Great Britain and Northern Ireland, India, Italy, Japan, Norway, the Netherlands, Sweden, the Union of Socialist Soviet Republics; being desirous of promoting safety of life at sea by establishing in common agreement uniform principles and rules directed thereto;

Considering that this end may best be achieved by the conclusion of a Convention;

Have appointed their plenipotentiaries, namely:

The Government of Germany:
Dr. Friedrich Sthamer, Ambassador Extraordinary and Plenipotentiary of the German Reich in London.
Mr. Gustav Koenigs, Ministerialdirigent in the Reichsverkehrsministerium, Geheimer Regierungsrat, Berlin.
Mr. Arthur Werner, Oberregierungsrat in the Reichsverkehrsministerium, Geheimer Justizrat, Berlin.
Mr. Walter Laas, Professor, Director of the "Germanischer Lloyd" Classification Society, Berlin.
Dr. Otto Riess, Director ret. of the Reichsschiffsvermessungsamt, Geheimer Regierungsrat, Neubrandenburg.
Mr. Hermann Giess, Ministerialrat in the Reichspostministerium, Berlin.
Vice-Admiral Hugo Dominik, President of the "Deutsche Seewarte," Hamburg.

The Government of the Commonwealth of Australia:
Captain Henry James Feakes, Royal Australian Navy, Commonwealth Naval Representative in London.
Lieut.-Commander Thomas Free, Royal Naval Reserve (retired).
Captain J. K. Davis, Commonwealth Director of Navigation.

The Government of Belgium:
Baron de Gerlache de Gomery, Director-General of the Marine Department.
Mr. Gustave De Winne, Ingénieur en Chef, Director of the Marine Department.
Mr. Georges Goor, Adviser to the Marine Department.

The Government of Canada:
Mr. Alexander Johnston, Deputy Minister of Marine.
Mr. Lucien Pacaud, Secretary in the Office of the Canadian High Commissioner in London.

The Government of Denmark:
Mr. Emil Krogh, Assistant-Secretary in the Marine Department, Ministry of Industry, Commerce and Shipping.
Mr. V. Topsöe-Jensen, Judge of the Supreme Court of Appeal.
Captain V. Lorck, Chief Examiner of Masters and Mates.
Mr. J. A. Körbing, Technical Managing Director of the United Steam Ship Company, Copenhagen.
Mr. Aage H. Larsen, Engineer in Chief of the Ministry of Industry, Commerce and Shipping.
Mr. Arnold Poulsen, Engineer Commissioner to the Ministry of Industry, Commerce and Shipping.

The Government of Spain:
Rear-Admiral Don Francisco Javier de Salas y Gonzales, Head of the Naval Commission in Europe.

The Government of the Irish Free State:
Mr. J. W. Dulanty, Commissioner for Trade for the Irish Free State in Great Britain.
Mr. E. C. Foster, Chief Surveyor in the Marine Branch, Department of Industry and Commerce.

The Government of the United States of America:
The Honourable Wallace H. White, Junior, Member of Congress, Chairman of the Committee on Merchant Marine and Fisheries.
Mr. Arthur J. Tyrer, Commissioner of Navigation, Department of Commerce.
Mr. Charles M. Barnes, Chief of the Treaty Division, Department of State.
Rear-Admiral George H. Rock, Construction Corps, United States Navy, Assistant Chief of the Bureau of Construction and Repair, Navy Department.
Captain Clarence S. Kempff, United States Navy, Hydrographer, Navy Department.
Mr. Dickerson N. Hoover, Supervising Inspector-General of the Steamboat Inspection Service, Department of Commerce.
Mr. William D. Terrell, Chief of the Radio Division, Department of Commerce.
Rear-Admiral John G. Tawresey, Construction Corps, United States Navy (retired), United States Shipping Board.
Mr. Herbert B. Walker, President of the American Steamship Owners' Association.
Mr. Henry G. Smith, President of the National Council of American Shipbuilders.
Captain Charles A. McAllister, President of the American Bureau of Shipping.

The Government of Finland:
Baron Gustaf Wrede, President of the Shipping Board.
Captain Väinö Bergman, Inspector of Shipping.
Consul Karl Kurten, Manager of the Finnish Shipowners' Association.

The Government of France:
Mr. Rio, Senator and former Minister.
Captain Haarbleicher, Naval Construction Corps, Director of Mercantile Shipping Service, Department of Public Works.
Commander Marie, Naval Construction Corps, Direction of Mercantile Shipping.
Captain Thouroude, Naval Attaché to the French Embassy in London.

The Government of the United Kingdom of Great Britain and Northern Ireland:
Sir Herbert W. Richmond, Vice-Admiral, Royal Navy.
Sir Westcott Abell, Professor of Naval Architecture, Armstrong College, Newcastle-on-Tyne.
Mr. A. L. Ayre, Vice-President of the Shipbuilding Employers' Federation.
Captain F. W. Bate, Professional Officer, Mercantile Marine Department, Board of Trade.
Mr. C. H. Boyd, Mercantile Marine Department, Board of Trade.
Sir William C. Currie, President of the Chamber of Shipping of the United Kingdom.
Mr. A. J. Daniel, Principal Ship Surveyor, Board of Trade.
Sir Norman Hill, Chairman of the Merchant Shipping Advisory Committee.
Sir Charles Hipwood, Principal Assistant Secretary, Mercantile Marine Department, Board of Trade.
Captain A. R. H. Morrell, Trinity House.

The Government of India:
Sir Geoffrey L. Corbett, Commerce Department, Government of India.
Captain E. V. Whish, Port Officer, Bombay.
Mr. M. A. Master, General Manager of the Scindia Steam Navigation Company.

The Government of Italy:
Lieut.-General of Port G. Ingianni, General Director of the Mercantile Marine.
Vice-Admiral A. Alessio, Chief of the Technical Inspectorate of the Mercantile Marine.
Count D. Rogeri di Villanova, Counsellor to the Italian Embassy in London.
Dr. T. C. Giannini, Counsellor of Emigration.
Major-General of Port F. Marena, Vice-Inspector of Harbour Master Offices.
Engineer-General E. Ferretti, Chief of the Technical Office of the Italian Naval and Aeronautical Register.
Mr. G. Gneme, Chief of the Telegraph Service of the General Direction of Postal and Telegraphic Services.
Commander L. Biancheri, Royal Italian Navy.

The Government of Japan:
Mr. Yukio Yamamoto, Inspector-General of the Mercantile Marine Bureau, Expert in the Department of Communications.
Captain Shichihei Ota, Imperial Japanese Navy.
Mr. Itaro Ishii, First Class Secretary of Embassy.

The Government of Norway:
Mr. B. Vogt, Norwegian Minister in London.
Mr. L. T. Hansen, Director of the Department of Shipping, Ministry of Commerce and Navigation.
Mr. J. Schönheyder, Surveyor-in-Chief of the Ship and Engineer Division, Ministry of Commerce and Navigation.
Mr. Arth H. Mathiesen, Vice-President of the Norwegian Shipowners' Association.
Captain N. Marstrander, Chairman of the Board of the Norwegian Masters' Association.
Mr. A. Birkeland, Manager of the Norwegian Seamen's and Firemen's Union.

The Government of the Netherlands:
Vice-Admiral C. Fock, Inspector-General of Navigation.
Mr. C. H. de Goeje, Ex-Inspector-General of Navigation, Netherland East Indies.
Mr. A. van Driel, Adviser on Naval Architecture, Shipping Inspection Service.
Mr. J. A. Bland van den Berg, Inspector of Coastal and Ships' Radiotelegraphy.
Mr. Phs. van Ommeren, Junior, Chairman. of Phs. van Ommeren, Ltd.
Mr. H. G. J. Uilkens, Ex-Commodore of the Netherland Steamship Company.

The Government of Sweden:
Baron Palmstierna, Swedish Minister in London.
Mr. Nils Gustaf Nilsson, Assistant Under-Secretary in the Board of Trade.
Captain Erik Axel Fredrik Eggert, Maritime Expert to the Social Board.

The Government of the Union of Socialist Soviet Republics:
Mr. Jan Lvovitch Arens, Counsellor to the U. S. S. R. Embassy in Paris.
Captain Karl Pavlovitch Eggi, Commander of the Icebreaker "Lenin," Soviet Merchant Fleet (Sovtorgflot).

Who, having communicated their full powers, found in good and due form, have agreed as follows:

CHAPTER I.—PRELIMINARY

ARTICLE 1

The Contracting Governments undertake to give effect to the provisions of the present Convention for the purpose of promoting safety of life at sea, to promulgate all regulations and to take all other steps which may be necessary to give the present Convention full and complete effect.

The provisions of the present Convention are completed by Regulations contained in Annex I, which have the same force and take effect at the same time as the present Convention. Every reference to the present Convention implies at the same time a reference to the Regulations annexed thereto.

ARTICLE 2

Applications and Definitions

1. The provisions of the present Convention shall apply to ships belonging to countries the Governments of which are Contracting Governments, and to ships belonging to territories to which the present Convention is applied under Article 62, as follows:

Chapter II.—(*Construction*), to passenger ships (mechanically propelled) on international voyages.
Chapter III.—(*Life-saving Appliances*), to passenger ships (mechanically propelled) on international voyages.
Chapter IV.—(*Radiotelegraphy*), to all ships engaged on international voyages except cargo ships of less than 1,600 tons gross tonnage.
Chapter V.—(*Safety of Navigation*), to all ships on all voyages.
Chapter VI.—(*Certificates*), to all the ships to which Chapters II, III and IV apply.

2. The classes of ships to which each chapter applies are more precisely defined, and the extent of the application is shown, in each chapter.

3. In the present Convention, unless expressly provided otherwise—

(*a*) a ship is regarded as belonging to a country if it is registered at a port of that country;

(*b*) the expression "Administration" means the Government of the country in which the ship is registered;

(*c*) an international voyage is a voyage from a country to which the present Convention applies to a port outside such country, or conversely; and for this purpose every colony, overseas territory, protectorate or territory under suzerainty or mandate is regarded as a separate country;

(*d*) a ship is a passenger ship if it carries more than 12 passengers;

(*e*) the expression "Regulations" means the Regulations contained in Annex I.

4. The present Convention, unless expressly provided otherwise, does not apply to ships of war.

ARTICLE 3

Cases of Force Majeure

No ship, which is not subject to the provisions of the present Convention at the time of its departure on any voyage, shall become subject to the provisions of the present Convention on account of any deviation from its intended voyage due to stress of weather or any other cause of *force majeure*.

Persons who are on board a ship by reason of *force majeure* or in consequence of the obligation laid upon the master to carry shipwrecked or other persons shall not be taken into account for the purpose of ascertaining the application to a ship of any provisions of the present Convention.

CHAPTER II.—CONSTRUCTION

ARTICLE 4

Application

1. This chapter, except where it is otherwise expressly provided, applies to new passenger ships engaged on international voyages.

2. A new passenger ship is a ship the keel of which is laid on or after the 1st July, 1931, or a ship which is converted to passenger service on or after that date, all other passenger ships being described as existing passenger ships.

3. Each Administration may, if it considers that the route and the conditions of the voyage are such as to render the application of the requirements of this chapter unreasonable or unnecessary, exempt from the requirements of this chapter individual ships or classes of ships belonging to its country which, in the course of their voyage, do not proceed more than 20 miles from the nearest land.

4. In the case of a passenger ship which, in the course of its voyage, does not proceed more than 200 miles from the nearest land, the Administration of the country to which the ship belongs may allow relaxations from such of the requirements of Regulations IX, X, XV, and XIX as may be proved to the satisfaction of the Administration to be neither reasonable nor practicable.

5. In the case of existing passenger ships engaged on international voyages which do not already comply with the provisions of this chapter relating to new passenger ships, the arrangements on each ship shall be considered by the Administration of the country to which the ship belongs, with a view to improvements being made to provide increased safety where practicable and reasonable.

6. In the case of passenger ships engaged on international voyages which are employed in the carriage of large numbers of unberthed passengers in special trades, such, for example, as the pilgrim trade, an Administration, if satisfied that it is impracticable to enforce compliance with the requirements of this chapter, may exempt such ships, when they belong to its country, from those requirements on the following conditions:

(*a*) That the fullest provision which the circumstances of the trade will permit shall be made in the matter of construction.

(*b*) That steps shall be taken to formulate general rules which shall be applicable to the particular circumstances of these trades. Such rules shall be formulated in concert with such other Contracting Governments, if any, as may be directly interested in the carriage of such passengers.

7. This chapter does not apply to ships which are not mechanically propelled or to wooden ships of primitive build, such as dhows, junks, &c.

ARTICLE 5

Watertight Subdivision of Ships

1. Ships shall be as efficiently subdivided as is possible having regard to the nature of the service for which they are intended. The requirements respecting subdivision are given in the following articles and in the Regulations.

2. The degree of subdivision provided for by these requirements varies with the length of the ship and with the service, in such manner that the highest degree of subdivision corresponds with the ships of greatest length primarily engaged in the carriage of passengers.

3. Regulations I to V indicate the method to be followed in order to determine the degree of subdivision applicable to a ship.

4. In order that the required degree of subdivision shall be maintained, a loadline corresponding to the approved subdivision draft shall be assigned and marked on the ship's sides. A ship having spaces which are specially adapted for the accommodation of passengers and the carriage of cargo alternatively may, if the owners desire, have one or more additional loadlines assigned and marked to correspond with the subdivision drafts which the Administration may approve for the alternative service conditions.

The freeboard corresponding to each approved subdivision loadline, and the conditions of service for which it is approved, shall be clearly indicated on the Safety Certificate. Subdivision loadline shall be marked and recorded in the manner provided in Regulation VII.

ARTICLE 6

Peak and Machinery Space Bulkheads, Shaft Tunnels, &c.

All ships shall be fitted with watertight forward and after peak bulkheads and with watertight bulkheads at the extremities of the machinery space, and, in screw ships, with watertight shaft tunnels or equivalent subdivision in accordance with the provisions of Regulation VI.

ARTICLE 7

Construction, Testing, &c.

Regulations VIII to XIII and XV to XXI prescribe rules for—

(*a*) the construction and testing of subdivision bulkheads, inner bottoms, watertight decks, trunks, ventilators, fire-resisting bulkheads, &c.;

(*b*) the conditions governing openings in bulkheads, in the ship's sides and in the weather deck, and the character and use of means which shall be provided for closing these openings;

(*c*) the tests and the periodical inspections and operation of the means of closing openings in bulkheads and in the ship's side;

(*d*) exits from watertight compartments;

(*e*) pumping arrangements; and

(*f*) power for going astern and auxiliary steering apparatus.

ARTICLE 8

Stability Test

Every new passenger ship shall be inclined upon its completion and the elements of its stability determined. The operating personnel shall be supplied with such information on this subject as is necessary to permit efficient handling of the ship.

ARTICLE 9

Entries in the Official Log Book

A record of the closing and opening of watertight doors, &c., and of all inspections and drills, shall be entered in the official log book as required by Regulation XIV.

ARTICLE 10

Initial and Subsequent Surveys of Ships

The general principles which shall govern the survey of ships, whether new or existing, as regards hull, main and auxiliary boilers and machinery, and equipments, are stated in Regulation XXII. Each Contracting Government undertakes—

(1) to draw up detailed regulations in accordance with these general principles, or to bring its existing regulations into agreement with these principles;

(2) to secure that these regulations shall be enforced.

The detailed regulations referred to in the preceding paragraph shall be in all respects such as to secure that, from the point of view of safety of life, the ship is fit for the service for which it is intended.

CHAPTER III.—LIFE-SAVING APPLIANCES, &c.

ARTICLE 11

Interpretation

For the purposes of this chapter—

(*a*) the expression "new ship" means a ship the keel of which is laid on or after the 1st July, 1931, all other ships being described as "existing ships";

(*b*) the expression "short international voyage" means an international voyage in the course of which a ship is not more than 200 miles from the nearest land;

(*c*) the expression "buoyant apparatus" means buoyant deck seats, or buoyant deck chairs, or any other buoyant apparatus

ARTICLE 12

Application

1. This chapter, except where it is otherwise expressly provided, applies to new passenger ships which are mechanically propelled and engaged on international voyages.

2. Special provisions are laid down in Articles 13, 14, 19 and 25 with regard to new passenger ships engaged on short international voyages.

3. Each Administration, if it considers that the route and the conditions of the voyage are such as to render the application of the full requirements of this chapter unreasonable or unnecessary, may to that extent exempt from the requirements of this chapter individual ships or classes of ships belonging to its country which, in the course of their voyage, do not go more than 20 miles from the nearest land.

4. In the case of existing passenger ships which are mechanically propelled and engaged on international voyages and which do not already comply with the provisions of this chapter relating to new passenger ships, the arrangements on each ship shall be considered by the Administration of the country to which the ship belongs, with a view to securing, so far as this is practicable and reasonable, compliance with the general principles set out in Article 13 not later than the 1st July, 1931, and substantial compliance with the other requirements of this chapter.

5. In the case of passenger ships which are mechanically propelled and engaged on international voyages and which are employed in the carriage of large numbers of unberthed passengers in special trades, such, for example, as the pilgrim trade, an Administration, if satisfied that it is impracticable to enforce compliance with the requirements of this chapter, may exempt such ships, when they belong to its country, from those requirements on the following conditions:

(*a*) That the fullest provision which the circumstances of the trade will permit shall be made in the matter of lifeboats and other life-saving appliances and fire protection.

(*b*) That all such boats and apparatus shall be readily available within the meaning of Article 13.

(*c*) That a life-jacket shall be provided for every person on board.

(*d*) That steps shall be taken to formulate general rules which shall be applicable to the particular circumstances of these trades. Such rules shall be formulated in concert with such other Contracting Governments, if any, as may be directly interested in the carriage of such passengers.

ARTICLE 13

Lifeboats and buoyant apparatus

The general principles governing the provision of lifeboats and buoyant apparatus in a ship to which this chapter applies are that they shall be readily available in case of emergency and shall be adequate.

1. To be readily available, the lifeboats and buoyant apparatus must comply with the following conditions:

(a) They must be capable of being got into the water safely and rapidly even under unfavorable conditions of list and trim.

(b) It must be possible to embark the passengers in the boats rapidly and in good order.

(c) The arrangement of each boat and article of buoyant apparatus must be such that it will not interfere with the operation of other boats and buoyant apparatus.

2. To be adequate, the provision of lifeboats and buoyant apparatus must satisfy the following conditions:

(a) Subject to the provisions of subparagraph (b) of this paragraph there must be accommodation in boats for all persons on board, and there must, in addition, be buoyant apparatus for 25 percent of the persons on board.

(b) In the case of passenger ships engaged on short international voyages the boats must be provided in accordance with the requirements set out in the table in Regulation XXXIX, and there must be, in addition, buoyant apparatus so that the boats and buoyant apparatus together provide accommodations for all on board as set out in Regulation XXXVIII. There must, in addition, be buoyant apparatus for 10 percent of the persons on board.

(c) No more boats shall be required on any passenger ship than are sufficient to accommodate all persons on board.

ARTICLE 14

Ready availability and adequacy

The arrangements for securing the principles of ready availability and adequacy mentioned in article 13 shall be in accordance with the provisions of Regulations XXXVII, XXXVIII, and XXXIX.

ARTICLE 15

Standard Types of Boats—Life Rafts—Buoyant Apparatus

All the lifeboats, life rafts and buoyant apparatus shall comply with the conditions fixed by this Convention and Regulations XXIV to XXIX.

ARTICLE 16

Construction of Boats

All boats must be properly constructed, and shall be of such form and proportion that they shall have ample stability in a seaway, and sufficient freeboard when loaded with their full complement of persons and equipment.

Each boat must be of sufficient strength to enable it to be safely lowered into the water when loaded with its full complement of persons and equipment.

ARTICLE 17

Embarkation of the Passengers in the Boats

Suitable arrangements shall be made for embarking the passengers in the boats at an embarkation deck. There shall also be a suitable ladder provided at each set of davits.

ARTICLE 18

Capacity of Boats and Life Rafts

The number of persons that a boat of one of the standard types or an approved life raft or buoyant apparatus can accommodate and the conditions of approval of life rafts and buoyant apparatus shall be ascertained in accordance with the provisions of Regulations XXX to XXXV inclusive.

ARTICLE 19

Equipment of Boats and Life Rafts

Regulation XXXVI prescribes the equipment for boats and life rafts.

ARTICLE 20

Life-jackets and Life-buoys

1. Every ship to which this chapter applies shall carry for every person on board a life-jacket of a type approved by the Administration, and in addition, unless these life-jackets can be adapted for use by children, a sufficient number of life-jackets suitable for children.

2. Every such ship shall also carry life-buoys of a type approved as aforesaid to the number required by Regulation XL.

3. A life-jacket or life-buoy shall not be approved by an Administration unless it satisfies the requirements of Regulation XL applicable to life-jackets and life-buoys respectively.

4. In this article the expression "life-jacket" includes any appliance capable of being fitted on the body, having the same buoyancy as a life-jacket.

ARTICLE 21

Means of Ingress and Egress—Emergency Lighting

1. Proper arrangements shall be made for ingress to and egress from the different compartments, decks, &c.

2. Provision shall be made for an electric or other system of lighting, sufficient for all requirements of safety, in the different parts of the ship, and particularly upon the decks on which the lifeboats are stowed. On ships in which the boat deck is more than 9.15 metres (30 feet) above the waterline at the lightest seagoing draught, provision shall be made for the illumination from the ship of the lifeboats when alongside and in process of or immediately after being launched. There must be a self-contained source capable of supplying, when necessary, this safety lighting system, and placed in the upper parts of the ship above the bulkhead deck.

3. The exit from every main compartment occupied by passengers or crew shall be continuously lighted by an emergency lamp. The power for these emergency lamps shall be so arranged that they will be supplied from the independent installation referred to in the preceding paragraph in the event of failure of the main generating plant.

ARTICLE 22

Certificated Lifeboatmen—Manning of the Boats

1. In every ship to which this chapter applies there must be, for any boat or life raft carried in order to comply with this chapter, such number of certificated lifeboatmen as is required by Regulation XLI for that boat.

2. The allocation of the certificated lifeboatmen to each boat and life raft remains within the discretion of the master, according to the circumstances.

3. By "certificated lifeboatman" is meant any member of the crew who holds a certificate of efficiency issued under the authority of the Administration in accordance with the conditions laid down in the afore-mentioned Regulation.

4. The manning of the boats shall be as prescribed in Regulation XLII.

ARTICLE 23

Line-throwing Appliances

Every ship to which this chapter applies shall carry a line-throwing appliance of a type approved by the Administration.

ARTICLE 24

Dangerous Goods—Fire Protection

1. The carriage, either as cargo or ballast, of goods which by reason of their nature, quantity, or mode of stowage, are, either singly or collectively, liable to endanger the lives of the passengers or the safety of the ship, is forbidden.

This provision does not apply to the ship's distress signals, nor to the carriage of naval or military stores for the public service of the States under conditions authorised by the Administration.

Each Administration shall, from time to time by official notice, determine what goods are to be considered dangerous goods, and shall indicate the precautions which must be taken in the packing and stowage thereof.

2. The arrangements to be made for the detection and extinction of fire shall be as prescribed in Regulation XLIII.

ARTICLE 25

Muster Roll and Drills

Special duties for the event of an emergency shall be allotted to each member of the crew.

The muster list shall show all these special duties and shall indicate, in particular, the station to which each man must go, and the duties that he has to perform.

Before the vessel sails, the muster list shall be drawn up and exhibited,[1] and the proper authority shall be satisfied that the muster list has been prepared for the ship. It shall be posted in several parts of the ship, and in particular in the crew's quarters.

Regulations XLIV and XLV prescribe the conditions under which musters of the crew and drills shall take place.

CHAPTER IV.—RADIOTELEGRAPHY

ARTICLE 26

Application and Definition

1. This chapter applies to all ships engaged on international voyages except cargo ships of less than 1,600 tons gross tonnage.

2. For the purposes of this chapter a cargo ship means any ship not being a passenger ship.

ARTICLE 27

Fitting of Radio Installation

1. All ships to which this chapter applies shall, unless exempted under Article 28, be fitted with a radiotelegraph installation complying with the provisions of Article 31, as follows:

(*a*) All passenger ships, irrespective of size.

(*b*) All cargo ships of 1,600 tons gross tonnage and upwards.

2. Each Administration may delay the application of the provisions of paragraph (1) (*b*) to cargo ships belonging to its country of less than 2,000 tons gross tonnage for a period not exceeding five years from the date of the coming into force of the present Convention.

ARTICLE 28

Exemptions from the Requirements of Article 27

1. Each Administration may, if it considers that the route and the conditions of the voyage are such as to render a radiotelegraph installation unreasonable or unnecessary, exempt ships belonging to its country from the requirements of Article 27 as follows:

I.—*Passenger Ships.*

(*a*) Individual passenger ships or classes of passenger ships which, in the course of their voyage, do not go more than—

(i) 20 miles from the nearest land;

or

(ii) 200 miles in the open sea between two consecutive ports.

(*b*) Passenger ships which make voyages entirely within the restricted areas specified in the Annex to this article.

II.—*Cargo Ships.*

Individual cargo ships or classes of cargo ships which, in the course of their voyage, do not go more than 150 miles from the nearest land.

2. Each Administration may, in addition, exempt ships belonging to its country of the following classes:

I.—Barges in tow and existing sailing ships.

An existing sailing ship is one the keel of which is laid before the 1st July, 1931.

II.—Ships of primitive build, such as dhows, junks, &c., if it is practically impossible to fit them with a radiotelegraph installation.

III.—Ships which are not normally engaged on international voyages, but which in exceptional circumstances are required to undertake a single voyage of that kind.

Annex to Article 28

1. The Baltic Sea and approaches thereto East of a line drawn from Utsire (Norway) in the North to Texel (Netherlands) in the South, outside the territorial jurisdiction of the Union of Socialist Soviet Republics.

2. The portions of the Gulf of Tartary and the Sea of Okhotsk covered in voyages between ports in Hokkaido and ports in Japanese Sakhalin.

3. The Chosen (Tyosen) Strait between a line in the North drawn from Kawajiri Misaki (Cape Natsungu) to Fusan, and a line in the South drawn from Nagasaki to Giffard Island (off the South-West point of Quelpart Island) and thence to Tin to (Amherst Island).

4. The Yellow Sea North of Parallel 37° North.

5. The Formosa Strait between a line in the North drawn from Fuki Kaku (Syauki Point) to Foochow and a line in the South drawn from South Cape (the South point of Formosa) to Hong Kong.

6. The area within the following limits:

Parallel 10° N. from long. 94° E. to the coast of Asia, coast of Asia to Saigon (Cape Tiwan), straight lines between Cape Tiwan, lat. 4° 30′ N. long 110° E., south point of Palawan Island, Palmas (Miangas) Island, lat. 0° long. 140° E., lat. 0° long. 148° E., lat 10° S. long. 148° E., Cape York, north coast of Australia from Cape York to Port Darwin (Cape Charles), straight lines between Cape Charles, Ashmore Reef (East Island), lat. 10° S. long. 109° E., Christmas Island, lat. 2° N. long. 94° E., lat. 10° N. long. 94° E., outside the territorial jurisdiction of Australia and of the United States of America.

7. The Caribbean Sea, outside the territorial jurisdiction of the United States of America, in relation to voyages made by sailing ships only.

8. The area of the South Pacific Ocean bounded by the Equator, Meridian 130° W., Parallel 34° S., and the coast of Australia, outside the territorial jurisdiction of Australia.

9. The Tong King Gulf and portions of the China Sea lying to the West of a line drawn from Hong Kong to Lat. 17° N. Long. 110° E., thence due South to Latitude 10° N., and thence West to Saigon.

10. The portions of the Indian Ocean covered in voyages between ports in Madagascar, Reunion and the Mauritius Islands.

11. The portions of the North Atlantic Ocean and Mediterranean Sea covered in voyages between Casablanca (Morocco) and Oran (Algeria) and intermediate ports.

ARTICLE 29

Watches

1. *Passenger Ships.*

Each passenger ship which, in accordance with Article 27, is required to be fitted with a radiotelegraph installation, shall, for safety purposes, carry a qualified operator, and, if not fitted with an auto-alarm, shall, whilst at sea, keep watches by means of a qualified operator or a certified watcher, as under:

(*a*) All passenger ships under 3,000 tons gross tonnage, as determined by the Administration concerned;

(*b*) All passenger ships of 3,000 tons gross tonnage and over, continuous watch.

Each Administration is authorized to exempt passenger ships belonging to its country from 3,000 tons to 5,500 tons gross tonnage, both included, from the requirement of a continuous watch for a period not exceeding one year from the date of the coming

[1] The French text has "mis à jour," the English equivalent of which is "brought up to date." [Note by the Department of State.]

into force of the present Convention, provided that during the period of such exemption they shall maintain a watch of at least 8 hours per day.

2. *Cargo Ships.*

Each cargo ship which, in accordance with Article 27, is required to be fitted with a radiotelegraph installation, shall, for safety purposes, carry a qualified operator, and, if not fitted with an auto-alarm, shall, whilst at sea, keep watches by means of a qualified operator or a certified watcher, as under:

(*a*) All cargo ships under 3,000 tons gross tonnage, as determined by the Administration concerned;

(*b*) Cargo ships from 3,000 to 5,500 tons gross tonnage, both included, at least 8 hours' watch per day;

(*c*) Cargo ships over 5,500 tons gross tonnage, continuous watch.

Each Administration is authorized to exempt ships belonging to its country included in (*c*) above from the requirements of a continuous watch for a period not exceeding one year from the date of the coming into force of the present Convention, provided that during the period of such exemption they shall maintain a watch of at least 8 hours per day.

Each Administration is also authorised to exempt ships belonging to its country from 5,500 tons to 8,000 tons gross tonnage from the requirement of a continuous watch for a further period of one year, provided that during this further period of exemption they shall maintain a watch of at least 16 hours per day.

3. On all ships fitted with an auto-alarm this auto-alarm shall, whilst the ship is at sea, always be in operation when the operator or watcher is not on watch.

On ships for which the hours of watch are to be determined by the Administration concerned, such watch should be maintained preferably at hours prescribed for radiotelegraph service by the International Radiotelegraph Convention in force.

On ships which are required to keep 8 hours' or 16 hours' watch per day, such watch shall be maintained at the hours prescribed for radiotelegraph service by the International Radiotelegraph Convention in force.

4. By *auto-alarm* is meant an automatic alarm receiver which complies with the requirements of Article 19, § 21, of the General Regulations annexed to the International Radiotelegraph Convention, 1927.

5. By *qualified operator* is meant a person holding a certificate complying with the provisions of the General Regulations annexed to the International Radiotelegraph Convention in force.

6. By *certified watcher* is meant any person holding a watcher's certificate issued under the authority of the Administration.

ARTICLE 30

Watchers

1. A watcher's certificate shall not be granted by a Contracting Government unless the applicant proves that he is capable—

(*a*) of receiving and understanding the alarm, distress, safety and urgency signals when these signals occur among a series of other signals;

(*b*) of correct reception by ear of code groups (mixed letters, figures and punctuation marks) at a speed of sixteen groups per minute, each group being composed of five characters and each figure or punctuation mark counting as two characters;

(*c*) of regulating the receivers used in the ship's radiotelegraph installation.

2. The Contracting Governments undertake to take steps to ensure that certified watchers observe the secrecy of correspondence.

ARTICLE 31

Technical Requirements

The radiotelegraph installations required by Article 27 above and the direction-finding apparatus required by Article 47 shall comply with the following requirements:

1. The ship's station must be placed in accordance with the detailed Regulations of the Government of the country to which the ship belongs, in the upper part of the ship in a position of the greatest possible safety, as high as practicable above the deepest load water line.

2. There shall be provided, between the bridge of the ship and the wireless telegraph room, means of communication either by voice pipe or by telephone or in some other manner equally efficient.

3. A reliable clock with a seconds hand must be provided in the wireless telegraph room.

4. A reliable emergency light must be provided in the wireless telegraph room.

5. The installation shall comprise a main installation and an emergency (reserve) installation. If, however, the main installation complies with all the requirements of an emergency (reserve) installation the latter is not then obligatory.

6. The main and emergency (reserve) installations must be capable of transmitting and receiving on the frequencies (wave lengths) and types of waves assigned by the International Radiotelegraph Convention in force for the purpose of distress and safety of navigation to ships compulsorily fitted with radiotelegraph installations in accordance with the present Convention.

7. The main and emergency (reserve) transmitters shall have a note frequency of at least 100.

8. The main transmitter shall have a *normal range* of 100 nautical miles, that is to say, it must be capable of transmitting clearly perceptible signals from ship to ship over a range of at least 100 nautical miles by day under normal conditions and circumstances, the receiver being assumed to be one employing a rectifier of the crystal type without amplification.[1]

9. Sufficient power must be available in a ship station at all times to operate the main radiotelegraph installation efficiently under normal conditions over the above range.

10. All parts of the emergency (reserve) installation shall be placed in the upper part of the ship, in a position of the greatest possible safety, as high above the deepest load water line as practicable. The emergency (reserve) installation must be provided with a source of energy independent of the propelling power of the ship and of the main electricity system and must be capable of being put into operation rapidly and of working for at least six continuous hours.

For the emergency (reserve) installation, the normal range as defined in paragraph 8 above must be at least 80 nautical miles for ships required to maintain a continuous watch and at least 50 nautical miles for all other ships.[2]

11. The receiving installation must permit of the reception of such of the waves used for the transmission of time signals and meteorological messages as may be considered necessary by the Administration.

12. The receiver must be so arranged as to be capable of maintaining reception by means of a rectifier of the crystal type.

13. In ships in which watch is kept by means of an automatic alarm receiver a means of giving audible warning shall be provided in the wireless telegraph room, in the wireless operator's cabin, and on the bridge, which shall operate continuously after the receiver has been operated by the alarm signal or distress call until stopped. Only one switch for stopping the warning shall be provided and this shall be situated in the wireless telegraph room.

14. In such ships the wireless operator, when going off watch, shall connect the automatic alarm receiver to the aerial and test its efficiency. He shall report to the master or the officer on watch on the bridge whether it is in working order.

15. Whilst the ship is at sea the emergency source of power shall be maintained at its full efficiency and the automatic alarm receiver shall be tested at least once every 24 hours. A statement that both these requirements have been fulfilled must be inserted in the ship's official log daily.

16. A wireless log shall be carried by every ship compulsorily equipped with wireless transmitting apparatus. This document shall be kept in the wireless telegraph room, and in it shall be inserted the names of the operators and watchers as well as all incidents and occurrences connected with the wireless service which may appear to be of importance to safety of life at sea, and in particular all distress messages and distress traffic in full.

17. The direction-finding apparatus required by Article 47 shall be efficient and capable of receiving clearly perceptible signals and of taking bearings from which the true bearing and direction may be determined. It shall be capable of receiving signals on the frequencies prescribed for distress, direction finding and wireless telegraph beacons by the International Radiotelegraph Convention in force.

Efficient communication shall be provided between the apparatus and the bridge.

ARTICLE 32

Competence

The matters governed by the International Radiotelegraph Convention, Washington, 1927, and the regulations annexed thereto remain, and will continue, subject to the provisions:

(1) Of that convention and of the regulations annexed thereto, and of any convention and regulations which may in the future be substituted therefor;

(2) Of the present Convention in regard to all the points in which it supplements the aforementioned documents.

CHAPTER V.—SAFETY OF NAVIGATION

ARTICLE 33

Application

The provisions of this chapter referring to ships, unless otherwise expressly provided, apply to all ships on all voyages.

ARTICLE 34

Danger Messages

The master of every ship which meets with dangerous ice, a dangerous derelict, a dangerous tropical storm or any other direct danger to navigation is bound to communicate the information,

---

[1] Unless a more precise and practical method is available to determine the range of transmitters it is recommended that, as a guide, the following relations between the range in nautical miles (from ship to ship under normal conditions in daytime) and the power of the ship transmitter in metre ampères for 500 kilocycles per second (600 m) be used:

100 nautical miles	60 M A
80 nautical miles	45 M A
50 nautical miles	25 M A

M being the actual height in metres of the aerial from its highest point to the load line.

A being the current in amperes measured at the base of the aerial in case of B, or fully modulated A 2, transmitters.

[2] See note above.

by all the means of communication at his disposal, to the ships in the vicinity, and also to the competent authorities at the first point of the coast with which he can communicate. It is desirable that the said information be sent in the manner set out in Regulation XLVI.

Each Administration will take all steps which it thinks necessary to ensure that when intelligence of any of the dangers specified in the previous paragraph is received, it will be promptly brought to the knowledge of those concerned and communicated to other Administrations interested.

The transmission of messages respecting the dangers specified is free of cost to the ships concerned.

ARTICLE 35

Meteorological Services

The Contracting Governments undertake to encourage the collection of meteorological data by ships at sea, and to arrange for their examinations, dissemination and exchange in the manner most suitable for the purpose of aiding navigation.

In particular, the Contracting Governments undertake to cooperate in carrying out, as far as practicable, the following meteorological arrangements:

(*a*) to warn ships of gales, storms, and tropical storms, both by the issue of wireless messages and by the display of appropriate signals at coastal points;

(*b*) to issue daily, by radio, weather bulletins suitable for shipping, containing data of existing weather conditions and forecasts;

(*c*) to arrange for certain selected ships to take meteorological observations at specified hours, and to transmit such observations by wireless telegraphy for the benefit of other ships and of the various official meteorological services; and to provide coast stations for the reception of the messages transmitted;

(*d*) to encourage all ship-masters to inform surrounding ships whenever they experience wind force of 10 or above on the Beaufort scale (force 8 or above on the decimal scale.)

The information provided for in paragraphs (*a*) and (*b*) of this article will be furnished in form for transmission in accordance with Article 31, §§ 1, 3 and 5, and Article 19, § 25, of the General Regulations annexed to the International Radiotelegraph Convention, Washington, 1927, and during transmission "to all stations" of meteorological information, forecasts and warnings, all ship stations must conform to the provisions of Article 31, § 2, of those General Regulations.

Weather observations from ships addressed to national meteorological services will be transmitted with the priority specified in Article 3, Additional Regulations, International Radiotelegraph Convention, Washington, 1927.

Forecasts, warnings, synoptic and other meteorological reports intended for ships shall be issued and disseminated by the national service in the best position to serve various zones and areas, in accordance with mutual arrangements made by the countries concerned.

Every endeavour will be made to obtain a uniform procedure in regard to the international meteorological services specified in this article, and, as far as is practicable, to conform to the recommendations made by the International Meteorological Organization, to which organization the Contracting Governments may refer for study and advice any meteorological questions which may arise in carrying out the present Convention.

ARTICLE 36

Ice Patrol—Derelicts

The Contracting Governments undertake to continue a service of ice patrol and a service for study and observation of ice conditions in the North Atlantic. Further, they undertake to take all practicable steps to ensure the destruction or removal of derelicts in the northern part of the Atlantic Ocean east of the line drawn from Cape Sable to a point in latitude 34° N. longitude 70° W. if this destruction or removal is considered necessary at the time.

The Contracting Governments undertake to provide not more than three vessels for these three services. During the whole of the ice season they shall be employed in guarding the south-eastern, southern and south-western limits of the regions of icebergs in the vicinity of the Great Bank of Newfoundland for the purpose of informing trans-Atlantic and other passing vessels of the extent of this dangerous region; for the observation and study of ice conditions in general; for the destruction or removal of derelicts; and for the purpose of affording assistance to vessels and crews requiring aid within the limits of operation of the patrol vessels.

During the rest of the year the study and observation of ice conditions shall be maintained as advisable, and one vessel shall always be available for the search for, and destruction or removal of derelicts.

ARTICLE 37

Ice Patrol—Management and Cost

The Government of the United States is invited to continue the management of these services of ice patrol, study and observation of ice conditions, and derelict destruction and removal. The Contracting Governments specially interested in these services, whose names are given below, undertake to contribute to the expense of maintaining and operating these services in the following proportions:

	Percent
Belgium	2
Canada	3
Denmark	2
France	6
Germany	10
Great Britain and Northern Ireland	40
Italy	6
Japan	1
Netherlands	5
Norway	3
Spain	1
Sweden	2
Union of Socialist Soviet Republics	1
United States of America	18

Each of the Contracting Governments has the right to discontinue its contribution to the expense of maintaining and operating these services after the 1st September, 1932. Nevertheless, the Contracting Government which avails itself of this right will continue responsible for the expense of working up to the 1st September following the date of giving notice of intention to discontinue its contribution. To take advantage of the said right it must give notice to the other Contracting Governments at least six months before the said 1st September; so that, to be free from this obligation on the 1st September, 1932, it must give notice on the 1st March, 1932, at the latest and similarly for each subsequent year.

If, at any time, the United States Government should not desire to continue these services, or if one of the Contracting Governments should express a wish to relinquish responsibility for the pecuniary contribution defined above, or to have its percentage of obligation altered, the Contracting Governments shall settle the question in accordance with their mutual interests.

The Contracting Governments which contribute to the cost of the three above-mentioned services shall have the right by common consent to make from time to time such alterations in the provisions of this article and of Article 36 as appear desirable.

ARTICLE 38

Speed near Ice

When ice is reported on, or near, his course, the master of every ship at night is bound to proceed at a moderate speed or to alter his course so as to go well clear of the danger zone.

ARTICLE 39

North Atlantic Routes

The practice of following recognised routes across the North Atlantic in both directions has contributed to safety of life at sea, but the working of these routes should be further investigated and studied with a view to the introduction of such variations as experience may show to be necessary.

The selection of the routes and the initiation of action with regard to them is left to the responsibility of the steamship companies concerned. The Contracting Governments will assist the companies, when requested to do so, by placing at their disposal any information bearing on the routes which may be in the possession of the Governments.

The Contracting Governments undertake to impose on the companies the obligation to give public notice of the regular routes which they propose their vessels should follow, and of any changes made in these routes; they will also use their influence to induce the owners of all vessels crossing the Atlantic to follow, so far as circumstances will permit, the recognised routes, and to induce the owners of all vessels crossing the Atlantic bound to or from ports of the United States via the vicinity of the Great Bank of Newfoundland to avoid, as far as practicable, the fishing banks of Newfoundland north of latitude 43° N. during the fishing season, and to pass outside regions known or believed to be endangered by ice.

The Administration managing the ice patrol service is requested to report to the Administration concerned any ship which is observed not to be on any regular, recognised or advertised route, or which crosses the above-mentioned fishing banks during the fishing season, or which, when proceeding to or from ports of the United States, passes through regions known or believed to be endangered by ice.

ARTICLE 40

Collision Regulations

The Contracting Governments agree that the alterations in the International Regulations for Preventing Collisions at Sea shown in Annex II are desirable and ought to be made. The Government of the United Kingdom of Great Britain and Northern Ireland is requested to forward full particulars of the alterations to the other Governments who have accepted the International Regulations for Preventing Collisions at Sea, and ascertain whether they will adopt these alterations; to report the result to the Governments represented at this Conference, and to endeavour to arrange that the revised regulations shall come in force on the 1st July, 1931.

ARTICLE 41

Helm Orders

The Contracting Governments agree that after midnight on the 30th June, 1931, helm or steering orders, i. e., orders to the steersman, shall on all their ships be given in the direct sense, e. g., when the ship is going ahead an order containing the word "starboard" or "right" or any equivalent of "starboard" or "right" shall only be used when it is intended, on ships as at present generally constructed and arranged, that the wheel, the rudder-blade and the head of the ship, shall all move to the right.

ARTICLE 42

Misuse of Distress Signals

The use of an international distress signal, except for the purpose of indicating that a vessel is in distress, and the use of any signal which may be confused with an international distress signal, are prohibited on every ship.

ARTICLE 43

Alarm, Distress and Urgency Signals

The alarm signal and the distress signal may only be used by ships in serious and imminent danger which require immediate assistance. In all other cases in which assistance is required, or in which a vessel desires to issue a warning that it may become necessary to send out the alarm signal or the distress signal at a later stage, use must be made of the urgency signal (XXX) established by the International Radiotelegraph Convention, Washington, 1927.

If a ship has sent out the alarm or distress signal and subsequently finds that assistance is no longer required such ship shall immediately notify all stations concerned as provided for by the Radiotelegraph Convention in force.

ARTICLE 44

Speed of Distress Messages

The speed of transmission of messages in connection with cases of distress, urgency or safety, shall not exceed 16 words per minute.

ARTICLE 45

Distress Messages—Procedure

1. The master of a ship on receiving on his ship a wireless distress signal from any other ship, is bound to proceed with all speed to the assistance of the persons in distress, unless he is unable, or in the special circumstance of the case, considers it unreasonable or unnecessary to do so, or unless he is released under the provisions of paragraphs 3 and 4 of this article.

2. The master of a ship in distress, after consultation, so far as may be possible, with the masters of the ships which answer his call for assistance, has the right to requisition such one or more of those ships as he considers best able to render assistance, and it shall be the duty of the master or masters of the ship or ships requisitioned to comply with the requisition by continuing to proceed with all speed to the assistance of the persons in distress.

3. A master shall be released from the obligation imposed by paragraph 1 of this article as soon as he is informed by the master of the ship requisitioned, or, where more ships than one are requisitioned, all the masters of the ships requisitioned, that he or they are complying with the requisition.

4. A master shall be released from the obligation imposed by paragraph 1 of this article, and, if his ship has been requisitioned, from the obligation imposed by paragraph 2 of this article, if he is informed by a ship which has reached the persons in distress, that assistance is no longer necessary.

5. If a master of a ship, on receiving a wireless distress call from another ship, is unable, or in the special circumstances of the case considers it unreasonable or unnecessary to go to the assistance of that other ship, he must immediately inform the master of that other ship accordingly, and enter in his log book his reasons for failing to proceed to the assistance of the persons in distress.

6. The provisions of this article do not prejudice the International Convention for the unification of certain rules with respect to Assistance and Salvage at Sea, signed at Brussels on the 23rd September, 1910, particularly the obligation to render assistance imposed by Article 11 of that convention.

ARTICLE 46

Signalling Lamp

All ships of over 150 tons gross tonnage, when engaged on international voyages, shall have on board an efficient signalling lamp.

ARTICLE 47

Direction-Finding Apparatus

Every passenger ship of 5,000 tons gross tonnage and upwards shall, within two years from the date on which the present Convention comes in force, be provided with an approved direction-finding apparatus (radio compass), complying with the provisions of Article 31 (17) of the present Convention.

ARTICLE 48

Manning

The Contracting Governments undertake, each for its national ships, to maintain, or, if necessary, to adopt, measures for the purpose of ensuring that, from the point of view of safety of life at sea, all ships shall be sufficiently and efficiently manned.

CHAPTER VI.—CERTIFICATES

ARTICLE 49

Issue of Certificates

A certificate called a *Safety Certificate* shall be issued, after inspection and survey, to every passenger ship which complies in an efficient manner with the requirements of Chapters II, III and IV of the Convention.

A certificate called a *Safety Radiotelegraphy Certificate* shall be issued after inspection to every ship other than a passenger ship which complies in an efficient manner with the requirements of Chapter IV of the present Convention.

A certificate called an *Exemption Certificate* shall be issued to every ship to which exemption is granted by a Contracting Government under, and in accordance with, the provisions of Chapters II, III and IV of the present Convention.

The inspection and survey of ships, so far as regards the enforcement of the provisions of the present Convention and the annexed Regulations applicable to such ships and the granting of exemptions therefrom, shall be carried out by officers of the country in which the ship is registered, provided that the Government of each country may entrust the inspection and survey of its ships either to Surveyors nominated for this purpose or to organisations recognised by it. In every case the Government concerned fully guarantees the completeness and efficiency of the inspection and survey.

A Safety Certificate, Safety Radiotelegraphy Certificate, and Exemption Certificate shall be issued either by the Government of the country in which the ship is registered or by any person or organisation duly authorised by that Government. In every case that Government assumes full responsibility for the certificate.

ARTICLE 50

Issue of Certificate by Another Government

A Contracting Government may, at the request of the Government of a country in which a ship coming under the present Convention is registered, cause that ship to be surveyed, and, if satisfied that the requirements of the present Convention are complied with, issue a Safety Certificate or Safety Radiotelegraphy Certificate to such ship, under its own responsibility. Any certificate so issued must contain a statement to the effect that it has been issued at the request of the Government of the country in which the ship is registered, and it shall have the same force and receive the same recognition as a certificate issued under Article 49 of the present Convention.

ARTICLE 51

Form of Certificates

All certificates shall be drawn up in the official language or languages of the country by which they are issued.

The form of the certificates shall be that of the models given in Regulation XLVII. The arrangement of the printed part of the standard certificates shall be exactly reproduced in the certificates issued, or in certified copies thereof, and the particulars inserted by hand shall in the certificates issued, or in certified copies thereof, be inserted in Roman characters and Arabic figures.

The Contracting Governments undertake to communicate one to another a sufficient number of specimens of their certificates for the information of their officers. This exchange shall be made, so far as possible, before the 1st of January, 1932.

ARTICLE 52

Duration of Certificates

Certificates shall not be issued for a period of more than twelve months.

If a ship at the time when its certificate expires is not in a port of the country in which it is registered the certificate may be extended by a duly authorised officer of the country to which the ship belongs; but such extension shall be granted only for the purpose of allowing the ship to complete its return voyage to its own country, and then only in cases in which it appears proper and reasonable so to do.

No certificate shall be extended for a longer period than five months, and a ship to which such extension is granted shall not, on returning to its own country, be entitled by virtue of such extension to leave that country again without having obtained a new certificate.

ARTICLE 53

Acceptance of Certificates

Certificates issued under the authority of a Contracting Government shall be accepted by the other Contracting Governments for all purposes covered by the present Convention. They shall be regarded by the other Contracting Governments as having the same force as the certificates issued by them to their own ships.

ARTICLE 54

Control

Every ship holding a certificate issued under Article 49 or Article 50 is subject, in the ports of the other Contracting Governments, to control by officers duly authorised by such Governments in so far as this control is directed towards verifying that there is on board a valid certificate, and if necessary, that the conditions of the vessel's seaworthiness correspond substantially with the particulars of that certificate; that is to say, so that the ship can proceed to sea without danger to the passengers and the crew.

In the event of this control giving rise to intervention of any kind, the officer carrying out the control shall forthwith inform

the Consul of the country in which the ship is registered of all the circumstances in which intervention is deemed to be necessary.

ARTICLE 55

Privileges

The privileges of the present Convention may not be claimed in favour of any ship unless it holds a proper valid certificate.

ARTICLE 56

Qualification of Certificate

If in the course of a particular voyage the ship has on board a number of crew and passengers less than the maximum number which the ship is licensed to carry, and is in consequence, in accordance with the provisions of the present Convention, free to carry a smaller number of lifeboats and other life-saving appliances than that stated in the certificate, a memorandum may be issued by the officers or other authorised persons referred to in Articles 49 and 52 above.

This memorandum shall state that in the circumstances there is no infringement of the provisions of the present Convention. It shall be annexed to the certificate and shall be substituted for it in so far as the life-saving appliances are concerned. It shall be valid only for the particular voyage in regard to which it is issued.

CHAPTER VII.—GENERAL PROVISIONS

ARTICLE 57

Equivalents

Where in the present Convention it is provided that a particular fitting, appliance or apparatus, or type thereof, shall be fitted or carried in a ship, or that any particular arrangement shall be adopted, any Administration may accept in substitution therefor any other fitting, appliance or apparatus, or type thereof, or any other arrangement, provided that such Administration shall have been satisfied by suitable trials that the fitting, appliance or apparatus, or type thereof, or the arrangement substituted is at least as effective as that specified in the present Convention.

Any Administration which so accepts a new fitting, appliance or apparatus, or type thereof, or new arrangement, shall communicate the fact to the other Administrations, and, upon request, the particulars thereof, together with a report on the trials made.

ARTICLE 58

Laws, Regulations, Reports

The Contracting Governments undertake to communicate to each other—

(1) the text of laws, decrees and regulations which shall have been promulgated on the various matters within the scope of the present Convention;

(2) all available official reports or official summaries of reports in so far as they show the results of the provisions of the present Convention, provided always that such reports or summaries are not of a confidential nature.

The Government of the United Kingdom of Great Britain and Northern Ireland is invited to serve as an intermediary for collecting all this information and for bringing it to the knowledge of the other Contracting Governments.

ARTICLE 59

Measures Taken after Agreement

Where the present Convention provides that a measure may be taken after agreement between all or some of the Contracting Governments, the Government of the United Kingdom of Great Britain and Northern Ireland is invited to approach the other Contracting Governments with a view to ascertaining whether they accept such proposals as may be made by any Contracting Government for effecting such a measure, and to inform the other Contracting Governments of the results of the enquiries thus made.

ARTICLE 60

Prior Treaties and Conventions

1. The present Convention replaces and abrogates the Convention for the Safety of Life at Sea, which was signed at London on the 20th January, 1914.

2. All other treaties, conventions and arrangements relating to safety of life at sea, or matters appertaining thereto, at present in force between Governments parties to the present Convention, shall continue to have full and complete effect during the terms thereof as regards—

(*a*) ships to which the present Convention does not apply;

(*b*) ships to which the present Convention applies, in respect of subjects for which it has not expressly provided.

To the extent, however, that such treaties, conventions or arrangements conflict with the provisions of the present Convention, the provisions of the present Convention shall prevail.

3. All subjects which are not expressly provided for in the present Convention remain subject to the legislation of the Contracting Governments.

ARTICLE 61

Modifications—Future Conferences

1. Modifications of the present Convention which may be deemed useful or necessary improvements may be at any time proposed by any Contracting Government to the Government of the United Kingdom of Great Britain and Northern Ireland, and such proposals shall be communicated by the latter to all the other Contracting Governments, and if any such modifications are accepted by all the Contracting Governments (including Governments which have deposited ratifications or accessions which have not yet become effective) the present Convention shall be modified accordingly.

2. Conferences for the purpose of revising the present Convention shall be held at such times and places as may be agreed upon by the Contracting Governments.

A Conference for this purpose shall be convoked by the Government of the United Kingdom of Great Britain and Northern Ireland whenever, after the present Convention has been in force for five years, one-third of the Contracting Governments express a desire to that effect.

CHAPTER VIII.—FINAL PROVISIONS

ARTICLE 62

Application to Colonies, &c.

1. A Contracting Government may, at the time of signature, ratification, accession or thereafter, by a declaration in writing addressed to the Government of the United Kingdom of Great Britain and Northern Ireland, declare its desire that the present Convention shall apply to all or any of its colonies, overseas territories, protectorates or territories under suzerainty or mandate, and the present Convention shall apply to all the territories named in such declaration, two months after the date of the receipt thereof, but failing such declaration, the present Convention will not apply to any such territories.

2. A Contracting Government may at any time by a notification in writing addressed to the Government of the United Kingdom of Great Britain and Northern Ireland express its desire that the present Convention shall cease to apply to all or any of its colonies, overseas territories, protectorates or territories under suzerainty or mandate to which the present Convention shall have, under the provisions of the preceding paragraph, been applicable for a period of not less than five years, and in such case the present Convention shall cease to apply one year after the date of the receipt of such notification by the Government of the United Kingdom of Great Britain and Northern Ireland to all territories mentioned therein.

3. The Government of the United Kingdom of Great Britain and Northern Ireland shall inform all the other Contracting Governments of the application of the present Convention to any colony, overseas territory, protectorate or territory under suzerainty or mandate under the provisions of paragraph 1 of this article, and of the cessation of any such application under the provisions of paragraph 2, stating in each case the date from which the present Convention has become or will cease to be applicable.

ARTICLE 63

Authentic Texts—Ratification

The present Convention of which both the English and French texts shall be authentic shall bear this day's date.

The present Convention shall be ratified.

The instruments of ratification shall be deposited in the archives of the Government of the United Kingdom of Great Britain and Northern Ireland which will notify all the other signatory or acceding Governments of all ratifications deposited and the date of their deposit.

ARTICLE 64

Accession

A Government (other than the Government of a territory to which Article 62 applies) on behalf of which the present Convention has not been signed shall be allowed to accede thereto at any time after the Convention has come into force. Accessions may be effected by means of notifications in writing addressed to the Government of the United Kingdom of Great Britain and Northern Ireland, and shall take effect three months after their receipt.

The Government of the United Kingdom of Great Britain and Northern Ireland shall inform all signatory and acceding Governments of all accessions received and of the date of their receipt.

A Government which intends to accede to the present Convention but desires to add an area to those specified in the Annex to Article 28 shall, before notifying its accession, inform the Government of the United Kingdom of Great Britain and Northern Ireland of its desire for communication to all the other Contracting Governments. If all the Contracting Governments signify their assent thereto, the area shall be added to those mentioned in the aforesaid Annex when such Government notifies its accession.

ARTICLE 65

Date of Coming in Force

The present Convention shall come into force on the 1st July, 1931, as between the Governments which have deposited their ratifications by that date, and provided that at least five ratifications have been deposited with the Government of the United Kingdom of Great Britain and Northern Ireland. Should five ratifications not have been deposited on that date, the present Convention shall come into force three months after the date on which the fifth ratification is deposited. Ratifications deposited after the date on which the present Convention has come into force shall take effect three months after the date of their deposit.

ARTICLE 66

Denunciation

The present Convention may be denounced on behalf of any Contacting Government at any time after the expiration of five years from the date on which the Convention comes into force in so far as that Government is concerned. Denunciation shall be

effected by a notification in writing addressed to the Government of the United Kingdom of Great Britain and Northern Ireland, which will notify all the other Contracting Governments of all denunciations received and of the date of their receipt.

A denunciation shall take effect twelve months after the date on which notification thereof is received by the Government of the United Kingdom of Great Britain and Northern Ireland.

In faith whereof, the plenipotentiaries have signed hereafter.

Done at London this thirty-first day of May, 1929, in a single copy, which shall remain deposited in the archives of the Government of the United Kingdom of Great Britain and Northern Ireland, which shall transmit certified true copies thereof to all signatory Governments.

ANNEX I

REGULATIONS

CONSTRUCTION

REGULATION I

Definitions

(1) The *subdivision loadline* is the waterline used in determining the subdivision of the ship.

The *deepest subdivision loadline* is that which corresponds to the greatest draught.

(2) The *length of the ship* is the length measured between perpendiculars taken at the extremities of the deepest subdivision loadline.

(3) The *breadth of the ship* is the extreme width from outside of frame to outside of frame at or below the deepest subdivision loadline.

(4) The *bulkhead deck* is the uppermost deck up to which the transverse watertight bulkheads are carried.

(5) The *margin line* is a line drawn parallel to the bulkhead deck at side and 3 inches (76 millimetres) below the upper surface of that deck at side.

(6) The *draught* is the vertical distance from the top of keel amidships to the subdivision loadline in question.

(7) The *permeability* of a space is the percentage of that space which can be occupied by water.

The volume of a space which extends above the margin line shall be measured only to the height of that line.

(8) The *machinery space* is to be taken as extending from the top of keel to the margin line and between the extreme main transverse watertight bulkheads bounding the spaces devoted to the main and auxiliary propelling machinery, boilers when installed, and all permanent coal bunkers.

(9) *Passenger spaces* are those which are provided for the accommodation and use of passengers, excluding baggage, store, provision and mail rooms.

For the purposes of Regulations III and IV, spaces provided below the margin line for the accommodation and use of the crew shall be regarded as passenger spaces.

(10) In all cases *volumes* shall be calculated to moulded lines.

REGULATION II

Floodable Length

(1) The floodable length at any point of the length of a ship shall be determined by a method of calculation which takes into consideration the form, draught and other characteristics of the ship in question.

(2) In a ship with a continuous bulkhead deck, the floodable length at a given point is the maximum portion of the length of the ship, having its centre at the point in question, which can be flooded under the definite assumptions hereafter set forth in Regulation III without the ship being submerged beyond the margin line.

(3) In the case of a ship not having a continuous bulkhead deck, the floodable length at any point may be determined to an assumed continuous margin line, up to which, having regard to sinkage and trim after damage, the sides of the ship and the bulkheads concerned are carried watertight.

REGULATION III

Permeability

(1) The definite assumptions referred to in Regulation II relate to the permeabilities of the spaces below the margin line.

In determining the floodable length, a uniform average permeability shall be used throughout the whole length of each of the following portions of the ship below the margin line:

(*a*) the machinery space as defined in Regulation I (8);
(*b*) the portion forward of the machinery space; and
(*c*) the portion abaft the machinery space.

(2)—(*a*) For steamships the uniform average permeability throughout the machinery space shall be determined from the formula—

$$80+12.5\left(\frac{a-c}{v}\right), \text{ where}$$

a = volume of the passenger spaces, as defined in Regulation I (9), which are situated below the margin line within the limits of the machinery space.

c = volume of between deck spaces below the margin line within the limits of the machinery space which are appropriated to cargo, coal or stores.

v = whole volume of the machinery space below the margin line.

(*b*) For ships propelled by internal combustion engines, the uniform average permeability shall be taken as 5 greater than that given by the above formula.

(*c*) Where it is shown to the satisfaction of the Administration that the average permeability, as determined by detail calculation, is less than that given by the formula, the calculated value may be substituted. For the purposes of such calculation, the permeabilities of passenger spaces, as defined in Regulation I (9),

shall be taken as 95, that of all cargo, coal and store spaces as 60, and that of double bottom, oil fuel and other tanks at such values as may be approved in each case by the Administration.

(3) The uniform average permeability throughout the portion of the ship before (or abaft) the machinery space shall be determined from the formula—

$$63+35\frac{a}{v}, \text{ where}$$

a=volume of the passenger spaces, as defined in Regulation I (9), which are situated below the margin line, before (or abaft) the machinery space, and

v=whole volume of the portion of the ship below the margin line before (or abaft) the machinery space.

(4) If a between deck compartment between two watertight transverse bulkheads contains any passenger or crew space, the whole of that compartment, less any space completely enclosed within permanent steel bulkheads and appropriated to other purposes, shall be regarded as passenger space. If, however, the passenger or crew space in question is completely enclosed within permanent steel bulkheads, only the space so enclosed need be considered as passenger space.

REGULATION IV

Permissible Length of Compartments

(1) *Factor of Subdivision.*—The maximum permissible length of a compartment having its centre at any point in the ship's length is obtained from the floodable length by multiplying the latter by an appropriate factor called the *factor of subdivision.*

The factor of subdivision shall depend on the length of the ship, and for a given length shall vary according to the nature of the service for which the ship is intended. It shall decrease in a regular and continuous manner—

(*a*) as the length of the ship increases, and

(*b*) from a factor A, applicable to ships primarily engaged in the carriage of cargo, to a factor B, applicable to ships primarily engaged in the carriage of passengers.

The variations of the factors A and B shall be expressed by the following formulæ (i) and (ii) where L is the length of the ship as defined in Regulation I (2):

L in feet	L in meters
$A=\frac{190}{L-198}+.18$ (L=430 and upwards)	$A=\frac{58.2}{L-60}+.18$ (L=131 and upwards) ---------(i)
$B=\frac{100}{L-138}+.18$ (L=260 and upwards)	$B=\frac{30.3}{L-42}+.18$ (L=79 and upwards) ---------(ii)

(2) *Criterion of Service.*—For a ship of given length the appropriate factor of subdivision shall be determined by the Criterion of Service Numeral (hereinafter called the Criterion Numeral) as given by the following formulæ (iii) and (iv) where:

C_s=the Criterion Numeral.

L=length of the ship, as defined in Regulation I (2);

M=the volume of the machinery space, as defined in Regulation I (8); with the addition thereto of the volume of any permanent oil fuel bunkers which may be situated above the inner bottom and before or abaft the machinery space;

P=the whole volume of the passenger spaces below the margin line, as defined in Regulation I (9);

V=the whole volume of the ship below the margin line;

P_1=KN where:

N=number of passengers for which the ship is to be certified, and

K has the following values:

	Value of K
Length in feet and volumes in cubic feet	.6 L
Length in metres and volumes in cubic metres	.056 L

Where the value of KN is greater than the sum of P and the whole volume of the actual passenger spaces above the margin line the lower figure may be taken provided that the value of P_1 used is not less than ⅔ KN.

When P_1 is greater than P

$$C_s=72\frac{M+2P_1}{V+P_1-P} \text{ ---------- (iii)}$$

and in other cases

$$C_s=72\frac{M+2P}{V} \text{ ---------- (iv)}$$

For ships not having a continuous bulkhead deck the volumes are to be taken up to the actual margin lines used in determining the floodable lengths.

(3) *Rules for Subdivision.*—(*a*) *The subdivision abaft the fore peak* of ships 430 feet (131 metres) in length and upwards having a criterion numeral of 23 or less shall be governed by the factor A given by formula (i); of those having a criterion numeral of 123 or more by the factor B given by formula (ii); and of those having a criterion numeral between 23 and 123 by the factor F obtained by linear interpolation between the factors A and B, using the formula:

$$F=A-\frac{(A-B)\ (C_s-23)}{100} \text{ ---------- (v)}$$

Where the factor F is less than .40 and it is shown to the satisfaction of the Administration to be impracticable to comply with the factor F in a machinery compartment of the ship, the subdivision of such compartment may be governed by an increased factor, which, however, shall not exceed .40.

(*b*) *The subdivision abaft the fore peak* of ships less than 430 feet (131 metres) but not less than 260 feet (79 metres) in length having a criterion numeral equal to S, where

$$S=\frac{9382-20L}{34}\text{(L in feet)}=\frac{3574-25L}{13}\text{(L in metres)}$$

shall be governed by the factor unity; of those having a criterion numeral of 123 or more by the factor B given by the formula (ii); of those having a criterion numeral between S and 123 by the factor F obtained by linear interpolation between unity and the factor B, using the formula:

$$F=1-\frac{(1-B)\ (C_s-S)}{123-S} \text{ ---------- (vii)}$$

(*c*) *The subdivision abaft the fore peak* of ships less than 430 feet (131 metres) but not less than 260 feet (79 metres) in length and having a criterion numeral less than S, and of all ships less than 260 feet (79 metres) in length shall be governed by the factor unity, unless it is shown to the satisfaction of the Administration to be impracticable to comply with this factor in any part of the ship, in which case the Administration may allow such relaxation as may appear to be justified, having regard to all the circumstances.

(*d*) The provisions of sub-paragraph (*c*) shall apply also to ships of whatever length, which are to be certified to carry a number of passengers exceeding 12 but not exceeding

$$\frac{L^2 \text{ (in feet)}}{7000}\left(\frac{L^2 \text{ (in metres)}}{650}\right)$$

or 50, whichever is the less.

REGULATION V

Special Rules concerning Subdivision

(1) A compartment may exceed the permissible length determined by the rules of Regulation IV provided the combined length of each pair of adjacent compartments to which the compartments in question is common does not exceed either the floodable length or twice the permissible length, whichever is the less.

If one of the two adjacent compartments is situated inside the machinery space, and the second is situated outside the machinery space, and the average permeability of the portion of the ship in which the second is situated differs from that of the machinery space, the combined length of the two compartments shall be adjusted to the mean average permeability of the two portions of the ship in which the compartments are situated.

Where the two adjacent compartments have different factors of subdivision, the combined length of the two compartments shall be determined proportionately.

(2) In ships 430 feet (131 metres) in length and upwards, one of the main transverse bulkheads abaft the fore peak shall be fitted at a distance from the forward perpendicular which is not greater than the permissible length.

(3) A main transverse bulkhead may be recessed provided that all parts of the recess lie inboard of vertical surfaces on both sides of the ship, situated at a distance from the shell plating equal to one-fifth the breadth of the ship, as defined in Regulation I (3), and measured at right angles to the centre line at the level of the deepest subdivision loadline.

Any part of a recess which lies outside these limits shall be dealt with as a step in accordance with the following paragraph.

(4) A main transverse bulkhead may be stepped provided that—

(*a*) the combined length of the two compartments, separated by the bulkhead in question, does not exceed 90 per cent. of the floodable length, or

(*b*) additional subdivision is provided in way of the step to maintain the same measure of safety as that secured by a plane bulkhead.

(5) Where a main transverse bulkhead is rescessed or stepped, an equivalent plane bulkhead shall be used in determining the subdivision.

(6) If the distance between two adjacent main transverse bulkheads, or their equivalent plane bulkheads, or the distance between the transverse planes passing through the nearest stepped portions of the bulkheads, is less than 10 feet (3.05 metres) plus 2 per cent. of the length of the ship, only one of these bulkheads shall be regarded as forming part of the subdivision of the ship in accordance with the provisions of Regulation IV.

(7) Where a main transverse watertight compartment contains local subdivision and it can be shown to the satisfaction of the Administration that, after any assumed side damage extending over a length of 10 feet (3.05 metres) plus 2 per cent. of the length of the ship, the whole volume of the main compartment will not be flooded, a proportionate allowance may be made in the permissible length otherwise required for such compartment.

In such a case the volume of effective buoyancy assumed on the undamaged side shall not be greater than that assumed on the damaged side.

(8) Where it is proposed to fit watertight decks, inner skins or longitudinal bulkheads, watertight or non-watertight, the Administration shall be satisfied that the safety of the ship will not be diminished in any respect, particularly having in view the possible listing effect of flooding in way of such structural arrangements.

REGULATION VI

Peak and Machinery Space Bulkheads, Shaft Tunnels, &c.

(1) Every ship shall have a forepeak or collision bulkhead, which shall be watertight up to the bulkhead deck. This bulkhead shall be fitted not less than 5 per cent. of the length of the ship, and not more than 10 feet (3.05 metres) plus 5 per cent. of the length of the ship from the forward perpendicular.

If the ship has a long forward superstructure, the forepeak bulkhead shall be extended weathertight to the deck next above the bulkhead deck. The extension need not be fitted directly over the bulkhead below, provided it is at least 5 per cent. of the length of the ship from the forward perpendicular, and the part of the bulkhead deck which forms the step is made effectively weathertight.

(2) An afterpeak bulkhead, and bulkheads dividing the machinery space, as defined in Regulation I (8), from the cargo and passenger spaces forward and aft, shall also be fitted and made watertight up to the bulkhead deck. The afterpeak bulkhead may, however, be stopped below the bulkhead deck, provided the degree of safety of the ship as regards subdivision is not thereby diminished.

(3) In all cases stern tubes shall be enclosed in watertight spaces. The stern gland shall be situated within a watertight shaft tunnel or other space of such volume that if flooded by leakage through the stern gland the margin line will not be submerged.

REGULATION VII

Assigning, Marking and Recording of Subdivision Loadlines

(1) The subdivision loadlines assigned and marked under the provisions of Article 5 of the Convention shall be recorded in the Safety Certificate, and shall be distinguished by the notation C.1 for the principal passenger condition, and C.2, C.3, &c., for the alternative conditions.

(2) The freeboard corresponding to each of these loadlines inserted in the Safety Certificate shall be measured at the same position and from the same deck line as the freeboards determined by recognised national freeboard regulations.

(3) In no case shall any subdivision loadline mark be placed above the deepest loadline in salt water as determined by the strength of the ship and/or recognised national freeboard regulations.

(4) Whatever may be the position of the subdivision loadline marks, a ship shall in no case be loaded so as to submerge the loadline mark appropriate to the season and locality as determined by the recognised national freeboard regulations.

REGULATION VIII

Construction and Initial Testing of Watertight Bulkheads, &c.

(1) Watertight subdivision bulkheads, whether transverse or longitudinal, shall be constructed in such a manner that they shall be capable of supporting with a proper margin of resistance, the pressure due to a head of water up to the margin line in way of each bulkhead. The construction of these bulkheads shall be to the satisfaction of the Administration.

(2) Steps and recesses in bulkheads shall be watertight and as strong as the bulkhead at the place where each occurs.

Where frames or beams pass through a watertight deck or bulkhead, such deck or bulkhead shall be made structurally watertight without the use of wood or cement.

(3) Testing main compartments by filling them with water is not compulsory. A complete examination of the bulkheads shall be made by a surveyor; and, in addition, a hose test shall be made in all cases.

(4) The forepeak shall be tested with water to a head up to the deepest subdivision loadline.

(5) Double bottoms, including duct keels, and inner skins are to be subjected to a head of water up to the margin line.

(6) Tanks which are intended to hold liquids, and which form part of the subdivision of the ship, shall be tested for tightness with water to a head up to the deepest subdivision loadline or to a head corresponding to two-thirds of the depth from the top of keel to the margin line in way of the tanks, whichever is the greater; provided that in no case shall the test head be less than 3 feet (.92 metre) above the top of the tank.

REGULATION IX

Openings in Watertight Bulkheads

(1) The number of openings in watertight bulkheads shall be reduced to the minimum compatible with the design and proper working of the ship; satisfactory means shall be provided for closing these openings.

(2)—(*a*) Where pipes, scuppers, electric-light cables, &c., are carried through watertight subdivision bulkheads, arrangements shall be made to ensure the integrity of the watertightness of the bulkheads.

(*b*) Sluice valves shall not be permitted in the watertight subdivision bulkheads.

(3)—(*a*) No doors, manholes, or access openings are permitted—

(i) in the collision bulkhead below the margin line;

(ii) in watertight transverse bulkheads dividing a cargo space from an adjoining cargo space or from a permanent or reserve bunker, except as provided in paragraph (7).

(*b*) The collision bulkhead may be pierced below the margin line by not more than one pipe for dealing with fluid in the forepeak tank, provided that the pipe is fitted with a screwdown valve capable of being operated from above the bulkhead deck, the valve chest being secured inside the forepeak to the collision bulkhead.

(4)—(*a*) Watertight doors fitted in bulkheads between permanent and reserve bunkers, shall be always accessible, except as provided in sub-paragraph (9) (*b*) for between-decks bunker doors.

(*b*) Satisfactory arrangements shall be made by means of screens or otherwise, to prevent the coal from interfering with the closing of watertight bunker doors.

(5) Within the machinery space and apart from bunker and shaft tunnel doors, not more than one door may be fitted in each main transverse bulkhead for intercommunication. These doors shall be located so as to have the sills as high as practicable.

(6)—(*a*) The only types of watertight doors permissible are hinged doors, sliding doors, and doors of other equivalent patterns, excluding plate doors secured only by bolts.

(*b*) A hinged door shall be fitted with catches workable from each side of the bulkhead.

(*c*) A sliding door may have a horizontal or vertical motion. If required to be hand operated only, the gearing shall be capable of being worked at the door itself and also at an accessible position above the bulkhead deck.

(*d*) If a door is required to be closed by dropping or by the action of a dropping weight, it shall be fitted with a suitable arrangement to regulate the closing movement, and the gearing shall be so arranged that the door can be released both at the door itself and at an accessible position above the bulkhead deck. Hand gear shall also be provided, so arranged as to operate at the door itself and above the bulkhead deck, and also, so that after being disengaged for dropping, it can be quickly re-engaged from either the upper or the lower position.

(*e*) If a door is required to be power operated from a central control, the gearing shall be so arranged that the door can be operated by power also at the door itself. The arrangements shall be such that the door will close automatically if opened by the local control after being closed from the central control, and also such that any door can be kept closed by local arrangements, which will prevent that door from being opened from the central control. Such power-operated doors shall be provided with hand gear, workable both at the door itself and from an accessible position above the bulkhead deck.

(*f*) In all classes of doors indicators shall be fitted at all operating stations other than at the door itself, showing whether the door is opened or closed.

(7)—(*a*) Hinged watertight doors in passenger, crew, and working spaces are only permitted above a deck, the underside of which, at its lowest point at side, is at least 7 feet (2.13 metres) above the deepest subdivision loadline, and they are not permitted in those spaces below such deck.

(*b*) Hinged watertight doors of satisfactory construction may be fitted in bulkheads dividing cargo between deck spaces, in levels in which side cargo doors would be permitted under the provisions of Regulation X (11). These doors shall be closed before the voyage commences and shall be kept closed during the voyage, and the time of opening such doors in port and of closing them before the ship leaves port shall be entered in the official log book. Where it is proposed to fit such doors, the number and arrangements shall receive the special consideration of the Administration, and a statement shall be required from the owners certifying as to the absolute necessity of such doors.

(8) All other watertight doors shall be sliding doors.

(9)—(*a*) When any watertight doors which may be sometimes opened at sea, excluding those at the entrances of tunnels, are fitted in the main transverse watertight bulkheads at such a height that their sills are below the deepest subdivision loadline, the following rules shall apply:

(I) When the number of such doors exceeds 5 all the watertight sliding doors shall be power-operated and shall be capable of being simultaneously closed from a station situated on the bridge, simultaneous closing of these doors being preceded by a warning sound signal.

(II) When the number of such doors does not exceed 5—

(i) if the criterion numeral does not exceed 30, all the watertight sliding doors may be operated by hand only;

(ii) if the criterion numeral exceeds 30, but does not exceed 60, all the watertight sliding doors may be either dropping doors fitted with releasing and hand gear operated at the door and from above the bulkhead deck or doors operated by power.

(iii) if the criterion numeral exceeds 60, all the watertight sliding doors shall be operated by power.

(*b*) If watertight doors which have sometimes to be open at sea for the purpose of trimming coal are fitted between bunkers in the between-decks below the bulkhead deck, these doors shall be operated by power. The opening and closing of these doors shall be recorded in the official log book.

(*c*) When trunkways in connection with refrigerated cargo are carried through more than one main transverse watertight bulkhead, and the sills of the openings are less than 7 feet (2.13 metres) above the deepest subdivision loadline, the watertight doors at such openings shall be operated by power.

(10) Portable plates on bulkheads shall not be permitted except in machinery spaces. Such plates shall always be in place before the ship leaves port, and shall not be removed at sea except in case of urgent necessity. The necessary precautions shall be taken in replacing them to ensure that the joints shall be watertight.

(11) All watertight doors shall be kept closed during navigation except when necessarily opened for the working of the ship, and shall always be ready to be immediately closed.

(12) Where trunkways or tunnels for access from crew's accommodation to the stokehold, for piping, or for any other purpose are carried through main transverse watertight bulkheads, they shall be watertight and in accordance with the requirements of Regulation XII. The access to at least one end of each such tunnel or trunkway, if used as a passage at sea, shall be through a trunk extending watertight to a height sufficient to permit access above the margin line. The access to the other end of the trunkway or tunnel may be through a watertight door of the type required by its location in the ship. Such trunkways or tunnels shall not extend through the first subdivision bulkhead abaft the collision bulkhead.

Where it is proposed to fit tunnels or trunkways for forced draft, piercing main transverse watertight bulkheads, these shall receive the special consideration of the Administration.

REGULATION X

Openings in Ship's Sides below the Margin Line

(1) The arrangement and efficiency of the means for closing any opening in the ship's sides shall be consistent with its intended purpose and the position in which it is fitted and generally to the satisfaction of the Administration.

(2)—(*a*) If in a between-decks, the sills of any sidescuttles are below a line drawn parallel to the bulkhead deck at side and having its lowest point 2½ per cent. of the breadth of the ship above the deepest subdivision loadline, all sidescuttles in that between-decks shall be of a non-opening type.

(*b*) If in a between-decks, the sills of any sidescuttles other than those required to be of a non-opening type by sub-paragraph (*a*) are below a line drawn parallel to the bulkhead deck at side and having its lowest point at a height of 12 feet (3.66 metres) plus 2½ per cent. of the breadth of the ship above the deepest subdivision loadline, all sidescuttles in that between decks shall be of such construction as will effectively prevent any person opening them without the consent of the master of the ship.

(*c*) Other sidescuttles may be of an ordinary opening type.

(*d*) If in a between decks, the sills of any of the sidescuttles re-referred to in sub-paragraph (*b*) are below a line drawn parallel to the bulkhead deck at side and having its lowest point 4½ feet (1.37 metres), plus 2½ per cent. of the breadth of the ship above the loadline at which the ship is floating on her departure from any port, all the sidescuttles in that between decks shall be closed watertight and locked before the ship leaves port and they shall not be opened during navigation.

The time of opening such sidescuttles in port and of closing and locking them before the ship leaves port shall be entered in the official log book.

The Administration may indicate the limiting mean draught at which these sidescuttles will have their sills above the line defined in this paragraph and at which it will be permissible to open them at sea on the responsibility of the master. In tropical waters in fair weather this limiting draught may be increased by 1 foot (.305 metres).

(3) Efficient hinged inside deadlights arranged so that they can be easily and effectively closed and secured watertight shall be fitted to all sidescuttles—

(*a*) which are required to be of a non-opening type;
(*b*) which are to be fitted within one-eighth of the ship's length of the forward perpendicular;
(*c*) which are to be fitted in positions defined in sub-paragraph (2) (*b*);
(*d*) which will not be accessible during navigation;
(*e*) which are to be fitted in spaces intended for the accommodations of sailors and firemen;
(*f*) which are to be fitted in spaces intended for the accommodation of steerage passengers.

(4) Sidescuttles fitted below the bulkhead deck, other than those referred to in the preceding paragraph, shall be fitted with efficient inside deadlights which may be portable and stowed adjacent to the sidescuttles.

(5) Sidescuttles and their deadlights, which will not be accessible during navigation, shall be closed and secured before the ship proceeds to sea.

(6) No sidescuttles shall be fitted in any spaces which are appropriated exclusively to the carriage of cargo or coal.

(7) Automatic ventilating sidescuttles shall not be fitted in the ship's sides below the margin line without the special sanction of the Administration.

(8) All machinery and other inlets and discharges in the ship's sides shall be arranged so as to prevent the accidental admission of water into the ship.

(9) The number of scuppers, sanitary discharges and other similar openings in the ship's sides shall be reduced to the minimum either by making each discharge serve for as many as possible of the sanitary and other pipes, or in any other satisfactory manner.

(10) Discharges led through the ship's sides from spaces below the margin line shall be fitted with efficient and accessible means for preventing water from passing inboard. It is permissible to have for each separate discharge either one automatic non-return valve fitted with a positive means of closing it from above the bulkhead deck, or, alternatively, two automatic non-return valves without such means, the upper of which valves is so situated above the deepest subdivision loadline as to be always accessible for examination under service conditions.

Where a positive action valve is fitted, the operating position above the bulkhead deck shall always be readily accessible and means shall be provided for indicating whether the valve is open or closed.

(11) Gangway, cargo, and coaling ports fitted below the margin line shall be of sufficient strength. They shall be effectively closed and secured watertight before the ship leaves port, and shall be kept closed during navigation.

Cargo and coaling ports which are to be fitted partly or entirely below the deepest subdivision loadline shall receive the special consideration of the Administration.

(12) The inboard opening of each ash-shoot, rubbish-shoot, &c., shall be fitted with an efficient cover.

If the inboard opening is situated below the margin line, the cover shall be watertight, and in addition an automatic non-return valve shall be fitted in the shoot in an easily accessible position above the deepest subdivision loadline. When the shoot is not in use both the cover and the valve shall be kept closed and secured.

REGULATION XI

Construction and Initial Tests of Watertight Doors, Sidescuttles, &c.

(1) The design, materials and construction of all watertight doors, sidescuttles, gangways, cargo and coaling ports, valves, pipes, ash-shoots and rubbish-shoots referred to in these Regulations shall be to the satisfaction of the Administration.

(2) Each watertight door shall be tested by water pressure to a head up to the margin line. The test shall be made before the ship is put in service, either before or after the door is fitted.

REGULATION XII

Construction and Initial Tests of Watertight Decks, Trunks, &c.

(1) Watertight decks, trunks, tunnels, duct keels and ventilators shall be of the same strength as watertight bulkheads at corresponding levels. The means used for making them watertight and the arrangements adopted for closing openings in them, shall be to the satisfaction of the Administration. Watertight ventilators and trunks shall be carried at least up to the margin line.

(2) After completion a hose or flooding test shall be applied to watertight decks and a hose test to watertight trunks, tunnels and ventilators.

REGULATION XIII

Periodical Operation and Inspection of Watertight Doors, &c.

In all new and existing ships drills for the operating of watertight doors, sidescuttles, valves, and closing mechanisms of scuppers, ash-shoots and rubbish-shoots, shall take place weekly. In ships in which the voyage exceeds one week in duration a complete drill shall be held before leaving port, and others thereafter at least once a week during the voyage, provided that all watertight power doors and hinged doors, in main transverse bulkheads, in use at sea shall be operated daily.

The watertight doors and all mechanisms and indicators connected therewith, and all valves the closing of which is necessary to make a compartment watertight, shall be periodically inspected at sea, at least once a week.

REGULATION XIV

Entries in the Official Log Book

In all new and existing ships hinged doors, portable plates, side-scuttles, gangways, cargo and coaling ports and other openings, which are required by these Regulations to be kept closed during navigation, shall be closed before the ship leaves port. The time of closing, and the time of opening (if permissible under these Regulations), shall be recorded in the official log book.

A record of all drills and inspections required by Regulation XIII shall be entered in the official log book with an explicit record of any defects which may be disclosed.

REGULATION XV

Double Bottoms

(1) In ships 200 feet (61 metres) and under 249 feet (76 metres) in length a double bottom shall be fitted at least from the machinery space, and shall extend to the fore and after peak as practicable.

(2) In ships 249 feet (76 metres) and under 330 feet (100 metres) in length a double bottom shall be fitted at least outside the machinery space, and shall extend to the fore and after peak bulkheads, or as near thereto as practicable.

(3) In ships 330 feet (100 metres) in length and upwards a double bottom shall be fitted amidships, and shall extend to the fore and after peak bulkheads, or as near thereto as practicable.

(4) Where a double bottom is required to be fitted the inner bottom shall be continued out to the ship's sides in such a manner as to protect the bottom to the turn of bilge.

Such protection will be deemed satisfactory if the line of intersection of the outer edge of the margin plate with the bilge plating is not lower at any part than a horizontal plane passing through the point of intersection with the frame line amidships of a transverse diagonal line inclined at 25 degrees to the base line and cutting it at a point one-half the ship's moulded breadth from the middle line.

(5) Wells constructed in the double bottom in connection with the drainage arrangements shall not extend downwards more than necessary, nor shall they be less than 18 inches (457 millimetres) from the outer bottom or from the inner edge of the margin plate. A well extending to the outer bottom is, however, permitted at the after end of the shaft tunnel of screw ships.

REGULATION XVI

Fire-resisting Bulkheads

Ships shall be fitted above the bulkhead deck with fire-resisting bulkheads which shall be continuous from side to side of the ship and arranged to the satisfaction of the Administration.

They shall be constructed of metal or other fire-resisting material, effective to prevent for one hour, under the conditions for which the bulkheads are to be fitted in the ship, the spread of fire generating a temparture of 1,500° F. (815° C.) at the bulkhead.

Steps and recesses and the means for closing all openings in these bulkheads shall be fire-resisting and flametight.

The mean distance between any two adjacent fire-resisting bulkheads in any superstructure shall in general not exceed 131 feet (40 metres).

REGULATION XVII

Side and Other Openings, &c., above the Margin Line

(1) Sidescuttles, gangways, cargo and coaling ports, and other means for closing openings in the ship's sides above the margin line shall be of efficient design and construction and of sufficient strength having regard to the spaces in which they are fitted and their positions relative to the deepest subdivision loadline.

(2) The bulkhead deck or a deck above it shall be weathertight in the sense that in ordinary sea conditions water will not penetrate in a downward direction. All openings in the exposed weather deck shall have coamings of ample height and strength, and shall be provided with efficient means for expeditiously closing them weathertight.

(3) Freeing ports and/or scuppers shall be fitted as necessary for rapidly clearing the weather deck of water under all weather conditions.

REGULATION XVIII

Exits from Watertight Compartments

(1) In passenger and crew spaces, practicable means of exit to the open deck shall be provided for the occupants from each watertight compartment.

(2) Practicable means of escape for the crew shall be provided from each engine room, shaft tunnel, stokehold compartment, and other working spaces, independent of watertight doors.

REGULATION XIX

Pumping Arrangements

Steamships

(1) Ships shall be provided with an efficient pumping plant capable of pumping from and draining any watertight compartment under all practicable conditions after a casualty whether the ship is upright or listed. For this purpose wing suctions will generally be necessary except in narrow compartments at the ends of the ship. Where close ceiling is fitted over the bilges, arrangements shall be made whereby water in the compartment may find its way to the suction pipes. Efficient means shall be provided for draining water from insulated holds.

(2) In addition to the ordinary bilge pump, worked by the main engines, or its equivalent engine-room pump, two independent power bilge pumps shall be provided, except that in ships less than 300 feet (91.5 meters) in length, having a criterion numeral less than 30, either two efficient hand pumps of the crank type fitted one forward and one aft, or a portable power pump, may be substituted for one of the additional independent power bilge pumps.

Sanitary, ballast and general service pumps may be accepted as independent power bilge pumps if fitted with the necessary connections to the bilge pumping system.

(3) Where two or more independent power pumps are required, the arrangement shall be such that at least one power pump will be available for use in all ordinary circumstances in which a vessel may be flooded at sea. One of the power pumps shall, therefore, be an emergency pump of a reliable submersible type. A source of power situated above the bulkhead deck shall be available for this pump in any case of emergency.

(4) Where practicable, the power bilge pumps shall be placed in separate watertight compartments so arranged or situated that these compartments will not readily be flooded by the same damage. If the engines and boilers are in two or more watertight compartments, the pumps available for bilge service shall be distributed through these compartments as far as is possible.

(5) With the exception of pumps which may be provided for peak compartments only, each bilge pump, whether operated by hand or by power, shall be arranged to draw water from any hold or machinery compartment in the ship.

(6) Each independent power bilge pump shall be capable of giving a speed of water through the main bilge pipe of not less than 400 feet (122 meters) per minute, and it shall have a separate direct suction, to the compartment in which it is situated, of a diameter not less than that of the bilge main. The direct suctions from each independent power bilge pump shall be arranged to pump from either side of the ship.

(7) Main circulating pumps shall have direct suction connections, provided with non-return valves, to the lowest drainage level in the machinery space, and of a diameter at least two-thirds that of the main sea inlet. Where the fuel is, or may be, coal, and there is no watertight bulkhead between the engines and boilers, a direct discharge overboard shall be fitted from at least one circulating pump, or, alternatively, a bye-pass may be fitted to the circulating discharge.

(8)—(*a*) All pipes from the pumps which are required for draining cargo or machinery spaces shall be entirely distinct from pipes which may be used for filling or emptying spaces where water or oil is carried.

(*b*) Lead pipes shall not be used under coal bunkers or oil fuel storage tanks, nor in boiler or machinery spaces, including motor rooms in which oil settling tanks or oil fuel pump units are situated.

(9) The Administration shall make rules relating to the diameters of the bilge main and branch pipes which shall be proportioned respectively in relation to the size of the ship and the sizes of the compartments to be drained.

(10) The arrangement of the bilge and ballast pumping system shall be such as to prevent the possibility of water passing from the sea and from water ballast spaces into the cargo and machinery spaces, or from one compartment to another. Special provision shall be made to prevent any deep tank having bilge and ballast connections being inadvertently run up from the sea when containing cargo, or pumped out through a bilge pipe when containing water ballast.

(11) Provision shall be made to prevent the compartment served by any bilge suction pipe being flooded, in the event of the pipe being severed or otherwise damaged, by collision or grounding, in any other compartment. For this purpose, where the pipe is at any part situated near the side of the ship or in a duct keel, there shall be fitted to the pipe in the compartment containing the open end either a non-return valve, or a screw-down valve which can be operated from a position above the bulkhead deck.

(12) All distribution boxes, cocks, and valves in connection with the bilge pumping arrangement shall be in positions which are accessible at all times under ordinary circumstances. They shall be so arranged that in the event of flooding the emergency bilge pump may be operative on any compartment. If there is only one system of pipes common to all the pumps, the necessary cocks or valves for controlling the bilge suctions must be workable from above the bulkhead deck. If in addition to the main bilge pumping system an emergency bilge pumping system is provided, it shall be independent of the main system and so arranged that the emergency pump is capable of operating on any compartment under flooding conditions.

Motor Ships

(13) The bilge pumping arrangements in motor ships shall, so far as practicable, be equivalent to those required for steamships of similar size, except as regards main circulating pumps.

REGULATION XX

Power for Going Astern

Ships shall have sufficient power for going astern to secure proper control of the ship in all circumstances.

REGULATION XXI

Auxiliary Steering Apparatus

Ships shall be provided with an auxiliary steering apparatus which, however, may be of less power than the main apparatus, and need not be worked by steam or other mechanical power, provided adequate arrangements for manual operation are practicable. A duplicate main steering power plant shall be considered as an auxiliary steering apparatus within the meaning of this regulation.

REGULATION XXII

Initial and Subsequent Surveys of Ships

(1) Every new or existing ship shall be subjected to the survey specified below:

(*a*) A survey before the ship is put in service.

(*b*) A periodical survey once every twelve months.

(*c*) Additional surveys, as occasion arises.

(2) The surveys referred to above shall be carried out as follows:

(*a*) *The survey before the ship is put in service* shall include a complete inspection of the hull, machinery and equipments, including the outside of the ship's bottom and the inside and outside of the boilers. This survey shall be such as to ensure that the arrangements, material, and scantlings of the hull, boilers, and their appurtenances, main and auxiliary machinery, life-saving appliances, and other equipments, fully comply with the requirements of the present Convention and of the detailed regulations promulgated as a result thereof by the Government of the country to which the ship belongs for ships of the service for which it is intended. The survey shall also be such as to ensure that the workmanship of all parts of the ship and its equipments is in all respects satisfactory.

(*b*) *The periodical survey* shall include an inspection of the whole of the hull, boilers, machinery, and equipments, including the outside of the ship's bottom. The survey shall be such as to ensure that the ship, as regards the hull, boilers, and their appurtenances, main and auxiliary machinery, life-saving appliances, and other equipments, is in satisfactory condition and fit for the service for which it is intended, and that it complies with the requirements of the present Convention, and of the detailed regulations promulgated as a result thereof by the Government of the country to which the ship belongs.

(c) *A survey, either general or partial,* according to the circumstances, shall be made every time an accident occurs or a defect is discovered which affects the safety of the ship or the efficiency or completeness of its life-saving appliances or other equipments, or whenever any important repairs or renewals are made. The survey shall be such as to ensure that the necessary repairs or renewals have been effectively made, that the material and workmanship of such repairs or renewals are in all respects satisfactory, and that the ship complies in all respects with the provisions of the present Convention and of the detailed regulations promulgated as a result thereof by the Government of the country to which the ship belongs.

(3) The detailed regulations referred to in sub-paragraph (2) shall prescribe the requirements to be observed as to the initial and subsequent hydraulic tests to which the main and auxiliary boilers, connections, steam-pipes, high-pressure receivers, and fuel tanks for oil motors are to be submitted, including the test pressure to be applied, and the intervals between two consecutive tests.

Main and auxiliary boilers, connections, tanks and receivers, also steam-piping of more than 3 inches (76 millimeters) internal diameter shall be satisfactorily tested by hydraulic pressure when new. Steam pipes of more than 3 inches (76 millimeters) internal diameter shall be tested by hydraulic pressure periodically.

REGULATION XXIII

Maintenance of Conditions after Survey

After the survey of the ship as provided in Regulation XXII has been completed no change shall be made in the structural arrangements, machinery, equipments, &c., covered by the survey, without the sanction of the Administration.

LIFE-SAVING APPLIANCES, &c.

REGULATION XXIV

Standard Types of Boats

The standard types of boats are classified as follows:

Class I.—Open boats with rigid sides having either (a) internal buoyancy only, or (b) internal and external buoyancy.

Class II.—(a) Open boats with internal and external buoyancy—upper parts of sides collapsible, and (b) decked boats with either fixed or collapsible watertight bulwarks.

No boat may be approved the buoyancy of which depends upon the previous adjustment of one of the principal parts of the hull, or which has not a cubic capacity of at least 3.5 cubic metres (equivalent to 125 cubic feet).

No boat may be approved the weight of which when fully laden with persons and equipment exceeds 20,300 kilogrammes (equivalent to 20 tons).

REGULATION XXV

Lifeboats of Class I

Lifeboats of Class I must have a mean sheer at least equal to four per cent. of their length.

The air cases of lifeboats of Class I shall be so placed as to secure stability when fully laden under adverse weather conditions.

In boats certified to carry 100 or more persons the volume of the buoyancy shall be increased to the satisfaction of the Administration.

Lifeboats of Class I must also satisfy the following conditions:

(a) *Lifeboats with Internal Buoyancy Only*

The buoyancy of a wooden boat of this type shall be provided by watertight air cases, the total volume of which shall be at least equal to one-tenth of the cubic capacity of the boat.

The buoyancy of a metal boat of this type shall not be less than that required above for a wooden boat of the same cubic capacity, the volume of watertight air-cases being increased accordingly.

(b) *Lifeboats with Internal and External Buoyancy*

The internal buoyancy of a wooden boat of this type shall be provided by watertight air-cases, the total volume of which is at least equal to seven and a half per cent. of the cubic capacity of the boat.

The external buoyancy may be of cork or of any other equally efficient material, but such buoyancy shall not be obtained by the use of rushes, cork shavings, loose granulated cork or any other loose granulated substance, or by any means dependent upon inflation by air.

If the buoyancy is of cork, its volume, for a wooden boat, shall not be less than thirty-three thousandths of the cubic capacity of the boat; if of any material other than cork, its volume and distribution shall be such that the buoyancy and stability of the boat are not less than that of a similar boat provided with buoyancy of cork.

The buoyancy of a metal boat shall be not less than that required above for a wooden boat of the same cubic capacity, the volume of the watertight air-cases and that of the external buoyancy being increased accordingly.

REGULATION XXVI

Boats of Class II

Boats of Class II must satisfy the following conditions:

(a) *Open Boats with Internal and External Buoyancy—Upper Part of Sides Collapsible*

A boat of this type shall be fitted both with watertight air-cases and with external buoyancy the aggregate volume of which, for each person which the boat is able to accommodate, shall be at least equal to the following amounts:

	Cubic decimetres	Cubic feet
Air-cases	43	1.5
External buoyancy (if of cork)	6	0.2

The external buoyancy may be of cork or of any other equally efficient material, but such buoyancy shall not be obtained by the use of rushes, cork shavings, loose granulated cork, or any other loose granulated substance, or by means dependent upon inflation by air.

If of any material other than cork, its volume and distribution shall be such that the buoyancy and stability of the boat are not less than that of a similar boat provided with buoyancy of cork.

A metal boat of this type shall be provided with internal and external buoyancy to ensure that the buoyancy of the boat shall be at least equal to that of a wooden boat.

The minimum freeboard of boats of this type shall be fixed in relation to their length; and it shall be measured vertically to the top of the solid hull at the side amidships, from the water-level, when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts:

Length of lifeboat		Minimum freeboard	
Metres	Equivalent in feet to—	Millimetres	Equivalent in inches to—
7.90	26	200	8
8.50	28	225	9
9.15	30	250	10

The freeboard of boats of intermediate lengths is to be found by interpolation.

The collapsible sides must be watertight.

(b) *Decked Boats with Either Fixed or Collapsible Watertight Bulwarks*

(i) *Decked Boats having a Well Deck.*—The area of the well deck of a boat of this type shall be at least 30 per cent. of the total deck area. The height of the well deck above the waterline at all points shall be at least equal to one-half per cent. of the length of the boat, this height being increased to one-and-a-half per cent. of the length of the boat at the ends of the well.

The freeboard of a boat of this type shall be such as to provide for a reserve buoyancy of at least 35 per cent.

(ii) *Decked Boats having a Flush Deck.*—The minimum freeboard of boats of this type is independent of their lengths and depends only upon their depths. The depth of the boat is to be measured vertically from the underside of the garboard strake to the top of the deck at the side amidships and the freeboard is to be measured from the top of the deck at the side amidships to the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts, which are applicable without correction to boats having a mean sheer equal to three per cent. of their length:

Depth of lifeboat		Minimum freeboard	
Millimetres	Equivalent in inches to—	Millimetres	Equivalent in inches to—
310	12	70	2¾
460	18	95	3¾
610	24	130	5⅛
760	30	165	6½

For intermediate depths the freeboard is obtained by interpolation.

If the sheer is less than the standard sheer defined above, the minimum freeboard is obtained by adding to the figures in the table one-seventh of the difference between the standard sheer and the actual mean sheer measured at the stem and stern post; no deduction is to be made from the freeboard on account of the sheer being greater than the standard sheer or on account of the camber of the deck.

(iii) All decked lifeboats shall be fitted with efficient means for clearing the deck of water.

REGULATION XXVII

Motor Boats

A motor boat carried as part of the lifesaving appliances of a vessel, whether required by Regulations XXXVI (2) or not, shall comply with the following conditions:

(*a*) It shall comply with the requirements for a lifeboat of Class I, and proper appliances shall be provided for putting it into the water speedily.

(*b*) It shall be adequately provided with fuel, and kept so as to be at all times ready for use.

(*c*) The motor and its accessories shall be suitably enclosed to ensure operation under adverse weather conditions, and provision shall be made for going astern.

(*d*) The speed shall be at least six knots when fully loaded in smooth water.

The volume of the internal buoyancy and, where fitted, the external buoyancy shall be increased in sufficient proportion to compensate for the difference between the weight of the motor, the searchlight, and the wireless telegraph installation and their accessories, and the weight of the additional persons which the boat could accommodate if the motor, the searchlight and the wireless telegraph installation and their accessories were removed.

REGULATION XXVIII

Life Rafts

No type of life raft may be approved unless it satisfies the following conditions:

(*a*) It shall be of approved material and construction;

(*b*) It shall be effective and stable when floating either way up;

(*c*) It shall be fitted with fixed or collapsible bulwarks of wood, canvas, or other suitable material on both sides;

(*d*) It shall have a line securely becketed round the outside;

(*e*) It shall be of such strength that it can be launched or thrown from the vessel's deck without being damaged, and if to be thrown it shall be of such size and weight that it can be easily handled;

(*f*) It shall have not less than 85 cubic decimetres (equivalent to three cubic feet) of air-cases or equivalent buoyancy for each person to be carried thereon;

(*g*) It shall have a deck area of not less than 3,720 square centimetres (equivalent to four square feet) for each person to be carried thereon, and it shall effectively support the occupants out of the water;

(*h*) The air-cases or equivalent buoyancy shall be placed as near as possible to the sides of the life raft, and such buoyancy shall not be by any means dependent on inflation by air.

REGULATION XXIX

Buoyant Apparatus

Buoyant apparatus, whether buoyant deck seats, buoyant deck chairs or other buoyant apparatus, shall be deemed sufficient, so far as buoyancy is concerned, for a person or number of persons to be ascertained by dividing the number of kilogrammes of iron which it is capable of supporting in fresh water by 14.5 (equivalent to the number of pounds divided by 32), and if the apparatus depends for its buoyancy on air it shall not require to be inflated before use in an emergency.

The number of persons for whom the apparatus is deemed suitable shall be determined by the least of the numbers ascertained either as above or by the number of 30.5 centimetres (equivalent to one foot) in the perimeter.

Such approved buoyant apparatus shall comply with the following conditions:

1. It shall be constructed with proper workmanship and materials.
2. It shall be effective and stable when floating either way up.
3. It shall be of such size, strength and weight that it can be handled without mechanical appliances and, if necessary, thrown without damage from the vessel's deck on which it is stowed.
4. The air-cases or equivalent buoyancy shall be placed as near as possible to the sides of the apparatus.
5. It shall have a line securely becketed round the outside of the apparatus.

REGULATION XXX

Cubic Capacity of Lifeboats of Class I

1. The cubic capacity of a lifeboat of Class I shall be determined by Stirling's (Simpson's) Rule or by any other method giving the same degree of accuracy. The capacity of a square-sterned boat shall be calculated as if the boat had a pointed stern.

2. For example, the capacity in cubic metres (or cubic feet) of a boat, calculated by the aid of Stirling's Rule, may be considered as given by the following formula:

$$\text{Capacity} = \frac{l}{12}(4A + 2B + 4C)$$

l being the length of the boat in metres (or feet) from the inside of the planking or plating at the stem to the corresponding point at the stern post; in the case of a boat with a square stern, the length is measured to the inside of the transom.

A, B, C denote respectively the areas of the cross-sections at the quarter length forward, amidships, and the quarter length aft, which correspond to the three points obtained by dividing l into four equal parts (the areas corresponding to the two ends of the boat are considered negligible).

The areas A, B, C shall be deemed to be given in square metres (or square feet) by the successive application of the following formula to each of the three cross-sections:

$$\text{Area} = \frac{h}{12}(a + 4b + 2c + 4d + e)$$

h being the depth measured in metres (or in feet) inside the planking or plating from the keel to the level of the gunwale, or, in certain cases, to a lower level, as determined hereafter.

a, b, c, d, e denote the horizontal breadths of the boat measured in metres (or in feet) at the upper and lower points of the depth and at the three points obtained by dividing h into four equal parts (a and e being the breadths at the extreme points, and c at the middle point, of h).

3. If the sheer of the gunwale, measured at the two points situated at a quarter of the length of the boat from the ends, exceeds 1 per cent. of the length of the boat, the depth employed in calculating the area of the cross-sections A or C shall be deemed to be the depth amidships plus 1 per cent. of the length of the boat.

4. If the depth of the boat amidships exceeds 45 per cent. of the breadth, the depth employed in calculating the area of the midship cross-section B shall be deemed to be equal to 45 per cent. of the breadth, and the depth employed in calculating the areas of the quarter length sections A and C is obtained by increasing this last figure by an amount equal to 1 per cent. of the length of the boat, provided that in no case shall the depths employed in the calculation exceed the actual depths at these points.

5. If the depth of the boat is greater than 122 centimetres (equivalent to 4 feet) the number of persons given by the application of this rule shall be reduced in proportion to the ratio of 122 centimetres to the actual depth, until the boat has been satisfactorily tested afloat with that number of persons on board, all wearing life jackets.

6. Each Administration shall impose, by suitable formulæ, a limit for the number of persons allowed in boats with very fine ends and in boats very full in form.

7. Each Administration reserves the right to assign to a boat a capacity equal to the product of the length, the breadth and the depth multiplied by 0.6 if it is evident that this formula does not give a greater capacity than that obtained by the above method. The dimensions shall then be measured in the following manner:

Length.—From the intersection of the outside of the planking with the stem to the corresponding point at the stern post or, in the case of a square-sterned boat, to the after side of the transom.

Breadth.—From the outside of the planking at the point where the breadth of the boat is greatest.

Depth.—Amidships inside the planking from the keel to the level of the gunwale, but the depth used in calculating the cubic capacity may not in any case exceed 45 per cent. of the breadth.

In all cases the shipowner has the right to require that the cubic capacity of the boat shall be determined by exact measurement.

8. The cubic capacity of a motor boat is obtained from the gross capacity by deducting a volume equal to that occupied by the motor and its accessories, and, when carried, the wireless telegraphy installation and the searchlight with their accessories.

REGULATION XXXI

Deck Area of Boats of Class II

1. The area of the deck of a decked boat shall be determined by the method indicated below or by any other method giving the same degree of accuracy. The same rule is to be applied in determining the area within the fixed bulwarks of a boat of Class II (*a*).

2. For example, the surface in square metres (or square feet) of a boat may be deemed to be given by the following formula:

$$\text{Area} = \frac{l}{12}(2a + 1.5b + 4c + 1.5d + 2e)$$

l being the length in metres (or in feet) from the intersection of the outside of the planking with the stem to the corresponding point at the stern post.

a, b, c, d, e denote the horizontal breadths in metres (or in feet) outside the planking at the points obtained by dividing l into four equal parts and sub-dividing the foremost and aftermost parts into two equal parts (a and e being the breadths at the extreme sub-divisions, c at the middle point of the length, and b and d at the intermediate points).

REGULATION XXXII

Marking of Boats, Life Rafts and Buoyant Apparatus

The dimensions of the boat and the number of persons which it is authorised to carry shall be marked on it in clear permanent characters. These marks shall be specifically approved by the officers appointed to inspect the ship.

Life rafts and buoyant apparatus shall be marked with the number of persons in the same manner.

REGULATION XXXIII

Carrying Capacity of Boats

1. The number of persons which a boat of one of the standard types can accommodate is equal to the greatest whole number obtained by dividing the capacity in cubic metres (or cubic feet), or the surface in square metres (or square feet) of the boat by

the standard unit of capacity, or unit of surface (according to circumstances), defined below for each type.

2. The standard units of capacity and surface for determining the number of persons are as follows:

	Cubic metres	Equivalent in cubic feet
Unit of capacity:		
Open boats, Class I (*a*)	0.283	10
Open boats, Class I (*b*)	0.255	9

	Square metres	Equivalent in square feet
Unit of surface: Class II	0.325	3½

3. The Administration may accept, in place of 0.325 or 3½, as the case may be, a smaller divisor, if it is satisfied after trial that the number of persons for whom there is seating accommodation in the decked boat in question is greater than the number obtained by applying the above divisor, provided always that the divisor adopted in place of 0.325 or 3½, as the case may be, may never be less than 0.280 or 3, as the case may be.

The Administration which accepts a lower divisor in this way shall communicate to the other Administrations particulars of the trial and drawings of the decked boat in question.

REGULATION XXXIV

Capacity Limits

No boat shall be marked for a greater number of persons than that obtained in the manner specified in these Regulations.

This number shall be reduced—

(1) when it is greater than the number of persons for which there is proper seating accommodation; the latter number shall be determined in such a way that the persons when seated do not interfere in any way with the use of the oars;

(2) when, in the case of boats other than those of Class I, the freeboard when the boat is fully loaded is less than the freeboard laid down for each type respectively; the number shall be reduced until the freeboard when the boat is fully loaded is at least equal to the standard freeboard laid down above.

In boats of Class II (*b*) (i), the raised part of the deck at the sides may be regarded as affording seating accommodation.

REGULATION XXXV

Equivalents for and Weight of the Persons

In the tests for determining the number of persons which a boat or life raft can accommodate, each person shall be assumed to be an adult person wearing a life-jacket.

In verifications of freeboard the decked boats shall be loaded with a weight of at least 75 kilogrammes (165 lbs.) for each adult person that the decked boat is authorized to carry.

In all cases two children under 12 years of age shall be reckoned as one person.

REGULATION XXXVI

Equipment of Boats and Life Rafts

1. The normal equipment of every boat shall consist of:

(*a*) A single banked complement of oars, two spare oars and a steering oar; one set and a half of thole pins or crutches; a boat hook.

(*b*) Two plugs for each plug hole (plugs are not required when proper automatic valves are fitted); a bailer and a galvanised iron bucket.

(*c*) A rudder and a tiller or yoke and yoke lines.

(*d*) Two hatchets.

(*e*) A lamp filled with oil and trimmed.

(*f*) A mast or masts with one good sail at least, and proper gear for each.

(*g*) An efficient compass.

(*h*) A life-line becketed round the outside.

(*i*) A sea-anchor.

(*j*) A painter.

(*k*) A vessel containing four and a half litres (equivalent to one gallon of vegetable or animal oil. The vessel shall be so constructed that the oil can be easily distributed on the water, and so arranged that it can be attached to the sea-anchor.

(*l*) An airtight receptacle containing one kilogramme (equivalent to two pounds) of provisions for each person.

(*m*) A watertight receptacle provided with a dipper with lanyard containing one litre (equivalent to one quart) of fresh water for each person.

(*n*) At least one dozen self-igniting "red lights" and a box of matches in watertight containers.

(*o*) Half a kilogramme (equivalent to one pound) of condensed milk for each person.

(*p*) A suitable locker for the stowage of the small items of the equipment.

(*q*) Any boat which is certified to carry 100 or more persons shall be fitted with a motor and shall comply with the requirements of Regulation XXVII.

A motor lifeboat need not carry a mast or sails or more than half the complement of oars, but it shall carry two boathooks.

Decked lifeboats shall have no plug-hole, but shall be provided with at least two bilge-pumps.

In the case of a ship which carries passengers in the North Atlantic north of 35° North Latitude, only a proportion of the boats, to be fixed by the Administration, need be equipped with masts and sails, and only one-half the quantity of condensed milk need be carried.

2. Where the number of lifeboats carried on a ship is more than 13, one shall be a motor boat, and where the number is more than 19, two shall be motor boats. These motor lifeboats shall be fitted with a wireless telegraph installation and a searchlight.

The wireless telegraph installation shall comply with conditions as to range and efficiency to be decided by each Administration.

The searchlight shall include a lamp of at least 80 watts, an efficient reflector and a source of power which will give effective illumination of a light coloured object over a width of about 18 metres (60 feet) at a distance of 180 metres (200 yards) for a total period of six hours, and it shall be capable of working for three hours continuously.

Where the power for the wireless equipment and the searchlight are derived from the same source, this shall be sufficient to provide for the adequate working of both appliances.

3. The normal equipment of every approved life raft shall consist of—

(*a*) Four oars.

(*b*) Five rowlocks.

(*c*) A self-igniting lifebuoy light.

(*d*) A sea-anchor.

(*e*) A painter.

(*f*) A vessel containing four and a half litres (equivalent to one gallon) of vegetable or animal oil. The vessel shall be so constructed that the oil can be easily distributed on the water, and so arranged that it can be attached to the sea-anchor.

(*g*) An airtight receptacle containing one kilogramme (equivalent to two pounds) of provisions for each person.

(*h*) A watertight receptacle provided with a dipper with lanyard containing one litre (equivalent to one quart) of fresh water for each person.

(*i*) At least one dozen self-igniting red lights and a box of matches in water-tight containers.

4. In the case of a ship which is engaged in short international voyages, the Administration may exempt the boats from carrying the equipment specified under sub-paragraphs (*f*), (*l*) and (*o*) of paragraph 1 and from the requirements of paragraph 2, and may also exempt the life rafts from carrying the equipment specified in paragraph 3 (*g*).

REGULATION XXXVII

Stowage and Handling of Boats and Life Rafts

1. Subject to the conditions of Regulation XXXVIII, the lifeboats may be stowed one above the other, or they may, subject to such conditions as the Administration may impose, be fitted one within another, but where boats so fitted require lifting before being launched they shall only be permitted if mechanical power appliances for lifting are provided.

2. The lifeboats and life rafts additional to boats stowed under boats attached to davits may be stowed across a deck, bridge or poop and so secured that they will have the best chance of floating free of the ship if there is no time to launch them.

3. As large a number as possible of the additional boats referred to in paragraph 2 shall be capable of being launched on either side of the ship by means of approved appliances for transferring them from one side of the deck to the other.

4. Boats may only be stowed on more than one deck on condition that proper measures are taken to prevent boats on a lower deck being fouled by those stowed on a deck above.

5. Boats shall not be placed in the bows of the ship or in any positions in which they would be brought into dangerous proximity to the propellers at the time of launching.

6. Davits shall be of approved form and so disposed on one or more decks that the boats placed under them can be safely lowered without interference from the operation of any other davits.

7. The davits, blocks, falls and all other gear shall be of such strength that the boats can be safely lowered with the full complement of persons and equipment, with the ship listed to 15 degrees either way. The falls shall be long enough to reach the water with the vessel at her lightest seagoing draught and with a list of 15 degrees.

8. The davits shall be fitted with gear of sufficient power to ensure that the boats, fully equipped and manned, but not otherwise loaded with passengers, can be turned out against the maximum list at which the lowering of the boats is possible.

9. The boats attached to the davits shall have the falls ready for service, and means shall be provided for speedily, but not necessarily simultaneously, detaching the boats from the falls.

10. Where more than one boat is served by the same set of davits, if the falls are of rope, separate falls shall be provided to serve each boat, but where wire falls are used with mechanical appliances for recovering them, separate falls need not be provided. The appliances used must be such as to ensure lowering the boats in turn and rapidly.

Where mechanical appliances are fitted for the recovery of the falls efficient hand gear shall also be provided.

11. On short international voyages where the height of the boat deck above the water line when the vessel is at her lightest sea-going draught does not exceed 4.5 meters (15 feet), the requirements as to strength of davits and turning-out gear in subparagraphs 7, 8 and 10 shall not apply.

REGULATION XXXVIII

Number and Capacity of Boats, Life Rafts, &c., and Davits

1. A ship shall be provided with sets of davits in accordance with its length as provided in Column A of the Table in Regulation XXXIX, provided that a number of sets of davits greater than the number of boats necessary for the accommodation of all the persons on board shall not be required.

Each set of davits shall have a boat of Class I attached to it. If the lifeboats attached to davits do not provide sufficient accommodation for all the persons on board, additional lifeboats of one of the standard types shall be provided. One additional lifeboat shall, in the first place, be stowed under each of the boats attached to davits. After these have been fitted other boats shall be carried inboard, but an Administration may, if it is of opinion that life rafts will be more readily available and otherwise more satisfactory than these lifeboats in a case of emergency, allow life rafts to be carried provided that the total capacity of the boats on the ship will be at least up to the minimum capacity required by Column C of the Table in Regulation XXXIX.

When in the opinion of the Administration it is neither practicable nor reasonable to place on a ship the number of sets of davits required by Column A of the Table of Regulation XXXIX, the Administration may authorise, under exceptional conditions, a smaller number of sets of davits, provided always that this number shall never be less than the minimum number fixed by Column B of the Table and that the total capacity of the boats on the ship will be at least up to the minimum capacity required by Column C.

2. A ship engaged on short international voyages shall be provided with sets of davits in accordance with its length as procided in Column A of the Table in Regulation XXXIX. Each set of davits shall have a boat of Class I attached to it. If the lifeboats attached to davits do not provide the minimum cubic capacity specified in Column D of the Table in Regulation XXXIX or provide accommodation for all persons on board, additional lifeboats of one of the standard types, approved life rafts or other approved buoyant apparatus shall be provided, and the accommodation thus provided shall be sufficient for all on board.

When in the opinion of the Administration it is neither practicable nor reasonable to place on a ship engaged in short international voyages, the number of sets of davits required by Column A of the Table in Regulation XXXIX, the Administration may authorise, under exceptional conditions, a smaller number of sets of davits, provided always that this number shall never be less than the minimum number fixed by Column B of the Table, and that the total capacity of the boats on the ship will be at least up to the minimum capacity required by Column D.

REGULATION XXXIX

Table relating to Davits and Lifeboat Capacity

The following table fixes, according to the length of the ship—

(A) *The minimum number of sets of davits* to be provided to each of which must be attached a boat of Class I in accordance with Regulation XXXVIII above.

(B) *The smaller number of sets of davits which may be authorized exceptionally* under Regulation XXXVIII.

(C) *The minimum lifeboat capacity* required, including the lifeboats attached to davits and the additional boats, in accordance with Regulation XXXVIII.

(D) *The minimum lifeboat capacity* required for a ship engaged in short international voyages.

Registered length of the ship		(A) Minimum number of sets of davits	(B) Smaller number of sets of davits authorised exceptionally	(C) Minimum capacity of lifeboats		(D) Minimum capacity of lifeboats	
Metres	Feet			Cubic metres	Cubic feet	Cubic metres	Cubic feet

223 " 232	730 " 760	22	15	854	30,180		
232 " 241	760 " 790	24	17	908	32,100		
241 " 250	790 " 820	24	17	972	34,350		
250 " 261	820 " 855	26	18	1,031	36,450		
261 " 271	855 " 890	26	18	1,097	38,750		
271 " 282	890 " 925	28	19	1,160	41,000		
282 " 293	925 " 960	28	19	1,242	43,880		
293 " 303	960 " 995	30	20	1,312	46,350		
303 " 314	995 " 1,030	30	20	1,380	48,750		

Note on (A) and (B).—When the length of the ship exceeds 314 metres (equivalent to 1,030 feet) the Administration shall determine the minimum number of sets of davits for that ship; full particulars of its decision shall be communicated to the other Administrations.

Note on (C) and (D).—For the purposes of this table the capacity of a boat of Class II is obtained by multiplying the number of persons for which the boat is certified by 0.283 to obtain the capacity in cubic metres and by 10 to obtain the capacity in cubic feet.

Note on (D).—When the length of a ship is under 31 metres (equivalent to 100 feet) or over 168 metres (equivalent to 550 feet) the cubic capacity of the lifeboats shall be prescribed by the Administration.

REGULATION XL

Life-Jackets and Life-Buoys

1. A life-jacket shall satisfy the following requirements:

(a) It shall be constructed with proper workmanship and materials.

(b) It shall be capable of supporting in fresh water for 24 hours 7.5 kilogrammes of iron (equivalent to 16½ pounds);

(c) It shall be reversible.

Life-jackets the buoyancy of which depends on air compartments are prohibited.

2. A life-buoy shall satisfy the following requirements:

(a) It shall be of solid cork or any other equivalent material;

(b) It shall be capable of supporting in fresh water for 24 hours at least 14.5 kilogrammes (equivalent to 32 pounds) of iron.

Life-buoys filled with rushes, cork shavings or granulated cork, or any other loose granulated material, or whose buoyancy

depends upon air compartments which require to be inflated, are prohibited.

3. The minimum number of life-buoys with which ships are to be provided is fixed by the following table:

Length of the ship		Minimum number of buoys
Metres	Equivalent in feet	
Under 61	Under 200	8
61 and under 122	200 and under 400	12
122 and under 183	400 and under 600	18
183 and under 244	600 and under 800	24
244 and over	800 and over	30

4. All the buoys shall be fitted with beckets securely seized. At least one buoy on each side shall be fitted with a life-line of at least 27.5 metres (15 fathoms) in length. Not less than one-half of the total number of life-buoys, and in no case less than six, shall be provided with efficient self-igniting lights which cannot be extinguished in water, and these shall be kept near the buoys to which they belong, with the necessary means of attachment.

5. All the life-buoys and life-jackets shall be so placed as to be readily accessible to the persons on board; their position shall be plainly indicated so as to be known to the persons concerned.

The life-buoys shall always be capable of being rapidly cast loose and shall not be permanently secured in any way.

REGULATION XLI

Certificated Lifeboatmen

In order to obtain the special lifeboatman's certificate provided for in Article 22 of the present Convention, the applicant must prove that he has been trained in all the operations connected with launching lifeboats and the use of oars; that he is acquainted with the practical handling of the boats themselves; and, further, that he is capable of understanding and answering the orders relative to lifeboat service.

There shall be for each boat or life raft a number of lifeboatmen at least equal to that specified in the following table:

The minimum number of certificated lifeboatmen shall be if the prescribed complement is—

Less than 41 persons	2
From 41 to 61 persons	3
From 62 to 85 persons	4
Above 85 persons	5

REGULATION XLII

Manning of Boats

A deck officer or certificated lifeboatman shall be placed in charge of each boat or life raft and a second in command shall also be nominated. The person in charge shall have a list of its crew, and shall see that the men placed under his orders are acquainted with their several duties.

A man capable of working the motor shall be assigned to each motor boat.

A man capable of working the wireless and searchlight installations shall be assigned to boats carrying this equipment.

The duty of seeing that the boats, life rafts and buoyant apparatus and other lifesaving apparatus are at all times ready for use shall be assigned to one or more officers.

REGULATION XLIII

Fire Detection and Extinction

1. An efficient patrol system shall be maintained, so that any outbreak of fire may be promptly detected. In addition, a fire-alarm or fire-detecting system shall be provided, which will automatically indicate or register at one or more points or stations, where it can be most quickly observed by officers and crew, the presence or indication of fire in any part of the ship not accessible to the patrol system.

2. Every ship shall be provided with powerful pumps, operated by steam or other means. On ships of less than 4,000 tons gross there shall be two, and on larger ships three of these pumps. Each of the pumps shall be capable of delivering a sufficient quantity of water in two powerful jets simultaneously in any given part of the ship, and shall be available for immediate use before the ship leaves port.

3. The service pipes shall permit of two powerful jets of water being simultaneously directed on any given part of a deck occupied by passengers and crew, when the watertight and fire-resisting doors are closed. The service pipes and hoses shall be of ample size and made of suitable material. The branches of the pipes shall be so placed on each deck that the fire hose can be easily coupled to them.

4. Provision shall be made whereby at least two powerful jets of water can be rapidly and simultaneously directed into any space containing cargo. In addition, arrangements shall be made whereby smothering gas sufficient to give a minimum volume of free gas equal to 30 per cent. of the gross volume of the largest hold in the ship can be promptly conveyed by a permanent piping system into each compartment in which cargo is carried. Steam in adequately equivalent proportion may be accepted in place of smothering gas on steam-driven ships. Provision for the supply of smothering gas or steam need not be required in ships of less than 1,000 tons gross.

5. A sufficient number of portable fluid fire extinguishers shall be provided, at least two being carried in each machinery space.

6. Two equipments, consisting of a smoke helmet or breathing apparatus and a safety lamp, shall be carried on board, and kept in two widely separated places.

7. In steamships in which the main boilers are oil fired, there shall be provided in addition to means whereby two powerful jets of water may be rapidly and simultaneously directed into any part of the machinery spaces—

(*a*) Suitable conductors for spraying water on oil without undue disturbance of the surface.

(*b*) In each firing space, a receptacle containing 283 cubic decimetres (10 cubic feet) of sand, sawdust impregnated with soda, or other approved dry materials, and scoops for distributing the same.

(*c*) In each boiler room, and in each of the machinery spaces in which a part of the oil fuel installation is situated, two approved portable extinguishers of a type discharging froth or other approved medium suitable for quenching oil fires.

(*d*) Means whereby froth may be rapidly discharged and distributed over the whole of the lower part of the boiler room or of any one boiler room, if there are more than one, or of any machinery space in which oil fuel units or settling tanks are situated. The quantity of froth which can be discharged shall be ample to cover to a depth of 15.24 centimetres (6 inches) the whole area of the plating formed in any one compartment by the inner bottom plating, or by the shell plating of the vessel, if there is no double-bottom tank. If the engine and boiler rooms are not entirely separate, and fuel can drain from the boiler room bilges into the engine room, the combined engine and boiler rooms shall be considered as one compartment. The apparatus shall be operated and controlled from outside the compartment in which the fire may occur.

(*e*) In addition to the foregoing, one extinguisher of the froth type of at least 136 litres (30-gallons) capacity in steamships having one boiler room and two such extinguishers in steamships with more than one boiler room. These extinguishers shall be provided with hoses on reels suitable for reaching any part of the boiler rooms and spaces containing oil-fuel pumping units. Equally efficient apparatus may be accepted in place of the 136 litres (30-gallon) extinguishers.

(*f*) All containers and valves by which they are operated shall be easily accessible and so placed that they will not readily be cut off from use by an outbreak of fire.

8. In vessels propelled by internal combustion engines there shall be provided in each of the machinery spaces, in addition to means whereby two powerful jets of water may be rapidly and simultaneously directed into any part of the machinery spaces, together with suitable spraying conductors, froth extinguishers as follows:

(*a*) At least one approved 45 litres (10-gallons) extinguisher with an addition of one approved 9 litres (2-gallons) extinguisher for each 1,000 B.H.P. of the engines, but the total number of 9 litres (2-gallons) extinguishers so supplied shall be not less than two and need not exceed six.

(*b*) When a donkey boiler is situated in the machinery space there shall be provided, in place of the 45 litres (10-gallons) extinguisher mentioned above, one of 136 litres (30-gallons) capacity, fitted with suitable hose attachments or other approved methods for distributing the froth.

9. In steamships using oil fuel, if the engine and boiler rooms are not entirely separated by a steel bulkhead, and if fuel oil can drain from the boiler-room bilges into the engine room, one of the fire pumps shall be situated in the tunnel or other space outside the machinery compartment. When more than two pumps are required they shall not all be fittted in the same space.

10. Where any special type of appliance, extinguishing medium or arrangement is specified, any other type of appliance, &c., may be allowed, provided that it is not less effective than the specified one. For example—a carbon dioxide system may be accepted in place of a froth installation (paragraph 7, sub-paragraphs (*d*) and (*e*)), provided that the quantity of carbon dioxide carried is sufficient to give a gas saturation of about 25 per cent. for the gross volume of the stokehold to about the top of the boilers.

11. All the fire-extinguishing appliances shall be thoroughly examined at least once each year by a surveyor appointed by the Administration.

REGULATION XLIV

Muster List

The muster list shall assign duties to the different members of the crew in connexion with—

(*a*) The closing of the watertight doors, valves, &c.

(*b*) The equipment of the boats, life rafts and buoyant apparatus generally.

(*c*) The launching of the boats attached to davits.

(*d*) The general preparation of the other boats, the life rafts, and buoyant apparatus.

(*e*) The muster of the passengers.

(*f*) The extinction of fire.

The muster list shall assign to the members of the stewards' department their several duties in relation to the passengers at a time of emergency. These duties shall include:

(*a*) Warning of passengers.

(*b*) Seeing that they are dressed and have put on their life-jackets in a proper manner.

(c) Assembling the passengers at muster stations.
(d) Keeping order in the passages and on the stairways, and, generally, controlling the movements of the passengers.

The muster list shall specify definite signals for calling all the crew to their boat and fire stations, and shall give full particulars of these signals.

REGULATION XLV

Musters and Drills

Musters of the crew for boat drill shall take place weekly when practicable, and in vessels in which the voyage exceeds one week, before leaving port. The dates upon which musters are held shall be recorded in the official log book and, if in any week a muster is not held, an entry shall be made stating why a muster was not practicable.

In ships in which the voyage exceeds one week practice musters of passengers should be held at an early period of each voyage.

Different groups of boats shall be used in turn at successive boat drills. The drills and inspections shall be so arranged that the crew thoroughly understand and are practised in the duties they have to perform, and that all lifesaving appliances with the gear appertaining to them are always ready for immediate use.

The emergency signal for summoning passengers to muster stations shall be a succession of more than six short blasts followed by one long blast on the whistle or siren. This shall be supplemented on all ships except those engaged in short international voyages by other electrically operated signals throughout the ship controlled from the bridge. The meaning of all signals affecting passengers shall be clearly stated in different languages on cards posted in their cabins and in other passenger quarters.

SAFETY OF NAVIGATION

REGULATION XLVI

Transmission of Information

The transmission of information regarding ice, derelicts, tropical storms or any other direct danger to navigation is obligatory. The form in which the information is sent is not obligatory. It may be transmitted either in plain language (preferably English) or by means of the International Code of Signals (Wireless Telegraphy Section). It should be issued CQ to all ships, and should also be sent to the first point of the coast to which communication can be made with a request that it be transmitted to the appropriate authority.

All messages issued under Article 34 of the present Convention will be preceded by the safety signal TTT followed by an indication of the nature of the danger, thus: TTT Ice; TTT Derelict; TTT Storm; TTT Navigation.

Information required

The following information is desired, the time in all cases being Greenwich mean time:

(a) ICE, DERELICTS AND OTHER DIRECT DANGERS TO NAVIGATION.
(1) the kind of ice, derelict or danger observed;
(2) the position of the ice, derelict or danger when last observed;
(3) the time and date when the observation was made.

(b) TROPICAL STORMS.—(Hurricanes in the West Indies, typhoons in the China seas, cyclones in Indian waters, and storms of a similar nature in other regions.)
(1) *A statement that a tropical storm has been encountered.*—This obligation should be interpreted in a broad spirit, and information transmitted whenever the master has good reason to believe that a tropical storm exists in his neighbourhood.
(2) *Meteorological information.*—In view of the great assistance given by accurate meteorological data in fixing the position and movement of storm centres, each shipmaster should add to his warning message as much of the following meteorological information as he finds practicable:
(a) barometric pressure (millibars, inches or millimetres);
(b) change in barometric pressure (the change during the previous two to four hours);
(c) wind direction (true not magnetic);
(d) wind force (Beaufort or decimal scale);
(e) state of the sea (smooth, moderate, rough, high);
(f) swell (slight, medium, heavy) and the direction from which it comes.

When barometric pressure is given the word "millibars," "inches" or "millimetres," as the case may be, should be added to the reading, and *it should always be stated whether the reading is corrected or uncorrected.*

When changes of the barometer are reported the course and speed of the ship should also be given.

All directions should be true, not magnetic.

(3) *Time and date and position of the ship.*—These should be for the time and position when the meteorological observations reported were made and not when the message was prepared or despatched. The time used in all cases should be Greenwich mean time.

(4) *Subsequent observations.*—When a master has reported a tropical storm it is desirable, but not obligatory, that other observations be made and transmitted at intervals of three hours, so long as the ship remains under the influence of the storm.

Examples

Ice

TTT Ice. Large berg sighted in 4605 N., 4410 W., at 0800 GMT. May 15.

Derelict

TTT Derelict. Observed derelict almost submerged in 4006 N., 1243 W., at 1630 GMT. April 21.

Danger to Navigation

TTT Navigation. Alpha lightship not on station. 1800 GMT. January 3.

Tropical Storm

TTT Storm. Experiencing tropical storm. Barometer corrected 994 millibars, falling rapidly. Wind NW., force 9, heavy squalls. Swell E. Course ENE., 5 knots. 2204 N., 11354 E. 0030 GMT. August 18.

TTT Storm. Appearances indicate approach of hurricane. Barometer corrected 29.64 inches falling. Wind NE., force 8. Swell medium from NE. Frequent rain squalls. Course 35°, 9 knots. 2200 N., 7236 W. 1300 GMT. September 14.

TTT Storm. Conditions indicate intense cyclone has formed. Wind S. by W. force 5. Barometer uncorrected 753 millimetres, fell 5 millimetres last three hours. Course N. 60 W., 8 knots. 1620 N., 9302 E. 0200 GMT. May 4.

TTT Storm. Typhoon to south-east. Wind increasing from N. and barometer falling rapidly. Position 1812 N., 12605 E. 0300 GMT. June 12.

CERTIFICATES

REGULATION XLVII

Form of Safety Certificate for Passenger Ships

SAFETY CERTIFICATE

(*Official Seal*) (*Country*)

an
for ——— international voyage.
a short

Issued under the provisions of the

INTERNATIONAL CONVENTION FOR SAFETY OF LIFE AT SEA, 1929

Name of ship	Distinctive number or letters	Port of registry	Gross tonnage

The (*Name*) Government certifies

I, the undersigned, (*Name*) certify

I. That the above-mentioned ship has been duly surveyed in accordance with the provisions of the International Convention referred to above.

II. That the survey showed that the ship complied with the requirements of the said Convention as regards—
(1) the hull, main and auxiliary boilers and machinery;
(2) the watertight subdivision arrangements and details;
(3) the following subdivision loadlines:

Subdivision loadlines assigned and marked on the ship's side at amidships (Convention Article 5)	Freeboard	To apply when the spaces in which passengers are carried include the following alternative spaces
C. 1		
C. 2		
C. 3		

(4) the boats, life rafts and life-saving appliances which provide for a total number (crew and passengers) of ------ persons, and no more, viz.:
------ boats capable of accommodating ------ persons.
------ life rafts " " ------ "
------ buoyant apparatus capable of supporting ------ persons.
------ life-buoys.
------ life-jackets.
------ certificated lifeboatmen.

(5) the radiotelegraph installations:

	Requirements of Articles ------ of the said Convention.	Actual provision
Hours of watch		
Whether approved auto-alarm fitted		
Whether separate emergency installation fitted		
Minimum number of operators		
Additional operators or watchers		
Whether direction-find ng apparatus fitted		

III. That in all other respects the ship complies with the requirements of the said Convention, so far as those requirements apply thereto.

This certificate is issued under the authority of the Government. It will remain in force until

Issued at the day of

Here follows the seal or signature of the authority entitled to issue this certificate.

(*Seal*)

If signed, the following paragraph is to be added:

The undersigned declares that he is duly authorised by the said Government to issue this certificate.

(*Signature*)

Form of Safety Radiotelegraphy Certificate

SAFETY RADIOTELEGRAPHY CERTIFICATE

(*Official Seal*) (*Country*)

Issued under the provisions of the

INTERNATIONAL CONVENTION FOR SAFETY OF LIFE AT SEA, 1929

Name of ship	Distinctive number or letters	Port of registry	Gross tonnage

The (*Name*) Government certify

I, the undersigned, (*Name*) certify

That the above-mentioned ship complies with the provisions of the International Convention referred to above as regards radiotelegraphy:

	Requirements of Articles ..... of the said Convention.	Actual provision.
Hours of Watch		
Whether approved auto-alarm fitted		
Whether separate emergency installation fitted		
Minimum number of operators		
Additional operators or watchers		
Whether direction-finding apparatus fitted		

This certificate is issued under the authority of the Government. It will remain in force until

Issued at the day of

Here follows the seal or signature of the authority entitled to issue this certificate.

(*Seal*)

If signed, the following paragraph is to be added:

The undersigned declares that he is duly authorized by the said Government to issue this certificate.

(*Signature*)

Form of Exemption Certificate

EXEMPTION CERTIFICATE

(*Official Seal*) (*Country*)

Issued under the provisions of the

INTERNATIONAL CONVENTION FOR SAFETY OF LIFE AT SEA, 1929

Name of ship	Distinctive number or letters	Port of registry	Gross tonnage

The (*Name*) Government certify

I, the undersigned, (*Name*) certify

That the above-mentioned ship is under the authority conferred by Article ..... of the International Convention referred to above exempted from the requirements of† .....

of the Convention on the voyages.....

to .....

* Insert here the conditions, if any, on which the exemption certificate is granted. *

This certificate is issued under the authority of the Government. It will remain in force until

Issued at the day of

Here follows the seal or signature of the authority entitled to issue this certificate.

(*Seal*)

If signed, the following paragraph is to be added:

The undersigned declares that he is duly authorised by the said Government to issue this certificate.

(*Signature*)

† Insert here references to articles and regulations, specifying particular paragraphs.

ANNEX II

INTERNATIONAL REGULATIONS FOR PREVENTING COLLISIONS AT SEA

Preliminary

These Rules shall be followed by all vessels upon the high seas and in all waters connected therewith, navigable by sea-going vessels.

In the following Rules every steam vessel which is under sail and not under steam is to be considered a sailing vessel, and every vessel under steam, whether under sail or not, is to be considered a steam vessel.

The words "steam vessel" shall include any vessel propelled by machinery.

The term "under steam" shall mean under any mechanical power.

A vessel is "under way" within the meaning of these Rules when she is not at anchor or made fast to the shore or aground.

The length of a vessel shall be deemed to be the length appearing in her certificate of registry.

Rules concerning Lights, &c.

The word "visible" in these Rules, when applied to lights, shall mean visible on a dark night with a clear atmosphere.

ARTICLE 1

The Rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights *or impair their visibility* shall be exhibited.

ARTICLE 2

A steam vessel when under way shall carry:

(*a*) On or in front of the foremast, or if a vessel without a foremast, then in the fore part of the vessel, [at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet,] a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 5 miles.

(*b*) *Either forward or aft of the white light mentioned in subdivision* (a) *a second white light similar in construction and character to that light.*

Vessels of less than 150 feet in length shall not be required to carry this second white light, but may do so.

(*c*) *These two white lights shall be so placed in a line with the keel that one shall be at least 15 feet higher than the other and in such a position that the lower light shall be forward of the upper one, and higher than the lights mentioned in Article 2* (d) *and* (e). *The vertical distance between the two white lights shall be less than the horizontal distance. The lower of these two white lights, or if only one is carried, then that light, shall be placed at a height above the hull of not less than 20 feet, and, if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet.*

[(*b*)] (*d*) On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.

[(*c*)] (*e*) On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.

[(*d*)] (*f*) The said green and red side lights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.

[(*e*) A steam vessel when under way may carry an additional white light similar in construction to the light mentioned in subdivision (*a*). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.]

In naval vessels of special construction in which it is not possible to comply fully with the provisions of this article as to the position of lights or their range of visibility, those provisions shall be followed as closely as circumstances will permit.

ARTICLE 3

A steam vessel when towing another vessel shall, in addition to her side lights, carry two bright white lights in a vertical line one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and *one of them* shall be carried in the same position as the white light mentioned in Article 2 (*a*), [except the additional light which may] *and the lowest light shall* be carried at a height of not less than 14 feet above the hull.

[Such steam vessel] *The vessel towing and the vessels towed, except the last vessel of the tow,* may carry *in lieu of the light required in Article 10,* a small white light abaft the funnel or aftermast, for the [vessel towed] tow to steer by, but such light shall not be visible forward of the beam.

ARTICLE 4

(*a*) A vessel which [from any accident] is not under command shall carry [at the same height as the white light mentioned in Article 2 (*a*),] where they can best be seen, and, if a steam vessel, in lieu of [that light] *the lights required in Article 2* (a) *and* (b), two red lights, in a vertical line one over the other, not less than 6 feet apart, *so placed that the lower light shall not be less than 14 feet above the hull,* and of such a character as

to be visible all round the horizon at a distance of at least 2 miles; and shall by day carry in a vertical line, one over the other not less than 6 feet apart, where they can best be seen, two black balls or shapes each 2 feet in diameter.

(*b*) A vessel employed in laying or in picking up a [telegraph] *submarine* cable shall carry [in the same position as the white light mentioned in Article 2 (*a*), and if a steam vessel,] in lieu of [that light] *the lights required in Article 2* (a) *and* (b), three lights in a vertical line, one over the other, not less than 6 feet apart, *so placed that the lowest of these lights shall be not less than 14 feet above the hull.* The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible all round the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line, one over the other, not less than 6 feet apart, where they can best be seen, three shapes not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(*c*) The vessels referred to in this article, when not making way through the water, shall not carry the side lights, but when making way shall carry them.

(*d*) The lights and shapes required to be shown by this article are to be taken by other vessels as signals that the vessel showing them is not under command and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in Article 31.

ARTICLE 5

A sailing vessel under way, and any vessel being towed, shall carry the same lights as are prescribed by Article 2 for a steam vessel under way, with the exception of the white lights mentioned therein, which they shall never carry.

ARTICLE 6

Whenever, as in the case of small vessels under way during bad weather, the green and red side lights cannot be fixed, these lights shall be kept at hand lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

ARTICLE 7

Steam vessels of less than 40, and vessels under oars or sails of less than 20 tons gross tonnage, respectively, and rowing boats, when under way, shall not be [obliged] *required* to carry the lights mentioned in Article 2 [(*a*), (*b*) and (*c*),] but if they do not carry them they shall be provided with the following lights:

1. Steam vessels of less than 40 tons shall carry:

(*a*) In the fore part of the vessel, [or] on or in front of the funnel where it can best be seen, and at a height above the gunwale of not less than 9 feet, a bright white light constructed and fixed as prescribed in Article 2 (*a*), and of such a character as to be visible at a distance of at least [2] *3* miles.

(*b*) Green and red side lights constructed and fixed as prescribed in Article 2 [(*b*) and (*e*),] (d) and (e), and of such a character as to be visible at a distance of at least 1 mile, or a combined lantern showing a green light and a red light from right ahead to 2 points abaft the beam on their respective sides. Such lantern shall be carried not less than 3 feet below the white light.

2. Small steamboats, such as are carried by sea-going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above *the side lights or* the combined lantern, mentioned in sub-division 1 (*b*).

3. Vessels under oars or sails, of less than 20 tons, shall [have ready at hand] *if they do not carry the side lights, carry, where it can best be seen,* a lantern [with] *showing* a green [glass] *light* on one side and a red [glass] *light* on the other, [which, on the approach of or to other vessels, shall be exhibited in sufficient time to prevent collision,] *of such a character as to be visible at a distance of at least 1 mile* so that the green light shall not be seen on the port side nor the red light on the starboard side; *provided that, where it is not possible to fix this light, it shall be kept lighted and ready for use, and shall be exhibited in sufficient time to prevent collision.*

4. *Small* rowing boats, whether under oars or sail, shall *only be required to* have ready at hand a *lighted* lantern showing a white light, which shall be temporarily exhibited in sufficient time to prevent collision.

The vessels referred to in this article shall not be obliged to carry the lights prescribed by Article 4 (*a*), and Article 11, last paragraph.

ARTICLE 8

Sailing pilot-vessels, when engaged on their station on pilotage duty, *and not at anchor,* shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon, *at a distance of at least 3 miles,* and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed [fifteen] *ten* minutes.

On the near approach of or to other vessels they shall have their side lights lighted, ready for use, and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A *sailing* pilot-vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board may show the white light instead of carrying it at the masthead, and may, instead of the [coloured] *side* lights above mentioned, have at hand, ready for use, a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed above.

A steam pilot-vessel [exclusively employed for the service of pilots licensed or certified by any pilotage authority or the Committee of any pilotage district,] when engaged on her station on pilotage duty and not at anchor, shall, in addition to the lights *and flares* required for [all pilot boats] *sailing pilot-vessels,* carry at a distance of eight feet below her white masthead light, a red light, visible all round the horizon [and of such a character as to be visible on a dark night with a clear atmosphere] at a distance of at least [two] *three* miles, and also the [coloured] side lights required to be carried by vessels when under way.

All pilot-vessels, when engaged on their stations on pilotage duty and at anchor, shall carry the lights and show the flares prescribed above, except that the side lights shall not be shown.

When not engaged on their stations on pilotage duty, they shall carry the same lights as other vessels of their class and tonnage.

[When engaged on her station on pilotage duty and at anchor she shall carry, in addition to the lights required for all pilot boats, the red light above mentioned, but not the coloured side lights.

Pilot-vessels, when not engaged on their station on pilotage duty shall carry lights similar to those of other vessels of their tonnage.]

ARTICLE 9 *†

Fishing-vessels and fishing-boats, when under way and when not required by this article to carry or show the lights hereinafter specified, shall carry or show the lights prescribed for vessels of their tonnage under way.

(*a*) Open boats, by which it is to be understood boats not protected from the entry of sea water by means of a continuous deck, when engaged in any fishing at night with outlying tackle extending not more than 150 feet horizontally from the boat into the seaway, shall carry one all-round white light.

Open boats, when fishing at night, with outlying tackle extending more than 150 feet horizontally from the boat into the seaway, shall carry one all-round white light, and, in addition, on approaching or being approached by other vessels, shall show a second white light at least 3 feet below the first light and at a horizontal distance of at least 5 feet away from it in the direction in which the outlying tackle is attached.

The lights mentioned in this sub-division shall be of such a character as to be visible at a distance of at least 2 miles.

‡(*b*) Vessels and boats, except open boats as defined in sub-division (*a*), when fishing with drift-nets, shall, so long as the nets are wholly or partly in the water, carry two white lights where they can best be seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet and not more than 15 feet, and so that the horizontal distance between them, measured in a line with the keel, shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be in the direction of the nets, and both of them shall be of such a character as to show all round the horizon, and to be visible at a distance of not less than 3 miles.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea, § sailing fishing-vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the net or gear) a white light visible at a distance of not less than one sea mile on the approach of or to other vessels.

(*c*) Vessels and boats, except open boats as defined in sub-division (*a*), when line-fishing with their lines out and attached to or hauling their lines, and when not at anchor or stationary within the meaning of sub-division (*h*), shall carry the same lights as vessels fishing with drift-nets. When shooting lines, or fishing with towing lines, they shall carry the lights prescribed for a steam or sailing vessel under way respectively.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea, § sailing fishing-vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the lines) a white light, visible at a distance of not less than one sea mile on the approach of or to other vessels.

---

* This article does not apply to Chinese or Siamese vessels.

† The expression "Mediterranean Sea" contained in sub-sections (*b*) and (*c*) of this article includes the Black Sea and the other adjacent inland seas in communication with it.

‡ Dutch vessels and boats when engaged in the "kol," or hand-line, fishing will carry the lights prescribed for vessels fishing with drift-nets.

§ Also, as regards Russian vessels, in the seas (excluding the Baltic) bordering the coasts of Russia.

(*d*) Vessels, when engaged in trawling, by which is meant the dragging of an apparatus along the bottom of the sea—

1. If steam vessels, shall carry in the same position as the white light mentioned in Article 2 (*a*), a tri-coloured lantern so constructed and fixed as to show a white light from right ahead to two points on each bow, and a green light and a red light over an arc of the horizon from two points on each bow to two points abaft the beam on the starboard and port sides, respectively; and not less than 6 nor more than 12 feet below the tri-coloured lantern a white light in a lantern, so constructed as to show a clear, uniform and unbroken light all round the horizon.
2. If sailing vessels, shall carry a white light in a lantern, so constructed as to show a clear, uniform and unbroken light all round the horizon, and shall also, on the approach of or to other vessels, show where it can best be seen a white flare-up light or torch in sufficient time to prevent collision.

All lights mentioned in sub-division (*d*), 1 and 2, shall be visible at a distance of at least 2 miles.

(*e*) Oyster dredgers and other vessels fishing with dredge-nets shall carry and show the same lights as trawlers.

(*f*) Fishing vessels and fishing-boats may at any time use a flare-up light in addition to the lights which they are by this article required to carry and show, and they may also use working lights.

(*g*) Every fishing-vessel and every fishing-boat under 150 feet in length, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least [one] *2* miles.

Every fishing-vessel of 150 feet in length or upwards, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least [one] *2* miles and shall exhibit a second light as provided for vessels of such length by Article 11.

Should any such vessel, whether under 150 feet in length, or of 150 feet in length or upwards, be attached to a net or other fishing gear, she shall, on the approach of other vessels, show an additional white light at least 3 feet below the anchor light, and at a horizontal distance of at least 5 feet away from it in the direction of the net or gear.

(*h*) If a vessel or boat when fishing becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall in day-time haul down the day-signal required by sub-division (*k*); at night show the light or lights prescribed for a vessel at anchor; and, during fog, mist, falling snow, or heavy rain-storms, make the signal prescribed for a vessel at anchor. (See sub-division (*d*), and the last paragraph of Article 15.)

(*i*) In fog, mist, falling snow, or heavy rain-storms, drift-net vessels attached to their nets, and vessels when trawling, dredging, or fishing with any kind of drag-net, and vessels line fishing with their lines out, shall, if of 20 tons gross tonnage or upwards, respectively, at intervals of not more than one minute, make a blast; if steam vessels, with the whistle or siren, and, if sailing vessels, with the fog-horn; each blast to be followed by ringing the bell. Fishing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals; but, if they do not, they shall make some other efficient sound signal at intervals of not more than one minute.

(*k*) All vessels or boats fishing with nets or lines or trawls, when under way, shall in daytime indicate their occupation [to an approaching vessel] by displaying a basket [or other efficient signal] where it can best be seen. If vessels or boats at anchor have their gear out, they shall, on the approach of other vessels, show the same signal on the side on which those vessels can pass.

The vessels required by this article to carry or show the lights hereinbefore specified shall not be obliged to carry the lights prescribed by Article 4 (*a*) and the last paragraph of Article 11.

ARTICLE 10

[A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.

The white light required to be shown by this article may be fixed and carried in a lantern, but in such case the lantern shall be] *A vessel when under way shall carry at her stern, a white light* so constructed, fitted, and screened, that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the vessel, *and of such a character* [so] as to be visible at a distance of at least [1 mile] *2 miles*. Such light shall be carried as nearly as practicable on the same level as the side lights.

In small vessels, if it is not possible on account of bad weather or other sufficient cause for this light to be fixed, a light shall be kept at hand lighted and ready for use, and shall, on the approach of an overtaking vessel, be shown in sufficient time to prevent collision.

For vessels engaged in towing, see Article 3, last paragraph.

ARTICLE 11

A vessel under 150 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear, uniform, and unbroken light visible all round the horizon at a distance of at least [1] *2* miles.

A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40, feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

Between sunrise and sunset all vessels when at anchor in or near a fairway shall carry, forward, where it can best be seen, one black ball, 2 feet in diameter. [The length of a vessel shall be deemed to be the length appearing in her certificate of registry.]

A vessel aground in or near a fairway shall carry *by night* the above light or lights and the two red lights prescribed by Article 4 (*a*), *and by day, where they can best be seen, 3 black balls, each 2 feet in diameter, placed in a vertical line one over the other.*

ARTICLE 12

Every vessel may, if necessary, in order to attract attention, in addition to the lights which she is by these Rules required to carry, show a flare-up light or use any detonating *or other efficient sound* signal that cannot be mistaken for *a prescribed* distress *or fog* signal.

ARTICLE 13

Nothing in these Rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by shipowners, which have been authorized by their respective Governments and duly registered and published.

ARTICLE 14

A [steam] vessel proceeding under sail [only, but having her funnel up], *when also under steam or other mechanical power* shall carry in *the* daytime, forward, where it can best be seen, one [black ball] *black cone, point upwards,* 2 feet in diameter *at its base.*

Sound Signals for Fog, &c.

ARTICLE 15

All signals prescribed by this article for vessels under way shall be given—

1. By "steam vessels" on the whistle or siren.
2. By "sailing vessels and vessels towed" on the fog horn.

The words "prolonged blast" used in this article, shall mean a blast of from 4 to 6 seconds' duration.

A steam vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction and with an efficient fog horn, to be sounded by mechanical means, and also with an efficient bell.* A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog horn and bell.

In fog, mist, falling snow or heavy rain-storms, whether by day or night, the signals described in this article shall be used as follows, viz.:

(*a*) A steam vessel having way upon her, shall sound, at intervals of not more than 2 minutes, a prolonged blast.

(*b*) A steam vessel under way, but stopped and having no way upon her, shall sound, at intervals of not more than 2 minutes, 2 prolonged blasts, with an interval of about 1 second between them.

(*c*) A sailing vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack, 1 blast, when on the port tack, 2 blasts in succession, and when with the wind abaft the beam, 3 blasts in succession.

(*d*) A vessel, when at anchor, shall, at intervals of not more than 1 minute, ring the bell rapidly for about 5 seconds.

In vessels of more than 350 feet in length the bell shall be sounded in the forepart of the vessel, and, in addition, there shall be sounded in the after-part of the vessel, at intervals of not more than 1 minute, a gong or other instrument, the tone of which cannot be confused with the ringing of the bell.

(*e*) A vessel, when towing, a vessel employed in laying or in picking up a [telegraph] *submarine* cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to manœuvre as required by these Rules shall, instead of the signals prescribed in sub-divisions (*a*), (*b*) and (*c*) of this article, at intervals of not more than 2 minutes, sound 3 blasts in succession, viz., 1 prolonged blast followed by 2 short blasts. [A vessel towed may give this signal and she shall not give any other.]

A vessel towed, or if more than one vessel is towed, the last vessel of the tow, shall, at intervals of not more than 2 minutes, sound 4 blasts in succession, viz., 1 prolonged blast followed by 3 short blasts, provided that this signal is not required when it is impossible to keep the vessel manned.

When practicable, the vessel towed shall make this signal immediately after the signal made by the towing vessel.

(*f*) *A vessel aground in or near a fairway shall give the signal prescribed in paragraph* (d), *and shall, in addition, give 3 separate and distinct strokes on the bell immediately preceding and following each such signal.*

Sailing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals, but if they do not, they shall make some other efficient sound-signal at intervals of not more than 1 minute.†

---

* In all cases where the rules require a bell to be used a drum may be substituted on board Turkish vessels, or a gong where such articles are used on board small sea-going vessels.

† Dutch steam pilot-vessels, when engaged on their station on pilotage duty in fog, mist, falling snow, or heavy rain-storms, are required to make at intervals of 2 minutes at most one long blast with the siren, followed after 1 second by a long blast with the steam whistle and again after 1 second by a long blast on the siren. When not engaged on their station on pilotage duty, they make the same signals as other steamships.

Speed of Ships to be Moderate in Fog, &c.

ARTICLE 16

Every vessel shall, in a fog, mist, falling snow, or heavy rainstorms, go at a moderate speed, having careful regard to the existing circumstances and conditions.

A steam vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

Steering and Sailing Rules

PRELIMINARY—RISK OF COLLISION.

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

ARTICLE 17

When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz.:

(*a*) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.

(*b*) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.

(*c*) When both are running free, with wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.

(*d*) When both are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.

(*e*) A vessel which has the wind aft shall keep out of the way of the other vessel.

ARTICLE 18

When two steam vessels are meeting end on, or nearly end on, so as to involve risk of collison, each shall alter her course to starboard, so that each may pass on the port side of the other.

This article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and, by night, to cases in which each vessel is in such a position as to see both the side lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead, or where both green and red lights are seen anywhere but ahead.

ARTICLE 19

When two steam vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

ARTICLE 20

When a steam vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam vessel shall keep out of the way of the sailing vessel.

ARTICLE 21

Where by way of these Rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

Note.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel, she also shall take such action as will best aid to avert collision. (See Articles 27 and 29.)

ARTICLE 22

Every vessel which is directed by these Rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

ARTICLE 23

Every steam vessel which is directed by these Rules is to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

ARTICLE 24

Notwithstanding anything contained in these Rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than two points abaft her beam, *i. e.*, in such a position, with reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's side lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these Rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

ARTICLE 25

In narrow channels every steam vessel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such vessel.

ARTICLE 26

Sailing vessels under way shall keep out of the way of sailing vessels or boats fishing with nets, or lines, or trawls. This Rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fair-way used by vessels other than fishing-vessels or boats.

ARTICLE 27

In obeying and construing these Rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above Rules necessary in order to avoid immediate danger.

Sound-Signals for Vessels in Sight of One Another

ARTICLE 28

The words "short blast" used in this article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam vessel under way, in taking any course authorized or required by these Rules, shall indicate that course by the following signals on her whistle or siren, viz.:

One short blast to mean, "I am directing my course to starboard."

Two short blasts to mean, "I am directing my course to port."

Three short blasts to mean, "My engines are going full speed astern."

No Vessel under Any Circumstances to Neglect Proper Precautions

ARTICLE 29

Nothing in these Rules shall exonerate any vessel, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation

ARTICLE 30

Nothing in these Rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland waters.

Distress Signals

ARTICLE 31

When a vessel is in distress and requires assistance from other vessels or from the shore, the following shall be the signals to be used or displayed by her, either together or separately, viz.:

In the daytime—

1. A gun or other explosive signal fired at intervals of about a minute;
2. The International Code signal of distress; [indicated by N. C.]
3. The [distant] *distance* signal, consisting of a square flag, having either above or below it a ball or anything resembling a ball;
4. A continuous sounding with any fog-signal apparatus;
5. *The international distress signal made by radiotelegraphy or radiotelephony, or by any other distance signalling method.*

At night—

1. A gun or other explosive signal fired at intervals of about a minute;
2. Flames on the vessel (as from a burning tar-barrel, oil-barrel, &c.);
3. Rockets or shells, throwing stars of any colour or description, fired one at a time, at short intervals;
4. A continuous sounding with any fog-signal apparatus;
5. *The international distress signal made by radiotelegraphy or radiotelephony, or by any other distance signalling method.*

The use of any of the above signals, except for the purpose of indicating that a vessel is in distress, and the use of any signals which may be confused with any of the above signals, is prohibited.

FINAL ACT OF THE INTERNATIONAL CONFERENCE ON SAFETY OF LIFE AT SEA, 1929

The Governments of Germany, the Commonwealth of Australia, Belgium, Canada, Denmark, Spain, the Irish Free State, the United States of America, Finland, France, the United Kingdom of Great Britain and Northern Ireland, India, Italy, Japan, Norway, the Netherlands, Sweden, the Union of Socialist Soviet Republics;

Desirous of promoting safety of life at sea by establishing in common agreement uniform principles and rules directed thereto;

Having decided to participate in an international conference which, upon the invitation of the Government of the United Kingdom of Great Britain and Northern Ireland, was held in London;

Appointed the following delegations:

GERMANY

Delegates:

Dr. Friedrich Sthamer, Ambassador Extraordinary and Plenipotentiary of the German Reich in London.

Mr. Koenigs, Ministerialdirigent in the Reichsverkehrsministerium, Geheimer Regierungsrat, Berlin.

Mr. Werner, Oberregierungsrat in the Reichsverkehrsministerium, Geheimer Justizrat, Berlin.
Mr. Laas, Professor, Director of the "Germanischer Lloyd" Classification Society, Berlin.
Dr. Riess, Director, ret. of the Reichsschiffsvermessungsamt, Geheimer Regierungsrat, Neubrandenburg.
Mr. Giess, Ministerialrat in the Reichspostministerium, Berlin.
Vice-Admiral Dominik, President of the "Deutsche Seewarte," Hamburg.

Experts:

Mr. Behner, Director of the "Deutsche Betriebsgesellschaft fuer drahtlose Telegraphie," Berlin.
Mr. Elingius, Captain, Hamburg-Suedamerika Linie, Hamburg.
Mr. Biedermann, Director, Norddeutscher Lloyd, Bremen.
Mr. Freyer, Captain, Hamburg.
Mr. Heberling, Diplom-Ingenieur, "Germanischer Lloyd" Classification Society, Berlin.
Dr. Jäger, Oberpostrat in the Reichspostministerium.
Mr. Köhler, Hamburg.
Mr. Kunstmann, Shipowner, Japanese and Spanish Consul, Stettin.
Mr. Luensee, Captain, Regierungsrat in the "Deutsche Seewarte," Hamburg.
Mr. Reichenbächer, Director, Hamburg-Amerika Linie, Hamburg.
Mr. Suchting, Director, Blohm & Voss, Hamburg.

Secretary:

Mr. Kanberg, Postinspektor in the Reichspostministerium.

THE COMMONWEALTH OF AUSTRALIA

Delegates:

Captain Henry James Feakes, Royal Australian Navy, Commonwealth Naval Representative in London.
Lieut.-Commander Thomas Free, Royal Naval Reserve (Retired).
Captain J. K. Davis, Commonwealth Director of Navigation.

BELGIUM

Delegates:

Baron de Gerlache de Gomery, Director-General of the Marine Department.
Mr. Gustave De Winne, Ingénieur en Chef, Director of the Marine Department.
Mr. Georges Goor, Adviser to the Marine Department.
Mr. Gerard Vincent, Ingénieur.

CANADA

Delegates:

Mr. Alexander Johnson, Deputy Minister of Marine.
Mr. Lucien Pacaud, Secretary in the Office of the Canadian High Commissioner in London.

Experts:

Lieut.-Commander C. P. Edwards, Director of Radio, Department of Marine.
Mr. Frank McDonnell, Chairman of the Board of Steamship Inspection, Department of Marine.
Captain L. G. Dixon, Marine Superintendent.
Mr. J. W. Bain, Engineer in the Radio Branch, Department of Marine.
Captain J. Gillies, Representative in London of the Canadian Pacific Steamships, Ltd.
Captain A. S. M. Nicholls, Representative in London of the Canadian National Steamship Company.

Secretary:

Miss N. Frericks, Secretary to the Deputy Minister of Marine.

DENMARK

Delegates:

Mr. Emil Krogh, Assistant Secretary in the Marine Department, Ministry of Industry, Commerce, and Shipping.
Mr. V. Topsöe-Jensen, Judge of the Supreme Court of Appeal.
Captain V. Lorck, Chief Examiner of Masters and Mates.
Mr. J. A. Körbing, Technical Managing Director of the United Steamship Company, Copenhagen.
Mr. Aage H. Larsen, Engineer in Chief of the Ministry of Industry, Commerce and Shipping.
Mr. Arnold Poulsen, Engineer Commissioner to the Ministry of Industry, Commerce and Shipping.

Expert:

Mr. Hagelberg, Chairman of the Association of Danish Shipmasters.

Secretary:

Mr. P. Villadsen, Ministry of Industry, Commerce and Shipping.

SPAIN

Delegates:

Rear-Admiral Don Francisco Javier de Salas y Gonzales, Head of the Naval Commission in Europe.
Engineer-Commander Don Jose Rubi y Rubi, Naval Commission in Europe.
Lieut.-Commander Eduardo Garcia Ramirez.

IRISH FREE STATES

Delegates:

Mr. J. W. Dulanty, Commissioner for Trade for the Irish Free State in Great Britain.
Mr. E. C. Foster, Chief Surveyor in the Marine Branch, Department of Industry and Commerce.

UNITED STATES OF AMERICA

Delegates:

The Honourable Wallace H. White, Junior, Member of Congress, Chairman of the Committee on Merchant Marine and Fisheries.
Mr. Arthur J. Tyrer, Commissioner of Navigation, Department of Commerce.
Mr. Charles M. Barnes, Chief of the Treaty Division, Department of State.
Rear-Admiral George H. Rock, Construction Corps, United States Navy, Assistant Chief of the Bureau of Construction and Repair, Navy Department.
Captain Clarence S. Kempff, United States Navy, Hydrographer, Navy Department.
Mr. Dickerson N. Hoover, Supervising Inspector-General of the Steamboat Inspection Service, Department of Commerce.
Mr. William D. Terrell, Chief of the Radio Division, Department of Commerce.
Rear-Admiral John G. Tawresey, Construction Corps, United States Navy (Retired), United States Shipping Board.
Mr. Herbert B. Walker, President of the American Steamship Owners' Association.
Mr. Henry G. Smith, President of the National Council of American Shipbuilders.
Captain Charles A. McAllister, President of the American Bureau of Shipping.

Experts:

Lieut.-Commander E. L. Cochrane, Construction Corps, United States Navy, Bureau of Construction and Repair, Navy Department.
Mr. J. C. Niedermair, Navy Department.
Mr. J. F. MacMillan, Theodore E. Ferris, Naval Architect, American Steamship Owners' Association.
Mr. David Arnott, American Bureau of Shipping.
Captain William E. Griffith, United States Shipping Board.
Mr. A. J. Smith, Marine Office of America.
Captain N. B. Nelson, Steamboat Inspection Service.
Lieut. E. M. Webster, United States Coast Guard.
Commander C. M. Austin, United States Navy, Bureau of Navigation, Navy Department.
Mr. E. B. Calvert, United States Weather Bureau.

Secretary:

Mr. Vinton Chapin, Foreign Service Officer.

FINLAND

Delegates:

Baron Gustaf Wrede, President of the Shipping Board.
Captain Väinö Bergman, Inspector of Shipping.
Consul Karl Kurten, Manager of the Finnish Shipowners' Association.

Expert:

Captain Birger Brandt, Finnish Shipmasters' Association.

FRANCE

Delegates:

Mr. Rio, Senator and former Minister.
Captain Haarbleicher, Naval Construction Corps, Director of Mercantile Shipping Service, Department of Public Works.
Commander Marie, Naval Construction Corps, Direction of Mercantile Shipping.
Captain Thouroude, Naval Attaché to the French Embassy in London.

Experts:

Mr. de Berlhe, Deputy Manager of the Bureau Véritas.
Mr. Brillie, Chief Consulting Engineer of the Compagnie Générale Transatlantique.
Captain Bureau, National Meteorological Office.
Mr. de Catalano, General Marine Superintendent of the Compagnie Générale Transatlantique.
Mr. Dalix, Manager of the Compagnie Radio-Maritime.
Mr. Dubois, Marine Superintendent of the Compagnie des Messageries Maritimes.
Mr. Falcoz, Engineer Superintendent of the Compagnie des Messageries Maritimes.
Mr. Fricker, Chief Surveyor of the Bureau Véritas.
Mr. Nizery, Manager of the Compagnie des Chargeurs Réunis.
Mr. Pinczon, Consulting Naval Architect of the Chantiers de St. Nazaire.
Mr. Rosigneux, Chief of the Technical Service of the Comité Central des Armateurs de France.

Secretary:

Captain Dilly, Inspector of Navigation, Department of Public Works.

UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND

Delegates:

Sir Herbert W. Richmond, Vice-Admiral, Royal Navy.
Sir Westcott Abell, Professor of Naval Architecture, Armstrong College, Newcastle-on-Tyne.
Mr. A. L. Ayre, Vice-President of the Shipbuilding Employers' Federation.
Captain F. W. Bate, Professional Officer, Mercantile Marine Department, Board of Trade.
Mr. C. H. Boyd, Mercantile Marine Department, Board of Trade.
Sir William C. Currie, President of the Chamber of Shipping of the United Kingdom.
Mr. A. J. Daniel, Principal Ship Surveyor, Board of Trade.
Sir Norman Hill, Chairman of the Merchant Shipping Advisory Committee.
Sir Charles Hipwood, Principal Assistant Secretary, Mercantile Marine Department, Board of Trade.
Captain A. R. H. Morrell, Trinity House.

Experts:
Mr. G. Gunning, Assistant General Secretary, National Union of Seamen.
Commander G. S. Horsburgh, Cunard Steamship Company.
Commander F. G. Loring, Inspector of Wireless Telegraphy, General Post Office.
Dr. G. C. Simpson, Director of the Meteorological Office.
Secretary:
Mr. Walter Carter, Board of Trade.
Assistant Secretaries:
Mr. W. G. Fergusson, Board of Trade.
Mr. W. Graham, Board of Trade.
Mr. A. E. Lee, Board of Trade.
Mr. W. E. Stimpson, Board of Trade.
Mr. F. J. Waller, Board of Trade.
Mr. W. J. Wilton, Board of Trade.

INDIA

Delegates:
Sir Geoffrey L. Corbett, Commerce Department, Government of India.
Captain E. V. Whish, Port Officer, Bombay.
Mr. M. A. Master, General Manager of the Scindia Steam Navigation Company.

ITALY

Delegates:
Lieut.-General of Port G. Ingianni, General Director of the Mercantile Marine.
Vice-Admiral A. Alessio, Chief of the Technical Inspectorate of the Mercantile Marine.
Count D. Rogeri di Villanova, Counsellor to the Italian Embassy in London.
Mr. T. C. Giannini, Counsellor of Emigration.
Major-General of Port F. Marena, Vice-Inspector of Harbour Master Offices.
Engineer-General E. Ferretti, Chief of the Technical Office of the Italian Naval and Aeronautical Register.
Mr. G. Gneme, Chief of the Telegraph Service of the General Direction of Postal and Telegraphic Services.
Commander L. Biancheri, Royal Italian Navy.
Experts:
The Honourable I. M. Magrini, Member of Parliament, President of the National Fascist Confederation of Seamen and Airmen.
Mr. M. Cosulich, National Fascist Confederation of Maritime and Aerial Transport Enterprises.
Marquis L. Solari, Counsellor Delegate of Radio Marittima Italiana.
Mr. G. Solda, Inspector of the Naval and Aeronautical Register.
Captain L. Zino, National Fascist Confederation of Maritime and Aerial Transport Enterprises.
Secretaries:
Lieut.-Colonel of Port S. Giacchetti, Chief of the Secretariat of the General Direction of the Mercantile Marine.
Captain of Port F. Falcolini, Attaché to the Secretariat of the General Direction of the Mercantile Marine.

JAPAN

Delegates:
Mr. Yukio Yamamoto, Inspector-General of the Mercantile Marine Bureau, Expert in the Department of Communications.
Captain Shichihei Ota, Imperial Japanese Navy.
Mr. Itaro Ishii, First-Class Secretary of Embassy.
Experts:
Mr. Sonoji Tsuchiya, Secretary of the Local Administration Office of Communications.
Mr. Kazuma Minato, Expert in the Department of Communications.
Mr. Sozo Ikushima, Expert in the Department of Communications.
Mr. Kiyoji Seno, Expert in the Department of Communications.
Commander Prince Tadashige Shimadzu, Naval Attaché to the Japanese Embassy in London.
Mr. Toshio Takiyama, Expert in the Local Administration Office of Communications.
Constructor-Lieut.-Commander Narasaburo Masukata, Imperial Japanese Navy.
Mr. Toshinaga Saito, Manager, Ship Drawing Office, Kobe Works of Mitsubishi Shipbuilding Company, Limited.
Mr. Yoshio Saito, Assistant Superintendent Engineer of Nippon Yusen Kabushiki Kaisha.
Mr. Motoki Matsumura, Attaché.
Mr. Chuchei Anazawa, Expert in the Department of Communications.

NORWAY

Delegates:
Mr. B. Vogt, Norwegian Minister in London.
Mr. L. T. Hansen, Director of the Department of Shipping, Ministry of Commerce and Navigation.
Mr. J. Schönheyder, Survey-in-Chief of the Ship and Engineer Division, Ministry of Commerce and Navigation.
Mr. Arth H. Mathiesen, Vice-President of the Norwegian Shipowners' Association.
Captain N. Marstrander, Chairman of the Board of the Norwegian Masters' Association.
Mr. A. Birkeland, Manager of the Norwegian Seamen's and Firemen's Union.
Experts:
Mr. E. Wettergreen, Chief of Division, Ministry of Commerce and Navigation.
Mr. K. S. Irgens, Senior Captain, Norwegian America Line.
Commander Chr. Meyer, Assistant Secretary of the Norwegian Shipowners' Association.

NETHERLANDS

Delegates:
Vice-Admiral C. Fock, Inspector-General of Navigation.
Mr. C. H. de Goeje, Ex-Inspector-General of Navigation, Netherland East Indies.
Mr. A. van Driel, Adviser on Naval Architecture, Shipping Inspection Service.
Mr. J. A. Bland van den Berg, Inspector of Coastal and Ships' Radiotelegraphy.
Mr. Phs. van Ommeren, Junior, Chairman of Phs. van Ommeren, Ltd.
Mr. H. G. J. Uilkens, Ex-Commodore of Netherland Steamship Company.
Secretary:
Jonkheer H. P. J. Bosch van Drakestein, Attaché at the Netherland Legation in London.

SWEDEN

Delegates:
Baron Palmstierna, Swedish Minister in London.
Mr. Nils Gustaf Nilsson, Assistant Under-Secretary in the Board of Trade.
Captain Erik Axel Fredrik Eggert, Maritime Expert to the Social Board.
Experts and Assistant Delegates:
Mr. Axel Sigurd Litström, Chief Bureau Engineer in the Royal Telegraph Office.
Mr. Gunnar MacErik Böös, First Amanuensis in the Board of Trade.
Captain John Nils Gunnar Anderberg, The Swedish Shipowners' Association.
Captain Nils Petter Larsson, President of the Swedish Society of Masters and Officers of the Mercantile Marine.
Mr. Nicklas Olsson, President of the Swedish Seamen's Union.

UNION OF SOCIALIST SOVIET REPUBLICS

Delegates:
Mr. Jan Lvovitch Arens, Counsellor to the U. S. S. R. Embassy in Paris.
Captain Karl Pavlovitch Eggi, Commander of the Icebreaker "Lenin," Soviet Merchant Fleet (Sovtorgflot).
Expert and Secretary:
Mr. Peter Nikolaevitch Matveeff, Chief Inspector of the Register of the U. S. S. R.

The League of Nations, having been invited to send representatives to the Conference to act as observers, appointed the following delegation for this purpose:
Mr. Robert Haas, Secretary-General of the Advisory and Technical Committee for Communications and Transit,
Mr. J. M. F. Romein, Secretary of the Permanent Committee for Ports and Maritime Navigation,
Who accordingly assembled in London.

Vice-Admiral Sir Herbert Richmond was appointed President of the Conference, and Mr. W. Carter, Secretary-General.

For the purposes of its work the Conference set up the following Committees, of which the under-mentioned were Presidents:
Committee on Construction: Rear-Admiral Rock.
Committee on Life-Saving Appliances, &c.: Sir Norman Hill.
Committee on Radiotelegraphy: Mr. Giess.
Committee on Safety of Navigation: Sir Charles Hipwood.
Committee on Certificates: Major-General Marena.
Committee on General Provisions: Sir Charles Hipwood.
Committee on Drafting: Senator Rio.

In the course of a series of meetings between the 16th April, 1929, and the 31st May, 1929, a Convention, dated the 31st May, 1929, for the safety of life at sea was drawn up.

I

At the moment of signing the Convention for the Safety of Life at Sea concluded this day, the undersigned plenipotentiaries have agreed on the following:

SAFETY OPERATION

In order to ensure the coming into force at an early date of the international agreement to make the installation of radiotelegraphy obligatory on all cargo ships of 1,600 tons gross tonnage and upwards, and thereby to promote the general safety of life at sea, the Contracting Governments undertake to use their efforts to promote an amendment to the Radiotelegraph Convention to the effect that the requirements as to the minimum speed of operation to be attained by an operator on board a compulsorily fitted ship should be laid down as follows:

"Correct transmission and correct reception by ear of code groups (mixed letters, figures, and punctuation marks) at a speed of 16 (sixteen) groups per minute. Each code group must comprise 5 (five) characters, each figure or punctuation mark counting as 2 (two) characters."

Should the International Radiotelegraph Conference find itself unable to approve of the above proposal, the present Conference is of opinion that a new Certificate with operating qualifications as set out above should be established, and that the holders of such

Certificate should be authorised to deal with public correspondence in ship stations of the Third Class as defined by the Washington Radiotelegraph Convention.

II

The Conference takes note of the following declarations, made by the undermentioned delegations:

(A)

The Plenipotentiaries of the United States of America formally declare that the signing of the International Convention for the Safety of Life at Sea by them, on the part of the United States of America, on this date, is not to be construed to mean that the Government of the United States of America recognizes a régime or entity which signs or accedes to the Convention as the Government of a country when that régime or entity is not recognized by the Government of the United States of America as the Government of that country.

The Plenipotentiaries of the United States of America further declare that the participation of the United States of America in the International Convention for the Safety of Life at Sea signed on this date does not involve any contractual obligation on the part of the United States of America to a country, represented by a régime or entity which the Government of the United States of America does not recognize as the Government of that country, until such country has a Government recognized by the Government of the United States of America.

(B)

The Delegation of the Union of Socialist Soviet Republics declares that the Government of the Union of Socialist Soviet Republics, not being a party to the International Radiotelegraph Convention of 1927, does not consider itself bound by the undertaking embodied in Part I of this Final Act, but will, upon ratification of the International Convention for the Safety of Life at Sea, apply and give full effect to those articles of the last-named Convention and its annexes, where reference is made to provisions of the said Radiotelegraph Convention, as parties to the International Convention for the Safety of Life at Sea only.

III

The Conference also adopts the following recommendations:

AS REGARDS CONSTRUCTION

1. Stability

The necessity for and practicability of adopting stability regulations have been considered by this Conference, and the opinion has been reached that at this time it is practicable to adopt only the general requirement for stability tests on new passenger ships contained in Article 8. The Conference desires, however, to draw the attention of the Contracting Governments to the desirability of a study by each Administration of the subject of stability for the different national types of ships and trades, and of the exchange of information on this subject between these Contracting Governments.

2. Openings in Bulkheads and Ship's Sides

The objection which attaches to openings, which may sometimes be open at sea, in the sides of ships and in the main transverse watertight bulkheads is recognised by this Conference, but it is the sense of the Conference that it is not at this time practicable to adopt international regulations concerning such openings which are more exacting than those incorporated in the Regulations. The Conference recommends, however, that the various Governments make special effort to assure that the number of such openings, particularly hinged sidescuttles below the margin line and doors low down in the machinery space bulkheads, be kept at the minimum required in each case.

3. Services of Special Risk

The International Conference on Safety of Life at Sea realises that there are trades, such as the passenger services between England and the nearby Continental ports, in which the sea risks are, owing to weather and traffic conditions, exceptional, and where it is practicable, owing to the absence of general cargo, to adopt a higher standard of subdivision than that prescribed by the Convention. The Conference, therefore, recommends that the Contracting Governments concerned consider the adoption, in the case of ships primarily engaged in the carriage of passengers in such trades, of such improved standards of subdivision as may be found reasonable and practicable.

AS REGARDS LIFE-SAVING APPLIANCES, &c.

4. Means of Clinging to Boats

The International Conference on Safety of Life at Sea recommends that the Contracting Governments should consider the practicability of requiring lifeboats carried on ships registered in their ports to be fitted with means to enable persons to cling to the boats if upturned in the water, without increasing the risks incident to the lowering of the boat.

5. Dangerous Goods

The International Conference on Safety of Life at Sea recommends that every possible effort should be made with a view to attaining an international agreement as to what goods should be considered as "dangerous goods" as mentioned in Article 24 of the present Convention and of fixing uniform rules for the packing and stowage of such goods.

AS REGARDS RADIOTELEGRAPHY

6. Alarm Signal

The International Conference on Safety of Life at Sea, having approved of the use of the automatic alarm receiver for watch-keeping purposes, and anticipating that a large number of these receivers will be installed in passenger and cargo ships in the near future, recommends that the next International Radiotelegraph Conference prescribe that "the alarm signal shall, as a general rule, precede the distress signal."

7. Cyclone Warnings

The International Conference on Safety of Life at Sea, considering that it is of more importance to prevent disaster than to render assistance after a disaster has occurred, and being of the opinion that in certain cases use may be made of the auto-alarm to this end, strongly recommends that the next International Radiotelegraph Conference authorise Governments to permit coast stations under their jurisdiction to precede the broadcasting of emergency cyclone warnings by the alarm signal.

8. Wave Lengths

The International Conference on Safety of Life at Sea draws the attention of the Governments concerned to the advisability of ensuring that signals of distress utilising waves of Type A2 shall be effective over a sufficiently wide band of frequencies.

The Conference also desires to draw attention to the provisions of Article 5, § 11, of the Regulations annexed to the International Radiotelegraph Convention, Washington, 1927, and to point out that radiotelephonic transmissions on frequencies in the neighbourhood of the distress wave will render inoperative automatic alarm receivers working on the alarm signal defined in Article 19, § 21, (*e*), of the above-mentioned Regulations. The Conference desires, therefore, to emphasize the importance, in the interests of safety of life at sea, of avoiding the use of radiotelephonic emissions in the neighbourhood of the distress wave, except in case of emergency.

AS REGARDS SAFETY OF NAVIGATION

9. Radio Aids to Navigation

The International Conference on Safety of Life at Sea recommends that the Contracting Governments should establish and maintain an adequate system of radio aids to navigation, and should take all necessary measures to ensure the efficiency and reliability of such services.

10. Synchronised Radio and Under-water Signals

The International Conference on Safety of Life at Sea favours the extension of the installation of distance-finding apparatus capable of emitting synchronised radio and under-water signals, as necessary to meet navigational needs in distance finding and position finding by vessels.

11. Depth-sounding Apparatus

The International Conference on Safety of Life at Sea recommends that the Contracting Governments should encourage the development and use of echo depth-sounding apparatus.

12. Life-saving Signals

The International Conference on Safety of Life at Sea considers that the signals for life-saving stations communicating with vessels in distress and signals for vessels in distress communicating with life-saving stations should be international.

13. Shore Lights

The International Conference on Safety of Life at Sea considers that, so far as practicable, steps should be taken by the Administrations concerned to regulate the position and the intensity of lights on land in the vicinity of the entrances to ports so as to ensure that such lights cannot be mistaken for, or do not impair the visibility of, the navigation lights of the port.

14. Collision Regulations—Aircraft

Under the International Collision Regulations, aircraft on the surface of the water are within the definition of "steam vessels." As such, they are required to carry lights, make sound signals and manœuvre, both in respect of surface vessels and of each other, in a manner that is not, in some instances, possible for them, due to the physical limitations of aircraft. At the same time, they can and should take upon themselves some definite measure of responsibility for the avoidance of collisions between surface vessels and aircraft on the surface of the water, and it is necessary that their rights and duties, when on the surface of the water, should be defined.

In order that an international agreement may be reached covering those provisions of the International Collision Regulations which apply to surface vessels and to aircraft on the surface of the high seas and on the waters connected therewith, navigable by sea-going vessels, the Conference recommends, in the interests of safety of life at sea, that this question should be studied by the competent authorities in the countries concerned, so that there may be an exchange of views, and an endeavour made to arrive at an international agreement. The Conference requests the Government of the United Kingdom of Great Britain and Northern Ireland to take the necessary action in the matter.

AS REGARDS CERTIFICATES

15. Recognition of Convention Standards

Recognising the importance of bringing the Convention standards into operation at the earliest possible date, it is recommended that all such steps as may be practicable should be taken by the Contracting Governments to secure the recognition in international trade as from the date of the signing of this Convention of such ships as in fact conform to such standards.

In faith whereof the undersigned have affixed their signatures to the present Act.

Done in London this thirty-first day of May, 1929, in a single copy which shall be deposited in the archives of the Government

of the United Kingdom of Great Britain and Northern Ireland, which shall transmit certified true copies thereof to all signatory Governments.

INTERNATIONAL CONFERENCE ON SAFETY AT SEA, LONDON
DELEGATION OF THE UNITED STATES OF AMERICA,
Washington, D. C., August 6, 1929.

The PRESIDENT,
The White House.

To the PRESIDENT:

As chairman of the delegation of the United States of America to the International Conference for the Revision of the Convention of 1914 for Safety of Life at Sea held at London from April 16 to May 31 last, inclusive, I submit the following report on behalf of the delegation:

The convention of 1914 was signed by representatives of 16 Governments. It was ratified by some of the signatory Governments but because of the war and for other reasons it was not brought completely into force as a convention, by any State, although parts of it were made effective by particular States by legislative enactment or otherwise. In the years following the signing of the convention in 1914, many changes and advances were made in the types and methods of construction of ships, and additional experience and knowledge were gained with respect to many other matters covered by the convention of 1914. For these reasons the British Government in the autumn of 1927 transmitted to other maritime nations which had signed the convention of 1914 a memorandum by the British Board of Trade covering in some detail a study which had been carried on in Great Britain since 1914 of the subjects included in the convention of that year, and made tentative suggestions for the revision of the 1914 convention and for the holding of a conference for that purpose.

As a result of these proposals from the British Board of Trade, a study of the 1914 convention and of the respects in which it should be revised was undertaken by interested departments of our Government and by shipbuilding and ship operating interests of the United States. An interdepartmental committee under the chairmanship of one of the Assistant Secretaries of State, and an executive committee, under the Department of Commerce, were created for the purpose of organizing and directing these preliminary studies.

For making the detailed technical studies, three principal technical committees with subcommittees were organized, under the supervision of the Department of Commerce, as follows:

1. Ship construction committee:
   - A. Subdivision of ships.
   - B. Lifesaving appliances.
   - C. Fire extinguishing appliances.
2. Wirless telegraphy committee.
3. Navigation committee:
   - A. Ice patrol and derelict destruction.
   - B. Meteorology.
   - C. Rules of the road.

Representatives of the American Steamship Owners' Association, of the National Council of American Shipbuilders, and of the American Bureau of Shipping, as well as of the interested departments of the Government, were included in the membership of these technical committees and of the executive committee.

The technical committees devoted a year to an intensive study of their subjects. From their earliest organization they were aided in their work by many of the leading naval architects, shipbuilders, and marine insurance authorities of the country. Their

reports were submitted to the executive committee, and by it were transmitted through the Secretary of Commerce to the Secretary of State, who issued the instructions to the delegates.

The holding of an international conference to convene at London on April 16, 1929, having been decided upon, an invitation to the Government of the United States to participate therein was extended through the British ambassador at Washington on January 21, 1929, and was accepted on behalf of the United States on February 21, 1929. Participation by the United States in the conference was authorized by Congress, and delegates were appointed by the President. The members of the delegation were:

Hon. Wallace H. White, jr., Member of Congress, chairman of the Committee on the Merchant Marine and Fisheries, House of Representatives.

Mr. Arthur J. Tyrer, Commissioner of Navigation, Department of Commerce.

Mr. Charles M. Barnes, Chief of the Treaty Division, Department of State.

Rear Admiral George H. Rock, Construction Corps, United States Navy, Assistant Chief of the Bureau of Construction and Repair, Navy Department.

Capt. Clarence S. Kempff, United States Navy, hydrographer, Navy Department.

Mr. Dickerson N. Hoover, Supervising Inspector General of the Steamboat Inspection Service, Department of Commerce.

Mr. William D. Terrell, Chief of the Radio Division, Department of Commerce.

Rear Admiral John G. Tawresey, Construction Corps, United States Navy (retired), United States Shipping Board.

Mr. Herbert B. Walker, president of the American Steamship Owners' Association.

Mr. Henry G. Smith, president of the National Council of American Shipbuilders.

Capt. Charles A. McAllister, president of the American Bureau of Shipping.

With a single exception, the delegates designated by the President had served upon the technical committees to which reference has been made and were familiar not only with the 1914 convention but with all the shipping and navigational questions likely to be considered at the conference. They were the men who had determined the principles and the policies and indeed the precise proposals which were recommended in the reports of the technical committees, and which it was believed the United States should endeavor to have adopted by the conference.

In addition to the delegates, the following technical assistants were appointed and accompanied the delegation to London:

Lieut. Commander E. L. Cochrane, Construction Corps, United States Navy, Bureau of Construction and Repair, Navy Department.

Mr. J. C. Niedermair, Navy Department.

Mr. J. F. MacMillan, American Steamship Owners' Association.

Mr. David Arnott, American Bureau of Shipping.

Capt. William E. Griffith, United States Shipping Board.

Mr. A. J. Smith, Marine Office of America.

Capt. N. B. Nelson, United States Steamboat Inspection Service.

Lieut. E. M. Webster, United States Coast Guard.

Commander C. M. Austin, United States Navy, Bureau of Navigation, Navy Department.

Mr. Edgar B. Calvert, United States Weather Bureau.

Instructions were issued to the delegation under date of March 28, 1929. A copy of these instructions is attached hereto and is marked "Exhibit A." In addition to these general instructions, the President, in a letter to the chairman, indicated his desire that the delegation should strive at the conference for the highest practicable standards of safety. A copy of this letter is attached and is designated "Exhibit B."

In pursuance of these instructions, the delegation of the United States proceeded to London, arriving there on April 12. The conference convened on April 16. Delegates were present from Germany, the Commonwealth of Australia, Belgium, Canada, Denmark, Spain, the Irish Free State, the United States of America, Finland, France, the United Kingdom of Great Britain and Northern Ireland, India, Italy, Japan, Norway, the Netherlands, Sweden, and the Union of Soviet Socialist Republics. The League of Nations was represented by observers. The conference was opened by Sir Philip Cunliffe-Lister, president of the British Board of Trade. By request the chairman of the delegation of the United States placed in nomination as president of the conference Vice Admiral Sir Herbert Richmond, of the British delegation, who was unanimously elected. At this opening session the rules of procedure for the conference were presented. They followed closely the rules of the 1913–14 conference. A change of importance was in that article of the rules which made English and French both official languages. At the previous conference French only was recognized as the official language. By vote passed at this first plenary session the duty of drafting a program for the conference was placed upon a committee consisting of the chairman of the delegations present at the conference. As a result of action by the committee of chairmen, the following technical committees of the conference were determined upon, i. e., (1) ship construction, (2) life-saving appliances, (3) radiotelegraphy, (4) safety of navigation, and (5) certificates. A (6) committee on general provisions and a (7) drafting committee were provided for later. The committee of chairmen also was given authority to designate the heads of these committees and by its action Rear Admiral George H. Rock, of the construction corps of the Navy of the United States, was named as chairman of the committee on ship construction. The chairmen of the other committees were:

Committee on life-saving appliances, Sir Norman Hill, of the British delegation.

Committee on radiotelegraphy, Mr. Hermann Giess, of the German delegation.

Committee on safety of navigation, Sir Charles Hipwood, of the British delegation.

Committee on certificates, Maj. Gen. F. Marena, of the Italian delegation.

Committee on general provisions, Sir Charles Hipwood, of the British delegation.

Committee on drafting, Senator Rio, of the French delegation.

The chairmen of the several delegations at the conference were asked to designate the members of their delegations to serve upon the conference committees. With the approval of the delegation of the United States, I made assignments of delegates and technical assistants to each committee as follows:

SHIP CONSTRUCTION

Delegates.—Rear Admiral George H. Rock, Mr. H. G. Smith, Mr. H. B. Walker, Rear Admiral J. G. Tawresey, Mr. D. N. Hoover.

Technical assistants.—Lieut. Commander E. L. Cochrane, Mr. J. F. MacMillan, Dr. David Arnott, Mr. J. C. Niedermair, Mr. A. J. Smith.

LIFE-SAVING APPLIANCES

Delegates.—Mr. D. N. Hoover, Rear Admiral J. G. Tawresey, Capt. Charles A. McAllister, Mr. H. B. Walker, Mr. H. G. Smith.

Technical assistants.—Capt. M. B. Nelson, Capt. W. E. Griffith, Mr. A. J. Smith, Mr. J. F. MacMillan, Mr. David Arnott, Lieut. Commander E. L. Cochrane.

RADIOTELEGRAPHY

Delegates.—Mr. W. D. Terrell, Mr. H. B. Walker, Mr. A. J. Tyrer, Capt. Charles A. McAllister, Mr. D. N. Hoover.

Technical assistants.—Lieut. E. M. Webster, Capt. W. E. Griffith, Mr. E. B. Calvert.

SAFETY OF NAVIGATION

Delegates.—Capt. Clarence S. Kempff, Capt. Charles A. McAllister, Mr. H. B. Walker, Mr. H. G. Smith.

Technical assistants.—Capt. W. E. Griffith, Commander C. M. Austin, Mr. E. B. Calvert, Lieut. E. M. Webster, Mr. J. F. MacMillan.

CERTIFICATES

Delegates.—Mr. A. J. Tyrer, Mr. Charles M. Barnes, Capt. Charles A. McAllister, Mr. D. N. Hoover.

Technical assistants.—Capt. N. B. Nelson, Capt. W. E. Griffith.

COMMITTEE ON GENERAL PROVISIONS

Delegates.—Hon. Wallace H. White, Jr., Mr. Charles M. Barnes.

DRAFTING

Delegates.—Hon. Wallace H. White, jr., Mr. Charles M. Barnes.

Upon the completion of the organization of the technical committees those committees began the study of the proposals submitted. As the several technical committees completed their work and made their reports to the president of the conference these reports were read, discussed, and acted upon at meetings of the delegation of the United States. Upon the conclusion of the work of the technical committees the drafting committee began its work. From time to time, as questions arose which could not be readily solved by the drafting committee, they were referred to a committee of five appointed by the drafting committee. Great Britain, France, Germany, Denmark, and the United States were represented on this committee of five by the chairmen of their delegations.

No alterations which appeared to result in changes in substance in the reports of the technical committees were agreed to by the United States members of the drafting committee which were not called to the attention of and which were not passed upon by the full delegation of the United States.

The conference concluded its work and the convention as agreed to was signed on May 31. Every delegate present indicated his approval of the convention by signature thereof. The conference adjourned in the afternoon of May 31. A copy of the convention is attached hereto and is marked "Exhibit C." It was signed in French and English texts, both of which are of equal authority. The greatest care was taken that the French and English texts should be identical in meaning. The final act of the conference, signed at the same time and included in the document with the convention, embraces certain supplementary agreements, declarations, and recommendations made by the conference or delegations thereof.

The convention consists of 66 articles grouped in eight chapters. It is completed by regulations which have the same force and take effect at the same time as the convention itself.

Chapter 1 contains certain preliminary articles. Of first importance is the article setting forth to what ships the convention shall apply and carrying definitions used throughout the convention.

Chapter 2 deals with ship construction. This subject was considered by and the chapter was prepared by the committee, of which Rear Admiral Rock, of the delegation of the United States, was chairman. Its work was technical in the extreme and the provisions of the chapter are of outstanding importance, for safety of life at sea in the first instance, and in large degree depends upon the ship itself. The work of the committee divided itself into four main subjects: (*a*) That of subdivision of ships, (*b*) the structure and openings, (*c*) stability, and (*d*) the voyages. In very large measure the agreements reached by the conference with respect to these subjects were responsive to proposals urged by the delegates of the United States, and it is believed that by this chapter of the convention world standards of construction have been substantially raised. With few exceptions the

laws of the United States do not cover the requirements of this chapter, although in practice they are largely conformed to. The chapter deals with structural matters and applies in the main to ships built after July 1, 1931. With respect to existing ships, the obligation is imposed upon each government to effect upon its ships, so far as practicable and reasonable, the increased standards of safety recommended. The chapter covers in detail water-tight subdivisions, peak and machinery space bulkheads, the rules for constructing and testing bulkheads, water-tight decks, fire-resisting bulkheads, the openings in bulkheads and ships' sides, exits from compartments, pumping arrangements, etc. It requires a stability test for every new ship, and initial and subsequent surveys for ships. In the regulations annexed to the convention and having reference to this chapter, will be found the detailed provisions for making effective the general requirements of the convention dealing with this matter of ship construction.

Chapter 3 of the convention, as supplemented by regulations, deals with life-saving appliances and with fire detection and extinction. With respect to these subjects your delegation supported those safeguards which science, nautical experience, and seamanship approve. This chapter and its regulations make provision for the lifeboats required on passenger ships and for additional buoyant apparatus. They provide specifically that there must be accommodations in boats for all persons on board and in addition buoyant apparatus for 25 per cent of the persons on board. They deal with the construction of lifeboats, with the embarkation of passengers, with life jackets and life buoys, with means of ingress and egress for passengers and crew, with dangerous goods and fire protection, and with muster rolls and drills. In many respects this chapter raises world standards and the standards of the law of the United States.

Chapter 4 relates to the subject of radiotelegraphy. The provisions of the chapter are supplemented by regulations. The 1914 convention required a radio installation only if a ship had on board 50 or more persons. Radio installation under the law of the United States is required only on steam vessels having on board 50 or more persons. The law does not apply to sailing vessels carrying either passengers or cargo. It does not apply to the modern motor ship. There are many cargo ships of the United States of a tonnage of 6,000 to 8,000 tons, and possibly up to 10,000 tons, which under the present law are not required to have radio installation because of the fact that such vessels will not have on board 50 or more persons, and there are many passenger ships not reached by the law of this country. The present convention requires, subject to definite exemptions, that all passenger ships and all cargo ships of 1,600 tons gross tonnage and over engaged on international voyages shall be fitted with radio installation. These new standards are much above those of the 1914 convention and of the law of the United States.

An interesting problem of the conference was with respect to authorizing the use of an automatic radio alarm receiver. The Washington Radiotelegraph Convention of 1927, in section 21 of article 19 of the general regulations annexed thereto, specified standards which should be attained by any such automatic-alarm receiver. The present convention recognizes the use of any automatic-alarm receiver meeting the specifications of the Washington Radiotelegraph Convention. It was believed that the recognition of this instrument would increase the number of ships which might hear a distress call, and so add to the margin of safety of all vessels. The general result of the provisions of the convention relating to radiotelegraphy is that at least 1,000 vessels not now equipped with radio will be required to install radio apparatus and that many hundreds and perhaps thousands of vessels now maintaining a voluntary radio service of indifferent quality will be compelled to have an installation and to meet standards prescribed by the convention. They make potential life-savers of a vastly increased number of ships. Through the use of the automatic alarm continuous watch is assured upon many vessels not now required to maintain such watch. The whole effect of this chapter of the convention, in the opinion of your delegation, is to elevate the legal standards of the world and of the United States.

Chapter 5 of the convention and the articles pertinent to the chapter, deal with the general subject of navigation. The provisions refer, unless express exception is made, to all ships on all voyages. Under this chapter provision is made for the collection and dissemination of meteorological data by ships at sea and for ships. The North Atlantic ice patrol established by the 1914 convention is continued and its activities are enlarged. The question of routes across the Atlantic is dealt with. The chapter requires the equipment of passenger ships of 5,000 tons and over with the radio compass. The chapter also covers helm orders, alarm, distress, and urgency signals, the misuse of distress signals, the speed of transmission of message of distress, the procedure in handling messages, and includes an undertaking by each government to insure that ships shall be sufficiently and efficiently manned. Of outstanding importance in this chapter is the agreement in article 40 that alterations in the international regulations for preventing collisions at sea should be made. In annex 2 to the convention appear the alterations to these collision regulations which the conference believed should be made effective. An examination of annex 2 will disclose the importance from the standpoint of safety of life at sea of these "rules of the road," so called, and of the changes which are recommended therein. The changes recommended tend to clarity and to greater safety. As a part of its work the technical committee on safety of navigation also made various other recommendations which are included in the final act of the conference, Part III, paragraphs 9–14. These recommendations have to do with radio aids to navigation, synchronized radio and underwater signals, depth-sounding apparatus, life-saving signals, shore lights and collision regulations for aircraft on the surface of the water. The subject matter of chapter 5 and of the regulations bearing thereon, the changes recommended in the collision regulations and the recommendations adopted by the conference with respect to the matters enumerated were of particular concern to the delegation of the United States, and the advances made may be attributed in no small part to the interest and efforts of its delegation.

Chapter 6 provides for the issue of certificates by the appropriate government. A safety certificate is required to be issued after inspection and survey to every passenger ship which complies with the requirements of chapter 2 (construction), chapter 3 (life-saving appliances), and chapter 4 (radiotelegraphy) of the convention. In addition to this safety certificate a safety radiotelegraphy certificate is required for every ship other than a passenger ship which complies with the provisions of chapter 4 relating to radiotelegraphy, and a third certificate, called an exemption certificate, is provided for each ship to which an exemption is granted by a contracting government under specific authority of the convention. This chapter deals with the form of certificates, their duration, and the credit to be given them by another government. The right of inspection of a foreign ship while within the jurisdiction of a contracting government is preserved.

The convention will come into force on July 1, 1931, as between the governments which have deposited their ratifications by that date provided that ratifications of at least five governments have been deposited. Provision is made for future conferences for the revision of the convention, the first of which conferences may not be held until after the convention shall have been in force for five years. A government may withdraw from the convention by denunciation thereof after the expiration of five years from the date on which the convention came into force with respect to it.

The hope of the delegation of the United States was to secure the adoption of rules which with respect to vessel construction would make ships as nearly unsinkable as practically possible; which would guard against fire; which would protect from the dangers of storm, of derelicts, and of ice; which in time of emergency and disaster would insure adequate lifeboats, rafts, and belts, and would otherwise safeguard the lives of passengers and crew; which would extend the use of radio as a protection of life and as an aid to navigation; which would make the rules of navigation responsive to the use of modern ships and changed conditions; and which would contribute in their letter and spirit to the highest standards of safety for those going down to the sea in ships. The delegation encountered wide diversity of interest and opinion as to many of the subjects considered, but the deep sense of responsibility felt by all led to final agreements upon all matters included within the scope of the convention.

I am convinced that the purpose which animated the Government of the United States in participating in this conference has been realized. I believe the convention provides for the highest standards of safety which it is now practicable to bring forward for international adoption. It represents a marked advance over the present legal standards and practices of the world and in many and important particulars it has raised the standards of our own country.

Respectfully submitted.

WALLACE H. WHITE, Jr.
Chairman Delegation of the United States of America.

INSTRUCTIONS TO DELEGATES

DEPARTMENT OF STATE,
Washington, March 28, 1929.

Hon. WALLACE H. WHITE, Jr., *Chairman,*
Mr. ARTHUR J. TYRER, *Vice Chairman,*
Mr. CHARLES M. BARNES,
Rear Admiral GEORGE H. ROCK,
Capt. CLARENCE S. KEMPFF,
Mr. DICKERSON N. HOOVER,
Mr. WILLIAM D. TERRELL,
Rear Admiral JOHN G. TAWRESEY,
Mr. HERBERT B. WALKER,
Mr. HENRY G. SMITH,
Capt. CHARLES A. MCALLISTER,

Delegates on the part of the United States of America to the International Conference for the Revision of the Convention of 1914 for the Safety of Life at Sea, to convene in London April 16, 1929.

SIRS: The International Conference on Safety of Life at Sea, to be held at London beginning April 16, 1929, to which you have been appointed as delegates on the part of the United States of America by the President, by commissions issued on February 16, 1929, and already delivered to you, has as its purpose the revision of the Convention of 1914 on Safety of Life at Sea.

---

[1] As the text of the convention accompanied President's message of transmittal to the Senate, it is not here reprinted. For convention, vide ante, p. 5.

The convention of 1914 was drawn up at a conference held at London, November, 1913, to January, 1914, and was signed on January 20, 1914, by representatives of Germany, Austria, Belgium, Denmark, Spain, the United States of America, France, Great Britain, Italy, Holland, Norway, Russia, and Sweden. Japan was represented at the conference of 1913–14, but the delegation was appointed at a late date and was not authorized by the Japanese Government to vote in the conference or committees or to sign the convention.

The main provisions of the convention of 1914 relate to the safety of navigation by the destruction of derelicts, the study and observation of ice conditions, the maintenance of the ice patrol in the North Atlantic Ocean, to the construction of vessels, to radiotelegraphy, life-saving appliances and fire protection on vessels, and to safety certificates. The convention was ratified by some of the signatory States, but not by all of them. It was not ratified by the United States. Owing to the war and other causes, the convention was not brought into force completely as a convention in any country, though parts of it have been adopted and put into force by several countries under their national law. The regulations in section 14 of the act of the Congress of the United States, approved March 4, 1915 (38 Stat. 1164, 1170–1184), known as the La Follette Seaman's Act, follow almost verbatim Articles XXVII to LI of the regulations annexed to the convention of 1914, which have to do with "life-saving appliances and fire protection."

Notwithstanding the failure of the Government of the United States to ratify the convention of 1914, this Government undertook the direction of the services of derelict destruction, study and observation of ice conditions, and the international ice patrol in the North Atlantic, as it was invited to do by article 7 of the convention. Pursuant to an Executive order, these services are performed by the vessels of the United States Coast Guard, Treasury Department, under the direction of the Interdepartmental Board on International Ice Observation, Ice Patrol, and Ocean Derelict Destruction. Foreign nations contribute pro rata shares for the maintenance of the services.

The proposal for a conference to revise and amend the Convention of 1914 for the Safety of Life at Sea was made by the British Government in the autumn of 1927. By a note under date of September 30, of that year, the British ambassador at Washington transmitted to the Secretary of State a memorandum of suggestions for the revision of the convention of 1914, prepared by the British Board of Trade, inquired whether in the opinion of the Government of the United States the proposals in the memorandum formed a suitable basis for the discussion of the amendment of the convention of 1914, and requested an expression of the views of the Government of the United States as to the advisability of holding an international conference for the purpose of making such revision.

In the memorandum it was suggested that as a result of experience obtained by the maritime powers it might be advisable to modify the convention of 1914, and certain observations, based upon the experience of the British authorities, were submitted therein concerning proposed modifications. These proposals related to the following subjects: Subdivision of ships, life-saving appliances, wireless telegraphy, fire-extinguishing appliances, ice patrol, collision regulations.

The proposals received from the British ambassador were brought to the attention of the Departments of War, Navy, Treasury, Commerce, Agriculture, and Shipping Board for an expression of their views in regard to them. All the departments concurred in the view that the convention of 1914 required amendment, that the proposed conference was of vital interest to the United States, and that it should be represented at the conference by delegates, technical advisers, and other necessary personnel.

By a note dated January 23, 1928, the Secretary of State informed the British ambassador that the Government of the United States was in agreement with the British Government that consideration should be given to the revision of the convention of 1914 and suggested that, if it were decided to call a conference, it be called for a date in the spring of 1929, subsequent to April 1, in order to allow time for the making of adequate technical preparation on the various subjects which would be discussed.

On January 12, 1928, an interdepartmental committee was organized, composed of representatives of the Departments of State, Treasury, War, Navy, Commerce, Agriculture, and the United States Shipping Board, for the purpose of developing a plan of procedure with reference to preparation by the United States for participation in the proposed conference. At the second meeting of the interdepartmental committee, held on January 21, 1928, a resolution was adopted charging the Department of Commerce with the organization of technical committees to make the necessary preparatory studies and with the direction of the preliminary work. Under the direction of the Department of Commerce three principal technical committees with subcommittees were organized, as follows:

1. Ship construction committee:
   - A. Subdivision of ships.
   - B. Life-saving appliances.
   - C. Fire-extinguishing appliances.
2. Wireless telegraphy committee.
3. Navigation committee:
   - A. Ice patrol.
   - B. Meteorology.
   - C. Rules of the road.

Later an executive committee, having the Commissioner of Navigation as chairman, was organized to direct and correlate the work of the technical committees.

As a result of the studies made by the technical committees and on the recommendation of the executive committee and the Secretary of Commerce, the Secretary of State suggested to the British ambassador in a note of December 6, 1928, that the subject of stability be added to the agenda of the conference. The United States has not been informed as to the views of the Government of Great Britain or of the governments of other foreign countries in regard to this suggestion. The agenda, so far as the Government of the United States is now informed, consists, therefore, of the subjects originally proposed by the British Government, listed on the third page of this instruction, which are as follows: Subdivision of ships, life-saving appliances, wireless telegraphy, fire-extinguishing appliances, ice patrol, and collision regulations, with the possible addition of the subject of stability, as was suggested by the United States.

The technical committees have now made and filed their final reports, which are on the following subjects:

1. Subdivision of ships.
2. Life-saving appliances.
3. Fire-extinguishing appliances.
4. Wireless telegraphy.
5. Ice patrol and derelict destruction.
6. Meteorological reports.
7. Rules of the road.

Copies of each of these reports are herewith transmitted to you for your information and for your guidance in your capacity as delegates on the part of the United States.

Participation in the conference on the part of the United States was authorized by Public Resolution No. 70, Seventieth Congress, second session, entitled "Joint resolution providing for the participation by the United States in the International Conference for the Revision of the Convention of 1914 for the Safety of Life at Sea," approved December 7, 1928, which is as follows:

"*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled*, That the sum of $100,000, or so much thereof as may be necessary, is hereby authorized to be appropriated for the expenses of participation by the United States in the International Conference for the Revision of the Convention of 1914 for the Safety of Life at Sea, to be held in London, England, in 1929, including travel and subsistence or per diem in lieu of subsistence (notwithstanding the provisions of any other act), compensation of employees, stenographic and other services by contract if deemed necessary, rent of offices, purchase of necessary books and documents, printing and binding, printing of official visiting cards, and such other expenses as may be authorized by the Secretary of State."

and by a provision in Public No. 1034, Seventieth Congress, second session, being an act entitled "An act making appropriations to supply urgent deficiencies * * * for the fiscal year ending June 30, 1929, and for other purposes," approved March 4, 1929, which is as follows:

"International Conference for the Safety of Life at Sea: For the expenses of participation by the United States in the International Conference for the Revision of the Convention of 1914 for the Safety of Life at Sea, as authorized by Public Resolution Numbered 70, approved December 7, 1928, including travel and subsistence or per diem in lieu of subsistence (notwithstanding the provisions of any other act), compensation of employees, stenographic and other services by contract if deemed necessary, rent of offices, purchase of necessary books and documents, printing and binding, printing of official visiting cards, and such other expenses as may be authorized by the Secretary of State, $90,000, to remain available until June 30, 1930."

The formal invitation to the Government of the United States to send representatives to the conference was contained in a note of January 21, 1929, to the Secretary of State from the British ambassador, in which it was stated that the conference would convene in London on April 16, next. This invitation was accepted on behalf of the Government of the United States by the Secretary of State in a note of February 21, 1929, to the British ambassador. It is understood that the British Government also extended invitations to the several British Dominions, India, Belgium, Denmark, Finland, France, Germany, Italy, Japan, the Netherlands, Norway, Russia, Spain, and Sweden, and to the League of Nations advisory and technical committee for communications and transit, ad audiendum.

It is believed that the American delegation is in a well-fortified position in respect of the work of the conference. A thorough study of the situation has been made in the preparatory work. Concrete proposals which have the approval of all the American interests concerned, including the shipping and shipbuilding industries have been made in the reports of the technical committees. Congress has passed the load-line bill, which furnishes the necessary legislative authority for establishing standards of safety in the loading of vessels. The United States will not, therefore, be exposed to the criticism, heretofore sometimes made, of urging high standards and of subsequently not putting into effect such standards as were adopted.

The recent loss of the steamship *Vestris* has directed public attention to and has crystallized public opinion on the necessity for a high standard for safety at sea. The high standards of safety required of transportation facilities in the United States fortify the delegation in advocating high standards of safety at sea. To obtain acceptance of the high standards of the proposals brought forward in the reports of the technical committees will, it is believed, require determined and combined effort on the part of the American delegation. Decisions of the delegation should follow, as

far as practicable, the recommendations agreed to in the technical reports. Proposals leading to standards less high than the recommendations should be given most careful consideration and the delegation should not agree to them unless there is strong reason for so doing. Unanimity of view and of action on the part of the delegates is essential. In order that the influence of the American delegation may be effective, the individual delegates should be guided and abide by the majority decisions of the delegation, and individual opinions at variance with the delegation's decisions should not be expressed.

To assure that the American proposals are couched in well-chosen words which convey the exact meaning intended, it would appear that, except in informal committee discussions, such proposals, so far as practicable, should be prepared in advance of the occasion on which they will be used.

Important questions of policy and general principle not covered by the reports of the committees or the instructions to the delegation should be determined by vote of the delegation, or be made the subject of a request to the department for instructions.

The delegation has the responsibilities—

(1) To uphold the prestige and dignity of the Government of the United States;

(2) To obtain the highest practicable standard of safety at sea for American nationals traveling in ships flying the flags of foreign nations; and

(3) To obtain an international standard commensurate with the high standard of safety now being constructed into American vessels, in order that these vessels may not suffer in commercial competition with foreign competitors.

In a letter of March 14, 1929, to the chairman of the delegation, the President wrote:

"In connection with the International Conference for the Revision of the Convention for Safety of Life at Sea, which is to convene in London on April 16, it is my desire that the American delegation urge the international acceptance of the highest practicable standards in the various fields which affect the safety of lives of American citizens and of American vessels at sea. This is a matter of great importance to the shipping industry in this country, and is a matter of even greater importance to American citizens who are engaging in ocean voyages in increasing numbers.

"The recommendations which have been made by the technical committees organized by the Department of Commerce constitute, I am advised, a substantial basis for proposals by the United States at the forthcoming conference, and can be urged with the full assurance that the administration will do all in its power to place such standards into full effect in the event that they are incorporated in an international agreement."

You will consider that provision should be made in the convention stipulating for subsequent conferences to consider improvements which may be suggested by invention or with reference to the adoption of such improvements by individual nations before they can be made a matter of conventional agreement.

If you deem it advisable to do so, you are authorized to arrange for preliminary and informal consultation with your colleagues of other nations, in order that those standards in regard to safety of life at sea which are held in common may be supported, if possible, with the weight which would naturally result from united effort.

It has been observed that the London treaty of 1914 is in the French language only. At the Conference for the Limitation of Armament held at Washington in the winter of 1921–22, both French and English were made official languages of the conference and the treaties adopted were signed in the two languages. The treaties signed at the Peace Conference at Paris likewise were signed in English as well as French. Moreover, French and English were made the official languages of the League of Nations, and it is my understanding that all international acts signed under the auspices of the league are in the two languages. It would seem to be desirable that English as well as French should be the official language of the Conference on Safety of Life at Sea, not only as a compliment to the British Government, in whose territory the conference is held, but also because of the richness of the English language in commercial and nautical terminology. For the same reasons it is believed that any convention or other instrument signed at the conference should be signed in English as well as in French. As, however, the conference will be held at London, it would seem to be more appropriate for the British delegates to make proposals in regard to this matter. You may confer with them informally concerning it, and should they propose to the conference the adoption of English as an official language of the conference, you will give the proposal your support.

You will be assisted in your work at the conference by the following technical assistants: Lieut. Commander E. L. Cochrane, Commander C. M. Austin, Capt. W. E. Griffith, Mr. A. J. Smith, Mr. J. F. MacMillan, Mr. David Arnott, Mr. Edgar B. Calvert, Capt. N. B. Nelson, Lieut. E. M. Webster, and Mr. J. C. Niedermair.

Mr. Vinton Chapin, Foreign Service officer, has been detailed from the State Department as Secretary to the delegation.

There is inclosed the President's instrument conferring upon you, jointly and severally, plenary powers to negotiate, conclude, and sign a convention revising the Convention of 1914 for the Safety of Life at Sea. This instrument should be deposited with the secretariat of the conference or the committee on credentials, whichever may be the procedure adopted.

Doubtless questions which are not definitely covered in the reports of the technical committees or in these instructions will arise at the conference, both in regard to technical subjects and in regard to matters of policy. In respect of the decisions to be made and the action to be taken on such questions, reliance is placed to the fullest extent on the experience and judgment of the delegation. While it is not desired to discourage the delegation from requesting specific instructions from the Government when such instructions are necessary, it is desired that requests for instructions other than requests merely for information which the delegation may not have in its possession should, in order to avoid the delay incident to communication between the delegation and the Government, be limited as much as possible.

Expressing the hope that your mission and its duties may be pleasant and the results gratifying to yourselves, your colleagues, and the Government and people of the United States.

I am, sirs,

Your obedient servant,

FRANK B. KELLOGG.

EXHIBIT B

LETTER FROM THE PRESIDENT

THE WHITE HOUSE,
Washington, March 14, 1929.

MY DEAR CONGRESSMAN WHITE: In connection with the International Conference for the Revision of the Convention for Safety of Life at Sea, which is to convene in London on April 16, it is my desire that the American delegation urge the international acceptance of the highest practicable standards in the various fields which affect the safety of lives of American citizens and of American vessels at sea. This is a matter of great importance to the shipping industry in this country, which is now entering a new phase of development, and is a matter of even greater importance to American citizens who are engaging in ocean voyages in increasing numbers.

The recommendations which have been made by the technical committees organized by the Department of Commerce constitute, I am advised, a substantial basis for proposals by the United States at the forthcoming conference, and can be urged with the full assurance that the administration will do all in its power to place such standards into full effect in the event that they are incorporated in an international agreement.

Faithfully yours,

HERBERT HOOVER.

HON. WALLACE H. WHITE, JR.,
Care of the Department of State.

EXHIBIT C

INTERNATIONAL CONVENTION FOR THE SAFETY OF LIFE AT SEA, SIGNED MAY 31, 1929

As the text of the convention accompanied President's message of transmittal to the Senate, it is not here reprinted. For convention, vide ante, page 5.

Mr. PITTMAN. Mr. President, I wish to make a brief statement with regard to this treaty, which I consider one of the most important ever brought before the Senate.

Many of the disastrous shipwrecks which have occurred in the last few years, with tremendous loss of life, would probably not have occurred if the regulations provided in the pending treaty had been in force at that time. The treaty was executed by all the great maritime powers over 7 years ago and it has been ratified by nearly all of the powers except the United States.

We have attempted in the committee session after session of Congress to reach an agreement with regard to the ratification of the treaty. I may say that every member of the committee realized the vital importance of the Convention, and sought industriously to have it ratified.

There was a controversy, however, a sincere controversy, which prevented a sufficient agreement to justify the committee in reporting the convention until now.

There were members of the committee who feared that certain language in the treaty might subsequently be construed to repeal certain provisions of the La Follette Seamen's Act. Mr. Furuseth, who for years fought for that act, which was sponsored and placed on the statute books by the father of our present colleague, the senior Senator from Wisconsin [Mr. LA FOLLETTE], felt that way about it, and he was advised by certain attorneys that he was correct. I may say that I did not concur in that opinion. I do not believe that most of the Senators concurred in the opinion held by Mr. Furuseth and the attorneys. Yet it did involve a vital question. Finally, at the last session, the committee appointed a subcommittee to go particularly into the legal question, and, if possible, to settle the doubt for all time.

The senior Senator from Wisconsin was chairman of the subcommittee; the Senator from Maine [Mr. WHITE], who participated in the making of the treaty in 1929, was a

member of the subcommittee; and I think the junior Senator from Wisconsin [Mr. DUFFY], the present occupant of the chair, was a third member of the subcommittee.

I wish to state that two of the members of the subcommittee held the view which I held—that there was no repeal in any sense of the word of the La Follette Seamen's Act involved in this treaty. The senior Senator from Wisconsin [Mr. LA FOLLETTE] is here, and will speak for himself. He thought it might in some particulars repeal the Seamen's Act.

After a thorough investigation the Senator from Wisconsin [Mr. LA FOLLETTE] and the Senator from Maine [Mr. WHITE], who represented the opposite sides in the matter, agreed on three reservations which protect every interest under the treaty. Personally, I think they are interpretative reservations. They do not in any sense change my views of the treaty as it was. On the other hand, they remove any doubt, I understand, which the Senator from Wisconsin had.

Considering this treaty to be of vital importance to humanity, I have taken the liberty to bring it up at this time.

Mr. LA FOLLETTE. Mr. President, after long hearings before the subcommittee we have finally come to an agreement on this treaty. On the one hand, as has been indicated by the Senator from Nevada [Mr. PITTMAN], the distinguished chairman of the Committee on Foreign Relations, there were those who felt that the treaty contravened certain provisions of the Seamen's Act. On the other hand, the proponents of the treaty contended that the treaty did not contravene the Seamen's Act. Finally, as a result of long and protracted negotiations, we have worked out reservations which, in my opinion, express the point of view of those who were apprehensive concerning the effect of the treaty upon the Seamen's Act and those who contended that the treaty did not in anywise contravene or abrogate sections of the Seamen's Act.

I may say that from the beginning of this long controversy all persons concerned were interested, naturally, in the protection of life at sea. So, I believe that at the end of this period of deliberation we have formulated reservations or interpretations which express the point of view of those who were advocates of the treaty and those who were apprehensive concerning its effect upon existing law.

Therefore, I hope that the treaty may now be ratified with the reservations.

Mr. BORAH. Mr. President, I have no objection to the reservations, and I am very anxious to see the treaty ratified. I express the same view expressed by the chairman of the committee, that the treaty did not in the first instance contravene the terms of the Seamen's Act. But there were those who thought it did, and I think all possible doubt has been removed by the reservations.

It will be remembered that the treaty was once reported to the Senate, and it was reported upon the theory that it did not contravene the Seamen's Act. But there were those who became somewhat restless for fear that it did. It went back to the committee, and after long investigation and consideration three interpretive reservations have been worked out.

I have no objection to the reservations, and I am anxious to see the treaty ratified.

Mr. ROBINSON. Mr. President, I merely rise to say that my studies of this treaty and of the subject matter have led me to the conclusion that the treaty contemplates a wholesome arrangement for bringing about safety at sea, and I hope the treaty may be ratified.

Mr. SHIPSTEAD. Mr. President, in view of the many disasters at sea which have taken place in recent history, I feel it my duty to state that treaties for safety at sea and legislation to promote safety at sea are worthless, like any other treaties or legislation, unless they are enforced. The recent investigation into the inspection service under the Department of Commerce shows that that service is in a disgraceful condition, which should not be tolerated by any nation on the face of the earth. While we pass legislation to promote shipping and negotiate treaties to promote safety at sea, and appropriate money for the inspection of vessels and the operations of ships at sea the evidence shows that ships are operated while in an unsafe condition; that the crews are very often incompetent, and thousands of people lose their lives as a result of such conditions.

The La Follette Seamen's Act has never been enforced by the executive departments of the Government since it was passed. If it had been I am confident that our shipping and our maritime commerce would have been in better condition than it now is.

Mr. COPELAND. Mr. President, for years I have been impatient because this treaty has not been ratified. The Senator from Idaho [Mr. BORAH] who for a long time was chairman of the committee, I think was annoyed by my importunities, as his successor has been. I have long felt that it was really disgraceful to our country that we have not joined with other nations in this laudable effort to get safety at sea. I said yesterday in all sincerity in speaking on the subsidy bill that if I could have any monument erected to my memory I would want no finer monument than the seamen's act which was enacted through the energy and ability of the late Senator from Wisconsin, the father of the present senior Senator from that State [Mr. LA FOLLETTE]. I feel with the Senator from Minnesota that it has been very unfortunate that in this country we have failed to keep abreast of other countries. We would never have failed if the La Follette Seamen's Act had been strictly enforced. That was not done. However, in the Committee on Commerce we have tried during the past year to bring before the Senate and have brought here a number of bills seeking to carry out what this treaty in its spirit and letter would impose upon our country.

Nobody has for a moment desired to have anything happen to set aside the La Follette Act. Everybody has been in agreement that nothing should be done to interfere with that act. Now with this treaty before us and the reservations added to it, there can be no question that the Seamen's Act will be preserved in its entirety.

I congratulate the Foreign Relations Committee that it has determined to bring forward this treaty, that after 7 years at last the matter is presented for action here. I am confident that this will be a red-letter day in the maritime history of America by reason of the adoption of this treaty.

Mr. VANDENBERG. Mr. President, the junior Senator from Maine [Mr. WHITE], while he was a Member of the House, was one of the negotiators of this treaty. He is absent this evening, but I have been in touch with him, and I desire to state for the RECORD that he is in complete agreement with the reservations which have been submitted, and I think it is the final justification for Senate approval of the treaty that the able junior Senator from Maine is in complete agreement with the program as it now impends.

The PRESIDING OFFICER. If there be no amendment, the treaty will be reported to the Senate.

The treaty was reported to the Senate without amendment.

The PRESIDING OFFICER. The resolution of ratification, with the reservations reported by the committee, will be read.

The Chief Clerk read as follows:

Resolved (*two-thirds of the Senators present concurring therein*), That the Senate advise and consent to the ratification of the International Convention for Promoting Safety of Life at Sea, signed at London, May 31, 1929, subject to the following understandings:

(1) That nothing in this convention shall be so construed as to authorize any person to hold any seaman, whether a citizen of the United States of America or an alien, on board any merchant vessel, domestic or foreign, against his will, in a safe harbor within the jurisdiction of the United States of America, when such seaman has been officially admitted thereto as a member of the crew of such vessel or to compel such seaman to proceed to sea on such vessel against his will;

(2) That nothing in this convention shall be so construed as to nullify or modify section 4 of the Seaman's Act approved March 4, 1915 (38 Stat. 1164), as interpreted by the Supreme Court of the United States in *Strathearn* v. *Dillon* (252 U. S. 348); and

(3) That nothing in this convention shall be so construed as to prevent the officers of the United States of America who exercise the control over vessels provided for in article 54 from making such inspection of any vessel within the jurisdiction of the United States as may be necessary to determine that the condition of the vessel's seaworthiness corresponds substantially with

the particulars set forth in its certificate; that the vessel is sufficiently and efficiently manned, and that it may proceed to sea without danger to either passengers or crew, or to prevent such officers from withholding clearance to any vessel which they find may not proceed to sea with safety, until such time as any such vessel shall be put in condition so that it can proceed to sea without danger to the passengers or crew.

The PRESIDING OFFICER. The question is on agreeing to the reservations to the resolution of ratification.

The reservations were agreed to.

The PRESIDING OFFICER. The question is on agreeing to the resolution of ratification, as amended by the reservations. [Putting the question.] Two-thirds of the Senators present concurring therein, the resolution of ratification, as amended by the reservations, is agreed to, and the treaty is ratified.

DIPLOMATIC AND FOREIGN SERVICE

The Chief Clerk read the nomination of Wainwright Abbott, of Pennsylvania, to be consul of the United States of America.

The PRESIDING OFFICER. Without objection the nomination is confirmed.

PUBLIC WORKS ADMINISTRATION

The Chief Clerk read the nomination of Frank M. Keller to be State engineer inspector for the Public Works Administration in Colorado, Utah, and Wyoming.

The PRESIDING OFFICER. Without objection the nomination is confirmed.

PUBLIC HEALTH SERVICE

The Chief Clerk read the nomination of Passed Asst. Surg. Erval R. Coffey to be surgeon.

The PRESIDING OFFICER. Without objection the nomination is confirmed.

POSTMASTERS

The Chief Clerk proceeded to read sundry nominations of postmasters on the calendar.

Mr. McKELLAR. I ask that the nominations of all postmasters on the calendar be confirmed en bloc, except that of Otto Engel, at Kenmare, N. Dak., which I ask be re-referred to the Committee on Post Offices and Post Roads.

The PRESIDING OFFICER. Without objection, the nominations of postmasters on the calendar, with the exception of Otto Engel, to be postmaster at Kenmare, N. Dak., will be confirmed en bloc, and the excepted nomination will be re-referred to the Committee on Post Offices and Post Roads.

IN THE ARMY

Mr. SHEPPARD. Mr. President, there are certain nominations in the Army on the desk which were reported today. I ask that the nominations in the Army be confirmed en bloc.

The PRESIDING OFFICER. Without objection, the nominations in the Army will be confirmed en bloc.

Mr. SHEPPARD. I ask that the President be notified of the confirmation of the nominations in the Army.

The PRESIDING OFFICER. Without objection, the President will be notified.

LEGISLATIVE SESSION

Mr. ROBINSON. I move that the Senate resume the consideration of legislative business.

The motion was agreed to; and the Senate resumed the consideration of legislative business.

THE GRAZING ACT

Mr. ASHURST. Mr. President, upon the call of the calendar yesterday I objected to Order No. 2500, House bill 10094, the so-called Grazing Act. I have now had an opportunity to examine the bill, and I withdraw my objection.

D. E. WOOLDRIDGE

Mr. BLACK. From the Committee on Claims, I report the bill (H. R. 3943) for the relief of D. E. Wooldridge.

Mr. BARKLEY. Mr. President, I ask unanimous consent for the present consideration of House bill 3943, for the relief of D. E. Wooldridge, which has just been reported from the Committee on Claims.

Mr. McNARY. Mr. President, let the clerk report the bill.

The PRESIDING OFFICER. The clerk will report the bill by title.

The CHIEF CLERK. A bill (H. R. 3943) for the relief of D. E. Wooldridge.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

Mr. McNARY. Mr. President, what is the reason for the emergency?

Mr. BARKLEY. This is a House bill proposing to pay the former county attorney of Oldham, Ky., $1,000 in lieu of all claims against the Government by reason of an injury which he sustained in a raid against moonshiners and bootleggers in La Grange, Ky. The facts of the situation are that Federal agents went out to this place and solicited the assistance of the county attorney and the county judge in making a raid in which they discovered large quantities of moonshine liquor.

The liquor was on the second floor of the residence of the person charged with its manufacture. In throwing the liquor out from the second floor down to the ground a 10-gallon keg was thrown on the head of the county attorney, who was assisting in the raid. It injured him so badly he had to remain in the hospital for 2 months, and he expended approximately a thousand dollars for medical and hospital assistance and was unable to transact any business for many months. The bill simply compensates him for the actual money he spent in attempting to recover. The House has passed the bill.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the bill (H. R. 3943) for the relief of D. E. Wooldridge was considered, ordered to a third reading, read the third time, and passed.

Mr. BONE. Mr. President, if I am a filibuster, I think I can justly claim to be the most amiable filibuster the Senate has seen in many days.

Mr. BARKLEY. I thank the Senator for the opportunity he gave me to aid him in his filibuster.

Mr. BORAH. Mr. President——

The PRESIDING OFFICER. Does the Senator from Washington yield to the Senator from Idaho?

Mr. BONE. Certainly.

Mr. BORAH. I think that the Senator from Kentucky overlooked a point which he should explain. What became of the liquor? [Laughter.]

Mr. BONE. I do not know that I can yield for an explanation of that kind. [Laughter.]

Mr. BARKLEY. I shall be glad to explain privately to the Senator from Idaho if he is interested. [Laughter.]

MESSAGE FROM THE HOUSE

A message from the House of Representatives, by Mr. Chaffee, one of its reading clerks, announced that the House had passed without amendment the following bills and joint resolutions of the Senate:

S. 4390. An act to amend the National Defense Act relating to the Medical Administrative Corps;

S. 4567. An act to authorize the Secretary of Agriculture to extend and renew for the term of 10 years a lease to the Chicago, Milwaukee & St. Paul Railway Co. of a tract of land in the United States Department of Agriculture Range Livestock Experiment Station, in the State of Montana, and for a right-of-way to said tract, for the removal of gravel and ballast material, executed under the authority of the act of Congress approved June 9, 1926;

S. 4786. An act to authorize the Secretary of Agriculture to make such adjustments and revisions found to be due on contracts entered into by the Government with crop producers under the Agricultural Adjustment Act;

S. J. Res. 277. Joint resolution to investigate corporations engaged in the manufacture, sale, or distribution of agricultural implements and machinery; and

S. J. Res. 291. Joint resolution amending section 11 of the Soil Conservation and Domestic Allotment Act.

The message also announced that the House had agreed to the report of the committee of conference on the disagreeing

votes of the two Houses on the amendments of the Senate to the bill (H. R. 12395) to provide revenue, equalize taxation, and for other purposes, and that the House had receded from its disagreement to the amendment of the Senate numbered 281 to the bill and concurred therein with an amendment, in which it requested the concurrence of the Senate.

DEPARTMENTS OF TREASURY AND POST OFFICE APPROPRIATIONS—CONFERENCE REPORT

The Senate resumed the consideration of the report of the committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill (H. R. 10919) making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1937, and for other purposes.

Mr. BONE. Mr. President, among the other Members indicted by the gentlemen who had been hired by the shipbuilding companies of the United States to break up the conference at Geneva and incidentally to help put over the bill under which the ship mail subsidies were accomplished, were my former colleague, former Senator Dill, of Washington; the Senator from Montana [Mr. WHEELER]; the eminent and able and intelligent Senator from Arizona [Mr. ASHURST]; the Senator from Wisconsin [Mr. LA FOLLETTE]; former Senator Brookhart, of Iowa; the Senator from Nebraska [Mr. NORRIS]; the Senator from Minnesota [Mr. SHIPSTEAD]; and former Senators Johnson, of Minnesota; Ralston, of Indiana; and Howell, of Nebraska.

Mr. President, if I were an artist with a thousand eyes and to each eye I were able to glue a compound microscope and look around for a thousand years, I probably never would be able to find the answer to the problem of what these men ever did that stamped them as Communists in the eyes of this superheated patriot who had been hired by the shipbuilding interests. Mr. President, what do you think these men had done or had had done to them that brought this outburst from Mr. Shearer?

Mr. ASHURST. Mr. President——

The PRESIDING OFFICER. Does the Senator from Washington yield to the Senator from Arizona?

Mr. BONE. Certainly.

Mr. ASHURST. Since the Senator has mentioned my name, permit me to say that possibly I was cataloged as a Communist because I have no quarrel with the Supreme Court of the United States when it declares acts to be void, which acts the Constitution gives Congress no power to pass.

Mr. BONE. The Senator is wholly in error. The Senator's offense was the offense that he had been endorsed for election by the Conference for Progressive Political Action. I hope my able friend from Arizona will appreciate this. The offense these Senators had committed was in being endorsed for election by the Conference for Progressive Political Action. The grizzly secret is out at last. The Conference for Progressive Political Action has as one of its leading members the Railway Brotherhood of America; so I want my brethren to understand that if so un-American, bolshevistic, communistic, seditious an organization as the Railroad Brotherhood of America dare to put the stamp of their approval upon your candidacy, that moment you become a Communist in the eyes of the gentleman who represented the Big Three of the shipbuilding interests of the United States.

My friend the Senator from Missouri [Mr. CLARK] has averted to another matter which is very interesting and which, I am sure, will prove interesting to Members of the Senate, because this is all tied in with the merchant-marine matter, all a part and parcel of the history of the merchant-marine legislation of the United States. This same William B. Shearer, known as the "big bass drum of Geneva"——

Mr. CLARK. Mr. President, will the Senator yield?

Mr. BONE. I yield.

Mr. CLARK. That was the name which he bestowed upon himself. He so admitted in evidence, and it appeared later he was authorized and empowered to go to the Geneva Conference as the representative of the Big Three of the Shipbuilding Trust, and also, according to his own testimony, that before he went to Geneva he had received the secret code of the Navy Department and claimed he had been furnished that personally by the Chief of the Bureau of Navigation of the United States Navy.

Mr. BONE. The Senator from Missouri is correct. Shearer testified that the Navy Department had given him highly confidential documents of the Navy which he might take to Europe. When the question was asked as to who this man was, the fact is that he was evidently so well regarded at one time that naval officials were entrusting him with secret documents of the Navy Department and he was permitted to carry them to Europe and there identify himself to the secret agents of the United States Government and to speak, apparently, in an unofficial way for the United States Government.

Whether he be right or wrong, Mr. Shearer was a violent opponent of the League of Nations and the World Court, and I would be the last person in the world to challenge that he had a right to cherish that viewpoint and to feel that his opposition to the World Court and League of Nations was entirely justified. I voted against adherence to the World Court in this body and I can find no reason in my own heart to criticize Mr. Shearer for voicing, in part, the opposition to the World Court which I myself feel.

But Mr. Shearer had a few years ago written a pamphlet. The title he gave his pamphlet was "The Cloak of Benedict Arnold." This merely reflects the intemperance of utterance of those who do not like criticism of this ship mail-subsidy program, the program of profit of the shipbuilding interests of this country who have so vigorously and viciously fought the expansion of the Government navy yards and attempts on the part of some of us to expand those publicly owned agencies so useful in the matter of national defense.

In this pamphlet entitled "The Cloak of Benedict Arnold", Mr. Shearer, the "big bass drum of Geneva", the man who sits in criticism of and judgment upon those who dare differ with him, had qualified numerous prominent American citizens as undesirables. It would not be of much importance if I were merely quoting some utterly obscure citizen, but this man had been trusted by the biggest business organization in the United States, the so-called Big Three, the three great, massive shipbuilding enterprises of the United States. He had been their trusted, confidential agent. He had apparently, according to his own statement, been the trusted and confidential agent of the Navy Department of the United States.

Mr. CLARK. Mr. President, will the Senator yield?

Mr. BONE. Certainly.

Mr. CLARK. It seems to me the subject being discussed by the Senator is of such great importance that there ought to be a quorum present. Will the Senator yield to me to enable me to suggest the absence of a quorum?

The PRESIDING OFFICER. Does the Senator from Washington yield to the Senator from Missouri for that purpose?

Mr. BONE. Certainly.

Mr. CLARK. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk called the roll, and the following Senators answered to their names:

Adams	Clark	Lewis	Reynolds
Ashurst	Connally	Loftin	Robinson
Bachman	Copeland	Lonergan	Russell
Bailey	Davis	McAdoo	Schwellenbach
Barkley	Dieterich	McGill	Sheppard
Benson	Duffy	McKellar	Shipstead
Bilbo	Frazier	McNary	Smith
Black	George	Maloney	Steiwer
Bone	Gerry	Metcalf	Thomas, Okla.
Borah	Gibson	Minton	Thomas, Utah
Brown	Glass	Moore	Townsend
Bulkley	Guffey	Murphy	Truman
Bulow	Hale	Murray	Tydings
Burke	Harrison	Neely	Vandenberg
Byrd	Hastings	Norris	Van Nuys
Byrnes	Hatch	Nye	Wagner
Capper	Hayden	O'Mahoney	Walsh
Caraway	Holt	Pittman	Wheeler
Carey	King	Pope	
Chavez	La Follette	Radcliffe	

The PRESIDING OFFICER. Seventy-eight Senators having answered to their names, a quorum is present.

Mr. BONE. Mr. President, I desire to proceed with the disclosure about the patriotic gentleman who seems to have done quite a little of boring from within in his relations both to big business and to our own Federal Government.

When Mr. Shearer was on the witness stand, I asked him this question:

Let us go ahead with this disclosure. Why would the Navy Department of the United States turn over to a private citizen employed by private shipbuilding companies, subsequently at least, a book which contained confidential United States Navy matter and, as you say, send it to you through the open mail, and there was no definite understanding with you in advance that you were to receive that highly confidential information, which, if put in the hands of one of these newspapermen, for instance, would constitute a crime, and even Senators probably could not get it; how did you get it?

Then Mr. Shearer made a somewhat evasive answer, and I suggested to him that he had not answered my question as to how he could get information which a private citizen could not secure without probably committing a criminal offense; and Mr. Shearer's answer was:

Because my record is known in the Navy Department; that I have been a champion of national defense. It is reflected in everything I have said and written, and they have had the acid test put on me, and they know I will run true to form for the national defense.

While Mr. Shearer was presuming to speak for the Navy Department of the United States, claiming to have in his possession confidential documents of the Navy Department relating to the national defense, hired by private shipbuilding interests which were to benefit inordinately in the way of financial profits from the merchant-marine program then in contemplation, Mr. Shearer wrote a book or a pamphlet called the Cloak of Benedict Arnold.

In the year 1928 Mr. William B. Shearer copyrighted this remarkable book. In that book he cataloged and listed numerous prominent American citizens whom he classified as unpatriotic; in fact, as being disloyal to the Republic. So I took Mr. Shearer's book and started to read these names to him, and asked him in each instance if he cataloged these prominent American citizens as unpatriotic and disloyal; in other words, as Communists, according to his own theory.

Now let me read to the Members of the United States Senate the names of those whom Mr. Shearer, the acclaimed representative of the Navy Department, the open and avowed and highly paid representative of the big private shipbuilding interests that fought to the bitter death every effort to expand our navy yards, so that they themselves could build battleships for us at the flossy and fancy prices they exacted from the Government. Let me read the names of the men whom this man Shearer indicted as traitors to their country by calling them unpatriotic citizens. The first on the list was Newton D. Baker. The next was Dr. Harry A. Garfield, son of the martyred President. I said to him, "Well, is not that an astounding statement for you to make?" He replied, "Incidentally, Senator, that is a little bit of plagiarism on my part, taken from the Hearst papers." I said, "You claim to be an author, do you not?" He said, "I simply copied it. It is a little plagiarism."

Mr. CLARK. Mr. President, will the Senator yield?

Mr. BONE. I yield.

Mr. CLARK. It was later in evidence that this gentleman was paid some $5,000 by the Shipbuilding Trust for going out on the Pacific coast and discussing with Mr. Hearst the possibility of exposing a so-called British plot against the safety of the United States.

Mr. BONE. That is correct.

Another outstanding American inviting the wrath of this superpatriot and indicted by him was Dr. Ellen Pendleton, president of Wellesley College. I ask if he considered Dr. Pendleton unpatriotic, and he had to admit that he did.

Ralph Pulitzer, of the New York World; Chester Rowell, of California; Henry Taft——

Mr. McKELLAR. I ask for order, Mr. President.

The PRESIDING OFFICER. The Senate will be in order, and Senators will refrain from conversation.

Mr. BONE. Mr. President, the last nominee for the hall of infamy was Mr. Henry Taft. The next victim of the spleen of this patriotic gentleman was Mrs. Frank W. Vanderlip. When I asked him if he regarded Mr. Henry W. Taft as unpatriotic, too, he suggested that, since his name was in the book, he probably was in that category. He suggested that there were also names which he wanted me to read from the Department of Justice records.

Again I wish to say that running all through is the inference and implication and sometimes the flat assertion that those who presumed to differ with this gentleman's ideas were unpatriotic.

Going further down the list of those being indicted by Mr. Shearer we find the name of George W. Wickersham, former Attorney General of the United States. Dr. Mary Woolley, of Mount Holyoke College, was also unpatriotic. Colonel House was equally bad. Harvey Ingham, of the Des Moines State Register; Harold B. Johnson, editor of the Watertown, (N. Y.) Times, that splendid, outstanding daily; Tom Wallace, of the Louisville Times-Courier. I have never been able to understand how a newspaperman could be unpatriotic, but apparently Mr. Shearer has made that startling discovery.

Mr. President, it is very interesting to note that this representative of big business, this representative of shipbuilding interests, this representative of the chief beneficiaries of the Jones-White Act, cataloged under the title "Knaves or Fools" all these brilliant and outstanding Americans, whose achievements will be remembered when the name Shearer is forgotten. They were all cataloged in this remarkable book paid for and circulated by the private shipbuilding trust of this country, under the title "Knaves or Fools." Prominent in the list of names under that caption appears the name of Franklin D. Roosevelt.

Mr. President, further inquiry concerning this journalistic atrocity, called the "Cloak of Benedict Arnold", reveals the fact that the authorship of this pamphlet was one of the items of the claim that Mr. Shearer made against the three shipbuilding companies in the bill of particulars furnished, I think it was, in a suit that he brought. Mr. Shearer mentioned the cloak of Benedict Arnold. He had received money from them to pay the printer, and had launched his indictment against this great list of eminent Americans who had achieved outstanding success in their chosen professions by indicting them as knaves or fools.

Mr. President, this man merely exemplifies what I have said frequently here that there is no restraint whatever upon the tongue of those who object to just criticism leveled at the practices that went on under the Jones-White Act.

President Roosevelt had been an outstanding advocate of a big navy. In spite of that fact, the President was indicted by this man under that shameless caption. Mr. Shearer wound up his remarkable indictment by referring to the American people as "slaves."

Mr. President, it is not pleasant to indict Mr. Shearer, but I feel compelled to do so because of the man's lack of restraint in characterizing decent, clean, fine, upstanding American citizens, men who have achieved outstanding success in their profession, men who have honored and graced this presence, as being unworthy to wear the toga of citizenship.

THE TREASURY AGENCY SERVICE

Mr. COPELAND. Mr. President, will the Senator yield?

Mr. BONE. I yield.

Mr. COPELAND. I wish to make another effort to obtain action on House bill 12556, relating to the creation of the Treasury Agency Service. I ask unanimous consent that the Senate proceed to the consideration of the bill.

The PRESIDING OFFICER. Is there objection to the request of the Senator from New York?

Mr. O'MAHONEY. Mr. President, I desire to offer an amendment to the bill, and I request that it be stated.

The PRESIDING OFFICER. Is there objection to the unanimous-consent request? The Chair hears none. The clerk will report the bill by title.

The CHIEF CLERK (reading):

A bill to create the Treasury Agency Service, to provide for the more adequate protection of the revenue and a more effective enforcement of the revenue and other laws administered by the Treasury Department, and for other purposes.

Mr. BONE. Mr. President, I must object to the consideration of the bill.

The PRESIDING OFFICER. Objection is heard.

Mr. O'MAHONEY. Mr. President, will the Senator yield?

Mr. BONE. My mind is fully made up as to this bill.

Mr. O'MAHONEY. Will the Senator yield?

Mr. BONE. I yield.

Mr. O'MAHONEY. I ask that the clerk may read the amendment which I have offered to the bill and which has not been called to the attention of the Senator from Washington.

The PRESIDING OFFICER. Is there objection to the consideration of the bill?

Mr. O'MAHONEY. Mr. President, I am asking that the amendment be stated in order that the Senator from Washington may be advised as to what it is before the unanimous-consent request is submitted.

The PRESIDING OFFICER. Is there objection to the reading of the amendment? The Chair hears none, and the clerk will state the amendment.

The CHIEF CLERK. It is proposed, on page 1, lines 8 to 10, and on page 2, lines 1 to 5, to strike out the second sentence of section 2 (a) and to insert in lieu thereof the following:

There shall be appointed by the President, by and with the advice and consent of the Senate, a director of the Treasury Agency Service, who shall receive a salary of $10,000 per annum, and who shall perform such duties in connection with the supervision and coordination of the activities of the Treasury Agency Service as the Secretary of the Treasury may from time to time assign: *Provided*, That none of the provisions of this act shall be construed to relieve the Department of Justice, or any bureau, subdivision, or officer thereof of any authority, responsibility, or jurisdiction now vested in or imposed on such department, bureau, subdivision, or officer.

Mr. McNARY. Mr. President, is the request to consider the bill and the amendment?

The PRESIDING OFFICER. The request is to lay aside temporarily the pending business, and to consider the bill.

Mr. McNARY. An amendment is proposed to the bill?

The PRESIDING OFFICER. The Senator from Wyoming has offered an amendment.

Mr. McKELLAR. Mr. President, I cannot agree that the pending business be laid aside.

The PRESIDING OFFICER. Objection is heard to the present consideration of the bill.

MESSAGE FROM THE HOUSE

A message from the House of Representatives, by Mr. Haltigan, one of its reading clerks, announced that the House insisted upon its amendment to the bill (S. 5) to prevent the adulteration, misbranding, and false advertising of food, drugs, devices, and cosmetics in interstate, foreign, and other commerce subject to the jurisdiction of the United States, for the purposes of safeguarding the public health, preventing deceit upon the purchasing public, and for other purposes, disagreed to by the Senate; agreed to the conference asked by the Senate on the disagreeing votes of the two Houses thereon, and that Mr. CHAPMAN, Mr. COLE of Maryland, Mr. KENNEY, Mr. REECE, and Mr. WOLFENDEN were appointed managers on the part of the House at the conference.

MEETING OF CONFEREES ON FOOD AND DRUG BILL

Mr. COPELAND. I ask that the conferees on the food and drug bill meet in the Commerce Committee room at 9 o'clock tomorrow morning.

INVESTIGATION OF THE MUNITIONS INDUSTRY (PT. 7, REPT. NO. 944)

Mr. NYE. Mr. President, I ask the privilege of submitting from the Special Committee on Investigation of the Munitions Industry its seventh report. This report deals with Government manufacture of munitions. I ask that it may be printed.

I should like to add for the information of the Senate that this is the seventh report to go to the printer, and by joint action of the two Houses of Congress a print of 44,000 copies of each report has been authorized. As soon as the print is available distribution will be made in keeping with the request made by the individual Members of the House and of the Senate, and that distribution can be expected within the next 2 weeks.

For the further information of the Senate, that there may be clearer identity of the various reports the committee has made, permit me to say that the first report is one on war profits; the second one is on the shipbuilding industry; the third report is on the munitions companies' activities; the fourth report is on the War Department mobilization bill; the fifth report has to do with existing legislation involving embargoes and neutrality acts; the sixth report is on banking relations; and now the seventh report has to do with Government manufacture of munitions.

The PRESIDING OFFICER. Without objection, the report will be received and printed.

ADDITIONAL REPORT OF A COMMITTEE

Mr. KING, from the Committee on the District of Columbia, to which was referred the bill (H. R. 12681) to amend section 1 of the act of Congress entitled "An act to fix the salaries of officers and members of the Metropolitan Police force, the United States Park Police force, and the Fire Department of the District of Columbia", approved May 27, 1924, and for other purposes, reported it without amendment and submitted a report (No. 2451) thereon.

INTERNAL REVENUE TAXATION—CONFERENCE REPORT

Mr. KING submitted the report of the Committee of Conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 12395) to provide revenue, equalize taxation, and for other purposes, which was ordered to lie on the table.

(For conference report see House proceedings of this date, p. 10257.)

DEPARTMENT OF TREASURY AND POST OFFICE APPROPRIATIONS—CONFERENCE REPORT

The Senate resumed the consideration of the report of the committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill (H. R. 10919) making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1937, and for other purposes.

Mr. BONE. Mr. President, let me give the Senate just one illustration, before I conclude, of the outcome of the thing which Mr. Shearer and his associates were able to put over so successfully on the passage of the act to which I have been referring, under which these great subsidies were paid to private steamship lines in this country.

Out of the records of the committee which investigated ocean- and air-mail contracts there appears a study of the salaries and expenses paid to Henry Herberman by the Export Steamship Corporation and the Steers Terminal Co., a 100-percent subsidiary of the Export Steamship Corporation.

Let me say that when all these Americans were indicted and when all this frenzied effort was made to get this bill through, the men who were so eager to put it through were the men who accomplished something of this kind. It was never contemplated by Members of the Congress that steamship companies would be able to organize, as they did organize, subsidiary companies into which were siphoned the profits which, had they been shown on the books of the steamship companies getting the subsidies, would have been so outrageous in their size as immediately to have challenged the attention of the Congress. It was not until the Black Committee delved into the matter that the facts became known.

Here is a 100-percent subsidiary of the Export Steamship Corporation, and here is one of the salaries they paid. Forty-five thousand four hundred dollars was paid in 1926 to Mr. Herberman, who was allowed that year expenses by this subsidiary of over $66,000, or a total of $112,000 plus.

In 1927 the president of this little subsidiary of the Export Steamship Corporation took $50,000 in salary and over $77,000 in expenses, or a total in 1 year of over $127,000 siphoned out of this steamship company into the coffers of the subsidiary, a terminal company, and all realized out of subsidies.

In 1928 the going was a little better, the plucking a little better, and he took a salary from this subsidiary of $125,000, and expenses of over $96,000, or a total of over $221,000 in 1 year. Congress had been induced to pass legislation under which such things as that were accomplished.

In 1929 a salary of $77,500 was taken and expenses of over $65,000, amounting in all to over $143,000 in 1 year.

In 1930, the year of the great depression, this man took $75,000 in salary and over $49,000 in expenses, or a total of over $124,000.

In 1931, the year when millions of Americans walked the streets vainly begging for jobs, out of the Treasury of the United States, out of the money wrung from the taxpayers of this country, this man at the head of this little subsidiary of the Export Steamship Corporation is shown by the record to have taken $60,400 in salary and over $48,000 in expenses, or a total of $108,460.

No wonder these men wanted to put over a program of that kind. No wonder they were willing to hire a man of the type of Mr. Shearer to come to Washington, along with others, and put through a program which resulted in such outrageous and outstanding salaries to the heads of subsidiaries of steamship companies which were in on the heavy "sugar" which we called subsidies.

RECORD OF THE POST OFFICE DEPARTMENT UNDER JAMES A. FARLEY

Mr. McKELLAR. Mr. President, during the last 3 years the Post Office Department has made such a splendid record that I feel that before the Congress adjourns there ought to be some statement made of its accomplishments.

Postmaster General James A. Farley, who became a member of President Roosevelt's Cabinet on March 4, 1933, is one of the few Postmasters General in the history of the Post Office Department who has succeeded in administering the Postal Service on a self-sustaining basis with respect to that part of the Department's services which are rendered to the public for hire.

Confronted when he took office with a net postal deficit which for the fiscal year ending on June 30, 1932, reached the staggering total of $153,581,408, Mr. Farley in the first 4 months of his administration reduced the postal deficit by more than $100,000,000. For the first full year of his administration Postmaster General Farley, through wise business management and the practice of strict economy wherever possible without impairment to the service, showed a net operating postal surplus of $12,161,415, the first Post Office Department surplus since 1919.

I digress at this point long enough to say, Mr. President, that during the nearly 150 years of our Postal Service there have been only 15 years when there was an actual surplus in the Department. During all the rest of the years there were deficits. This surplus was greater than for any previous fiscal year in the history of the Department, with the exception of that for 1918, which was achieved during the term of Postmaster General Burleson under President Wilson, and it exceeded the aggregate amount of the surpluses for all years prior to the Wilson administration.

The following fiscal year, which ended on June 30, 1935, and which represented the second full year of Mr. Farley's term, resulted in the Post Office Department showing a net operating surplus of $4,964,149, in a year which saw the compensation of postal employees put back on a 100-percent basis.

Think of it, Mr. President: Here was a department in which 3 years ago there was a deficit of $153,000,000, and not only that, but the employees' compensation had been cut, largely cut; and in less than 3 years, under the wise business management of Mr. Farley and those under him, there was a small surplus, and every employee's salary had been restored to what it was before the cut.

Postmaster General Farley has done much to better the working conditions of the postal employees in all branches of the Service. It was only after his hearty endorsement that the 40-hour-week law for postal employees was enacted into legislation during the first session of the Seventy-fourth Congress. For years the Post Office Department had been confronted with the problem of substitute employees, which was never more serious than when Mr. Farley took office.

For many years these substitutes, who, for the most part were family men with dependents, had petitioned the Post Office Department for assistance but to no avail. One of Mr. Farley's first official acts after becoming Postmaster General was the granting of a hearing to several hundred substitutes who converged on Washington from all sections of the country, and it was at that time, at the outset of his administration, that Mr. Farley resolved to do everything in his power to assist the cause of the postal substitute.

There were approximately 20,000 substitutes who had been given very little work during the depression period and who had for years waited in vain for regular appointments. These substitutes have now, in most instances, been given regular appointments and positions have been provided for many others who were unemployed, as a result of the enactment of this 40-hour-week law.

I desire to add at this point that one of the principal causes for the committee's approval of the 40-hour week was the fact that, by the passage of the 40-hour week law, these 10,000 or more substitutes were given employment in the Postal Service.

A new Postal Service rating system for postal employees has been instituted by Postmaster General Farley whereby all former demerits registered against employees were canceled in favor of the new rating system. The new system has for its purpose the recognition of faithful and meritorious service and the determination of the value of each employee to the service, with a view to serving as a guide in making promotions to the more important assignments in the field service.

Postmaster General Farley has recognized to a greater degree than ever before meritorious service in the making of appointments to high executive positions in the Department. This has brought about a higher morale among the employees throughout the service than at any previous time in the Department's history. He has also opened the doors of the Post Office Department at Washington to the representatives and officers of all of the postal employees' organizations, and this has resulted in a closer and more intimate relationship between the employees and the executives of the various branches of the service.

Shortly after becoming Postmaster General, Mr. Farley announced that incumbent postmasters would be permitted to serve out their terms, and this policy has been adhered to rigidly throughout the present administration.

Among the many improvements that have been made in the Postal Service, both at Washington and in the field, under Mr. Farley's personal direction and supervision, is the installation of a new accounting system, which has made it possible for postmasters' monthly accounts to be received at the Department 3 weeks after the close of any given 30-day period. This formerly took from 3 to 4 months. As a result, it is now possible to know promptly the trends of postal receipts and the manner in which each postmaster is conducting his office.

Several times during his administration Mr. Farley has called conferences with post-office inspectors from all sections of the country for the purpose of promoting more efficient service to the patrons of the Post Office Department. These conferences have resulted in numerous service improvements in all parts of the Nation through the supplying of additional deliveries, expediting of schedules, and the rerouting of the mails wherever required in the interest of better mail service.

A few months after taking office Mr. Farley introduced a new 48-hour dead-letter service, whereby dead letters are now on their way back to the sender within 48 hours of their being received in a dead-letter branch. Under the former system the average time consumed to make such disposition of a dead letter was 7 days. The installation of this new service reduced the cost of operating the dead-letter service from $138,000 to $38,000 during the first year of its operation.

In addition to rendering improved service to patrons of the Post Office Department, the Department has, within the past 3 years, at the direction of Mr. Farley, conducted a vigorous and widespread campaign to protect the people of the country from the numerous fraudulent enterprises conducted through the mails. This has resulted in annual savings of many millions of dollars to the American public. The Postal Inspection Service, under the direction of the Postmaster General, has also waged a vigorous and successful drive on the senders of obscene matter.

Mr. President, I now come to the operation of the activities of the Department which are to me extremely interesting.

The finest air-mail system in the history of the service, embracing as it does 29,000 route and 40,000,000 scheduled miles, was set up by Mr. Farley in 1934. Under the old system, which was in operation prior to that time, there were but 25,248 route and 35,000,000 scheduled miles. At present 215 cities throughout the Nation have direct air-mail service, as compared with 167 cities under the former system. Before 1934 the States of Maine, New Hampshire, Vermont, and West Virginia had no air-mail service whatever. Today these States are traversed by routes, which form an integral part of the new air-mail system, which serve directly 47 States.

The cost to the Post Office Department of this new and greatly improved air-mail system for the fiscal year which ended on June 30, 1935, was $8,880,000. In 1933, the fiscal year prior to the establishment of the present system, the cost of the air-mail service was $19,400,000 for a much more limited service than is available today.

I digress long enough to say that we appropriated frequently more than $20,000,000 for air service under the old regime. There were scandals involved. The contracts had to be canceled and were canceled. For less than one-half of what the Government paid previously we now have an infinitely better system and a constantly growing system, as I shall now explain.

All records for the volume of mail transported by air, passengers carried, passenger miles flown, and pounds of air express carried were broken last year, and present indications are that these records will again be bettered this year. Planes flying over the Post Office Department's domestic and foreign air-mail system last year carried more than thirteen and one-half million pounds of air mail, a gain of 76 percent over 1934, and more than 863,000 passengers, a gain of 53 percent. The passenger revenues of the air-mail companies for the calendar year 1936 amounted to more than $15,800,000, as compared with passenger revenues for 1934 of about $8,600,000, or an increase of 83 percent.

The most recent and certainly one of the most significant developments in the history of mail transportation was the inauguration by Mr. Farley of the trans-Pacific Air Mail Service in November of 1935 when the first scheduled flight on the Post Office Department's 8,700-mile air-mail route between San Francisco and the Orient took off from the Alameda, Calif., airport.

The establishment of this great transoceanic service across the broad expanse of the Pacific Ocean by way of Honolulu, Midway, Wake, Guam, and the Philippine Islands, has reduced the time consumed in transporting mail from the United States to the Far East from 18 days to but 5½ days.

In addition to these air-mail services there has been established by Mr. Farley an air-mail route connecting the islands of the Hawaiian group. There has also been an expansion of the Alaskan air-mail service in the last 3 years.

The Post Office Department's ocean mail service has likewise been improved and savings have been effected in this service which amount to more than $2,000,000 a year.

The Rural Free Delivery Service has been operated during Mr. Farley's administration at a cost of several million dollars a year less than heretofore.

Hundreds of new post-office buildings are being constructed throughout the country under the present administration's post-office building program. The act of June 19, 1934, authorized the expenditure of $65,000,000 for public buildings at places to be selected by the Secretary of the Treasury and the Postmaster General. There were 361 projects selected under this authorization, of which 92 have already been completed and a large percentage of the remainder are now under construction.

The act of August 12, 1935, authorized the expenditure of $60,000,000 for public-building construction and 356 projects were selected under this program. The first site under this authorization was chosen just 21 days after the enactment of the legislation. A number of these projects are now under construction and plans for the consummation of the remainder of this program are proceeding as expeditiously as possible.

These post-office building programs have resulted in putting to work thousands of men in all sections of the country, thereby contributing greatly to the improvement of unemployment conditions. They have likewise proved a stimulus to the building and allied trades through the purchase of building materials and supplies of all kinds for these new buildings. Many thousands of jobs have been created indirectly in the heavy industries through the carrying out of these building programs, which have, at the same time, been advantageous from a Government standpoint, resulting in increased efficiency through the provision of improved facilities.

An unprecedented growth in the sales of stamps to stamp collectors and philatelists through the Post Office Department's philatelic agency has been recorded since Mr. Farley took office. This has been due in no small measure to the attractive commemorative postage stamps which have been issued under his direction in the last 3 years. Another factor which has entered into the amazing increase in stamp collecting is Mr. Farley's policy of holding many first-day stamp sales at various points throughout the country, rather than confining them to Washington. This has resulted in thousands of people becoming acquainted for the first time with the educational benefits that accrue from the pursuit of stamp collecting.

Stamp sales through the philatelic agency, which is maintained at Department headquarters in Washington, rose from $300,000 in 1933 to $800,000 in 1934 and $2,400,000 in 1935. The latest reports from the philatelic agency indicate that there will be a further increase in revenue from this source for the present fiscal year.

These are but few of the many improvements and accomplishments of the present administration of the Postal Service.

An analysis of Mr. Farley's postal administration reveals one of the outstanding records in the Department's long history. The results that have been attained under his sound business management have demonstrated that this Government organization, one of the largest public institutions in the world, can be conducted in an efficient manner, with every regard for the public interest and the employees' welfare, and without waste and extravagance.

Mr. President, I desire to say in conclusion that in my judgment—and I have had quite a long experience with the Post Office Department of the Government, having served now for nearly 20 years on the Post Office Committee of the Senate—there never has been an administration which has been conducted in a more businesslike, a more efficient, a more vigorous, and a more honest way than our great American postal system has been conducted under Mr. Farley during the past three and a fraction years.

I felt that it was my duty at this time to make a statement of the accomplishments of this great business Department of our Government. I look upon it with a great deal of pride. The Post Office Committee has had before it many of the affairs of the Post Office Department; and, as chairman of the committee, I feel great pride in the accomplishments of the Department during the present administration.

Mr. BLACK. Mr. President, will the Senator yield to me?

Mr. McKELLAR. I yield to the Senator from Alabama.

Mr. BLACK. I do not know whether or not the Senator from Tennessee referred to the work of the Post Office Department in connection with efforts to prevent those who

have ocean-mail contracts from obtaining a greater amount of money than they should obtain. It is my information that by requiring tests of the speed of the various ships operating under the ship-subsidy law, the present Post Office administration has already brought about a reduction in rates which will save the Government $8,000,000, even if the contracts should continue to the end.

Mr. McKELLAR. I have already referred to that fact. I also referred to the remarkable difference which has been brought about in the conduct not only of ocean mail, not only of domestic mail, not only of air mail, but even of foreign mail as well as domestic air mail. We have a much larger service and a much more efficient service at just about one-half what the old service cost.

The Senator from Alabama is fully familiar with all the steps that were taken to secure a stronger, a better, a more efficient, and a more honest air-mail service than we had when this administration came in. The Senator from Alabama was one of those who took part in bringing about that condition. His aid was very effective, and in connection with the act which was passed his advice was often sought. I desire to say that I never knew any official of the Government who acted with greater courage, with a greater love of his country's interests, and with greater concern for the honesty and integrity of a department of the Government than Mr. Farley in his action in canceling the contracts which ought to have been canceled and which were canceled at that time.

Mr. BLACK. I concur in the statement of the Senator from Tennessee.

COMPARISON OF APPROPRIATIONS

Mr. GLASS. Mr. President, I ask unanimous consent to insert in the main body of the RECORD, immediately following my remarks, a detailed statement of the appropriations made during the Seventy-fourth Congress, prepared at my direction by the clerks of the Appropriations Committee.

The PRESIDING OFFICER (Mr. KING in the chair). Without objection, it is so ordered.

The statement is as follows:

Comparison of appropriations made during the Seventy-fourth Congress, second session, with same made during the Seventy-fourth Congress, first session, and comparisons of appropriations of Seventy-fourth Congress, second session, with estimates

Title	Appropriations, 74th Cong., 1st sess.	Appropriations, 74th Cong., 2d sess.	Budget estimates, 74th Cong., 2d sess.	Increase (+) or decrease (−) appropriations, 74th, 2d, compared with appropriations, 74th, 1st	Increase (+) or decrease (−) appropriations, 74th, 2d, compared with estimates, 74th, 2d

PROPOSED FARMERS' AND WORKERS' RIGHTS AMENDMENT TO THE CONSTITUTION

Mr. BENSON. Mr. President, I feel deeply the conviction that this Congress cannot adjourn without giving consideration to amending the Federal Constitution, to protect the right of Congress to legislate for the benefit of the farmers and workers and common people of this country. I feel that there is a sweeping demand all over this Nation for the submission of such an amendment, without delay, to the people of the 48 States. I feel that the most recent major decision of the United States Supreme Court, in the New York minimum-wage case, makes this imperative if the people of this country are to enjoy the benefits of their own Government.

Senator ASHURST and Senator KING have assured me that a subcommittee of the Senate Committee on the Judiciary will hold such hearings on the joint resolution, Senate Joint Resolution 249, which I had the honor to introduce early in the present session. This proposed amendment, which was introduced long before the most recent and devastating Supreme Court decisions had been handed down, would have met the contentions of every one of these majority decisions, and would have made such decisions by the Court impossible.

More than 350 organizations of farmers, workers, political, social, religious, and language groups, and 20,000 individuals, have endorsed this amendment as proposed in Senate Joint Resolution 249, and asked its adoption. Among these organizations are 5 international unions, 11 State federations of labor, and 15 great farm organizations. I ask unanimous consent that the list of these endorsers for the constitutional amendment that I have introduced be printed in

the RECORD, that every Member of the Congress may know of their demands.

There being no objection, the list of endorsers was ordered to be printed in the RECORD, as follows:

FARMERS' AND WORKERS' RIGHTS AMENDMENT ENDORSERS

International unions:
Amalgamated Clothing Workers of America, New York, N. Y.
Independent Textile Union of America, executive council and 28 union locals, Woonsocket, R. I.
National convention, Brotherhood of Utility Employees of America, Brooklyn, N. Y.
American Federation of Teachers, Chicago, Ill.
Workingmen's Union of the World, Fort Smith, Ark.
Woolen and Worsted Workers (national convention).
American Federation of Hosiery Workers.
American Newspaper Guild.
Brotherhood of Utility Employees.
State federations of labor:
New Jersey State Federation of Labor, Paterson, N. J.
Minnesota State Federation of Labor, St. Paul, Minn.
Idaho State Federation of Labor, Pocatello, Idaho.
Indiana State Federation of Labor, Gary, Ind.
Wisconsin State Conference, Journeymen Painters, Milwaukee, Wis.
Connecticut State Federation of Labor, Hartford, Conn.
Eastern Pennsylvania District Council of American Federation of Hosiery Workers.
Rhode Island Textile Council.
District Council No. 1, Projectionists of Northern California.
California State Theatrical Federation.
West Virginia Federation of Labor.
Arizona (A. F. of L.).
Montana (A. F. of L.).
Rhode Island (A. F. of L.).
Wisconsin (A. F. of L.).
Arkansas (workingmen's unions).
Oklahoma (workingmen's unions).
New Jersey (District Council, Hosiery).
New York (District Council, Hosiery).
Central Labor Unions:
Toledo Central Labor Union, Toledo, Ohio.
Eighth Ward Unemployment League, Allentown, Pa.
Central Labor Union of Barre and vicinity, Barre, Vt.
New Jersey and New York District Council, American Federation of Hosiery Workers.
Central Labor Council, Sheboygan, Wis.
Hartford Structural Building Trades Alliance, Hartford, Conn.
Seattle Central Labor Council, Seattle, Wash.
Sullivan County Central Labor Union, Sullivan, Ind.
Pocatello Central Labor Union, Pocatello, Idaho.
Spokane Central Council, Spokane, Wash.
Massillon Trades and Labor Assembly, Massillon, Ohio.
Central Labor Union, Fairmount, W. Va.
United Hebrew Trades, Philadelphia, Pa.
Central Labor Union, Latrobe, Pa.
Central Labor Union, Ashtabula, Ohio.
Central Labor Council, Roanoke, Va.
United Furniture and Allied Trade Unions, Gardner, Mass.
Passaic County Central Labor Union, Passaic, N. J.
Keystone Workers Association, Pennsylvania.
Joint Board Amalgamated Clothing Workers Union, Baltimore, Md.
Trades and Labor Assembly, Decatur, Ill.
Racine Trades and Labor Council, Racine, Wis.
Tacoma (Wash.) Central Labor Council, Tacoma, Wash.
Central Labor Union, Erie, Pa.
Central Labor Union, Knoxville, Tenn.
Central Labor Union, Pawtucket, R. I.
Central Labor Council, Kern County, Calif.
Detroit and Wayne County Federation of Labor, Detroit, Mich.
Union County Central Labor Union, Elizabeth, N. J.
Silver Bow Trades and Labor Council, Butte, Mont.
Bakersfield Labor Council, Bakersfield, Calif.
Cleveland Federation of Labor, Cleveland, Ohio.
Grand Rapids Federation of Labor, Grand Rapids, Mich.
Lake County Central Labor Union, Gary, Ind.
Everett Central Council, Everett, Wash.
National Leather Workers' Association, Boston, Mass.
Rhode Island Federation of Labor, Pawtucket, R. I.
Hartford Central Labor Union, Hartford, Conn.
Hudson County Central Labor Union, Jersey City, N. J.
Easton Central Labor Union, Easton, Pa.
Fort Wayne Federation of Labor, Fort Wayne, Ind.
Hartford Central Labor Union, Hartford, Conn.
Union County Central Labor Union, Elizabeth, N. J.
Union Label League, Fort Worth, Tex.
Central Labor Union, Jasper, Ala.
Central Labor Union, Roanoke, Va.
Central Labor Union, Charleston, S. C.
Central Labor Union, Hudson County, N. J.
Central Labor Union, St. Petersburg, Fla.
Central Labor Union of Hopewell & Petersburg, Hopewell, Va.
Central Labor Union, Pocatello, Idaho.
Central Labor Union, Reading, Pa.
Federation of Jewish Trades Unions, Chicago, Ill.
Federated Trades Council, Milwaukee, Wis.
Kenosha Trades & Labor Council, Kenosha, Wis.
St. Paul Trades & Labor Council, St. Paul, Minn.
Allegany County Trades Council, Cumberland, Md.
Lake County Central Labor Union, Willoughby, Ohio.
Chicago Federation of Labor, Chicago, Ill.
Negro Labor Conference, New York, N. Y.
Lake County Central Labor Union, Indiana.
Spokane Central Labor Council, Spokane, Wash.
Trades & Labor Council, Monongahela Valley, W. Va.
Building Trades Alliance, Hartford, Conn.
Painters District Council, Chicago, Ill.
Joint Board I. L. G. W. U., Baltimore, Md.
Local unions:
Local No. 1, Progressive Miners of America, Illinois.
Carpenters' Union No. 1024, Cumberland.
International Association of Machinists, Chicago, Ill.
Sign Writers No. 1045, Denver, Colo.
Electrical Workers No. 3, New York, N. Y.
Railway Carmen No. 17, Dallas, Tex.
I. L. G. W. U. No. 22, New York, N. Y.
Machinists' Lodge, Newport, R. I.
International Union of Elevator Constructors No. 15, Milwaukee, Wis.
International Brotherhood of Electrical Workers No. 65, Butte, Mont.
Boilermakers, Iron Shipbuilders and Helpers Union 302, Milwaukee, Wis.
Joint Board Cloak Makers, Local No. 4, Baltimore, Md.
Machinists' Lodge, Newport, R. I.
Amalgamated Meat Cutters and Butcher Workers, Local No. 641, Denver, Colo.
International Association Bridge, Structural, and Ornamental Iron Workers, Local 473, Chicago, Ill.
Teachers' Union, Local No. 340, Baltimore, Md.
Furniture Finishers' Local Union No. 725, Cleveland, Ohio.
Printing Pressman's Union, Local 61, Baltimore, Md.
American Federation of Teachers, Dallas Lodge, Dallas, Tex.
Suitcase, Bag, and Portfolio Makers Union 48, New York, N. Y.
Federal Labor Union No. 8741, Billings, Mont.
Barbers' Union No. 434, Pocatello, Idaho.
International Mine, Mill, and Smelter Workers, Local No. 1, Butte, Mont.
Housewives' Union of Santa Clara County, Palo Alto, Calif.
United Textile Workers, Local No. 486, Pawtucket, R. I.
United Textile Workers, Local No. 2204, Albion, R. I.
Railway Clerks, Gem City Lodge, No. 299, Dayton, Ohio.
Painters' Union, Local No. 765, Cleveland, Ohio.
United Mine Workers of America, Local 6855, Nauvoo, Ala.
United Mine Workers of America, Local No. 5934, Carbon Hill, Ala.
United Mine Workers of America, Local No. 5801, Jasper, Ala.
United Mine Workers of America, Local No. 5800, Walker County, Ala.
United Mine Workers of America, Local No. 5841, Jasper, Ala.
International Union of Operating Engineers, Local 226, New Orleans, La.
International Union of Operating Engineers, Local 226A, New Orleans, La.
Yeast Workers' Local No. 323, Baltimore, Md.
Journeymen Barbers International Union, Local 5, Toledo, Ohio.
Bookkeepers and Stenographers, No. 12646, New York, N. Y.
I. L. G. W. U., Passaic, N. J.
Local 2096, United Textile Workers, Lakewood, Ohio.

FIVE-POINT TELEVISION PROGRAM

Mr. COPELAND. Mr. President, I ask unanimous consent to have printed in the RECORD a statement relative to the five-point television program recommended to the Federal Communications Commission by James M. Skinner, chairman of the Radio Manufacturers Association special committee on television, at the engineering conference called by the Commission in Washington Tuesday, June 16, 1936, on allocation of ultra high-frequency waves.

There being no objection, the statement was ordered to be printed in the RECORD, as follows:

A basic five-point program to plan for the successful development of television in the public interest was recommended to the Federal Communications Commission by James M. Skinner, chairman of the Radio Manufacturers Association special committee on television, at the engineering conference called by the Commission in Washington Tuesday, June 16, on allocation of ultra high-frequency waves.

Television will not be ready for the public for several years to come, but provision must be made now for its growth, said Mr. Skinner, who is also president of the Philadelphia Storage Battery Co., manufacturer of Philco radios. Sound radio and television will not be competitors. Sound radio is used, not only as a primary source of entertainment and education, but also as a background while reading, resting, working, or playing bridge. Looking at television requires concentration. However, said Mr. Skinner, the addition of daily television programs at certain hours should be a very important addition to the home life of the American people.

The United States is not lagging behind in the perfection of television, Mr. Skinner explained, but owing to the larger area of the country and the lower density of the population the problems of providing a service are greater here than in Europe. He urged the Commission to adopt the following television policies:

1. Establishment of a single set of television standards for the United States so that all receivers shall be capable of receiving the signals of all transmitters.

2. Development of pictures free from distortion and blur, approaching ultimately the distinctness and clarity obtainable in home movies.

3. Provision for services giving as near Nation-wide coverage as possible, so that the benefits of television may be available to all sections of the country.

4. Provision for a choice of programs, that is simultaneous broadcasting of more than one television program in as many localities as possible, to avoid monopoly and to provide variety of educational and entertainment features.

5. Lowest possible receiver cost and easiest possible tuning, to stimulate domestic installations of television receivers, both of which are best achieved by allocating for television as nearly a continuous band in the air waves as possible.

While it is not possible at present to determine precisely what the selling price of a television receiver will be, it will most likely cost less than the average motor car. The fact that the American public has found ways and means of financing the purchase of more than 20,000,000 motor cars, indicates that there is a wide market for television, Mr. Skinner emphasized.

"The present job of the Commission is to stake out for the public in the radio spectrum enough television space to preserve the possibility of a Nation-wide television service", Mr. Skinner declared. "The Radio Manufacturers Association feels that the Federal Communications Commission will supply the flexibility necessary to allow the art of television broadcasting to grow."

Television will further expand the service of radio to the American people as a source of education and entertainment, Mr. Skinner said. But, unlike radio, television cannot "feel its way" through the early stages of its commercial growth, he added, pointing out:

"Unless tentative standards are now set and later confirmed by extensive field tests under all sorts of conditions, receivers might be built and sold to the public which would be completely obsolete within a year or two. Commercial television must be born full grown."

Experimental work in television has reached a promising stage, Mr. Skinner stated, citing the experimental high definition television broadcasts which have been on the air for some time from the Philco Radio & Television Laboratories in Philadelphia and from RCA-Victor at Camden.

With further development, television will provide a stimulus to increased employment and national prosperity, according to the Philadelphia Storage Battery president.

"The Radio Manufacturers' Association views television ultimately as a big business," he stated, "a business which will employ many thousands of people in the production and operation of broadcasting equipment, in the production of receiving sets, in the production of daily programs, and in the fields of distribution and service. Television, we believe, is one of the new businesses the country needs to create new jobs."

Much money must still be expended for research and development, despite the millions of dollars already devoted to this purpose by radio manufacturers, Mr. Skinner continued. Just as 10 years were required before general public acceptance of the motor car and the radio developed, it is expected that it will take a similar period for television to come into general use in the average American home within range of broadcasting stations.

"In the opinion of the Radio Manufacturers Association, the Federal Communications Commission has in television a great opportunity and a great responsibility. Here is an impartial body with no interest to serve except that of the public interest. Although a television service is not likely for several years, the Commission must stake out now for the public enough space in the air waves to keep open the possibility of a Nation-wide television service."

Engineers of the radio industry have already held many meetings under the auspices of the Radio Manufacturers Association and have arrived at practically complete agreement on basic television standards, it was pointed out. Nine basic items have been covered, laying the groundwork for future television developments, all pointing to the same goal—a single television system for the United States, with every receiver capable of receiving every broadcast reaching its locality.

CALL OF THE ROLL

Mr. BLACK. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk called the roll, and the following Senators answered to their names:

Adams	Clark	Lewis	Reynolds
Ashurst	Connally	Loftin	Robinson
Bachman	Copeland	Lonergan	Russell
Bailey	Davis	McAdoo	Schwellenbach
Barkley	Dieterich	McGill	Sheppard
Benson	Duffy	McKellar	Shipstead
Bilbo	Frazier	McNary	Smith
Black	George	Maloney	Steiwer
Bone	Gerry	Metcalf	Thomas, Okla.
Borah	Gibson	Minton	Thomas, Utah
Brown	Glass	Moore	Townsend
Bulkley	Guffey	Murphy	Truman
Bulow	Hale	Murray	Tydings
Burke	Harrison	Neely	Vandenberg
Byrd	Hastings	Norris	Van Nuys
Byrnes	Hatch	Nye	Wagner
Capper	Hayden	O'Mahoney	Walsh
Caraway	Holt	Pittman	Wheeler
Carey	King	Pope	
Chavez	La Follette	Radcliffe	

The PRESIDENT pro tempore. Seventy-six Senators having answered to their names, a quorum is present.

DEPARTMENTS OF TREASURY AND POST OFFICE, APPROPRIATIONS CONFERENCE REPORT

The Senate resumed the consideration of the report of the committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill (H. R. 10919) making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1937, and for other purposes.

Mr. CLARK. Mr. President, I have just been informed that the House of Representatives a few minutes ago, by a vote of 118 to 83 on a motion to suspend the rules, rejected the bill which was passed by the Senate today.

Mr. President, that presents the situation which has been feared throughout the day by those of us who have been discussing this measure since the passage of the ship-subsidy bill today. That is the situation in which we feared an effort would be made to adopt an appropriation of $29,500,000 for the present ocean-mail contracts, and to defeat the new ship-subsidy legislation in the House because of its regulatory features which are not contained in the present law under the Jones-White Act.

Mr. President, I conceive it to be entirely consistent for a Senator or a Representative who is opposed to ship subsidy, who voted against the bill which was passed by the Senate today, to be unwilling to perpetuate the present infamous system, which has been denounced by the Postmaster General and by nearly every governmental agency which has ever passed on it.

It is perfectly apparent that the interests profiting under the present illegal and infamous system would infinitely prefer that system to endure than to have granted them an outright subsidy with the regulatory features contained in the compromise bill which passed the Senate this morning.

Let me say, Mr. President, that, so far as I am concerned, as I stated this morning, if I thought it were possible to defeat the appropriation of $26,500,000 and also to defeat the new ship-subsidy bill and throw the matter back into the hands of the Congress de novo, to be handled as a new subject, with the possibility of setting up a Government authority, such as advocated in the speech of the Senator from California [Mr. McAdoo], made in 1915, from which I quoted this morning and which I intend to quote at length tonight, that would be the course I would prefer.

Mr. McKELLAR. Mr. President——

The PRESIDENT pro tempore. Does the Senator from Missouri yield to the Senator from Tennessee?

Mr. CLARK. I will be glad to yield to the Senator from Tennessee.

Mr. McKELLAR. The question I wish to ask the Senator is a very practical one. Did I understand him to say that the vote in the House tonight favored the bill, but there was not a two-thirds majority for it? Is that correct?

Mr. CLARK. I understand that to be correct.

Mr. McKELLAR. After having taken that vote, a two-thirds majority not having voted for the measure, would it be in order—the Senator, as I recall, was Parliamentarian in the House a number of years ago and I know he is familiar with the rules there—to adopt a rule to put the bill on its passage?

Mr. CLARK. Of course, the Senator from Tennessee is just as familiar with the rules of the House as am I.

Mr. McKELLAR. I doubt that.

Mr. CLARK. He knows that it is in order at any time under the rules of the House for the Rules Committee to report a special rule making a measure a special order of business. That might have been done tonight, but it was not done tonight.

Mr. McKELLAR. Can the Senator assure us that such a rule will be reported out tomorrow?

Mr. CLARK. I should certainly not assume to speak for the Rules Committee of the House of Representatives. Of course, it is perfectly in order for the Rules Committee to report a rule tomorrow morning putting the measure on its passage, which would only require a majority vote. That would have been perfectly in order tonight, so far as that is concerned; but I think I speak for all of those who hold the view I do about this particular matter of the ship-subsidy bill when I say, as an old philosopher in Missouri once said, that "a bird in hand is the noblest work of God." [Laughter.] So I am not disposed, so far as I am concerned, to yield the point and permit this appropriation to be made until we are certain that the ship-subsidy bill has passed the House.

Mr. ROBINSON. Mr. President——

The PRESIDENT pro tempore. Does the Senator from Missouri yield to the Senator from Arkansas?

Mr. CLARK. I yield.

Mr. ROBINSON. Suppose the ship-subsidy bill should fail to pass the House?

Mr. CLARK. If the ship-subsidy bill should fail to pass the House, I am disposed, speaking for myself, to speak to the limit of my endurance against the appropriation contained in the conference report on the Post Office Department Appropriation bill for the continuance of the present ocean-mail subsidy.

Mr. GLASS. Mr. President——

The PRESIDENT pro tempore. Does the Senator from Missouri yield to the Senator from Virginia?

Mr. CLARK. I gladly yield.

Mr. GLASS. Does the Senator mean that he is willing to deprive the United States Treasury Department and the Post Office Department of funds because the House may fail to pass the ship-subsidy bill?

Mr. CLARK. I am disposed to defeat the conference report if I possibly can.

Mr. GLASS. I do not think the Senator possibly can, for that matter.

Mr. CLARK. Perhaps not.

Mr. GLASS. But if the Senator will pardon me for the suggestion, I do not think anybody should try to defeat the conference report under the circumstances, because it may be asserted that if this question comes up at the next session of Congress no report from the Appropriations Committee, unless some of us die, is going to contain this appropriation.

Mr. CLARK. The report from the Appropriations Committee at this session of Congress did not contain this appropriation, and the Senate, by an overwhelming majority, sustained the Appropriations Committee. Then the bill went to conference; the House insisted on the inclusion of this provision, and the Senate receded; so the only remedy which the Senate has in such a situation is to resist the adoption of the conference report.

Mr. GLASS. Well, Mr. President, I have tried for 8 weeks to have a conference with the House conferees on this bill, and it is not the fault in any degree of the Senate Appropriations Committee that the matter comes here at this late hour.

Mr. CLARK. Let me repeat what I said this afternoon that nobody has criticized the chairman of the Senate Appropriations Committee or the Senate Appropriations Committee

itself. This is an item along with other items in appropriation bills as to which the House conferees have taken a very hide-bound course, and insisted on the Senate yielding. As a United States Senator representing a sovereign State, I insist that the time has come for the Senate to assert itself. I am opposed to the provision to which the Senate conferees were forced to agree in this conference report, and the only way of which I know whereby I can assert my views is by the course which I am now pursuing, of endeavoring, at least, to defer action on the conference report until I am certain as to what the situation is.

Answering the question which was asked me a few moments ago, let me say that if the House of Representatives shall defeat the ship-subsidy bill, then it will be my purpose to resort to the last atom of my strength to defeat the conference report.

Mr. GLASS. I hope the Senator will not have the strength. [Laughter.]

The PRESIDENT pro tempore. The Chair desires to inform the occupants of the galleries that those who are there are the guests of the Senate; that the Senate is endeavoring to transact business and it is entirely against the rules of the Senate for the occupants of the galleries to talk or make any demonstration whatever. The Chair hopes that it will not be necessary to clear the galleries and he hopes that the galleries will remember the rule, and that the doorkeepers will see that order is preserved.

Mr. McKELLAR. Mr. President, will the Senator yield?

Mr. CLARK. I am glad to yield to the Senator from Tennessee.

Mr. McKELLAR. The Senator knows, I think, that I am as much opposed to the bill commonly known as the ship-subsidy bill as is he or anybody else. I have been opposed to it for many, many years.

Mr. CLARK. I may say to the Senator from Tennessee that for many years I have been proud to read his speeches in the CONGRESSIONAL RECORD on that subject.

Mr. McKELLAR. Mr. President, I find that in the bill to which the pending conference report relates the appropriation for the Treasury Department is $211,940,303, and for the Post Office Department the appropriation is $780,584,589, or a total of $992,524,892. That sum is absolutely necessary for the operation of those two Departments; they cannot be conducted unless the appropriations are made for them, as the Senator well knows. Under these circumstances, while I admire a fight as much as any man in the world, if the House tomorrow should defeat the merchant marine bill, I think, nevertheless, that these appropriations ought to be made. They ought to be made in the interest of our Government. I say that, although I am as much opposed to the subsidy as any Senator on this floor could be. At the same time I do not think we ought to jeopardize the work of these two great Departments of the Government for which the enormous sum of $992,000,000 is appropriated for their support. So tomorrow, after there is a vote in the House, I hope the Senator will, upon reflection, permit this appropriation bill to be passed because it ought to be passed.

Mr. CLARK. Let me make the Senator from Tennessee and the Senator from Virginia a fair proposition. There is plenty of time to pass all the undisputed items in this appropriation bill. If the Senator from Tennessee and the Senator from Virginia will permit this report to be sent back to conference and bring in a complete agreement carrying all the undisputed items in the bill and permit the disputed item of $26,500,000 to be submitted to a vote of the Senate and House, if we are defeated on the vote in the Senate, I shall have no objection to the passage of the bill.

Mr. GLASS. I should say that I do not think the Senate would send the bill back to conference, whether we agreed to do so or not. We are simply members of the Committee on Appropriations of the Senate.

Mr. CLARK. The Senator does himself too little credit. The Senator knows very well that the Senate will probably do what he and the Senator from Tennessee recommend.

Mr. GLASS. O Mr. President, I raised the Senator from Missouri since he was a very little boy. [Laughter.]

Mr. CLARK. And I will say to the Senator from Virginia that he did an excellent job. [Laughter.]

Mr. GLASS. I think so, too. I am so confident that I did that I am sure I shall be able to persuade the Senator from Missouri tomorrow to stop this delay.

Mr. McKELLAR. Mr. President, I intend to cooperate with the Senator from Virginia.

Mr. CLARK. Mr. President, I stated this morning that there has been a very great delusion with regard to the ship-subsidy matter so far as the protection of American labor is concerned. That is not my own view about the matter particularly. It comes to me from the very highest authority.

I desire to read to the Senate for just a moment or two some of the views expressed by one of the greatest labor leaders the United States has ever seen, a man who for 30 years has been a vice president of the American Federation of Labor, a man who has devoted his life to the improvement of the conditions of American seamen, Mr. Andrew Furuseth.

Appearing before the subcommittee of the Committee on Commerce on March 10, 1936, Mr. Furuseth testified as follows:

> Mr. Chairman, I think the whole entire business here is on the wrong road.

Mr. SHIPSTEAD. Mr. President, I make the point of order that there is disorder in the Senate.

The PRESIDENT pro tempore. The point of order is well taken. Conversation will cease, and the Senate will be in order.

Mr. CLARK. Mr. President, Mr. Furuseth read a very brief statement which I think is worthy of insertion in the RECORD at this point.

Mr. ROBINSON. Mr. President, will the Senator from Missouri yield to me in order that I may submit a request for an order of business?

Mr. CLARK. I yield.

Mr. ROBINSON. I ask unanimous consent that when the Senate completes its labors today it take a recess until 11 o'clock tomorrow morning; that upon the convening of the Senate tomorrow the conference report on the Treasury and Post Office appropriation bill be temporarily laid aside and that the Senate proceed to the consideration of the conference report on the tax bill; that at not later than 3 o'clock tomorrow the Senate vote on the conference report on the tax bill, and then resume consideration of the conference report on the Treasury and Post Office appropriation bill.

Mr. McNARY. Mr. President, I just returned to the Senate Chamber, and I did not hear the full proposal submitted by the Senator from Arkansas. I heard enough to lead me to believe that he had asked that the Senate meet at 11 o'clock tomorrow and vote at 3 o'clock on the conference report on the tax bill. Would there be any division of time between the proponents and the opponents of the conference report on that bill?

Mr. ROBINSON. I did not incorporate in the agreement any arrangement to that effect, but I will do so. I will modify the request so that the time for debate on the conference report be equally divided between the proponents of the conference report and the opponents of the conference report.

Mr. McNARY. The conference report on the revenue bill?

Mr. ROBINSON. On the revenue bill. The suggestion is that when we finish our work today—and it is my intention to move a recess immediately following the agreement, if it shall be entered—the Senate take a recess until 11 o'clock a. m. tomorrow, and that when the Senate meets tomorrow the conference report on the Treasury and Post Office appropriation bill be temporarily laid aside and that the Senate proceed to the consideration of the conference report on the tax bill, and that at not later than 3 o'clock the Senate proceed to vote on the conference report on the tax bill.

Mr. McNARY. Does that imply to the Senate that an adjournment sine die may be taken tomorrow afternoon or evening?

Mr. ROBINSON. The expectation is that the Congress will adjourn sometime tomorrow. I have conferred with the Speaker and others in authority in the body at the other end of the Capitol, and they are unable to indicate at this time an hour when the adjournment may be taken; but they are in accord with the purpose to conclude the labors of the session tomorrow.

Mr. McNARY. The Senator from Arkansas will labor to that end?

Mr. ROBINSON. I announced some weeks ago that my purpose was to adjourn not later than sometime tomorrow. I will say that if the conference report on the Treasury and Post Office appropriation bill and on the tax bill are not disposed of, there can be no adjournment.

Mr. McNARY. But with their disposition, the Senator will labor to the end that we may adjourn sine die tomorrow?

Mr. ROBINSON. I intend to move an adjournment the first opportunity I have after these two conference reports have been agreed to. I do not propose to do very much labor about it. I am getting tired of labor. I am thinking of joining the union and going on union hours. [Laughter.] We have already been at work 12 hours today continuously.

Mr. McNARY. The Senator probably has in mind the Union Party that was formed today. [Laughter.]

Mr. ROBINSON. The Senator certainly does not expect me to join that union.

Mr. McNARY. Speaking seriously—and I think we are much in accord, and we are all good-natured—the proposal is that the Senate meet tomorrow at 11 o'clock, vote at 3 o'clock on the tax bill conference report, and then take up the conference report on the Treasury and Post Office appropriation bill thereafter, and as quickly as possible after that adjourn sine die tomorrow.

Mr. ROBINSON. After that conference report has been agreed to I shall be ready to adjourn.

Mr. GLASS. Mr. President, in the last statement of the unanimous-consent request the Senator from Arkansas, I think, failed to state that after the vote shall have been taken on the conference report on the tax bill then the conference report on the Treasury and Post Office bill will be taken up.

Mr. ROBINSON. I made that statement in the request for unanimous consent.

Mr. McNARY. I have no objection to the request made by the Senator from Arkansas.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Arkansas?

Mr. GUFFEY. I object.

Mr. ROBINSON. Very well; let the war go on.

Mr. CLARK. Mr. President, I was just about to start reading a very interesting and illuminating statement made by Mr. Andrew Furuseth, president of the International Seamen's Union of America, made before the Commerce Committee on March 10, 1936.

Mr. COPELAND. Mr. President, will the Senator yield?

Mr. CLARK. I yield.

Mr. COPELAND. I should like to say just one word, because I intended to do it when I spoke about the safety-at-sea treaty. I think Andrew Furuseth is one of the great heroes of the sea. I have had the greatest respect for him, and I have had intimate contacts with him through many years. We do not agree much of the time, but I have always felt that he was an honest, straightforward, straight-thinking man, seeking to serve the seamen, and I should like at this moment, while he lies on his sick bed, on this day when we have passed the safety-at-sea treaty with the reservations which he desired to have incorporated, to say just that much about him, because he is a grand old man and has done much to promote the welfare of the "men who go down to the sea in ships."

Mr. CLARK. I am very happy to have the expression of the Senator from New York. I have known Mr. Furuseth since I was a little boy. I think he has done more than any labor leader in America to bring about improved conditions in the particular craft which he serves. Therefore I desire, as being of the highest importance, to read the statement which Mr. Furuseth made before the Commerce Committee on March 10, 1936:

Mr. FURUSETH. Mr. Chairman, I think the whole entire business here is on the wrong road, because we are trying to build a commercial merchant marine on the one hand and the most important of that is the personnel.

The proof of that is very simple. The Norwegian shipowners used to buy the old English vessels and operate them and do the upkeep of them with their own crews, with their own men. They could operate them so much cheaper than the English themselves could that they had less insurance to pay and that could only arise from the fact that the men who were on board the vessels had the necessary skill to take care of the vessel, for the upkeep of it, to assist the sailmaker, to assist the rigger, to assist the carpenter, and so forth, and so on.

Mr. MURPHY. Mr. President, I request that the Senator speak louder.

Mr. CLARK. If the Senator cannot hear me, I suggest he move a little bit closer. I continue reading from the hearings:

The highest skilled crew is the cheapest of all crews, and there is nothing done in this legislation to develop a skilled body of American seamen. We were on the road toward developing it, and on the road toward obtaining it, when in 1921 it was all cut off and the Seamen's Act was destroyed so far as equalization was concerned.

Mr. REYNOLDS. Mr. President, I ask for order. I cannot hear the Senator.

Mr. CLARK. Mr. President, I am not responsible for any deafness on the part of the Senator, and I only suggest that if he cannot hear me he move over a little closer. I now continue the reading:

There is nothing, so far as I can find, to hinder the United States from getting as capable men and plenty of them as any nation, because the United States—as a matter of fact, the bulk of the people of the United States are of the same identical breed, the same identical relationship, and the same blood that has governed the sea for the last 3,000 years.

Senator CLARK. Mr. Furuseth, let me ask you how was the Seamen's Act destroyed in 1921?

Mr. FURUSETH. By turning over to the foreign shipowners and foreign nations to determine what kind of a crew they should take out of an American port, and what kind of life-saving appliances they were going to permit to go out from an American port with.

Senator CLARK. If I understand you correctly, the United States has a right, by the control of clearance from our ports and entry into our ports, to control the character of crews and the character of life-saving appliances on which American citizens may travel?

Mr. FURUSETH. That was the essence of the Seamen's Act, in sections 13 and 14, if those sections had been carried out as they were in the first few years, and there would have been absolute equalization of the wage cost, which carried with it an equalization of every cost of operation except that the cost that came from the difference in the cost of building.

Section 13 provided a special kind of crew of American ships applicable to all foreign ships leaving the United States. Section 14 specifically provided that in a proviso, which it was thought there was no way of getting around, but they simply threw it all overboard.

It is the serious contention, Mr. President, of this great labor union, a union which brought about the enactment through the active intervention of Mr. Furuseth, and through the sponsorship in this body of the father of the distinguished senior Senator from Wisconsin, of the Seamen's Act. That act has been disregarded deliberately by the Government, by reason of certain departmental rulings which have killed the effect of it and nullified any advantage which that act might have carried for the "men who go down to the sea in ships."

I continue reading from the hearings:

Senator CLARK. That law is still on the statute books?

Mr. FURUSETH. It is still on the statute books, but rulings have killed it, and it does not exist so far as practical operation is concerned.

INTERNAL-REVENUE TAXATION

Mr. ROBINSON. Mr. President——

The VICE PRESIDENT. Does the Senator from Missouri yield to the Senator from Arkansas?

Mr. CLARK. I yield.

Mr. ROBINSON. I move that the Senate proceed to the consideration of the conference report on the tax bill.

Mr. VANDENBERG. I suggest the absence of a quorum.

The VICE PRESIDENT. The clerk will call the roll.

The Chief Clerk called the roll, and the following Senators answered to their names:

Adams	Clark	Loftin	Robinson
Ashurst	Connally	Lonergan	Russell
Bachman	Copeland	McAdoo	Schwellenbach
Bailey	Davis	McGill	Sheppard
Barkley	Dieterich	McKellar	Shipstead
Benson	Duffy	McNary	Smith
Bilbo	Frazier	Maloney	Steiwer
Black	Gerry	Metcalf	Thomas, Okla.
Bone	Gibson	Minton	Thomas, Utah
Borah	Glass	Moore	Townsend
Brown	Guffey	Murphy	Truman
Bulkley	Hale	Murray	Tydings
Bulow	Harrison	Neely	Vandenberg
Burke	Hastings	Norris	Van Nuys
Byrd	Hatch	Nye	Wagner
Byrnes	Hayden	O'Mahoney	Walsh
Capper	Holt	Pittman	Wheeler
Caraway	King	Pope	
Carey	La Follette	Radcliffe	
Chavez	Lewis	Reynolds	

The VICE PRESIDENT. Seventy-seven Senators have answered to their names. A quorum is present. The question is on the motion of the Senator from Arkansas to proceed to the consideration of the conference report on the tax bill.

The motion was agreed to; and the Senate proceeded to consider the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 12395) to provide revenue, equalize taxation, and for other purposes.

The VICE PRESIDENT. Without objection, the conference report is agreed to. [Laughter.]

Mr. VANDENBERG. Oh, no, Mr. President.

Mr. McNARY. Mr. President, I think there should be some explanation of the conference report.

The VICE PRESIDENT. There was no objection until the Senator from Oregon rose, and the Chair realized then that there might be some discussion of the conference report. [Laughter.]

Mr. McNARY. I think there should be some explanation. I think the Senator from Utah [Mr. KING] probably can explain the changes which have been made in the bill. Then I shall want a yea-and-nay vote.

The VICE PRESIDENT. The Senator from Oregon asks for the yeas and nays on the adoption of the conference report. Is the demand seconded? A sufficient number of Senators having seconded the demand, the yeas and nays are ordered, and the clerk will call the roll.

Mr. WALSH. Mr. President, before that is done I desire to make a brief statement in behalf of the Senator from Georgia [Mr. GEORGE] and myself.

Mr. PITTMAN. Mr. President, a point of order.

The VICE PRESIDENT. The Senator will state it.

Mr. PITTMAN. Did not the clerk begin the roll call and did not some Senator answer?

The VICE PRESIDENT. The yeas and nays have been ordered, and the clerk did call the first name on the roll, but the Senator from Massachusetts [Mr. WALSH] was endeavoring to secure recognition from the Chair. The Chair feels, in all fairness, that the Senator from Massachusetts should receive recognition.

Mr. WALSH. Mr. President, I hope we have not reached the stage where a measure of this importance and magnitude cannot be mentioned and discussed, and I trust no effort is going to be made to prevent reasonable debate upon it. I have no desire to enter into a lengthy discussion, but I think it fair to the absent Senator from Georgia [Mr. GEORGE] and to myself that the record be clear as to our positions on this important measure.

The Senator from Georgia [Mr. GEORGE] and I have not been in accord with a majority of the conferees of the House and Senate with respect to one important feature of the bill, namely, that which imposes graduated supertaxes on undistributed earnings. We both signed the conference report because we did not want to appear in the role of obstructionists. We signed the conference report with the understanding that we would have an opportunity to present in writing our views, namely, our objections to certain features of the report.

We have prepared a statement which contains our views. It is not a long statement, and it is certainly only fair to both of us that it appear in the RECORD in order that the RECORD may show just what our views are on this important legislation and just what our objections are.

With many of the features of the bill we are in accord, but with one which is an important and vital feature we are very much in opposition to the other conferees.

Mr. CLARK. Mr. President, will the Senator yield?

Mr. WALSH. I yield.

Mr. CLARK. In view of the fact that this is an extremely complicated matter over which the Ways and Means Committee of the House disputed for weeks and which the Finance Committee of the Senate had under consideration for many additional weeks, and in further view of the fact that this is an entirely new bill with which no one on either the Finance Committee or the Ways and Means Committee is apparently familiar—and certainly other Members of the Senate are not familiar with it——

Mr. BARKLEY. Mr. President, that statement is hardly justified. There are Senators on both the committees who are familiar with it.

Mr. CLARK. I am speaking of members of the committee other than the conferees. In view of the fact that Members of the Senate have not had an opportunity to become familiar with it except as they have read about it in the newspapers, I suggest that the Senator from Massachusetts read the statement of himself and the Senator from Georgia rather than merely have it printed in the RECORD. I should like to hear the statement.

Mr. BYRD. Mr. President——

The VICE PRESIDENT. Does the Senator from Massachusetts yield to the Senator from Virginia?

Mr. WALSH. I yield.

Mr. BYRD. The conference report has not even been printed. I for one do not propose to see this important measure hurried through tonight without a fair opportunity to consider it. If necessary, I shall talk until the report can be printed and made available to every Member of the Senate. I cannot understand the desire to pass an $800,000,000 tax bill without even printing the report of the conferees.

Mr. WALSH. And trying to stop the conferees from explaining their position.

Mr. BYRD. There is only one copy of the report available in the Senate.

Mr. WALSH. No two Senators could have been more fair or could have cooperated more to secure action on this measure than the Senator from Georgia [Mr. GEORGE] and myself. I think our fellow colleagues on the conference committee will agree that we cooperated to the fullest extent in trying to get a fair bill. There is a principle in the bill to which we are opposed.

Mr. BARKLEY. Mr. President——

Mr. WALSH. I yield to the Senator from Kentucky.

Mr. BARKLEY. No Senator who was a member of the conference committee and no one who was a member of the Finance Committee objects to the Senator explaining his position. I not only do not object, but I shall be glad that the Senator be given ample opportunity to do so.

Mr. WALSH. I should expect that spirit on the part of the Senator from Kentucky.

Mr. BARKLEY. It may make it necessary for some of us, who do agree to the conference report and who do not share altogether the views of the Senator, to explain the bill as it has been presented.

Mr. ROBINSON. Mr. President, will the Senator from Massachusetts yield?

Mr. WALSH. I yield.

Mr. ROBINSON. I realize that the Senate is entitled to a fair opportunity to consider the report and that a reasonable time should be consumed in its consideration. It is now the unfinished business. I should like to submit again a request for unanimous consent, and that is, that when the Senate completes its labors today it take a recess until 11 o'clock

a. m. tomorrow, and that at not later than 2 o'clock p. m. the Senate vote on agreeing to the conference report.

The VICE PRESIDENT. Is there objection?

Mr. NEELY. Mr. President, reserving the right to object, may I ask the Senator from Arkansas, in the event the unanimous consent now requested is granted, what, if any, opportunity will be given to the friends of the Guffey coal bill to have that proposed legislation brought before the Senate?

Mr. ROBINSON. Mr. President, in my judgment, agreeing to this unanimous-consent proposal will not impair the opportunity that the Senator or others may have to move to proceed to the consideration of the Guffey coal bill. I myself have repeatedly attempted today, as the Senator well knows, to effect an arrangement by which that bill might be considered.

The VICE PRESIDENT. Is there objection to the request of the Senator from Arkansas?

Mr. BYRD. Mr. President, I understood that the previous proposal of the Senator from Arkansas was to vote at 3 o'clock tomorrow.

Mr. ROBINSON. Yes; but that was objected to.

Mr. BYRD. I object to the present proposal unless the Senator will make the time 3 o'clock and divide the time equally between the proponents and the opponents of the conference report.

Mr. ROBINSON. Very well; let us proceed tonight, then.

Mr. WALSH. Mr. President, at the suggestion of the Senator from Missouri [Mr. CLARK], I shall read to the Senate the views of the Senator from Georgia [Mr. GEORGE] and myself.

MINORITY VIEWS OF SENATORS GEORGE AND WALSH ON H. R. 12395, THE REVENUE BILL OF 1936

The revenue bill (H. R. 12395), as now reported by the Senate and House conferees, returns to the plan of a steeply graduated tax on undistributed corporate earnings, which had been the essence of the bill as passed by the House, and a plan which the Senate Finance Committee had rejected almost unanimously, and which the Senate has never approved, and, in our judgment, ought not to approve.

It is because we are convinced that this plan of a graduated penalty tax on undistributed corporate earnings is utterly unsound in principle and disastrous in its application that we are constrained to submit a brief statement of our objections.

The fundamental defects in this new plan of corporate taxation were summarized in the report which accompanied the bill when it was submitted to the Senate on June 1 from the Committee on Finance. The objections therein so cogently expressed, in a report in which all but two members of our committee impliedly concurred, are as real and in good conscience ought to be as compelling today as they were then.

We take the liberty of repeating them herein. That report said: "Your committee recognizes that our present system of taxation offers the opportunity, in certain cases, for individuals to avoid surtaxes by the retention of earnings in the corporations which they may control. However, your committee believes that the undistributed-profits tax plan proposed by the House bill has certain fundamental defects, some of which are as follows:

"First. The plan proposes an entirely untried system which appears decidedly uncertain as to revenue yield.

"Second. The plan will penalize many corporations not availed of for surtax avoidance in order that a comparatively few corporations availed of for that purpose may be reached.

"Third. The plan will prevent the growth of new corporations, in that they will be unable to build up reasonable reserves for working capital and future development.

"Fourth. The plan may retard business expansion and seriously affect the unemployment problem.

"Fifth. The plan penalizes the small corporation and the corporation with insufficient reserves and is of decided advantage to the large corporation and the corporation with excessive surplus.

"Sixth. The plan tends to transfer the corporate control from the officers and directors of the corporation to the legislative branch of the Government.

"Your committee takes the view that the evil sought to be remedied, to wit, the retention of profits by corporations to protect investors having large incomes against paying on larger incomes, may be soundly corrected without doing the injustices above described."

The bill as now embodied in the report of the conference committee works all of these injustices, and all of these objections lie against it. None of them, in reality, have been adequately met. Indeed, the bill to which the approval of the Senate is now sought is open to double objection.

The plan of a graduated tax on undistributed corporate earnings as originally proposed and defended was to have been in substitution for existing corporation income and capital-stock taxes. This new plan was to replace the present corporate tax levies. The House bill proceeded upon that theory. The Senate bill, rejecting the principle of a graduated tax on undistributed corporate earnings, retained the present corporate income-tax levy but at an increased rate—an increase dictated by the revenue needs of the Treasury plus a supertax at a flat rate of 7 percent on undistributed earnings.

The compromise now presented to the Senate and House superimposes upon the existing corporation tax structure, which is retained, the entire plan of the House bill for graduated penalty taxes on undistributed earnings. The compromise modifies the rates, but in all other essential respects is simply a merger of the House and Senate bills, which in tax theory were diametrically opposite.

It cannot be too often reiterated nor too strongly emphasized that the theory and concept of a tax on a sliding scale on undistributed corporate earnings is to penalize the accumulation of corporate surpluses and reserves. It is designed to encourage, if not indeed to compel, corporations large and small to distribute all their earnings, even though they are merely inventory gains, and to lay aside nothing for a rainy day.

The tax of this character which the compromise bill as now presented embodies is not measured by the earnings of a corporation. It is not measured by the size of a corporation, nor by the character of its business. It is not a tax on bigness—except to the extent that it will stunt the growth of small corporations and foreclose their opportunity to become big. It is not a tax on the corporate surpluses which the large and powerful corporations of the present day have accumulated out of their earnings of the past. It does not reach them at all, for the bill operates to give them preferential treatment and lower taxes.

The principle of this tax can be justified only on the premise that industries should pay out their profits as fast as they make them, and if they do not they should be penalized. The inevitable corollary to this principle is that the industries must finance their expansion with borrowed money—if they can borrow it—rather than out of earnings.

Furthermore, it assumes that profits as soon as earned are cash in the bank susceptible of immediate dividend payment, when in fact the profits in whole or in part are ordinarily not in the bank at all, but are in merchandise or accounts receivable.

We submit that such a policy is contrary to every dictate of prudence, contrary to every sound business principle, contrary to the experience of the past, inimical to the real welfare of the stockholders, and will tend to promote insecurity for the workers in industry. It is a spendthrift policy.

Corporate stockholders, much as they may welcome a distribution of profits in the form of dividends, are primarily concerned with the continued solvency of the company in which they are shareholders, with its growth and prudent expansion to the end that future profits may be insured and enhanced.

The workers in industry are dependent for their jobs on the solvency of their employer and upon the industry's ability to stay in business and meet the pay rolls. They are victimized by improvident management, and any tax plan which penalizes reserves and impedes expansion out of earnings encourages improvidence.

Certainly the events of the past 6 years have amply demonstrated the necessity and value of reserves and their stabilizing influence. Many companies became bankrupt. Many plants were closed. Both dividends and pay rolls declined. But those companies—and there were thousands of them which came through in most instances—were fortified with the accumulated reserves laid aside from previous profits, which enabled them to keep going and to meet current losses. That is what the reserves were for. Such dividends as have been paid during the depression and which have been of inestimable help in maintaining the purchasing power of the millions of small shareholders and industrial workers have not infrequently represented the undistributed profits of a previous prosperity. Had more business firms paid out less in dividends during the boom years and built up larger reserves to tide them over the lean years, the hardships of the depression would have been ameliorated.

Banks and other fiduciary corporations, such as insurance companies, building-and-loan associations, and the like are required by law to build up reserves out of earnings. In regulation of the banks our present Federal policy is to emphasize and enlarge reserve requirements and to discourage the distribution of banking profits in dividends, but for business corporations an opposite policy is now advocated.

The proponents of the plan for imposing a variable tax on undistributed corporate earnings whereby the larger the percentage of earnings retained, the heavier the rate of tax, have laid emphasis upon the allegation that under existing law, corporations with large earnings and controlled by rich stockholders, were improperly withholding their earnings from dividend distribution in order that their stockholders might escape the payment of income taxes at surtax rates, which would ensue if the dividends were paid. This is the so-called tax-avoidance evil for which this tax plan is offered as a corrective. The extent to which this situation has prevailed is a matter of dispute and to some extent of conjecture.

It is, of course, preposterous to theorize by taking the figure of total corporate profits, subtracting from it total corporate dividends, and arguing that if the entire difference were likewise distributed in dividends, such a distribution would result in the collection of large sums in income taxes from the recipients of these theoretical dividends and that the estimated total of such theoretical tax receipts measures the extent of present tax avoidance.

The fact is that the existing revenue act contains an explicit provision imposing a penalty tax of 50 percent upon the corporate profits, the distribution of which is withheld for reasons of tax avoidance. Accordingly a means of dealing with such real tax avoidance of this character as may exist is already at hand. To attempt to justify a broad plan for penalizing future accumulations of surpluses and reserves by all corporations as a measure of dealing with the tax avoidance of a few rascals is both unfair and absurd. The Commissioner of Internal Revenue testified that less than 300 cases had been under consideration in his office.

The defenders of the bill in the form which it has now taken contend that by sundry exemptions and modifications the smallest corporations are spared the full force of the new tax, as well as helped by the lowering of the rates on the normal corporation income tax; that the banks and insurance companies are entirely excluded; and that in some instances corporations under contract not to pay dividends, and forbidden by law to do so, are permitted without extra penalty to apply a percentage of their earnings to reserves.

So far as the consequences of the bill to the small corporations are concerned—and it is to be noted 98 percent of all industries give employment to 250 persons or less—we believe that despite the attempted concessions they will be badly hurt. So far as the very large corporations with large accumulations of surplus are concerned, and with a liberal dividend policy, they may pay less under the compromise than under the present law, or than they would have to under the terms of the Senate bill. As for the provision whereby Congress undertakes to lay down an arbitrary percentage figure as the amount which all businesses may lay aside without penalty for surplus and reserves the inequity is manifest, since it is manifest that what constitutes a reasonable reserve for one business may be wholly inadequate or grossly excessive for another business.

It is self-evident that a business without any surplus or reserve today might prudently plow back into the business all of its profits for some years to come, whereas an identical business with large reserves might prudently pay out all its profits in dividends.

Questions of the fluctuating character of the enterprise, its bank credit, and whether it has an established market for its securities, all enter into the question of what is a prudent dividend policy, and this bill attempts to broadly determine the dividend policy of all businesses.

If, as we believe, the principle is fundamentally unsound as well as constituting an unwarranted attempt through the instrumentality of the Government's power to tax, to shape and regulate the future destinies of private business, no amount of tinkering and compromising and modifying will make it sound and right.

The bill in its present form proposes to tax businesses with exactly the same income at variable rates dependent on the disposition which is made of the income. The plan in general favors the strong against the weak and the large against the small.

Even if there were no valid objections in principle to this measure, nevertheless there has not been sufficient study made to enable the Congress to provide—through exemptions—relief to the following classes of business concerns which are distinctly penalized:

1. Those with deficits.
2. Those with debts.
3. Those under contract not to pay dividends.
4. Those under contracts or laws which prevent the payment of dividends.
5. Those with contracts obligating the corporation to the expenditure of money for the new construction of plant machinery and equipment.
6. Those that within the taxable year make expenditures to increase their plant in order to expand and thereby increase employment.

In addition the following business concerns are undoubtedly discriminated against:

1. Those which at the present time have no reserves.
2. Those whose entire taxable net income may be merely increased in their inventories.
3. Those prohibited by State laws from making dividend distribution if their capital is thereby impaired. Thirty-six States have such laws prohibiting directors from declaring dividends under such circumstances.

Furthermore, if necessary, reasonable, and equitable exemptions were made there would be a very substantial diminution in the revenue demands of the Treasury. This very fact indicates that this measure will collect the major portion of the $660,000,000 requested by the Treasury from business concerns who are emerging from the depression with debts, impaired capital, obsolete machinery, and empty treasury reserves, and plants in need of rehabilitation.

Finally, this bill handicaps the launching of new business enterprises and discourages the reinvestment of corporate earnings in industry at the very moment when the only hope of lightening the present staggering load upon the Federal Treasury for unemployment relief lies in the ability of industry to go forward, expand its operations, increase its pay rolls, and provide more jobs. It is calculated to impede rather than to promote recovery.

We believe that from every standpoint and for the reasons above summarized the bill as now presented is objectionable.

Mr. President, we have annexed to the statement of objections just made in behalf of the Senator from Georgia and myself, a table which I ask to have set forth in the RECORD. We call attention to two classes of corporations particularly. I request permission to have the table, with two short introductory paragraphs, set forth in the RECORD at this point?

There being no objection, the table was ordered to be printed in the RECORD, as follows:

1. In view of the claim repeatedly made that under this bill as agreed to in conference, so-called rich corporations will be compelled to pay more taxes, it is to be noted that based on the tax returns of 1934, 160 corporations, with over a million dollars net income (among them the largest in the country) will be exempt from all supertaxes on undistributed earnings, as they now distribute all their earnings because they have large and ample surpluses.

2. In view of the further claim that so-called smaller corporations will benefit by this bill, the table below indicates very substantial increases in the taxes of corporations with a net income under and above $10,000, when they withhold their earnings for the purpose of accumulating a reserve fund.

Net income	Total tax		Increase	
	Present law	1936 revenue bill [1]	Amount	Percent
$1,000	$125	$144.40	$19.40	15.52
$2,000	250	288.80	38.80	15.52
$3,000	380	461.10	81.10	21.34
$4,000	510	633.40	123.40	24.20
$5,000	640	805.70	165.70	25.89
$10,000	1,290	2,082.00	792.00	61.40
$20,000	2,640	5,236.00	2,596.00	98.33
$50,000	6,940	15,163.10	8,223.10	118.49
$100,000	14,440	31,502.80	17,062.80	118.16
$200,000	29,440	63,927.80	34,487.80	117.13
$300,000	44,440	96,352.80	51,912.80	116.82
$400,000	59,440	128,777.80	69,337.80	116.65
$500,000	74,440	161,202.80	86,762.80	116.55
$1,000,000	149,440	323,327.80	173,887.80	116.36

[1] Tax computation based on no distribution.

Mr. WALSH. In brief explanation of the table, let us consider a corporation which has made a thousand dollars of net earnings and says, "We want to hold that. We do not know what is going to happen in the next year. We do not know whether we will have a fire or a flood, or whether we will have some other loss we cannot now foresee. Anyway, it will help us to build up our credit." Under the present law, that corporation would pay $125 tax; under the terms of this bill, it would pay $144.40, an increase of 15.52 percent in its taxes.

The corporation having $4,000 net income does not distribute. Now it would pay $510; but under the bill it would pay $633.40, an increase of 24 percent in its taxes.

A corporation with $10,000 net income under the present law would pay $1,290; and under this bill would pay $2,082, an increase of 61.40 percent in taxes.

A corporation with a net income of $50,000 would under the present law pay $6,940 and under this bill would pay $15,163, an increase of 118 percent in its taxes.

A corporation with a net income of $1,000,000—and for some companies in some great gigantic business $1,000,000 is a small revenue especially if the capitalization is extremely large—the present tax would be $149,440 and under this bill the tax would be $323,327.80, an increase of 116 percent.

Mr. President, I had not intended to take so much time, but I did desire to present as briefly as possible the views of the distinguished and able Senator from Georgia [Mr. GEORGE] and myself. We feel very, very strongly that it is a great mistake at this time, emerging from a disastrous depression, for the Federal Government to announce the policy, "We do not want to encourage you to build up surpluses or to establish reserves in your corporation." Of all times, this is the time when we need to encourage business, when we need business to expand, when we need to have larger pay rolls, when we ought not to be put in the position of announcing the policy that, to put it mildly, discourages reserves.

Mr. President, let me add that figures are available as to the tremendous extent to which unemployment was prevented, and the great extent to which the consumption of

goods was increased, by corporations paying from their surpluses dividends to their stockholders during this depression. I challenge any human being to attempt to depict what would have happened in this country in 1931, 1932, 1933, and 1934 if it had not been for the billions of dollars in surpluses in the industries of this country that were poured out to prevent losses, to keep men employed, and to pay dividends to the millions of small stockholders whose only income during those days was the little dividends they received from the corporations in which they had invested. Yet in the face of that record, in the face of that experience, we are now saying, "When the next depression comes we shall have no surpluses. We shall have no reserves. We shall have corporations that will have distributed in days of prosperity all they had and saved nothing for a rainy day."

Mr. ADAMS. Mr. President, will the Senator yield?

Mr. WALSH. I yield to the Senator from Colorado.

Mr. ADAMS. I have not seen the conference report; but it has been stated that the exemption which previously existed in the bill of insurance companies has been eliminated. Is that correct?

Mr. WALSH. The Senator refers to the amendment offered by the Senator from Connecticut [Mr. LONERGAN]?

Mr. ADAMS. I think so.

Mr. WALSH. Yes; that amendment has been eliminated.

Mr. ADAMS. It occurs to me, if that is the case, that this result would again occur: During the rapid depression the insurance companies—fire, life, and accident—depended upon their surpluses which were invested in stocks and bonds. The decline was so great at that time that, even with large surpluses, many of those companies became technically insolvent. It occurs to me that under this bill companies of that kind, which exist for the purpose of protecting people against misfortunes not of their own making, are penalized when we deny to them the accumulation of surpluses.

Mr. WALSH. Insurance companies and banks are not subject to the supertax under this bill. The Lonergan amendment was an amendment permitting individuals or corporations to take out insurance for the purpose of paying the heavy estate or inheritance tax that would have to be paid in the event of death. The amendment sought to encourage that course by permitting the deduction of the dividends paid out from the net income. It was thought by some of the members of the conference committee—there was an honest difference of opinion—that it tended to help insurance companies; it was a good selling point for insurance companies to go out and sell insurance with that inducement in view.

On the other hand, it had this advantage, and that is why the problem was difficult to decide—that in the case of the small manufacturing plant which had $500,000 in frozen assets, if I may use that expression, stock and machinery, which had no cash, and the estate tax was $75,000 or $100,000, it would be a very convenient thing for the widow or for the children or heirs of the owner of the plant to say, "Here is this insurance policy to pay our estate tax with." Because the owner was prudent the heirs will not have to go into bankruptcy and mortgage the plant.

Mr. KING. Mr. President, will the Senator yield?

Mr. WALSH. Just a moment.

Mr. KING. I desire to ask a question just on that point.

Mr. WALSH. One moment, and then I will yield.

Mr. President, our work on this bill has not been pleasant. I do not like to talk about fellow Senators. Anybody who has seen the Senator from Georgia [Mr. GEORGE] during the past week, who looked into his face, who saw him as he moved about this chamber, must have been impressed with the fact that he has been carrying a heavy burden and a heavy load. Why? Because his conscience would not permit him to go in the direction he would like to go, the direction in which his associates in the committee went, the direction in which his own political party has gone, the direction in which the leader of his political party would like to have him go. It is not pleasant for him or for me to be here differing with our colleagues. We have tried, in every way we could, to expedite action on this bill. We have done the most unusual and exceptional thing—I do not think it has ever been done before—of signing a report to which we do not agree; but if we had not done so, the Senate could not adjourn tomorrow night.

I wish to have this said: Whatever Senators may do, whatever their votes may be, let them give the Senator from Georgia at least, if not myself, credit for sincerely and deeply feeling from the depths of his soul that this is an unwise course that Congress is pursuing; that it is fraught with great danger; that it is a serious blow to the future business prosperity and welfare of the country; that if it becomes the law, and continues to result in discouraging the accumulation of surpluses and dividends, it is going to be disastrous, especially if ever again a depression like the present one occurs in this country.

And let us not, in passing upon this measure, think only of those few corporations, rich and powerful, which undoubtedly have avoided their responsibility to their Government.

I have been trying to think—and I have seen them in every corner of my State, and I know they are in every town and hamlet in this country—of the corporations that are just keeping their heads above water. Those corporations would be prosperous and they would make their stockholders and their employees safe and secure if they had a reserve. Their burden and their nightmare is the absence of reserves; the absence of a surplus; the absence of a nest egg to which they may turn when a time of adversity comes, so that they may go down to the banker and say, when they wish raw material which they can get at a reduced price, "Here is the amount of my surplus. Will you give me credit on a 3 months' note or a 6 months' note?"

Senators, I tell you it is a very serious matter, and it is a matter which we ought to approach with fear and trepidation—the awful consequences of levying a normal tax upon every corporation, and, on top of that, saying, "Unless you distribute all of your earnings to your stockholders, you will be penalized with a supertax extending from 7 to 27 percent over and above your maximum 15-percent normal tax. If you distribute, if you are able to distribute, if you have surplus and reserves, then all you pay is the normal tax. If you are prosperous, if you have already achieved success, if you are already independent, you are a fortunate concern; you have no more supertaxes. But if you are still struggling, if you are still without reserves, if you still need surpluses, if you wish to protect yourself against a rainy day, then every dollar which you seek to set aside will have added to it a further penalty and an additional tax."

There is the problem. As to the rest of the bill, there is not any particular difference of opinion; but I do want to insist and state the fact that so far as the Senator from Georgia [Mr. GEORGE] and I are concerned, we are absolutely unable to reach the conclusion that it is a sound and safe and prudent course of action for our Government to take at this particular time, whatever might be said of doing it at a time when all corporations were rich, and all had surpluses, and all were prosperous; and again I call your attention to the fact that of all the corporations in this country, 98 percent of them employ less than 250 people. These corporations are not rich and powerful, and they are the very ones that need surpluses. They are the very ones upon which this tax is going to be imposed. They will feel it more. It will pinch them harder.

Mr. President, I have expressed our views.

REGULATION OF INTERSTATE COMMERCE IN BITUMINOUS COAL

Mr. NEELY. Mr. President, I renew my motion that the Senate proceed to the consideration of House bill 12800, the coal-conservation bill.

Mr. KING. I suggest the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk called the roll, and the following Senators answered to their names:

Adams	Carey	King	Reynolds
Ashurst	Chavez	La Follette	Robinson
Bachman	Clark	Lonergan	Russell
Bailey	Connally	McGill	Schwellenbach
Barkley	Copeland	McKellar	Sheppard
Benson	Davis	McNary	Shipstead
Bilbo	Dieterich	Maloney	Steiwer
Black	Duffy	Minton	Thomas, Okla.
Bone	Frazier	Moore	Thomas, Utah
Brown	Gerry	Murphy	Townsend
Bulkley	Gibson	Murray	Truman
Bulow	Guffey	Neely	Vandenberg
Burke	Hale	Norris	Van Nuys
Byrd	Hastings	Nye	Wagner
Byrnes	Hatch	O'Mahoney	Walsh
Capper	Hayden	Pittman	
Caraway	Holt	Pope	

The PRESIDENT pro tempore. Sixty-six Senators having answered to their names a quorum is present.

Mr. NEELY. Mr. President, the country ought to know that those who are obstructing the efforts to proceed to the consideration of the coal-conservation bill are voting for the bankruptcy of thousands of coal operators. They are voting for the enforced unemployment of a quarter of a million of coal miners in 26 States of the Union; they are voting poverty, hunger, and disaster to vast multitudes of women and children who are dependent upon the meager wages of bituminous-coal miners for their very existence.

The great liberal statesman from the Du Pont State of Delaware is afraid that the bill, if enacted, will shelter monopoly. Of course, this great defender of the rights of the common people could never go back to Delaware if he did not object to the passage of a bill that would foster monopoly.

The great progressive from Idaho [Mr. BORAH], for whom I have the most genuine affection, objects to the bill, not because he is afraid of a monopoly but because he is afraid of price fixing by the Federal Government.

And another widely proclaimed Presidential possibility—the Senator from Michigan, who did not receive a single vote in the Cleveland convention—is afraid of something not defined, but sufficient to impel him to object. Is he afraid that the operators might continue to employ 250,000 miners and thereby rob them and their wives and their children of the joy and liberty of starving to death?

For 12 hours the great constitutional lawyers and incurable chronic senatorial objectors have wasted precious time, heedlessly fiddling while the country is threatened by a conflagration greater than Rome or Nero ever knew.

A few operators with hardened hearts and every humanitarian impulse banished to oblivion are rejoicing tonight because they know that without this legislation they can crush all of their weak competitors and establish a monopoly of the soft-coal business for themselves.

It is infinitely more important for the Senate to pass the Guffey coal bill than it is for Senators to go to the Philadelphia convention which will nominate the great President to succeed himself for 4 more years. The advocates of the Guffey bill insist upon a record vote on this measure before the Congress adjourns to the end that the voters may know how many of their servants desire to increase unemployment and promote bankruptcy and misery.

If necessary, let us recess until after the convention, and then return here and remain in session until all of the chronic objectors who have never given the country a single constructive measure shall have exhausted their intolerable verbosity and all indispensable legislation shall have been supplied the suffering people.

Mr. President, no chronic obstructionist ever had a constructive thought. One and all of them are like the young woman who went to her first sewing bee. An experienced seamstress said to her, "Miss, can you sew?" She answered, "No; I can't sew a stitch, but I can rip up beautifully." [Laughter.] And so can the objectors in and out of the Senate. They must not be permitted to prevent this body from considering legislation which the people desire.

Let us put these constitutional objectors, these legislative barnacles, these warts on the body politic on record and ascertain whether there is enough progressive sentiment in this Chamber to say to the world that the Senate has enough sense, enough energy, and enough courage to legislate for the American people.

So far as I am concerned no consent will be given to any proposal which in any degree limits the opportunity to obtain a vote for the protection of the poverty-stricken coal operators and the distressed coal miners of the United States. So far as I am concerned there will be no adjournment sine die until after the Senate votes on the Guffey bill.

Mr. HASTINGS. Mr. President, it occurs to me that it is probably a good thing that the senior Senator from West Virginia and myself are both about to retire from the Senate. [Laughter.]

Mr. NEELY. Mr. President, will the Senator yield?

Mr. HASTINGS. Oh, yes; I will yield.

Mr. NEELY. I did not hear what the Senator said. I was told his remark was to the effect that the Senator from Delaware is about to retire, and that the Senator from West Virginia was also about to retire. However, let me say to the Senator that in West Virginia there is no Du Pont to tell me I cannot run, and I will say that I have just been renominated by the greatest vote that any man ever received in West Virginia, and I will be back here in the Senate while the Senator from Delaware is practicing law in Wilmington during the next 6 years.

Another reason why the Senator from Delaware will be left at home is because he tried to oppose legislation to alleviate human suffering and tried to obstruct it.

Mr. HASTINGS. Mr. President, I am not sure that the Senator is not whistling in the dark to keep up his courage.

Mr. NEELY. Let the Senator speak louder or else permit me to sit over closer to him. I do not like to take up the time of the Senate, but if I am forced to do so I can do so.

Mr. HASTINGS. I am quite certain that if the Senator from West Virginia were as sure of his reelection as he pretends to be he would not be quite so interested in this bill as he pretends to be.

Mr. NEELY. Mr. President, will the Senator yield to me once more?

Mr. HASTINGS. It is getting late. I have a long speech which I have postponed since 1 o'clock today, and I propose to deliver it now, and the Senator can stay here or go home, just as he pleases, but I do not care to be interrupted.

Mr. NEELY. The Senator then refuses to yield. That is what I understand.

Mr. HASTINGS. After I have said something to interest the Senator, if he wants me to yield I will yield, but not just now.

Mr. NEELY. The Senator does not expect me to wait until he says something interesting before I interrupt him, does he? [Laughter.]

Mr. HASTINGS. Oh, no, not to the Senator from West Virginia, but I desire to say to him that my chief interest in postponing the consideration of the bill was because the Senator whose name it bears is about to become a great host to a great political party. The truth is he ought to be home now. He ought to be in the City of Brotherly Love preparing himself for the great host of Democrats, including the Senator from West Virginia, which is to appear there next week.

My chief interest in preventing the bill from coming before the Senate and taking up so much time was in order to accommodate the distinguished Senator from Pennsylvania. I remember how proud I was that he lived next door to me. I remember how proud I was that he went around and got an extra $50,000 and contributed it to the Democratic committee in order to get them to come to Philadelphia. I was proud of the fact that I lived close enough to a State which was not only willing that the Democratic convention should come there, but was willing to pay an additional $50,000 in order to insure its coming.

As I think about it and remember how much interested I am in that convention, and remember how uncertain it is who they are going to nominate [laughter], I am anxious to get away from here and obtain a little rest so I can go there

and hear the speeches and see the convention in action. That is my interest in getting away from Washington. I am not particularly interested in the Guffey coal bill, but if Senators are going to try to pass it through the Senate I shall have to stay here and object to it, because I have seen enough bills put through the Senate and then declared unconstitutional to warrant me in objecting to that being done any more.

Mr. President, I am anxious for the Democratic convention to go to Philadelphia and see the place where our country was born. I am anxious for them to visit the place where the Declaration of Independence was signed; and I am as sure as I live that long before the convention ends more than one great Democrat will declare that they have met there to make a new declaration of independence, independence for the Democratic Party perhaps, which would be a good thing for the country once more. [Laughter.]

Then as I think of them being there where the State of Delaware went and placed its approval first upon our great Constitution, and then remember what little regard the Democrats have had for it since they have been in power, it interests me, and I do not want to miss the convention, because I wish to know what they will say.

Then, Mr. President, there are other Members of the Senate who are interested in that convention. Think of that "double keynoter"! The keynoter for 1932 did his job so well that he does it again in 1936. I have watched him through the conference as we struggled with the tax bill, and I had pity for him, because I knew that he had stayed up late at night and gotten up early in the morning in order that he might compare what he said in 1932 with what it is necessary for him to say in 1936.

As I grieved about that and thought about the Guffey coal bill, I thought it became my duty to come to his rescue so as to give him time to work on his speech, and here I find the Senator from West Virginia keeping him up until half-past 12 at night, and forcing me to keep him up longer, when I am concerned about his health, and more concerned about the speech which he is going to make. [Laughter.] It would not be fair, Mr. President, to a Republican, to say nothing about a Democrat, and we must be fair to them, because surely they are going into the discard, and as they do go into the discard we want to have something to remember them by.

We have had one keynote speech of the Senator from Kentucky [Mr. BARKLEY], and when he makes the double keynote speech we will have something by which to remember him. I want him to make that speech in the shadow of the Liberty Bell, and as it rings out its patriotic appeal we can see him spreading his wings and telling what is going to happen in the next 4 years.

Then, Mr. President, we ought to bear in mind also another great man here who has had a tremendous job keeping his team in line, the great Democratic leader. He is to be the chairman of the convention, and I wager he has not yet had time to write a word of that speech. That will be a difficult job for him, too. As I think of that convention my mind runs back to dear 1928, when he was in another convention that greatly honored him. As he looks over that great host of Democrats he will grieve with us all for those who are dead and gone. I can see him counting on a slip of paper those who are dead and not gone. [Laughter.]

And then the crowd which will interest him more than any will be the crowd that is gone and not dead. [Laughter.] They will be the ones who will interest him, and he will have to make a speech to try to get that particular crowd back in line. I have sympathy for him and I should like to get him away from here so he can obtain some rest and make the kind of speech which he is perfectly capable of making when he is in good physical condition.

Then we are told that the great and distinguished Senator from New York [Mr. WAGNER] is to write the platform. Mr. President, you and I know that will be a big job for the Democrats this year. I know how difficult it is going to be. The distinguished Senator from Missouri [Mr. CLARK] the other day called our attention to a song that had been discovered out in Cleveland at the Republican convention. I am certain the Democrats, too, will have a song, and as I think about it I am satisfied the Senator from New York will suggest a song for the first line of that platform. As he suggests it, he will have in mind a little song he has heard time and time again, which runs something like this:

It ain't gonna rain no more, no more,
It ain't gonna rain no more.

[Laughter.]

What he will do is this: He will start off the platform by saying:

We ain't goin' to lie no more, no more;
We ain't goin' to lie no more.

[Laughter.]

But when he does that, I want to call his attention to the fact that a great host of people from all over the land will say:

How in the world are we goin' to tell
That you ain't goin' to lie no more?

[Laughter.]

Mr. President, as he comes on down and reaches that thing that always interests Democrats, the balancing of the Budget, he will still stick to his song, and will sing something like this:

We ain't goin' to spend no more, no more;
We ain't goin' to spend no more.

[Laughter.]

But he will have a great host coming back and saying:

How in the world are we goin' to tell
That you ain't goin' to spend no more?

[Laughter.]

Mr. President, the junior Senator from New York a few days ago, after I had made a speech here, which the Senator from West Virginia did not hear but should have heard, because it would have done his heart good, called our attention to the New Deal prosperity. I assume he is going to write that in his platform, and when he does I want to remind him that he caused a measure to be passed through the Senate the other day carrying an appropriation of $460,000,000 for the purpose of housing those who are living in the slums. In his speech urging the passage of that measure, one of the points he urged upon the Senate was that it would put some 3,000,000 or 4,000,000 people to work. As I thought about that and thought about the tax bill, I remembered how we were struggling with the tax bill, struggling and trying to raise money enough to run the Government for a year, skinning the corporations to the bone in order that we might get the needed money, taking away all their surpluses in order that we might raise the $660,000,000 insisted upon by the President, and yet here was the distinguished Senator from New York rushing and crowding through the Senate a bill which would take $460,000,000 of it.

As I thought about how we struggled with that thing for 15 weeks and then, after we had gotten all that it was possible to get from the corporations and from any other source that anybody was willing to try to get it from, realized we were not getting enough to run the Government for 30 days, I felt it was time to give the Senator from New York an opportunity to go away and consider his platform and not be fooling around here with the Guffey coal bill.

Mr. President, the other day we heard the distinguished Senator from Missouri [Mr. CLARK], suggesting that the Republicans wanted a new song, that they ought to get one with a title based on "Twelve Long Years—Twelve Long Weary Years", as the Senator described it. He had four paragraphs in his speech about "Twelve long, weary, tragic years."

It is not difficult to understand that to the Democratic politicians the 12 years referred to by the distinguished Senator were, indeed, long. They were weary, and they were tragic from their point of view. Twelve years is a long time

for Democrats to be sitting around waiting for a political job.

Let us review for a moment the history of the pain, the agony, the suffering the Democrats experienced during those 12 long years.

In the first place, they waited 12 long years for an opportunity to deceive the people by making solemn promises in their platform to do certain things, and then promptly repudiating such a platform when they obtained control of the Government.

They waited 12 long years for an opportunity to levy all kinds of taxes upon the people in order to give them money to spend on deserving Democrats.

They waited 12 long years for an opportunity to use the public funds to build up a political machine which they believed, while they were building, and still believe, makes it impossible to defeat them next November.

They waited 12 long years for an opportunity to repudiate Government obligations.

They waited 12 long years for a chance to beat and thresh at the Constitution and undermine its very foundation.

They waited 12 long years to regiment the industries of the Nation which gave them an opportunity to punish those who did not obey the rules and regulations laid down by their chief.

They waited 12 long years for an opportunity to destroy the food that the people of a distressed Nation needed to eat.

They waited 12 long years to put the shackles upon the farmer by making him believe that they were improving his condition.

They waited 12 long years to put into practice the preachings of Karl Marx.

Mr. CLARK. Mr. President, will the Senator yield?

Mr. HASTINGS. In a minute or two, as soon as I get through this song and set it to music. [Laughter.]

They waited 12 long years for an opportunity to repudiate Thomas Jefferson and all of the things he taught during his long service to his Nation.

They waited 12 long years for an opportunity to increase Government expenses from approximately $4,000,000,000 to more than $8,000,000,000 anuually.

They waited 12 long years in order to increase the debt of the country at the rate of something like $5,000,000,000 annually.

They waited 12 long years for an opportunity to shackle a free press, a free radio, and to make illegal searches of private papers of American citizens.

They waited 10 long years for prosperity to pass and depression to come; until, as the distinguished Senator from Missouri says, they found 13,000,000 people walking the streets looking for jobs.

They have worked for 3 long years in an endeavor to relieve this situation; and after an expenditure of $15,000,000,000 they have reduced the unemployed from 13,000,000 to twelve and one-half million, a great accomplishment for a New Deal administration!

They have waited 12 long years to find a President with a crooning voice, appealing to the human sympathies of the American people, but who at the same time gave approval to the action of his Postmaster General in destroying the civil service.

They waited 12 long years for a President who not only took control of the office of Chief Executive, but took control of Congress as well.

They waited 12 long years to find a President who could change his mind and change his policies as rapidly and with as little concern as he takes a drink of water.

They waited 12 long years for an opportunity to give a helping hand to monopolies by suspending the antitrust laws, and at this very time they are endeavoring to legalize it outright so far as the coal industry is concerned.

They waited 12 long years for an opportunity to rob the rich by taxation, and they are struggling now in their endeavor to hide the fact that they are about to take the shirt and pants of the poor man as well.

They waited 12 long years for an opportunity to take the flesh from the corporations by means of an illegal processing tax, and in the new bill they take 80 percent of their bones as well.

They have worked for 12 long weeks in their effort to frame a tax bill that would skin every corporation of its surplus funds, and thus raise enough funds to run the Government for 30 short days.

I now yield to the Senator from Missouri.

Mr. CLARK. Mr. President, as the Senator was going along it seemed to me there were some fugitive statements in his remarks that required an answer; but since the Senator has insisted on going ahead and having his speech taken as a whole, looking back on it, I cannot think of anything in it that requires an answer from anyone. [Laughter.]

Mr. HASTINGS. Mr. President, today the distinguished Senator from Rhode Island [Mr. METCALF] read into the RECORD a letter supposed to have been signed by Mr. Farley; and I desire to refer to it at this time, because it may be that the Democratic national convention will wish to make some investigation in order to find out who it is that is illegally appending Mr. Farley's name to these various letters.

The letter which the distinguished Senator from Arkansas [Mr. ROBINSON] thought was read was the one appearing in the Herald Tribune a day or two ago. The letter read by the distinguished Senator from Rhode Island, however, is entirely different from that letter, and does not have any such defense as Mr. Farley undertakes to make for the one appearing in the Herald Tribune. But let me read the Herald Tribune letter into the RECORD, too. Here it is.

The President's picture is on one corner of it. The letterhead is:

Roosevelt Nominator Committee. Hotel Bellevue, Boston, Mass. James A. Farley, chairman. W. Forbes Morgan, secretary. Democratic National Committee.

Then James M. Curley and Peter F. Tague and Joseph McGrath have some official positions in the committee.

I do not see anything particularly wrong with this letter itself, and nobody else does. The point about it is that it is being sent to the postmasters. That is the thing which makes it hard to understand. That is the thing which makes it difficult for us to excuse Mr. Farley for the things he is doing. This letter was being sent to the postmasters, the persons he appointed, and the persons who might lose their jobs if they did not please him. I wish to read it into the RECORD.

Mr. CLARK. Mr. President, will the Senator yield at that point?

Mr. HASTINGS. Yes.

Mr. CLARK. Does the Senator recall the efforts of Assistant Postmaster General Philp, I believe, in the last campaign, who at Springfield, Mo., in the spring of 1932, addressed a convention of postmasters in his official capacity, and told them that those who did not get out and get busy for the Republican Party would certainly lose their jobs if President Hoover were returned to office?

Mr. HASTINGS. Does the Senator suppose that is where Mr. Farley got his idea?

Mr. CLARK. I do not, and I do not think this thing has any comparison with that; but I am asking the Senator what he thinks of the practice of the Assistant Postmaster General officially appearing before a convention of postmasters in a State and making from the housetops the announcement to which I have just referred; and I do not think the Senator will deny my statement about that.

Mr. HASTINGS. I certainly will not deny it if the Sentor says it happened. I do not remember it, however.

Mr. CLARK. My former colleague, Senator Patterson, once admitted it on the floor of the Senate.

Mr. HASTINGS. Did Senator Patterson complain about it?

Mr. CLARK. Senator Patterson did not. I was complaining about it, and Senator Patterson admitted it. Does the Senator approve action of that sort?

Mr. HASTINGS. No; not at all; certainly not.

Mr. CLARK. Does the Senator think an ordinary letter sent out by a national committee compares at all with the proposition of an Assistant Postmaster General going out and appearing in his official capacity before a convention of postmasters and warning any postmaster who did not get out and get busy for the administration that he would lose his job?

Mr. HASTINGS. The Senator from Missouri and I certainly will agree that the fact that some person made a mistake, even though it was a Republican, is no excuse for a Democrat to go wrong and make a worse mistake.

Mr. CLARK. No; of course, that is true; but I should like to ask my friend from Delaware, who is so intimately familiar with everything that goes on in Republican activities, whether he ever protested against that action of Assistant Postmaster General Philp.

Mr. HASTINGS. I do not remember anything about it.

Mr. CLARK. It was publicized throughout the United States at the time.

Mr. HASTINGS. Well, during the past 3 years enough has been said to cause me to forget everything that ever went before. [Laughter.] That is my situation.

Mr. CLARK. Mr. President, I am entirely prepared to believe that statement.

Mr. HASTINGS. The Senator ought to believe it, because it is not only true of me but is is true of millions of persons.

Mr. CLARK. I certainly do believe it.

Mr. HASTINGS. Mr. President, I wish to read this letter, directed to "Dear Friend." It says:

Mr. James A. Farley has arranged to finance the entire national campaign by selling——

Mr. O'MAHONEY. Mr. President, will the Senator yield?

Mr. HASTINGS. I yield to the Senator from Wyoming.

Mr. O'MAHONEY. May I ask the Senator to repeat the first sentence of the letter?

Mr. HASTINGS (reading):

Mr. James A. Farley has arranged to finance the entire national campaign by selling Presidential nominator tickets at $1 each.

Mr. O'MAHONEY. Mr. President, I assume that when the Senator from Delaware writes to his constituents at home about what he is doing, he begins the letter by saying, "Senator Hastings has announced that he will do thus and so."

Mr. HASTINGS. No, Mr. President; but if I had as good an opinion of myself as Mr. Farley has of himself I probably should use such language as that. [Laughter.]

Mr. O'MAHONEY. I venture to say that the Senator from Delaware will be quite unable to produce any other letter written by Mr. Farley in that style. I desire to say to the Senator that it seems to me quite obvious to any person of intelligence who wishes to apply his intelligence that the letter he is reading could not possibly have been written by Mr. Farley. Mr. Farley has said that he did not write it, that he never saw it, that he never authorized it, and the photostat copies of it which have been published clearly show that the signature is not his.

Mr. HASTINGS. What about the letter which was read to the Senate today? Has Mr. Farley denied that one? Did the Senator hear the letter read by the Senator from Rhode Island [Mr. METCALF]?

Mr. O'MAHONEY. I was not fortunate enough to hear it read.

Mr. HASTINGS. Suppose I abandon the first letter and read the one read by the Senator from Rhode Island. This one I think Mr. Farley has not denied signing, and it has not the language in it, it has not the same defense as that contained in the first, and if the Senator is interested in knowing whether or not Mr. Farley did write it, the Senator may inquire of him. The letter has been read to the Senate once today, but the Senate has duplicated itself several times, and I do not suppose it will hurt to go on with that.

This letter is on the letterhead of the Democratic National Committee, Hotel Biltmore, New York City. They have headquarters there, I believe. It says, "James A. Farley, chairman." The letter is dated June 13, 1936, and reads:

DEMOCRATIC NATIONAL COMMITTEE,
JAMES A. FARLEY, CHAIRMAN, HOTEL BILTMORE,
New York City, June 13, 1936.

DEAR——: I know that you will want to have a personal part in the great national Democratic rallies which are being called to hear President Franklin D. Roosevelt accept his renomination at the national convention in Philadelphia on Saturday evening, June 27.

The Roosevelt nominators have been formed to organize these rallies, and to raise a substantial part of the national campaign fund for President Roosevelt, for presentation to the party's national treasury when he makes his speech of acceptance, and to launch then and there the victory campaign itself.

The goal is unprecedented and the plan is remarkable. The movement has been made possible because President Roosevelt has created the opportunity for the display of universal public enthusiasm by arranging to go in person to the convention to receive the notification of his renomination and to respond immediately with his speech of acceptance. To hear his address in the presence of a host of 100,000 Democrats the national convention will hold an open air session in Franklin Field. The great central national rally at Franklin Field will have its counterparts in the cities and towns throughout the country.

I am giving you additional details in the enclosed leaflet and I am also sending you a copy of the Roosevelt nominators enrollment roster which will be furnished in necessary quantity to the local chairman.

Here is what I am asking you to do. It is to select without delay a prominent Democrat of your community to act as chairman of the Roosevelt nominators for your community, secure his acceptance and wire me care of Democratic National Committee, Hotel Biltmore, New York, his name and address.

Please hand him the organizing material enclosed in this letter so that he can begin organizing immediately. He will be sent at once an official certificate of appointment as chairman of the finance division of the Democratic National Committee for the community, and will be supplied with additional material and enrollment rosters.

Time is short and I will appreciate your prompt action. With personal thanks to you for the complete support I know you will give this effective plan and with best wishes.

Sincerely yours,

(Signed) JAMES A. FARLEY, *Chairman.*

Mr. O'MAHONEY. Mr. President, I have listened with close attention to what the Senator has read, and I must confess that I see nothing in the letter to arouse the criticism of the Senator. It seems to be a perfectly understandable appeal.

Mr. HASTINGS. It is perfectly understandable, I agree, from Mr. Farley's point of view.

Mr. O'MAHONEY. It would seem to me to be understandable from any person's point of view. I can imagine, however, that the Senator from Delaware, who is accustomed to see the contributions pouring in to the Republican coffers from very different sources, would hardly find it understandable that the millions of Americans who have profited by the successful results of the present administration would rally to renominate the President who led that successful movement.

Mr. HASTINGS. Does not the Senator know that there are rules and regulations in the Post Office Department prohibiting postmasters from taking any interest in politics, and here is the Postmaster General——

Mr. O'MAHONEY. There is nothing to indicate that that letter was addressed to any postmaster.

Mr. HASTINGS. Oh, yes, that is the point; it was addressed to the postmaster. That is exactly it. Of course, there is nothing wrong with this other letter except that it was sent to a postmaster. The objection to it, of course, is that the Postmaster General is using his position as Postmaster General and as chairman of the Democratic National Committee and as chairman of the Democratic State Committee of New York to influence the people whom he has had so much to do with appointing.

Mr. CLARK. Mr. President——

The PRESIDING OFFICER (Mr. MOORE in the chair). Does the Senator from Delaware yield to the Senator from Missouri?

Mr. HASTINGS. I yield.

Mr. CLARK. Does the Senator mean to suggest that the action of the Democratic national committee in sending out

a letter to known Democratic workers, which might include some postmasters, is to be considered in the same category with the effort of Assistant Postmaster General Philp in 1932, evidently acting by official sanction, going out and giving word to postmasters in Missouri and other States that they must get busy or lose their jobs?

Mr. HASTINGS. I do not know just what the Senator has in mind. I told the Senator that I did not agree if this man Philip, or whatever his name was, did what the Senator says he did.

Mr. CLARK. The Senator has charged that the Democratic National Committee has sent out a letter which in some instances, or several instances, might have arrived in the hands of postmasters. It is not suggested that the letter was sent to a list of postmasters, but to a general list. Only the fact that Postmaster General Farley happened to be the chairman of the Democratic National Committee, and the recipient of this letter happened to be a postmaster, gives the basis to the Senator for the charge he is now making.

Let me ask the Senator another question, if I may, before I sit down. Does the Senator think it is better for the Democratic National Committee to send out a general letter to an inclusive list, which may possibly include postmasters, asking for small contributions, according to the means of the recipient of the letter, or do as the Republicans have been in the habit of doing, and as the American Liberty League is now doing, appealing to the Du Ponts and the Raskobs and the Morgans for tremendous contributions?

Mr. President, I am informed that there will be presented to the Senate within the next day or two a report from a committee of the Senate showing that the Du Ponts and the Morgans and the Raskobs have contributed to an anti-Roosevelt campaign in the last year a sum in excess of a million dollars.

Mr. HASTINGS. Mr. President, let me explain to the Senator the difficulty Mr. Farley is in, and it is a difficulty which he ought not to be in. He should not permit himself to be in any such positions as Postmaster General and chairman of the Democratic National Committee. No man ought to put himself in any such situation as that. There is nothing at all wrong about this letter, and I should not complain quite so much if the chairman of the Democratic National Committee were not Postmaster General sending letters to postmasters. But the terrible thing to my mind about this is that every man who receives this letter signed by James A. Farley as chairman of the Democratic National Committee knows at the same time that he is Postmaster General and as a postmaster he is under his direction and subject to his dismissal.

Mr. CLARK. Let me say to the Senator from Delaware that that letter was sent, I suppose, by accident.

Mr. HASTINGS. Oh, no; I do not think so.

Mr. CLARK. It was sent at least to several postmasters in the State of Missouri, and without exception, I believe, the postmasters immediately went into the newspapers to quote the Postal Regulations, and refused to act in any such capacity, assuming the letters had been sent by accident.

Mr. HASTINGS. My information is that these letters went out to postmasters pretty generally.

Mr. CLARK. Let me ask the Senator from Delaware whether he protested when Mr. Will Hays was Postmaster General and a member of the Republican National Committee, or when Walter Brown was chairman of the Republican National Committee and Postmaster General?

Mr. HASTINGS. Protested against what?

Mr. CLARK. Protested against the dual occupancy of office.

Mr. HASTINGS. So far as I recall, they never conducted active campaigns. They may not have resigned their positions, but they did not conduct active campaigns.

Mr. CLARK. Mr. President, those gentlemen immediately made realinements.

Mr. O'MAHONEY. Mr. President, will the Senator yield to me on that point?

Mr. HASTINGS. I yield.

Mr. O'MAHONEY. I may say to the Senate that during the last Republican administration the Postmaster General, Mr. Walter Brown, was not content to send letters to anybody at all. The Postmaster General in the Hoover administration appeared at a convention of postmasters and himself told them in public that it was their duty to get into the political campaign and to support the President who had appointed them; and not only the Postmaster General, but the First Assistant Postmaster General did exactly the same thing.

Mr. HASTINGS. Did the Senator approve that?

Mr. O'MAHONEY. Now, the Senator from Delaware comes with a letter which, as the Senator from Missouri has so well indicated, was quite obviously sent broadcast and may casually have fallen into the hands of postmasters, and an attempt has been made to make a mountain out of that molehill compared with the condition which existed under the administration which he has so eloquently espoused.

Mr. NORRIS. Mr. President, I shall not occupy the floor more than a few minutes.

I am moved to make just a brief comment by reason of the fact that when I was coming over to the Capitol today from the Senate Office Building, a friend of mine, who desires to remain anonymous, for the present at least, gave me a little piece of paper upon which he had written an alleged song. I did not think very much of it until I heard the Senator from Missouri [Mr. CLARK] talking about "Twelve Long Years", and then again heard the Senator from Delaware [Mr. HASTINGS] talking about "Twelve Long Years" and "Ten Long Years", and I remembered that I had listened to the very able speech of my friend from Oregon [Mr. STEIWER] when he spoke of "Three Long Years"; and it just occurred to me that I ought to read this little song which my friend gave to me. So, with due apologies to my friend from Oregon, with due apologies to the author of "Three Blind Mice", with due apologies to the Senator from Missouri, and with due apologies to my friend from Delaware, I desire to read this song. [Laughter.] It is entitled "Four Long Years."

It starts out with the chorus, which must be repeated after every stanza, of course. The chorus is as follows:

For four long years,
For four long years,
For four long years.
They were the years when Hoover ruled,
The American people were totally fooled,
In suffering and misery all were schooled,
For four long years.

Then the chorus again:

He promised us bread and gave us a stone;
He fooled us completely and did it alone;
He ought to suffer and then atone,
For four long years.

[Laughter.]

And again the chorus comes in.

We hunted prosperity at his call,
Around the corners both great and small.
He fooled us completely every fall
For four long years.

He promised a chicken in every pot,
A double garage on every lot,
But he fed us a shadow not even hot
For four long years.

[Laughter.]

Mr. ROBINSON obtained the floor.

Mr. CLARK. Mr. President, will the Senator yield to me so that I may add a stanza to the beautiful song which has just been read by the Senator from Nebraska?

Mr. ROBINSON. I think the Senator from Missouri might take the floor tomorrow in order to do so.

Mr. CLARK. It will take but a moment. I wish to contribute to the song another verse which was sent to me by a constituent of mine. It is as follows:

Three blind mice—
Knox and Hoover and Landon.
They all ran after the farmer's vote;
If they get it, they'll cut his throat;
And after November he'll be the goat.
Three blind mice!

[Laughter.]

UNANIMOUS-CONSENT AGREEMENT

Mr. ROBINSON. Mr. President, I shall submit another request at this juncture.

I ask unanimous consent that the Senate now take a recess until 11 o'clock a. m. today; that not later than 2:30 p. m. today the Senate proceed without further debate to vote upon the conference report on the tax bill; and that at not later than 3 o'clock p. m. today the Senate proceed to vote upon a motion to proceed to the consideration of the Guffey coal bill.

The PRESIDENT pro tempore. Is there objection?

Mr. McNARY. Mr. President, I think I clearly understand the Senator's request for unanimous consent. It is that with respect to the Guffey coal bill the vote to be taken at 3 o'clock is simply upon the motion to proceed to the consideration of the bill.

Mr. ROBINSON. Yes.

The PRESIDENT pro tempore. Without objection, the unanimous-consent request is agreed to; and the Senate will stand in recess until 11 a. m. today.

Thereupon (at 1 o'clock and 8 minutes a. m., Saturday, June 20, 1936) the Senate took a recess until 11 o'clock a. m.

NOMINATIONS

Executive nominations received by the Senate June 19 (legislative day of June 15), 1936

BOARD OF TAX APPEALS

Marian J. Harron, of California, to be a member of the Board of Tax Appeals for a term of 12 years from June 2, 1936, vice Annabel Matthews, term expired.

Richard L. Disney, of Oklahoma, to be a member of the Board of Tax Appeals for a term of 12 years from June 2, 1936, vice Herbert F. Seawell, term expired.

APPOINTMENTS, BY TRANSFER, IN THE REGULAR ARMY

TO QUARTERMASTER CORPS

First Lt. John Marion Moore, Field Artillery, with rank from June 1, 1933.

TO INFANTRY

First Lt. John Baird Shinberger, Cavalry, with rank from June 13, 1936.

PROMOTIONS IN THE REGULAR ARMY

TO BE COLONEL

Lt. Col. Ray Corson Hill, Infantry, from June 17, 1936.

TO BE LIEUTENANT COLONEL

Maj. Henry Benton Sayler, Ordnance Department, from June 17, 1936.

TO BE MAJORS

Capt. Henry Anson Barber, Jr., Infantry, from June 17, 1936.

Capt. Harold Allum Cooney, Field Artillery, from June 8, 1936.

POSTMASTERS

ALABAMA

William H. Gandy to be postmaster at Fairfield, Ala., in place of A. M. Burks, deceased.

James C. Jones to be postmaster at Sweet Water, Ala. Office becomes Presidential July 1, 1936.

Gladys W. Deramus to be postmaster at Verbena, Ala. Office became Presidential July 1, 1935.

ARIZONA

Minnie V. Van Deren to be postmaster at Tombstone, Ariz., in place of E. A. Macia. Incumbent's commission expired January 22, 1936.

CALIFORNIA

Fred J. Darby to be postmaster at Lemoncove, Calif. Office became Presidential July 1, 1935.

Walter I. Ricketts to be postmaster at Biggs, Calif., in place of L. P. Neff. Incumbent's commission expires June 28, 1936.

CONNECTICUT

Cornelius P. McGuinness to be postmaster at Stamford, Conn., in place of Lincoln Taylor, deceased.

FLORIDA

Esther M. Stewart to be postmaster at Graceville, Fla., in place of E. M. Stewart. Incumbent's commission expires June 23, 1936.

William T. Murrell to be postmaster at Miami Springs, Fla., in place of D. D. Pollard. Incumbent's commission expired March 28, 1936.

INDIANA

Bernard J. McCaffery to be postmaster at South Bend, Ind., in place of J. N. Hunter, transferred.

IOWA

Walter J. Leslie to be postmaster at Lakota, Iowa, in place of J. A. Bargar, removed.

James P. Dorothy to be postmaster at Ute, Iowa, in place of Tabitha Yelsma. Incumbent's commission expired January 12, 1936.

KANSAS

Jessie M. Grimes to be postmaster at Eudora, Kans., in place of W. H. Schehrer. Appointee declined.

Mary Marceline Gallagher to be postmaster at Jewell, Kans., in place of C. F. Schafer. Incumbent's commission expired April 27, 1936.

George F. Colwell to be postmaster at Glasco, Kans., in place of M. M. Fletcher. Incumbent's commission expired May 10, 1936.

Walter E. Moore to be postmaster at Manhattan, Kans., in place of G. J. Frank. Incumbent's commission expired March 10, 1936.

Edward Grauerholz to be postmaster at Esbon, Kans., in place of Delle Duncan. Incumbent's commission expired January 8, 1936.

MAINE

Oscar A. Kelley to be postmaster at Jonesport, Maine, in place of H. J. White. Incumbent's commission expired March 10, 1936.

Blanche W. Brown to be postmaster at Dover-Foxcroft, Maine, in place of A. A. Dinsmore. Incumbent's commission expired April 14, 1936.

Marguerite Cahill to be postmaster at Easton, Maine, in place of B. V. Thompson, resigned.

George L. Murray to be postmaster at Newport, Maine, in place of A. C. Bradbury. Incumbent's commission expired January 22, 1936.

MARYLAND

John T. Barrow to be postmaster at Perryville, Md., in place of E. H. Owens. Incumbent's commission expired April 27, 1936.

Margaret R. Greene to be postmaster at Fort Hoyle, Md., in place of S. B. Johnson. Incumbent's commission expired February 9, 1936.

MINNESOTA

Mary M. McGinty to be postmaster at Murdock, Minn., in place of E. C. Kiesling. Incumbent's commission expired June 20, 1936.

Lloyd W. Ohman to be postmaster at Deer Creek, Minn., in place of G. C. Hompe. Incumbent's commission expired April 5, 1936.

Harry C. Mertz to be postmaster at Shakopee, Minn., in place of E. K. Ries. Incumbent's commission expired April 27, 1936.

MISSOURI

John G. May to be postmaster at Jasper, Mo., in place of Anna Tabler. Incumbent's commission expired February 1, 1933.

Francese M. Lauer to be postmaster at Manchester, Mo., in place of H. E. Folluo. Incumbent's commission expired December 9, 1934.

Edward T. Rousselot to be postmaster at Noel, Mo., in place of J. F. Hamby. Incumbent's commission expired February 6, 1934.

Leo E. Ruscha to be postmaster at Pierce City, Mo., in place of A. T. Boothe, removed.

Raymond Carrick to be postmaster at Seymour, Mo., in place of G. W. Jones. Incumbent's commission expired January 9, 1936.

Walter J. Paschal to be postmaster at Verona, Mo., in place of Ernest Young. Incumbent's commission expired February 28, 1933.

MONTANA

Richard B. Vickers to be postmaster at Virginia City, Mont., in place of W. A. Francis, resigned.

NEBRASKA

Emma G. Grabenstein to be postmaster at Eustis, Nebr., in place of H. L. Mackey. Incumbent's commission expired May 23, 1936.

NEW JERSEY

William S. Nevins to be postmaster at Bergenfield, N. J., in place of J. G. Stoughton. Incumbent's commission expired February 9, 1936.

NEW MEXICO

Hazel F. Patton to be postmaster at Maxwell, N. Mex. Office becomes Presidential July 1, 1936.

NEW YORK

Timothy V. Sullivan to be postmaster at St. James, N. Y., in place of J. A. Maybee, resigned.

Alice A. Sherman to be postmaster at Shelter Island, N. Y. Office becomes Presidential July 1, 1936.

Bertha Sagendorph to be postmaster at Claverack, N. Y. Office becomes Presidential July 1, 1936.

Edward D. Connelly to be postmaster at Maybrook, N. Y., in place of S. W. Berry. Incumbent's commission expired February 4, 1935.

Oliver L. Sause to be postmaster at Mineola, N. Y., in place of E. U. McCarthy. Incumbent's commission expired March 23, 1936.

Edward V. McGrath to be postmaster at Seaford, N. Y., in place of A. E. McHugh. Incumbent's commission expired March 23, 1936.

Milly L. Hendershot to be postmaster at Sparrow Bush, N. Y. Office becomes Presidential July 1, 1936.

RHODE ISLAND

George A. Dolan to be postmaster at Westerly, R. I., in place of T. F. Lenihan. Incumbent's commission expired April 27, 1936.

TENNESSEE

John W. Simpson to be postmaster at Loudon, Tenn., in place of B. M. Roberson. Incumbent's commission expired March 18, 1936.

UTAH

Marvin P. Draper to be postmaster at Moroni, Utah, in place of W. S. Anderson. Incumbent's commission expired May 2, 1936.

Fletcher R. Peterson to be postmaster at Salina, Utah, in place of J. O. Anderson. Incumbent's commission expired May 2, 1936.

VERMONT

Charles J. Smith to be postmaster at Newbury, Vt., in place of L. E. Mason, deceased.

VIRGINIA

Henry H. Elswick to be postmaster at Jewell Ridge, Va. Office becomes Presidential July 1, 1936.

Mae R. Bostick to be postmaster at Burkeville, Va., in place of W. P. Bostick, deceased.

Garland W. Spratley to be postmaster at Dendron, Va., in place of W. S. Barrett. Incumbent's commission expired April 12, 1936.

WASHINGTON

Howard C. Roberts to be postmaster at Rosalia, Wash., in place of F. B. Goldsworthy. Incumbent's commission expired January 28, 1936.

WEST VIRGINIA

Jock L. Henderson to be postmaster at Williamstown, W. Va., in place of Benjamin Gorrell. Incumbent's commission expired April 12, 1936.

WISCONSIN

Harry L. Williams to be postmaster at Hazel Green, Wis., in place of F. W. Altenburg. Incumbent's commission expired June 1, 1936.

WYOMING

Althea E. Rollins to be postmaster at Lyman, Wyo. Office becomes Presidential July 1, 1936.

Mark N. Hanna to be postmaster at Lingle, Wyo., in place of G. C. Long. Incumbent's commission expired April 27, 1936.

CONFIRMATIONS

Executive nominations confirmed by the Senate June 19 (legislative day of June 15), 1936

DIPLOMATIC AND FOREIGN SERVICE

Wainwright Abbott to be consul of the United States of America.

PUBLIC WORKS ADMINISTRATION

Frank M. Keller to be State engineer inspector for the Public Works Administration in Colorado, Utah, and Wyoming.

PUBLIC HEALTH SERVICE

Erval R. Coffey to be surgeon.

APPOINTMENTS TO TEMPORARY RANK IN THE AIR CORPS, IN THE REGULAR ARMY

APPOINTMENTS, BY TRANSFER, IN THE REGULAR ARMY

TO QUARTERMASTER CORPS

First Lt. John Marion Moore.

TO INFANTRY

First Lt. John Baird Shinberger.

PROMOTIONS IN THE REGULAR ARMY

TO BE COLONEL

Ray Corson Hill, Infantry.

TO BE LIEUTENANT COLONEL

Henry Benton Sayler, Ordnance Department.

TO BE MAJORS

Henry Anson Barber, Jr., Infantry.
Harold Allum Cooney, Field Artillery.

POSTMASTERS

ALABAMA

Albert C. Simmons, Deatsville.

ARIZONA

Fred B. Moore, Morenci.

ARKANSAS

Felix E. Stephenson, DeWitt.
Norine W. Thomas, Norman.

CALIFORNIA

Orin Franklin Mumy, Angel Island.
Reuben C. Yarger, Loleta.
Claude P. Roberts, Wilmington.

FLORIDA

Herbert L. Eiland, Baker.
George T. Lewis, Cedar Keys.
Eva E. Ward, Macclenny.
Bibb E. Jones, Port Orange.
Clarence L. Ware, St. Andrew.

GEORGIA

John R. Jones, Dahlonega.

IDAHO

Harry L. Clovis, Craigmont.
Sara H. Huff, Driggs.
Henry S. Detmer, Orofino.
Katherine A. Peters, Post Falls.

ILLINOIS

Richard M. Laux, Addison.
Charles E. Olds, Albany.
Arthur McKinney, Alto Pass.
Virginia F. Dodge, Arlington Heights.
Effie B. Mueller, De Soto.
Oral LaVan Dowse, Kempton.
Marshall P. Kuhne, McNabb.
Francis J. Keigher, Manteno.
Edith Brain, Orient.
John S. Kaler, Rantoul.
Edward P. Devine, Somonauk.
George Lyons, Tilden.
George M. Mader, Waverly.

INDIANA

Clyde B. Oberlin, Butler.
Albert L. Dobbs, Greencastle.
Guy Dunlap, Poseyville.
Andrew H. Henschen, Rising Sun.

IOWA

Anna K. Shane, Ames.
Alice E. Owens, Carlisle.
J. Gerald Christy, Coon Rapids.
J. Louis Buss, Dow City.
Anna T. Wieland, Gladbrook.
Audra R. Howe, Greenfield.
Oscar K. Dick, Iowa Falls.
Ina M. Crow, Norwalk.
Robert Edwin Liston, State Center.
Peter Peterson, Story City.

KENTUCKY

George Taylor Smith, Beattyville.
Ben G. Pollard, Eminence.
Hattie D. Wood, Millersburg.
Charles W. Mitchell, Wilmore.

LOUISIANA

Frank M. Caldwell, Robeline.

MINNESOTA

Walter F. Gregory, Backus.
Theodore H. Lohrke, Balaton.
William F. Priem, Bellingham.
John M. Gunter, Clara City.
William Spalinger, Clinton.
John R. Forsythe, Cohasset.
Kalervo O. Finnila, Floodwood.
Lawrence C. Blackmun, Hancock.
John E. Doyle, Lake Benton.
Roy Peterson, Litchfield.
Ross Andrews, Meadowlands.
Charles A. Allen, Milaca.
Marguerite Mealey, Monticello.
Andrew J. Tauer, Morgan.
Fred C. Keith, Princeton.
Arthur F. Hernlem, Red Wing.
Herman I. Nelson, Spicer.
Ida M. Chiabotti, Tower.
Alfred Anderson, Twin Valley.
Timothy A. Garvey, Wahkon.

MISSISSIPPI

John A. Gerard, Bude.
Clifford E. Ball, Tylertown.

MONTANA

Theodore R. Bergstrom, Baker.
Charles Gibson Monkman, Choteau.
Grace M. Ramsey, Denton.
Paul M. McLean, Ekalaka.
William G. Kelly, Kalispell.
George T. O'Brien, Sidney.
Reginald W. Spangler, Superior.

NEBRASKA

Irene L. Barrett, Greeley.
Frank Johnson, North Loup.

NEW HAMPSHIRE

Bernard F. Nixon, East Rochester.
Lisle O. Moulton, Ossipee.

NEW YORK

Antoinette Ducharme, Lyon Mountain.
Margaret E. Keating, Olean.

NORTH DAKOTA

Frank L. Swehla, Fordville.
Elmer Knorr, Hunter.
Herman E. Moyes, Oberon.
James F. Ford, Reeder.
Charles W. Gannon, Underwood.

OHIO

Emro J. Zetts, Campbell.
Robert B. Maddock, College Corner.
Ludwig Ries, Jr., Dennison.
Paul M. Hawn, Pleasant Hill.

OKLAHOMA

Virgil A. Little, Goodwell.

TENNESSEE

Nathan D. Guy, Bradford.
George Reed Canada, Dyer.
Joe F. Penn, Kenton.
Charles V. O'Neal, Manchester.
Harmon B. Fox, Obion.
Clarence G. Gull, Union City.

TEXAS

Curry H. Walker, Pampa.
John Morgan Hall, Stanton.
Allen H. Brandt, Wallis.
Elmer Rice, Wilson.

UTAH

Lyman Baker, Eureka.
Fred H. Jones, Gunnison.
Heber M. Rasband, Heber.
John C. Green, Park City.
William Warner Mitchell, Parowan.
Nellie M. Ballard, Woods Cross.

WEST VIRGINIA

Bartholomew D. Eagan, Ronceverte.

WISCONSIN

Adolph H. Meinert, Albany.
Lawrence C. Porter, Cambridge.
George Medley, Foxlake.
Charles S. Thayer, Palmyra.

WITHDRAWALS

Executive nominations withdrawn from the Senate June 19 (legislative day of June 15), 1936

BITUMINOUS COAL LABOR BOARD

John M. Paris, of Indiana, to be a member of the Bituminous Coal Labor Board.

POSTMASTERS

MARYLAND

Nina Amelia Calvert to be postmaster at Perryville, in the State of Maryland.

MASSACHUSETTS

Mary F. Cronan to be postmaster at Middleton, in the State of Massachusetts.

MICHIGAN

Harold H. Mickle to be postmaster at Homer, in the State of Michigan.

HOUSE OF REPRESENTATIVES

FRIDAY, JUNE 19, 1936

The House met at 11 o'clock a. m.

The Reverend John Compton Ball, pastor, Metropolitan Baptist Church, Washington, D. C., offered the following prayer:

Our Father who art in Heaven and on earth, Thou Almighty One who art the God of individuals and of nations, we lift our hearts to Thee in praise and adoration. We are drawn to Thee by the evidences of Thy loving care, feeling sure that the Divine Being who is mindful of a falling sparrow and a flower of the field will not pass over unnoticed the needs of the greatest of all His created works. Therefore, with a boldness of faith and trust in one who is our dearest friend, we come to Thee to thank Thee for Thy goodness and to plead for Thy continued blessing. As we stand before Thee all political, denominational, social, and racial differences melt away. We are the children of one divine parent who loves us from cradle to grave, and who is anxious for one supreme thing in our lives, namely, the developing of all good and the crushing under foot of all

evil that the outcome may be beauty of character in the sight of God and men.

In the closing days and hours of this Congress we pray Thy blessing upon all good that has been done and Thy wise overruling of all mistakes that may have been made. Bless our President, we pray, and graciously let Thy benediction rest upon the Speaker of this House and every Member thereof. Be with our beloved Chaplain as he travels afar and with each one of us as we shall soon separate and journey to distant homes. Keep us from accident and harm. May we reach our homes in safety and with the conviction that we have done our best for our constituents, our country, and, above all, our God. Amen.

The Journal of the proceedings of yesterday was read and approved.

MESSAGE FROM THE SENATE

A message from the Senate, by Mr. Crockett, its Chief Clerk, announced that the Senate had passed, without amendment bills and joint resolutions of the House of the following titles:

H. R. 255. An act to provide for the commemoration of the Battle of Eutaw Springs, in the State of South Carolina;

H. R. 1397. An act to withdraw certain public lands from settlement and entry;

H. R. 1962. An act for the relief of Albert H. Jacobson;

H. R. 2155. An act for the relief of Francisco M. Acayan;

H. R. 2932. An act to confer jurisdiction on the Court of Claims to hear, determine, and render judgment upon the claim of the International-Great Northern Railroad Co. against the United States;

H. R. 4059. An act for the relief of Ella B. Kimball, daughter and only heir of Jeremiah Simonson;

H. R. 4707. An act validating certain applications for and entries of public lands, and for other purposes;

H. R. 4900. An act to amend the naturalization laws in respect of residence requirements, and for other purposes;

H. R. 5754. An act for the relief of Emma M. Pearson;

H. R. 5829. An act for the relief of Daniel J. Hagerty;

H. R. 6668. An act for the relief of S. John Hegstad.

H. R. 6951. An act for the relief of Thomas J. English;

H. R. 7256. An act for the relief of Perry H. Callahan and Malcolm W. Callahan;

H. R. 7463. An act for the relief of Lawrence R. Lennon;

H. R. 7727. An act to confer jurisdiction on the Court of Claims to hear and determine the claim of George B. Marx, Inc.;

H. R. 7818. An act for the relief of Caroline M. Hyde;

H. R. 7839. An act for the relief of C. E. Rightor;

H. R. 7864. An act for the relief of Edward P. Oldham, Jr.;

H. R. 8321. An act for the relief of Julia Long;

H. R. 8322. For the relief of Merwin A. Kiel;

H. R. 8373. An act for the relief of James Fitzgerald;

H. R. 8502. An act for the relief of Theresa Link, Wencel Link, Edward Block, and John Meyers;

H. R. 8521. An act for the relief of Elsie O'Brine;

H. R. 8643. An act for the relief of Mr. and Mrs. Frank Daley;

H. R. 8688. An act for the relief of Grace Schultz;

H. R. 8720. An act for the relief of Louis Manzumin;

H. R. 8799. An act for the relief of John N. Hunter, Edmund M. Cook, Fred C. Putnam, Merchants National Bank of South Bend, Ind., and St. Joseph Loan & Trust Co., of South Bend, Ind.;

H. R. 8841. An act for the relief of Estelle Mary MacDonald and Marilyn MacDonald;

H. R. 8875. An act to clarify section 104 of the Revised Statutes (U. S. C., title II, sec. 194);

H. R. 9078. An act for the relief of Bertha W. Lamphear;

H. R. 9111. An act for the relief of Evanell Durrance;

H. R. 9313. An act for the relief of the estate of Hans Ditmanson, deceased;

H. R. 9314. An act for the relief of the estate of Henry Copple, deceased;

H. R. 9315. An act for the relief of the estate of Fred Wilkins, deceased;

H. R. 10044. An act for the relief of Lt. Col. Fernand H. Gouaux;

H. R. 10168. An act for the relief of Arch A. Gary;

H. R. 10279. An act for the relief of the Pocahontas Fuel Co., Inc.;

H. R. 10591. An act to authorize the Secretary of Agriculture to investigate and report on traffic conditions, with recommendations for corrective legislation;

H. R. 11022. An act for the relief of Ethel Armes;

H. R. 11123. An act for the relief of Edward A. Foote, Jr., and others;

H. R. 11176. An act increasing the penalty for making false oaths for the purpose of bathing at the Government free bathhouse at Hot Springs, Ark.;

H. R. 11180. An act to extend the boundaries of the Fort Pulaski National Monument, Georgia, and for other purposes;

H. R. 11379. An act for the relief of William H. Milton;

H. R. 11538. An act for the relief of the Orland reclamation project, California;

H. R. 11597. An act for the relief of L. A. Peveler;

H. R. 11615. An act limiting the operation of sections 109 and 113 of the Criminal Code and section 190 of the Revised Statutes of the United States with respect to counsel in certain cases;

H. R. 11926. An act to provide for a term of court at Durham, N. C.;

H. R. 12002. An act to authorize a preliminary examination of the Lackawanna River with a view to the control of its floods;

H. R. 12007. An act to authorize a preliminary examination of the Penobscot River, Maine, and its tributaries, with a view to the control of their floods;

H. R. 12008. An act to authorize a preliminary examination of the Androscoggin River, in Maine and New Hampshire, and its tributaries, with a view to the control of their floods;

H. R. 12062. An act to authorize the Secretary of the Interior to accept unsurveyed lands in numbered school sections in the State of Arizona in exchange for certain other lands, and for other purposes;

H. R. 12144. An act for the relief of the Federal Enameling & Stamping Co.;

H. R. 12353. An act to amend an act entitled "An act to create a Library of Congress Trust Fund Board, and for other purposes", approved March 3, 1925;

H. R. 12494. An act to provide for the establishment of a Coast Guard station on Lake St. Clair, Mich.;

H. R. 12758. An act to increase the pension to certain veterans of the Regular Establishment on the rolls March 19, 1933;

H. J. Res. 366. Providing for the establishment of a game management supply depot and laboratory, and for other purposes; and

H. J. Res. 606. Joint resolution amending section 5 of Public Resolution No. 6, Seventy-fourth Congress, approved March 4, 1935.

The message also announced that the Senate had passed, with amendments, in which the concurrence of the House is requested, bills of the House of the following titles:

H. R. 4364. An act for the relief of Andrew Johnson;

H. R. 5078. An act for the relief of Mrs. Charles F. Eikenberg;

H. R. 6719. An act to amend the Canal Zone Code;

H. R. 7293. An act to amend the act approved June 16, 1934, entitled "An act to provide relief to Government contractors whose costs of performance were increased as a result of compliance with the act approved June 16, 1933, and for other purposes";

H. R. 7642. An act for the relief of Katherine Trick;

H. R. 8107. An act to authorize the coinage of 50-cent pieces in connection with the celebration of the one hundredth anniversary of the opening of the tri-State Territory of east Texas, north Louisiana, and south Arkansas by Capt. Henry Miller Shreve, to be held in Shreveport, La., and surrounding territory, in 1935 and 1936;

H. R. 10439. An act for the relief of John B. Ricketts;

H. R. 11555. An act to authorize the coinage of 50-cent pieces in commemoration of the one hundredth anniversary of the arrival of Marcus and Narcissa Whitman in the Walla Walla Valley, Wash., and the founding of the Waiilatpu Mission;

H. R. 11688. An act providing for a change in the design of the 50-cent pieces authorized to be coined in commemoration of the one hundredth anniversary of the admission of the State of Arkansas into the Union; and

H. R. 12212. An act to quiet title and possession with respect to certain lands in Tuscumbia, Ala.

The message also announced that the Senate had passed bills and joint resolutions of the following titles, in which the concurrence of the House is requested:

S. 390. An act for the relief of Orson Thomas;

S. 670. An act for the relief of Eliza Boykin;

S. 1339. An act to establish the Pipestone Indian Shrine in the State of Minnesota;

S. 1986. An act to authorize the acquisition of a certain building, furniture, and equipment in the Crater Lake National Park;

S. 2402. An act for the relief of Josephine M. Scott;

S. 2777. An act for the relief of Mildred Moore;

S. 2827. An act for the relief of Margaret Scott Bayley;

S. 3394. An act for the relief of Edmond G. Warren;

S. 3458. An act for the relief of George Smith and Ketha Smith;

S. 3606. An act for the relief of M. K. Fisher;

S. 4183. An act to authorize the city of Pierre, S. Dak., to construct, equip, maintain, and operate on Farm Island, S. Dak., certain amusement and recreational facilities, to charge for the use thereof, and for other purposes;

S. 4187. An act to amend the Reconstruction Finance Corporation Act for the purpose of making loans to shipowners for increasing safety of life at sea on existing vessels;

S. 4264. An act for the relief of Earl J. Thomas;

S. 4268. An act to authorize the Secretary of War to set apart as a national cemetery certain lands of the Fort Snelling Military Reservation, Minn.;

S. 4518. An act for the relief of the dependents of W. R. Dyess;

S. 4633. An act to provide for the selection of certain lands in the State of California for the use of the California State park system;

S. 4634. An act to provide for the selection of certain lands in the State of California for the use of the California State park system;

S. 4642. An act to confer jurisdiction upon the Court of Claims to hear, determine, and render judgment upon the claim of the Waterton Oil, Land & Power Co., of Butte, Mont., against the United States;

S. 4684. An act for the relief of the First, Second, and Third National Steamship Companies;

S. 4712. An act for the relief of F. P. Delahanty;

S. 4727. An act to quiet title and possession with respect to certain lands in Lawrence County, Ala.;

S. 4773. An act to confer jurisdiction on the Court of Claims to hear and determine certain claims against the United States on the part of owners of certain vessels;

S. J. Res. 213. Joint resolution defining the jurisdiction of the Court of Claims under the act approved April 25, 1932 (47 Stat. L. 137), and for other purposes;

S. J. Res. 255. Joint resolution to provide for the participation of the United States in the commemoration of the seventy-fifth anniversary of the Battle of Antietam; and

S. J. Res. 284. Joint resolution providing for the appointment of a National Unemployment and Relief Commission.

A 40-HOUR WEEK FOR FEDERAL EMPLOYEES

Mr. FITZPATRICK. Mr. Speaker, I ask unanimous consent to address the House for 1 minute.

The SPEAKER. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. FITZPATRICK. Mr. Speaker, I ask unanimous consent to revise and extend my remarks and to include therein the 40-hour-week bill I introduced on December 3, 1930, and the remarks I made on that bill on December 10, 1930.

The SPEAKER. Without objection it is so ordered.

There was no objection.

Mr. FITZPATRICK. Mr. Speaker, I am heartily in favor of the bill now before the House. In my remarks of December 10, 1930, I stated I was not interested in which party would be successful in 1932 provided prosperity returned to our country. But I am interested in this coming election for the benefit of the American people, and it is very important that we keep in the White House our present and next President, Franklin D. Roosevelt. [Applause.]

The following is the 40-hour-week bill I introduced in the third session of the Seventy-first Congress on December 3, 1930:

[H. R. 14251, 71st Cong., 3d sess.]

A bill providing for a 40-hour week for Federal employees

Be it enacted, etc., That on and after 60 days after the effective date of this act 40 hours shall constitute a week's work throughout the year, without reduction of salary, for all laborers, helpers, skilled and semiskilled workmen and mechanics, civil employees of the Federal Government and the District of Columbia, whether on the hourly, per diem, per annum, piece-work, or other basis: *Provided*, That in all cases where for special public reasons, to be determined by the head of the department or establishment having supervision or control of such employees, the service of such employees cannot be spared, such employees shall be entitled to an equal shortening of the week at some other time: *Provided further*, That the provisions of this act shall not deprive employees of any leave or holidays with pay to which they may now be entitled under existing laws.

On December 10, 1930, I expressed my views on this subject, as follows:

Mr. FITZPATRICK. Mr. Chairman and members of the Committee, I am in favor of the bill now before the House. The splendid work of our postal employees, which has raised the service to its present high efficiency, entitled them to the 44-hour week. In all kinds of weather these loyal public servants pursue their daily tasks. They are the arteries of our social and business life. Any break-down would cripple our business and leave us impotent and dismayed. The Members of the House appreciate this devotion to duty, and that is why we are eager to vote this legislation, anxious to grant this boon to the men and women of our postal system. I shall always look back with satisfaction to the small part I was permitted to play in making the half-holiday bill the law of the land. Last week I introduced a 40-hour bill for all Federal employees, and, as I stated at the time, I believe that less hours and shorter weeks is the only solution of the present unemployment situation. It has been stated by a number of prominent public officials and businessmen throughout the country that they believe that less hours is the only solution. Just before election there was a statement published in the New York newspapers, alleged to have been made by President Hoover, in which he stated that the invention of machinery and our mass production were greatly responsible for the present unemployment situation in our country. Now, if that be true, the only solution is less hours and shorter weeks. The distinguished chairman of the Appropriations Committee only last week drew a beautiful picture of what President Hoover did a year ago when he called the men representing capital and labor to Washington and asked them to help out on the unemployment situation. The representatives of capital and labor promised the President to do everything to help improve the unemployment conditions in our country. Now, what really happened? The president of the New York Edison Co. returned to New York and discharged a large number of employees. The president of the New York, New Haven & Hartford Railroad, the Railway Express Co., the New Jersey Central Railroad, and Henry Ford did the very same thing. Did President Hoover send for those men and ask them why they had broken their promise or pledge to him? He did not. He could not well have called them back, because the very thing he would again ask them to do the Government was failing to do itself; on the contrary, the Federal Government deprived men of employment in the navy yards, issued an order in the Postal Service whereby they reduced deliveries of mail, that meant doing away with the services of a number of employees, and at the same time have refused to fill these vacancies that exist in the post office.

Today, throughout the United States, there are over 5,000 vacancies, and in the city of New York over 600. So you can readily see, Mr. Chairman, ladies and gentlemen of the House, that the President should not ask private capital to do what the Federal Government has failed to do. The President at the time he called this conference asking the businessmen not to reduce wages of their employees, at the same time asked the representatives of labor not to look for increases and cause any disturbance. The representatives of our working classes carried out their promise,

but what has the Federal Government done toward paying the prevailing rate of wages? In the Labor Committee, of which I am a member, we reported out a bill at the last session of Congress which provided that the Federal Government on all its public works should pay the prevailing rate of wages. That bill has been held in the Rules Committee; it never came before the House, and today throughout the United States there are buildings being constructed by contractors who are using cheap labor where those buildings are being constructed and are not paying the prevailing rate of wages. Was the President sincere when he asked private capital to keep up wages and stimulate employment when the Federal Government failed to authorize the prevailing rate of wages, and also failed, as I have pointed out, to keep the men employed in the navy yards and Postal Service? What Congress should do is pass a 40-hour-week bill, and the message would be sent across the country that Congress has at last taken action, and if the States will follow in our footsteps it will be only a few months when the large unemployment personnel will be helped. The working people of our country are not looking for charity; they would spurn it; they are not looking for a dole; they want justice and employment. We can bring this about by enacting the proper laws to make less hours and shorter weeks for Federal employees, and if that is followed by the States we will be able to compete with the machinery and mass production throughout the country. We are suffering from mass production and the invention of great machinery. You have appropriated millions of dollars only on yesterday for roadways. This will bring only temporary relief to certain sections of our country. If you would have permanent relief, then let us have less hours and shorter weeks. I am not concerned with who gets the credit for it or how the country votes in 1932, what I want is something to relieve this unemployment situation and bring prosperity back to our country. [Applause.]

EXTENSION OF REMARKS

Mr. SCOTT. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD on the subject of my colleague the gentleman from Texas [Mr. MAVERICK], and to include certain editorials commenting on his service in the House.

Mr. RICH. Mr. Speaker, reserving the right to object, what kind of editorials, newspaper editorials?

Mr. SCOTT. Editorials from newspapers and magazines.

The SPEAKER. Is there objection to the request of the gentleman from California?

Mr. RICH. Mr. Speaker, I object.

RURAL ELECTRIFICATION

Mr. HOOK. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD and to include therein a broadcast made by Mr. Redmond M. Burr on the subject of rural electrification.

Mr. RICH. Mr. Speaker, reserving the right to object, who is the gentleman?

Mr. HOOK. A member of the Michigan House of Representatives, and, by the way, a Republican.

The SPEAKER. Is there objection to the request of the gentleman from Michigan?

There was no objection.

Mr. HOOK. Mr. Speaker, under the leave to extend my remarks in the RECORD, I include the following broadcast made by Hon. Redmond M. Burr, June 12, 1936, on the subject of rural electrification:

Thank you, Mr. Ritter. Good afternoon, friends of the radio audience. It has been gratifying to me to have an opportunity to be of service to my fellow citizens of our great State. You will note that I have not specified rural residents, for I have in mind all residents of the State, because, while the accomplishment of assisting those in rural communities is a direct benefit to them, there is an indirect advantage to urban residents, too, in many ways.

You doubtless know that the Michigan Rural Electrification Association was instituted by farm organizations with the objective to form cooperative organizations in every county of the State as a unit, the State organization to assist in handling these matters in order that the best possible arrangements be made for each and every unit to secure the facilities necessary for electrification.

I have previously stated that reports from officers of the Michigan State College reveal there are more than 196,000 farms in Michigan, and also that there are less than 40,000 of those farms that now have electricity. Records also reveal that of those now having electricity they are, as a general thing, in the more thickly populated districts of the State.

Mr. Morris L. Cooke, Administrator of Rural Electrification, states in the May issue of Rural Electrification News that, "Rural electrification in the United States can never reach a satisfactory level until, first, the relationship between private utilities and electric cooperatives is complementary and friendly; and, second, private utilities extend their rural lines on an 'area' basis, whether financed by public or private funds.

"In the past year or two the public has been slowly realizing what the farmer has always known—that the private utilities by confining their lines to the choicest parts of a rural section have deprived most of the neighboring farmers of any opportunity of receiving electric service.

"There has been a growing demand for 'area electrification', as more and more people have recognized that with the grant of monopoly privileges to private utilities there is a corollary obligation on their part to provide service to the rural community as a whole, not only to a few especially profitable customers.

"The reluctance of many utilities to meet this social obligation gave birth to the present rural electric cooperative movement. The local cooperative is designed to solve the local problem, at least in rural areas where the private company is unable or unwilling to make electric service available to most of the inhabitants.

"For many years there have been some very successful small rural electric cooperatives. They have conducted their business so quietly that observers of the national scene have been unaware of their existence. Public attention, focused on the issues presented by municipal plants and the growth of holding companies, has overlooked the successful cooperative.

"It has been obvious for years that the two methods most commonly used by private companies in extending electric lines into rural areas would never electrify much of rural America. The first way has been to run electric lines from one town to another with little, if any, attention to the load that could be obtained by routing these lines and their branches so as to reach the greatest possible number of rural customers.

"Many of the new lines now being built or planned by the existing private utilities actually block area-electrification projects of local cooperatives. The blighting character of these new lines can best be illustrated by a number of reports from the field. Such policies tend to defeat the possibility of real rural electrification, because after a distributor is once serving the 'cream' of an area it is next to impossible to secure electric service for the balance of that area.

"In a southern State, for example, a farmer's cooperative developed a project that would fill the need of the small community for electric service. Twenty-six miles of line were to be built and 100 customers served. After months of developmental work, these farmers now find their whole project imperiled by the threat of a private electric utility to build 7½ miles of line covering just the middle portion of the proposed route and taking 35 of the best customers. Without these 35 customers the cooperative project would not be economically feasible. The private company is unwilling to extend its service to more than a compact third of the original group of 100, thus the other 65 will be deprived of service."

The Norris-Rayburn bill, which provides for around $425,000,000 in addition to the $100,000,000 allocated by President Roosevelt for rural electrification, passed the United States Senate March 5 and the House April 9. As there are differences in the bill as passed by the two Houses, a conference committee from each House has been appointed to meet and straighten out those differences. In the debate on this bill both Republicans and Democrats spoke in favor of it, yet unfortunately those opposing rural electrification most strenuously were Republican Congressmen MERRITT of Connecticut; WADSWORTH, of New York; HOLMES and GIFFORD, of Massachusetts. Representative MAVERICK, of Texas, summed up the philosophy of the situation thus: "So long as we look at the matter of rural electrification in the light of economic greed, private profit, and speculation, nothing will ever be done for the farmer. We cannot do this on the basis of immediate profits. We cannot rely on the private utility industry alone. We must look at the subject from the viewpoint of public service.

On pages 7 and 8 of the May 1936 issue of Rural Electrification News is an account relative to "R. E. A. Activities in Virginia Suspended." The suspension apparently covers for 20 projects, totaling about 3,300 miles, to serve some 16,000 rural residents in Virginia. The removal by order of the Virginia State Corporation Commission of one of the two most profitable sections of the Caroline County cooperative project after it had been given the "go ahead", made it desirable to make sure that Virginia projects are not in the future open to any such hazzard. Many rural residents of Michigan realize that progress and construction of lines in Michigan has been delayed because the commissioner of corporations has declined to grant a charter for the construction of rural lines unless approval of such lines were received from the Michigan Public Utilities Commission. Officers of the Michigan Rural Electrification Association have been informed by competent counsel that a rural cooperative association serving only its own members in a nonprofit association is not a public utility and need not come under the jurisdiction of the utilities commission. The above experience of rural residents of Virginia who did place themselves under the jurisdiction of the Virginia Public Service Commission ought to be evidence of the wisdom of Michigan Rural Electrification Association officers. We believe that matters are going to so shape themselves in the near future so that we will be able to make progress. It may be necessary, as suggested by the commissioner of corporations, for us to go into court in order to secure charters that the laws contemplate shall be granted to citizens of the State without discrimination; if so, we will inform the members throughout the State that they may participate in our efforts to secure electricity for rural residents of Michigan.

Information comes to us that one of the projects that we have put forth time and efforts on to develop is about to go to the

Utilities Commission upon advice of their Congressman. In the face of the experience of rural residents of Virginia who placed themselves under the authority of the State utilities commission, resulting in the suspension of all loans within that State, it would be well to be cautious in any such an undertaking. The matter is, however, entirely one which residents of any community must consider for themselves; if a utility commission sees fit to give the best miles in any district to a private power company and what is left to a cooperative, as was apparently done in Virginia, and also as previously mentioned in a southern State, it would seem that there are bound to be some rural residents who will not obtain electricity. The officers of the Michigan Rural Electrification Association have repeatedly advocated that every resident in a given area must be given consideration, and advised that rural residents must stick together for mutual protection. We regret that there are delays, but remember that Edison invented the filament of the electric light 54 years ago; you may not have electricity today, after these many years; is it not worth while to be patient after 54 years of waiting so that yourself and your neighbor may each be served rather than less than 25 percent, as is the case after a half century of electricity? Keeping in mind that the Rural Electrification Administration has been operating but a few months, it is unreasonable to expect immediate accomplishment through cooperatives in that which private corporations have done so little during the past half century.

In order that we may not be misunderstood, I want to again repeat, as I have stated many times in the past: "I am interested in rural residents securing electricity for their farms, whether it be through cooperatives or private utility corporations. We do insist that all of the residents of a community shall be given an opportunity to be served." Our efforts to date have been along the lines of cooperating with the private utility corporations; conferences have been held with officials of the Detroit Edison Co., the Consumers Power Co., and the Citizens Light & Power Co. of Adrian and efforts made to secure current from them at wholesale rates, to be purchased at a central point, and while we know that current can be produced at a profit under such conditions for 1 cent per kilowatt-hour, we have been willing to pay a little more than that amount in order that we be doing our part to deal fairly with all parties. We have insisted, however, in promoting and protecting the consumers' interests at all times.

It is interesting and, of course, very encouraging to all concerned to note the eager determination of rural residents to carry on their efforts to the end that electricity be obtained for farmers, but first and last that it shall be obtained under conditions that are reasonable and giving opportunity to all residents in a given locality.

There is another important matter that has been called to the attention of rural residents, but it is so important that I repeat it again. Be more than cautious of what you sign, because you may not understand that the provisions are what you expect them to be. To illustrate, if you sign a permit giving a right-of-way across your property without a date being named wherein the furnishing of current is specified, it will be difficult for you to obtain a release from such a document after you have signed it, whether you ever secure electricity from such an agreement or not.

There is another point in connection with signing such an agreement which is, those agreements giving to utility corporations rights-of-way are capitalized, although they may have cost the company nothing, and rates for current are made upon the basis of a value placed upon those rights-of-way, so that you have not only contributed to the capitalization of a utility corporation but are later called upon to pay a rate for current based upon what you have contributed to that corporation.

Many interested persons have urged a pilgrimage to Washington to place before President Roosevelt the seeming unnecessary delays in developing rural electrification in Michigan. We do not like to see such action taken. We will if necessary take the matter to our Michigan courts and then, if unsuccessful, the trip to Washington can be undertaken. I urge your continued patience and efforts for developing cooperative units be maintained. It is disappointing, of course, that we may have to go to court, with the attending expense, delay, and extending the day when electricity can be obtained by farmers under conditions that are right and proper, but if we must do that we will. There is always room for honest differences of opinion, and the courts are established to dispose of those differences; however, there must be doubts in the minds of many farmers as to the need or justice as far as they are concerned if they are forced to go to court to obtain that which is lawful and is being obtained daily by citizens in other business ventures. I urge your patience and efforts be continued to the end that matters be in such shape as are to the interest of rural residents in this undertaking. Thanking you and good afternoon.

PROGRESS OF THE COLORED RACE

Mr. GRAY of Indiana. Mr. Speaker, I ask unanimous consent to address the House for one-half minute.

The SPEAKER. Is there objection to the request of the gentleman from Indiana?

There was no objection.

Mr. GRAY of Indiana. Mr. Speaker, following the example of my ancestors, I take just pride in repeating the history of the part taken by my ancestors in the early movement against slavery, how by grandfather, John G. Gray, Sr., braved a mob of a thousand in Indiana to address an audience of three persons, demanding the freedom of the colored race.

I take just pride in the courage of my father, John G. Gray, Jr., who stood between the attacking mob and my grandfather at the courthouse door, coming from the courtroom after the speaking and taking part of the blows and missiles directed and hurled at the speaker.

And I take further just pride in the course of my brother, George L. Gray, as judge of the Fayette Circuit Court of Indiana, in upholding the impartial consideration of the law in the trial of colored men before him and the respect they hold for his memory in his home town of Connersville even to this day.

MOBS AND LYNCHING A STIGMA UPON THE AMERICAN PEOPLE

With my ancestors and three generations looking down upon me in Congress I welcome the opportunity afforded to honor their memory as liberty leaders, to vindicate their courageous spirit and the cause for which they stood. This opportunity is the opportunity afforded to sign petition no. 32, to take from the Speaker's desk bill H. R. 5, filed by Representative GAVAGAN, to prohibit lynching and mob rule, and bring the bill before the House for consideration and enactment into law.

Mobs and the lynching of colored men have cast a stain and a stigma upon the American people and Nation, a reproach upon our laws and courts before the people of the civilized world.

BOTH WHITE AND COLORED CRIMINALS

Just as there are public enemies among the white people of our country, who commit robbery and murder and the heinous crime of kidnaping, so there are public enemies among the colored people, no more nor less than among the white people. We bring the white robbers and murderers, the white kidnapers of men and women to mete justice out to them in the deliberate proceedings of the courts under the law-and-order procedure. And the millions of our colored citizens will join with the white race in meting out equal justice to colored public enemies in the courts.

LOOKING BACK AT THE PROGRESS OF CIVILIZATION

Looking back at the course of humanity, coming up through the centuries of time, no race can show a record of greater and more rapid progress in civilization and the arts of peace and civil life than is shown by the colored race in America.

Only emigrating from the wilds of Africa a few brief hundred years ago, and only emerging from slavery and bondage less than 80 years ago, their progress has been a marvel and challenges favorable comparison with any race of people in the world. And when left free to work out their own salvation they have strenuously made their way up in the schools, colleges, and universities, and they have distinguished themselves as students, speakers, and orators wherever the opportunity has been open to them.

HONOR TO WHOM HONOR IS DUE

It is not generally known today that the history of the North Pole cannot be written without the name of a famous colored explorer who traversed the weary wastes of icy, frozen seas and snow and without whom the North Pole would have remained a mystery and unknown.

A COLORED MAN RAISED THE STARS AND STRIPES AT THE NORTH POLE

It is not generally known today—it has been withheld from history—that Matthew Henson, a colored man, accompanied Admiral Peary and stood at the top of the world and unfurled the Stars and Stripes to the winds of a far-away frozen land.

It is not generally known today that Matthew Henson, a colored man, drove the dog teams over the frozen world and made the discovery possible. And yet, while lauding Admiral Peary, Henson's name has been withheld and his valor and achievements suppressed from the pages of history.

This is even more marvelous in the light of the colored race coming from the heated Tropics, from the lands of the burning sun, and yet, overcoming this handicap of nature,

Henson pushed his way to the north and stopped only when no human could go farther.

During the course of the depression it was generally observed that, comparatively, a less number of colored people are supported on the relief rolls than the number drawing relief by the white people. In the sphere in which they live and move and have their being the colored people are industrious and thrifty, they meet their public obligations with more than equal promptness, and their loyalty and patriotism is always above question and apprehension.

The following is a copy of a letter received from Hon. JOSEPH A. GAVAGAN, Member of Congress from the Twenty-first District in New York, expressing his thanks and consideration of my signature to the petition and which I will treasure to show that I have kept the faith with my ancestors and their course before me:

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, D. C., June 17, 1936.

Hon. FINLY H. GRAY,
House of Representatives, Washington, D. C.

MY DEAR MR. GRAY: I wish to take this opportunity to express my appreciation for your cooperation in procuring the discharge of the Judiciary Committee on my antilynching bill (H. R. 5). Without your signature to this petition it would not have been possible to discharge the committee, and I wish you to know that I am very grateful.

No matter what honors may come to you in the future, I am quite certain that you will look back to your signature on this petition, seeking justice instead of mob rule, as one of your finest contributions to your country.

Again assuring you of my appreciation and esteem, I remain,

Sincerely yours,

JOSEPH A. GAVAGAN, M. C.,
Twenty-first District, New York.

To the same effect is the following letter received from the National Association for the Advancement of Colored People:

NATIONAL ASSOCIATION FOR THE
ADVANCEMENT OF COLORED PEOPLE,
New York City, N. Y., June 12, 1936.

Hon. FINLY H. GRAY,
House Office Building, Washington, D. C.

MY DEAR CONGRESSMAN GRAY: Thank you for your letter of June 3 informing us that you have already signed the discharge petition with regard to the antilynching bill.

Ever sincerely,

WALTER WHITE, *Secretary.*

SERMON OF THE BISHOP OF WASHINGTON

Mrs. ROGERS of Massachusetts. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD and to include therein a patriotic sermon by the Bishop of Washington to the veterans of all wars.

The SPEAKER. Is there objection to the request of the gentlewoman from Massachusetts?

There was no objection.

Mrs. ROGERS of Massachusetts. Mr. Speaker, under the leave to extend my remarks in the RECORD, I include the following sermon delivered by the Right Reverend James E. Freeman, D. D., LL. D., Bishop of Washington, at the annual massing of the colors service in the Washington Cathedral Amphitheater, May 24, 1936:

On an occasion such as this, an anniversary that brings to memory epochal events in our history as a people, where we recount the heroic service of our beloved dead, it is a consistent and normal practice for us to take stock of ourselves, to appraise our assets and weigh our liabilities; in fine, to reckon our position as we survey our advance or note our decline. It is an unworthy and dangerous habit, in the individual as in the Nation, to regard the events of life as governed by chance or determined by fortuitous circumstances. He is a careless mariner who is satisfied to sail always on dead reckoning. To such there can be no sense of security, no fixed haven or ultimate objective. "Favored nations" may be a proper term to employ in economic relations, there can be no nation so favored as to be immune to the penalties that inevitably follow upon an unregulated, unreasoned course; the improvident use of advantages and God-given opportunities, of the prodigal waste of the gifts that must be conserved, if security and prosperity are to be our portion in the days that lie ahead. It is characteristic of youth to be unreflective and careless in appraising values or in using them with a view to what they may secure of permanent advantage, and be it remembered America is a youthful Nation, notwithstanding its robust and virile character. Young as we are we have a record of achievement that gives us warrant for assuming reasonable maturity.

On such a day as this we proudly chronicle our glowing and glorious past and pay just tribute to the men and women who have made and preserved us a Nation. What we hold of wealth and estate is a legacy so rich that we dare not, except to our peril, hold it lightly or remove the safeguards that will secure it to the generations that are to follow. To each recurring age obligations and responsibilities are given, and we best honor our deed by holding to those ideals for which they strove and to which they contributed the last full measure of devotion. The stars in our flag were awarded their place in the field of blue by hands that gave without reserve that their station might be fixed and unchanging and that their union might be forever complete and indissoluble. "E pluribus unum" we inscribe on our national shield, and to it we are committed with unfailing fidelity and changeless devotion. True, we as a people have known days of shadow and long periods when we could but dimly see the path we were following. Even the stars in the blue were for the while obscured and their unity made uncertain, but happily, let us believe, such an exacting and anxious period is forever behind us.

On this day we remember with pride and affection all that the stars in our banner represent, 48 sovereign and related States, and we stand before the world a Nation whose unity is unchallenged and whose integrity and proud distinction are recognized by peoples the world over. Surely with gratitude and reverence we may point to our past and affirm: "He hath not dealt so with any nation." It may be our habit to be unduly boastful and to disclose self-pride when we appraise our record, but let it be assumed that this is but the characteristic of a people that is still in the process of growth and whose fuller and riper maturity is yet to be. The past is secure, the present is fraught with perils and possibilities, the future we will determine by the wisdom and accumulated experience we possess, and the determination we exhibit to follow ways that are consistent with our avowed ideals and our Christian heritage.

Standing as we do in an age that has witnessed mighty and far-reaching changes we are compelled to exercise both caution and restraint. Beyond anything we may do to stabilize our economic and political systems we must, if we would build securely and against evil days that may lie ahead, recognize with reverence and devotion those enduring fundamental moral and spiritual principles that cement and bind together our treasured interests and our dearest possessions. We have made much—too much—of our national wealth and we have been too arrogantly proud of our rapid advance as a nation. Once this advance was checked and our wealth diminished we lost our self-confidence and abandoned ourselves to fear and despair. When our free course was interrupted and our will to succeed rudely halted, our vaunted courage failed us and we suffered disillusionment and accepted defeat. We lacked the moral fiber to stand up against disappointment and disaster and cried bitterly over our restricted freedom to live our lives in pursuance of our selfish aims and our undisciplined ambitions. These past years have gained us no fresh laurels, nor have they witnessed to aught that we may remember with pride. We were bold and adventuresome in the days of prosperity, we lost hope and courage when adversity was our portion and our treasured possessions were imperilled. We have known periods when we presented to the world a better face and disclosed a finer temper. Despite all the shadows, despite our mental debility and depression, our broad acres have still yielded their bounty and our estate has lost none of its essential and real values. We possess the same excelling genius that has carried us to heights of incomparable achievement, but for the while its initiative has been paralyzed and its daring exploits have known no field of new endeavor. I repeat, we have little to cherish as we scan the record of these more recent years.

The men we seek to honor today, who endured stern hardships and made greater sacrifices than we have ever known, would hardly recognize the America they died to preserve. The years of our swift advance and unprecedented prosperity left us soft and flabby. The iron in our blood was thinned through intemperate indulgence and unrestrained follies; when the test was laid upon us we were unprepared to meet it. Selfish acquisition, freedom that grew into license, the setting up of artificial and unreal values, the abandonment of ways that stiffen and stabilize character, discarded disciplines, and above all else a forgotten God, these were the distinguishing marks of an age that sapped our vitality and rendered us the easy prey to evils that destroy confidence and impair and make impotent the will.

While we have grieved over our material losses we have been unrepentent for the follies that have worked to our disadvantage and moral laxity. It is on such a day as this and at such a time, that we are challenged to repent, to set our house in order, and to solemnly resolve, God helping us, that we will with freshened courage attack the forces that surround us, and come again to the day of reestablished hope and renewed faith. I do not lightly esteem the extent of our impaired wealth, nor do I regard with chilled emotions the misfortunes and sorrows that have come to defenseless and ill-equipped households the Nation over.

We mourn with those who mourn, we share the intolerable burdens that have bowed men, women, and little children to the earth, and made desolate and unwarmed their barren hearthstones. Let us hope and believe that a newer and more understanding sympathy is at hand than we have ever known; let us indulge the confident expectation that we are fronting an area in which the divisions and bitter rivalries in our social and industrial life are to be healed, and the spirit of brotherhood is to have a larger and finer interpretation than it has known in the days that are

past. There is something nobler and better than the wealth of which we boast; there is something finer and more enduring than the getting and the spending whereby we lay waste our powers. We yield all praise to those who have selflessly and sedulously sought to dissipate the shadows and to usher in the better day. We reckon with the endeavors of those who have sought to improve our economic conditions and to insure a more equitable and stable industrial situation. A just and consistent judgment we sorely need in this day of intemperate speech and unreasoned opinions. Above all else we need and must have a finer and clearer understanding of those eternal and unchanging values that undergird and secure the strong things of character, qualities that alone contribute to the strengthening of the will and the enfranchisement of the spirit. These we may not buy, no skillful craftsmen can produce them, and market display them.

The kind of character we have in mind is not affected by either adversity or prosperity; it yields not to changing moods nor does it shift its standards because of the clamorous cries of the unthinking mob. It is possessed of a courage that never quails, even when the race is to the swift and the battle to the strong. Its loyalties are fixed and unvarying, its principles are grounded in a faith that can move mountains.

It is men of this breed we need today. It is only men of such sterling qualities that can preserve to us the treasures we most covet and desire. We have had such men before; we shall have them again. Let us not delude ourselves by believing that cleverness and the capacity to adapt ourselves to changed and changing conditions; that political adroitness or cunning constitute the hallmarks of efficiency, the warrants for our continuing happiness and prosperity. It takes something other than the skill and deception of the magician to produce real and lasting values out of secret and obscure places. We may at our pleasure maintain or abrogate a gold standard, but if we leave out of our life the standard of the Golden Rule, the norm by which we determine right human relations, we shall find ourselves a Nation rich in material values, but lacking the moral stamina with which to maintain and protect them. There is a cheap and vulgar habit, all too common in our modern life, that treats with irreverence, if not contempt, those qualities that have had conspicuous expression in the lives of the good and the virtuous. We call these qualities spiritual, and in our better moods we define them as Christian. We would hold these virtues above reproach; we would keep them clean and strong in a world that is abandoning its time-honored traditions and its reverenced altars.

This is a task that calls for the noblest and strongest qualities in our nature. As we survey the survivals of nations and peoples, it is universally true that minorities, minorities representing and exemplifying great ideals, have been as preserving salt to save States and communities and society from corruption and decay.

We stress this on our memorial Sunday and in the presence of this representative assembly, for there are false prophets and blind guides in our national household who would have us part company with our ideals and forget the rock whence we are hewn. With arrogance and conceit they would have us change our chosen course, abandon our religious faith, and set at naught our traditions. To such, the flag must have a crimson hue and the form and character of our Republic give place to systems alien to our life, systems that deny God and moral concepts and make havoc of the most sacred and hallowed of our institutions.

An astute English observer says concerning our drifts and tendencies: "At the moment the American Nation seems to be suffering from a certain bewilderment consequent on its inability to discover a working philosophy of life." He pertinently adds: "There are only two such philosophies in the world today, Christianity and communism." Of these two we of America must presently make our definite and deliberate choice. We shall go on in our own strength and according to our own selfish wills, or we shall freshly affirm and obediently follow Him who came to reveal God's will and purpose to His children. Christians, we avow ourselves, but His percepts and principles are hardly conspicuous in our social or economic life. What our choice is to be is as yet obscured to our vision.

We are not unsympathetic or unresponsive to well-devised plans that seek to usher in a better and more equitable social and industrial order; we steadfastly refuse to yield to theories and nostrums that are foreign to our avowed Christian ideals and practices. It is not alone the citizen of foreign birth who would with inflamed zeal and passion tear down the structure so long and laboriously reared by self-sacrificing patriots but the elect and privileged within our own household who would take from us, and especially from the youth, loyalty and devotion to all that we hold as indispensable to the maintenance of life, liberty, and the pursuit of happiness. Moral degeneration and irreverence, issuing in marital infidelity, broken homes, undisciplined lives, disregarded obligations, and a Godless society, these, unrebuked and unrestrained must ultimately work our ruin.

It is to the defense of our institutions we are called today. It is from those who gave their all, "poured out the sweet, red wine of youth", the summons comes to us, their sons, to be strong and of a good courage, that this rich and far-stretching land may be preserved and its strong principles stoutly maintained. We make no boast of our virtues, nor do we assume infallibility of judgment. We zealously commit ourselves to the righting of wrongs and the abatement of abuses; but we will effect these salutary changes by the Christian standards to which we adhere, and with a courage that is sustained by faith in God and our accepted American ideals. It is to a renewal of faith we are bidden today. By the graves of our dead we keep our tryst and with firm resolve rededicate ourselves that the heritage so generously and selflessly committed to our hands may be forever preserved.

PERMISSION TO ADDRESS THE HOUSE

Mr. GUYER. Mr. Speaker, I ask unanimous consent to proceed for one-half minute.

The SPEAKER. Is there objection to the request of the gentleman from Kansas?

There was no objection.

Mr. GUYER. Mr. Speaker, my friend, Governor Alfred M. Landon, has been honored by the national Republican convention with the nomination for the Presidency. [Applause.] To have captured the imagination of the American people and the Republican nomination within the space of less than a year has never been equaled in the political history of the United States. Kansas is very proud of this honor and deeply appreciates the distinction conferred upon her through her Governor.

Mr. Speaker, I ask unanimous consent to extend my remarks.

The SPEAKER. Is there objection to the request of the gentlemen from Kansas?

There was no objection.

Mr. GUYER. Mr. Speaker, we are on the threshold of a great quadrennial election in which the people will choose a President and a Congress to guide the destinies of our country for the next 4 years. Under our system of government, as it has evolved, we have a two-party political system under which two powerful political organizations contend for mastery. These political parties differ along rather definite ideas of policies and principles which in a broad sense divided, in our earlier political history, upon the question of a strong and energetic central government as opposed to what was known as State rights.

TANGLED POLITICAL PEDIGREE

This political alinement dates back to the administration of President Washington, in whose Cabinet Hamilton and Jefferson contended in a titanic struggle out of which was born our first political parties. The followers of these giant political and social philosophers have not always followed strictly the ideas of their respective idols, and certainly not at this time. The alleged followers of Jefferson depended upon Hamilton's theory of implied powers to justify the A. A. A., which is an intriguing romance of political genealogy. The centralization of power in Washington at this time certainly would have satisfied Hamilton in his most ardent desire for a strong centralized government.

No government is ever any stronger than it is in a crisis; and in every great crisis, regardless of party, we have immediately taken refuge in Hamilton's theory of a strong government with sufficient power to maintain itself in a great emergency. In the War between the States unprecedented power was lodged in Lincoln's hands. The same thing occurred in the World War, and President Wilson was given the same unusual powers. Likewise in the emergency of the depression President Roosevelt requested and was given such extraordinary powers as were never before lodged in the hands of any President—certainly not in time of peace. However, notwithstanding these lapses of political memory, the two great parties adhere, in a loose and general way, to their traditional policies and principles.

NATIONAL CONVENTIONS

At this time these two political parties are in their quadrennial performance of choosing a standard bearer or candidate for President with all the pomp and circumstance that they can manufacture for that occasion. The Republican Party meeting in convention at Cleveland, Ohio, has already chosen its standard bearers, and next week the Democratic Party will renominate President Roosevelt and Vice President Garner at Philadelphia.

The Republican Party on June 11 nominated Alfred M. Landon, now Governor of Kansas, for President, and Col. Frank Knox, of Illinois, for Vice President. It is of my friend, Governor Landon, that I wish to speak in the brief time at my disposal.

ALFRED M. LANDON

I could describe Governor Landon, known familiarly to his legion of friends as Alf Landon, as an extraordinary ordinary man. [Applause.] He has so far never been charged with being a genius or superman. He does most things, with the exception of making friends, with main strength and awkwardness. He possesses no tricks of elocution or accent that would betray his local origin, education, or ancestry. He is as genuinely American as the rich, common soil from which he sprang. He boasts of no blue-blooded lineage from wealth or social untouchables. His ancestry bears only the stigmata of the pioneer prairies and the rich red blood of the old frontiers. At the time of the American Revolution the Landon family resided in New Jersey, and Governor Landon's great-great-grandfather fought by the side of Washington and his great-grandfather was a soldier in the War of 1812. Governor Landon is himself a veteran of the World War. His grandfather joined the western caravan which swept toward the western sea and settled in western Pennsylvania. His father continued the westward migration to Ohio and finally landed in the last paradise of the pilgrim—Kansas.

"A PLAIN BLUNT MAN"

Governor Landon is no boy orator of the Neosho, the Kaw, or the Platte, or of any other shallow stream. No "orator as Brutus is" but just a "plain blunt man." When he is elected Rudy Vallee will have no competition in the White House. However, when he speaks no one ever complains of not understanding just what he means. He does not believe that the chief function of words is to conceal and obscure thought.

NO ARCHITECT OF ENEMIES

I cannot say of him what General Bragg said of Grover Cleveland when he nominated him at Chicago: "We love him for the enemies he has made." Governor Landon has never achieved a reputation from his accumulation of enemies. If he has an enemy, I do not know who it is. He is, however, an expert in making and keeping friends. Like all creative and constructive characters, he is not greatly interested in the fine art of making enemies. In the business of life he has not found enemies indispensable; they just do not fit into his scheme of life. On the other hand, he has the happy faculty of getting along with people and in that way accomplishing his ends. He had no deadlocks or stubborn controversies with two legislatures which were both very evenly divided between Democrats and Republicans. He did this without dictating and without fawning.

A NATURAL EXECUTIVE

Governor Landon has the natural elements of a great executive without the arbitrary characteristics that so often accompany such talents. He possesses the courage and stamina to make decisions and the tact to say "no" without giving offense. With high ideals and progressive ideas he keeps his feet squarely on the solid earth. He has developed discriminating judgment of men and issues. He acts with directness and celerity without bluster and with the wholehearted cooperation and sympathy of his associates. Modest and unassuming he has no vaulting egotism to bridle, and his keen sympathy and understanding kindles confidence and fealty wherever he goes. Having political integrity he believes platforms are covenants with the people and honors them by performing their pledges. These qualities have made him a good Governor of Kansas, and the same qualifications have made good Presidents.

People all over the country have marveled at the sudden popularity of Governor Landon, which they say they do not yet understand. There is always a reason for such things. They do not just happen without rhyme or reason. The fact is, Governor Landon dramatized a vital idea, which became an issue. Napoleon said that "ideas rule the world." That idea was economy in the conduct of public business. Taxes were becoming intolerable. We had spent money for over a quarter of a century like drunken sailors. Every State, city, and municipality, along with the Federal Government, had been wasting public money for a long procession of years. Real estate in many cities is a liability. It seemed the chief business of every officer of the law was to see how many places could be found to spend the people's money. Then, all at once, the people began to realize the chill which comes in "the cold gray dawn of the morning after" when they are called upon to pay the fiddler.

STAGGERING DEBTS

By leaps and bounds the public debts kept rising since about 30 years ago. From the latest Government statistics I produce these appalling figures: All public debts, national, State, county, city, town, and so forth, total, 1902, $2,838,896,000; 1912, $4,850,460,000; 1922, $30,845,626,000; 1932, $39,424,080,000. The per-capita debt for the same years: 1902, $35.93; 1912, $49.97; 1922, $283.70; 1932, $316.83.

GENESIS OF THE LANDON BOOM

With this appalling public debt staring the people in the face came Governor Landon balancing the budget in Kansas and reducing taxes at the same time. Is it any wonder that with these debts confronting the people and the unprecedented spending of the New Deal, with its waste of public money, that Governor Landon captured the imagination of the Nation?

HOW LANDON BALANCED THE BUDGET

I have no time to go into minute details, but I want to give you in a few words the story of the Kansas balanced budget and lowered taxes at the same time. Since the peak in 1929 general property tax in Kansas has been reduced 32 percent. The cost of State government for 1933–34, the first biennium of Landon's service as Governor, was 22 percent under the cost for 1931–32. Kansas counties and municipalities liquidated $22,000,000 of bonded indebtedness from 1932 to 1934, during which time $5,000,000 of new bonds, about half for relief, were issued—a net reduction of $17,000,000 in the bonded debt of Kansas counties and municipalities. The per-capita cost of State and local government in 1929 was $71; in 1935, $52, a reduction of about $19 per capita, or more than 26 percent.

In 1932, the year preceding Governor Landon's first year in office, the total revenue was $127,000,000. In 1934 it had shrunk to $97,000,000—a decrease of 23 percent.

Kansas bore her share for relief and ranked fifteenth in the United States in percentage of non-Federal funds contributed. Her percentage was 30.6. There were 27 States which contributed less than 25 percent.

This gives you a bird's-eye view of the work of Governor Landon and of the people of Kansas in their determination to economize in cost of government. This was accomplished by a searching policy of economy, by consolidating numerous State regulatory activities, and eliminating needless agencies and agents. And by no means least in the Governor's program was the enactment of the cash-basis law, under which counties and municipalities were prohibited the old privilege of issuing interest-bearing tax warrants and spending in excess of the actual cash on hand or collectible to meet obligations. This was done without crippling a single State institution, a record unparalleled in the history of this country at this time.

LANDON GENEROUS AND FAIR

Governor Landon gives due credit to all, including his Democratic predecessor; but without his grim determination to balance the budget, as his platform promised, this could not have been accomplished. It is in sharp contrast to the debts and deficits piled up by this Democratic administration after all the rosy promises of Franklin D. Roosevelt about reducing taxes and cost of government at least 25 percent.

Landon believes, like the Democratic platform eloquently declared, that a platform is a covenant with the people to be sacredly kept. Unlike the head of the Democratic Party, Landon performs these contracts and considers them sacredly binding. That is why he has captured the imagination of the American people in this age of broken Democratic promises and colossal debts and deficits. The people want an Executive who possesses political integrity and the fortitude and grim executive resolution to make good his plighted word.

HONEST RELIEF ADMINISTRATION

At Lincoln, Nebr., on February 28 last, Governor Landon declared:

Recently the impression has been spread that a change in administration would jeopardize the relief intended for the deserving. The time has come to call a halt on such politically inspired fear. Let us, as Republicans, make it clear to the needy everywhere that the changes we pledge will bring order out of chaos by purging the Federal Relief Administration of partisanship, of waste, and of incompetence.

The people demand that the hunger and misery of the Nation shall not be used as political capital at the expense of the Public Treasury; that their money shall not be shamefully wasted to buy a return ticket to public office in the manner of the largess in the palmy days of the old Roman Empire. No blacker stain could besmirch the record of any party or administration than the infamy of preying upon the hunger and destitution of the people for political advantage at the expense of the Public Treasury.

ISSUES INCARNATED

Governor Landon is the incarnation of the issues of 1936.

The people are clamoring for sanity under the light and guidance of experience. That was Landon's policy in the government of Kansas.

The people are appealing for economy and common horse sense in governmental expenditures; for an honest, nonpolitical administration of relief like Landon gave Kansas. They were the keys to Landon's success in balancing the budget and reducing taxes in Kansas.

The people plead for sincerity and honesty in the fulfillment of campaign promises. Landon kept faith with the people of Kansas, and he will keep faith with 130,000,000 American people. [Applause.]

COMMENCEMENT EXERCISES AT ST. JOHN'S UNIVERSITY

Mr. SMITH of Connecticut. Mr. Speaker, I ask unanimous consent to extend my remarks and to include therein a speech delivered by Senator MALONEY at the commencement exercises at St. John's University.

The SPEAKER. Is there objection to the request of the gentleman from Connecticut?

There was no objection.

Mr. SMITH of Connecticut. Mr. Speaker, under the leave to extend my remarks in the RECORD, I include the following address delivered by Senator MALONEY at the commencement exercises at St. John's University, Brooklyn, N. Y., June 3, 1936.

I should tell you at the outset that I am here without a feeling of satisfaction and with no degree of comfort. This assignment is deserving of a more gifted man, and you are entitled, after the strenuous, fruitful, and happy years which are about to close on your college careers at St. John's University, to something more scholarly than I can offer, and to a commencement address in keeping with what you have acquired at your great institution of learning.

But I am here. I came because Father Walsh asked me to come. It seemed like a summons. Father Walsh had just delivered an inspiring and completely captivating address in my State, and I was so impressed with his talk that I should have agreed in anything he asked. Because I have never heard a commencement address, nor read one, I have had no opportunity for guidance. I have only the inspiration that comes with the great compliment of the invitation, and your presence, and the important presence of members of your faculty, who have imparted to you the benefits of their learning. The inspiration is great, and, while I am filled with feeling, there is lacking the great gift of language and expression.

Several times in the last few weeks I have asked myself what I might say here. I determined that I could best measure up to the honor that is mine by saying some of the things I should like to have said to my children if they were in this graduating group. It will be simple language. It will humbly be a little of what I think I see before the average young college graduate setting forth to meet the vicissitudes of an uncertain era.

I have not referred to books. For me there is too much confusion there. Certainly I could find a speech in books. Surely from that source it would be simple to take somewhat satisfactory language already molded by other men. That would, to all outward purposes, keep up with the part one is expected to play upon so exalted a stage as this. But it would be a kind of fake, and we have had too much of that.

If I started by paying tribute to the efforts of the college founders, and the accomplishments of their followers, I could make effective language, I am sure, because St. John's is not without its glory and romance. Its history would afford the chance for me to play upon the heartstrings of this audience. The college came into being just after the great struggle between the States. The Republic was about to settle down to the business of a new era, after the shock and the cruelties and the horror and misery of war. I have enough imagination to visualize the coloring for a verbal painting that could be found in those years. Some soldiers, perhaps, out of the armies of Lee and Grant, or the sons of soldiers, coming from the paganism of war to the field of learning and education—Catholic education. Your imagination has been extended, or magnified, during these past few years, and you can perhaps dimly see the picture I outline. There might be put into it the glories of the faith of which we are so proud and so confident, with its converts and its comforts, and the alluring beauty of eternity that is engraved in the Catholic heart.

As I endeavored to outline this feeble contribution, which comes at the end of your college adventure, these thoughts came to me. Each in turn was nearly satisfying to my vanity, for several years in political life have taught me we get applause in speech by what appeals to the emotions of men. But also these years of experience have taught me that emotion is a fleeting thing, and, instead of wanting you to remember me as a person who stirred your feelings for a half hour on an eventful afternoon, I should prefer to attempt to leave a thought, or an impression, that might be helpful in those after years, which I hope will be happy ones, and I know can be useful ones.

The final thought came out of the faith that created your school and which from this day forward you have a chance to honor. You came here with that faith, and you go from here with a better understanding of its philosophy.

All I will say could probably be put into a sentence, and easily into a few paragraphs, but I do want to get, as best I can, a touch of coloring in the picture.

As I began, I told you how it happened that I agreed to come here. Father Walsh had made a speech at a gathering of Catholic people in Connecticut. During the course of his address he drew a word picture of a saddened person of our faith, standing at the casket of a member of his family. Fasher Walsh saw him there with a heavy and bleeding heart, but entirely unwilling—even if it were possible—to call back the one who was dead, because that one was with God. None of our faith would dispute that. Many of us know the feeling and can recall the sorrow and bitterness of such an occasion; not a bitterness toward the all-wise God of infinite goodness, but bitterness in another sense—the bitterness of an almost impossible medicine. How we reconcile our mixed emotions of such a time is impossible of explanation. We love God all the more at that period and we turn entirely to Him for comfort and consolation. Why? Because there is no place else to turn. Then do we realize, all too well, that nothing much matters without Him.

After today some of you will go into business—and find positions of worldly importance in the market places, and others of you will practice before the courts and the bar of justice. If we had the perfection at which the church aims; if there were carried out the teachings of her selected children of the cloth, there would be little business for the latter group—but it will not be that way. For some secret reason, the Lord has determined that we will work things out ourselves. He has, however, supplied us with the rules and regulations.

In the business places to which you will go, or the legal places, and it will be even more a fact if you go to the places of public office, you will be disturbed by the problems of life, just as men have been since the very beginning. You may or may not know the vexation and torment of what is good or what might be bad in the A. A. A. or the S. E. C. or the N. R. A. or the R. F. C., but be confident that if these things do not exist for you that you will not escape the problems and trials and responsibilities of your generation any more than it was possible for your folks to avoid their trials and responsibilities. Yours should be of another kind, however, because in many instances you are afforded opportunities denied to them.

You are too young to know the difficulties with which they fought, or at least to fully appreciate how hard a fight it was. Oh, if you could see the sadness and the gladness of a part of the generation that came before yours. It was the period of oil lamps for most people, although a few had gas, and there were electric lights for the seemingly more fortunate. No radio, no airplanes, no electric refrigeration, few automobiles, few telephones, and little of the development that came to us so fast by way of the inventive genius which was accelerated by the great World War.

In those long-ago days the great masses went "almost nowhere", excepting to work and to church. Sometimes those blessed with continuous good health in their families were able to go perhaps a hundred miles away on an annual visit. It took them months to plan and pack, and before the parting they shook hands with the neighbors and kissed the relatives good-bye at the railroad station. Now the bolder ones go that far almost every Sunday before or after dinner. In those days most of the evenings were spent around a red tablecloth, and at least a small part of the evening was devoted to prayer. In the country, in the warmer weather, there was the treat of the shade of a grape arbor, and in neighborhoods like this, the shelter of maples and elms in the parks. That was their recreation. They asked no more.

Men and women placed their faith in God and made certain of their eternal salvation, and they gave all of their physical effort to make possible the economic salvation of their large families. They did their best to keep up with God, but, if ever they gave a thought to it, they knew it was impossible to keep up with the "Joneses."

That generation, as I saw it, grew old with a fair measure of happiness and satisfaction. The folks grew old with a smile because they were going to God. That generation had not the affliction of the vanity we know, and it was indifferent to man-made opinion. Mr. Dooley, and a comparatively few other men, talked about the Constitution, and the good people of the period I have in mind were less excited about the Constitution than men are now, although there was just as much "regimentation." They did, however, know God's constitution, and it was sacred to them. They knew that living by the Commandments was living according to God, and they seemed possessed of the understanding that the divine law was the basic law.

The changes that came in the following generation, with the greater education opportunities, should have been a blessing, and there can be no doubt that it was so intended. Men seemed to forget, however, and the Jones family held sway. The self-effacement and humility faded, and vespers gave way to movies. Folks failed to remember that inventive genius was given to some men in order that they might spread the goodness and the blessings of the Creator. There was not enough of a recognition of the fact that we are "our brother's keeper", and that the men who came late to work in the vineyard, as well as Caesar, were entitled to what was "theirs." All in spite of the teachings of 2,000 years.

At this point I find myself trespassing upon a field that is really beyond my privlege, and I am doubtful that I have gone the right way in my address. But it is the feeling that came to me, and I shall not undo it now. You know the story, and in some respects you know it better than I do, but if my feeling and opinion is worth anything it is a story that cannot be told too often. If you can conceive that my little experience is worth anything, I warn you that you can find success in what you have had a chance to absorb here in Brooklyn.

God had a more beautiful language than men can find, but He seems to me to have said that the true test of a nation is its care of the weak, and that every man will find the guidance he needs in the laws written on Mount Sinai. I think He was with Jefferson when he penned the Declaration of Independence, and later when he wrote the Bill of Rights. I am certain He is always present when good is accomplished.

Good men are sometimes wrong, and oftentimes on the wrong side, and there can be no sound explanation for that here, anymore than we can explain why the Lord did not cure all of the lepers or relieve all of those who were afflicted with palsy. But history does record that He did cure those who had the faith and went to Him. It does not record that He ever turned His back upon a solitary soul in the 33 years He lived as a man upon this earth, or since that time.

Your school years have constantly reminded you of the intellectual qualities of the men of history from Plato's period to the day when the veil was lifted to give the world the land in which we live. Jefferson and Washington and Henry are now pictured as intellectual stalwarts, the like of which we may not see again. It may be so.

I have felt the quietude of Monticello—it is quiet and peaceful there even now—they have kept it so, and I have been at Mount Vernon, and where Patrick Henry lived. I want to take nothing from them, and no man can, but they received their greatness from God, and their memory is great because they tried to spread the gifts of their greatness among their fellow men.

Responsibility does not go around and around. It increases with every passing day, and it cannot be handled without God's help. You go out of here today equipped, by way of education, to work out your economic and eternal salvation. You will find your religion assaulted sometimes and your opinion more often. You will find yourself trying to keep pace with Jones. You will not know that vanity is with you, but it will be. God offers you His counsel and His friendship and even His companionship.

I caution against those men who will ridicule your opinion on matters political. That is one of the oldest and heretofore most effective of the political weapons, and too often has denied a relief for distressed people for too long a period of time.

You will find men with a superabundance of self-confidence laughing off the suggestion that government owes a protection to the less fortunate of its citizens, seemingly unmindful of the ultimate consequences of neglect. "The survival of the fittest" works more ways than one—the good way and the bad way. If those blessed with a greater share of the earthly blessings of God will assume a responsibility that belongs to them, there is no occasion for fear. If they refuse it too long, Heaven help us.

I have met men who know the classics and could discuss the arts and sciences as I might the primer, but they were left staggering blindly in the wilderness when the plague of hard times came upon our country. Men who seemed to have no more care for the Constitution than a fish has for a shower bath have worried about its destruction because public officials, sworn to protect the general welfare of their fellows, were voting for substantial wage payments.

The admonition to accept its teachings is not because I am of the household of the Catholic Church, but because the church has come down through the troubles of hundreds of years with the torch of eternal light.

Fight for the preservation of the Constitution, with your lives if need be, but remember that it is a meaningless thing without the Ten Commandments. Be very much alarmed with the "share-the-wealth" advocate if he is talking about dollars, but give him your full support if he is talking about opportunity and happiness. Have little time for the demagogue who would give men a greater pension for retirement than they could earn if occupied at work, but never rest while there is a chance to give material comfort to men and women who come to the wintertime of their lives, threatened with the stigma of pauperism, in spite of a lifetime of economic usefulness and good citizenship.

Do not too quickly fall in line with the person who screams "Persecution" when the Government takes legal steps toward regulation of the affairs of men. That is one of the solemn purposes of government, perfected through the years by the clearer-thinking people of every nation.

We need traffic lights partially to protect pedestrians against motorists, and traffic laws partially to protect motorists against each other. We need stock-exchange laws to protect the innocent from the unscrupulous, and labor laws to safeguard the needy from those blindly afflicted with greed, and to protect honest manufacturers from conscienceless competitors. We need pure food and health laws, and other regulatory measures of great number, to insure the protection of our people and make for our country's progress.

The Government must interfere with business just so long as even a small part of business trespasses upon the rights of man. So long as some men are spiritually sluggish, there must be the stimulant of man-made laws. Moral bankruptcy can only end in economic chaos.

As you hear men talk of stabilization, try to think of it a little in the light of spiritual stabilization.

Here at St. John's you have been taken to the top of one of the mountains. You have had more than a brief look into the dwelling place of light and understanding. You have been prepared for the battle of life with an armor denied many of your kinsfolk, and you are expected to keep it bright.

It is not my pleasure to know whence you came, but I assume that most of you have been brought up in this neighborhood—the so-called conservative Northeast. You have an understanding of your neighbors and their needs. But be mindful that this is a great and far-flung Nation. As a part of it you cannot turn your back on the man who lives in the shadow of the Rockies or the farm folk of a dimly lighted humble home on the plains. A part of the Nation's problem—and your problem—is a full measure of justice for the underprivileged sharecropper of the Gulf States, as you will expect it for the slum dwellers of New York and Brooklyn.

It is not the fault of these people that they are denied the opportunity you have had, and the blessings I hope you will enjoy. I see it as the will of God—one of the mysteries of life—perhaps so ordained to give other men a chance to work out their salvation. Wealth, health, and vision are God's gifts. Remember that well. For your own sake, for the sake of your neighbor, and for the sake of your country, keep the faith.

ILLINOIS DAY ADDRESS

Mr. PARSONS. Mr. Speaker, I ask unanimous consent that the gentleman from Illinois [Mr. MASON] may extend his remarks and include an address delivered by him at Valley Forge last Sunday, June 14.

The SPEAKER. Without objection it is so ordered.

There was no objection.

Mr. MASON. Mr. Speaker, under leave to extend my remarks in the RECORD, I include the following address I made at the Thirteenth Annual Illinois State Sunday at Valley Forge, under the auspices of the Illinois State Society, held in the Washington Memorial Chapel, Sunday, June 14, 1936:

My friends, the high and deeply appreciated privilege of meeting this appointment falls to me as the representative of His Excellency the Honorable Henry Horner, Governor of Illinois.

It is a particularly agreeable assignment for me to bring to you the greetings of this illustrious son and first official of the Prairie State. Governor Horner is a truly great chief executive; a jurist of brilliant attainments and conspicuous achievement, whose high eminence in the sphere of humanitarianism is nationally familiar.

Disappointment is yours this afternoon because of the Governor's inability to be present. He is a rarely gifted speaker, whose marked personal magnetism and charm of manner fascinate impressively, and I share your regret that we are denied one of his characteristically graceful and illuminating addresses today. It is my fervent hope that he may be with you on a similar future occasion.

Illinois can claim but scant, if any, association with events directly connected with the tragic story that immortalized the name of these hallowed precincts surrounding us this afternoon. It is entirely probable, however, that some of the heroic men who endured deprivation and suffering here, later found themselves pioneering in what is now our State. There the same resolute spirit, patience, and courage that buoyed them in earlier years doubtless contributed in large measure toward creating a foundation of solid granite for the great Commonwealth now in such splendid state of development and figuring so prominently and influentially in our national life.

This brief seems amply justified by revelations of research that locate in Illinois the burial places of more than 600 men who rendered military service with the Revolutionary forces. Of this number, 53 are in the congressional district which I have the

honor to represent; 31 in my home county. Several are found within a radius of only a few miles of our residence. These graves are marked with meticulous care, and it is a source of local pride to give you assurance that they are habitually given proper attention annually on Memorial Day.

On October 19, 1911—the one hundred thirtieth anniversary of the surrender of Lord Cornwallis—the Sons and Daughters of the American Revolution dedicated a bronze tablet upon which are the names of these Revolutionary heroes of their country. This tablet may be seen on an outer wall of the present Sangamon County courthouse, a former State Capitol building, in the city of Springfield.

In further substantiation of Illinois' connection with the revolution movement, it is recorded in authentic history that General Lafayette, then well advanced in life and frail of physique, paid a visit to at least two settlements in the new Illinois country, encountering there numbers of patriots who served under him in earlier life.

The narrative of prehistoric Illinois is held in conjecture, as it in all probability shall ever remain. Nevertheless, it is definitely established that in some period far remote in the pre-Columbian age the country was occupied by a race representing at least some degree of primitive civilization.

This is revealed by means of extensive excavation operations in huge and obviously artificial mounds at various locations throughout the State. Such procedure has yielded not only collective burials indicating tribal and family organization, but copper utensils, grotesquely carved pipes, and endless other items.

One excavation with which I am especially familiar discloses a spacious temple with several apartments, including one with surroundings that designate it as the burial place of an exalted personage. A complete altar chamber adjacent provides conviction of religious worship in that age.

The extinction of these inhabitants antedates Indian tradition and oblivion will doubtless forever retain its secret. Scientists who have studied the subject through years, variously estimate the period of this occupancy at from a few hundred to several thousand years ago.

In retrospect, development of the Territory and statehood of Illinois affords subject for a narrative in which there are noted five principal events that have proven influential factors in determining the Nation's history. Had the consequence of these been different, so should have been our national story. Of such transcendent importance are these events that the years in which they are chronicled may be considered decisive dates. These are the years 1759, 1778, 1818, 1824, and 1856. They are included within the hundred years between the middle of the eighteenth and nineteenth centuries. Permit me to point out as briefly as possible their significance in connection with our national story.

In 1759 the Indians of the Illinois country agreed to a compact that had existed for many years between the Iroquois Tribes and the English. This pact had been inherited by the English from the Dutch. In their enduring and poetic language the Indians called this the "silver covenant chain" which bound them to the interest of their white brothers. It was consummated on the banks of a small stream which flows into the Hudson River a short distance south of Albany, N. Y. Here was forged the chain that was destined to determine the fate of nations and supremacy of the Anglo-Saxon in the New World.

To appreciate the farflung significance of this treaty it is necessary to direct brief thought to conditions prevailing in Europe and this country in the early part of the seventeenth century. Four major European powers were engaged in intensive colonization of America more than a half century before the Illinois country was known. England was securing a foothold on the Atlantic coast. New France was established in Quebec, Montreal, and other locations along the St. Lawrence River, reaching into the wilderness of Canada's broad expanse and along the northern shores of the Great Lakes. Holland was planning New Netherlands along the Hudson, while Spain had established flourishing strongholds in South America, Mexico, New Mexico, and continuing toward the Pacific coast. These nations, claiming the land by right of discovery, gave to individuals and groups grants that overlapped and conflicted in a manner that brought about perplexing complications.

The American Indians, real owners of the soil, were divested of their possessions by varying and devious methods. The English generally compelled relinquishment of the Indian claims by force. The French brought it about by sharing their life with the natives and agreeing to an equal division. The Dutch gained their end by purchase, giving equivalent value, while the Spanish resorted to force or trade as their whim dictated.

Two great families of the Indian race, the Algonquins and Iroquois, were located east of the Mississippi River. The latter, on home domain in central New York, frequently invaded the lands of other tribes with the purpose of making war upon their neighbors. The usual result of such raids was subjugation of the attacked tribe, with heavy tribute levied by the Iroquois conquerors.

The Indians found in the Illinois country by Joliet and Marquette were all tribes of the Algonquins. Their principal confederacy was that of the Illini, including five tribes, the Peorias, Kaskaskias, Cahokias, Tamorias, and the Michiganians. The names of these tribes have been given to streams and cities in the State, hence their habitat is easily determined, while the name of the confederacy is that of the State and its principal river.

The Illini were not a warlike people, promptly becoming firm friends of the French explorers and missionaries. As the Iroquois made war upon them they steadily retired farther and farther southward until their only remaining territory was a small section of country on the Illinois side of the Mississippi River, near East St. Louis. These particular tribes were never guilty of disloyalty to the French, but other tribes of the Algonquins were more easily influenced toward hostility.

Sir William Johnson was made Commissioner of Indian Affairs in America by Great Britain in 1750. This selection proved a fortunate decision, since the appointee quickly gained the confidence of the Indians, over whom he exerted pronounced influence, managing them with consummate skill. Upon his urgency the Iroquois extended their treaty to the western tribes. Likewise it was through his efforts that in the spring of 1759, during the 7 years of war between France and England, there was called a convocation in which 10 or more nations participated. At that time the Indians as far west as Illinois agreed to become bounden by the "silver covenant chain", and to transfer their allegiance from the French to the English. Following shortly thereafter came a decisive battle before Fort Niagara. The French, with a force of 1,600 men, 1,000 of whom were Indians under leadership of Aubey, commander of Fort Chartres in the Illinois country, were opposed by the English under Sir William Johnson, who met them on their advancement between Niagara Falls and the fort. As the French approached, they were noted marching in narrow column, in close order, out of formation, but in readiness for combat.

Selected Indians of the English Army advanced to speak with those of the French force. Following this conference the Indians of the French column declined their support, under pretext that they were at peace with the Iroquois; thus were the French abandoned by their chief element of strength. Utter defeat and massacre ensued, practically all French officers being either killed, wounded, or taken prisoners. Due to this treachery of their savage allies the French were compelled to concede victory to their British opponents. Had the western Indians remained loyal, turning a deaf ear to Sir William Johnson, the war, in all probability, would have concluded with different result. The passing of New France from America would have at least been delayed, if not averted.

France, being badly worsted in this war, was required to pay dearly for her defeat. All of her possessions east of the Mississippi River, including Canada, were ceded to the British. Laboring under stinging vexation, she consummated a secret treaty whereby her entire possessions west of the Mississippi River, including New Orleans, were given to Spain.

The French colonies in Illinois were the last to be transferred to Great Britain. This was due to fear of Pontiac, chief of the Ottawa Indians. This dominant and far-seeing leader disliked the English, who, he perceived, desired to establish permanent settlements in this country, rather than pursue the fur trade, as had the French. English settlements meant the usurpation of the land and the deprivation of his race. For 2 years this prophetic leader held the King's soldiers at distance, but after successive defeats he retreated, he and his people taking up abode in the villages of Illinois.

Fort Chartres, principal French possession, surrendered to the British. Civil government was administered by governors appointed by the English Crown until the memorable year of 1778 changed the history of this section and likewise the story of the Nation.

Echoes of the Revolutionary War had reached the ears of settlers in the Territories of Tennessee and Kentucky. George Rogers Clark, a Virginian, was one of those early pioneers who had retraced the intervening trails many times. He knew that all of the vast expanse of the Northwest country, from the Ohio River to the Great Lakes and extending to the Mississippi River, was held by only a small number of British troops, stationed at Detroit, in addition to small forces, chiefly French militia, stationed at Kaskaskia and Vincennes.

Patrick Henry was at that time governor of Virginia, and to him the intrepid young Clark went to propose a plan to capture the Illinois country from the British. Governor Henry was found in accord with him as to desirability of such an enterprise, but his State was too poor to provide supplies and, moreover, his men were greatly needed for Washington's Army. After weeks of persuasion, Clark finally secured from the Governor an order for 500 pounds of powder with permission to recruit a company of men from territory west of the Blue Ridge Mountains. Although confronted by a discouraging outlook, Clark was not readily disheartened, but finally found himself at Fort Washington, present site of Cincinnati, with a small and untrained body of recruits.

Continuing down the Ohio River, he came to deserted Fort Massac, about 3 miles below the present city of Metropolis, Ill. Having less than 200 men, the success of his undertaking depended upon his questionable success in surprising the garrison at Fort Kaskaskia, which, with the surrounding settlement, numbered about 2,000 souls.

Leaving his flatboats on the Ohio, he began his tortuous journey through wilderness and over prairies with an objective 90 miles distant. Reaching the Kaskaskia River, a short distance above the point of his chief aim, about 4 o'clock in the afternoon of July 4, 1778, Clark concealed his forces in the underbrush until dark. Then, acquiring some canoes his men ferried across the stream. Thereupon he divided his command into three groups; two were ordered to enter the town from opposite directions while the third was given instruction concerning and charged with capture of the garrison.

The two were strictly charged to remain concealed until their commander announced that the fort had been captured. The commandant of the garrison was found abed. When he awoke,

the redoubtable Clark was at his side, and he was prisoner in the hands of the Americans.

The other two detachments then entered the town shouting warning to inhabitants to remain in their homes under threat of being shot. Reputation of Kentucky frontiersmen, familiarly known as "Long Knives", was such that the admonition was strictly obeyed.

Next morning when church bells were sounded the villagers assembled with alacrity and with their faithful priest took the oath of allegiance to the Government of Virginia. The vanquished commander of the fort, defiant and insulant, was put in chains and sent as a prisoner to Virginia. His slaves were confiscated and sold for $2,500, the money being divided among Clark's men.

Clark next dispatched a detachment, including a number of French recruits, to Cahokia and thence to Fort Vincennes, both posts surrendering without opposition, their inhabitants without reluctance taking the required oath of allegiance. Thus the settlement which the French had spent so much money and sacrificed so heavily to establish, and which the British had won by treaty, passed without the firing of a shot or slightest loss into the hands of the Virginians, never to again be held by a foreign government.

But, contrary to high hopes of the people, the war had not ended. General Hamilton at Detroit eventually learned of Clark's amazing successes and promptly dispatched a force of Indians to retake Vincennes, his plans including recovery of the other forts in the following spring. Captain Helm, whom Clark had placed in command of the conquered post, was deserted at the approach of the British by his entire command, with exception of one man, whose name history fails to mention. By a clever ruse, however, he capitulated with honors of war.

Clark, at Kaskaskia, did not learn of the surrender of Vincennes until the following January. Having permitted about half of his men to return to their homes, he was placed in a perilous position. Realizing the superior force to be sent against him, he dared lose no time in hesitation if his territory was to be retained. With young Frenchmen he promptly recruited his ranks to rather formidable strength. In addition, Colonel Vigo, a Spanish merchant, returning to St. Louis from a trading trip northward, consented to lend him $20,000. With the sum thus acquired he met the expenses of his expedition, and on February 7, with a command of 140 men, embarked on his adventurous advance. These men were without tents. Streams were swollen by early spring freshets. Much of the distance they were required to wade in water waist deep. Not infrequently, in crossing streams, they were submerged to their shoulders, carrying guns and powder containers above their heads. Their destination was reached on the 22d day of February. The French inhabitants welcomed them, providing readily food and ammunition. Attack was promptly opened. General Hamilton held out for 3 days, when the fort was formally turned over to Clark and his victorious followers.

Fifty thousand dollars' worth of stores were captured, together with a boatload of supplies from Detroit worth some $40,000. This substance was divided among members of the little band who by this time had become almost destitute of clothing after their fearful march through the swamps of the Wabash River bottom lands. Few, if any, advances in our history are more calculated to stir our patriotic blood than details of this final move in the conquest of the Mississippi Valley.

The importance of the campaign just referred to cannot be overestimated. Had the country between the Ohio and Mississippi Rivers been in possession of the British when the treaty at the close of the Revolutionary War was concluded it undoubtedly would have remained theirs, as did Canada. The fact that the Americans had conquered was sufficient to swing the scales in favor of permanent possession. At once the title of Virginia to the Illinois country was revived, with ensuing organization as a county of Virginia. John Todd, one of Clark's colonels, was appointed Governor, with the capital at Kaskaskia.

It is a noteworthy coincidence that today there is being dedicated at Vincennes, Ind., almost upon the exact location of the ancient fort, an elaborate memorial to perpetuate the name of the intrepid Commander Clark. President Franklin D. Roosevelt delivered the dedicatory address there at an earlier hour this date.

The next epoch in Illinois history was punctuated by its admission as a State in the Union in 1818. The Territorial Representative in Congress at that time was Nathaniel Pope, under whose prophetic vision, incomparable wisdom, and statesmanlike management statehood became an accomplished status.

This far-seeing man succeeded in having incorporated in the articles of admission a clause providing that the northern boundary be moved north from a line extending directly west from the southernmost shore of Lake Michigan to parallel 42°30′ north. This fortunate shifting of boundaries gave to Illinois 60 miles of Lake shore line, securing to it the port of Chicago with its harbor instead of permitting these to be incorporated within Wisconsin.

Fourteen counties were later created in the territory thus gained. These, with the city of Chicago, have since dominated State policies, even to the extent of deciding national problems. By their combined vote in the middle of the nineteenth century they retained Illinois to the Union and made Abraham Lincoln President.

In 1824 there arose the question whether Illinois should remain a free State, as she had been admitted under her original constitution, or become a slave State was decided for all time. Settlers in southern Illinois had come mostly from the slave-holding States of Virginia, Kentucky, Tennessee, and the Carolinas. Some brought with them their slaves, likewise their uncompromising belief in the custom of slave holding. A considerable number were neither slave-owning aristocrats nor poor white trash, but comprised in the main that middle group of farmers, so frequently forgotten but whom nevertheless have won their point in the matter of political recognition.

The northern section of the new State was settled in the main by pioneers from Pennsylvania and New England, who were industrially minded. Coming from a section where slavery was not tolerated or even known, their sentiment was uncompromisingly in opposition to the institution. Consequently, there developed constant and sharp agitation over this question between citizens of the northern and southern divisions of the new State. There was in the offing a bitter struggle to determine whether the Constitution should be changed in order to permit slavery.

In 1822 the contest for Governor hinged upon that issue. Edward Coles, antislavery candidate, was elected, while the legislature chosen was overwhelmingly proslavery. Governor Coles immediately forced the issue by recommending to the legislature immediate emancipation of slaves. The opposition, in anger, determined to have a constitutional amendment legalizing slavery.

In 1824 the issue was whether the people would agree by ballot to such an amendment. This brought about perhaps the most bitter political battle ever waged within the confines of the State, with men, women, and even children taking active part in the discussion and agitation. Every possible voter was sought and practically compelled to go to the polls.

This election resulted in a decided victory for the antislavery group; and never again was there made an effort to legalize slavery in Illinois.

But directly across the Ohio River lay Kentucky, a slave State; and immediately on the opposite side of the Mississippi River was Missouri, another slave-holding jurisdiction, both within fairly easy swimming distances of free territory in Illinois. Thousands of slaves escaping across these rivers found in the new State a haven, champions, and aid. White settlers finally succeeded in organizing a system of strictly secret societies, providing essential pass words and means of transportation, thus assisting the fugitives on their wearisome itinerary to the Canadian border, where complete fredom awaited them.

Many and bitter were controversies over fugitive slaves. Men who spoke or wrote in opposition to slavery placed in peril their lives and property. Countless graves were opened to close over advocates of slavery long before the lines of blue and grey faced each other upon the field of destructive conflict.

In 1858 the Lincoln and Douglas debates marked an epoch in the history of the Nation. The Missouri compromise bill was enacted largely through the instrumentality of Illinois Congressmen, with the help of Senator Stephen A. Douglas. At the time it seemed acceptable to the people of the State, but soon thereafter when the Kansas-Nebraska bill was pushed through Congress, sponsored chiefly by Senator Douglas, a veritable storm of protest arose.

This controversy eventually divided the Democratic Party, which had until that time dominated Illinois. Conventions held in Decatur and Bloomington brought about birth of the Republican Party with Abraham Lincoln as its leader.

These disputations were closely followed by the people. In every household from Maine to California, from Minnesota to Louisiana, every tongue expressed the names of the Prairie State's "Little Giant" and its "Honest Old Rail Splitter." These debates of far-flung interest terminated in a drawn decision. Lincoln was defeated for the Senate, only to be brought forward 2 years later as a candidate for a higher office—that of the Presidency. In the ensuing election he carried every free State, with one exception.

Although rivals in preceding clashes, Douglas and Lincoln joined hands for the Union when its stability was threatened. The former now sleeps beneath a towering shaft overlooking Lake Michigan at Thirty-sixth Street, Chicago. The other, Lincoln, the immortal, rests almost within the shadow of the home of his young manhood in the capital city of his native State, Springfield, Ill.

In the War between the States, 259,000 of the heroic sons of Illinois rushed, swarmed to the colors, closing the complement of 156 regiments; a record of patriotism surpassed only by the States of New York and Ohio. Then we add the names of Grant, Logan, Palmer, and McClernand to the register of immortals whose achievements have contributed to the fame of Illinois. These men, with their followers, heard the call of the President from their own State and obediently followed the leadership of their silent man of destiny.

In the more recent World War, Illinois sent to foreign battlefields and homeland preparation camps 273,500 men, together with 1,580 nurses trained for their strenuous and merciful duties.

But after all, the greatness and glory of Illinois are represented not alone in vast expanse of fertile farm land; not in its wealth of mines and minerals; not in its banks and invested capital; nor in its thousands of miles of railways with terminal facilities for great trunk lines radiating to every section of our vast country; not in its huge stores of grain, nor in its accumulated millions of manufacturing capital. Not in its broad rivers or harnessed natural power, but in its loyal, patriotic citizenship, ready now as in the past to do, to dare, to struggle, and to sacrifice, that burdens may be lifted from weary shoulders of men, women, and children; that all may have greater contentment and share in greater measure the more abundant life.

To this end, we venerate Illinois Day at Valley Forge, on June 14, 1936, and proclaim the hopeful future of a proud Commonwealth.

PRESIDENT ROOSEVELT A FRIEND OF THE WAR VETERANS AND THEIR DEPENDENTS—HOOVER MASSACRE OR ROOSEVELT HOSPITALITY

Mr. PATMAN. Mr. Speaker, I ask unanimous consent to extend my own remarks in the RECORD and to insert in connection therewith and in explanation thereof certain statements and excerpts, including one or two telegrams.

The SPEAKER. Without objection it is so ordered.

There was no objection.

Mr. PATMAN. Mr. Speaker, in June 1932 the Honorable Franklin D. Roosevelt was nominated for the Presidency by the Democratic Party and the Honorable Herbert Hoover was nominated for the Presidency by the Republican Party. Shortly thereafter each candidate committed himself and the party to a reduction of $450,000,000 annually in expenditures for relief of veterans of all wars and their dependents.

"LAME DUCK" SESSION, 1932

In 1932 Congress met on the first Monday in December. That was before the "lame duck" amendment to the Constitution was adopted. President Hoover, who had been defeated the preceding month, and Members of Congress who were reelected and those who were defeated remained in office until March 4 following. At this "lame duck" session of Congress the Democrats had control in both the House and the Senate. A bill was passed making appropriations for veterans which did not make the reductions asked by the National Economy League, and which both Mr. Roosevelt and Mr. Hoover had agreed to endorse. When the bill was presented to President Hoover he vetoed it and submitted in his veto message certain recommendations in regard to appropriations for veterans of all wars. These recommendations were very much in accord with the National Economy League recommendations. The veto came shortly before President Hoover's term of office expired in 1933, March 4, and it paved the way for the passage of the so-called Economy Act in March 1933, which reduced expenditures for the benefit of all veterans by more than $450,000,000 a year.

PRESIDENT ROOSEVELT MADE MANY CHANGES FOR VETERANS

President Roosevelt took the oath of office on March 4, 1933. The so-called Economy Act was passed shortly thereafter, having his approval and also the approval of more than 60 percent of both Democrats and Republicans in both the House and the Senate. It was in accordance with the views of President Hoover. President Roosevelt, however, stated at various times that if the reduction went too far he would gladly issue regulations restoring all deserving, worthy, and meritorious cases to the pension and compensation rolls when he was convinced that they should be restored. In compliance with this policy of tempering the law with mercy, by issuing Presidential proclamations President Roosevelt, on June 6, 1933, before the law became effective, approved a law restoring to such veterans and their dependents $96,000,000 of additional benefits. He continued to issue regulations and approve laws placing back on the compensation and pension rolls and restoring benefits to veterans and their dependents until practically all the benefits that had been taken away from the deserving and meritorious cases had been restored.

A GROUP OF VETERANS BITTER AGAINST PRESIDENT

There is a large number of one group of veterans who are very bitter toward President Roosevelt; they are the retired emergency officers. During a Republican administration a law was passed giving these officers special consideration over enlisted men in a way that the Government actually paid them an enormous amount in the form of compensation based not altogether upon service or disability but upon the rank they held while in the service during the World War. For instance, two brothers were in the service at the same time and injured in the same way and have the same disability, one an enlisted man and the other a major; this law gives the major $200 a month for life, because he was a major, but gives the enlisted man who was injured the same way, suffering from the same disability, only $40 a month. A law which grants compensation for war service based upon rank is not fair; President Roosevelt had it amended. Many of the severest critics of the President among the veterans are doctors and other professional men who were receiving these huge compensation awards. They have no right, except a greedy, selfish right to complain. They were not entitled to receive more than enlisted men under the same conditions. Their usual approach is a statement that they have a service-connected disability and Mr. Roosevelt had them cut off. They usually fail to give all the facts, which are that they have not been cut off at all but that they have had their compensation reduced to the extent that they now only receive the same amount that an enlisted man receives under the same conditions. Many of these officers received $3,000 annually from the Government and earned more than $10,000 a year in private practice.

I will admit that many of these officers have such splendid records I should be glad to see them receive the amounts they received under the retirement law, but at the same time I would want every enlisted man who was just as deserving to receive the same amount.

ONLY OPPOSITION TO SPANISH-AMERICAN WAR VETERANS FROM REPUBLICANS

In 1935 all benefits were restored to Spanish-American War veterans by the President's attaching to a bill which had passed both Houses of Congress his signature. This bill, which restored all former benefits to Spanish-American War veterans, was unanimously supported by Democratic Members of Congress and the Democratic President, Mr. Roosevelt, and the only oposition to such law came from the Republican Party.

PRESIDENT ROOSEVELT SYMPATHETIC AND GENEROUS TOWARD VETERANS

No President has been more sympathetic, kind, and considerate toward veterans and their dependents than has President Franklin D. Roosevelt. After passage of the Economy Act in March 1933 a committee of seven was appointed by the Democratic caucus of House Members to confer with President Roosevelt in an effort to get regulations issued that would restore to pension rolls cases considered by many as deserving and meritorious. This committee spent several days, and many times worked until late at night to acquaint the President and his advisers with what were considered hardships and abuses caused by the enactment of the so-called Economy Act. The President gave freely of his time and strength in an effort to make sure that every veteran was given a fair and square deal in every way. As a result of the information furnished the President and his natural sympathetic attitude toward war veterans, hundreds of thousands of veterans and their dependents were restored to the rolls before the law became effective. At no time has the President taken an arbitrary stand against or indicated the least feeling of any kind against veterans of any war or their loved ones. On the contrary, he has been exceedingly sympathetic and generous.

SPANISH-AMERICAN SERVICE-CONNECTED CASES HELPED

The so-called Economy Act substantially helped the service-connected cases of the Spanish-American War veterans. After the benefits were restored to all Spanish-American War veterans, these substantial gains for the service-connected cases have been and will be carried forward in the form of increased monthly checks from the Government.

ADJUSTED-SERVICE CERTIFICATES

Although President Roosevelt opposed paying the adjusted-service certificates, his views were not unlike the views of President Hoover, President Coolidge, and President Harding. The fact is that Democratic Members of the House and Senate are entitled to greater credit than members of the Republican Party for the passage of this law. Democratic Members of the House carried on the fight for years in favor of the payment of these certificates during Republican administrations. When the Democratic Party came into power under President Roosevelt these efforts were continued and resulted in the passage of law in January of this year providing for payment of the certificates. While Democratic Members of Congress are not entitled to all the credit, they did render the greatest amount of service to the cause. These Democratic Members of Congress are entitled to the

greatest amount of credit for the war veterans' receiving their money this year—1936—instead of permitting compound interest to consume the remaining half of the certificates between now and 1945.

The Republicans, while in power during the Harding administration, opposed the original so-called "bonus" bill, and when it finally was passed, Harding vetoed it. President Coolidge likewise vetoed the bill, and it was passed over his veto. President Hoover vetoed the 50-percent loan in 1931, and it had to be passed over his veto. In the House every Democrat voted to override; in the Senate every Democrat except one voted to override. The large number in each House voting against the veterans were all Republicans. These acts of opposition to the World War veterans all came during the times of the country's greatest prosperity.

President Roosevelt was called upon to pay the remainder of the certificates when the Nation was in the midst of its greatest economic crisis.

Since the payment was authorized last January reports have been circulated generally throughout the country that the Democratic administration intended to play politics with the payment—to hold up payment until shortly before the election in order to show a tremendous business gain as the result of this wide circulation of some $2,000,000,000.

In face of these accusations the gigantic task of preparing the bonds and checks was rushed day and night, many of the jobless given work, and the bonds and checks delivered just as expeditiously as it was possible for them to be delivered. There were no unnecessary delays. The President ordered that everything be done that could be done to accommodate the veterans in connection with these payments. The President even went so far as to write a letter to every bank in the United States urging their cooperation in which he states "It is essential that our banks throughout the country extend all possible assistance by cashing these checks at par." It was rumored that the checks would have to be discounted and that a fee would be deducted for cashing the checks, so the President made it plain that he wanted the veterans to get their money 100 cents on the dollar.

The fact is this debt has been paid during a Democratic administration. The law was passed because the country demanded it, and Democratic Members of Congress rendered the greatest and most outstanding service in connection with the campaign to sell the cause to the people of the entire country.

DEMOCRATS' ATTITUDE TOWARD VETERANS

Democratic Members of both the House and the Senate have dealt generously with veterans of all wars and their dependents, and this is expected to be their attitude in the future. Hospitalization has been easier to obtain the last 3 years than ever before. It is true that a few veterans believe they are entitled to benefits that they are not receiving. Their cases, however, have been adjudicated in a fair and impartial way, and, while these veterans are disappointed in the results, they are in a similar position to other citizens who believe that they have the best side of a controversy in a court of law or equity but who receive adverse verdicts. President Roosevelt has at all times manifested the feeling and advocated the policy in the case of veterans' affairs and distribution of Federal relief that a mistake should not be made if possible to prevent it, but if a mistake is to be made, make it on the side of mercy.

HOOVER MASSACRE OR ROOSEVELT HOSPITALITY

In 1932 hundreds of veterans of the World War assembled in Washington. They wanted their adjusted-service certificates paid. Although the methods of these veterans were not conducive of the best results, these men were good, law-abiding citizens and had just as much right to visit Washington as any other group. They behaved themselves well; their conduct was at all times while assembled here exceedingly good and commendable. Some of them were using an old Government building on Pennsylvania Avenue for living quarters. All at once President Hoover decided this building must be torn down; that the land occupied by it must be used immediately as a place to construct a new Government building that was badly needed and to be quickly constructed. Incidentally the ground in question was not needed and has never been used for that purpose. It was 1935 before the debris was removed. The Army was called out to drive these veterans from this building, which was occupied as their home and the only home they had. One of these men, who a few years before had bared his breast to enemies' bullets and offered to give his last drop of blood for his country in time of war, was shot down like a dog. Others were injured and killed. Gas was turned on these poor, helpless, defenseless men; machine guns were aimed at them; bayonets, bullets, and war tanks were used; they were run over by horses ridden by soldiers of the Regular Army. President Hoover never made an appeal to these men or their leaders. After this cold, cruel, barbarous conduct, President Hoover's wrecking crew continued in pursuit of all veterans of the World War assembled in or near Washington. A quiet, peaceful little city near Anacostia River, which was laid out by the veterans and built with their own labor, their own hands, where many of them lived with their wives and children in the only shelter they had in the world, was visited by this bloodthirsty, cruel gang under the direction of President Hoover. Their homes were burned, and these poor, unfortunate people, including many small children and women, were forced to accept the damp ground as their only bed and resting place and the heavens above as their only shelter. These homeless, hungry, weary veterans were evicted and the gateways to the Nation's Capital were ordered slammed against them. On the grassy embankments of the highways near Washington the next morning many of these good mothers, their patriotic husbands, and their helpless, defenseless, ragged, hungry children were writhing in pain and suffering humiliation and distress. President Hoover offered them not a bite to eat; not even a glass of water; not a comfort, convenience, nor necessity was placed at their disposal. The men who had offered their lives in time of war to defend this great country of ours, including its wealth and its Capital City, were treated as though they were brutes. If dogs had been treated so cruelly, humane societies would have demanded an apology from President Hoover. The Republican Party condoned this outrageous conduct and defended President Hoover. The use of the Army against the unemployed was thereby encouraged.

In 1933 hundreds of World War veterans came to Washington for the same purpose and under the same conditions. They were not treated cruelly. Our country had a new President—President Franklin D. Roosevelt. He is a humane person. Although he did not agree with these men, he ordered them treated kindly and sympathetically. They were properly fed, furnished a good place to stay while here, a hall with loud-speaking equipment in which to meet, transportation facilities, and other conveniences.

The best estimate of the number of veterans encamped in Washington during 1932, while Mr. Hoover was President, representing the so-called "bonus" army, was around 9,000. Since March 4, 1933, while Mr. Roosevelt was President, more than 18,500 veterans that the Veterans' Administration has a check on, not counting the unchecked ones, have visited Washington.

President Roosevelt, in order to properly and sympathetically deal with the veterans, changed the regulations of the Civilian Conservation Corps so as to permit them to be enrolled; he created Federal Emergency Relief projects for the sole and only purpose of taking care of them; others were housed, fed, and clothed.

From these large groups of veterans, representing twice the number that visited Washington during Mr. Hoover's time, not one have I ever known to say or even intimate that President Roosevelt did not in every possible way deal with him in a sympathetic, gentle, and generous manner.

President Hoover manifested a feeling against veterans and their dependents, even to the extent of using the Army to drive poor, helpless, defenseless, unemployed veterans from the Nation's Capital and barring all entrances against

them. This feeling and action on Mr. Hoover's part has received the endorsement of the Republican Party.

President Roosevelt has manifested a kindly, sympathetic, generous feeling toward veterans and their dependents, even to the extent of changing laws, rules, and regulations in their behalf and properly taking care of them and dealing with them when they visited Washington under conditions similar to those at the time they visited Washington in 1932 under Mr. Hoover. This feeling and action on Mr. Roosevelt's part has the approval of the Democratic Party.

It is by reason of these undisputed facts that the veterans of this Nation realize that in President Franklin D. Roosevelt they have a real friend in the White House.

PERMISSION TO ADDRESS THE HOUSE

Mr. RANDOLPH. Mr. Speaker, I ask unanimous consent to address the House for 2 minutes.

The SPEAKER. Is there objection to the request of the gentleman from West Virginia?

There was no objection.

Mr. RANDOLPH. Mr. Speaker, on day before yesterday my colleague from Ohio said to the membership here that in 1932 Mr. Roosevelt had carried Ohio by 70,000, but that in 1936 he would lose it by more than 100,000.

I trust the gentleman from Ohio is as bad a prophet as he is my good personal friend. Coming from the neighboring State of West Virginia, I want to draw a comparison.

Mr. Roosevelt carried West Virginia by approximately 74,000 in 1932, and instead of losing my State by over 100,000, as has been predicted would be his fate in the State of Ohio, President Roosevelt will increase his majority, in my honest opinion, from 74,393 in 1932 to more than 100,000 in 1936. [Applause.]

WHAT WILL THE TOWNSEND PLAN DO?

Mr. BUCK. Mr. Speaker, I ask unanimous consent to extend my own remarks in the RECORD and to include therein certain excerpts from the testimony before the Special Committee to Investigate Old-Age Pension Organizations and Plans.

The SPEAKER. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. BUCK. Mr. Speaker, somewhat over a year ago, on April 16, 1935, the Social Security Act was under consideration by the House of Representatives. Hearings upon it had previously consumed 4 weeks, and the Ways and Means Committee had been in executive session on it for 7 additional weeks. Earnest and serious consideration had been given to every suggestion that had been made. No matter how far-fetched the proposal was, the proponent had been given his day in court. One of the proposals which the committee had been asked to include was the suggestion presented by Townsend, proposing to pension the aged at the rate of $200 per month, to be spent within 30 days. It is true that Townsend did not represent his program as solely an old-age pension plan; he said that it was more than that—"it is a recovery plan." One of his then loyal followers, A. C. Pearson, of Sacramento, Calif., had publicly stated in my own home town "if the Townsend plan were a pension plan, it would be ridiculous. It is a recovery plan." Nevertheless, its proponents had appeared before the Ways and Means Committee and suggested the adoption of the first McGroarty bill (H. R. 3977) instead of title I of the Social Security Act. Title I is the part that provides for grants in aid to States for old-age-pension purposes.

So many defects in the first McGroarty bill were uncovered at the public hearings before the Ways and Means Committee that it was rewritten, and on the very day that the Ways and Means Committee voted the Social Security Act a favorable report, the revised McGroarty bill (H. R. 7154), was introduced in the House.

The gentlemen behind this bill—Representative MCGROARTY disclaimed its authorship—announced that they proposed to offer it on the floor as a substitute for title I of the Social Security Act. No public hearings had ever been held on this proposal and none had ever been asked. As a matter of fact, there would not have been time to hold them before the Social Security Act was to be debated and voted upon. Proponents of the bill refused to discuss its provisions or speak of it except by way of appeal to the emotions that all of us entertain in our desire to care for the aged. With information on the details of the bill totally lacking, and refused after public questioning on the House floor, I made an effort personally to analyze it in an honest, straightforward manner. On April 16, 1935, on the floor of the House I delivered a speech which took apart H. R. 7154 from a legislative standpoint and showed the Members of the House at least a few of its legislative and economic defects.

That speech has called down upon my head the curses of Townsend and his motley crew. According to Margett, one of the present proprietors of the Townsend system, he and Townsend have sharpened their ax for my head and that of Representative LEA at the coming election. Honest criticism of any bill proposed is the duty of a legislator. Submission to dictatorship, whether in a good or a bad cause, would be the final sign of a decaying republic.

Those who have labored with me in the House of Representatives need no assurance that I have always made my own analysis of bills offered for consideration and that my decisions upon them have been my own. Margett, who has taken over the Townsend schemes, however, has decreed that, because I took the clock apart to show why it would not run and the clockmakers had no way to put it back so that it would run, I must be called to account.

Very well; let us see how eager those proponents were to have others learn the details of their plan through their often-quoted statement, "full and public hearings and debate." Let us see what happened legislatively. On the day after my speech, April 17, 1935, the gentleman from Oregon [Mr. MOTT] introduced another revision of the McGroarty bill. It bears no House serial number for it was not introduced as a bill, but printed as a proposed amendment or substitute for title I of the Social Security Act on page 5888 of the CONGRESSIONAL RECORD of April 17, 1935. This proposal contains some 15 changes from H. R. 7154. All of them were made in an effort to meet the valid criticisms which I had made of that bill. Representative MOTT admitted that. Although the amendment was not germane, no point of order was raised against it by the Ways and Means Committee. Debate was freely allowed and thereafter the amendment was rejected.

In the year and 3 months ensuing did the proponents of the Townsend plan ever introduce this amendment as a bill in the House? They did not. Did they ask the Ways and Means Committee for a hearing on H. R. 7154 itself? They did not. Did they ever make an answer on the floor of the House in the second session of the Seventy-fourth Congress to the careful analysis and criticism of H. R. 7154 that was made by Congressmen such as CLARENCE F. LEA, of California; ALBERT J. ENGEL, of Michigan; and CHARLES L. GIFFORD, of Massachusetts? They did not. Did they, through the Townsend Weekly, ever publish the fact that they had abandoned as imperfect H. R. 7154 when the test came? They did not. Did they ever acknowledge that H. R. 7154 had been debated fully on the floor of the House? They did not.

What did they do? Outside of Congress noisy protestations of devotion to the cause of a $200-per-month pension were made. This bait was still held out to members of clubs continuing to be organized throughout the Nation, though the sum had been abandoned in proposed legislation. Speakers went from place to place raking in new members and new dollars, but where the effort would have counted, in the Halls of Congress, never a voice was raised on behalf of such a pension proposition.

I do not know why it was so. My colleague from California, Representative MCGROARTY, has suggested in a recent speech that the proponents of this measure were less interested in securing its enactment than they were in securing funds for themselves. That is as it may be.

What I do know is that the aged and the poor who have been deluded into becoming members of these clubs have been told that the Ways and Means Committee refused to permit

a vote upon the McGroarty bill or upon the Townsend plan, while the facts are that no request has ever been made of the Ways and Means Committee to hold a hearing upon H. R. 7154 either in its original or revised form. I cannot emphasize this too strongly. I am a member of the Ways and Means Committee. No request has ever been made of us. Remember, full hearings had been given on the original McGroarty bill and that bill was debated freely on the floor of the House. But almost every issue of the Townsend Weekly has given a contrary impression.

Misrepresentations such as these must be answered. It is for this purpose that I am taking the time and space necessary to let the sincere Townsend club member know how he has been duped and deluded by leaders who were professing to present his cause to Congress.

Today it is impossible to say what is the Townsend plan The next Congress may have before it some proposal along the lines of the McGroarty bill. That bill does not guarantee a $200-per-month pension to anyone, but only proposes to share proportionately among the annuitants the amount that may be raised by a 2-percent tax on all transactions and by certain additional minor taxes. The best authenticated figures place this at around $33.75 per month. Then we have a recent proposal by one of Townsend's latest confidants, a continual office seeker on changing monetary and economic platforms, that there be a $200-per-month pension financed by a $10,000,000,000 tax-exempt bond issue. Of this latter proposal I think it hardly necessary to say much. The temper of the American people is such that it will not stand for that kind of a bond issue, even if the bonds could be sold. I am satisfied that few citizens imagine they could be sold. If they cannot, resort must be had to printing paper money—pure inflation—which would have the most dire effect upon every workman in the United States.

But inflation is what all our monetary meddlers want. If they cannot use the farmers or the veterans as their excuse, why not the aged? "This is not a pension plan", we are assured. Certainly not, for the Social Security Act has attended to the pension part. The pension picture is just a great big false face for erratic economics.

But I do think it proper to say a few words about the 2-percent transaction tax proposals. I note that according to press reports the eminent counsel for the Townsend-Margett movement admits that a 2-percent tax will not finance the $200-a-month proposal; that the tax must be much larger. If higher rates are selected, of course, what I have to say has just so much more force.

A tax of 2 percent does not seem like a large amount. Many States now have retail sales taxes equal, or nearly equal, to this percentage, and little effect has been noticed upon trade and commerce. Manufacturers' sales taxes on certain articles have been levied by the United States Government. This proposed tax is not a retail or manufacturers' sales tax. It differs from all others in that it is a tax upon every transaction entering into a finished manufactured product; a tax upon every transfer, barter, or exchange of either real or personal property; a tax upon interest, rent, commissions, fees, or anything derived from any rental, lease, pledge, or other use of money or property. It includes a tax upon the rendering of any service, including all personal service for monetary or other valuable consideration. It taxes transportation, telephone, telegraph, radio, advertising, education, art, amusement, and recreation.

The first effect of a 2-percent tax on a great many of the transactions which enter into the gross figures that proponents of this measure like to quote would be to result in the absolute disappearance of such transactions. It has been stated that there were in 1929 national financial transactions of the amount of $1,230,000,000,000. Of course, the equivalent 1935 figures were less than one-half of this, but, outside of that, these figures are greatly in excess of the total payments in our country for goods and services.

A great part represents loans and their renewals, which are exempt from the proposed transaction tax of H. R. 7154. A very great part represents transfers by banks for individuals and corporations, which are merely bookkeeping technicalities. A huge part represents speculation in stocks and bonds where the net profit or turnover is less than the 2-percent tax.

Today a great portion of the national indebtedness outstanding bears interest at a rate of less than 2 percent. Of course, the Government would not tax its own bonds and notes, and that amount would have to be excluded as a source of income; nor could it tax—constitutionally—the sales and transfers of bonds of States and municipal corporations. In the case of stocks and bonds of private corporations, few, if any, of these are paying more than 4 percent on par, and many less than that. The effect of this tax would be to dry up almost immediately all dealings on the stock exchanges of the country. Who could afford to buy and sell stocks that only paid their owner 3 or 4 or even 5 percent at the end of a year if in advance of that, at the time of sale, he would have to pay the Government 2-percent tax on the purchase or sale price, or both? Whatever the amount of the stock transactions is in that one trillion two hundred and thirty billion, or any other figure, it will speedily disappear.

This same principle would apply to commodities. No speculator would buy wheat at $1 unless he felt convinced that he could sell it at $1.04. The market would go down; buyers would be driven away, a collapse in both security and commodity would follow the imposition of this tax.

Some time ago a statement was put into the CONGRESSIONAL RECORD by one of the proponents of this plan purporting to show that the ultimate tax on a loaf of bread would be a relatively small figure. He had forgotten that the tax is not upon the wheat alone, or upon the ensuing processes of manufacturing flour and finally of bread, but that there is a tax upon every collateral and contributing transaction as well, upon wages involved, even on the paper used to wrap the bread, all of which enters into the final cost of the finished loaf of bread.

At this point I insert part of the testimony of Mr. Robert R. Doane, once called as an economic adviser to testify before the Ways and Means Committee in support of the Townsend plan, showing just what the effect of these transaction taxes would be on the consumer and what an army of enforcing officials would be necessary:

Mr. DITTER. Now, Doctor, your statement was it (the 2-percent tax) would produce aproximately a gross of seven billion; that is correct, is it not?

Dr. DOANE. Yes.

Mr. DITTER. Can you estimate or have you approximated in any way what the cost would be of administering the program of taxation that is contemplated here?

Dr. DOANE. I could make an estimate, but I do not have the figures with me right now.

Mr. DITTER. Could you, for the benefit of the committee, give us an estimate of what you think the cost might be?

Dr. DOANE. Not right now, I could not, no; not at this time.

Mr. DITTER. Would you be prepared in the course of the next few days to give the committee an estimate?

Dr. DOANE. Yes.

Mr. DITTER. That cost of administering would include not only the actual administrative operations, but the collection items, would it not?

Dr. DOANE. Yes.

Mr. DITTER. It would also have to take care of those who would try to avoid payment of the tax, would it not?

Dr. DOANE. Yes.

Mr. DITTER. And so the enforcement agency, the collection agencies, and the administrative agencies would all be part of the costs that would be enhanced as a result of the imposition of this tax. Is that correct?

Dr. DOANE. Yes.

Mr. DITTER. And that would amount to a very considerable sum, would it not?

Dr. DOANE. I think it would. The experts of the Internal Revenue Bureau and others, in the past two decades, having to do with the collection of income taxes, have worked out a fairly adequate ratio as to the approximate amount of evasions, legal and illegal.

Mr. LUCAS. And would not this tax, because of its very nature, be more difficult to collect than any tax which is on the statute books of America today?

Dr. DOANE. There is no question about that.

Mr. LUCAS. In other words, the farmer is to pay upon every transaction, as was testified before the Ways and Means Committee?

Dr. DOANE. Yes.

Mr. LUCAS. And if a man sells a horse and gets a dog in trade for it, there are two transactions. Now, who is going to look after all the transactions?

Dr. DOANE. It would take the largest administrative staff to collect that tax that we have ever had.

Mr. LUCAS. The fact of the matter is we could put about 4,000,000 of the unemployed at the present time to work collecting the tax, could we not?

Dr. DOANE. We could, and then it might be doubtful whether you would actually collect the tax.

Mr. LUCAS. Then, with your trouble collecting a tax with 4,000,000 employed doing it——

Dr. DOANE. Yes.

Mr. LUCAS. That administrative work Congressman DITTER is talking about also includes the intricate system of bookkeeping from one end of America to the other. It also envisages the previous experience we have had with tax evasions in this country under the Prohibition Act and under the Revenue Act. Isn't it a fact that under this movement this Nation would ultimately become one of lawbreakers and liars?

Dr. DOANE. Of course, in my opinion, it would be an insurmountable task.

Mr. LUCAS. What was your answer?

Dr. DOANE. It would be an insurmountable task.

Mr. LUCAS. It would be an insurmountable task of administration of the tax?

Dr. DOANE. The transactions on the produce exchanges alone would be almost impossible to follow.

Mr. DITTER. Doctor, I should like just to discuss with you for a moment, or have you discuss with the committee, the matter of this transactions tax, and I take a rather simple illustration, the matter of a loaf of bread. I am interested, and I think the people of the country are interested, in knowing just what effect the transactions tax would have upon a loaf of bread.

I understand the Townsendites are holding out to the country the thought that the only commodities that go into the matter of bread is the matter of wheat, and they try to show that wheat, in its several transactions, would alone affect the tax or ultimate cost of a loaf of bread. Are you prepared to give us in any way those factors which, if the tax were imposed, as contemplated by the Townsend group, would affect, in your opinion, the ultimate cost of a loaf of bread?

Dr. DOANE. Of course, the chief characteristic in that form of analysis is confined, in the cost of this commodity, the loaf of bread, to the one ingredient that goes into the loaf of bread—wheat.

Mr. DITTER. Now, will you start with wheat and give as you understand them to be, from the standpoint of an economist, the successive steps that ultimately would result in a tax on that loaf of bread, so far as wheat is concerned?

Dr. DOANE. Well, their statistician, the Townsend-plan statistician, Mr. Hudson, I think——

Mr. DITTER. Is that Glen Hudson?

Dr. DOANE. I do not recall his first name.

Mr. DITTER. Is that Glen Hudson who is presently reputed to be at odds with the Townsend new regime?

Dr. DOANE. I cannot say; I have not followed that.

Mr. DITTER. Of Townsend et al.?

Dr. DOANE. I do not know.

Mr. LUCAS. He is the same fellow who testified before the Senate Finance Committee and the Ways and Means Committee?

Dr. DOANE. Yes, sir.

Mr. DITTER. Excuse the interruption, Doctor. Proceed, please.

Dr. DOANE. In that testimony Mr. Hudson brought out that wheat, of course, is sold, is marketed by the farmer to the middleman, the shipper, and there is, first off, 2 percent on the bushel of wheat; that is, when the farmer sells his wheat. Then the middleman, the shipper, the processor, or miller, then the jobber, and so on down the line—I think there are four or five successive stages, and the testimony is a little confusing. In one place it shows a mark-up of 10 percent from the original cost of the wheat, and in another place Mr. Hudson has admitted 1.2 cents on a bushel. That would be 12.2 percent, taking the illustration of a bushel selling at $1.

Mr. DITTER. Now, that is only wheat; is there anything else that goes into the loaf of bread besides wheat?

Mr. DOANE. There are some 23 other ingredients that go into the loaf of bread.

Mr. DITTER. What are some of those?

Mr. DOANE. In looking over the Bureau of Census figures, the census of manufacturers, I find it takes, on an average, 2 pounds of coal and fuel for every pound of flour.

Mr. DITTER. Two pounds of coal for every pound of flour?

Dr. DOANE. That is right. Now, we poured some 1,000,000,000 pounds of fluid milk into our baking processes in 1929.

Mr. DITTER. Can you give us any successive steps that the milk would pass through until it ultimately got to the baker?

Dr. DOANE. Of course, that goes through similar steps as the wheat from the farmer.

Mr. DITTER. From the dairymaid on down to the bakers; is that it?

Dr. DOANE. That is right. Then sugar—the element of sugar comes in there, 900,000,000 pounds of sugar utilized in the baking industry; over 50,000,000 pounds of butter; another half billion pounds of lard; another half billion pounds of lard and other shortening substitutes; and about 100,000,000 pounds of yeast. There are other elements, such as rent. American bakers, the baking industry, paid out something like $350,000,000 in rent; another hundred million dollars insurance, with the employees' liability insurance, and other forms of surety insurance and fire insurance, all of which involved transactions of payments that have to be taxed.

Mr. DITTER. And all of which would bear the tax that is contemplated by this Townsend group?

Dr. DOANE. They were then paying some $18,000,000 in other forms of taxes. Now, when you realize——

Mr. DITTER. What about the matter of the cost of paper containers, for instance, that are used?

Dr. DOANE. About 100,000,000 pounds of wrapping paper to wrap the bread. Now, we have been talking about nothing so far but the bread that is baked by the baking industry, not the bread baked by the housewife.

In 1929 we consumed at retail valuation a little better than $2,000,000,000 worth of bread and bakery products. In 1929 the turn-over of wheat alone, according to the report of the Grain Futures Administration, amounted to some 50 times, with a total valuation of $240,000,000,000. If you put the 2-percent tax on that total volume of transactions which it apparently took in this exchange economy finally to get the 375,000,000 bushels of wheat down into the consumers' hands, a 2-percent tax on that would amount to about $4,800,000,000, very close to $5,000,000,000, which is more than two times the retail cost of all the bakery products consumed in America in the peak year of 1929.

Mr. DITTER. That would simply mean a drying up?

Dr. DOANE. If you take into consideration the cumulative effect, as I have since done, of these 24 major ingredients going into the production of a loaf of bread, and leaving out of account the fact that we bought and sold 240,000,000,000 bushels of wheat, with that turn-over of 50 times—leaving that out of account, you could expect a mark-up of the cost of bread, per loaf, per pound of baked weight, of about 40 cents.

Mr. DITTER. In other words, you mean by that that the bread that the housewife in America might today buy for 10 cents, the staple bread of the workingman, would cost 50 cents a loaf?

Dr. DOANE. Yes; quite easily.

Mr. DITTER. Now, that approximation or that statement is based on a careful analysis by you as a recognized economist?

Dr. DOANE. Taking into consideration all of the ingredients required for the production of the loaf of bread.

Mr. DITTER. Taking into consideration all ingredients and all transactions?

Dr. DOANE. That is right.

Mr. DITTER. We can tell the American housewife, then, that if the Townsend plan program were introduced, her bread would cost 50 cents a loaf, instead of 10 cents a loaf; is that correct?

Dr. DOANE. Far nearer 50 cents than 10 cents; it being somewhere within the range of 10 and 50 cents. I would like to say this: When Dr. Jordan and myself made the American consumer-market study, published by McGraw-Hill Co. in 1932, it was the largest single study of its kind ever made by a private organization in this country or any other country, and we found there over 325,000 individual commodities produced for consumption in the United States per capita.

Mr. DITTER. How many?

Dr. DOANE. More than 325,000 individual physical commodities. As a matter of fact, R. H. Macy, in New York City, in the study that they made, which substantiated our own study, reported some 315,000 different individual items in their own store a year ago. Now, that is leaving out style, as, you know, two pairs of shoes of different sizes. Now, if you would go ahead and carry out the cumulative effect of the 2-percent transactions tax on the 325,000 other individual items, other than the loaf of bread, you can see the astronomical figures you are getting into.

* * * * * * *

The CHAIRMAN. To get down to something that fellows like some of the rest of us can understand, Doctor, you say the loaf of bread that now sells for 10 cents would probably sell for about 50 cents?

Dr. DOANE. Yes; that is right.

The CHAIRMAN. A pair of shoes that sells for $5 would bring about how much before the workingman could buy a pair of shoes?

Dr. DOANE. The mark-up, of course, would be a little different in some of our commodities. I would say on the average that the mark-up would be three or four hundred percent and not two- or three-tenths of 1 percent.

The CHAIRMAN. Four hundred percent added to the cost of a pair of shoes would be around $25, would it not?

Dr. DOANE. Oh, yes.

The CHAIRMAN. And if you buy a suit for $12.50, would the same general situation obtain as to clothes?

Dr. DOANE. Yes. You have all of those other factors there; you have insurance transactions on the buying and selling of the commodities.

* * * * * * *

The CHAIRMAN. But is it not a fact that up and down every walk of life every necessity of life would be many times increased in price; is not that true?

Dr. DOANE. It would be prohibitive for a great many reasons. That is why I say we would have to have a rationed economy as against a free market that we now possess to carry it out.

Mr. Dwight K. Grady, secretary of the Dried Fruit Association of California, was asked by me to calculate the increased cost to the ultimate consumer of canned and dried fruit and vegetables, based on a 2-percent tax on each transaction entering into the finished product. He reports that—

Townsend tax varies from 13 to 15 percent by the time goods reach consumer, depending on the character of the transaction—average would be 14 percent.

He further states that dependent as California fruits are upon foreign markets, any such increased cost would wreck all foreign sales activity:

Added costs in the form of pyramiding taxes would contribute to the loss of other markets. The sales price of these same articles is in such delicate adjustment that even minor maladjustments have the effect of seriously disturbing distributive machinery and depressing consumer demand.

What Margett and Townsend choose to forget is that no matter what form of tax they select, it must come out of the incomes of those who work. If they must raise $20,000,000,000 to pay the aged $200 per month and the income of the people of the United States is $50,000,000,000, everyone who has an income must surrender 40 percent of it in order to raise the old-age tax. If the gross income this year of the American people happens to be $60,000,000,000, they must surrender one-third of it. Now, it is not going to help the case for Townsendites to increase their estimate of the total volume of taxable business transactions to some skyrocket figure. Even if the total amount were one thousand two hundred and thirty billions of dollars a year, each of us would still have to pay this 2-percent tax so often on each article we buy that our cost of living would be raised on the average by 50 percent.

Now, that is what I am not wanting to do. My platform has always been and will continue to be to aim to provide as large a pension or annuity for the aged who cannot take care of themselves as is possible without penalizing others. The workman, the farmer, the mother, and the child will be the sufferers under any such proposal as Margett and Townsend propose to force on America. After taxing the farmer 2 percent for selling his hog, or 4 percent for trading it, you tax him again 2 percent for the supplies that he must buy. On Saturday night the worker will have 2 percent deducted from his pay check and go down the street to buy his week's supplies, paying a 2-percent tax on goods and commodities that have risen in their cost anywhere from 12 to 24 percent as a result of this pyramided sales tax. Yes; the proponents of the plan say it will effect an economic revolution. The revolution will occur about the third week after the wage earner knows what increased costs he must pay.

Speakers for this plan often claim that it will create purchasing power. This sounds well, but it is the least defensible of the arguments for it. The plan, whatever it may be, or however financed, will create no purchasing power whatever. At best it would simply transfer $20,000,000,000 worth of purchasing power from one part of the population to another. Those who paid for the pensions would lose exactly as much as those who receive the money would gain.

It is also claimed that by requiring this money to be spent within a month business would be speeded up. It is difficult to follow this thought. A man can spend his income only once. If he spends it in 12 equal installments, he will have spent no more at the end of the year than if he had spent the same amount irregularly, buying more at Christmas and less in April. It is said otherwise the money will not be spent. Where is this money coming from? These sales taxes are coming out of the pockets of the consumer. They are not coming out of the pocket of the man who has a surplus income which he is putting away in reinvestments. You are cutting off the amount that John Jones, the railroad worker, can spend so that Henry Smith, the pensioner, may spend it. Does any sane man think that John Jones receives today such a large wage that he does not spend practically all of it as it comes to him? Certainly not. There cannot be any increase in spending or turn-over of money.

It has also been suggested that this plan will create jobs because those over 60 would retire. In the first place, the figures used by the Townsend proponents include women over 60, practically none of whom are now in gainful employment. So Townsend estimates may be cut 50 percent or more to start. But, in any event, no new jobs will be created. It would be merely the substitution of a young man for an old man, perhaps, if fully availed of, to the extent of 4,000,000 jobs, and the young man would be taxed on his salary and on all his expenses in order to secure the position.

The proposals are uncertain in their character, unsound in their economics, unworkable in their operation, and would be unwholesome in their paralyzing effect on American commerce. The ax should be used not on those of us who have honestly looked into the suggestions, but upon those who have the nerve to collect money from the very people whom they would ruin if their plans were permitted to become effective.

CONSTRUCTION OF CAUSEWAY AND HIGHWAYS ON YERBA BUENA ISLAND IN SAN FRANCISCO BAY

Mr. VINSON of Georgia. Mr. Speaker, I ask unanimous consent for the immediate consideration of Senate Joint Resolution 251, granting the consent of Congress to the city and county of San Francisco to construct a causeway and highways on Yerba Buena Island in San Francisco Bay, and for other purposes.

The Clerk read the title of the joint resolution.

The SPEAKER. Is there objection to the immediate consideration of the resolution?

Mr. RICH. Mr. Speaker, reserving the right to object, what is this going to cost?

Mr. VINSON of Georgia. Not one penny.

Mr. RICH. What is that?

Mr. VINSON of Georgia. It is not going to cost anything.

Mr. RICH. The construction of a causeway is not going to cost the Government anything?

Mr. VINSON of Georgia. The city of San Francisco will bear the cost.

Mr. RICH. The gentleman is the first magician we have had in the House for some time.

The SPEAKER. Is there objection to the immediate consideration of the resolution?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

Resolved, etc., That the consent of Congress is hereby given to the construction and maintenance by the city and county of San Francisco, Calif., of (1) a causeway between Yerba Buena Island in San Francisco Bay and a public airport to be constructed by said city and county on lands reclaimed in said bay; (2) roads or highways on said Yerba Buena Island connecting such causeway with the State highway on said island provided by the San Francisco-Oakland Bay Bridge crossing; (3) such fresh-water supply reservoirs, tanks, conduits, and pipe lines as may be necessary or proper to enable said city and county to supply said Yerba Buena Island and said public airport with an adequate supply of fresh water; and (4) all usual, necessary, and reasonable incidents and appurtenances to such causeway, roads, highways, reservoirs, tanks, conduits, and pipe lines. The Secretary of the Navy is hereby authorized to grant permits for such construction and maintenance, together with all usual, necessary, and reasonable incidents and appurtenances thereto, and to grant to said city and county perpetual easements for rights-of-way therefor, subject to such restrictions as he may in his discretion prescribe to avoid injury to the military, naval, or defense uses of said island and inconvenience to the military or naval forces thereon: *Provided*, That said causeway and any such connecting roads and highways hereby authorized shall be forever toll free: *And provided further*, That the location and plans of such causeway, roads, highways, reservoirs, tanks, conduits, and pipe lines, with the incidents and appurtenances thereto, shall be first approved by the Secretary of the Navy: *And provided further*, That nothing in this resolution or consent shall preclude the erection and maintenance of tollgates and tollhouses upon any of said roads or highways connecting said causeway with said San Francisco-Oakland Bay Bridge crossing for the purpose of collecting tolls for the use of such bridge.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

PRESENTATION OF MEDAL OF HONOR TO J. HAROLD ARNOLD

Mr. DONDERO. Mr. Speaker, I ask unanimous consent to take from the Speaker's desk House Joint Resolution 179, with a Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the resolution.

The Clerk read the Senate amendment, as follows:

Amend the title so as to read: "Joint resolution authorizing the President to present the Navy Cross to J. Harold Arnold."

The SPEAKER. Is there objection to the request of the gentleman from Michigan?

There was no objection.

The Senate amendment was concurred in.

GLACIER BAY NATIONAL MONUMENT

Mr. DIMOND. Mr. Speaker, I ask unanimous consent for the present consideration of the bill (S. 4784) to permit mining within the Glacier Bay National Monument.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Alaska?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That in the area within the Glacier Bay National Monument in Alaska, or as it may hereafter be extended, all mineral deposits of the classes and kinds now subject to location, entry, and patent under the mining laws of the United States shall be, exclusive of the land containing them, subject to disposal under such laws, with right of occupation and use of so much of the surface of the land as may be required for all purposes reasonably incident to the mining or removal of the minerals and under such general regulations as may be prescribed by the Secretary of the Interior.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

ADDITIONAL CLERICAL SERVICES IN ENROLLING ROOM

Mr. WARREN. Mr. Speaker, I present a privileged resolution from the Committee on Accounts and ask for its immediate consideration.

The Clerk read the resolution, as follows:

House Resolution 556

Resolved, That there shall be paid out of the contingent fund of the House of Representatives during the remainder of the present session not exceeding $200 for additional clerical services in the enrolling room.

The resolution was agreed to.

CONSTRUCTION OF BRIDGE ACROSS MISSISSIPPI RIVER BETWEEN NEW ORLEANS AND GRETNA, LA.

Mr. DEROUEN. Mr. Speaker, I ask unanimous consent to take from the Speaker's desk the bill (H. R. 11103) to extend the times for commencing and completing the construction of a bridge across the Mississippi River between New Orleans and Gretna, La., with a Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Line 12, after "hereof", insert "*Provided*, That the State of Louisiana, or any agency or authority created by it, may construct the bridge herein authorized."

The SPEAKER. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

The Senate amendment was concurred in.

A motion to reconsider was laid on the table.

AMERICAN CLAIMANTS UNDER SETTLEMENT OF WAR CLAIMS ACT OF 1928

Mr. COOPER of Tennessee. Mr. Speaker, I ask unanimous consent for the immediate consideration of House Joint Resolution 608, extending for 2 years the time within which American claimants may make application for payment, under the Settlement of War Claims Act of 1928, of awards of the Mixed Claims Commission and the Tripartite Claims Commission, and extending until March 10, 1938, the time within which Hungarian claimants may make application for payment, under the Settlement of War Claims Act of 1928, of awards of the War Claims Arbiter, which has the unanimous support of the Committee on Ways and Means.

The Clerk read the title of the resolution.

The SPEAKER. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

The Clerk read the House joint resolution, as follows:

Resolved, etc., That subsection (g) of section 2 and subsection (f) of section 5 of the Settlement of War Claims Act of 1928, as amended by Public Resolution No. 38, Seventy-third Congress, approved June 18, 1934, are further amended, respectively, by striking out the words "8 years" wherever such words appear therein and inserting in lieu thereof the words "10 years".

SEC. 2. The first sentence of subsection (h) of section 6 of the Settlement of War Claims Act of 1928, as amended by Public Resolution No. 38, Seventy-third Congress, approved June 18, 1934, is further amended to read as follows:

"No payment shall be made under this section unless application therefor is made by March 10, 1938, in accordance with such regulations as the Secretary of the Treasury may prescribe."

The House joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

ELIMINATION OF UNNECESSARY EXPENSE IN THE ADMINISTRATION OF ESTATES OF DECEASED AND INCOMPETENT VETERANS

Mr. DOUGHTON. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (H. R. 13001) to eliminate unnecessary expense in the administration of estates of deceased and incompetent veterans, and for other purposes, which has the unanimous report of the Committee on Ways and Means.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the immediate consideration of the bill?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That section 4 of the Adjusted Compensation Payment Act, 1936, as amended, is hereby further amended by striking out the last sentence of the first paragraph thereof and inserting in lieu thereof the following sentences: "In cases of deceased or incompetent veterans, the payments provided by this paragraph, whether of the amount certified, by issuance of bonds and by checks payable out of the fund created by section 505 of the World War Adjusted Compensation Act, as amended, or whether of such bonds on redemption thereof, shall be made to the person or persons determined by the Secretary of the Treasury to be lawfully entitled thereto, without the necessity of the appointment by judicial proceedings or otherwise of a legal representative of the estate of any veteran or of any other persons, or of compliance with State law in respect of the administration of estates. Such checks may be endorsed on behalf of the Secretary of the Treasury in the name of the veteran, if that is determined by the Secretary to be appropriate for the effectuation hereof. All determinations by the Secretary of the Treasury under this paragraph shall be final and conclusive and neither any other official of the United States nor, except in the case of prior judicial determination, any State or Federal court, shall have jurisdiction to review any such determination. The provisions of this paragraph shall be carried out subject to regulations of the Secretary of the Treasury to be issued from time to time to effectuate the purposes of this act."

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

AUTHORIZING ATTORNEY GENERAL OF CALIFORNIA TO BRING SUIT IN COURT OF CLAIMS

Mr. LEA of California. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 1793) to amend the act entitled "An act authorizing the attorney general of the State of California to bring suit in the Court of Claims on behalf of the Indians of California."

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from California?

Mr. SNELL. Mr. Speaker, will the gentleman tell us just what this means?

Mr. LEA of California. This is an amendment to the Court of Claims Act in behalf of the California Indians. It was on the Consent Calendar Monday, but continued without prejudice. Objections then made have now been ironed out, and the Members interested have been satisfied with certain amendments which I purpose to offer.

Mr. SNELL. What is the amount of the claims that are opened up?

Mr. LEA of California. It would be impossible to say exactly what is the amount, but this is to cover probably 3,000 Indians who were not included in the original law. There is already a law authorizing the matter to be presented to the Court of Claims in behalf of the California Indians. This is an amendment to the original law, permitting a claim to be presented to cover lands occupied and used by such Indians, and of which they were wrongfully deprived. The additional claim is for lands not included in the original act and occupied by Indians not parties

to the original treaties. The act sought to be amended is based on the treaty lands only.

Mr. COSTELLO. Mr. Speaker, will the gentleman yield?

Mr. LEA of California. I yield.

Mr. COSTELLO. This matter is in the courts, as I understand it, at the present time, and the only objection I had to it on Monday night was with regard to the proposal to eliminate section 4, which would have opened it up and allowed the Indians of California to bring in their own private attorneys, instead of having the attorney general of the State carry on the action which has already been started. The proposal now is to eliminate section 4 and the bill will be considered as it was passed by the Senate.

Mr. SNELL. Then this opens up about 3,000 additional claims?

Mr. LEA of California. No; there will be about 3,000 Indians in behalf of whom claims will be asserted. About one-sixth of the Indians of the State would be included in the suit in addition to those on account of whom the original act was passed.

Mr. JENKINS of Ohio. Mr. Speaker, will the gentleman yield for a question?

Mr. LEA of California. I yield.

Mr. JENKINS of Ohio. As I understand, this is the bill that was on the Consent Calendar and was passed by everybody on this side, and the only objection that was made was by the gentleman from California [Mr. COSTELLO] and the gentleman from Missouri [Mr. COCHRAN].

Mr. LEA of California. That is true, and we have now agreed on acceding to the gentleman's objections and also to the objection of the gentleman from Missouri [Mr. COCHRAN]. We propose to eliminate from the bill the language to which the gentleman from Missouri objected—a provision as to offsets.

Mr. JENKINS of Ohio. As I understand, what you propose to do now is simply to amend the bill with reference to the lawyers and with respect to fixing the power of the Attorney General in respect of the claims under the law as already passed.

Mr. LEA of California. We propose to eliminate the provision about attorneys, section 4, and also make a concession to the gentleman from Missouri [Mr. COCHRAN], as I have just stated.

Mr. RICH. Mr. Speaker, reserving the right to object, has the gentleman discussed this matter with the gentleman from Missouri [Mr. COCHRAN]?

Mr. LEA of California. Yes, I have; and the gentleman has agreed to the plan we are proposing this morning.

Mr. RICH. Mr. Speaker, I am pleased to hear the gentleman state he has agreed to the amendment suggested by the gentleman from Missouri [Mr. COCHRAN], because if that had not been done I would object to the consideration of the bill.

The House should know just what that amendment means. It strikes out the following language on page 4:

> But no such payment or appropriation shall be treated as a set-off unless it shall appear that the same was received by said Indians or that such expenditure was actually beneficial to said Indians.

No one has disputed the assertion of Mr. COCHRAN that those words, if allowed to remain in the bill, would cost the Treasury over $12,000,000. The Government is prepared to show as an offset this amount under existing law, but if the Government was required to prove that the individual Indians received the benefits it could not be done, because when the Indian Bureau spends the money for clothing, supplies, and so forth, and sends them to the Indian agent to be distributed among the Indians, the record ends there. Under the language which the gentleman from Missouri insists must be stricken out, the Government would have to prove an Indian or Indians actually received the clothes, supplies, and so forth, and it just could not be done. This demonstrates how careful we should be in passing legislation amending laws where cases have been referred to the Court of Claims, because when they come back here asking us to make changes in the original laws it is safe to wager that the changes desired are going to prove beneficial to the claimants and adverse to the taxpayers, for in the end it is the people that must foot the bill when judgments are rendered against the Government by the Court of Claims.

The Committee on Expenditures held a hearing on Indian claims pending before the Court of Claims in the last session, and it was shown the total amount claimed under suits instituted as a result of the passage of 114 resolutions setting aside the statute of limitations by the Congress was four and a half billion dollars. This figure was given to the committee by the Assistant Attorney General in charge of such matters. As a result of that hearing the chairman of our committee called the situation to the attention of the Committee on Appropriations, and that committee added an amendment to a deficiency bill that became law whereby the Government is permitted to offset the claims by showing gratuities and advances made to the Indians. As a result the Government has been protected and now bills are brought in that would take this right away from the Government. The committee authorized its chairman, Mr. COCHRAN, to present this matter to the Appropriations Committee, and the committee has stood by Mr. COCHRAN in preventing the submission of dozens of additional cases to the Court of Claims at this and the last session. I have joined Mr. COCHRAN in his objections time and again, and by defeating these bills we have saved the taxpayers untold millions.

It should be distinctly understood that this amendment to be adopted must be agreed to by the Senate or the bill will not be allowed to become a law.

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That the act of May 18, 1928 (45 Stat. 602), entitled "An act authorizing the Attorney General of the State of California to bring suit in the Court of Claims on behalf of the Indians of California", as amended by the act of April 29, 1930 (46 Stat. 259), be, and the same is hereby, amended as follows:

SEC. 2. That section 1 of the act of May 18, 1928 (45 Stat. 602), be amended to read as follows:

"SECTION 1. That for the purposes of this act the Indians of California shall be defined to be all Indians who were residing in the State of California on June 1, 1852, and their descendents living on May 18, 1928, who are now on the census roll of the Indians of California under the act of May 18, 1928 (45 Stat. 602), and who may be enrolled in addition thereto under the provisions of this act."

SEC. 3. That sections 2 and 3 of the act of May 18, 1928 (45 Stat. 602), be amended to read as follows:

"SEC. 2. That all claims of whatsoever nature the Indians of California as defined in section 1 of this act may have against the United States by reason of lands taken from them in the State of California by the United States without just compensation or for the failure or refusal of the United States to protect their interests in lands in said State and for the loss of the use of the same, may be submitted to the United States Court of Claims by the Attorney General of the State of California or attorneys acting for and on behalf of said Indians, and it is hereby declared that the loss to the said Indians on account of their failure to secure the lands and compensation provided for in the 18 unratified treaties entered into with certain bands of said Indians in 1851 and 1852, and the loss to such Indians who were not parties to said unratified treaties of their lands to which they had title rising from occupancy and use, without just compensation therefor, is sufficient ground for equitable relief, and jurisdiction is hereby conferred upon the said court, with the right of either party to appeal to the Supreme Court of the United States, to hear, consider, and determine all such claims submitted to them and the said courts shall settle the equitable rights therein and decree just compensation therefor, notwithstanding the lapse of time or statutes of limitation or the fact that the same claim or claims have or have not been presented to any other tribunal, including the commission created by the act of March 3, 1851 (9 Stat. L. 631): *Provided*, That the courts shall determine, as near as may be, the acreage of the lands described in said unratified treaties as lands set apart forever for the occupancy and use of the tribes or bands of Indians parties to the said unratified treaties and shall determine, as near as may be, the acreage of the lands to which such tribes or bands of said Indians not parties to the said unratified treaties had title by reason of occupancy and use and shall compute the value of said acreage at $1.25 per acre and shall render judgment for such value: *And provided further*, That the courts shall consider and determine, as near as may be, the value of the personal property, rights, services, facilities, and improvements set out and described in the aforesaid 18 unratified treaties and include just compensation for the value and loss of the benefit of the same in any decree rendered hereunder. Any

payment which may have been made by the United States or moneys heretofore expended for the benefit of the Indians of California made under specific appropriations for the support, education, health, and civilization of Indians of California, including purchases of land, shall not be pleaded as an estoppel but may be pleaded by way of set-off; but no such payment or appropriation shall be treated as a set-off unless it shall appear that the same was received by said Indians or that such expenditure was actually beneficial to said Indians."

SEC. 4. That section 7 of the act of May 18, 1928 (45 Stat. 602), as amended by the act of April 29, 1930 (46 Stat. 259), is further amended by adding the following proviso: "*Provided further*, That the Secretary of the Interior is authorized and directed to allow 2 years from the date of the approval of this act in which to receive applications for enrollment of Indians residing in the State of California on June 1, 1852, and their descendants living on May 18, 1928, not now on the census roll of the Indians of California under the act of May 18, 1928 (45 Stat. 602), and the Secretary of the Interior shall have 6 months thereafter to approve such supplemental roll, at the expiration of which time the roll shall be forever closed and thereafter no additional names shall be added thereto.

"The time for filing amendments to the petition is hereby continued and extended to any time prior to the entry of judgment."

SEC. 5. That the act of May 18, 1928 (45 Stat. 602), be amended by adding a new section as follows:

"SEC. 8. That there is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, such amount as may be necessary to defray the expenses of enrollment herein authorized."

With the following committee amendments:

Page 4, after line 10, insert the following:

"SEC. 4. That the act of May 18, 1928 (45 Stat. 602), be amended by adding a new section, as follows:

" 'SEC. 3. That the Indians of California shall have the right to be represented by an attorney or attorneys of their own selection under contract or contracts approved by the Secretary of the Interior, and the courts are directed to recognize such attorneys as attorneys of record: *Provided*, That for the purposes of this act the Indians enrolled as Indians of California under the provisions of the act approved May 18, 1928, the Secretary of the Interior shall classify said Indians by counties and determine the number of units therein of 100 each or fraction thereof, and under such regulations as he may prescribe shall provide for the election of Indian delegates to be held at one or more convenient places in each county in the State of California within 90 days after the approval of this act, provided each county shall be entitled to one vote for each unit or fraction thereof, and any Indian enrolled under said act shall be eligible for election as a delegate, and said Indians of each county may elect a delegate to represent each vote or one delegate to represent all its votes, and any delegate may be elected by more than one county, and said Secretary shall provide for two conventions of such delegates to select and retain attorneys to represent the Indians of California; one convention to convene at Riverside and include all delegates in counties south of the southern boundaries of San Luis Obispo and Kern Counties and the northern boundary of San Bernardino County and the other convention at San Francisco to include all delegates north of said boundaries. Said conventions shall be held within 30 days after said election and shall be conducted in accordance with such rules as are usual for a convention: *Provided further*, That due and proper notice shall be given of the time, place, and purpose of said election and conventions; and upon final determination of such suit said court is authorized and directed to fix and determine a reasonable fee for such attorney or attorneys, the aggregate amount of such fees not to exceed 5 percent of the amount recovered on a quantum-meruit basis for services actually rendered, and in addition thereto all necessary and proper expenses incurred in the preparation and prosecution of the suit and such fees and expenses shall be paid by the Secretary of the Treasury out of the appropriation made by Congress in payment of any decree rendered when such decree has been submitted to, and approved by, Congress, and the balance of such appropriation shall be placed in the Treasury as provided in section 6 of the enabling act.' "

Page 6, line 8, strike out "Sec. 4" and insert "Sec. 5."

Page 7, line 1, strike out "Sec. 5" and insert "Sec. 6."

Mr. LEA of California. Mr. Speaker, I ask unanimous consent to withdraw from consideration all the committee amendments.

Mr. RICH. Mr. Speaker, reserving the right to object, is that in accordance with the agreement the gentleman had with the gentleman from Missouri [Mr. COCHRAN]?

Mr. LEA of California. Yes.

Mr. COSTELLO. This eliminates section 4.

The SPEAKER. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. LEA of California. I also ask unanimous consent on page 4, line 7, to strike out the semicolon, insert a period and strike out the remainder of the section.

The SPEAKER. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. LEA of California: Page 4, line 7, strike out the semicolon after the word "setoff" and insert a period and strike out the remainder of the sentence.

The amendment was agreed to.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider laid on the table.

FARMERS' STORAGE & FERTILIZER CO. OF AIKEN, S. C.

Mr. FULMER. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 254) for the relief of the Farmers' Storage & Fertilizer Co., of Aiken, S. C., with a Senate amendment, and concur in the Senate amendment.

The Clerk read the bill, as follows:

Be it enacted, etc., That the statutes of limitation, so far as they bar the linters' claim of the Farmers' Storage & Fertilizer Co., of Aiken, S. C., now owned by Wesley Johnson, against the United States of America, arising out of contract had with the Government, expiring January 1, 1918, be, and the same are hereby, waived and revoked.

With the following Senate amendment:

Strike out all after the enacting clause and insert:

"That the Secretary of the Treasury be, and he is hereby, authorized and directed to pay to the Farmers' Storage & Fertilizer Co., of Aiken, S. C., out of any money in the Treasury not otherwise appropriated, the sum of $3,725.98, in full settlement of all claims against the Government for the balance due and unpaid on 123 bales of linters purchased under contract by the United States Government through its agents on December 31, 1918: *Provided*, That no part of the amount appropriated in this act in excess of 10 percent thereof shall be paid or delivered to or received by any agent or agents, attorney or attorneys, on account of services rendered in connection with said claim. It shall be unlawful for any agent or agents, attorney or attorneys, to exact, collect, withhold, or receive any sum of the amount appropriated in this act in excess of 10 percent thereof on account of services rendered in connection with said claim, any contract to the contrary notwithstanding. Any person violating the provisions of this act shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not exceeding $1,000."

Mr. SNELL. What was the amount in the bill as passed by the House?

Mr. FULMER. The amendment carries three-fourths of the original claim as indicated by the Government contract with the company, which amounted to about $5,000.

Mr. SNELL. Three-fourths of the amount in the bill as passed by the House?

Mr. FULMER. Yes; that is, of the original claim that brought about the introduction of the bill.

Mr. SNELL. And the Senate amendment cut it to $3,000?

Mr. FULMER. Yes; the Senate amended the bill by providing for three-fourths of the original claim, or the actual amount of $3,725.98.

The Senate amendment was concurred in.

A motion to reconsider was laid on the table.

ROWESVILLE OIL CO.

Mr. FULMER. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 237) for the relief of the Rowesville Oil Co., with a Senate amendment, and concur in the Senate amendment.

The Clerk read the bill, as follows:

Be it enacted, etc., That the statutes of limitation so far as they bar the linters claim of the Rowesville Oil Co., now owned by the estate of W. C. Fairey, against the United States of America, arising out of contract had with the Government, expiring July 31, 1919, be, and the same are hereby, waived and revoked.

SEC. 2. That said claimant is hereby authorized to file and have said claim adjudicated by the Court of Claims of the United States.

With the following Senate amendment:

Strike out all after the enacting clause and insert:

"That the Secretary of the Treasury be, and he is hereby, authorized and directed to pay to the Rowesville Oil Co., of Rowesville, S. C., out of any money in the Treasury not otherwise appropriated, the sum of $4,991.74, in full settlement of all claims against the Government for the balance due and unpaid on 300 bales of linters purchased under contract by the United States Government through its agents on or about September 28, 1918: *Provided*, That no part of the amount appropriated in this act in excess of 10 percent thereof shall be paid or delivered to or received by any agent or agents, attorney or attorneys, on account of services rendered in connection with said claim. It shall be unlawful for any agent or agents, attorney or attorneys, to exact, collect, withhold,

or receive any sum of the amount appropriated in this act in excess of 10 percent thereof on account of services rendered in connection with said claim, any contract to the contrary notwithstanding. Any person violating the provisions of this act shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not exceeding $1,000."

Mr. JENKINS of Ohio. Mr. Speaker, reserving the right to object, what changes were made in the Senate?

Mr. FULMER. The original claim on the part of these people was $6,655, and the Senate amended the bill authorizing three-fourths of the actual claim, making the exact amount of $4,991.74 payable under the bill as amended.

Mr. JENKINS of Ohio. That was the action of the Senate?

Mr. FULMER. Yes; and we are concurring in the Senate amendment.

The SPEAKER. Is there objection to the request of the gentleman from South Carolina?

There was no objection.

The Senate amendment was concurred in.

A motion to reconsider was laid on the table.

LEE AND THE DEPRESSION OF 1865

Mr. FLANNAGAN. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD by including an address delivered before the Virginia Society.

The SPEAKER. Is there objection?

There was no objection.

Mr. FLANNAGAN. Mr. Speaker, under leave to extend my remarks in the RECORD I include the following address delivered by me before the Virginia Society of the District of Columbia at a meeting held on February 19, 1935, at the Willard Hotel:

Depressions come and depressions go. But from whence they come and whither they go I know not.

Neither do I know why they come. Probably to level us down. Probably to bring us closer together. Probably to bring us back to a realization that the efforts of boastful man can never bring security and that there is a higher power directing the destinies of nations who can, at will, either bring security or confusion.

Nor do I know all the contributing causes leading to their demises; but I do know that leadership plays an important part.

We of the South are not unfamiliar with depressions. We have had our full share, and back in 1865 and from thence on for what seemed interminable years we went through—if what we are going through today is a depression—a deluge, which left its scars, discernible even to this day, to remind us of the throes of those dark years.

Let me remind you of our condition:

Nearly one-half million men of our slim Caucasian population—the very flower of the South—were dead or disabled in their prime; our commerce ruined; our factories destroyed; our money not worth the paper upon which it was written; our credit crippled to the point of destruction; our farm lands washed and gullied and grown up in briars and weeds and underbrush; our livestock either consumed or carried off; our food supply nearly exhausted and the only hope another crop; our clothing threadbare and no raw material out of which to make cloth; our very homes, many of them, decayed or burned; and several million men, women, and children of an alien race, who, through no fault of their own, were helpless to provide for themselves, were turned loose upon us. And to add further to our burdens the reconstruction governments weighed down the South with debts until untold millions were robbed from the present and future.

And amid it all we had no strong, sympathetic Federal Government to go to for relief. The battle was ours and under a great leader we fought and conquered.

But, oh, what a leader we had! Poverty was his lot when he could have lived in comfort. Once before he had laid down high office and the offer of further preferment and cast his lot with his people. And when the depression—the deluge—came, he again remained true, preferring to share the privation of his people rather than end the depression, so far as he was concerned, by selling his name for gold.

And our leader was an uncommissioned leader. The franchises of men did not put him in command, neither did some governmental agency or power commission him. By unanimous consent, by the agreed verdict of the men, women, and children of the South, he was recognized, looked up to and followed as their leader and commander.

This is not the first time the people, by common consent, have recognized leadership. Years ago an uncrowned King reigned over on the shores of Galilee; and although he had not been crowned the people knew that he was their King. And so during the great depression in the South an uncommissioned leader led; and although he had not been commissioned the people knew that he was their leader.

And, you ask, how did he lead?

Not by trumpet calls and bugle sounds did he lead. Not by fiery words calculated to incite the passions of men did he lead. Not by issuing edicts, decrees, and commands did he lead. He led by following the teachings of the uncrowned King.

Teaching a little, praying much, a few friendly hand clasps, a few words of cheer and comfort scattered here and there, a few messages of advice given in a fatherly way, ministering to those in distress, sympathizing with the unfortunate, and just living, among all the confusion, in such a way that men knew that he still had faith, that he still had hope, that he still had courage.

Yes, the southern depression was won by the leader radiating faith, hope, and courage until it permeated into the hearts and minds of every man, woman, and child in the Southland.

A miracle you say. Yes; probably so; a miracle wrought by a follower of the uncrowned King.

Next to the mental picture of the uncrowned King, to southern people, the most inspiring man picture of the ages is the great southern leader, unruffled among confusion, quietly going about teaching men by precept and example that God has planted in man the weapons of the Conqueror—faith, hope, courage!

It may be out of place to say it, but I make the confession that I, too, am a great believer in the uncrowned King, though, I am afraid, an unworthy believer; and, believing as I do, somehow, even today, I had rather put faith in a man's breast than to put money in his pocket. I had rather put hope in his mind than to put food in his pantry; and I had rather put courage in his heart than to put raiment on his back.

Give man these divine things—faith, hope, courage—and he, by his own efforts, will add the material blessings.

Oh, no doubt, some of you will say that the reason our leader used the weapons he did was because the Southern States and their political subdivisions were all prostrate and unable to furnish material help. I will not argue the point with you; you who entertain such an opinion are entitled to your belief. As for me, I had rather believe that he used the weapons he did because he was familiar with them and believed in their efficacy. But, whatever the cause, we should all rejoice in the fact that he used the weapons he did. Why? Because they are the weapons men fight with. Only men, real men, can use them; and I like to think that our forebears, having been instructed in the use of those weapons by a masterful leader, came out of the depression strengthened in mind, body, and spirit; and my prayer is that we, their progeny, will never discard the weapons that made our ancestors great.

What we need today, Virginians, are more men who are willing to use the weapons of Robert E. Lee.

PAY OF RETIRED ENLISTED MEN WHO SERVED AS COMMISSIONED OFFICERS

Mr. ROGERS of New Hampshire. Mr. Speaker, I ask unanimous consent for the present consideration of S. 2460, to amend the act of June 6, 1924, entitled "An act to amend in certain particulars the National Defense Act of June 3, 1916, as amended, and for other purposes."

The SPEAKER. Is there objection.

Mr. JENKINS of Ohio. Mr. Speaker, reserving the right to object, what does the bill do?

Mr. ROGERS of New Hampshire. Briefly, the bill amends section 8 of the act of June 6, 1924, by providing that enlisted men of the Regular Navy and Marine Corps heretofore or hereafter retired, who served honorably as commissioned officers during the World War and at the time of their retirement were members of the Regular Navy and Marine Corps shall be entitled to receive the pay of retired warrant officers.

Mr. JENKINS of Ohio. And the House committee considered it fully?

Mr. ROGERS of New Hampshire. Absolutely, fully, and it is reported favorably by the War Department and the Navy Department.

Mr. JENKINS of Ohio. And what the gentleman proposes to do is what the Senate has done?

Mr. ROGERS of New Hampshire. In effect, except that the only thing we do is to add to that "commissioned officers, Regular, temporary, or Reserve, of the Navy or Marine Corps."

Mr. JENKINS of Ohio. And the gentleman's committee acted on that—I mean, has the committee acted on the changes proposed?

Mr. ROGERS of New Hampshire. Yes.

The SPEAKER. Is there objection?

There was no objection.

The SPEAKER. The Clerk will report the bill and the committee amendment.

The Clerk read as follows:

Be it enacted, etc., That section 8 of the act of June 6, 1924 (43 Stat. 472, U. S. C., title 10, sec. 981, and title 34, sec. 999) be, and it is hereby, amended by inserting after the words "in the", in line 8, the words "military or", so that said section as thus amended will read as follows:

"SEC. 8. That retired enlisted men of the Army heretofore or hereafter retired who served honorably as commissioned officers of

the Army of the United States at some time between April 6, 1917, and November 11, 1918, shall be entitled to receive the pay of retired warrant officers of the Army; and retired enlisted men of the Regular Navy and Marine Corps heretofore or hereafter retired who served honorably as commissioned officers, regular, temporary, or reserve, in the military or naval service at some time between the aforesaid dates, and who at the time of their retirement were members of the Regular Navy or Marine Corps, shall be entitled to receive the pay of retired warrant officers of the Navy and Marine Corps, respectively: *Provided*, That such enlisted man retired prior to July 1, 1922, shall be entitled to receive the pay provided by law for retired warrant officers of equal length of service retired prior to that date, and that any such enlisted man retired subsequent to June 30, 1922, shall be entitled to receive the pay provided by law for retired warrant officers of equal length of service retired subsequent to that date: *Provided further*, That nothing in this act shall operate to prevent any person from receiving the pay and allowances of his grade, rank, or rating on the retired list when such pay and allowances exceed the pay to which he would be entitled under this act by virtue of his commissioned service."

With the following committee amendment:

Page 2, line 3, after the words "United States", insert "or as commissioned officers of the Regular, temporary, or Reserve of the Navy or Marine Corps.

The committee amendment was agreed to, and the bill, as amended, was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider laid on the table.

HON. JOHN A. MARTIN

Mr. LEWIS of Colorado. Mr. Speaker, on behalf of the dean of our delegation, the gentleman from Colorado [Mr. TAYLOR], I ask unanimous consent that he be permitted to extend his remarks in the RECORD, including certain excerpts in a speech about our colleague the gentleman from Colorado [Mr. MARTIN].

The SPEAKER. Is there objection?

There was no objection.

Mr. TAYLOR of Colorado. Mr. Speaker, the Kiwanis Club of Pueblo, Colo., recently held a discussion on the history of relief legislation in our State and one of our prominent newspaper correspondents, Mr. Alva A. Swain, of Denver, recalled some of the early-day efforts of my colleague, Congressman JOHN A. MARTIN, to enact liberal and humane legislation when he was a member of the Colorado Legislature 35 years ago.

I was a member of our legislature in those days, and I know that the tributes paid to my colleague are so preeminently just and so richly merited that I feel they deserve more than a fleeting mention.

I have known JOHN MARTIN almost from his boyhood days. He and I have both been signally honored by our beloved Centennial State, "the summer playground of the Nation."

He and I served together 4 years in our Colorado General Assembly, and then we were both elected to Congress in 1908 and served together here 4 years, when he voluntarily retired and practiced law in Pueblo for 20 years, and in 1932 and 1934 was again elected to Congress—a very unique and probably unparalleled experience.

Having represented Colorado for the past 40 years consecutively, 12 years in the State senate and 28 years in Congress, a record unequaled during the history of our Government—and having known all the United States Senators and Congressmen Colorado has ever sent to Washington, I can speak from some information when I say that Colorado has never had a more loyal son or a more conscientious and hard-working Representative than JOHN A. MARTIN. He has spent practically his whole life in a constant, genuinely sincere, courageous, and effective fight for unfortunate humanity and for the welfare of Colorado. No one is entitled to more credit than he for starting and persistently following up the development of humane and social legislation in Colorado, until today it includes agencies and provisions to aid practically every form of human distress from infancy to age, and Colorado is now in the vanguard of States in the national movement for social security in all forms.

The extracts from the address of Mr. Swain to which I refer are as follows:

During the legislative session of 1901, JOHN A. MARTIN, who is now in Congress, but who was then a member of the house of representatives, introduced a bill that was intended to put the medical fraternity under the laws of Colorado. It was his intention to combine all types of physicians under one board, with each type having a representation on that board.

In that bill he tried to incorporate certain features which would give the counties or the towns and cities the right to take care of certain people who were not able to take care of themselves in sickness. His idea was to keep these people away from poorhouses during their illness. It included the authority to take care of tuberculars by the towns, cities, and counties, a small mother's compensation provision, partial care of the blind, and partial care of sick children.

In his plea before the house for this measure he drew a picture of the animals following a certain path to a water hole. This path was enlarged by humans who also followed it to the water hole; then it was turned into a road that was used for buggy and wagon transportation, and nearby ran the railroad, carrying the transportation of a nation; and through this picture he described the building of America. He wanted the human life of America to keep pace with her commercial activities, and he asked that we abandon poorhouses and start along the path of human kindness toward greater achievements.

MARTIN LOST OUT IN EARLY DAYS

Each of the human thoughts in that bill was defeated, but JOHN MARTIN planted the seed of consideration of those matters and he has lived to see that path grow just as extensively as the path that was trod by the animals grew. That human path has passed even the field of the railroad and, like the animal path, it has entered the advance stages of the airplane.

Today not only have we practically abandoned many of our poorhouses, but we are extending this humane thought into all departments of government. We have the mother's compensation; our blind are cared for; our aged need no longer fear tomorrow's foodless sunup; until our people as a whole, despite the depression, are enjoying a better existence than they have ever enjoyed before. Even a majority of our unemployed, on the whole, are living better than they lived during what might be termed our prosperous years.

RECOMMENDATIONS WERE ADOPTED LATER

Two years after JOHN MARTIN made his losing fight to put laws on our statute books that would cover humane matters the legislature made the bureau of child and animal protection a State department. It gave that department the power to look after the physical welfare of children, animals, and helpless people. It carried in the house by one vote.

Two years later the legislature enacted the first mental-defective law for the care of children whose brains were below normal. The next legislature gave counties the right to collect funds for mothers' compensation to a very limited degree. The next gave counties the right to collect funds to pay for the education of blind adults in special schools. We already had our home for the deaf and blind, but it only cared for children. In that same legislature was a bill that provided for the care of the aged by contract rather than in the poorhouses. That bill was enacted into law 4 years later. Thus it will be seen that the seeds that were sown by JOHN MARTIN were taking root in many directions.

EXPENSES OF PUBLIC RELIEF GREATLY INCREASED

When JOHN MARTIN first introduced that humane-welfare bill in 1901, less than $50,000 a year was being spent in this State outside of the county poor farms and our State charitable institutions. Today we are spending as a State government approximately a half-million dollars a month for the welfare of our unfortunate citizens.

The animal trail that JOHN MARTIN described has grown to be a great four-track highway with roaring trains on either side and whirling airplane motors above. The human side of Colorado's life has outgrown the commercial side. To me this is the greatest change in State government that has been effected since I have been reporting its progress.

INTEREST PAYMENTS ON AMERICAN EMBASSY DRAFTS

Mr. BLOOM. Mr. Speaker, I ask unanimous consent for the present consideration of the bill (S. 1896) to provide for interest payments on American Embassy drafts.

The SPEAKER. Is there objection to the request of the gentleman from New York?

Mr. SNELL. Mr. Speaker, I reserve the right to object. I think the gentleman from New York should explain the bill.

Mr. BLOOM. Mr. Speaker, the facts are that during the war between 1915 and 1917, the American Embassy in Turkey drew drafts upon the Secretary of State for needed funds to the extent of $314,695.93 and sold them to bankers for cash. When the drafts were presented in Washington for payment, the applicable appropriation was no longer available. A delay of over 4 years occurred before the principal sum could be paid by the United States Government. Meanwhile the banks which had honored the United States drafts lost interest on their money from the time of presentation until the date of payment, a period of over 4 years. The interest lost at 4¾ percent, the prevailing rate, amounts to $44,403.15. By the act of March 3, 1927, the Congress authorized the

payment of interest upon other sums due purchasers of United States drafts in circumstances exactly similar to those involved in the pending bill.

Mr. SNELL. Why was not this included with the others at that time?

Mr. BLOOM. That I do not know.

Mr. SNELL. When they authorized the payment of interest on the others, why not this?

Mr. BLOOM. This was a separate bill in the House at that time. The bill has passed the Senate several times but has been lost in the House.

Mr. SNELL. And these are private bankers?

Mr. BLOOM. Private bankers.

Mr. SNELL. And it is a debt of the United States?

Mr. BLOOM. Yes. The State Department says that the failure of the United States Government to discharge obligations arising out of the sale of the drafts of its representatives in time of stress is likely to make less marketable the drafts of American representatives at some future time when it is of the utmost importance that money should be promptly obtainable by them.

Mr. SNELL. I do not worry about that part of it, because I think they will take the drafts, but I guess this is all right.

Mr. RICH. What is the rate of interest?

Mr. BLOOM. Four and three-quarters percent.

Mr. RICH. Is there any way to offset this against the debt owing by Turkey.

Mr. BLOOM. No. These are private individuals that own these drafts.

The SPEAKER. Is there objection?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That the sum of $44,403.15 is hereby authorized to be appropriated for payment to the individuals and corporations, or their attorneys in fact in the United States, listed in the report of December 10, 1931, of the Secretary of State to the President, as set forth in Senate Document No. 18, Seventy-second Congress, first session, the amounts specified therein, representing an interest at 4¾ percent on certain drafts drawn on the Secretary of State by the American Embassies in Russia and Turkey and transfers which the Embassy in Turkey undertook to make by cable communications to the Secretary of State during the period from 1915 to 1920, payment of which was deferred, and amounting to a total sum of $44,403.15: *Provided*, That no payment hereunder shall be made by the Secretary of the Treasury, except at the direction of the Secretary of State: *Provided further*, That full authority is hereby vested in the Secretary of State to determine, in his discretion, whether payment in whole or in part should be made, withheld, or deferred.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider laid on the table.

EXHIBITS OF ART, SCIENCE, AND INDUSTRY

The SPEAKER laid before the House the following communication from the Senate:

IN THE SENATE OF THE UNITED STATES,
June 15 (calendar day, June 18), 1936.

Resolved, That the Secretary be directed to return to the House of Representatives, in compliance with its request, the engrossed bill (S. 3843) to provide for the entry under bond of exhibits of arts, sciences, and industries, and products of the soil, mine, and sea, and all other exhibits for exposition purposes.

Mr. CELLER. Mr. Speaker, I ask unanimous consent that the proceedings by which the bill (S. 3843) to provide for the entry under bond of exhibits of arts, sciences, and industries, and products of the soil, mine, and sea, and all other exhibits for exposition purposes, was passed, be vacated.

The SPEAKER. Is there objection to the request of the gentleman from New York?

Mr. SNELL. Reserving the right to object, what was this bill?

Mr. CELLER. When we considered the Consent Calendar on last Monday, June 15, there was called up H. R. 11767, to provide for the entry under bond of certain exhibits to be exhibited at the Port of New York Authority in New York. Under a misapprehension that the Senate bill was identical with the House bill, a request was made that the Senate bill be substituted for the House bill. That was done, and the Senate bill was passed. Subsequently we discovered there were discrepancies between the language of the House bill and the Senate bill. I am requesting that the proceedings by which we passed the Senate bill be vacated, and that we consider the House bill, because the Ways and Means Committee reported a bill with certain amendments and, in justice to the Ways and Means Committee, we have to take this action.

Mr. SNELL. The Ways and Means Committee desires that we now consider the Senate bill?

Mr. CELLER. That is correct.

The SPEAKER. Is there objection to the request of the gentleman from New York [Mr. CELLER]?

There was no objection.

Mr. CELLER. Mr. Speaker, I ask unanimous consent for the present consideration of the bill (S. 3843) to provide for the entry under bond of exhibits of arts, sciences, and industries, and products of the soil, mine, and sea, and all other exhibits for exposition purposes, with an amendment.

The SPEAKER. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That as used in this act—

(a) The term "exhibition" means any permanent exhibition or exhibitions, expositions, fairs, or any temporary exhibition or exhibitions, expositions, or fairs of the arts, sciences, and industries, or of the products of the soil, mine, and sea, or of any hobby, or other like pursuits.

(b) The "Port Authority" means the Port of New York Authority, a municipal corporate instrumentality organized pursuant to a compact entered into on April 30, 1921, between the States of New York and New Jersey, and consented to by the Congress of the United States (ch. 77, U. S. Stat. L., vol. 42, pt. I, p. 174), and designated as the municipal corporate instrumentality of the said States for the purpose of effectuating said compact.

SEC. 2. All articles which shall be imported from foreign countries for the purpose of exhibit or display at an exhibition to be held at any time and from time to time by the Port Authority or by its tenants or licensees in the building known as the Port Authority Commerce Building, located on the block bounded by Eighth and Ninth Avenues, Fifteenth and Sixteenth Streets, Borough of Manhattan, city and State of New York, upon which articles there shall be a tariff, or customs duty, shall be admitted free of such tariff, customs duty, fees, or charges under such regulations as the Secretary of the Treasury shall prescribe; but it shall be lawful, at any time during or at the close of any exhibition, exposition, or fair held pursuant to this act to sell for delivery at the close thereof any goods or property imported for and actually displayed at such exhibition, subject to such regulations for the security of the revenue and for the collection of import duties as the Secretary of the Treasury shall prescribe: *Provided*, That all such articles, when sold or withdrawn for consumption or use in the United States, shall be subject to the duty, if any, imposed upon such articles by the revenue laws in force at the date of their withdrawal and to the requirements of the tariff laws in effect at such date: *Provided further*, That the Port Authority shall be deemed, for customs purposes only, to be the sole consignee of all merchandise imported under the provisions of this act, and that the actual and necessary customs charges for labor, services, and other expenses in connection with the entry, examination, appraisement, release, or custody, together with the necessary charges for salaries of customs officers and employees in connection with the supervision, custody of, and accounting for, articles imported under the provisions of this act, shall be reimbursed by the Port Authority to the Government of the United States under regulations to be prescribed by the Secretary of the Treasury, and that receipts from such reimbursements shall be deposited as refunds to the appropriation from which paid, in the manner provided for in section 524, Tariff Act of 1930: *Provided further*, That all such articles shall, at the expiration of 2 years, be subject to the import duty then in force, unless the same shall have been sold or exported from this country prior to that time: *And provided further*, That nothing in this act contained shall be construed as an invitation, express or implied, from the Government of the United States to any foreign government, state, municipality, corporation, partnership, or individual to import any articles for the purpose of exhibition at the said exhibitions.

With the following amendment:

Strike out all after the enacting clause and insert:

"That all articles which shall be imported from foreign countries for the sole purpose of exhibition or display at a permanent exhibition or exhibitions and/or at a temporary exhibition or exhibitions of the arts, sciences, and industries, and products of the soil, mine, and sea, to be held at any time and from time to time by the Port of New York Authority, a municipal corporate instrumentality organized pursuant to a compact entered into on April 30, 1921,

between the States of New York and New Jersey and consented to by the Congress of the United States (ch. 77, U. S. Stat. L., vol. 42, pt. I, p. 174), and/or by its tenants or licensees in the building known as the Port Authority Commerce Building, located on the block bounded by Eighth and Ninth Avenues, Fifteenth and Sixteenth Streets, Borough of Manhattan, city and State of New York, upon which articles there shall be a tariff or customs duty, shall be admitted free of such tariff, customs duty, fees, or charges under such regulations as the Secretary of the Treasury shall prescribe; but it shall be lawful, at any time during or at the close of any exhibition held pursuant to this act, to sell for delivery at the close thereof any goods or property imported for and actually displayed at such exhibition, subject to such regulations for the security of the revenue and for the collection of import duties as the Secretary of the Treasury shall prescribe: *Provided*, That all such articles, when sold or withdrawn for consumption or use in the United States, shall be subject to the duty, if any, imposed upon such articles by the revenue laws in force at the date of their withdrawal and to the requirements of the tariff laws in effect at such date: *Provided further*, That the Port of New York Authority shall be deemed, for customs purposes only, to be the sole consignee of all merchandise imported under the provisions of this act, and that all necessary governmental expenses incurred as a result of exhibitions authorized under this act, including salaries of customs officials in charge of imported articles, shall be paid to the Treasury of the United States by the Port of New York Authority under regulations to be prescribed by the Secretary of the Treasury: *Provided further*, That all such articles shall, at the expiration of 2 years, be subject to the impost duty then in force, unless the same shall have been sold or exported from this country prior to that period of time: *And provided further*, That nothing in this act contained shall be construed as an invitation, express or implied, from the Government of the United States to any foreign government, state, municipality, corporation, partnership, or individual to import any articles for the purpose of exhibition at the said exhibitions."

The SPEAKER. The question is on agreeing to the amendment.

The amendment was agreed to.

The bill, as amended, was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

ONE HUNDREDTH ANNIVERSARY OF ARRIVAL OF MARCUS AND NARCISSA WHITMAN IN WALLA WALLA, WASH.

Mr. WHITE. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 11555) to authorize the coinage of 50-cent pieces in commemoration of the one hundredth anniversary of the arrival of Marcus and Narcissa Whitman in the Walla Walla Valley, Wash., and the founding of the Waiilatpu Mission, with a Senate amendment, and agree to the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Strike out all after the enacting clause and insert:

"That in commemoration of the one hundredth anniversary of the arrival of Marcus and Narcissa Whitman in the Walla Walla Valley, Wash., and of the founding of the Waiilatpu Mission, there shall be struck at a mint of the United States to be designated by the Director of the Mint 25,000 commemorative medals of a special appropriate single design, size, weight, and composition to be fixed by the Director of the Mint with the approval of the Secretary of the Treasury.

"SEC. 2. Such commemorative medals shall be delivered to the duly authorized officers of the Whitman Centennial, Inc., upon payment to the Director of the Mint of an amount to be fixed by the Director of the Mint not less than the estimated cost of manufacture, including labor, materials, dies, use of machinery, and overhead expenses; and security satisfactory to the Director of the Mint shall be furnished to indemnify the United States for the full payment of such cost.

"SEC. 3. Whoever shall falsely make, forge, or counterfeit or cause or procure to be falsely made, forged, or counterfeited or shall aid in falsely making, forging, or counterfeiting any medal issued under the provisions of this act, or whoever shall sell or bring into the United States or any place subject to the jurisdiction thereof from any foreign place, or have in his possession any such false, forged, or counterfeited medal, shall be fined not more than $1,000 or imprisoned not more than 2 years, or both."

Amend the title so as to read: "An act to authorize the striking of an appropriate medal in commemoration of the one hundredth anniversary of the arrival of Marcus and Narcissa Whitman in the Walla Walla Valley, Wash., and the founding of the Waiilatpu Mission."

The SPEAKER. Is there objection to the request of the gentleman from Idaho?

Mr. RICH. Reserving the right to object, Mr. Speaker, what does this bill provide?

Mr. WHITE. It is nothing but to strike medals instead of coins.

Mr. RICH. Now you have gone into striking medals instead of coins. Is that inflation? [Laughter.]

Mr. WHITE. No. But it is to commemorate the great Marcus Whitman.

Mr. RICH. Are they going to be used as coins?

Mr. WHITE. No; just as souvenirs.

Mr. RICH. Why do you want the Government to furnish these souvenirs?

Mr. WHITE. They are going to pay for them. They will cost the Government nothing.

Mr. RICH. Who is going to pay for them?

Mr. WHITE. The memorial association.

Mr. RICH. And it will cost the Government nothing to put these medals out?

Mr. WHITE. No.

Mr. RICH. Are they Democratic medals?

Mr. WHITE. They are good old inflationary medals. [Laughter.]

The SPEAKER. Is there objection?

There was no objection.

The Senate amendment was agreed to.

A motion to reconsider was laid on the table.

RETIREMENT OF EMPLOYEES OF ALASKA RAILROAD

Mr. RAMSPECK. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 2293) for the retirement of employees of the Alaska Railroad, Territory of Alaska, who are citizens of the United States.

The SPEAKER. Is there objection to the request of the gentleman from Georgia?

Mr. SNELL. Mr. Speaker, reserving the right to object, as I understand, this simply puts the employees of the Alaska Railroad in exactly the same status as employees of the Panama Canal Railway?

Mr. RAMSPECK. That is correct as to the operating employees. All other employees, for instance the clerical employees, are put under the regular civil-service retirement.

Mr. SNELL. But these people have never been covered before and, as a matter of fact, they are paying their retirement-fund payments?

Mr. RAMSPECK. That is correct.

Mr. RICH. Reserving the right to object, you are interested in trying to put employees under the civil service when you retire them, but you are not so interested in putting employees under civil service when you make appointments.

Mr. RAMSPECK. We will give the gentleman a chance to vote for a bill like that directly.

The SPEAKER. Is there objection to the request of the gentleman from Georgia?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That all employees of the Alaska Railroad, Territory of Alaska, except the clerical employees, who are citizens of the United States and whose tenure of employment is not intermittent nor of uncertain duration, shall come within the provisions of this act: *Provided, however*, That employees of the Alaska Railroad who in the past have been, or in the future may be, employed thereon for the period of at least 3 months per year for at least 2 years shall come within the provisions of this act: *Provided further*, That the provisions of the act entitled "An act for the retirement of employees in the classified civil service, and for other purposes", approved March 22, 1920, as amended, are hereby extended to apply to all clerical employees of the Alaska Railroad who are citizens of the United States.

SEC. 2. All employees to whom this act applies shall, after reaching the age of 62 years and having rendered at least 15 years of service in the Territory of Alaska, be automatically separated from the service and retired on the annuity provided for herein; and all salary, pay, or compensation shall cease from that date: *Provided*, That if the Secretary of the Interior certifies to the Civil Service Commission that, by reason of his efficiency and willingness to remain in the service, the continuance of such employee therein would be advantageous to the service, such employee may be retained for a term not exceeding 2 years, upon the approval and certification by the Civil Service Commission, and, at the end of the 2-year term, by similar approval and certification, be continued for an additional term not exceeding 2 years: *Provided, however*, That no employee shall be continued in the service beyond the age of retirement for more than 4 years, except that where the Secretary of the Interior certifies, and the Civil Service Commission agrees, that by reason of expert knowledge and special qualifications the continuance of the employee would be advantageous to the service, further extensions of 2 years may be granted.

All employees to whom this act applies who would be eligible for retirement from the service upon attaining the age of 62 years shall, after attaining the age of 60 years and having rendered at least 30 years' service, computed as provided in section 7 of this act, be eligible for retirement on an annuity as provided in section 6 of this act. Retirement under the provisions of this paragraph shall be at the option of the employee, but if such option is not exercised prior to the date upon which the employee would otherwise be eligible for retirement from the service the provisions of this act with respect to automatic separation from the service shall apply.

SEC. 3. Any employee to whom this act applies who shall have attained the age of 55 and rendered at least 25 years of service, of which not less than 15 years shall have been rendered in the Territory of Alaska, may voluntarily retire on an annuity equivalent in value to the present worth of a deferred annuity, beginning at the age at which the employee would otherwise have become eligible for retirement, computed as provided in section 6 of this act, the present worth of said deferred annuity to be determined on the basis of the American Experience Table of Mortality and an interest rate of 4 percent compounded annually.

SEC. 4. (a) Any employee to whom this act applies who shall have attained the age of 55 years and shall have rendered at least 15 years of service on the Alaska Railroad, and who shall have become physically or mentally disqualified to perform satisfactorily and efficiently the duties of his position or of any other position of approximately equal compensation to which he might be assigned, because of the strenuous or hazardous nature of such position, shall, upon the request or order of the Secretary of the Interior, be retired on an annuity computed in accordance with the provisions of section 6 hereof: *Provided*, That no such employees shall be so retired except after an examination and finding as to his mental or physical disqualifications as hereinafter provided.

(b) Any employee to whom this act applies who shall have served for a total period of not less than 5 years, and who, before becoming eligible for retirement under the conditions defined in section 2 hereof, shall have become totally disabled for useful and efficient service in the grade or class of position occupied by the employee, by reason of disease or injury not due to vicious habits, intemperance, or willful misconduct on the part of the employee, shall upon his own application or upon request or order of the Secretary of the Interior, be retired on an annuity computed in accordance with the provisions of section 6 hereof.

No claim shall be allowed under the provisions of this section unless the application for retirement shall have been executed prior to the applicant's separation from the service or within 6 months thereafter. No employee shall be retired under the provisions of this section unless he or she shall have been examined by a medical officer of the United States, or a duly qualified physician or surgeon or board of physicians or surgeons designated by the United States Civil Service Commission for that purpose, and found to be disabled in the degree and in the manner specified herein.

Every annuitant retired under the provisions of this section, unless the disability for which he was retired be permanent in character, shall, at the expiration of 1 year from the date of such retirement and annually thereafter, until reaching retirement age as defined in section 2 hereof, be examined under the direction of the United States Civil Service Commission by a medical officer of the United States or a duly qualified physician or surgeon or board of physicians or surgeons designated by the United States Civil Service Commission for that purpose, in order to determine the nature and degree of the annuitant's disability, if any. If an annuitant shall recover before reaching the age at which he would otherwise have become eligible for retirement and be restored to an earning capacity which would permit him to be appointed to some appropriate position fairly comparable in compensation to the position occupied at the time of retirement, payment of the annuity shall be continued temporarily to afford the annuitant opportunity to seek such available position, but not in any case exceeding 90 days from the date of the medical examination showing such recovery.

If the annuitant shall fail to obtain reemployment through no fault of his own within the 90-day period in any position included in the provisions of this act, he shall be considered as involuntarily separated from the service as of the date he shall have been retired for disability, and, if otherwise eligible, entitled to an annuity under section 5 of this act to begin at the close of said 90-day period based on the service rendered prior to his retirement for disability.

The United States Civil Service Commission may order or direct at any time such medical or other examination as it shall deem necessary to determine the facts relative to the nature and degree of disability of any employee retired on an annuity under this section. Should an annuitant fail to appear for any examination required under this section, payment of the annuity shall be suspended until the requirement shall have been met.

In all cases where the annuity is discontinued under the provisions of this section before the annuitant has received a sum equal to the amount credited to his individual account as provided in section 11 (a) hereof, together with interest at 4 percent per annum compounded on June 30 of each year, the difference, unless he shall become reemployed in a position within the purview of this act, shall be paid to the retired employee, as provided in section 11 (b) hereof, upon application therefor in such form and manner as the United States Civil Service Commission may direct. In case of reemployment in a position within the purview of this act the amount so refunded shall be redeposited as provided in section 11 (b) hereof.

No person shall be entitled to receive an annuity under the provisions of this act, and compensation under the provisions of the act of September 7, 1916, entitled "An act to provide compensation for employees of the United States suffering injuries while in the performance of their duties, and for other purposes", or such act as amended, covering the same period of time; but this provision shall not be so construed as to bar the right of any claimant to the greater benefit conferred by either act for any part of the same period of time.

Fees for examinations made under the provisions of this section by physicians and surgeons who are not medical officers of the United States shall be fixed by the United States Civil Service Commission, and such fees, together with the employee's reasonable traveling and other expenses incurred in order to submit to such examinations, shall be paid out of the appropriations for the cost of administering this Act.

SEC. 5. Should any employee 55 years of age or over to whom this act applies, after having served for a total period of not less than 15 years and before becoming eligible for retirement under the conditions defined in section 2 hereof, become involuntarily separated from the service, not by removal for cause on charges of misconduct or delinquency, such employee shall be paid as he may elect, either—

(a) The amount of the deductions from his basic salary, pay, or compensation, including accrued interest thereon computed as prescribed in section 11 (b) hereof;

(b) An immediate life annuity beginning at the date of separation from the service, having a value equal to the present worth of a deferred annuity beginning at the age at which the employee would otherwise have become eligible for retirement, computed as provided in section 6 of this act, the present worth of said deferred annuity to be determined on the basis of the American Experience Table of Mortality and an interest rate of 4 percent compounded annually; or

(c) A deferred annuity beginning at the age at which the employee would otherwise become eligible for retirement computed as provided in section 6 of this act.

Any employee who has served for a period of not less than 15 years, and who is 45 years of age, or over, and less than 55 years, and who becomes separated from the service under the conditions set forth in this section shall be entitled to a deferred annuity, but such employee may, upon reaching the age of 55 years, elect to receive an immediate annuity as provided in paragraph (b) of this section.

Should an annuitant under the provisions of this section be reemployed in any position included in the provisions of this act, payment of annuity shall not be allowed covering the period of such reemployment, and an annuity based upon involuntary separation shall not be allowed upon subsequent separation from the service unless such subsequent separation shall be involuntary.

SEC. 6. The annuity of an employee retired under the provisions of this act shall be composed of—

(1) A sum equal to $37.50 multiplied by the number of years of service, not to exceed 30 years, rendered (a) on the Alaska Railroad or (b) in the military or naval service of the United States in the tropics or in Alaska; and

(2) The annuity purchasable with the sum to the credit of the employee's individual account, including accrued interest thereon computed as prescribed in section 11 (a) hereof, according to the experience of the Alaska Railroad retirement and disability fund as may from time to time be set forth in tables of annuity values by the board of actuaries; and

(3) Thirty dollars multiplied by the number of years of service rendered and not allowable under paragraph (1) hereof: *Provided*, That the number of years of service to be used in computing the allowance under paragraph (3) shall not exceed the difference between 30 and the number of allowable years of service under paragraph (1); and

(4) Thirty-six dollars multiplied by the number of years' service rendered in the Territory of Alaska in the construction of the Alaska Railroad, either in the employ of the Alaska Engineering Commission and the Alaska Railroad or of either of them, between March 12, 1914, and July 1, 1923, plus the number of years' service, if any, rendered on the Isthmus of Panama either in the employ of the Isthmian Canal Commission or the Panama Railroad Co. between May 4, 1904, and April 1, 1914.

In no case, however, shall the total annuity paid exclusive of that provided in paragraph (4) hereof, be less than an amount equal to the sum of—

The average annual basic salary, pay, or compensation, not to exceed $2,000 per annum, received by the employee during any 5 consecutive years of allowable service at the option of the employee, multiplied by the number of years of service used in computing the annuity under paragraph (1) hereof, and divided by 40, and the average annual basic salary, pay, or compensation, not to exceed $1,600 per annum, received by the employee during any 5 consecutive years of allowable service at the option of the employee, multiplied by the number of years of service used in computing the annuity under paragraph (3) hereof, and divided by 40: *Provided, however*, That the sum to be used in computing the annuity purchaseable under paragraph (2) of this section shall include only contributions made subsequent to June 30, 1935: *And provided further*, That the number of years of service to be used in computing the annuity under paragraphs (1) and (3) of

this section shall not exceed the difference between 30 and the number of years of allowable service rendered prior to July 1, 1935.

The annuity granted under paragraphs (1), (3), and (4) of this section shall not exceed three-fourths of the average annual basic salary, pay, or compensation received by the employee during any 5 consecutive years of allowable service at the option of the employee.

Any employee at the time of his retirement may elect to receive, in lieu of the life annuity herein described, an increased annuity of equivalent value which shall carry with it a proviso that no unexpended part of the principal upon the annuitant's death shall be returned. For the purposes of this act all periods of service shall be computed in accordance with section 7 hereof, and the annuity shall be fixed at the nearest multiple of 12.

The term "basic salary, pay, or compensation", wherever used in this act, shall be so construed as to exclude from the operation of the act all bonuses, allowances, overtime pay, or salary, pay, or compensation given in addition to the base pay of the position as fixed by law or regulation.

SEC. 7. Subject to the provisions of section 8 hereof, the service which shall form the basis for calculating the amount of any benefit provided in this act shall be computed from the date of original employment, whether as a classified or an unclassified employee, in the civil service of the United States or under the municipal government of the District of Columbia, including periods of service at different times and in one or more departments, branches, or independent offices of the Government and service in Alaska with the Alaska Engineering Commission and the Alaska Railroad, or of either of them, and service on the Isthmus of Panama with the Isthmian Canal Commission, the Panama Canal, or the Panama Railroad Co.; also periods of service performed overseas under authority of the United States and periods of honorable service in the Army, Navy, Marine Corps, or Coast Guard of the United States. In the case of an employee, however, who is eligible for and elects to receive a pension under any law, or retired pay on account of military or naval service, or compensation under the War Risk Insurance Act, the period of his military or naval service upon which such pension, retired pay, or compensation is based shall not be included, but nothing in this act shall be so construed as to affect in any manner his right to a pension, or to retired pay, or to compensation under the War Risk Insurance Act in addition to the annuity herein provided.

In computing length of service for the purposes of this act all periods of separations from the service, and so much of any leave of absence without pay as may exceed 6 months in the aggregate in any calendar year, shall be excluded.

In determining the total periods of service upon which the allowances are to be computed under section 6 hereof, the fractional part of a month, if any, shall be eliminated from each respective total period.

SEC. 8. All employees coming within the provisions of this act after the effective date thereof shall be required to deposit with the Treasurer of the United States to the credit of the Alaska Railroad retirement and disability fund referred to in section 9 hereof, under rules to be prescribed by the United States Civil Service Commission, a sum equal to 2½ percent of the employee's basic salary, pay, or compensation received for services rendered after July 31, 1920, and prior to July 1, 1926, and also 3½ percent of the basic salary, pay, or compensation for services rendered subsequent to June 30, 1926, together with interest computed at the rate of 4 percent per annum compounded on the last day of each fiscal year, but such interest shall not be included for any period during which the employee was separated from the service. Upon making such deposit the employee shall be entitled to credit for the period or periods of service involved: *Provided*, That failure to make such deposit shall not deprive the employee of credit for any past service for which no deposit is required under the provisions of this section.

SEC. 9. Beginning July 1, 1935, there shall be deducted and withheld from the basic salary, pay, or compensation of each employee to whom this act applies a sum equal to 5 percent of such employee's basic salary, pay, or compensation. The amounts so deducted and withheld from the basic salary, pay, or compensation of each employee shall be deposited with the Treasurer of the United States to the credit of a special fund to be known as "the Alaska Railroad retirement and disability fund", in accordance with the procedure now or hereafter prescribed for covering into the United States Treasury the deductions from salaries under the Civil Service Retirement Act of May 22, 1920, as amended, and said fund is hereby appropriated for the payment of the annuities, refunds, and allowances as provided in this act.

The United States Civil Service Commission is hereby authorized and directed to ascertain the amount, if any, including accrued interest, due employees of the Alaska Railroad coming within the purview of this act from the civil-service retirement and disability funds created by the act of May 22, 1920, and to certify same to the Secretary of the Treasury, who is hereby authorized and directed to transfer such amount on the books of the Treasury Department to the Alaska Railroad retirement and disability fund.

Every employee coming within the provisions of this act shall be deemed to consent and agree to the deductions from salary, pay, or compensation as provided herein, and payment less such deductions shall be a full and complete discharge and acquittance of all claims and demands whatsoever for all regular services rendered by such employee during the period covered by such payment, except the right to the benefits to which he shall be entitled under the provisions of this act, notwithstanding the provisions of any other law, rule, or regulation affecting the salary, pay, or compensation of any person or persons to whom this act applies.

SEC. 10. The Secretary of the Treasury shall invest from time to time in interest-bearing securities of the United States or in Federal farm-loan bonds such portions of the Alaska Railroad retirement and disability fund as in his judgment may not be immediately required for the payment of the annuities, refunds, and allowances herein authorized, and the incomes derived from such investments shall constitute a part of such fund.

SEC. 11. (a) Under such regulations as may be prescribed by the Civil Service Commission the amounts deducted and withheld from the basic salary, pay, or compensation of each employee for credit to the civil-service retirement and disability fund, covering service rendered prior to the effective date of this act shall be credited to an individual account of such employee to be maintained by the Alaska Railroad, and the amounts deducted and withheld from the basic salary, pay, or compensation of each employee for credit to the Alaska Railroad retirement and disability fund, covering service from and after the effective date of this act, less the sum of $1 per month or major fraction thereof, shall similarly be credited to such individual account.

(b) In the case of any employee to whom this act applies who shall be transferred to a position not within the purview of the act, or who shall become absolutely separated from the service before becoming eligible for retirement on annuity, the amount credited to his individual account shall be returned to such employee together with interest at 4 percent per annum compounded on June 30 of each year: *Provided*, That when any employee becomes involuntarily separated from the service, not by removal for cause on charges of misconduct or delinquency, the total amount of his deductions with interest thereon shall be paid to such employee: *And provided further*, That all moneys so returned to an employee must, upon reinstatement, retransfer, or reappointment to a position coming within the purview of this act, be redeposited with interest before such employee may derive any benefits under this act, except as provided in this section, but interest shall not be required covering any period of separation from the service.

(c) In case an annuitant shall die without having received in annuities purchased by the employee's contributions as provided in (2) of section 6 hereof an amount equal to the total amount to his credit at time of retirement, the amount remaining to his credit shall be paid in one sum to his legal representatives upon the establishment of a valid claim therefor, unless the annuitant shall have elected to receive an increased annuity as provided in section 6 hereof.

(d) In case an employee shall die without having attained eligibility for retirement or without having established a valid claim for annuity, the total amount of his deductions with interest thereon shall be paid to the legal representatives of such employee.

(e) In case a former employee entitled to the return of the amount credited to his individual account shall become legally incompetent, the total amount due may be paid to a duly appointed guardian or committee of such employee.

(f) If the amount of accrued annuity or of refund due a former employee who is legally incompetent does not exceed $1,000, and if there has been no demand upon the United States Civil Service Commission by a duly appointed executor, administrator, guardian, or committee, payment may be made, after the expiration of 30 days from date of death or of separation from the service, as the case may be, to such person or persons as may appear in the judgment of the United States Civil Service Commission to be legally entitled thereto, and such payment shall be a bar to recovery by any other person.

SEC. 12. Annuities granted under the terms of this act shall be due and payable in monthly installments on the first business day of the month following the month or other period for which the annuity shall have accrued; and payment of all annuities, refunds, and allowances granted hereunder shall be made by checks drawn and issued by the disbursing clerk for the payment of pensions in such form and manner and with such safeguards as shall be prescribed by the United States Civil Service Commission in accordance with the laws, rules, and regulations governing accounting that may be found applicable to such payments.

Applications for annuity shall be in such form as the United States Civil Service Commission may prescribe, and shall be supported by such certificates from the heads of departments, branches, or independent offices of the Government, or the Alaska Railroad in which the applicant has been employed as may be necessary to the determination of the rights of the applicant. Upon receipt of satisfactory evidence the United States Civil Service Commission shall forthwith adjudicate the claim of the applicant, and if title to annuity be established, a proper certificate shall be issued to the annuitant.

Annuities granted under the provisions of sections 2 and 3 of this act shall commence from the date of separation from the service and shall continue during the life of the annuitant. Annuities granted under the provisions of sections 4 and 5 hereof shall be subjected to the limitations specified in said sections.

SEC. 13. In the case of those employees of the Alaska Railroad who before the effective date of this act shall have been retired on annuity under the provisions of the act of May 22, 1920, or said act

as amended, or as extended by Executive orders, the annuity shall be computed, adjusted, and paid under the provisions of this act, but this act shall not be so construed as to reduce the annuity of any person retired before its effective date, nor shall any increase in annuity commence before such effective date.

All those who were separated from the service of the Alaska Railroad subsequent to August 1, 1920, and before the effective date of this act, not by removal for cause on charges of misconduct or delinquency, without having been granted retirement annuities due to the fact that all of their service which would be allowable under the provisions of this act was not counted in arriving at their total service, and who are otherwise eligible by having made the necessary contributions to the retirement and disability funds as herein provided, shall, from the effective date of this act, be paid annuities in accordance with the provisions of this act.

SEC. 14. The board of actuaries selected by the United States Civil Service Commission under the provisions of section 16 of the act of July 3, 1926, shall make a valuation of the Alaska Railroad retirement and disability fund at intervals of 5 years, or oftener, if deemed necessary by the United States Civil Service Commission.

SEC. 15. For the purpose of administration, except as otherwise provided herein, the United States Civil Service Commission, is hereby authorized and directed to perform, or cause to be performed, any and all acts and to make such rules and regulations as may be necessary and proper for the purposes of carrying the provisions of this act into full force and effect.

The United States Civil Service Commission shall make a detailed comparative report annually, showing all receipts and disbursements on account of annuities, refunds, and allowances under this act, together with the total number of persons receiving annuities and the total amounts paid them; and he shall transmit to Congress the reports and recommendations of the board of actuaries.

The United States Civil Service Commission shall submit annually to the Bureau of the Budget estimates of the appropriation necessary to finance the Alaska Railroad retirement and disability fund, and to continue this act in full force and effect.

SEC. 16. None of the moneys mentioned in this act shall be assignable, either in law or equity, or be subject to execution, levy, garnishment, or attachment, or other legal process.

SEC. 17. This act shall take effect July 1, 1935, and from and after that date the provisions of the Civil Service Retirement Act of May 22, 1920, as amended, shall not apply to the employees of the Alaska Railroad or to any other employees coming within the provisions of this act: *Provided, however,* That any employee of the Alaska Railroad who shall attain the age of eligility for retirement without having rendered sufficient service on the Alaska Railroad to entitle him to be retired on an annuity as provided by section 2 hereof, but whose aggregate employment under the United States would be sufficient in character and duration to entitle him to receive an annuity under the provisions of the Civil Service Retirement Act of May 22, 1920, as amended, will be eligible to retire and receive an annuity under the provisions of that act and payable from the civil-service retirement and disability fund; and in such event the employee shall be entitled, upon separation from the service, to the refund, under such regulations as the United States Civil Service Commission may prescribe, of any excess in the deductions made from his salary, pay, or compensation under the provisions of this act, with interest, over those which would have been made at the rate fixed by the Civil Service Retirement Act, as amended; and the United States Civil Service Commission shall certify to the Secretary of the Treasury the amount remaining to the credit of such employee in the Alaska Railroad retirement and disability fund, and the said amount shall be transferred on the books of the Treasury Department to the civil-service retirement and disability fund.

SEC. 18. Retirement authorized by law of Federal personnel of whatever class, civil, military, naval, judicial, legislative, or otherwise, and for whatever cause retired, shall take effect on the 1st day of the month following the month in which said retirement would otherwise be effective, and said 1st day of the month for retirements hereafter made shall be for all purposes in lieu of such date for retirement as may now be authorized; except that the rate of active or retired pay or allowance shall be computed as of the date retirement would have occurred if this act had not been enacted.

SEC. 19. For the purposes of this act, service in the employ of the Alaska Engineering Commission shall be considered service of and on the Alaska Railroad.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

CONDITIONS OF PUBLIC CONTRACTS

The SPEAKER. The unfinished business is the vote on the bill (S. 3055) to provide conditions for the purchase of supplies and the making of contracts, loans, or grants by the United States, and for other purposes, which was under consideration yesterday.

Mr. ALLEN. Mr. Speaker, I make the point of order that there is not a quorum present.

The SPEAKER. The Chair will count. [After counting.] Two hundred and thirty-seven Members are present, a quorum.

The question is on the passage of the bill S. 3055.

The question was taken, and the bill was passed.

A motion to reconsider the vote by which the bill was passed was laid on the table.

The title was amended so as to read: "An act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes."

DISTRICT OF COLUMBIA APPROPRIATION BILL, 1937

Mr. BLANTON submitted the following conference report (Rept. No. 3042) and statement on the bill (H. R. 11581) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of such District for the fiscal year ending June 30, 1937, and for other purposes:

CONFERENCE REPORT

The committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate and amendments of the House thereto to the bill (H. R. 11581) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of such District for the fiscal year ending June 30, 1937, and for other purposes, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 7, 11, 24, 27, 44, 52, 64, 84, and 85.

That the House recede from its disagreement to the amendments of the Senate numbered 16, 17, 26, 28, 30, 33, 34, 35, 42, 49, 50, 51, 58, 66, and 79, and agree to the same.

Amendment numbered 5: That the House recede from its disagreement to the amendment of the Senate numbered 5, and agree to the same with an amendment, as follows: In lieu of the sum proposed, insert "$15,000"; and the Senate agree to the same.

Amendment numbered 37: That the House recede from its disagreement to the amendment of the Senate numbered 37, and agree to the same with an amendment, as follows: In lieu of the sum proposed, insert "$687,395"; and the Senate agree to the same.

Amendment numbered 38: That the House recede from its disagreement to the amendment of the Senate numbered 38, and agree to the same with an amendment, as follows: In lieu of the sum proposed, insert "$175,940"; and the Senate agree to the same.

Amendment numbered 39: That the House recede from its disagreement to the amendment of the Senate numbered 39, and agree to the same with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following: "and including $10,000 for health and physical-education teachers to supervise play in schools of the central area, bounded by North Capitol Street on the east, Florida Avenue on the north, the Mall on the south, and Twelfth Street on the west, $7,010,840"; and the Senate agree to the same.

Amendment numbered 53: That the House recede from its disagreement to the amendment of the Senate numbered 53, and agree to the same with an amendment, as follows: In lieu of the sum proposed, insert "$1,567,500"; and the Senate agree to the same.

Amendment numbered 54: That the Senate recede from its disagreement to the amendment of the House to the amendment of the Senate numbered 54, and agree to the same with an amendment, as follows: In lieu of the sum proposed in the amendment of the House to the amendment of the Senate, insert: "$3,339,950"; and the House agree to the same.

Amendment numbered 56: That the Senate recede from its disagreement to the amendment of the House to the amendment of the Senate numbered 56, and agree to the same with an amendment, as follows: In lieu of the sum proposed in the amendment of the House to the amendment of the Senate, insert: "$63,375"; and the House agree to the same.

Amendment numbered 57: That the Senate recede from its disagreement to the amendment of the House to the amendment of the Senate numbered 57, and agree to the same with an amendment, as follows: In lieu of the sum proposed in the amendment of the House to the amendment of the Senate, insert: "$47,875"; and the House agree to the same.

Amendment numbered 65: That the House recede from its disagreement to the amendment of the Senate numbered 65, and agreed to the same with an amendment, as follows: In lieu of the sum proposed, insert "$111,800"; and the Senate agree to the same.

Amendment numbered 78: That the House recede from its disagreement to the amendment of the Senate numbered 78, and agree to the same with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following: "$1,600,000, of which not to exceed $200,000 shall be available for personal services"; and the Senate agree to the same.

Amendment numbered 86: That the House recede from its disagreement to the amendment of the Senate numbered 86, and

agree to the same with an amendment, as follows: In lieu of the number proposed, insert "6"; and the Senate agree to the same.

The committee of conference report in disagreement amendments numbered 1 and 75.

THOMAS L. BLANTON,
B. M. JACOBSEN,
GEO. W. JOHNSON,
CLARENCE CANNON,
JOHN TABER,
Managers on the part of the House.

ELMER THOMAS,
CARTER GLASS,
WILLIAM H. KING,
GERALD P. NYE,
Managers on the part of the Senate.

STATEMENT

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendments of the Senate remaining in disagreement to the bill (H. R. 11581) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of such District for the fiscal year ending June 30, 1937, and for other purposes, submit the following statement in explanation of the effect of the action agreed upon and recommended as to each of such amendments in the accompanying conference report, namely:

On amendments nos. 5, 7, and 11, relating to general expenses: Appropriates $15,000 for smoke-regulation control, instead of $11,000, as proposed by the House, and $18,000, as proposed by the Senate; appropriates $99,520 for personal services, office of corporation counsel, as proposed by the House, instead of $104,120, as proposed by the Senate, and appropriates $69,000 for personal services, Public Utilities Commission, as proposed by the House, instead of $75,000, as proposed by the Senate.

On amendments nos. 16 and 17: Appropriates $27,000 for contingent and miscellaneous expenses, as proposed by the Senate, instead of $26,000, as proposed by the House, thus making available for traveling expenses $2,000, instead of $1,000, as the House had proposed.

On amendment no. 24: Appropriates $352,020 for personal services, free public library, as proposed by the House, instead of $354,020, as proposed by the Senate.

On amendments nos. 26, 27, and 28, relating to street and road improvement and repair: Appropriates $8,400 for paving sections of Runnymede Place and Nevada Avenue NW., as proposed by the Senate, and authorizes contractural obligations of $350,000 on account of the Chain Bridge and approach roads, as proposed by the House, instead of $450,000, as proposed by the Senate.

On amendment no. 30: Appropriates $230,170 for cleaning and repairing sewers and basins, etc., as proposed by the Senate, instead of $226,820, as proposed by the House.

On amendments nos. 33, 34, and 35, relating to public playgrounds: Appropriates $122,500 for personal services, as proposed by the Senate, instead of $116,000, as proposed by the House; appropriates $40,800 for general maintenance, as proposed by the Senate, instead of $39,000, as proposed by the House; and appropriates $29,700 on account of summer use of public-school playgrounds, as proposed by the Senate, instead of $28,000, as proposed by the House.

On amendments nos. 37, 38, 39, 42, 44, 49, 50, 51, 52, and 53, relating to public schools: Appropriates for personal services of administrative and supervisory officers, $687,395, instead of $679,995, as proposed by the House, and $691,795, as proposed by the Senate; appropriates $175,940 for personal services of clerks and other employees, instead of $169,100, as proposed by the House, and $193,400, as proposed by the Senate; appropriates $7,010,840 for personal services of teachers and librarians, instead of $6,962,240, as proposed by the House, and $7,113,640, as proposed by the Senate, of which agreed amount $10,000 will be available for health and physical-education teachers to supervise play in schools of a certain defined area, as proposed by the Senate, but no part thereof will be available for compensation and traveling expenses of educational consultants, employed on special educational projects, as the Senate proposed; appropriates $75,000 for the Community Center Department, as proposed by the Senate, instead of $50,000, as proposed by the House; appropriates $22,000 for transportation of physically defective pupils, as proposed by the House, instead of $26,000, as proposed by the Senate; appropriates $113,000 for furnishing and equipping the Anacostia Junior-Senior High School, as proposed by the Senate, instead of $90,000, as proposed by the House; appropriates $165,000 for construction of an addition to the Alice Deal Junior High School, as proposed by the Senate, and strikes out the appropriation of $83,000 proposed by the Senate for a stadium and athletic field at the Woodrow Wilson Senior High School. All appropriations for character education in Senate amendments 37, 38, and 39, have been eliminated.

On amendments nos. 54, 56, and 57, relating to the Metropolitan Police: Appropriates $3,339,950 for pay and allowances of officers and members of the Metropolitan Police force, instead of $3,286,100, as proposed by the House, and $3,390,200, as proposed by the Senate; appropriates $68,375 for miscellaneous and contingent expenses, instead of $67,750, as proposed by the House, and $69,000, as proposed by the Senate, and appropriates $47,875 for uniforms, instead of $46,000, as proposed by the House, and $49,750, as proposed by the Senate.

On amendment no. 58: Appropriates $185,790 for personal services, Health Department, as proposed by the Senate, instead of $180,150, as proposed by the House.

On amendments nos. 64 and 65: Appropriates $111,800 for salaries, Court of Appeals, instead of $105,500, as proposed by the House, and $115,400, as proposed by the Senate, and eliminates provision proposed by the Senate for the appointment and compensation of a marshal, at $3,600 per annum.

On amendment no. 66: Appropriates $115,300 for personal services, Board of Public Welfare, as proposed by the Senate, instead of $113,140, as proposed by the House.

On amendment no. 78: Appropriates $1,600,000 for public assistance to residents of the District of Columbia who are unemployed or are otherwise in distress because of the existing emergency, instead of $1,506,020, as proposed by the House, and $1,656,200, as proposed by the Senate, and restores the limitation proposed by the House upon expenditures for personal services, fixing the amount, however, at $200,000, instead of $177,800, as proposed by the House.

On amendment no. 79: Appropriates $5,000 for aid and support of the National Library for the Blind, as proposed by the Senate.

On amendment no. 84: Strikes out the authorization proposed by the Senate for the Commissioners of the District of Columbia, at their discretion, to secure and install, without expense to such District, mechanical parking meters or devices on local thoroughfares and public spaces.

On amendment no. 85: Strikes out the provision proposed by the Senate as a substitute for the Snow and Ice Removal Act, approved September 16, 1922.

On amendment no. 86: Corrects a section number.

Disagreements

The committee of conference report in disagreement the following amendments:

On amendment no. 1: Relating to the amount of Federal contribution toward the expenses of the District of Columbia.

On amendment no. 75: Relating to the admission of pay patients to the Children's Tuberculosis Sanatorium.

THOMAS L. BLANTON,
B. M. JACOBSEN,
GEO. W. JOHNSON,
CLARENCE CANNON,
JOHN TABER,
Managers on the part of the House.

Mr. BLANTON. Mr. Speaker, I call up the conference report on the bill (H. R. 11581) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of such District for the fiscal year ending June 30, 1937, and for other purposes, and ask unanimous consent that the statement be read in lieu of the report.

The SPEAKER. The gentleman from Texas calls up the conference report on the District of Columbia appropriation bill and asks unanimous consent that the statement be read in lieu of the report. Is there objection?

There was no objection.

The Clerk read the statement of the managers on the part of the House.

The SPEAKER pro tempore (Mr. ROGERS of New Hampshire). The gentleman from Texas is recognized for 1 hour.

Mr. BLANTON. Mr. Speaker, I am deeply indebted to my able and distinguished colleagues who during several months have untiringly labored with me as managers on the part of the House in trying to adjust with the Senate conferees the 87 amendments which the Senate placed upon this bill. I refer to the gentleman from Missouri [Mr. CANNON], the gentleman from Iowa [Mr. JACOBSEN], the gentleman from West Virginia [Mr. JOHNSON], the gentleman from Pennsylvania [Mr. DITTER], and the gentleman from New York [Mr. TABER]. They deserve the commendation of this House and the thanks of the country for duties well and conscientiously performed.

During our entire hearings on this 83-page bill, and in determining what should and what should not go into it, or into our report to the House, there has at all times been strict harmony and no political partisanship whatsoever. We have all worked together shoulder to shoulder. There was unanimous agreement as to the conduct of our hearings. There was unanimous agreement concerning every item put in or left out of the bill. There was unanimous agreement concerning everything that went into our committee report. It has been a pleasure and satisfaction to work with these gentlemen. They are all good Americans, fundamentally sound and true. They have been fair, and just, and patient, and most considerate of the rights of the people living in

the District of Columbia, and yet at the same time they have been true to protecting the rights of the people living in the 48 States of this Nation.

Mr. Speaker, I yield to the distinguished gentleman from Missouri [Mr. CANNON] such time as he may desire within the hour.

Mr. CANNON of Missouri. Mr. Speaker, I congratulate Judge BLANTON on this bill, one of the most difficult in many respects reported from conference during the session. I congratulate the District of Columbia on the bill, which exceeds the estimates by a larger amount than any District appropriation bill passed by the House within my recollection. And I congratulate the House on the passage of a bill which includes practically every major proposition on which it has instructed its conferees.

This is the last of the appropriation bills. With the adoption of this conference report we shall have disposed of the annual supply bills for this session and this Congress. In view of this fact I want to take advantage of the opportunity to recur to a statement made here the other day by the gentleman from Texas [Mr. BUCHANAN], chairman of the Committee on Appropriations, in my opinion one of the most efficient, and certainly one of the most successful, chairmen who has ever served in that important position—in which he asked the indulgence of the Members of the House in their attitude toward the members of the committee on Appropriations, who must present these appropriation bills and handle them on the floor. I doubt whether the average Member stops to consider the sacrifice made by these men who are charged with the duty of making up these bills and fighting them through the House.

Mr. Speaker, the guarding of the Public Treasury, the holding of Government expenditures within reasonable limits, is one of the most vital and one of the most trying duties that can devolve upon a Member during his service in either branch of the Congress. Any government or any administration which spends more money than it ought to spend, which exceeds the revenues of the Government by a greater amount than the emergencies or the exigencies justify, is on the brink of an abyss the depths of which cannot be plumbed.

But the committees charged with the responsibility of keeping Government expenditures within bounds are shouldered with a heavy burden and a thankless task. Every step is a battle against outside demands for unjustified expenditure and requests from friends and colleagues for appropriations which ought not to be made. Mr. Speaker, we would like to accede to the requests of our colleagues. It is an unpleasant duty to have to say "no" to a man who has a pet project which he wants to finance from the Federal Treasury, but there must be a limit somewhere; there must be someone to hold down these ever-growing appropriations. Too often it must be done at the expense of personal friendship and always at the loss of being considered a "regular fellow." Members in charge of these appropriations have everything to lose and nothing to gain in this respect when they seek to protect the taxpayer in making up these bills. I trust our colleagues understand there is nothing personal in our refusal to include items and realize how embarrassing it is to have to exclude them in order to balance the bill, and I am certain they usually do. I do not believe there is a Member on the floor who has not in his heart a warmer affection and a deeper regard for Judge BLANTON because of the fight he has made to hold down these appropriations to a reasonable figure. [Applause.]

The newspapers of the District spoke yesterday of a resolution to censure Judge BLANTON. Why, no such resolution was introduced. If any Member had desired to submit to the House a proposition to censure Judge BLANTON or anyone else, it would have been considered. Everyone who understands anything about the procedure of the House knows that a resolution of censure is of the highest privilege. Had any resolution of censure been offered on the floor of the House as alleged by the newspapers yesterday, the Speaker would have had no choice but to hold it in order. The truth is that no man would dare rise on this floor and offer a resolution of censure against so valuable and so popular a Member of the House as Judge BLANTON. In my opinion—and I say it advisedly—he has saved more money to the taxpayers of the Nation than any other one man who ever served in the American Congress, and if any such resolution should be introduced, it would promptly be voted down. As a matter of fact, the House has in the last 2 weeks twice voted its approval of the work of Judge BLANTON, on roll calls, by overwhelming majorities.

Mr. KELLER. Will the gentleman yield?

Mr. CANNON of Missouri. I yield with pleasure to my good friend from Illinois.

Mr. KELLER. Do the questions which the gentleman from Texas sent to the school teachers of the city of Washington receive the gentleman's approval?

Mr. CANNON of Missouri. They certainly do. I cannot imagine their being disapproved by any loyal American citizen. What were the questions to which my friend refers? "Do you approve of communism in the schools?" "Do you believe in a supreme being?" Who would object to such questions? Certainly not the mothers and fathers of Washington.

Mr. Speaker, the Congress is responsible for the education of the children of the District of Columbia. It has made education compulsory in Washington and parents must send their children to the schools provided by Congress. Do you not think the parents of the city have a right to know whether those who teach their children believe in a supreme being? So far as I am concerned, I would not care to have my child under the jurisdiction of any teacher who did not believe in a supreme being or who objected to answering that question.

Mr. KELLER. Will the gentleman yield for another question?

Mr. CANNON of Missouri. I yield again to the gentleman from Illinois.

Mr. KELLER. Does the gentleman know whether the House has given any authority to a Member of this House to send such a communication to the school teachers of the District?

Mr. CANNON of Missouri. I am certain the gentleman does not want to be put in the position of asking such a question as that. Everyone knows that under the practice of the House the Committee on Appropriations is authorized to investigate any matter connected with legislation coming before them. The 10 subcommittees of the House have been calling witnesses and taking testimony all winter without thinking of asking authority of the House; and let me call your attention to how serious a matter any attempt to question that right would be.

Why, Mr. Speaker, the right of inquiry, the right of bringing before us witnesses, the right to secure information on legislation pending before the House is one of the most carefully preserved prerogatives of this House, and whenever any man has presumed to question that right he has met with prompt and preemptory action by both branches of Congress. It is only necessary to consult the precedents.

Mr. KELLER. Will the gentleman yield for another question?

Mr. CANNON of Missouri. Certainly; with pleasure.

Mr. KELLER. Does the gentleman hold that this House itself, if it took action, would have a right to apply any religious test to any citizen of this country?

Mr. CANNON of Missouri. Emphatically no. And no one has attempted to apply any such test. Such a test is not involved in any question that has been asked, and I am at a loss to understand why anyone should hesitate to give promptly his or her views on such subjects in connection with the training and teaching of children.

Mr. KELLER. I would like to ask another question.

Mr. CANNON of Missouri. I am glad to yield again to the gentleman from Illinois.

Mr. KELLER. Since the gentleman has confessed he agrees with the questionnaire sent out and defends the right to send it out, and believes this House has a right to inquire into religious beliefs, I would like to know whether the other members of the subcommittee agree with him on that.

Mr. CANNON of Missouri. It is not an inquiry into religious beliefs. It is a question as to whether the teacher is an atheist or a Communist—a question of no religion at all. I do not believe there is a member of our subcommittee who would express himself as being opposed to this or any other action that has been taken by our committee during this entire Congress. Our committee has always proceeded by unanimous consent.

Mr. KELLER. I challenge that statement.

Mr. CANNON of Missouri. The statement stands. Every member of the committee is present, with perhaps one exception, and can rise and object if I have misquoted him. Every action of our committee has been unanimous; and I want to take this opportunity to express my appreciation to the gentleman from Pennsylvania [Mr. DITTER], on that side of the House, and to the gentleman from New York [Mr. TABER], the distinguished ranking member of the Committee on Appropriations, for their active and wholehearted cooperation with the Members on this side of the aisle. There has been no division and no partisanship. We have agreed on every proposition that came before us, and if some proposition was brought up on which there was a difference of opinion we talked it over until common ground was reached. Every member of the committee is back of this report and every proposition which led up to its formulation. If not, the members are here and free to say so.

Mr. SISSON. Will the gentleman yield?

Mr. CANNON of Missouri. I yield to my friend, the gentleman from New York.

Mr. SISSON. I would like to ask the gentleman from Missouri if the Subcommittee on Appropriations having charge of the District of Columbia bill authorized the gentleman from Texas to send this questionnaire to the teachers of the District of Columbia; and if so, when?

Mr. CANNON of Missouri. Certainly. The chairman of a subcommittee of the Committee on Appropriations is authorized to adduce testimony on any item in the bill. The gentleman from Texas discussed it with me personally. And I told him it had my entire approval. I have never yet heard any member of the committee express any contrary opinion. May I ask the gentleman himself if he would object to giving his views on communism or to saying whether he believes in a supreme being?

Mr. SISSON. That is not at all the question.

Mr. CANNON of Missouri. That is exactly the question, and any teacher who would object to answering it is unfit to be entrusted with the education of the children of Washington or any other city in America.

Mr. SISSON. The Constitution of the United States guarantees that no religious test shall ever be applied.

Mr. CANNON of Missouri. And no religious test has been applied. Atheism is not religion and communism is not religion.

Mr. SISSON. Will the gentleman yield further?

Mr. CANNON of Missouri. Let me complete my answer to the gentleman's question. The question before the committee when this subject came up was the question of character education in the schools.

Incidentally, the subcommittee, the Committee on Appropriations, the House, the conferees of both the House and the Senate, and the Senate have unanimously substantiated the position of the gentleman from Texas and the position of the subcommittee and have stricken out of the bill all appropriations for character education, and in a few minutes the House will again reiterate its endorsement—as the Senate did yesterday.

Now, how could we reach any decision on that or any other matter unless we had information? The Committees on Appropriations do not speculate. They will not act until they have the facts. And it was perfectly legitimate, entirely in order, to make this inquiry, and the committee and the Congress have sustained that position.

Mr. SISSON. Mr. Speaker, will the gentleman yield for one further question?

Mr. CANNON of Missouri. I have been glad to yield to the gentleman, and I much regret that I have already exceeded my time.

Let me say in conclusion, Mr. Speaker, that one among the few compensations for service in this great body is the fellowship which we enjoy here. Mr. Speaker, we are about to adjourn sine die at the close of one of the most momentous sessions in the history of the Congress. I trust, Mr. Speaker, when we look back on our service in the Seventy-fourth Congress, one of those things which we will treasure most will be the recollection of the associations, the friendships, the courtesies, and the fellowship we have enjoyed here. We may have our little differences of opinions from time to time, but they will be forgotten in the memory of the mutual affection and respect and regard which includes every colleague on this floor. [Applause.]

Mr. BLANTON. Mr. Speaker, I yield to the distinguished gentleman from New York [Mr. TABER], one of the managers on the part of the House, such time as he may desire to use.

Mr. TABER. Mr. Speaker, this report brings back a complete agreement which was arrived at after a very serious conference with the Senate. Every member of the House conference and every member of the Senate conference yesterday morning, I am satisfied, tried to be fair and work out a bill for the District.

The bill carries $5,000,000 as a lump-sum appropriation. Frankly, I personally believe this is too much. I am satisfied that every one of the House conferees felt the same way. I am satisfied that an overwhelming majority of the membership of the House feels the same way, but it was absolutely necessary to get a bill, and in working out the situation this was the best that could be done.

There was a provision that $50,000, or so much thereof as might be necessary, might be spent by the President of the United States in furnishing an independent investigation of the question of the lump-sum proposition, as to whether there should be any or how much it should be, and with the facts that were discovered by this investigation the whole situation was to be available to both Houses of the Congress for their consideration.

Frankly, I wish to say one further word. I think the gentleman from Texas [Mr. BLANTON], in connection with his work on this subcommittee, has performed a very useful service in trying to keep the amount of the lump sum down, in trying to be absolutely fair after a very careful investigation of the appropriations that were to be made for the District, and when any matter was developed that he had not gone into, he was absolutely fair in conference in trying to work it out.

I wish at this time to congratulate the gentleman from Texas upon the efforts he has made to promote Americanism in the District of Columbia schools [applause] and to prevent the teaching of activities that are foreign to the terms of our Constitution and our American system of government. [Applause.]

Mr. KELLER. Mr. Speaker, will the gentleman yield?

Mr. TABER. No; I want you to understand the situation.

I realize that a certain group in this House and elsewhere has tried to cover up by peculiar statements and by peculiar actions the main issue in this situation, and that is whether we shall support the Constitution and the American system of government or not. [Applause.] For my part, I stand squarely by the American system of government and the Constitution of the United States. I am opposed to the teaching of communism in our schools in the District of Columbia. [Applause.]

Mr. SISSON. Mr. Speaker, will the gentleman yield?

Mr. TABER. I decline to yield.

I am opposed, by any subterfuge, to trying to get away from this issue or cover it up. I hope we have seen the last of any attempt to do this sort of thing in connection with the schools of the District of Columbia.

I hope that in the years to come we shall be able to master this and the lump-sum situation from an honest and straight-

forward standpoint and not from a standpoint of subterfuge. [Applause.]

Mr. BLANTON. Mr. Speaker, I yield 5 minutes to the distinguished gentleman from New York [Mr. FISH].

Mr. FISH. Mr. Speaker, I have purposely refrained from becoming involved in the situation that has developed in the schools of the District of Columbia over the alleged teaching of communism, nor do I want to take this time to discuss the recent issue raised through the sending of a questionnaire to the teachers of the District of Columbia by the gentleman from Texas [Mr. BLANTON]. On the other hand, I am glad that there is at least one Member of the House in season and out of season who is trying to expose the activities and the propaganda of the Communists in our schools and throughout our country.

Mrs. NORTON. Mr. Speaker, will the gentleman yield?

Mr. FISH. I have only 5 minutes.

Mrs. NORTON. I just want to ask one question. Has the gentleman any evidence that communism has ever been taught in the schools of the District of Columbia?

Mr. FISH. Absolutely none whatever, but I have plenty of evidence that it is being taught in many of the schools of this country, in many of the big cities, and in many of our colleges. I know nothing about the situation in the District of Columbia, and I so prefaced my remarks.

Mr. MARCANTONIO. Mr. Speaker, will the gentleman yield?

Mr. FISH. No; I have not the time. I have a definite purpose in speaking at this time. I have not talked on communism possibly more than once during this session of Congress; but as long as the issue was raised yesterday and is being raised now, I desire to make certain observations to the Republicans and the Democrats alike. There is only one way to fight communism, and that is by fearlessly exposing their revolutionary propaganda. I do not expect any communistic revolution tomorrow at dawn, or next day, or next year. There are only a million Communists and Communist sympathizers in the United States. We have nothing to fear from them, except that they are fanatics, and will do 100 percent more to undermine our American institutions than we in Congress or out of Congress will do to uphold and defend them. There is but one way to fight the Communists that I know of which is worth while, and that is to do what the gentleman from Texas [Mr. BLANTON] is doing, and what many other Members of this House, whether Republicans or Democrats, are doing, and that is to expose what the Communists stand for—not to use force or violence against them, not to be fanatical and think that every Communist seeks to stab you in the back, but merely to present the facts to the American people.

All that is needed in America is to expose the principles of communism, to show what these aliens are trying to do, what they stand for, whether in Moscow or in the United States of America; and communism will not spread very far among free Americans. They seek to destroy every single American ideal and principle of government we believe in in this country. There is one way to deal with them and one only—and that is to expose their principles and deport their leaders back home where they came from. Yesterday the House had under consideration some deportation bills and that is the most effective way to treat them. Take the Communist and alien leaders who do not like our country and our ways of doing things, who do not like our laws and our institutions, and send them back home, where they can enjoy the oppressive laws that they have been accustomed to in the past, the lack of freedom of speech, and the pitiful wages they received before they came to this country. If there is propaganda in our schools, that propaganda ought to be exposed. I do not know whether there is any propaganda in the schools of the District of Columbia, but I do know that there is propaganda in practically every college in the United States of America and in most of the schools in the big industrial cities.

Mrs. NORTON. Mr. Speaker, will the gentleman yield?

Mr. FISH. I cannot yield; I have not the time.

The SPEAKER pro tempore. The time of the gentleman from New York has expired.

Mr. BLANTON. Mr. Speaker, I yield 1 additional minute to the gentleman from New York.

Mr. FISH. I know that in my own district, the same district as the President's, up in Dutchess County, N. Y.——

Mrs. NORTON rose.

Mr. FISH. Oh, I cannot yield—there are three Communist camps turning out 10,000 young Communists or Communist sympathizers every summer, and all they teach in those camps is hatred—hatred of everything that we believe in; hatred of our free institutions and of our public-school system, hatred of the American flag; hatred of God and of all religions—and then they send them back to the big city of New York to be good American citizens. Ninety-seven percent of these young Communists are aliens, and they ought to be better citizens than you and I, who have been here for generations, because they came here of their own free will and accord. If they do not like this country, let us send them back home. [Applause.]

The SPEAKER pro tempore. The time of the gentleman from New York has again expired.

Mr. BLANTON. Mr. Speaker, in this bill there have been two main controversial items between the House and the Senate. One was the $5,700,000 lump-sum appropriation which the Senate insisted we should take out of the Federal Treasury and contribute to the people of Washington. The other was an item of $78,660 which the Senate wanted us to waste on so-called character education, which sum annually for 2 years, our subcommittee agreed, had been used to help put communism in the Washington schools.

When I came here 20 years ago, there had been an old system of what was known as the 50–50 plan, where the Government of the United States furnished half of all the money for the local fiscal expenses of the people living in the city of Washington. If we had not stopped that outrageous plan, we would now be giving the Washington people $21,761,955 in this bill as a gift out of the United States Treasury.

When I got here and asked what committees I should go on, the administration in the House said, "BLANTON, we have a place for you, if you are willing to work." They said, "We want you to go on the District of Columbia legislative committee, to watch unsound legislation there for the House administration." They said, "It is an unpopular position, if one does his duty. If you go along with the District and give everything the Commissioners and the Washington newspapers request, of course, you will be very popular." They said, "Then you would be invited to every big function."

They said, "If you obey their commands, your picture will appear on the front page of every paper", but they were frank enough to warn me that "if you do what we want you to do, if you fight improper measures, and stop them from passing, you will be the most unpopular man in Washington, for the Washington newspapers will abuse and malign you daily." They said: "Are you willing to take the job?"

I have never shirked my duty as I have seen it, so when the Democratic administration in the House asked me to take that job I agreed to it.

No one will ever know just how very hard I worked on that District Committee. If you will look in the records of the Committee on the District of Columbia, you will find a thick volume of minority reports against bad bills which I filed. If you will look at the records of this House, you will find that I came on this floor many times and moved to strike out the enacting clause of many bills which over my protest had been reported, and were rejected by the House after my motion was made.

Some of you will remember a proposition to spend $75,000,000 on what was known as the Great Falls power project. I fought that for 2 years before we defeated it. I wish you

would read the hearings on that bill extending over 2 years, in two different Congresses. Naturally I became unpopular with Washington grafters. The papers fought me.

In every election I had to meet it. I had to meet slush money coming from Washington, poured into my district to defeat me. I met the issue in each campaign.

I say to you now that a man who is afraid of criticism, a man who is afraid of ridicule, a man who is afraid of attack, has no business in this House. Such a man cannot perform a service worth while to the people of the country.

I do not suppose any man has been more abused by Washington newspapers than I have been for doing my duty in every instance. They have misrepresented every speech I have ever made. They have tried to ridicule me. They have tried to belittle me. They have placed me in a false light. They have printed vicious, mean cartoons about me. They have played me up to disadvantage. They have fixed up malicious caricatures of me. They have snapped their cameras at me when I was speaking and then fixed up and printed a picture of me with my mouth open to make me look ridiculous.

As officers who partly own the Washington papers are also officials of the Associated Press, the United Press, and the Universal Service, they have been able at times to send false and misleading stories to Texas papers about my work in Congress. I have had to undergo all of this unjust and outrageous treatment, simply because I performed my honest, conscientious duty, and stopped Washington people from getting undeserved big appropriations out of the United States Treasury.

After the 50–50 plan had been demonstrated to be unfair and unjust to the people of the United States, and had been reduced to what was known as the 60–40 plan, under which the United States Government paid 40 percent of all the local expenses of the Washington people out of the Federal Treasury, a careful, exhaustive investigation was made by Congress, and it was demonstrated that the 60–40 plan was unjust to the people living in the States, as the people of Washington were paying the lowest amount of taxes of any other people in the United States.

Under said 60–40 plan it would require the Federal Government to pay the enormous sum of $17,409,564 in this bill on the local expenses of the people of Washington, notwithstanding that they have had their assessed valuation on real estate reduced $130,000,000 within the last 2 years, and pay only $1.50 per $100 on real and personal property, only 2 cents per gallon gasoline tax, only one-half of 1 percent on intangibles, an automobile registration license tag tax of only $1 per year, whether it is a Ford or a $12,000 Rolls Royce, with their private libraries all exempt regardless of value, with all wearing apparel exempt regardless of value, with an exemption of $1,000 to each family on household furniture, with a water charge of only $6.60 per year per average family, with all ashes, trash, and garbage gathered free, with all shade and ornamental trees furnished free, cared for, sprayed, pruned, and replaced free, with no annual sewer charge, with sidewalks and streets in front of private property repaired and repaved without cost to said contiguous property owner, and except as to the Federal taxes paid by citizens of all cities, they pay here no local income tax, no estate tax, no inheritance tax, no gift tax, and no general sales tax.

Hence I became energetic in efforts to reduce the unfair and inequitable Federal contribution. We first reduced it to an annual lump sum of $9,500,000. And we have been getting it reduced after annual fights until in this bill we have gotten it down to $5,000,000, and of that the President is to use $50,000 in making a new survey of the entire fiscal situation. The Senate wanted a committee of three, but upon my insistence, it was placed in the hands of the President of the United States.

Mr. RANKIN. Mr. Speaker, will the gentleman yield?

Mr. BLANTON. I yield to my friend from Mississippi.

Mr. RANKIN. Mr. Speaker, I wish to say to the membership of the House that since I have been a Member of this body these papers have attempted to destroy every man who occupied the position on the Appropriations Committee now occupied by the gentleman from Texas [Mr. BLANTON] and who tried to do his duty on that committee. In my humble judgment, there is not a man in Congress who deserves more credit for his untiring efforts and his courageous service on that committee than does the gentleman from Texas. [Applause.]

I have not participated in this controversy. I send my child to school here, and if I thought that she was being taught atheism or infidelity, I would have long since joined in this protest. Frankly, I have not taken that charge very seriously.

But all this talk about censuring the gentleman from Texas [Mr. BLANTON] for doing his duty on that committee is all "bunk", and every Member of the House knows it. [Applause.]

Mr. KELLER. Will the gentleman yield?

Mr. RANKIN. I yield.

Mr. KELLER. Does the gentleman endorse the sending of the questionnaire which the gentleman from Texas sent?

Mr. RANKIN. I come a great deal nearer endorsing that questionnaire than I do the gentleman's resolution to try to embarrass the gentleman from Texas for doing his duty as he saw it. [Applause.]

I have sat here and heard this thing discussed pro and con, and I have seen the abuse that has been heaped upon the gentleman from Texas by the local papers; and if the gentleman from Illinois [Mr. KELLER] wants to put it to a test as to whether this House has lost confidence in the gentleman from Texas [Mr. BLANTON], just put it to a vote, and they will sustain the gentleman from Texas. [Applause.]

Mr. KELLER. I stood ready yesterday to do that.

Mr. RANKIN. The gentleman from Illinois seems to have unwittingly capitulated to a lot of propaganda that has been carried on by the newspapers of Washington, trying to destroy the gentleman from Texas because he has attempted to hold down appropriations. That may not be what is in the gentleman's mind, but that is what is back of this fight on the gentleman from Texas. I have been here for years, and have seen men on the other side of the aisle, when the Republicans were in power, attacked in the same way for the simple reason that they were attempting to hold down appropriations. I, for one, regret and deplore the fact that the gentleman from Illinois [Mr. KELLER] offered his resolution, which reflects on the gentleman from Texas, who has taken all this abuse because he was trying to do his duty to the country and to the District of Columbia. [Applause.]

Mr. BLANTON. Mr. Speaker, I am deeply grateful to my friends. I thank them with all my heart for their kind words. There are not in this House four men of higher standing than the distinguished gentleman from Missouri [Mr. CANNON], the gentleman from New York [Mr. TABER], the gentleman from Mississippi [Mr. RANKIN], and the gentleman from New York [Mr. FISH]. After what they have said, it is useless for me to mention the ridiculous resolution that was offered in the House yesterday, which the Speaker so promptly held was not in order, and also held that it in no way reflected upon me.

It is an added consolation to me that I have been assured that had said resolution been put to a vote, which I asked should be done, there would not have been but one vote cast for it out of the entire Illinois delegation, with whom I have worked and at all times cooperated, and for the Members of which I have high regard. It is rather an amusing incident that the one who sought to injure me was the only Member of the Illinois delegation who upon a crucial vote deserted our good friend, ADOLPH SABATH, notwithstanding he is the dean of the House of Representatives.

You have heard the distinguished gentleman from Missouri [Mr. CANNON] say that he approved of the questionnaire I sent to teachers for pertinent information. If the one who sought to do me an injury behind my back when I was not present had made inquiry, he would have learned that my colleague on the subcommittee [Mr. JACOBSEN] also approves of it, and he would have learned, also, that

before it was sent out it was submitted to our other colleague on the subcommittee, under whose suggestion several changes were made in it, and that thus changed he approved it before it was sent out.

"Where ignorance is bliss, 'tis folly to be wise." How can anyone contend that no communism has ever been found in the schools of Washington? The official minutes of the Board of Education show that a teacher named West in the Western High School was suspended for 1 week for teaching bolshevism while disussing current events in her English class, and that she is still teaching in the schools here. Superintendent Ballou himself furnished me with the facts regarding said suspension.

Then on May 3, 1924, just 4 years after Dr. Frank W. Ballou became the $10,000-per-year superintendent, Congressman Summers of Washington passed a law preventing the payment of any salary to any teacher who taught disrespect to the Holy Bible, or that ours is an inferior form of Government. That was communism.

That law passed both the House and Senate and was signed by the President. Then, in 1925, that law was again passed by both the House and Senate and was signed by the President, but because it was attached to an appropriation bill it ceased thereafter to exist, as Superintendent Ballou and the Board of Education made a fight against it as infringing on their academic freedom, and the law expired July 1, 1926.

When passing said law on May 3, 1924, Congressman Summers then said that he had spoken to a number of Members, and that he could not find any who did not say that his children had complained about such improper teachings in the schools here.

The Washington Post for April 3, 1928, stated that "reds had renewed their drive on the schools", and that upon an investigation by the Board of Education communistic activities had been found in two important schools of Washington.

Then read the recent report filed by the committee appointed by the Federation of Citizens' Associations, 63 different ones in Washington, to put communism out of the Washington schools, that it had found communism here in the local schools.

After all of the above, how is it that anyone can contend that no communism exists in the schools here?

The questionnaire has been most successful and has accomplished even far more than had been anticipated. It proved conclusively that the teachers who are not completely controlled and dominated by the Board of Education, willingly, gladly, and cooperatively answered their questionnaires and furnished the information desired. It proved conclusively that the Board of Education labors under the belief that it must not treat its teachers as independent, intelligent, reliable men and women with whom Members of Congress may converse or correspond, but that they must be herded and watched like a flock of sheep, and their addresses kept away from Congress, and that they must be given to understand that under no circumstances must they answer any letter a Member of Congress writes to them until they have submitted it to the Board of Education and received orders from the Board as to whether they may answer and how they may answer it.

And if information is sought that the Board wants to keep away from Congress it without hesitation will tell the teachers indirectly that they throw their communications from Congressmen in the wastebasket, hence to be in good grace with the Board they should do likewise.

A GREAT STATESMAN

Mr. Speaker, one of the greatest statesmen I ever knew was the Honorable Champ Clark, our beloved former Speaker of this House. All of us who served under him admired and loved him. He taught us that there was a certain comity between the House and Senate that at all times and under all circumstances prevented a Member of the House from criticizing a Member of the Senate, and vice versa.

Our able and distinguished colleague from Missouri [Mr. CANNON] was trained under Speaker Champ Clark. There is no better parliamentarian in the United States than CLARENCE CANNON, who has been the parliamentarian for the last several national Democratic conventions, and he is to be the parliamentarian in the next national Democratic convention to be held next week in Philadelphia. CLARENCE CANNON has already told you that he approves in every way the questionnaire that was sent to teachers. Yet there is another man from Missouri named CLARK, who is now very well known, and who has not yet accomplished anything that would give him any prestige, has assumed to criticize me and said questionnaire, and he thinks that Congress should take the sum of $17,409,564 out of the United States Treasury and contribute it to the people of Washington on their local expenses, simply because at one time the Congress was so foolish as to pass the 60–40 plan, which this man CLARK asserts must stand forever and that no Congress can ever change it.

He also criticized me because I would not allow Inspector Albert J. Headley, United States Attorney Garnett, and Superintendent Brown to be ruined by a false and prejudiced attack upon them, and I saved them from injustice, and Inspector Albert J. Headley was duly promoted to Assistant Superintendent of the Metropolitan Police, and United States Attorney Garnett and Superintendent Brown are still honored officers who have the respect and confidence of the people. I will offer the judgment and opinion of our good colleague CLARENCE CANNON against that of this other unknown man from Missouri.

I have received over a thousand letters from grateful fathers and mothers of Washington who have thanked me for fighting communism, and trying to keep it out of the schools, and they commend and approve the questionnaire sent to teachers. It is their money that pays the teachers, and pays the expenses of the Board of Education, which sooner or later is going to find out that it is responsive to their wish, and to acts passed by Congress.

Mr. Speaker, our subcommittee heard about 800 printed pages of evidence. When we finished, the committee agreed unanimously that there should not be allowed a lump sum of over $2,700,000. That was the unanimous opinion of the committee. We submitted it to the Committee on Appropriations, which is composed of 39 Members of the House. There was not a member on that committee who raised his voice to increase that sum of $2,700,000. That report had the approval of the 39 members of the Committee on Appropriations. I think that committee will average up with the other committees of the House.

We brought the bill here and debated it for 2 days. There was a motion made on March 5, page 3374 of the RECORD, to increase that sum to $5,700,000. There was a vote taken, and only 16 Members of the House voted to raise it. Look at that page of the RECORD. Only 16 Members voted to raise it. Then the next day, when the bill came up for a final vote, a bill of 83 pages, and not one amendment adopted to it——

Mrs. NORTON. Will the gentleman yield right there?

Mr. BLANTON. I am sorry I cannot. I do not want to take up too much time.

The next day, because of that lump sum, opposition grew to the bill and there was a roll-call vote called for. On that roll call there were only 26 Members of this House who voted against the bill. Get the RECORD, page 3399, and read it. Only 26 Members voted against that bill.

Mrs. NORTON. Mr. Speaker, will the gentleman yield?

Mr. BLANTON. I am sorry, I cannot.

Then what happened?

When the Senate refused to act, but held out for a big sum, I came on this floor on May 26 and asked the instruction of the House. I said:

> Gentlemen, as the chairman of this subcommittee, I am your servant. I am here to obey your orders. Whatever you tell me about this thing, I am ready to do. It is my duty to obey you. I want you to instruct me.

If you look on page 7951 of the RECORD for May 26, you will see that the House instructed me then, and my subcommittee as managers on the part of the House, to insist

that not more than $2,700,000 be allowed. Just 39 Members of the House voted against that instruction by roll call. Look at it and see.

Then what happened? The Senate still said there would not be a bill unless we allowed the $5,700,000, that they would punish the District, that they would not have any bill. I came back here on the floor of this House on June 15, just the other day. Look at the RECORD, page 9405, and you will see where a motion was made on this floor to allow the $5,700,000. On a viva voce vote, a division, only 39 Members stood up and voted for the $5,700,000. Then a roll call was had and on the roll call only 86 Members voted to raise that $2,700,000. That was another instruction given on it and that was the reason I held out.

When we found we would have no bill unless we raised it we finally came up to $5,000,000.

The people of the United States some day are going to find out about the low taxation here in the District; they are going to find out about the millionaire club of Washington; how the owners of big properties here escape taxation; and about Washington becoming the mecca of tax dodgers from all over the United States. They are going to wake up sometime and they are going to require their Congressmen and their Senators to stop this matter of paying great sums of money out of the Federal Treasury and letting these fellows escape taxation.

The papers here cannot ruin me. Why, I wish you knew how much money is going out of Washington into my district right now to be spent in efforts to defeat me. There are brass bands and motorcades of automobiles, with expenses of the occupants amounting to large sums of money, to go from one side of my district to the other campaigning against me just like the papers are campaigning against me here. Why should Washington money, incited by the Washington newspapers, be spent against me? I am here attending to my duties, but opponents have been campaigning against me for months. The Washington newspapers may defeat me with big sums of slush money spent in my district, but I have an abiding confidence in my constituents, and I believe that they will not allow it.

Mr. Speaker, I move the previous question on the conference report.

The previous question was ordered.

The conference report was agreed to.

A motion to reconsider was laid on the table.

The SPEAKER pro tempore. The Clerk will report the first amendment in disagreement.

The Clerk read as follows:

Amendment no. 1: In lieu of the sum proposed in the amendment of the House to the amendment of the Senate insert "$5,000,000, of which not to exceed $50,000 shall be available for expenditure under the direction of the President for making an independent study of the fiscal relations between the United States and the District of Columbia and enabling him to report to Congress at the beginning of the next regular session what, in his judgment, is a fair and equitable amount to be paid by the United States as an annual contribution toward the expenses of the Government of the District of Columbia. Such sum shall be available for personal services without regard to the civil service laws and the Classification Act of 1923 as amended and for such other expenditures as may be necessary in connection with such study."

Mr. BLANTON. Mr. Speaker, I move that the House concur in the amendment of the Senate to the amendment of the House to the amendment of the Senate no. 1.

The SPEAKER pro tempore. The question is on the motion of the gentleman from Texas.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will report the next amendment in disagreement.

The Clerk read as follows:

Amendment no. 75: Page 63, line 18, after "$85,000", insert ": *Provided*, That pay patients may hereafter be admitted to the Children's Tuberculosis Sanatorium for care and treatment at such rates and under such regulations as may be established by the Commissioners of the District of Columbia, insofar as such admissions will not interfere with admission of indigent patients."

Mr. BLANTON. Mr. Speaker, I move that the House recede and concur in the amendment of the Senate no. 75.

The SPEAKER pro tempore. The gentleman from Texas moves that the House recede and concur in the amendment of the Senate no. 75.

Mr. BLANTON. Mr. Speaker, on the item of $78,660 which the Senate tried to make the House put in this bill to be spent on so-called character education, after exhaustive hearings, the following is the unanimous report of our subcommittee, which was approved by the Committee on Appropriations, to wit:

The committee has held exhaustive hearings on this question and on the subject of the teaching or advocating of communism in the public schools which the hearings will disclose is inseparately connected therewith. In connection with the House hearings on character education in the 1936 appropriation bill the superintendent of schools testified (p. 477) that—

"What we are trying to do is to set up a new philosophy of education, * * *."

And on page 482 of the same hearings he stated further:

"I do not see how anyone could expect to start out with this experiment, involving more than 250 teachers, whose philosophy has got to be changed fundamentally * * *."

The committee cannot subscribe to this principle advocated by the superintendent of schools. The subcommittee was of the unanimous opinion that the board of education should take immediate steps to eliminate from the public schools all communistic books and magazines. We therefore recommend the elimination of all funds for character education as set forth in the above table.

Mr. Speaker, I have here a letter which is typical of over a thousand which I have received from the mothers and fathers of Washington.

Mrs. NORTON. Mr. Speaker, a point of order.

The SPEAKER pro tempore. The gentlewoman will state it.

Mrs. NORTON. Is the gentleman speaking to the amendment?

The SPEAKER pro tempore. The gentleman from Texas will proceed in order.

Mr. BLANTON. Mr. Speaker, this amendment has to do with the children of Washington.

The parent who has written this letter is Mr. F. A. Roman, residing at 5616 Nevada Avenue, and his letter is typical of over a thousand I have received from fathers and mothers of the District. This gentleman is in favor of stopping communism which his little girls have been subjected to. He wants it stopped.

Mr. SISSON. Mr. Speaker, a point of order.

The SPEAKER pro tempore. The gentleman will state it.

Mr. SISSON. Mr. Speaker, I make the point of order that the gentleman from Texas is not speaking on the conference report, or on any amendment thereto.

The SPEAKER pro tempore. The gentleman from Texas will proceed in order.

Mr. BLANTON. Mr. Speaker, that is all I have to say.

Mr. KRAMER. Will the gentleman yield?

Mr. BLANTON. I yield to the gentleman from California.

Mr. KRAMER. I thought the gentleman was addressing me, and may I say I do not want my children or anybody else's children taught communism.

Mr. BLANTON. Yes; and neither does any other proper parent.

Mr. KRAMER. This is America, not Russia.

Mr. BLANTON. The letters which I have received also approve of the questionnaire which I sent out on behalf of the fathers and mothers of the District.

Mr. Speaker, I move the previous question.

The previous question was ordered.

The SPEAKER pro tempore. The question is on the motion to recede and concur in the Senate amendment.

The motion was agreed to.

A motion to reconsider the votes by which the several amendments were agreed to was laid on the table.

TITLE AND POSSESSION OF CERTAIN LANDS IN LAWRENCE COUNTY, ALA.

Mr. CARMICHAEL. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 4727) to quiet title and possession with respect to certain lands in Lawrence County, Ala.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alabama?

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That all the right, title, and interest of the United States, in and to secs. 25 and 36, T. 3 S., R. 7 W., secs. 30 and 31, T. 3 S., R. 6 W., Huntsville meridian, in Lawrence County, Ala., included in the abandoned town of Marathon, except of such right, title, and interest as has been acquired by the United States through purchase or condemnation, be, and the same is hereby, released, relinquished, and confirmed by the United States to the owners of the equitable titles thereto, as fully and completely in every respect whatever as could be done by patents issued according to law: *Provided*, That this act shall amount to a relinquishment of any title the United States has, or is supposed to have, in and to any of said lands, and shall not be construed to abridge, impair, injure, prejudice, or divest in any manner any valid right, title, or interest of any person or body corporate whatever, the true intent of this act being to concede and abandon all right, title, and interest of the United States to the lands described herein to those persons, estates, firms, or corporations who would be the equitable owners of said lands under the laws of the State of Alabama, in the absence of the said interest, title, and estate of the United States.

Mr. CARMICHAEL. Mr. Speaker, I offer an amendment which provides for striking out all after the enacting clause and substituting H. R. 12892.

The Clerk read as follows:

Amendment offered by Mr. CARMICHAEL: Strike out all after the enacting clause and insert:

"That all the right, title, and interest of the United States, except such right, title, and interest as has been acquired by the United States through purchase or condemnation, in and to all of fractional section 25 which lies south of the Elk River Shoals Canal and the NW¼ sec. 36, T. 3 S., R. 7 W., Huntsville meridian, in Lawrence County, Ala., be, and the same is hereby, released, relinquished, and confirmed by the United States to the owners of the equitable titles thereto, as fully and completely in every respect whatever as could be done by patents issued according to law: *Provided*, That this act shall amount to a relinquishment of any title the United States has, or is supposed to have, in and to any of said lands, and shall not be construed to abridge, impair, injure, prejudice, or divest in any manner any valid right, title, or interest of any person or body corporate whatever, the true intent of this act being to concede and abandon all right, title, and interest of the United States to the lands described herein to those persons, estates, firms, or corporations who would be the equitable owners of said lands under the laws of the State of Alabama, in the absence of the said interest, title, and estate of the United States."

The amendment was agreed to.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

A similar House bill (H. R. 12892) was laid on the table.

COMMISSIONED STRENGTH FOR THE CORPS OF ENGINEERS, UNITED STATES ARMY

Mr. McSWAIN. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 4699) to provide a commissioned strength for the Corps of Engineers, United States Army, for the efficient performance of military and other statutory duties assigned to that corps, and would like to proceed 30 seconds in order to explain why this bill should be considered at the present time.

The SPEAKER. Is there objection to the request of the gentleman from South Carolina?

Mr. FISH. Mr. Speaker, reserving the right to object, will the gentleman state the title of the bill?

Mr. McSWAIN. Mr. Speaker, this is a bill to increase the authorized Engineer strength of the United States Army by 185 officers.

This is made urgent in order to meet the recent increased work imposed upon the Engineer Corps by the acts of this Congress which has authorized a total of $939,000,000 of additional work to be carried out by the Corps of Engineers.

The Committee on Military Affairs insists on an amendment, and we believe and hope that the House will adopt the amendment. If it does, then a conference may be necessary, and that is why the bill should be called up and acted on at this time, and I hope there will be absolutely no objection to this very important amendment.

Mr. FISH. Mr. Speaker, will the gentleman yield?

Mr. McSWAIN. I yield.

Mr. FISH. Will the gentleman answer this question while he is on his feet and inform the House, as we are about to adjourn, what has happened to the gentleman's own bill, the universal service bill, backed by the American Legion, to take the profits out of war and to draft capital and industry and labor and manpower?

Mr. McSWAIN. In the last few days the Senate Committee on Finance has reported that bill back to the Senate with amendments, and it is now on the Senate calendar.

Mr. FISH. Is there any likelihood of getting action before we adjourn on this very important piece of legislation?

Mr. McSWAIN. I am, of course, intensely interested in it and very hopeful, but as practical men we understand the situation. I am doing everything I can to get action on that bill.

Mr. FISH. In case of failure to bring up the bill, will the gentleman renew his fight next year to try to put it through the next Congress?

Mr. McSWAIN. I will not be a Member of the next Congress, but I will renew my fight in every way possible, through the American Legion and otherwise, to see that the bill shall become law, and I believe my successor as chairman of our committee, Hon. LISTER HILL, will sponsor such a bill.

Mr. FISH. When we have a Republican majority here next year I shall lead the fight myself.

Mr. McSWAIN. I have been working on it 16 years and expect to work for it 16 years more, if necessary.

Mr. SNELL. Mr. Speaker, will the gentleman yield?

Mr. McSWAIN. I yield.

Mr. SNELL. As I understand, we are just increasing the personnel of the Army Corps of Engineers for the purpose of doing the additional work that Congress has placed upon them.

Mr. McSWAIN. Yes.

Mr. SNELL. And our experience has been that there is no body of engineers that does its work as well as the personnel of the Army Corps of Engineers.

Mr. McSWAIN. The gentleman is correct.

Mr. SNELL. They are not only efficient but they are able in every respect, and there has never been any criticism insofar as the individual members of the Corps of Engineers are concerned.

Mr. McSWAIN. Absolutely none. As I often say, the Army Corps of Engineers pulls its own weight and pays its own way, even in peacetimes.

Mr. Speaker, I ask unanimous consent to extend my remarks by inserting two letters and a memorandum from the Chief of Engineers showing the necessity and urgency of this measure.

Here are the letters:

WAR DEPARTMENT,
OFFICE OF THE CHIEF OF ENGINEERS,
Washington, June 11, 1936.

Hon. JOHN J. McSWAIN,
House of Representatives, Washington, D. C.

MY DEAR MR. McSWAIN: In response to your request of the 9th instant for concise information respecting the proposed increase in the commissioned strength of the Corps of Engineers, the following is submitted:

The War Department allotment of commissioned officers to the Corps of Engineers under the National Defense Act of 1920, as amended, is 560. Deducting from this total the complement of officers required with the 11 regiments of Engineer troops and for the many other military activities of the Corps of Engineers, there remain but 122 authorized for assignment to the nonmilitary activities of river and harbor and flood control. Actually today there are 197 assigned to these nonmilitary activities, 75 beyond the authorization. This situation has been made possible by War Department permission for a temporary excess over the allotted strength, and by borrowing personnel from the military activities of the corps. This temporary overstrength is subject to reduction at any time by the War Department, and the borrowing of officer personnel from military activities cannot be perpetuated because of the recently authorized increase in enlisted strength of the Army, which necessitates an appropriate number of experienced officers for duty with combat units and the establishment of 10 new Engineer units of the Reserve Officers' Training Corps. Thus the services of all officers authorized for military duties are unavoidably required for such duties.

The allotment of Engineer officers for nonmilitary activities and for other duty with branch is today five less than it was in 1920. Since that year the annual volume of river and harbor and flood-control work handled by the Corps of Engineers has expanded

from an average of $60,000,000 to more than $200,000,000; and the number of surveys, engineering reports, and investigations called for by Congress and other governmental agencies has increased manyfold. The obvious result is a substantial deficiency of officers of the Corps of Engineers to effectively accomplish the directives of Congress.

Specifically, the present Congress has enacted general river and harbor legislation adopting 246 new projects, which will require $342,000,000 for completion, and has directed investigation and report upon 274 additional projects. It has also adopted a modification of the lower Mississippi Valley flood-control plan with an authorization of $272,000,000, as well as general flood-control legislation listing 224 other projects, with an additional authorization of $315,000,000. Furthermore, this latter legislation directs the Department to prosecute preliminary examinations and surveys of 222 streams throughout the United States. In summary, the Seventy-fourth Congress has adopted projects for execution by the Corps of Engineers with an aggregate authorization of $929,000,000, and has directed investigation and report upon 498 additional projects. It has appropriated $226,313,934 for river and harbor and flood-control projects which combines with more than $129,000,000 provided from the relief appropriations.

This stupendous increase in the expenditures and projects committed to the Corps of Engineers clearly indicates the need for a substantial and permanent increase in its commissioned personnel. It is pertinent to note, in this regard, that the present authorization alone may be said to fix something like a 10-year program of construction additonal to the normal operations of the Engineer Corps.

Sincerely yours,

E. M. MARKHAM,
Major General, Chief of Engineers.

WAR DEPARTMENT,
OFFICE OF THE CHIEF OF ENGINEERS,
Washington, June 17, 1936.

Hon. J. J. McSWAIN,
Chairman, Committee on Military Affairs,
House of Representatives, Washington, D. C.

MY DEAR MR. McSWAIN: Respecting our conversation by telephone this morning, I find that section 37A of the National Defense Act provides that to the extent provided for from time to time by appropriations for the specific purpose, the President may order Reserve officers to active duty at any time and for any period, with their consent.

Under this provision of the law, an item may at any time be inserted in the annual War Department appropriation act providing for payment to Reserve officers ordered to active duty on river and harbor work. I find that the present appropriation act lacks the requisite specific authorization. Under the present appropriation, Reserve officers may, of course, be employed in civilian capacity on any duty in the Department, including duty as District engineer, subject only to eligibility under civil-service rules. In order to supply the authority, now lacking, to call Reserve Engineer officers to active duty under our nonmilitary expenditures, I will undertake to have such authority included in subsequent appropriation bills.

Meantime, I assure you that it is my intention to employ on river and harbor work, under the present provisions of law, all qualified Reserve officers who can be secured within the terms of the ordinary and emergency appropriation acts.

Sincerely,

E. M. MARKHAM,
Major General, Chief of Engineers.

THE PURPOSE AND EFFECT OF THE PROPOSED BILL TO INCREASE THE COMMISSIONED STRENGTH OF THE CORPS OF ENGINEERS

Since 1920, the date of the National Defense Act, the annual volume of river and harbor and flood-control work handled by the Corps of Engineers has expanded from an average of $60,000,000 to more than $200,000,000 in 1935. The number of surveys, engineering reports, and investigations called for by Congress and other governmental agencies has increased manyfold. The Engineer Department has employed directly in the last 3 years a high of 56,000, in all grades, compared with 18,000 in 1920. This comparison excludes contract employment, which accounts for an additional 25,000. Moreover, the flood-control bill now before Congress will entail a further expansion of great proportions beyond the already magnified assignments to the Corps of Engineers. Yet its authorized officer strength on duty under the Chief of Engineers is today slightly less than contemplated by the National Defense Act.

There is today authorized by the War Department a total of 415 officers for duty with branch. (In 1920 the number was 420.) Of this total, 293 are required for military duty with Engineer troops, service schools, and other Engineer military activities, leaving but 122 authorized for assignment to nonmilitary work. There are assigned to nonmilitary work, however, 197 officers, 75 beyond the authorization. The situation has been made possible by War Department authority for a temporary excess over allotted strength, and by borrowing personnel from military activities of the corps. This temporary excess is subject to reduction at any time by the War Department, and the borrowing of officer personnel from military activities cannot be perpetuated because of the recent increase in the enlisted strength of the Army and the establishment of 10 new Engineer units of the Reserve Officers' Training Corps, requiring the services of all officers authorized for military duties.

The purposes of the proposed bill are:

(1) To increase the number of assistants to the Chief of Engineers, with rank of Brigadier General, from one to two, in order that administrative supervisions may be more consistent.

(2) To increase the number of officers allotted for duty with branch from 415 to 600 (with an equivalent increase in the total commissioned strength of the Army), to the end that there shall be available a sufficiency of commissioned officers to control and supervise the greatly increased operations and responsibilities of the corps.

(3) To authorize officers engaged primarily on nonmilitary public works to be paid from funds appropriated for the said nonmilitary works.

The increase in the commissioned strength of the Corps of Engineers, as proposed, will have no adverse effect upon any other branch of the service, since the bill provides for an increase in the total commissioned strength of the Army equivalent to the increase proposed by the Corps of Engineers. The procedure does not conflict with any Budget restrictions of the President on "pay of the Army", as not less than 185 officers will be paid from funds appropriated for nonmilitary public works.

It is contemplated that the increased number of Engineer officers proposed shall be secured within a period of 3 years by a combination of the following means under the provisions of the National Defense Act:

a. Proportionate assignment from the larger West Point classes which will graduate in the next 3 years.

b. Permanent commissioning of Engineer Reserve second lieutenants each year under the provision of the Thomason Act.

c. Transfers from other branches of the Army of officers who especially desire service in the Corps of Engineers.

d. Appointment into the Corps of Engineers of graduates of technical-engineering schools.

WASHINGTON, D. C., *June 19, 1936.*

Mr. McSWAIN:

I see no reason to doubt that 50 percent of the new officers will be chosen from lieutenants of the Reserves, R. O. T. C. graduates of civilian technical institutions. Such is my intention.

E. M. MARKHAM, *Major General,*
Chief of Engineers.

The SPEAKER. Is there objection to the request of the gentleman from South Carolina?

There was no objection.

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That section 11 (Corps of Engineers), National Defense Act, as amended, is hereby further amended to provide 1 additional assistant to the Chief of Engineers with the rank of brigadier general, and 185 additional officers in grades from colonel to second lieutenant, inclusive: *Provided*, That the legally authorized commissioned strength of the Regular Army is increased by 185, which said increase shall be allotted to the Corps of Engineers: *Provided further*, That officers of the Corps of Engineers employed primarily on duty connected with nonmilitary public works prosecuted under the direction of the Chief of Engineers, including river and harbor improvement, flood control, and other such works, shall, while so employed, be paid their pay and allowances, mileage and travel allowances from the appropriation for the work or works upon which they are employed: *And provided further*, That the number of officers so engaged and so paid shall be exclusive of the commissioned strength of the Regular Army as now or hereafter limited by the funds appropriated for "Pay of the Army" in the annual War Department Appropriation Act.

With the following committee amendment:

Page 1, line 6, after the word "and", strike out the remainder of line 6, and all of lines 7, 8, and 9 on page 1, and down to and including the word "further" on page 2.

Mr. McSWAIN. Mr. Speaker, I desire to say that after conference with the members of the committee it is now the desire of the committee to disagree to the proposed amendment.

The amendment was rejected.

The Clerk read as follows:

Page 2, line 2, after the word "further", insert "the President is hereby authorized to call to active duty with the Regular Army such number of officers of the Organized Reserves and for such time as may be necessary to meet the demands made and to be made upon the Engineer Corps of the Regular Army."

The amendment was agreed to.

The Clerk read as follows:

Page 2, line 7, after the word "Engineers", insert "and the Reserve officers of the Corps of Engineers."

The amendment was agreed to.

The Clerk read as follows:

Page 2, line 14, after the word "employed", strike out the remainder of the bill.

Mr. McSWAIN. Mr. Speaker, the committee is now opposed to this amendment.

The amendment was rejected.

Mr. McSWAIN. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. McSWAIN: On page 2, line 6, after the word "Army" and before the colon, insert the following words: "Notwithstanding the provisions of section 37 (a) of the act of June 3, 1916, as amended."

The amendment was agreed to.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

JARVIS, BAKER, AND HOWLAND ISLANDS

Mr. BUCHANAN. Mr. Speaker, I ask for the present consideration of the Joint Resolution 639, to provide certain administrative expenses for the Division of Territories and Island Possessions, Department of the Interior, and for other purposes, which I send to the desk and ask to have read.

The Clerk read as follows:

House Joint Resolution 639

Resolved, etc., That there is hereby appropriated out of any money in the Treasury not otherwise appropriated, $35,000 for administrative expenses of the Division of Territories and Island Possessions, Department of the Interior, in carrying out the provisions of Executive Order No. 7368, approved May 13, 1936, relating to certain islands of the United States situate in the Pacific Ocean, namely, Jarvis, Baker, and Howland Islands, including personal services in the District of Columbia and elsewhere (such employment outside the District of Columbia to be by contract, if deemed necessary, without regard to the provisions of sec. 3709 of the Revised Statutes), rent, traveling expenses, purchase of necessary books, documents, newspapers and periodicals, stationery, hire of automobiles, purchase of equipment, supplies, and provisions, and all other necessary expenses, including the reimbursement of other appropriations from which payments have been made for any of the purposes herein specified, fiscal year 1936, to continue available until June 30, 1937.

Mr. SNELL. Mr. Speaker, I reserve the right to object.

Mr. FISH. Mr. Speaker, I make the point of order and I reserve the right to object.

The SPEAKER. The gentleman from New York will state his point of order.

Mr. FISH. Mr. Speaker, I make the point of order that this is legislation on an appropriation bill.

The SPEAKER. The point of order is overruled. The gentleman from Texas has asked unanimous consent for the present consideration of a joint resolution.

Mr. BUCHANAN. This is not an appropriation bill.

Mr. FISH. Mr. Speaker, I reserve the right to object.

Mr. BUCHANAN. I do not think the gentleman will object when he understands what this is.

The SPEAKER. The gentleman from New York [Mr. SNELL] has reserved the right to object.

Mr. SNELL. Mr. Speaker, I did not intend to object, but I think the gentleman from Texas should make a short statement, explaining to the House just what it is intended to do and the necessity for this resolution.

Mr. BUCHANAN. Mr. Speaker, there are three islands—in fact, only two, because two are so close together that they are one—in equatorial Pacific Ocean, which a naval vessel of the United States discovered or landed at in 1857. Those in command of that naval vessel took possession of those islands in the name of the United States. They were considered worthless at that time, and up until now, when the navigation of the air has advanced so far that they have become very valuable as landing stations and fueling stations. Other nations have eyes upon them and are preparing to take possession of them physically. On May 12 of this year the President issued an Executive order placing the administration of the islands under the Department of the Interior. This resolution provides an appropriation to carry out that Executive order, so as to protect our rights, so that we may have physical possession of the islands, because we will send Hawaiians over there to live on them. That will perfect our right to those islands which are valuable for trans-Pacific air mail.

Mr. SNELL. And we are just protecting our own rights in passing this resolution?

Mr. BUCHANAN. Yes.

The SPEAKER. Is there objection to the consideration of the resolution?

Mr. FISH. Mr. Speaker, further reserving the right to object, I ask the chairman of the Committee on Appropriations whether it would not have been the proper procedure to have submitted this whole proposal to the Committee on Foreign Affairs to determine our rights to these islands before legislation was written by the Appropriations Committee.

Mr. BUCHANAN. Mr. Speaker, I knew nothing of this until a few days ago. The first I knew of it was through an estimate sent to the Senate to be put on the deficiency appropriation bill. Of course, I ought to have known of it, and the gentleman from New York [Mr. FISH] ought to have known, because on May 12 the President issued this Executive order; but we did not know it. An estimate did not come. When he issued his Executive order they sent some Hawaiians over there to live on the islands. They have to be kept there, if it does any good. This is simply to carry that into effect. This is an international question, and if this joint resolution is not passed other nations might lay claim to them and there would be an international dispute. When this is passed we will have no international dispute.

Mr. FISH. Will the gentleman yield to me for a couple of minutes, and then I shall not object?

Mr. BUCHANAN. Certainly.

Mr. FISH. Mr. Speaker, I believe this is not the proper procedure. This legislation should have gone before the Committee on Foreign Affairs and the facts determined, but in view of the fact that we are at the end of the session and that this is a matter which affects the interest of our country, I do not propose to object or to raise a point of order that this is legislation on an appropriation bill. On the other hand, I hope in any similar instance, if anything else develops before the gentleman's committee, that the gentleman himself will preserve the rights of the other committees of the House. This is not a proper or orderly way to legislate. As the gentleman says, however, it is in the interest of our country and should be acted on before we adjourn. Consequently I do not object to the consideration and adoption of the resolution in its present form.

Mr. TABER. Mr. Speaker, I reserve the right to object. With this appropriation the total appropriations for this session of Congress, as far as I can figure them, will amount to $10,069,710,521.78, the largest amount that has ever been appropriated by any peacetime session of Congress. The following is a detailed statement of the appropriations of the second session of the Seventy-fourth Congress, fiscal year 1937:

Supplemental deficiency bill		$368,234,000.00
Agriculture		195,565,606.00
District of Columbia		43,500,000.00
Independent offices	$2,889,751,000	
	45,000,000	
		2,934,751,000.00
Interior		116,425,195.00
Legislative		23,314,428.00
Navy		526,546,532.00
State, Justice, Commerce, and Labor		115,012,400.00
Treasury-Post Office		992,524,892.00
War		572,446,844.00
Deficiency		2,675,397,537.96
		8,563,718,434.96
Permanent appropriations		1,505,957,086.82
		10,069,675,521.78
Interior deficiency		35,000.00
Total		10,069,710,521.78

The SPEAKER. Is there objection to the present consideration of the joint resolution?

There was no objection.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider laid on the table.

PUBLICATION OF STATISTICS OF PEANUTS

Mr. COX. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 81) to provide for the collection and publication of statistics of peanuts by the Department of Agriculture.

The SPEAKER. Is there objection to the present consideration of the bill?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That the Secretary of Agriculture is hereby authorized and directed to collect and publish statistics of raw peanuts, shelled, unshelled, and crushed, and peanut oil, in the United States, in the possession of warehousemen, brokers, cleaners, shellers, dealers, growers' cooperative associations, or owners other than the original producers of peanuts. Such statistics shall show the quality of peanuts in such detail as to kinds—Virginias, Runners, Spanish, and imported varieties—as the Secretary shall deem necessary for the purposes of this act. All reports except those required from persons owning or operating peanut picking or threshing machines shall be submitted monthly in each year.

SEC. 2. The Secretary is hereby authorized to collect and publish statistics of the quantity of peanuts picked or threshed by any person owning or operating peanut picking or threshing machines.

SEC. 3. It shall be the duty of every warehouseman, broker, cleaner, and/or sheller, dealer, growers' cooperative association, owner and/or operator of peanut picking or threshing machines to furnish promptly upon request of the Secretary, within the time prescribed by him, completely and correctly to the best of his knowledge, a report of the quantity of peanuts on hand and in the case of an operator of peanut picking and threshing machines the quantity picked or threshed, segregating in accordance with forms furnished for the purpose by the Secretary. Any person required by this act, or the regulations promulgated thereunder, to furnish reports or information, and any officer, agent, or employee thereof who shall refuse or willfully give answers that are false and misleading, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not less than $300 nor more than $1,000, or imprisoned not more than 1 year, or to be subject to both such fine and imprisonment.

SEC. 4. The Secretary is hereby authorized to establish and promulgate grades and standards for the classification of peanuts, whenever in his discretion he may see fit.

SEC. 5. That the information furnished under the provisions of this act shall be used only for the statistical purposes for which it is supplied. No publication shall be made by the Secretary whereby the data furnished by any person can be identified, nor shall the Secretary permit anyone other than the sworn employees of the Department of Agriculture to examine the individual reports.

SEC. 6. The Secretary may make rules and regulations as may be necessary in the administration of this act and may cooperate with any department or agency of the Government, any State, Territory, District, or possession, or department, agency, or political subdivision thereof, or any person; and shall have the power to appoint, remove, and fix the compensation of such officers and employees not in conflict with existing law, and make such expenditures for rent outside the District of Columbia, printing, binding, telegrams, telephones, law books, books of reference, publications, furniture, stationery, office equipment, travel, and other supplies and expenses, including reporting services, as shall be necessary to the administration of this act in the District of Columbia and elsewhere, and as may be appropriated for by Congress; and there is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, such sums as may be necessary for such purpose.

SEC. 7. That when used in this act—

(1) The term "person" includes individuals, partnerships, corporations, and associations;

(2) The term "Secretary" means the Secretary of Agriculture.

With the following committee amendments:

Page 2, line 9, strike out "and/or" and insert in lieu thereof the word "or";

The same amendment in line 10, page 2.

The committee amendments were agreed to.

The bill as amended was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

NATIONAL HOUSING ADMINISTRATION

Mr. DINGELL submitted the following conference report and statement on the bill (S. 3247) to amend title II of the National Industrial Recovery Act as amended by the Emergency Appropriation Act of the fiscal year 1935, and as extended by the Emergency Relief Appropriation Act of 1935:

CONFERENCE REPORT

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 3247) to amend Title II of the National Industrial Recovery Act as amended by the Emergency Appropriation Act, fiscal year 1935, and as extended by the Emergency Relief Appropriation Act of 1935, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the House amendment, insert the following:

"That the acquisition by the United States of any real property heretofore or hereafter acquired in connection with any low-cost housing or slum-clearance project heretofore or hereafter constructed with funds allotted to the Federal Emergency Administration of Public Works pursuant to the title II of the National Industrial Recovery Act, the Emergency Relief Appropriation Act of 1935, or any other law, shall not be held to deprive any State or political subdivision thereof of its civil and criminal jurisdiction in and over such property, or to impair the civil rights under the local law of the tenants or inhabitants on such property; and insofar as any such jurisdiction has been taken away from any such State or subdivision, or any such rights have been impaired, jurisdiction over any such property is hereby ceded back to such State or subdivision.

"SEC. 2. Upon the request of any State or political subdivision in which any such project has been or will be constructed, the Federal Emergency Administrator of Public Works is authorized to enter into an agreement, and to consent to the renewal or alteration thereof, with such State or subdivision for the payment by the United States of sums in lieu of taxes. Such sums shall be fixed in such agreement and shall be based upon the cost of the public or municipal services to be supplied for the benefit of such project or the persons residing on or occupying such premises, but taking into consideration the benefits to be derived by such State or subdivision from such project.

"SEC. 3. Such payments in lieu of taxes, and any other expenditures for operation and maintenance (including insurance) of any low-cost housing or slum-clearance project described in section 1, shall be made out of the receipts derived from the operation of such projects. To provide for such payments and expenditures the Federal Emergency Administrator of Public Works is authorized from time to time to retain out of such receipts such sums as he may estimate to be necessary for such purposes.

"SEC. 4. (a) In the administration of any low-cost housing or slum-clearance project described in section 1, the Federal Emergency Administrator of Public Works shall fix the rentals at an amount at least sufficient to pay (1) all necessary and proper administrative expenses of the project; (2) such sums as will suffice to repay, within a period not exceeding sixty years, at least 55 per centum of the initial cost of the project, together with interest at such rate as he deems advisable.

"(b) Dwelling accommodations in such low-cost housing or slum-clearance projects shall be available only to families who lack sufficient income, without the benefit of financial assistance, to enable them to live in decent, safe, and sanitary dwellings and under other than overcrowded housing conditions: *Provided*, That no family shall be accepted as a tenant in any such project whose aggregate income exceeds five times the rental of the quarters to be furnished such family. The term "rental" as used in this subsection includes the average cost (as determined by the Federal Emergency Administrator of Public Works) of heat, light, water, and cooking, where such services are not supplied by the lessor and included in the rent.

"SEC. 5. In connection with any low-cost housing or slum-clearance project described in section 1, the Federal Emergency Administrator of Public Works, with the approval of the President, is authorized to dedicate streets, alleys, and parks for public use, and to grant easements."

And the House agree to the same.

That the Senate recede from its disagreement to the amendment of the House to the title, and agree to the same

CHESTER THOMPSON,
JOHN D. DINGELL,
FRANK CROWTHER,
Managers on the part of the House.

WALTER F. GEORGE,
DAVID I. WALSH,
Managers on the part of the Senate.

STATEMENT

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 3247) to amend title II of the National Industrial Recovery Act as amended by the Emergency Appropriation Act, fiscal year 1935, and as extended by the Emergency Relief Appropriation Act of 1935, submit the following statement in explanation of the effect of the action agreed upon and recommended in the accompanying conference report as to each of such amendments.

The Senate bill (sec. 1) amended section 203 (a) (3) of the National Industrial Recovery Act, as amended, to make available, out of any moneys received from the operation of slum clearance or low-cost housing projects by the Federal Emergency Administration of Public Works, such sums as the administrator determined to be necessary for the expenses of operation and maintenance (including insurance) of any such project. The House amendment contained comparable provisions (sec. 2) as to payments in lieu of taxes, except that they authorized the Administrator to enter into an agreement with any State or political subdivision for the payment by the United States of sums in lieu of taxes, in respect of any project in the jurisdiction of such State or subdivision. Such payment was to be based upon the cost of the municipal services available for the benefit of the

project and the tenants therein, after taking into consideration the benefits which may be derived by the State or subdivision from the project within its jurisdiction, and payments under any agreement in any year in respect of any project should not exceed the greater of two sums, namely: Five percent of the gross rentals of the project during the year, or the total amount of real-property taxes levied upon the site (including improvements) of the project for the last tax year prior to its acquistion by the United States. The conference agreement (sec. 2) retains the provisions of the House amendment as to such payment, except that the provisions as to maximum amounts is omitted.

The Senate bill (section 2) further amended section 203(a) of the National Industrial Recovery Act to authorize the Administration to pay as an operating expense such sums in lieu of taxes or special assessments on slum clearance or low-cost housing projects, as the Administrator might determine. The House amendment (section 3) in respect of the payment of operation expenses out of receipts, expressly authorized the Administrator to retain out of receipts of operation amounts estimated to be necessary for the purposes of making payments of sums in lieu of taxes in accordance with the agreements reached, and of the expenses of maintenance and operation (including insurance). The conference agreement (section 3) retains the language of section 3 of the House amendment.

The Senate bill (section 2) provided that the acquisition by the Administrator of any real or personal property in connection with the construction of any such project should not be held to deprive any State or political subdivision of its civil and criminal jurisdiction over such property, or to impair the civil rights under the local law of the tenants or inhabitants on such project, and that insofar as such jurisdiction had been taken away, it was ceded back to such State or subdivision. A substantially similar provision was contained in the House amendment (section 1) except that it omitted the reference to personal property. The conference agreement (section 1) retains the language of the House provision.

The House amendment (section 4) authorized the Administrator to fix rentals on such projects at such rates as he determined to be necessary in order to make such projects available to families in the community who are unable to pay enough rent to induce private enterprise to supply adequate, safe, and sanitary housing. Such rates need not provide for repayment in full of the funds expended in connection with the project. The Senate bill contained no comparable provision. The conference agreement (section 4) provides that the Administrator shall fix the rentals at an amount at least sufficient to pay (1) all necessary and proper administrative expenses of the project; (2) such sums as will suffice to repay, within a period not exceeding 60 years, at least 55 per centum of the initial cost of the project, together with interest at such rate as he deems advisable. It also provides that dwelling accommodations in such projects shall be available only to families who lack sufficient income, without the benefit of financial assistance, to enable them to live in decent, safe, and sanitary dwelling and under other than overcrowded housing conditions, and that no family shall be accepted as a tenant in any such project whose aggregate income exceeds five times the rental of the quarters to be furnished such family. For such purpose the term "rental" includes the average cost (as determined by the Federal Emergency Administrator of Public Works) of heat, light, water, and cooking, where such services are not supplied by the lessor and included in the rent. The conference agreement on this point follows the policies of the Wagner housing bill as reported by the Senate Committee on Education and Labor in respect of a similar problem.

The Senate bill (section 2) authorized the Administrator to dedicate lands for public use as streets, alleys, and parks, and to grant easements, in connection with any such project. A similar provision was contained in the House amendment (section 5), except that the approval of the President is required. The conference agreement (section 5) retains the language of the House provision.

CHESTER THOMPSON,
JOHN D. DINGELL,
FRANK CROWTHER,
Managers on the part of the House.

Mr. DINGELL. Mr. Speaker, I call up the conference report on the bill (S. 3247) to amend title II of the National Industrial Recovery Act as amended by the Emergency Appropriation Act of the fiscal year 1935, and as extended by the Emergency Relief Appropriation Act of 1935, and I ask unanimous consent that the statement may be read in lieu of the report.

The SPEAKER. Is there objection to the request of the gentleman from Michigan?

There was no objection.

The Clerk read the statement.

Mr. DINGELL. Mr. Speaker, I desire to make a very brief statement in connection with this bill, particularly for the benefit of the gentleman from Pennsylvania [Mr. RICH].

The report is signed by the House and Senate conferees. No exceptions were taken. All differences were amicably settled. I wish to assure the gentleman from Pennsylvania that the bill which passed the House originally is now vastly improved by the elimination of such inequalities as might have placed private homes and developments of this nature at a disadvantage. The bill is now superior to what it was before we went to conference.

Mr. RICH. May I ask the gentleman a question?

Mr. DINGELL. Certainly.

Mr. RICH. What I cannot understand is why we are trying to construct very expensive homes in the suburbs of cities, which will give individuals the finest kind of accommodations in the world. Better than any homes in my district. And then, after constructing those various expensive quarters, the cities which receive the benefits by having this great amount of money spent within their corporate limits for the purpose of enhancing the value of the property in those cities, come back and want the taxpayers of my district to continually pay taxes to the city of New York, Chicago, Atlanta, Boston, Detroit, Schenectady, and every other city where you are building these housing projects, when the people of my district are already burdened by taxes and are going to be burdened in future years by more taxes and are unable to carry on their own business to pay for their fine quarters. I think it is an injustice to the people in other sections of the country, because this administration is piling up more taxes for our people. It is not going to be a low-cost housing proposition. It is expensive housing as I view it. It is going to be an imposition on the people, building the finest quarters in the land and making the poor people in my district pay the bill.

Mr. DINGELL. I understand the gentleman's attitude, but that is no longer a debatable question. That is propaganda having no relation to the matter at hand; the question propounded by the gentleman is not involved here.

Mr. RICH. Well, is that not the fact?

Mr. DINGELL. I am not yielding that it is a fact at all. That question has been settled by the House. It is a question now of perfecting legislation in the interest of farmers to the many cities involved.

Mr. RICH. Well, if I can object to this I want to object to it, and I do object to it.

Mr. DINGELL. I understand that, but I am trying to reason with the gentleman. His objection will not block the matter. The gentleman, I am sure, is reasonable and is not just trying to scuttle something. I am trying to give the gentleman information, but I say to the gentleman candidly the House has passed on this once, and the gentleman certainly is not going to act in the capacity of an obstructionist. His objections will not prevent action.

Mr. RICH. Let me say that this House of Representatives during this session has passed some of the most ridiculous and asinine pieces of legislation that have ever been put on the statute books. I am not going to be one who is going to approve of them.

Mr. DINGELL. The aisle between us is the line of demarcation which decides whether it is asinine or not.

Mr. McCORMACK. Mr. Speaker, will the gentleman yield?

Mr. DINGELL. I yield.

Mr. McCORMACK. While the gentleman from Pennsylvania has a perfect right to oppose this or any other bill, the bill has already passed the House, and the gentleman opposed it on the occasion of its consideration. This is a conference report which is brought in, where the differences between the two branches of the Congress have been adjusted. I might say with reference to the gentleman's recent statement about his city paying a share of the money which the Government pays, that the money is collected in the nature of rentals charged. On these projects, within the 55-percent limitation, the taxes must be considered in the making of rentals. All this bill does is to allow a city to obtain money in lieu of taxes. One of the factors upon which the rental is based is the taxes paid.

Mr. RICH. Oh, the gentleman is wrong. It is taxes. And you can call it what you will. You pay to the cities the amount of taxes they formerly received.

Mr. McCORMACK. Oh, of course, the gentleman can say I am wrong. I can say the gentleman is wrong. We might both be wrong. That is a question of fact. I would never accuse the gentleman of being wrong. I may differ with the gentleman, but when I say the gentleman is wrong, I am exercising an arbitrary opinion. When the gentleman says I am wrong, the gentleman is exercising an arbitrary opinion that I take issue with.

Mr. RICH. Come down to the rentals on these buildings. You want to make the rentals so reasonable and so cheap, and when you do that you want to come back and get money out of the Treasury annually to pay the cities additional taxes in order to give cheap rent. You are only fooling the people, and you know it. You are Russianizing America. Putting the Government in all kinds of business contrary to our form of government. Why I can see nothing but socialism in this Democratic administration. You certainly are not Jeffersonian Democrats or you would carry out the Democratic platform of 1932.

Mr. McCORMACK. I wonder who does fool the people? The gentleman talked about asinine legislation. The gentleman may charge me with making asinine speeches at times, but I might differ with him. I might accuse the gentleman of making asinine statements at times, but I would not do it under any condition. The use of the word "asinine" is very dangerous. It is a dangerous word for any gentleman to use. The gentleman uses the word "Russianizing" in a very loose manner, particularly to one like myself, who has bitterly opposed and exposed the efforts of communism in this country.

Mr. RICH. It has been used in this House and the Chair has refused to strike it from the RECORD on a point of order made against it. It is about the only adjective we can use and not have our words taken down. It certainly applies here, I am sure.

This legislation, as you fellows have drafted it and brought it in, is all wrong, but there is something back of it. At the other end of the Avenue they have insisted that this legislation be put through and you fellows have rubber-stamped it through to this point.

Mr. Speaker, if the conference report is subject to objection, I now object to it.

The SPEAKER. Objection is not available against a conference report.

Mr. JENKINS of Ohio. Mr. Speaker, will the gentleman yield?

Mr. DINGELL. Yes.

Mr. JENKINS of Ohio. Is the gentleman going to yield any time?

Mr. DINGELL. Mr. Speaker, we are very anxious not to take up any more of the time of the House than is absolutely necessary.

Mr. FISH. Is the gentleman going to yield to the gentleman from New York [Mr. CROWTHER]?

Mr. DINGELL. Yes. I was going to yield to a member of the conference committee to make a few elucidating remarks.

Mr. Speaker, I yield 3 minutes to the gentleman from New York [Mr. CROWTHER].

Mr. CROWTHER. Mr. Speaker, I made a few remarks in connection with this bill when it was up for passage originally. At that time I expressed my dissatisfaction with the basic purpose involved. I think it is reprehensible and subject to criticism. But that is water over the dam. During the discussion the question arose as to whether or not the municipalities which were involved in these projects were entitled to receive in lieu of taxes a certain amount which was prescribed in the bill—5 percent of the rent received, or the amount collected in taxes from the site the year before it was accepted as a site for the Federal project, whichever sum was the larger. In conference there was objection to the wide-open proposition in section 4, that in the administration of any slum-clearance or low-cost housing project the Federal Emergency Administrator of Public Works shall fix the rentals on such projects at such rates as he shall determine to be necessary in order to make such project available to those families in the community which are unable to pay enough rent to induce private industry to supply adequate, safe, and sanitary housing, and so forth.

The conference committee thought that provision was entirely too broad. There had been a decision from the Comptroller General that it was not specific enough and now we have adopted another amendment in the nature of a limitation. To me it seems over liberal, but it still is a limitation. It reads as follows:

> In the administration of any slum-clearance or low-cost housing project described in section 1 the Federal Emergency Administrator of Public Works shall fix the rentals at an amount at least sufficient to pay (1) all necessary and proper administrative expense of the project, (2) such sums as will suffice to repay within a period not exceeding 60 years at least 55 percent of the initial cost of the project together with interest at such rate as he deems desirable.

This is the language, as I understand it, that is in the Wagner housing bill as it passed the Senate, and it materially improves the bill. It was accepted by the conferees. While I disagree with the basic premise of the legislation, I think these changes are meritorious.

[Here the gavel fell.]

Mr. FISH. Mr. Speaker, will the gentleman yield?

Mr. DINGELL. I yield.

Mr. FISH. Why is the gentleman in a hurry to pass this legislation in view of the fact that the Wagner housing bill, dealing with slum-clearance and low-cost projects, will not be passed by this Congress?

Mr. DINGELL. Simply because these projects are already built. Additional projects are under way, some of them probably completed. We must, therefore, make provisions for their administration and use.

Mr. FISH. Then does not the gentleman think that Congress is establishing a rather serious precedent that may come back to plague us? If we are going to pay any municipality, in lieu of taxes, something else, some other kind of money, on Government-owned buildings, are we not establishing a precedent that may call upon us to pay taxes on post-office or public buildings?

Mr. DINGELL. I differ with the gentleman.

Mr. FISH. I want to make very clear to the gentleman that I am not arguing but am trying to get information.

Mr. DINGELL. I want to clarify the matter for the gentleman. Post-office buildings fall in an entirely different classification from slum-clearance projects. There is no basis of comparison at all. One is used by all of the people of a community as a post office. In the case of the other project the development is not within the hands of the community, and the only proposition is to reimburse the community for such loss of taxes as they derived from such properties before they were taken over by the Government.

Mr. FISH. What about other Government-owned propositions?

Mr. DINGELL. This is an income-producing property, and a post office is not.

Mr. FISH. How about dams and reservoirs?

Mr. DINGELL. I am not going into that.

Mr. McCORMACK. Will the gentleman yield?

Mr. DINGELL. I yield to the gentleman from Massachusetts.

Mr. McCORMACK. This matter has been given serious consideration by the committee. I am the chairman of the subcommittee out of which this bill came. The difference is, property strictly devoted to a public use and property which we will admit, and probably most of us will agree, is not strictly devoted to public use. A post office is the exercise of an implied power necessary to carry out an express power delegated to the National Government by the several States. I realize the gentleman's point of inquiry, and it is a very pertinent one. The gentleman has in mind the national-park system, for example. I think the clear line of demarcation between the subject matter of this bill and a post office and the national-park system is whether or not it is devoted to

strictly a public use with reference to which the National Government has the inherent power to exercise the right of eminent domain.

Mr. FISH. I have in mind military reservations, such as the West Point Military Reservation in my district.

Mr. McCORMACK. That is a different proposition. That is a power that the Federal Government has. The Federal Government could go in and exercise the power of eminent domain there.

Mr. FISH. The gentleman is a very able and experienced Member of this House. Does he think when we pass legislation of this kind we are invoking a dangerous precedent?

Mr. McCORMACK. If confined to the present status, no. A little later in the day I hope another bill will come up for consideration, and if the gentleman is present at that time, he will be impressed with the fact that the subcommittee used caution and care with reference to resettlement projects. On such submarginal lands we refused to permit money to be paid in lieu of taxes, because we put those lands in the same category as a national park.

Mr. FISH. The gentleman's committee considered this whole question in detail?

Mr. McCORMACK. Yes.

Mr. FISH. And they come in here and make this report?

Mr. McCORMACK. Members have the right to disagree, but I may say the committee has given the whole subject profound consideration.

Mr. CHRISTIANSON. Will the gentleman yield?

This illustrates the complications that we enter into whenever the Government gets outside of its legitimate field as a sovereign and engages in any kind of private business.

Mr. McCORMACK. It illustrates the fact that when we try to meet one problem, no matter in what field it might be, as time passes and we obtain experience, other problems naturally arise therefrom.

Mr. DINGELL. Mr. Speaker, I yield 5 minutes to the gentleman from Massachusetts [Mr. McCORMACK].

Mr. RICH. Will the gentleman yield?

Mr. McCORMACK. I yield to the gentleman from Pennsylvania.

Mr. RICH. Is this bill going to carry the same provisions for additional slum clearance, so far as taxation is concerned, that might be built in any city in this country, or does it only apply to those which have already been constructed?

Mr. McCORMACK. It applies to any in the future; but I think, from a practical angle, we will not have the problem in the future because of the acceptance by the Government of the decision of the circuit court in the Louisville case that the Federal Government did not have the power of eminent domain. This means that any future housing activities will probably have to be administered through the several State governments, which naturally have the power of eminent domain.

Mr. RICH. One other question: Suppose we would take 500 cities in this country on which to build these housing projects. The gentleman calls them cheap housing projects, but he will find they are expensive housing projects to the Government.

Mr. McCORMACK. I only have a few minutes at my disposal. I do not want to cut the gentleman short.

Mr. RICH. Every one of them will have to be completed by the Federal Government:

Mr. McCORMACK. This, in the main, applies to what already has happened. The Louisville decision will take care of the future.

Mr. GIFFORD. Will the gentleman yield?

Mr. McCORMACK. I yield to the gentleman from Massachusetts.

Mr. GIFFORD. Would the gentleman mind stating what bill will come up this afternoon that will explain this to us?

Mr. McCORMACK. It is H. R. 12876.

Mr. JENKINS of Ohio. Will the gentleman yield?

Mr. McCORMACK. I yield to the gentleman from Ohio.

Mr. JENKINS of Ohio. I should like to ask a question for information. How does the Government handle these slum-clearance projects from this standpoint: I assume it starts out something like this, that a project is submitted to the Government and accepted. The Government then lends the money through the R. F. C., and a facility or organization of some kind representing the community acts.

Mr. McCORMACK. Up to date the Government, without regard to the R. F. C., has been conducting this housing activity. The P. W. A. has been making the purchases. It has been direct action.

Mr. JENKINS of Ohio. Suppose, after the Government makes these purchases, it rents the property under a long-time lease or a contract of purchase or something of that sort.

Mr. McCORMACK. That question is still open.

Mr. JENKINS of Ohio. The question I have in mind is this: Suppose the Government, we will say, owned 100 houses and sold 90 of them.

Mr. McCORMACK. To individuals?

Mr. JENKINS of Ohio. Yes.

Mr. McCORMACK. Then they would pay their taxes to the local government the same as anybody else.

Mr. JENKINS of Ohio. But if it has 10 of them left on its hands and they are vacant, how does this bill affect them?

Mr. McCORMACK. Of course, if the Government has the ownership, the bill would apply. If the Government disposes of ownership, then the bill does not apply.

I may say to my friend, however, there is no authority as yet for the disposition of any of these projects. This was in the bill presented to the subcommittee, but we eliminated that section because it covered such a broad field we wanted to give more profound consideration to the proper policies.

Mr. JENKINS of Ohio. Following out my catechism, suppose the Government has 10 such houses left upon which it has spent $10,000 each, which would mean a total of $100,000, and the property is entirely vacant and there is no rent from which to pay taxes, how is the property going to be taxed?

Mr. McCORMACK. Just the same as if I owned a house that was vacant. I would have to pay my taxes just the same.

Mr. JENKINS of Ohio. How do you determine, under this bill, what the taxes will be?

Mr. McCORMACK. The determination of the tax shall not be at a higher tax rate than the rate of the municipality, taking into consideration the service charges that inure to the municipality for this particular project and also taking into consideration the benefits involved.

Mr. JENKINS of Ohio. Very well, but this is what I am coming to. Does the gentleman know what proportion of these various properties is vacant?

Mr. McCORMACK. None of them have been completed. Atlanta, at the time we held the hearings, we were told, was 92 percent completed, and I assume it is now about 95 percent completed.

[Here the gavel fell.]

Mr. DINGELL. Mr. Speaker, I yield the gentleman 5 additional minutes.

Mr. McCORMACK. Mr. Speaker, I ask unanimous consent to speak out of order.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. McCORMACK. The recent news from Soviet Russia announcing a greater measure of freedom and democracy for its people cannot fail to arouse both approbation and hope in the minds of all Americans. Between our people and the Russian people there has been for over a century deep friendship and mutual understanding. The excesses and extravagant policies of the Soviet Government and the Communist Party in the past have not destroyed that deep and historic sympathy with old friends. Such friendship outlasts transitory regimes because it is based on respect for a great member of the human family.

We welcome every advance toward more humane and tolerant standards on the part of the Soviet Government and await with expectation the fulfillment of its recent promises. But the record of the past imposes extreme reservation in accepting literally the recent announcement of a cessation of that undemocratic and, in many cases, inhuman oppression that has shocked the civilized world these later years. Human rights and personal liberties are jealously regarded by the American people. Attacked and suppressed in one land, they are menaced everywhere. When the Soviet Government announces, among other reforms, that liberty of conscience and of religion will be respected hereafter in the territories under its jurisdiction, we all rejoice and applaud. But that very announcement, publicly made to the world, carries a public challenge with it. If the Soviet Government is rendering more than lip service to human liberty, let it reduce those phrases to concrete action.

Ministers of all religions—Protestant, Catholic, and Jew—have been relentlessly persecuted in a manner that is beyond denial. They have been executed, imprisoned, banished, and exiled to prison camps until a bare heroic remnant now remains at liberty. Speaking of one religion only, the Catholic faith, the sad and tragic decimation of its priests has reduced the clergy from 896 members in 1917 to the unbelievable number of 30 now at liberty in Soviet Russia! What has happened to the 860? Some have doubtlessly died natural deaths or have been forced to leave their posts, but natural causes can never explain the disappearance of so many hundreds, with no replacements possible. They have died in the freezing prison camps of Solovki, Jaroslav, and Viatka; they have been executed in secret or banished to inaccessible wildernesses in Siberia. Behind a curtain of silence and propaganda they have been perishing by hundreds, not because of crime but out of loyalty to their faith and in obedience to the law of God, whose commandments they would not violate by apostacy or surrender to obligatory atheism. The last available reliable and authentic report from that dwindling flock showed 36 still imprisoned on Solovki Island, 22 at Jaroslav, 20 elsewhere, with 15 arrested very recently. About 3 years ago there were about 120 imprisoned on Solovki Island, a living death; today there are but 30. That leaves some 30 Catholic priests surviving in a precarious liberty in Soviet Russia, no man knowing the day or the hour when he, too, will follow his comrades into the valley of silent martyrdom. Those who are spared are found in the large cities—to impress visitors and tourists.

And the same is true in much greater proportion of the Russian Orthodox Church. And the Jewish faith has not been spared. I plead for all of them, for they are men in the image and likeness of God. They are being deprived of the most sacred right known to mankind.

I make particular reference to the number of Catholic priests that have been and are now incarcerated, because I have reliable information in this respect. I have not reliable information of the number of priests or ministers of other creeds, or rabbis who are imprisoned. However, they are many, and in all probabilities, in the case of the Russian Orthodox Church, more numerous than any other creed. My challenge applies to all. I speak for all.

Here is a direct, an immediate, and an inescapable challenge to the Soviet Government. When those innocent prisoners are released we shall be in a better position to evaluate the sincerity of the recent promises. If they are not, liberty is still in chains, no matter what paper constitutions may pretend.

The civilized world read with great interest the recent announcement of the approaching existence in Soviet Russia of personal liberty. One of the cornerstones of personal liberty is the right of freedom of religious conscience, and the free exercise thereof. This right is meaningless unless there is accompanying the same the power of a free exercise of such right. The civilized world accepts the recent announcement with caution. In plain language, we must be shown. If sincerity exists, it must and will be evidenced by acts and not mere words. The civilized world challenges those in control of the Government of Soviet Russia to show their good faith and sincerity by releasing the imprisoned spiritual advisers of all faiths—priest, minister, rabbi—and to allow them to practice their religious views, to carry on religious services, and to perform the duties of their office and of their calling. The most effective way for Soviet Russia to convince a skeptical and hopeful world of their good faith is by taking such action.

The good faith of Soviet Russia in its recent message and announcement of great importance, if carried out, is on trial before the peoples of the civilized world. We will not be satisfied with the ordinary and false stereotype answers that an inquiring world has received in the past, that religious liberty existed, when everyone knew that it did not.

In issuing this challenge to Soviet Russia, those in control of this Government, to show by their actions that a real and honest intent exists to extend the personal liberty promised to the Russian people, I speak for the spiritual leaders of all creeds; all who have been imprisoned because they refused to be hypocrites, and to renounce their religious convictions for mere freedom of physical locomotion. These defenders of the faith that they believe in, if Soviet Russia is sincere, should be released at once. They should be permitted to perform the duties of their office and of their calling.

I challenge them to show the world their sincerity by releasing priests and ministers of all creeds and letting them practice the religious beliefs that they entertain. [Applause.]

The SPEAKER. The question is on the adoption of the conference report.

The conference report was agreed to.

A motion to reconsider was laid on the table.

THE BEET-SUGAR INDUSTRY

Mr. WOODRUFF. Mr. Speaker, I ask unanimous consent to proceed for 1 minute.

The SPEAKER. Is there objection to the request of the gentleman from Michigan?

There was no objection.

Mr. WOODRUFF. Mr. Speaker, with regard to Senate Joint Resolution 278, which has been adopted by the House, I wish to make very clear the position of the beet-sugar industry of Michigan.

We are opposed to the destruction of continental production or to any limitation upon the distribution of sugar produced in continental United States. We do favor a sugar-quota system by which the importation in the United States from the insular areas is restricted, and I have introduced a bill, H. R. 12225, which does exactly that.

We recognized that in order to assure maintaining the quota system against offshore areas until we could get permanent legislation, it was necessary to pass the joint resolution, so that the purposes for which the quota system is imposed might be within the United States Constitution.

We favor the imposition of quotas against offshore areas for the purpose of regulating foreign and interstate commerce, but we oppose any quotas on continental United States for any purpose.

Wih this explanation and understanding we do not object to the consideration of the joint resolution, but I feel that the record should be made clear that by not opposing its consideration our position should not be considered to be agreeing to limitations of continental production.

I have been pleased to note the assurances that have been made by the able, hard-working and eminently fair chairman of the House Committee on Agriculture, Mr. JONES, of Texas, in which he has agreed that his committee will give full consideration to a permanent sugar program at the next session of Congress, with hearings and ample opportunity for the interested parties to make known their views.

I express the hope that the Committee on Agriculture will accept my bill, for the reason that it expresses the views of our own citizens, voters, and taxpayers who are growers and processors in the United States, and proposes a quota system in the simplest form with the least need for administration on the part of the Federal Government. It is my opinion and the opinion of those who represent the continental domestic industry that the simple formula proposed

in the Woodruff bill would stabilize the sugar market of the United States with benefits to the growers of sugar beets and sugar cane and with full protection to the consumer.

THE AIR CORPS OF THE ARMY

Mr. ROGERS of New Hampshire. Mr. Speaker, I call up the conference report on the bill (H. R. 11140) to provide more effectively for the national defense by further increasing the effectiveness and efficiency of the Air Corps of the Army of the United States.

The Clerk read the conference report.

The conference report and statement are as follows:

CONFERENCE REPORT

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 11140) to provide more effectively for the national defense by further increasing the effectiveness and efficiency of the Air Corps of the Army of the United States, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows: Strike out the word "immediately" in the matter inserted by said amendment, and the Senate agree to the same.

JOHN J. McSWAIN,
LISTER HILL,
WM. N. ROGERS,
DONALD H. McLEAN,
CHARLES A. PLUMLEY,
Managers on the part of the House.

MORRIS SHEPPARD,
DUNCAN U. FLETCHER,
ROBERT D. CAREY,
Managers on the part of the Senate.

STATEMENT

Your conferees, having met with the conferees on the part of the Senate, have agreed to recede from disagreement to the amendment proposed by the Senate with an amendment thereto, which amendment consists of striking out the word "immediately." The effect of the agreement in conference is to increase the authorized strength of the Air Corps of the United States Army by the number of 2,320 planes. While the bill as it passed the House by unanimous consent called for an increase of 4,000 planes, the figure 2,320 as the justifiable increase was accepted by reference to the figures mentioned in the Baker Board report, which was followed by the report of the Howell Board.

JOHN J. McSWAIN,
LISTER HILL,
WM. N. ROGERS,
DONALD H. McLEAN,
CHARLES A. PLUMLEY,
Managers on the part of the House.

Mr. RICH. Mr. Speaker, will the gentleman yield for a question?

Mr. ROGERS of New Hampshire. I yield.

Mr. RICH. Under this bill as agreed to in conference you are going to increase the Air Force of the Army of this country.

Mr. ROGERS of New Hampshire. Yes. This is the bill that unanimously passed the House. Some amendments were put on in the Senate, and as a result of a conference with Senators Sheppard, Fletcher, and Clark and the five House conferees we agreed upon a satisfactory disposition of the matter.

Mr. RICH. I may say to the gentleman that I believe that the best way to protect our shores is by an air force, but have you any power to do anything about stopping the building of these $100,000,000 battleships?

Mr. JENKINS of Ohio. Reserving the right to object, what changes were made in conference?

Mr. ROGERS of New Hampshire. The conference report which was put into the RECORD last Monday speaks for itself. Let me call your attention to this: The House bill which passed unanimously provided for the acquisition of not exceeding 4,000 planes. The Senate bill, as will be seen by the conference statement, changed that, and the conferees effected an agreement for 2,320 as the justifiable increase in the authorized strength of the Army Air Corps. That was accepted by reference to the figures mentioned in the Baker Board report, which was followed by the report of the Howell Board. Also, the Senate bill contained the word "immediately", while the House bill provided a term of "5 years." We struck out both of them.

Mr. SNELL. Then the only material difference is that the number of planes was reduced, provided in the House bill, from 4,000 to 2,320.

The SPEAKER. The question is on the adoption of the conference report.

The conference report was agreed to, and a motion to reconsider the vote by which the conference report was agreed to was laid on the table.

RAMEY BROS.

Mr. KENNEDY of Maryland. Mr. Speaker, I submit a conference report upon the bill H. R. 1362, for the relief of Ramey Bros., of El Paso, Tex., and ask its present consideration.

The SPEAKER. The gentleman from Maryland submits a conference report which the Clerk will report.

Mr. KENNEDY of Maryland. Mr. Speaker, I ask unanimous consent that the statement be read in lieu of the report.

The SPEAKER. Is there objection?

There was no objection, and the Clerk read the statement.

The conference report and statement are as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 1362) entitled "An Act for the relief of Ramey Brothers, of El Paso, Texas", having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments.

AMBROSE KENNEDY,
W. A. PITTINGER,
J. BURRWOOD DALY,
Managers on the part of the House.

JOSIAH W. BAILEY,
JOHN G. TOWNSEND, Jr.,
Managers on the part of the Senate.

STATEMENT

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 1362) for the relief of Ramey Bros., of El Paso, Tex., submit the following written statement explaining the effect of the action agreed upon.

There was one amendment to the bill by the Senate, as follows: Strike out all of the bill after the enacting clause and insert in lieu thereof the following:

"That jurisdiction is hereby conferred upon the United States District Court for the Western District of Texas to hear, determine, and render judgment upon the claim of R. A. Ramey, doing business as Ramey Bros., of El Paso, Tex., against the United States for additional compensation in connection with the reconditioning of the pipe line serving the city reservoir at the marine hospital, Fort Stanton, N. Mex., under contract no. T2sa-2930, dated September 11, 1931.

"SEC. 2. In the determination of such claim the United States shall not be held liable for any amount in excess of $8,432.22.

"SEC. 3. Suit upon such claim may be instituted at any time within 1 year after the enactment of this act, notwithstanding the lapse of time or any statute of limitations. Proceedings for the determination of such claim, and appeals from and payment of any judgment thereon, shall be in the same manner as in the cases of claims over which such court has jurisdiction under the provisions of paragraph 'Twentieth' of section 24 of the Judicial Code, as amended."

The House passed the bill calling for payment in the amount of $8,432.22. This being a contract claim, it is reported that the Senate, in amending the bill as above quoted, believed it best that the claimant be given his day in court to establish that the losses on the contract were occasioned by delay in getting started on the work, which the evidence seems to show was directly caused by the Government's failure to promptly notify the contractor, or claimant, of its acceptance.

The Senate has now receded from its amendment, and the bill has been restored to a direct payment of the sum in question. The facts, as set forth in House Report No. 1455, submitted by the Committee on Claims, your conferees believe fully substantiate the payment. Briefly, the report shows that a delay in getting under way with the performance of the contract of practically 2 weeks was occasioned to the claimant when the Government, although it had awarded the contract to claimant, failed to give it official notice thereof for the period named. The report also shows that claimant, when advised it was the low bidder on the contract, wired the Treasury Department for information as to whether it would be awarded the contract so that necessary materials could be ordered then and not when notice was sent by the Government 2 weeks later. This would have enabled completion of the work within the specified time and prior to freezing winter

weather, which caused the losses in question. It is also clear that the claimant from the very first advised the Government that because of this delay an extension in the contract time would be necessary.

AMBROSE J. KENNEDY,
W. A. PITTENGER,
J. BURRWOOD DALY,
Managers on the part of the House.

Mr. MAPES. Mr. Speaker, may I ask the gentleman from Maryland if all the conferees signed that report?

Mr. KENNEDY of Maryland. They did.

The SPEAKER. The question is on agreeing to the conference report.

The conference report was agreed to, and a motion to reconsider the vote laid on the table.

MR. AND MRS. BRUCE LEE

Mr. KENNEDY of Maryland. Mr. Speaker, I submit a conference report on the bill (H. R. 3952) for the relief of Mr. and Mrs. Bruce Lee and ask its present consideration. I ask unanimous consent that the statement be read in lieu of the report.

The SPEAKER. Is there objection?

There was no objection.

The Clerk read the statement.

The conference report and statement are as follows:

CONFERENCE REPORT

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 3952) entitled "An act for the relief of Mr. and Mrs. Bruce Lee", having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same.

AMBROSE J. KENNEDY,
W. A. PITTENGER,
Managers on the part of the House.

JOSIAH W. BAILEY,
JOHN G. TOWNSEND, Jr.,
EDWARD R. BURKE.
Managers on the part of the Senate.

STATEMENT

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 3952) for the relief of Mr. and Mrs. Bruce Lee submit the following written statement explaining the effect of the action agreed upon:

There was one amendment to the bill by the Senate, as follows: Page 1, line 6, strike out the words "not otherwise appropriated" and insert in lieu thereof the words "allocated by the President for the maintenance and operation of the Civilian Conservation Corps."

The House passed the bill providing for appropriation, as usual, for payment of the claim out of any money in the Treasury not otherwise appropriated. The Senate amendment substitutes funds allocated by the President for the maintenance and operation of the Civilian Conservation Corps for payment of the claim.

Several bills were amended by the Senate in the same manner, it being of the opinion that the large number of motor-vehicle accidents involving the C. C. C. will be curtailed if those in charge of the Conservation Corps are aware that funds allocated for its support are to be used for the payment of its claims.

Whether the result sought will actually be attained in any degree seems conjectural. A conference on the matter was requested, so that an understanding might be had, this being a matter of policy. The funds for the support of the C. C. C. are allocated by the President, it is understood, as they are needed, and consequently are not in the same class as regular annual appropriations. Therefore, no particular harm may be occasioned so far as the C. C. C. is concerned. Of course, we might be forced to take a different position were the funds sought to be used of a regular appropriation, of which every dollar is set aside for some particular purpose.

The other bills which were amended in a manner identical to that in the instant case were not sent to conference, one bill being sufficient to decide on the question as a matter of policy. The House has since agreed to the amendments of the Senate to those other bills, and for that reason, and the reasons herein enumerated, your conferees have agreed to recede from the disagreement of the House to the Senate amendment.

AMBROSE J. KENNEDY,
W. A. PITTENGER,
Managers on the part of the House.

Mr. KENNEDY of Maryland. Mr. Speaker, this is a House bill, which appropriated moneys out of the Treasury not otherwise appropriated. The Senate amended that by providing for the payment of the appropriation out of the C. C. C. fund and the House agreed to that amendment.

Mr. RICH. Mr. Speaker, does the gentleman know of any moneys in the Federal Treasury that are not appropriated?

The SPEAKER. The question is on agreeing to the conference report.

The conference report was agreed to and a motion to reconsider the vote laid on the table.

THE TAX BILL

Mr. DOUGHTON. Mr. Speaker, I ask unanimous consent that the conferees on the tax bill (H. R. 12395) may file a conference report without an accompanying statement, as provided in rule XXVIII.

The SPEAKER. Is there objection?

Mr. SNELL. Mr. Speaker, I reserve the right to object. I appreciate the fact that this is a very important bill, and that, of course, we ought to have a statement filed with the report. On the other hand, I expect that the gentleman is making this request in order to facilitate adjournment. With that understanding I would not want to object. Of course, I would not want to have this taken as a precedent, to be followed in the House.

Mr. DOUGHTON. It is to expedite adjournment. If a statement is required, it can be filed later.

The SPEAKER. Is there objection?

There was no objection.

PROHIBITING INTERSTATE TRANSPORTATION OF STRIKEBREAKERS

Mr. MILLER. Mr. Speaker, I ask unanimous consent for the present consideration of the bill (S. 2039) making it a felony to transport in interstate or foreign commerce persons to be employed to obstruct or interfere with the right of peaceful picketing during labor controversies.

The SPEAKER. Is there objection?

Mr. RICH. Mr. Speaker, I object.

Mr. MILLER. Mr. Speaker, I move to suspend the rules and pass the bill S. 2039, which I send to the desk and ask to have read.

The Clerk read as follows:

Be it enacted, etc., That whoever shall knowingly transport or cause to be transported, or aid or abet in transporting, in interstate or foreign commerce, any person with intent to employ such person to obstruct or interfere, in any manner, with the right of peaceful picketing during any labor controversy affecting wages, hours, or conditions of labor, or the right of organization for the purpose of collective bargaining, shall be deemed guilty of a felony and shall be punishable by a fine not exceeding $5,000, or by imprisonment not exceeding 2 years, or both, in the discretion of the court.

The SPEAKER. Is a second demanded?

Mr. BLANTON. Mr. Speaker, I demand a second.

Mr. RICH. Mr. Speaker, I demand a second.

The SPEAKER. The Chair thinks that the minority is entitled to recognition to demand a second. Is the gentleman from Pennsylvania opposed to the bill?

Mr. RICH. I am.

Mr. MILLER. Mr. Speaker, I ask unanimous consent that a second be considered as ordered.

The SPEAKER. Is there objection?

There was no objection.

The SPEAKER. The gentleman from Arkansas [Mr. MILLER] is recognized for 20 minutes and the gentleman from Pennsylvania [Mr. RICH] is recognized for 20 minutes.

Mr. MILLER. Mr. Speaker, I would like for the House to understand, if we may, just what the provisions of this bill are and to the cases that will be covered by the bill if it is enacted into law.

At the outset, let me say that I do not think it matters one iota to my State or, as far as that is concerned, to my district, just what may become of the bill, but the hearings conducted by the Committee on the Judiciary revealed conditions which led the committee to believe that the bill ought to be enacted.

There is some misunderstanding as to what the bill provides, and I hope I may assist you in reaching a clear understanding of its provisions. It simply makes it unlawful for any person to knowingly transport or cause to be transported in interstate commerce or foreign commerce, any

person with the intention of employing that person to interfere in any manner with the right of peaceful picketing, when there is a labor controversy involving wages, hours, or conditions of labor, or the right of organization. In other words, before this act could be violated, if it becomes law, there must first be a labor controversy involving wages, hours, conditions of labor, or the right of organization. Then there must be peaceful picketing. And, in addition to these essentials, the persons must be knowingly transported in interstate commerce with the intention of employing the persons to interfere with peaceful picketing. That is all in the world the bill does.

Mr. STEFAN. Mr. Speaker, will the gentleman yield?

Mr. MILLER. I yield.

Mr. STEFAN. Would that prohibit the importation of strikebreakers in case of a strike?

Mr. MILLER. I do not think so.

Mr. SNELL. Will the gentleman yield?

Mr. MILLER. I yield.

Mr. SNELL. Just what does the gentleman mean by peaceful picketing? Suppose I own a manufacturing company and had a strike on, could I hire men to come in there and go to work? These fellows on the outside would not allow them and would probably beat them up.

Mr. MILLER. I do not think the bill would apply.

Mr. SNELL. The only thing is peaceful picketing, walking up and down?

Mr. MILLER. The gentleman from New York [Mr. SNELL] can define peaceful picketing as well as anyone else. The hearings revealed that there are several organizations in the country, particularly one organization headed by a man named Bergor in New York. There was an account of his operations in the magazine Fortune last year and also in the Reader's Digest, in which it is shown that he has built up a considerable business by furnishing men for this identical purpose, and transporting those men in interstate commerce for the purpose of interfering with peaceful picketing. Personally I do not know one thing about a strike. We do not have those things where I live. My district does not have them. I do not know anything about it, but I have attempted to show you what the bill provides.

I am going to make this further statement: Many people wanted the bill amended so as to make it apply to conditions outlined by the gentleman from Nebraska [Mr. STEFAN] and the gentleman from New York [Mr. SNELL], but it was thought by the proponents of the bill that this would be a step in the right direction and would stop the transportation of so-called outsiders into a peaceful strike area, if, in fact, such area exists.

Mr. WADSWORTH. Mr. Speaker, will the gentleman yield?

Mr. MILLER. I yield.

Mr. WADSWORTH. Would the gentleman disclose to us the nature of the interference with peaceful picketing which this bill seeks to prevent? The nature of the interference with peaceful picketing?

Mr. MILLER. The testimony showed in the hearings that there were conditions—for instance, a situation arose in Colorado where it was claimed there was peaceful picketing. That was several years ago and a congressional investigation was held on it. Fifteen or twenty men were killed by men who were brought in there, who attempted to stop these people from marching or from their peaceful picketing operations.

Mr. SIROVICH. Mr. Speaker, will the gentleman yield?

Mr. MILLER. I yield.

Mr. SIROVICH. In other words, the purpose of this bill is to prevent strikebreaking agencies that are created just for the purpose of destroying the peaceful and honorable efforts of workingmen to get social justice. Those strikebreaking agencies are transporting men from foreign States and provoking fights with the peaceful picketers in order to destroy them?

Mr. MILLER. Yes. The trouble is that whenever you take men from Arkansas into New York, or from Massachusetts to Arkansas, and they go to interfering with the local problems, it is just like waving a red flag in a bull's face. [Applause.]

Mr. MARCANTONIO. Mr. Speaker, will the gentleman yield?

Mr. MILLER. I yield.

Mr. MARCANTONIO. I would like to make the suggestion at this time that the Members read the article I Break Strikes by Bergoff. It would open the eyes of every single Member as to just what these thugs do in case of a strike.

Mr. MILLER. That is the article to which I referred. As I say, I do not think we in Arkansas would be affected by a strike in a great many years, but that article by Pearl Bergoff, I Break Strikes, and the manner in which he does it is something that would open the eyes of everybody.

Mr. CITRON. Mr. Speaker, will the gentleman yield?

Mr. MILLER. I yield.

Mr. CITRON. Did the gentleman mention to the House that the information presented to our committee, the Judiciary, showed that most of these men who were transported in interstate commerce to interfere with peaceful pickets carried firearms of various sorts?

Mr. MILLER. Oh, yes. The arms are furnished. That is a part of the business of such organizations. In this article he describes arms that he did furnish. In the interest of law and order and the protection of the rights of the working men and women the bill should be passed. [Applause.]

Mr. Speaker, I reserve the balance of my time.

Mr. RICH. Mr. Speaker, I yield 10 minutes to the gentleman from Texas [Mr. BLANTON].

Mr. BLANTON. Mr. Speaker, I am a loyal friend of organized labor and vote for its demands when they are just, but against them when they are not just and right. I say to you it is just such bills as this that has caused the depression. It is just such bills as this that has closed the factories all over the United States. It is such bills that has put men out of work.

If you want employment, you have got to have places open where employees may be employed. Whenever you pass a bill that prevents an employer from protecting his business he is going to close it up and then the employees go out of jobs. He puts his money in tax-exempt securities, in bonds and stocks, where he is not bothered. That is what is the matter with the United States. That is what is the matter with every country in Europe. They have such laws as this in the interest of the few as against the many.

I want to give you some illustrations. Last October I went down through Terre Haute, Ind., on the Wabash. There had been some strikes; there had been some so-called peaceful picketing, where the peaceful picketers had taken brickbats and broken out the windows of a factory—not one factory but several factories.

Mr. MILLER. Mr. Speaker, will the gentleman yield?

Mr. BLANTON. In just a minute. I want to get these facts before the Members. And when the factory owners tried to get people to work, these peaceful picketers would catch them and beat them nearly to death. That was peaceful picketing, I will say to the minority leader. They beat them nearly to death, just as they did here in Washington when we were building the new Supreme Court Building; they sent automobile loads of thugs up there and took men off their job and beat them up because they wanted to work and would not join the union.

Martial law was declared down there in Terre Haute last year and two whole counties were put under martial law. Who was put in charge of it? A United States officer, a major in the United States Army as brave as a lion. He took charge of the situation and stopped those peaceful picketers. In a day or so, here came Norman Thomas, a graduate of Princeton University, who would have been better off if he had never been educated, because it made him just that much smarter in the improper work he has been doing to undo business affairs in the United States. Norman Thomas went to that Army officer and he said, "I demand the right of peaceful picketing." That Army officer said, "There is no such thing as peaceful picketing." He

said, "There is not going to be any peaceful picketing. I am going to put every man in jail who tries to bother these owners of property who are trying to run their factories." In a few weeks order was restored.

Mr. SIROVICH. Mr. Speaker, will the gentleman yield?

Mr. BLANTON. I yield to the distinguished gentleman because I could not do otherwise.

Mr. SIROVICH. Does my distinguished friend realize that the story he is narrating here is an intrastate matter which the courts of the State will look after and of which this bill does not take cognizance? This bill provides against the interstate transportation of strikebreakers, anarchists, and crooks that are sent in to destroy the very people who are honestly doing what the gentleman is talking against.

Mr. BLANTON. No; this bill would have protected those so-called peaceful picketers. I am going to mention some cases closer home. I was here some years ago during the Raleigh Hotel strike on Pennsylvania Avenue. Some of these walking delegates, these slick, overfed walking delegates, went to the Raleigh Hotel, called the employees out, and said, "You have got to unionize." They said, "We do not want to; we are getting splendid pay; we are perfectly satisfied."

They forced them to unionize and the Raleigh Hotel discharged them, which they had a right to do. The Raleigh Hotel sent over to Baltimore across the line and brought in other employees and put them to work. There was "peaceful picketing." Young girls 16 and 18 years old were employed to carry banners as well as men and women. They had three 8-hour shifts here in the Nation's Capital, every hour of the day and night. They were going around the Raleigh Hotel carrying banners reading: "This is a scab joint. No decent person will enter this hotel." Every good woman who came to Washington from other States when she started into that hotel was stopped by these peaceful picketers and told: "If you go into this Raleigh Hotel you are not decent." Complaints were made.

Mr. MILLER. Mr. Speaker, will the gentleman yield?

Mr. BLANTON. I am sorry, I cannot yield. The gentleman has his own time. I will yield to him in his own time but not in mine.

That went on here for months until I got on this floor and denounced it, and it stopped.

I shall give you something still closer home. Gude's Flower Shop here experienced the same trouble. There is no finer man in the world than William Gude, the proprietor. I have known him for years. He started here 40 years ago with a little plant and a dozen employees. He has built it up into a splendid flower business "Say it with flowers", until he has employed several hundred people and has built up the finest flower business you ever saw. They tried to force his employees to unionize, but when they finally agreed they were not going to do it they put "peaceful picketers" around his building to beat up his employees when they went in and came out.

Do you tell me William Gude did not have the right to defend them? Why, I would have sent to Kalamazoo, if necessary, in order to protect my own business.

I will give you another incident. Down on F Street there are some splendid merchants there, Saltz Bros., who have been in business for years. They pay rents, taxes, and other expenses here of $75,000 a year. They have a big pay roll and their employees are well satisfied, some of whom have been with them for years. They draw the highest salaries that are being paid in clothing stores. Not long ago there were these "peaceful pickets" walking around and around there advertising "This is a scab joint", because those employees did not want to unionize. Saltz Bros. went into court here and tried to protect their business, but the court said, "Congress has provided there shall be peaceful picketing and we cannot give you any protection."

Let me give you some more illustrations. There is a splendid delicatessen down on F Street, named Reeves. They have been there for years. They furnish your wife with fine cakes and ice cream.

[Here the gavel fell.]

Mr. RICH. Mr. Speaker, I yield the gentleman 2 additional minutes.

Mr. BLANTON. Mr. Speaker, Reeves has had one employee with him for 30 years. He has the highest-paid employees in that class of business. They had "peaceful picketing" down there. Every time the employees would go in and out, because they did not want to unionize, they had these peaceful pickets there to attack and beat them up.

Mr. Speaker, this ought to stop. If you want to bring about normalcy in business, if you want to help men who are out of employment, if you want to give jobs to the unemployed, you will stop this monkey business. Stop bills like this and put up a signboard at every crossroads in the United States saying: "The United States Government recognizes that in order to have employees we must have employers, and we are going to protect the business of the employers of the country in the interest of the employees."

If we do that, Mr. Speaker, the factories will open and the now 12,000,000 idle men will go back to work.

Mr. MILLER. Mr. Speaker, I yield 2 minutes to the gentleman from Michigan [Mr. RABAUT].

Mr. RABAUT. Mr. Speaker, after listening to the remarks of the last speaker, I am convinced he has not read the report. I do not know how much of the bill he read, but he has not studied the report. The report states:

> It is a business which, according to the information given to the committee, is not tolerated in any country. These men are transported from State to State by their employers, who supply captains and lieutenants, feed, and finance their men and furnish them with weapons, clubs, brass knuckles, and firearms.

I cannot believe for a minute that anybody would be in favor of any such sort of procedure in this country. It is just downright everyday racketeering. We have those outside the State coming into the State where peaceful picketing is going on. Why, it is as plain as any language could be. It is un-American, and no one should tolerate this situation, and I cannot believe that the gentleman from Texas is opposed to this bill. I intend to vote for this legislation.

[Here the gavel fell.]

Mr. CELLER. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. MARCANTONIO].

Mr. MARCANTONIO. Mr. Speaker, the speech just made by the gentleman from Texas [Mr. BLANTON] is, in my opinion, the most vicious antilabor speech that has ever been made on the floor of this House. He fails to recognize certain fundamental principles which have been accepted in the United States ever since we have had a government here—first, the right to strike; and, second, the right to advertise that strike by picketing.

What has happened in the past? Industrial disputes have arisen, and there have been organized throughout the country professional strikebreakers, many of them with long criminal records—racketeers of the worst sort.

These professional strikebreakers with long criminal records, racketeers as they are, are transported from State to State and taken into strike centers. Who violates the law? Who is the most likely to cause disorder, violate the law, and do shooting? The honest worker, who is out on strike trying to get a decent livelihood, or these racketeers with long criminal records, who are well paid to do violence, and who are transported from one State to another?

The gentleman from Texas prefers to defend that type of racketeer. I prefer to stay with the majority of this House—and I believe it will be the majority—who stand for the honest worker when he goes out on strike, and his right as a law-abiding American citizen to advertise that strike on the picket line. [Applause.]

[Here the gavel fell.]

Mr. RICH. Mr. Speaker, I yield myself the balance of the time.

Mr. Speaker, I have heard much about lawful striking and peaceful picketing. We have heard much condemnation in the past several years about the manufacturers of this country. At least I have. A great many people look upon them as a bunch of crooks and thugs who should be annihilated from the country.

I want to present myself now as a manufacturer. I have been in the manufacturing business all my life. There is no set of employees in the United States that I think more of than the people who work in our plant. They are the finest American citizens that have ever lived, and I want to do everything I possibly can for those employees. I believe that the manufacturers of this country and the people who are employing labor are interested in their employees. I think the time is here, and it has been for years past, when an honest, conscientious, sound-thinking American citizen, who is striving to operate a plant of some kind, appreciates the fact he cannot make a success of his business unless the people who are working for him are an integral part of his business. And why should not the manufacturer, the merchant, and all employers of labor work with their employees? I know of no good reason why they should not. An employer should treat his employees right and pay them as much as he can afford to pay them. On the other hand, the employees should render good, faithful service, and they should realize that the employers should make a profit or they cannot remain long conducting a business.

Mr. CITRON. Mr. Speaker, will the gentleman yield?

Mr. RICH. I am not going to yield to anybody now. I want to tell the Members of the House what I think of the manufacturers of this country, the man who is honest and wants to help his employees. He is going to do everything he can for them, and the employees are going to work and help the man they are working for, because they know they have got to work together. They must both be satisfactory to the other.

We talk here about strikes. You never saw a strike but what somebody lost, either the employer or the employee, and we all know that we have had too many strikes in the country, and we are having more of them in this country today than ever before in the history of our Nation. It is a shame that American labor and the American manufacturer cannot get together and settle their differences without having a lot of strikes. You have thugs that some manufacturers employ; but do not think it is all on the side of the manufacturer. You have a lot of unscrupulous labor leaders who are just as bad and who have done more harm than a lot of the manufacturers. So they are on both sides of the fence. I believe when the time comes that we can pick up these men who are engaging in unethical practices in labor unions and the unethical manufacturers, the better off we will be; and I want to see the day come when we do lock them all up.

Mr. LUNDEEN and Mr. HARLAN rose.

Mr. RICH. No; I am not going to yield. If you will give me some time after my time has expired, I will be pleased to yield.

Now, we talk about strikes that are peaceful, and now we want to put the onus on the transportation companies with respect to anybody who is engaged in peaceful picketing, as it were. I am somewhat like the gentleman from Texas—I do not know whether there is any such thing as peaceful picketing, but if the manufacturers and the laborers would get together they would not need to do any picketing.

You should read what the report says. The gentleman referred to the report in connection with the gentleman from Texas as if this were the law. The proposed law is the bill S. 2039, which says "that whoever shall knowingly transport or cause to be transported", and so forth.

Mr. HARLAN. Will the gentleman read the "and so forth"?

Mr. RICH. And so forth; and then you get down to——

Mr. HARLAN. Will the gentleman read that?

Mr. RICH. I do not yield to the gentleman; everybody has read it, and I do not want to take my time reading the bill.

It is to be made a felony, and then you are going to put somebody in jail or fine him $5,000. Suppose a transportation company for some reason or other should haul men over its system from one place to another and someone should say that they knew they were hauling these men for strike-breaking purposes, the railroad company would be fined $5,000, or somebody would be put in jail.

Mr. Speaker, I do not think it is necessary to pass a bill of this kind. I think you are only likely to cause more strikes than you are having now, more lawlessness and more trouble. If you will look up the records for the past year—and I am sure my friend Mr. CONNERY here will say the same thing—you will find there have been more strikes in this Nation during the past year than ever before in the history of the country. I am glad he nods his head "yes." I know my friend Mr. CONNERY is an honest man, and I like him. We may differ, but I like him because he always wants to see that we do the right thing. [Applause.]

Mr. BLANTON. Mr. Speaker, will the gentleman yield?

Mr. RICH. No; I know the gentleman is on this side, but I am not going to yield to anybody now. I have not time for myself.

Let us simply use our own judgment here and get labor and capital together. We need them both. If there ever was a time in the history of this Nation when we needed them, we need them now. You need the people who are going to employ labor and the laboring men need the jobs. You have 12,000,000 people out of work now. I want to see you regulate mass production so we can give these 12,000,000 people work and put them on the pay rolls of industry today so that we will be able to take care of them without increasing our great national debt by putting them on relief and the Federal dole.

Mr. RISK. Mr. Speaker, will the gentleman yield?

Mr. RICH. I would have to yield to these fellows over here on the Democratic side because they made the request first, and I do not want to do that. [Laughter.]

We do not want to increase our national debt. If there ever was a time in the history of our Nation when we needed work and needed jobs for our people, now is the time, and if you will put them in industry and give them an opportunity to earn a livelihood, you will not need the dole we are giving them at the present time, and I feel constrained to tell you, as a manufacturer who tries to be an honest manufacturer and as a man who wants to employ labor and see justice administered, that this bill will do more damage to American labor than it will do good, and I hope the bill is defeated. I appeal to the Members of Congress to enact legislation for the best interest of all the American people; do not think of a few votes; do not think of yourself. If you think of country, you will defeat the bill, I feel sure. [Applause.]

Mr. MILLER. Mr. Speaker, I yield 3 minutes to the gentleman from Ohio [Mr. HARLAN].

Mr. HARLAN. Mr. Speaker, there is nothing fundamentally new about this legislation. It is merely extending to interstate commerce the provisions which we now have in our law against importing contract labor. That is all there is to it. If a man should attempt to import strike-breakers under contract from Canada, he would be stopped at once, but the States are defenseless in a case of that kind, when another State is involved. This is simply extending to the States the power to protect themselves from contract labor importations coming in interstate commerce under the most obnoxious conditions, when there are labor disputes, when these people are being imported expressly to break up strikes. The gentleman from Pennsylvania [Mr. RICH] wearing a Kansas sunflower I presume is speaking for the Presidential candidate on the Republican ticket.

Mr. RICH and Mr. MICHENER rose.

Mr. HARLAN. I do not yield. The gentleman evidently believes that because there are some employees, that are not the mildest individuals in the world, therefore, as a counterbalance, we should promote the importation of foreign thugs in order to start the right kind of a fight. The thing to do is for the local authorities to take care of the lawbreakers in their local communities. I have no brief particularly for all these people in labor movements. They are human beings, and they commit offenses just the same as others, but show me one essential thing in the interest of

labor which has been achieved during the last century and a half that has not been done through strikes, or political labor pressure on legislatures. There are lots of good employers but a century ago we started in with a 10- and 12-hour work day. We started in without safety appliances on the railroads. We had child labor, exploitation of women, starvation wages, no industrial insurance. Everything that has been achieved has been done through strikes or threats of strikes, or political activity of labor organizations. This bill simply allows the normal course of labor disputes to proceed. The gentleman from Texas [Mr. BLANTON] opposes picketing. That is established in the courts as a peaceful right, and this bill merely prohibits men from taking mobs of strikebreakers across State lines—not the railroads—as the gentleman from Pennsylvania [Mr. RICH] would try to mislead you, but men who employ others, en bloc, to interfere with peaceful picketing, a right which the courts have determined to belong to every employee in the country.

Mr. MILLER. Mr. Speaker, I yield the remainder of my time to the gentleman from Massachusetts [Mr. CONNERY].

Mr. CONNERY. Mr. Speaker, there is nothing political in this, nothing as to whether it is a Democratic or Republican proposition. Every friend of a human being, every friend of a worker, every friend who believes that the workingmen and workingwomen of the United States are entitled to their rights of collective bargaining and their rights to ask for a decent living wage under peaceful conditions, should favor this bill. It is sponsored by the distinguished Senator from South Carolina, Senator BYRNES, and I wish to congratulate Senator BYRNES for the great humane bill which he initiated.

Mr. McSWAIN. Mr. Speaker, will the gentleman yield?

Mr. CONNERY. Yes.

Mr. McSWAIN. In other words, as I understand this bill, it merely provides that the people within the States shall settle their own affairs without being interfered with by professional black-shirt troops from the outside.

Mr. CONNERY. That is exactly the story.

Mr. McSWAIN. And therefore it leaves the Governors and the National Guard of the States to attend to their own business.

Mr. CONNERY. Yes. We know, as a matter of fact, that any time anyone comes in and interferes with a family dispute there is instantly resentment and trouble, and the same thing applies to local neighborhoods or States. You do not want hired thugs and crooks and assassins, because that is what they have been proven to be, brought in from New York State to South Carolina or Tennessee, or from Indiana into Massachusetts, or from Illinois into Colorado, with the idea apparently of going to work, when, as a matter of fact, they are merely strike-breaking thugs. They cannot do the work they are brought in to do. Really, they are brought in to use their machine guns, to use their automatics and their brass knuckles, to use their clubs on inoffensive working people who are striving to do what is guaranteed to them by the Constitution of the United States, merely asking for decent conditions of work, decent wages, the right to protect their families, and educate their children. That is all the bill does. It protects the people of the locality from hired, crooked thugs, brought in to take away their rights. These imported gunmen are not even workers. If it is in Detroit, and they are brought into the automobile industry, they do not know anything about automobiles; they do not know how to make an automobile or any part of an automobile, but outside the plant, with their gat in their back pocket, with their brass knuckles and clubs, they go over and deliberately provoke trouble by attacking people who are merely walking up and down picketing and saying that they want decent wages and the right to live decently as American citizens. I know what peaceful picketing is. I was arrested in New York City as a peaceful picketer. I was walking up and down in front of a New York theater saying, "This house is unfair to organized labor." I was arrested and brought to the night court in New York City. I was fined $1 and told that the next day if I was arrested again for picketing I would be sent to Blackwell's Island for 30 days. I went out the next day and I picketed again, but during the night they found out that we were absolutely within our rights under the laws of the State of New York.

The same policeman who arrested me the day before was clearing the way for me when I picketed the next day. [Applause.] That is peaceful picketing. Not a soul went into that theater all that afternoon or evening. Nobody was affected or hurt. The actors were merely running that strike to get decent living conditions, a play-or-pay contract on the stage, and to remedy intolerable conditions in their profession. In those days they would hire an actor to appear at a theater, like the Earle Theater or the Fox, and use him for 2 days and then fire him, and the actor did not get a nickel because he did not have a play-or-pay contract. As a result of that actor's strike those intolerable conditions were remedied, and if it had not been for that strike those conditions still would exist today.

This bill is for the protection of American citizens against gunmen, crooks, and murderers, and should be passed.

The SPEAKER. The time of the gentleman from Massachusetts has expired.

All time has expired.

The question is on the motion of the gentleman from Arkansas to suspend the rules and pass the bill.

The question was taken; and on a division (demanded by Mr. BLANTON) there were—ayes 165, noes 2.

Mr. BLANTON. Mr. Speaker, I object to the vote on the ground there is no quorum present, and I make the point of order that there is no quorum present.

The SPEAKER. The Chair will count.

Mr. BLANTON (interrupting the count). Mr. Speaker, I withdraw the point of order.

So (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

NATIONAL CEMETERY, FORT SNELLING MILITARY RESERVATION

Mr. FADDIS. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 4268) to authorize the Secretary of War to set apart as a national cemetery certain lands of the Fort Snelling Military Reservation, Minn.

The SPEAKER. Is there objection to the request of the gentleman from Pennsylvania?

Mr. WOLCOTT. Mr. Speaker, I object.

KATHERINE TRICK

Mr. ENGEL. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 7642) for the relief of Katherine Trick, with a Senate amendment, and agree to the Senate amendment.

The SPEAKER. Is there objection?

There was no objection.

The Clerk read the Senate amendment, as follows:

Amend the title so as to read: "An act for the relief of the estate of Frank W. Trick."

The Senate amendment was agreed to.

A motion to reconsider was laid on the table.

NATIONAL CEMETERY, FORT SNELLING MILITARY RESERVATION

Mr. FADDIS. Mr. Speaker, the gentleman who objected to the consideration of the bill (S. 4268) to authorize the Secretary of War to set apart as a national cemetery certain lands of the Fort Snelling Military Reservation, Minn., has consented to withdraw his objection.

Mr. WOLCOTT. I was mistaken as to the bill, Mr. Speaker.

Mr. SPEAKER. Is there objection to the present consideration of the bill S. 4268?

There was no objection.

The Clerk read as follows:

Be it enacted, etc., That the Secretary of War be, and he is hereby, authorized to set aside in the Fort Snelling Military Reservation, Minn., a plot of land which shall include the existing post cemetery with such boundaries as he may prescribe therefor as a national cemetery, which hereafter shall be cared for and maintained as a national cemetery under the laws relating to the same.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

MINORITY VIEWS ON THE TAX BILL

Mr. TREADWAY. Mr. Speaker, I ask unanimous consent to print in the RECORD minority views of the Committee on Ways and Means, following the report that will be filed by the chairman of the committee on the tax bill.

The SPEAKER. Without objection, it is so ordered.

There was no objection.

CIVIL SERVICE FOR FIRST-, SECOND-, AND THIRD-CLASS POSTMASTERS

Mr. RAMSPECK. Mr. Speaker, I move to suspend the rules and pass the bill H. R. 3251, with certain amendments, which I send to the desk.

The Clerk read as follows:

Be it enacted, etc., That postmasters of the first, second, and third classes shall hereafter be appointed without term, by the Postmaster General, in accordance with the provisions of the act entitled "An act to regulate and improve the civil service of the United States", approved January 16, 1883: *Provided*, That postmasters now serving who have satisfactory records shall continue to serve until their 4-year terms of office expire, after which they may be reappointed without term in accordance with the provisions of section 2 of this act.

SEC. 2. Appointments to positions of postmaster at first-, second-, and third-class post offices shall be made by the reappointment and classification, noncompetitively, of the incumbent postmaster, or by promotion from within the Postal Service in accordance with the provisions of the Civil Service Act and Rules, unless the Postmaster General certifies to the United States Civil Service Commission that there is no qualified person serving in the vacancy office available for such promotion. No person shall be eligible for appointment under this section unless he has been a bona-fide patron of such office for a year preceding the date of his appointment, if the appointment is made without competitive examination, or for 1 year preceding the date fixed for the close of receipt of applications for examination if the appointment is made after competitive examination.

SEC. 3. Appointments of acting postmaster in all classes of post offices shall be made in accordance with the provisions of the civil-service rules governing temporary appointments.

SEC. 4. All acts or parts of acts inconsistent herewith are hereby repealed.

The SPEAKER. Is a second demanded?

Mr. LEHLBACH. Mr. Speaker, I demand a second.

The SPEAKER. Is the gentleman opposed to the bill?

Mr. LEHLBACH. I am opposed to the bill.

Mr. RAMSPECK. Mr. Speaker, I ask unanimous consent that a second be considered as ordered.

The SPEAKER. Without objection it is so ordered.

There was no objection.

The SPEAKER. The gentleman from Georgia, Mr. RAMSPECK, is recognized for 20 minutes and the gentleman from New Jersey, Mr. LEHLBACH, is recognized for 20 minutes.

Mr. RAMSPECK. Mr. Speaker, I yield myself 5 minutes.

Mr. Speaker, this bill, with the amendments which have been read, proposes to put first, second, and third postmasters under civil service at the expiration of the terms of the incumbent postmasters.

The first amendment, I have offered to make it absolutely certain that no postmaster now serving could be given a civil-service status until the end of his present term, which means of course that no postmasters appointed under the Democratic administration would be eligible for a noncompetitive examination and a permanent appointment until after March 4, 1937. If the Republican platform means anything and if the Republicans in this House have any faith in their chances of election, it certainly is fair to them, because if they win, they will make the appointments.

The second amendment strikes out, after the word "promotion" in line 2, and the same thing in line 7, the words "or transfer", so as to make it certain that the postmaster appointed, if he is promoted from the ranks of the civil service, will be one who lives in the community which he is going to serve.

The third amendment on page 2, line 7, puts in the residential qualification. Some objection had been made to the bill on the ground that it did not provide that the person must be a resident of the community in which he was to serve. In order to make that absolutely certain, I have offered this amendment which makes it necessary that he shall have been a resident or a patron of the office served for 1 year prior to his appointment or prior to the date of filing application for the competitive examination.

Mr. RAMSPECK. That is in the present regulation. Let us see how this bill will work. When a postmaster appointed, we will say April 1, 1933, reaches the end of his 4-year term, if he is satisfactory and the Postmaster General wants to reappoint him, he is given a noncompetitive examination. If he makes a passing grade he can be reappointed without term. If he is not satisfactory and the Postmaster General does not want to reappoint him, then the vacancy which is created must be filled in one of two ways: First, by promotion of a civil-service employee in the office where the vacancy exists; or second, if that is not done, by an open competitive examination in which all can participate.

I am perfectly willing to admit for the sake of argument that if you want to talk about theory and not practice, this does not provide a pure merit system, but I call your attention to the fact that the party which has been in power most since the civil-service law has been on the books has never, except in one instance, brought large groups into the civil service by a competitive examination. This one exception was in 1927 when the prohibition enforcement agency of this Government under the Coolidge administration became such a stench in the nostrils of decent people it was provided that they should be put under the civil service and must take an open competitive examination. They did this in order to get rid of the crooks who were in the service; and that is the only time in the entire history of the civil service that an open competitive examination has been provided for large groups.

Mr. MAAS. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. Not at this time.

Mr. Speaker, this is the best and the fairest bill that I think could have any possibility of passing, no matter which party might be in power. The gentlewoman from Massachusetts [Mrs. ROGERS] during a Republican administration tried to pass a similar bill.

Mrs. ROGERS of Massachusetts. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. Yes; I yield to my colleague on the committee.

Mrs. ROGERS of Massachusetts. I think the gentleman understood at that time that I wanted an open competitive examination before they could be taken into the merit system.

Mr. RAMSPECK. I understood that. I am glad to have that correction. The gentlewoman found it was impossible to pass such a bill. I do not believe anyone could pass a bill that would legislate out of office all of the postmasters, and I am not going to be foolish enough to try to do that. Here is a practical bill, one that is fair to the minority and one that will get rid of the spoils system in the post-office administration, which most people want to get rid of. [Applause.]

[Here the gavel fell.]

Mr. RAMSPECK. Mr. Speaker, I reserve the balance of my time.

Mr. LEHLBACH. Mr. Speaker, I ask unanimous consent that the amendment may be again read.

The SPEAKER. Without objection, the Clerk will again read the amendment.

There being no objection, the Clerk again read the amendment.

Mr. LEHLBACH. Mr. Speaker, I yield 4 minutes to the gentleman from Massachusetts [Mr. TREADWAY].

Mr. TREADWAY. Mr. Speaker, there never was a better time to pass a civil-service bill than the present. The gentleman from Georgia [Mr. RAMSPECK] has just said that if the Republicans are sincere in wanting civil service they will vote for this bill. I do not care whether the Republicans or the Democrats are in power so far as civil service is concerned, I am for it. I, however, want real civil service, not a false kind.

There is, as you know, Mr. Speaker, a well-known oil on the market for automobiles and general purposes known as "3-in-1." There is a "3-in-1" political oil also in the person of James A. Farley, Postmaster General, chairman

of the National Democratic Committee, and chairman of the New York State Democratic committee, the great "3-in-1-oil" Farley, nothing else. What does Mr. Farley think of civil service? I hold in my hand an official letter from the Roosevelt Nominator Committee, Hotel Bellevue, Boston, Mass., signed by James A. Farley with his celebrated green ink, and by Joseph McGrath, addressed to postmasters throughout the country. I have three of them right here from postmasters in my district, soliciting the sale of tickets for the Roosevelt Nominator Committee. The postmaster of one town says there are but two Democrats in the whole town, and how can I sell 25 tickets for the Democratic political cause? Another postmaster had 50 tickets sent to him. Now, that is civil service under the "3-in-1-oil" Farley system, nothing else.

Mr. HOUSTON. Mr. Speaker, will the gentleman yield?

Mr. TREADWAY. No; I cannot yield. Now, you cannot talk about civil service and James A. Farley in the same breath. He ought to be honest with the people of America. He ought to say: "I am for Franklin D. Roosevelt", or any other Democrat, "and I will work for him as chairman of the national committee", or he ought to be an honest Postmaster General and resign from these political jobs and not try to sell tickets to postmasters throughout the country at $1 per in behalf of the Roosevelt Nominator Committee.

I understand he denies any connection with this sale, but there is his celebrated green-ink signature right there [holding the letter up]. I do not think anybody would dare authorize the issuance of such a letter as that without Mr. Farley's consent and knowledge and desire to get $1 from every Democrat that he can raise through the Post Office Department.

Why, it is the most ridiculous, absurd situation I have ever seen developed in my 24 years of service here. Is he Postmaster General? Is he chairman of the national committee, or is he chairman of the State committee in New York? He is the "3-in-1" political oil machinist of the Democratic administration. [Applause.]

[Here the gavel fell.]

Mr. TREADWAY. Under permission to extend my remarks I submit extracts from two letters in my district together with a copy of the celebrated Farley letter which he unavailingly repudiates.

Tuesday I received 25 tickets by express. What am I to do with them? In the postal laws it says we are supposed to keep out of politics. I cannot sell the tickets here as there are only two Democrats in the village and even they will not buy.

Would hate to lose the post office, but it does not seem right that I should pay $25 to hold the office.

In the past 3 years I have been pestered (like all postmasters, I suppose; perhaps only Republican ones) with similar requests. For 2 years I sent a $5 check to the committee of the President's birthday ball, partly because I thought I must and partly because it was a worthy cause (if the hospital got the money). Now, I am not interested in selling tickets for a Democratic committee. I certainly cannot afford to buy the 50 tickets and I do not want to lose my post office.

ROOSEVELT NOMINATOR COMMITTEE,
Boston, Mass., June 11, 1936.

DEAR FRIEND: Mr. James A. Farley has arranged to finance the entire national campaign by selling Presidential nominator tickets at $1 each in every section of the country. No other contribution will be requested from you during the Presidential campaign.

As one who has a special interest in the success of President Roosevelt's campaign for reelection we are forwarding to you an allotment of tickets to sell to friends in order to complete the Massachusetts quota.

THE RESULT OF YOUR PERSONAL EFFORTS WILL BE ACKNOWLEDGED AND APPRECIATED BY THE NATIONAL COMMITTEE

The names of those who have the honor of recording themselves as nominators of President Roosevelt will be forwarded to the national committee at Washington as a recognition of their contribution.

Will you return a check for the tickets sold at your earliest convenience, as all returns must be made by June 27, the day the President makes his speech of acceptance.

Yours for Democratic success,

JAMES A. FARLEY,
JOSEPH MCGRATH,
Chairmen.

P. S.—Make checks payable to Democratic National Committee. Mail to Democratic State committee, Hotel Bellevue, Boston.

The national committee has assigned to you 50 tickets.

The letter which has been reproduced in all the newspapers is signed by Postmaster General Farley and Joseph McGrath, chairman of the Democratic State committee for Massachusetts. This letter is dated June 11, 1936.

On the same date Postmaster Leslie L. Travis, of Joplin, Mo., announced there that he had rejected the solicitation of Democratic national headquarters in New York that he accept the chairmanship of the Joplin unit of this fund-raising scheme.

On the same day Mr. C. W. Greenwade, postmaster at Springfield, Mo., announced through the press that he had accepted the appointment of Postmaster General Farley to head the campaign in the Springfield area. But the next day this postmaster made another announcement—that he had arranged to be relieved of the campaign duties.

At Poplar Bluff, Mo., Postmaster Z. Lee Stokely announced he had accepted the appointment and later changed his mind.

At various times since June 11 the Associated Press has reported similar declinations by the postmasters at Kansas City, Mo., Alexander W. Graham, and Columbia, Mo., A. W. Sapp.

On Tuesday, June 9, the Tribune at New Albany, Ind., gave conspicuous display on its first page to an announcement that the postmaster, William S. Darneal, had talked personally on the telephone with Postmaster General Farley at Washington the previous day.

That was on Tuesday, and on Thursday, June 11, the same newspaper carried an announcement of the plan to sell these $1 nominator tickets in the New Albany region. In this announcement of June 11 it was frankly admitted that "the proceeds from the sale of memberships will go to the party's campaign fund."

On Tuesday of this week, June 16, the postmaster at Providence, R. I., Edward F. Carroll, announced in the press that he had received a consignment of the nominator tickets and had accepted the chairmanship of the Rhode Island sales committee. The Providence Bulletin for June 17 reported the arrival of the tickets and the postmaster's acceptance of the campaign chairmanship. This report added, referring to Postmaster Carroll:

He exhibited a letter of acknowledgment of his acceptance from W. Forbes Morgan, secretary of the Democratic National Committee.

This same report declared:

The Rhode Island letters will bear the signatures of Mr. Farley and those of either Postmaster Carroll or State Chairman Thomas A. Kennelly. Enclosed will be tickets to be sold at $1 a head, the proceeds to go to the Democratic National Committee's campaign fund.

On the next day, June 18, the day following Mr. Farley's disclaimer of this whole sickening business, Postmaster Carroll, at Providence, announced his resignation as chairman of the Rhode Island committee. He did, however, exhibit a letter from Mr. W. Forbes Morgan, secretary of the Democratic National Committee, which read—

I am deeply gratified by your acceptance of the chairmanship of the Roosevelt nominators for your community. The certificate of appointment has been mailed to you.

Although he relinquished the formal chairmanship, Postmaster Carroll added in his press statement that he would "volunteer all the time and influence I can to make the campaign a success."

I have exhibited today to this House three personal letters from postmasters in Massachusetts. I have cited the names and post offices in four cities in Missouri where the same campaign has been in operation. I have cited the postmaster's personal account of his telephone talk from New Albany, Ind., with the Postmaster General, and I have given names and dates on the situation which developed involving the postmaster at Providence, R. I.

Here, then, are 10 specific cases involving postmasters in the solicitation of campaign funds—in four different States, all of which developed about, or since, June 11, the date of the Farley letter which has been reproduced widely in the press.

Here is clear evidence of a general policy which it is the clear duty of this House to nip in the bud. It is a violation of the Corrupt Practices Act, a violation of the civil-service laws, a violation of the postal rules and regulations, and an affront to American political morality.

We cannot permit these spoilsmen to mobilize the Postal Service for a Presidential campaign.

The record of this administration for spoilsmanship we all know. It has been related and discussed in this House many times. And it is not unfair to say that this administration's attempted mobilization of our 45,000 postmasters at this time represents the culmination of a premeditated policy of unblushing political spoilsmanship.

Let the majority of this House vote here and now to clean up this sinkhole of political spoils; and they will then be in a position to command the serious attention of the Nation with their hollow pleas for the strengthening and extension of the civil service.

Mr. LEHLBACH. Mr. Speaker, I yield 3 minutes to the gentlewoman from Massachusetts [Mrs. ROGERS].

Mrs. ROGERS of Massachusetts. Mr. Speaker, the statement made by the chairman of the committee is true. I believe he knows my very high regard for him and for his ability, and I believe he personally believes in the merit system. Under a Republican administration I approved a merit bill which would have put the postmasters under the civil service, but only after open, competitive examinations. The pending bill is not one for appointment to civil-service positions through merit. It gives Postmaster General Farley authority to appoint more men to the Post Office Department under his jurisdiction. I am talking now to the Democrats and the New Dealers. I believe we shall have a new Postmaster General in the next administration; but if we should not, do you realize that Members of Congress may not have their own appointees blanketed into the Post Office Department? Under this bill Postmaster General Farley's appointees, put in by throwing out all previous appointees, can hold office for life. Under this bill, how are these postmasters selected who are to hold office for life? Not by open competitive examination, not on merit, not under civil-service regulations. The bill, in section 2, reads:

> Appointments to positions of postmasters shall be made by the reappointment and classification, noncompetitively, of the incumbent postmaster.

All the political appointments of postmasters in the United States of Postmaster General Farley that he has made in the past will hold office for life. Also, all future postmasters appointed by him will hold office for life. Under this bill you are taking from the postmaster appointments made under the Democratic administration any merit there may have been in them, because you are not willing to permit your appointees to compete openly with other applicants.

Mr. Speaker, I cannot support this bill of special privilege which will close the doors on these highly paid postmasterships to deserving people. I hope the Members on the Democratic side of the House will realize the full import of the bill. If they do so, I am sure they will be just as much against it as I am. There are thousands of well-qualified people on the civil-service registers who have qualified in open, competitive civil-service examinations waiting to be considered for civil-service appointments. There are thousands of qualified, eligible people on the civil-service registers who are knocking at the door awaiting their chance to come in. And there are thousands upon thousands of people who have never been qualified by any examination now serving in New Deal departments. These people who are now serving as postmasters who have not qualified in open competitive examinations should not be given life appointments without competitive examinations. I believe the Members of the House of Representatives and every person in the entire United States will rise up and register a protest against this prostitution of the civil-service laws of our country under this administration. At the election next November they will make their wishes known in no uncertain terms for merit and equal opportunity in our civil-service system.

[Here the gavel fell.]

Mr. RAMSPECK. Mr. Speaker, I yield to the gentleman from Oklahoma [Mr. DISNEY] such time as he may desire.

Mr. DISNEY. Mr. Speaker, to my mind, patronage is the curse of legislation. Edmund Burke once said, in substance:

> I cannot serve you collectively if I attempt to serve you individually. I cannot do both.

Mr. Speaker, if we could devote the time we spend on patronage details we would be much better off and could render a higher class of service to our districts and the Nation. The civil service is not perfect, but it is much preferable to the patronage system, regardless of what form the patronage takes. In my opinion, post-office patronage, under the three highest eligibles system, is a political liability instead of an asset. It is a thing that distracts our attention from legislation. What difference does it make as to what is the politics of the man who looks after the local post office? Civil service is necessary, and the farther we get away from politics in our post-office system the better off the Nation will be. This bill will be one more nail in the coffin of the spoils system. The great American, Grover Cleveland, under whose first administration the civil service took form, said that a public office is a public trust. So public service should be a public trust, and the public servant in the Post Office Department who is free from political influence should render a better class of public service than he who is not.

Political contentment for the whole people can only be brought about by a higher order of public service, by the destruction of the spoils system in every form, and by higher ideals on the part of the citizenship. This bill is a great step in that direction.

[Here the gavel fell.]

Mr. LEHLBACH. Mr. Speaker, I yield 2 minutes to the gentleman from Georgia [Mr. COX].

Mr. COX. Mr. Speaker, I refuse to accept this bill as a party measure, and I trust that gentlemen on the Republican side will not make it difficult for those of us on this side of the aisle to register our opposition. I wholly and entirely disagree with the gentleman from Massachusetts in what he says about the civil service. I have absolutely no patience with it. In the civil service we find more dead-heading, more inefficiency, and more disloyalty than anywhere else in the world. As far as I am personally concerned, I am not interested in giving life tenure in office to those who now happen to be occupying the postmasterships of the country. The coldest and most arrogant person you know is the one holding a lifetime job. Of course, I have been troubled, as every other Democratic Member of the House has been, in making choice as between those wanting to be postmasters. I do not want to see them blanketed under the civil service because I want them held somewhat responsive to the demands of the public that they render courteous as well as efficient service. Put them under the civil service and that courtesy which they owe and which they now extend to the public will, in the main, be a thing of the past. [Applause.]

[Here the gavel fell.]

Mr. RAMSPECK. Mr. Speaker, I yield 9 minutes to the gentleman from New York [Mr. MEAD].

Mr. MEAD. Mr. Speaker, this is the best civil-service bill, both in form and in fairness, that has been presented to the House in the last 40 years. Any Member who believes in the merit system and has any confidence in his party's success cannot find fault with this bill.

The merit system became operative under President Arthur, in 1883, but the records show that real civil service came into being under President Cleveland. When Arthur left office there were 15,573 places in the classified service; at the end of his first term Cleveland had nearly doubled this number. Outstanding were his inclusion of the Railway Mail Service and the executive departments. At the time of his inauguration there were about 5,000 Presidential offices, appointments to which were made by the President and confirmed by the Senate, and approximately 49,000 fourth-class post offices, to which appointments were made by the Postmaster General. These Cleveland said he should not remove until the expiration of their terms unless they had failed to

be "decent public servants" and had proved "offensive partisans."

During his second term Cleveland made large additions to the civil service, including the Internal Revenue, Government Printing Office, mail-bag repair shops, Customs Service, Life Saving and Lighthouse Services, Engineer Department, Ordnance Department, Navy Yard, the rest of the Indian Service, pension surgeons, and many others. In 1894 he added 5,468 places to the classified service; the following year he made several extensions and revisions of the rules, all extending and increasing the merit system. He issued an order which required the filling of certain vacancies in the Consular Service by persons of proved capacity and fitness. During his last year he made a general revision of the rules, which added to the classified service 32,095 new places. On entering office after Harrison for a second term, he had found 37,865 places under the civil-service rules; he left 87,044, of which only 1,513 were due to growth. In his last annual message he pictured the situation clearly when he said:

A most radical and sweeping extension was made by Executive order dated the 6th day of May 1896, and if fourth-class postmasters are not included in the statement, it may be said that practically all positions contemplated by the civil-service law are now classified.

Here I should like to quote from the publication of the National Civil Service Reform League regarding Cleveland's contribution to the merit system:

Postmaster General Bissell put an end to the practice of removal upon secret charges of carriers in free-delivery offices by issuing an order providing that they should be informed of charges made against them and be afforded an opportunity for written explanation or defense before removal. President Cleveland retained upon the Civil Service Commission Theodore Roosevelt and appointed to a vacancy John R. Proctor, of Kentucky, a devoted friend of the merit system.

The most valuable contributions to reform made by the administration were the Executive orders extending the scope of the classified service. Beginning with the President's order of May 11, 1894, order after order was issued, culminating in the order of May 6, 1896, extending the classified service to include practically all of the executive service throughout the United States. These extensions * * * formed the most valuable and splendid services yet rendered to the merit system by any President.

Very different was the resolution of the league adopted in 1896 from that of 1892. At the annual meeting of the league in 1896 the report of the resolutions committee said: "The league heartily congratulates the country on the truly remarkable progress of the reform under the second administration of President Cleveland, and especially during the past year—a progress which can be best appreciated if we remember that less than 15,000 positions were included in the original classification under President Arthur and that in the 10 years following only some 28,000 had been added, while under this administration the whole number therefore included has very nearly been doubled, many thousands being added by the single order of May 6, 1896. So that now, while some 90,000 positions are embraced in the classified service, there is left without the protection thus afforded against the abuses of the spoils system besides the 70,000 postmasters only a small fraction of the whole executive Federal service, consisting of about 1,000 positions subject to confirmation by the Senate, about 8,600 laborers not yet included in the registration system, some 2,000 Indians employed as policemen or in other capacities on the reservations, about 6,000 positions with very small salaries, mostly under $300 a year, and 781 offices specially exempted from the rules, being for most part those of assistant postmasters. For this great achievement, advancing as it does the fundamental principles of free government, President Cleveland deserves the sincere and heartfelt thanks of all good citizens."

Civil-service bills have been presented before, and Presidents of the United States have blanketed postmasters into the civil service. In 1908 President Theodore Roosevelt issued an Executive order classifying all fourth-class postmasters in the 14 States north of the Ohio River and east of the Mississippi, bringing into the competitive class 15,488 positions. A few months before his retirement from office—on October 15, 1912—President Taft by Executive order extended the classification to include all the States. Under both of these Executive orders the officials in office were brought within the classified service without examination.

On March 31, 1917, by the fairest Executive order ever issued, President Wilson covered the first-, second-, and third-class post offices, requiring all applicants to take civil-service examinations to test their fitness and, most important of all, directing that the first man on the register be selected unless it should be established that his character or residence disqualified him for appointment. That was a real merit system. But on May 10, 1921, President Harding issued an Executive order changing the order of President Wilson and provided that selection might be made from among the three highest on the eligible lists.

This legislation before us is a fair bill, because under no circumstances will a postmaster serving today be blanketed into the civil service. He may continue in his present status until the expiration of his term, and at that time the Postmaster General then in control will decide whether he shall be given a noncompetitive examination, whether the vacancy shall be filled by promotion, or whether an open, competitive examination shall be held.

If there is any confidence on the Republican side of the aisle, they certainly cannot object to the passage of this bill, and I regret exceedingly that the distinguished gentleman from Massachusetts injected a spirit of partisanship into this debate. Of course, I must forgive him because he introduced a subject which some men on that side of the aisle can never forget—the subject of oil—oil in its relation to a record that they ought to live down by forgetting. [Applause.]

Mr. TREADWAY. Mr. Speaker, will the gentleman yield?

Mr. MEAD. No; I have only a few minutes.

Talk about the Postmaster General and his participation in politics—why, he is a mere child when compared to some of his Republican predecessors. If you will look into the record and read the report of the Brookhart committee, you will learn of the scandalous sale, not of tickets, but of postmasterships in the South, not by the Democratic Party but by the Republican Party. Yet after 40 years of power, with no attempt to cover the Post Office Department with a real merit system, they find fault because the Postmaster General may have written to somebody about the coming election. Here is what he himself says about that alleged letter:

The Postmaster General in a public statement said: "It is perfectly obvious from the form of the letter that it never emanated from me, because it begins by stating that Mr. James A. Farley has arranged to finance the entire national committee by selling nominator tickets for $1", and then it finishes up by the signature of James A. Farley.

Why, on the face of it, anyone with real judgment of practical politics and a knowledge of letter writing would not charge the Postmaster General with sending out a letter of that kind.

When the Republican Party was in power and Mr. Arch Coleman and Mr. Warren Glover were making speeches, what did they say at a postmasters' convention in the Southwest?

Remember, if there is anyone here who does not want to go out and do his bit in putting over the Republican ticket, I will be in Washington within 24 hours waiting for your resignation.

Here is what Mr. Coleman said in another speech:

I am going to use the few minutes available to me—

Speaking to postmasters—

for the purpose of outlining what I conceive to be ethical conduct on the part of Presidential postmasters who desire to continue active in the realm of national politics.

Then he told them to get busy, like ward leaders, in putting over the Republican candidates.

Here is what Mr. Brown, the Postmaster General, said. He had in mind charges similar to the charges made by the gentleman from Massachusetts when he made this observation:

As the period approaches, which comes every 4 years, when public attention is focused for a time on national politics, spokesmen for themselves and for various groups, partisan and others, are prone to be generous—

As was Mr. TREADWAY—

with their observations with respect to the duties, obligations, and limitations of postmasters in matters political. You may be interested, however, in hearing from me personally on the subject. The indisputable fact is that the laws of our land place no restrictions whatever on the particularly mentioned Presidential officers, a term which includes postmasters of the first, second, and third classes.

Then he gave them a lesson in practical politics.

Mr. Speaker, this is as just and fair a measure as was ever presented to the Congress because, if the Republicans win, their Postmaster General will name the new postmasters at the expiration of the term of the present postmasters. Thereafter all will be under civil service and we will be done with politics in the Postal Department.

I am here, Mr. Speaker, as one who believes in the merit system, as one who wants to see the Post Office Department succeed, and I am here to plead with my Democratic colleagues not to inject the spirit of partisan politics into the consideration of this bill but to vote for it and send it on its way to the Senate.

I have here a telegram from the National Council of Business Mail Users, which concludes as follows:

> We hope this Congress will not adjourn without taking action on H. R. 3251 because frankness compels us to state that failure to act constructively on postal civil service as outlined in this bill can only be considered as playing politics with the future advancement of postal personnel and the efficiency of the mails regardless of party affiliation.

The present Postmaster General, who took over the Post Office Department when its financial condition was the worst in all the history of the service from Benjamin Franklin down to today, with a net deficit of $150,000,000, is the best Postmaster General from a business standpoint that we have had since John Wanamaker's administration. Instead of the customary deficit the Department has shown a surplus for the past 2 years under his capable management. Mr. Farley has recommended legislation of this nature, as has also the President of the United States. They ask us to vote for it. [Applause.]

Mr. LEHLBACH. Mr. Speaker, I yield 2 minutes to the gentleman from Minnesota [Mr. MAAS].

Mr. MAAS. Mr. Speaker, I do not take issue with my colleague from New York [Mr. MEAD] as to what Mr. Brown and his assistants did. I admit that they abused the high offices which they held, and I deprecate it, but this is supposed to be a reform measure. Why then should you insist upon the right to continue these abuses that occurred under former Postmasters General and yet call it reform, for you claim you are trying to reform the civil service.

I believe as ardently as anybody in this House in a complete merit system, and for some years I have favored putting everybody under civil service from the assistant Cabinet officers down, and I would support this bill willingly and enthusiastically, if you had a provision in it which required say 10 years' service in the Post Office Department to make a man eligible for these appointments, but under the guise of reform you are covering into the civil service politically appointed postmasters forever during their lifetime. It is not reform, it is the very opposite. You are perpetuating the spoils system for so long as these postmasters shall live. If you intend real reform, you will make the whole postal system a career service. You will limit the appointment of postmasters to those who have come up from the ranks in the Post Office Department. As a matter of fact as the system is operated today your postmasters are no essential part of nor necessary to the postal system from the Postmaster General on down. The postmasters today are merely political ambassadors of the party in power, and to whom we pay $10,000,000 a year, which is a $40,000,000 campaign fund for every Presidential election.

If this is really civil-service reform, why is it limited to politically appointed postmasters? Why does it not cover all the permanent Government services? For illustration, the Internal Revenue Bureau, where the personnel are real experts, certainly should be given civil-service coverage, yet those people are not touched by this bill.

Postmasters are being confirmed in batches every day. They are all without any experience or special training or particular qualifications for postal administrative work. This will continue until every post office is headed by a faithful Democrat. Then these politically appointed postmasters will be protected for life in their spoils-system appointments. This is the spoils system at its worst.

If you wanted to be fair and honest in this so-called reform, you would bring in a bill opening these appointments to open competitive examinations or close it to all but actual civil-service employees in the regular post-office system.

This is not civil-service reform nor the extension of the merit system. There was no merit standard of selection for these postmasters when they were appointed except faithful service to the Democratic Party.

You are destroying merit in the civil service by this crude attempt to fill these offices by political hencemen and then get a law to keep them in office for life. It is certainly generous of you Democrats to carefully wait until you have filled all of these offices with your appointees and then suddenly think of extending civil service to keep them in office.

Why, Mr. Speaker, this is nothing but a bare-faced steal. It is a plan to permanently set up Democratic bosses to be paid by the Federal Government in 13,000 cities and towns. It shuts the door to real merit appointments or promotions to these offices. If this is the Democratic Party's idea of the merit system in government, then it is high time that the problem be turned over to some party to be reformed.

I have pending a bill that would restrict appointments from top to bottom in the Postal Service to those who enter the service by competitive examination and who work their way up to the top solely upon their merit. A Democratic-controlled Congress has refused to even give my bill a hearing.

Mr. Speaker, I repeat that this bill is not civil-service reform nor an extension of the merit system in government, but a bold attempt by the spoilsman to perpetuate in office his political appointees.

Defeat this bill and next year we will bring before this House a genuine civil-service merit bill, not only for the postal system, but for every permanent Government position.

The SPEAKER pro tempore. The time of the gentleman from Minnesota has expired.

Mr. LEHLBACH. Mr. Speaker, I yield 2 minutes to the gentleman from Michigan [Mr. MICHENER].

Mr. MICHENER. Mr. Speaker, a previous speaker has suggested that politics be eliminated from this debate. I support that motion because I am a firm believer in genuine civil service, and politics and civil service do not mix. Coveted political advantage alone has prevented the accomplishment of civil service in the post-office service up to date.

The speech which was made by my good friend, the gentleman from New York [Mr. MEAD] has demonstrated clearly the principal reason why the Congress has never been able to get anywhere in applying civil service to the postmasters. I regret that so hard working, so influential, and so conscientious a Member of this body should lend himself to political endeavor when the time is so limited and the matter at issue is so vital. We are not interested today in the faults or shortcomings of past political Postmasters General. Every administration, regardless of political affiliations, has played more or less politics with postmasters, and that is the evil we are trying to overcome. Therefore, suffice it to say, that we will get nowhere if the Republicans twit the Democrats and if the Democrats banter the Republicans about the happenings of bygone days.

The gentleman from New York [Mr. MEAD] admonishes the Republicans that they should be for this bill if they have confidence in the success of the Republican ticket in the coming campaign for, says he, under the provisions of this proposed law, existing first-, second-, and third-class postmasters will be permitted to serve out the terms for which they were appointed, whereupon they may be reappointed without competitive examination by the Postmaster at the time, if he so desires, or the vacancies may be filled by promotion from the ranks in the postal service, or genuine civil-service examinations may be held, but all this within the discretion of the Postmaster General.

Now, it is this discretion to which most of us object. This bill is Democratic political civil service. In short, all first-, second-, and third-class postmasters throughout the United States at the end of the present administration will be Democrats, and enactment of this bill would freeze these

appointees into life jobs, regardless of their merit or qualifications, provided, of course, Postmaster General Farley or his successor might so desire.

It is regrettable that this bill is brought in under suspension of rules, which means that the House may debate or talk about the bill for 40 minutes but, regardless of the sentiment of the House, one must then vote "yes" or "no" on its passage, without being able to offer amendments. Passing important legislation under gag rule has become a popular pastime, but if I am not mistaken the procedure will be very unpopular with the rank and file of the people when they fully understand. If this bill could be so amended as to permit existing postmasters to serve out their full terms, at which time competitive examinations under civil service were held, and the vacancies filled, either by promotion from the ranks or by those found to be qualified under bona fide civil-service examination and without political domination, then we would have civil service as the people of the country understand the term, and I should be happy to support this bill if it were so amended.

The League of Women Voters and some other organizations have endorsed the civil-service principle and some have been induced to endorse this bill, H. R. 3251, by number. I am sure, however, that those persons in my district endorsing this bill did not know its real purport.

This subject should not be political. However, there are not enough Republicans in the Congress at the present time to pass or defeat any legislation. As a minority party we can, however, call attention to some of these improper proposals and may at least register our disapproval when the roll is called. The gentleman from Georgia, Judge Cox, although a leading Democrat, speaks as a patriot, and I am convinced that the center aisle will be obliterated when the vote comes. The gentleman from Georgia, the chairman of the committee [Mr. RAMSPECK], who is the author of this bill, tells us that here is an opportunity to comply with the terms of the Republican platform adopted at Cleveland. Let me call his attention to the fact that he has entirely misconstrued that platform. The Republican platform promises to remedy the conditions mentioned in the platform. For the sake of accuracy, I quote the civil-service plank in the Republican platform:

> Under the New Deal official authority has been given to inexperienced and incompetent persons. The civil service has been sacrificed to create a national political machine. As a result the Federal Government has never presented such a picture of confusion and inefficiency.
>
> We pledge ourselves to the merit system, virtually destroyed by the New Deal spoilsmen. It should be restored, improved, and extended.
>
> We will provide such conditions as offer an attractive permanent career in Government service to young men and women of ability, irrespective of party affiliations.

Let all those who believe in effective civil service for first-, second-, and third-class postmasters join in defeating this make-believe bill, and then let the committee bring in a short, direct bill, providing for the filling of all future vacancies in these offices under the genuine provisions of the civil-service law. I shall be happy to support such a measure.

The SPEAKER pro tempore. The time of the gentleman from Michigan has expired.

Mr. LEHLBACH. Mr. Speaker, I yield 3 minutes to the gentleman from Michigan [Mr. WOLCOTT].

Mr. WOLCOTT. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD and to include therein a copy of H. R. 11508.

The SPEAKER pro tempore. Without objection, it is so ordered.

There was no objection.

Mr. WOLCOTT. Mr. Speaker, it will be recalled that when this bill was reached on the Consent Calendar attention was called to the fact that it was highly desirable to put first-, second-, and third-class postmasters under civil service, and we agreed that it should be done, and in order to help that cause along and to remove the objections in the Ramspeck bill, which is before us today, I introduced a bill on February 27, known as H. R. 11508, which follows the suggestion of the gentleman from Michigan [Mr. MICHENER], in that it provides that the postmasters may continue to fill out their terms and then, after competitive civil-service examination, be reappointed. If you gentlemen wish to chide us about the civil-service provision in the Republican platform, let me tell you that we are honest and sincere in that, as we always have been with respect to civil service. We have an honest desire to see the first-, second-, and third-class postmasters under civil service, but we do object to you perpetuating your appointees in office for life under the guise of placing the office which they hold under civil service. If you are sincere in wanting to put first-, second-, and third-class postmasters under civil service, under the merit system, you will have to take that word "noncompetitive" out of the bill. In other words, you cannot discuss this bill from any other standpoint than a purely political standpoint, because it is a deliberate attempt by the Democratic administration to freeze into the civil service every present postmaster of the first, second, and third class. If the President we now have is returned to office, upon reappointment every postmaster is blanketed into the civil service. If any other President is elected, then after the expiration of the term under this bill the candidate must take a competitive examination. You want to be fair, and you chide us with not wanting to be fair. If you are fair you would have amended this bill before you ever presented it to provide a real merit system for these 31,956 postmasters, whose aggregate salaries are $28,045,600.

The SPEAKER pro tempore. The time of the gentleman from Michigan has expired.

Mr. WOLCOTT. Under leave to extend my remarks I include H. R. 11508, a bill which I contend is an answer to the insistence that first-, second-, and third-class postmasters should be taken out of politics and put on a real merit basis. Instead of correcting the present evils in respect to the spoils system of making appointments of these postmasters, the Ramspeck bill, which we are considering, might result in one of the most collosal patronage grabs ever perpetrated by a representative body acting in behalf of a supposedly free people.

> A bill to provide for the extension of the classified civil service to include postmasters of the first, second, and third classes, and for other purposes
>
> *Be it enacted, etc.*, That postmasters of the first, second, and third classes shall hereafter be appointed without term, by the Postmaster General, in accordance with the provisions of the act entitled "An act to regulate and improve the civil service of the United States", approved January 16, 1883, as amended, and the rules prescribed thereunder: *Provided*, That postmasters now serving may continue to serve until their terms of office expire. In the examinations for such positions, experience in the Postal Service shall count for 50 per centum; but no credit shall be given for experience in the Postal Service, under an appointment made prior to the enactment of this act, as postmaster or acting postmaster in an office of the first, second, or third class.
>
> SEC. 2. Appointments of acting postmaster in all classes of post offices shall be made in accordance with the provisions of the civil-service rules governing temporary appointments.

Mr. LEHLBACH. Mr. Speaker, if this were a genuine attempt to put postmasters of the first, second, and third class under civil service, the bill would read somewhat as follows:

> After the expiration of the terms of the present incumbents of post offices of the first, second, and third classes, the position shall be filled by promotion from the Postal Service, under the provisions of the Civil Service Act and rules. In the event that no person is eligible for such promotion, then under the general rules of the Civil Service Act and rules the position shall be filled like any other competitive civil service position is filled.

That would be putting postmasters of the first, second, and third class under civil service. This merely gives an opportunity to freeze in political appointments that have been made during this administration.

The SPEAKER pro tempore. The time of the gentleman from New Jersey has expired.

Mr. RAMSPECK. Mr. Speaker, I am very much astonished at my friends on the Republican side of the aisle about this matter. If the gentleman from Michigan [Mr. MICHENER] has the intelligence that I have always accorded to him, he knows when he reads this bill and the method of appointment, that if the Republicans win in November, the word "noncompetitive" goes out. Any other man of

intelligence knows that, because we would not expect them to reappoint Democratic postmasters, so why are you quibbling over language? If you have any confidence in your ability to win this election, vote for this reform, because of course you will not use the noncompetitive method.

Mr. MICHENER. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. No; I do not yield.

This bill, I may say to my friends on the Democratic side, has the active support and endorsement of the President of the United States, Hon. Franklin D. Roosevelt. He expressed himself as favorable to the bill several months ago in a press conference at the White House, and he has been active in trying to get it up on the floor of this House. It has the endorsement of Mr. Farley [laughter] and his active support. It has the endorsement of the League of Women Voters in their national convention. Now, laugh at that. It has the endorsement of the National Council of Business Mail Users, a thousand members, and affiliated with it, 16,000 more, who are urging the passage of this particular bill at this particular time. The people of the United States, in a national poll conducted by the newspapers of this country, voted 85 percent for civil service and only 15 percent against. We are offering you for the first time in years an opportunity to put these postmasters out of politics and put them under civil service. You have nothing to fear if you can win the election, from this bill. The Democrats of course are going to win it and we have nothing to fear from it. So let us get rid of this troublesome question. Let us put this thing behind us. Let us put this bill across and put these postmasters on a career system, a more efficient system, and we will satisfy the great majority of the people of this country. We will give them better postal service. We will have less trouble ourselves with these patronage problems. We should have the most efficient postal system possible. I think unquestionably the way to get it is to take it out of politics.

Mr. UMSTEAD. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. I yield to my friend from North Carolina.

Mr. UMSTEAD. I would like to ask the gentleman, if the administration, the President, and the Post Office Department, and the other organizations mentioned by the gentleman are so strongly in favor of this bill, why is it that the bill has not been brought to the House until the closing hours of the session with only 40 minutes of discussion and no opportunity to amend the bill?

Mr. RAMSPECK. The gentleman knows as much about procedure in the House as I do and he knows how difficult it is to get bills up. That is the reason it has not been here before.

Mr. MEAD. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. I yield.

Mr. MEAD. This is the third attempt at this session to pass this bill, is it not?

Mr. RAMSPECK. Yes. The bill has been twice on the Consent Calendar and objected to by my friends on the Republican side. Now they come here, after Cleveland, and again object and try to throw out a smoke screen about it. The gentleman from New York [Mr. BACON], much to my surprise, put into the RECORD a statement that this was a public fraud. He has either got less sense than I thought he had or else he has less regard for the truth than I thought he had.

Mr. WOLCOTT. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. I yield.

Mr. WOLCOTT. Has any attempt been made by your committee to get a rule to bring this bill out by which it might be considered and amended?

Mr. RAMSPECK. Yes. I filed an application for a rule, but as far as I know there never was a hearing on it. But it is here now and everybody knows what it is. If you gentleman do not vote for it, do not talk to us any more about breaking platform promises. [Laughter.]

Mr. HOUSTON. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. I yield.

Mr. HOUSTON. Did not the Republican platform endorse this bill?

Mr. RAMSPECK. Absolutely. [Laughter and applause.]

The SPEAKER. The time of the gentleman from Georgia has expired.

All time has expired.

The question is on the motion of the gentleman from Georgia to suspend the rules and pass the bill as amended.

The question was taken; and on a division (demanded by Mr. WOLCOTT) there were—ayes 132 and noes 63.

Mr. WOLCOTT. Mr. Speaker, I object to the vote on the ground that a quorum is not present, and I make the point of order that a quorum is not present.

The SPEAKER. The Chair will count. [After counting.] Two hundred and fifty-five Members are present, a quorum.

Mr. SNELL. Mr. Speaker, I ask for the yeas and nays.

The yeas and nays were ordered.

The question was taken; and there were—yeas 206, nays 112, not voting 105, as follows:

[Roll No. 126]

So, two-thirds not having voted in favor thereof, the motion was rejected.

The Clerk announced the following pairs:

On this vote:

Mr. Hobbs and Mr. Knute Hill (for) with Mr. Ditter (against).

Until further notice:

Mr. Corning with Mr. Martin of Massachusetts.
Mr. Maloney with Mr. Wilson of Pennsylvania.
Mr. Drewry with Mr. Hollister.
Mr. Taylor of Colorado with Mr. Bacon.
Mr. Lanham with Mr. Eaton.
Mr. Rayburn with Mr. Bolton.
Mr. O'Connor with Mr. Higgins of Connecticut.
Mr. Fulmer with Mr. Brewster.
Mr. Bulwinkle with Mr. Reed of New York.
Mr. Darden with Mr. Tinkham.
Mr. Montague with Mr. Andrews.
Mr. Fernandez with Mr. Collins.
Mr. McFarlane with Mr. Bacharach.
Mr. Dingell with Mr. Robsion of Kentucky.
Mr. Sumners of Texas with Mr. Sauthoff.
Mr. McClellan with Mr. Stewart.
Mr. Sabath with Mr. Burdick.
Mr. Sears with Mr. Schneider.
Mr. Larrabee with Mr. Dear.
Mr. Sullivan with Mr. Lucas.
Mr. Wood with Mr. Montet.
Mr. Secrest with Mr. Gasque.
Mr. Ashbrook with Mr. Binderup.
Mr. O'Connell with Mr. Quinn.
Mr. Dies with Mr. Schuetz.
Mr. Imhoff with Mr. O'Neal.
Mr. Hamlin with Mr. Crosby.
Mr. Lee of Oklahoma with Mr. Brooks.
Mr. McCormack with Mr. Harter.
Mr. Claiborne with Mr. Keller.
Mr. Scrugham with Mr. Tolan.
Mr. Nelson with Mr. Ford of California.
Mr. Maverick with Mr. Deen.
Mr. Kee with Mr. Cannon of Missouri.
Mr. Celler with Mr. DeRouen.
Mr. McGroarty with Mr. Peterson of Florida.
Mr. Carmichael with Mr. Ferguson.
Mr. May with Mr. Gassaway.
Mr. Buckley of New York with Mr. Green.
Mr. McGehee with Mr. Nichols.
Mr. Cross of Texas with Mr. Cannon of Wisconsin.
Mr. Cary with Mr. Ayers.
Mr. Oliver with Mr. Berlin.
Mr. Parks with Mr. Samuel B. Hill.
Mr. Sadowski with Mr. Brennan.
Mr. Duffey of Ohio with Mr. Sanders of Louisiana.
Mr. Fiesinger with Mr. Eagle.
Mr. Moritz with Mr. Wilson of Louisiana.
Mr. Cummings with Mr. Dunn of Mississippi.

Mr. WEARIN and Mr. GAVAGAN changed their vote from "nay" to "yea."

Mr. McCORMACK. Mr. Speaker, I was unavoidably absent on account of official business. Had I been present, I would have voted "yea."

The result of the vote was announced as above recorded.

FEDERAL FOOD, DRUG, AND COSMETIC ACT

Mr. CHAPMAN. Mr. Speaker, I move to suspend the rules and pass the bill (S. 5) to prevent the adulteration, misbranding, and false advertising of food, drugs, devices, and cosmetics in interstate, foreign, and other commerce subject to the jurisdiction of the United States, for the purpose of safeguarding the public health, preventing deceit upon the purchasing public, and for other purposes, with an amendment.

The SPEAKER. The gentleman from Kentucky moves to suspend the rules and pass the bill S. 5, the Federal Food, Drug, and Cosmetic Act, with an amendment, which the Clerk will report.

The Clerk read as follows:

Be it enacted, etc.

CHAPTER I

SECTION 1. That this act may be cited as the "Federal Food, Drug, and Cosmetic Act."

CHAPTER II

DEFINITION OF TERMS

SECTION 201. As used in this act, unless the context otherwise indicates—

(a) The term "food" includes all substances and preparations used for, or entering into the composition of, food, drink, confectionery, chewing gum, or condiment for man or other animals.

(b) The term "drug", for the purposes of this act, includes (1) all substances and preparations recognized in the official United States Pharmacopœia, official Homœopathic Pharmacopœia of the United States, or official National Formulary, or any supplement to any of them; and (2) all substances and preparations intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in man or other animals; and (3) all substances and preparations, other than food and cosmetics, intended to affect the structure or any function of the body.

(c) The term "device", for the purposes of this act, includes all devices intended (1) for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in man or other animals; and (2) to affect the structure or any function of the body.

(d) The term "cosmetic" includes all substances and preparations intended for cleansing, or altering the appearance of, or promoting the attractiveness of, the person; except that such term shall include soaps only when medicinal or curative qualities are claimed therefor.

(e) The term "Territory" means any Territory or possession of the United States, including the District of Columbia and excluding the Canal Zone.

(f) The term "interstate commerce" means (1) commerce between any State or Territory and any place outside thereof, and (2) commerce or manufacture within the District of Columbia or within any other Territory not organized with a legislative body.

(g) The term "person" includes individual, partnership, corporation, and association.

(h) The term "Secretary" means the Secretary of Agriculture.

(i) The term "label" means the principal display or displays of written, printed, or graphic matter (1) upon any food, drug, device, or cosmetic, or the immediate container thereof, and (2) upon the outside container or wrapper, if any there be, of the retail package of any food, drug, device, or cosmetic.

(j) The term "labeling" includes all labels and other written, printed, and graphic matter, in any form whatsoever, accompanying any food, drug, device, or cosmetic.

(k) The term "advertisement" includes all representations of fact or opinion disseminated to the public in any manner or by any means, other than by the labeling, for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics.

(l) The term "medical profession" means the legalized professions of the healing art; and the term "medical opinion" means the opinion, within their respective fields, of the practitioners of any branch of the medical profession, the practice of which is licensed by law in the State or Territory where any drug or device, to which such opinion relates, is held, sold, or distributed; and the term "scientific opinion" means the opinion, within their respective fields, of competent pharmacologists, physiologists, or toxicologists.

(m) The term "official compendium" means the United States Pharmacopœia, Homœopathic Pharmacopœia of the United States, National Formulary, or any supplement to any of them, official at the time any drug to which the provisions thereof relate is introduced into interstate commerce.

(n) The term "Department" means the Department of Agriculture of the United States.

(o) The term "Administration" means the Food and Drug Administration of the Department.

CHAPTER III

ADULTERATED FOOD

SECTION 301. A food shall be deemed to be adulterated—

(a) (1) If it bears or contains any poisonous or deleterious substance which may render it dangerous to health; or (2) if it bears or contains any added poisonous or added deleterious substance which may render it injurious to health, or which is unsafe within the meaning of section 305, or in excess of the limits of

tolerance prescribed by regulations as provided by section 305; or (3) if it consists in whole or in part of any filthy, putrid, or decomposed substance, or if it is otherwise unfit for food; or (4) if it has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health; or (5) if it is, in whole or in part, the product of a diseased animal or of an animal which has died otherwise than by slaughter; or (6) if its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.

(b) (1) If any valuable constituent has been in whole or in part abstracted therefrom; or (2) if any substance has been substituted wholly or in part therefor; or (3) if damage or inferiority has been concealed in any manner; or (4) if any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength, or create a deceptive appearance.

(c) If it contains a coal-tar color other than one from a batch that has been certified in accordance with regulations as provided by section 305.

(d) If it is confectionery or ice cream, it shall also be deemed to be adulterated if it bears or contains any alcohol, harmful resinous glaze, or nonnutritive substance except harmless coloring, harmless flavoring, natural gum, and pectin: *Provided*, That this paragraph shall not apply to any confectionery or ice cream by reason of its containing less than one-half of 1 percent by volume of alcohol derived solely from the use of flavoring extracts, or to any chewing gum by reason of its containing harmless nonnutritive masticatory substances.

MISBRANDED FOOD

SEC. 302. A food shall be deemed to be misbranded—

(a) If its labeling is false or misleading in any particular.

(b) If it is offered for sale under the name of another food.

(c) If it is an imitation of another food, and its label fails to bear, in type of uniform size and prominence, the word "imitation" and, immediately thereafter, the name of the food imitated.

(d) If its container is so made, formed, or filled as to mislead the purchaser.

(e) If in package form unless it bears a label containing (1) the name and place of business of the manufacturer, packer, seller, or distributor; and (2) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count: *Provided*, That under subdivision (2) of this paragraph reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the Secretary.

(f) If any word, statement, or other information required on the label under any provision of this act is not prominently placed thereon in such a manner as to be easily seen and in such terms as to be readily understood by purchasers and users of such articles under customary conditions of purchase and use, due consideration being given to the size of the package.

(g) If it purports to be or is represented as a food for which a definition and standard of identity has been prescribed by regulations as provided by section 304, and (1) it fails to conform to such definition and standard, or (2) its label fails to bear the name of the food prescribed in the definition and standard, or if so required by such regulations when such definition and standard permits optional ingredients other than spices, flavors, and coloring, the common names of such optional ingredients as are present in such food.

(h) If it purports to be or is represented as a food for which standards of quality or fill of container have been prescribed by regulations as provided by section 304, and (1) its label fails to bear a statement of its standard of quality in such terms as the regulations specify, or (2) if its fill falls below such standard of fill of container and its label fails to bear a statement, in such manner as the regulations specify, showing that it falls below such standard of fill of container.

(i) If it is not subject to the provisions of paragraph (g) of this section and its label fails to bear (1) the common or usual name of the food, if any there be, or (2) in case it is fabricated from two or more ingredients, the common or usual name of each such ingredient; except that spices, flavors, and colorings, other than those sold as such, may be designated as spices, flavors, and colorings without naming each: *Provided*, That, to the extent that compliance with the requirements of subdivision (2) of this paragraph is impracticable because of variations in ingredients usual to good manufacturing or packing practice, or is impracticable for any other reason, exemptions shall be established by regulations promulgated by the Secretary. Such subdivision (2) shall not apply to any proprietary food the ingredients of which have been fully and correctly disclosed to the Secretary if compliance with such subdivision would give to competitors information they could not otherwise obtain.

(j) If it purports to be or is represented for special dietary uses, such as by infants or invalids or for other special nutritional requirements, and its label fails to bear, if so required by such regulations as may be prescribed by the Secretary as necessary for the protection of the public health, statements concerning its vitamin, mineral, and other dietary properties which fully inform the purchaser as to its nutritional value.

(k) If it bears or contains any artificial flavor, artificial color, or chemical preservative, and it fails to bear a label stating that fact: *Provided*, That to the extent that compliance with the requirements of this paragraph is impracticable, exemptions shall be established by regulations promulgated by the Secretary.

(l) If it is a distilled liquor, or if it is a beverage (other than fortified wine) containing any distilled liquor, unless its label states (1) the percentage by volume of alcohol therein; (2) in case it contains two or more whiskies or other alcoholic beverages, the percentage by volume of each distilled liquor present and the source or sources from which each is derived; (3) in case of any kind of whisky stored in wood, or any mixture of whiskies of which one or more has been stored in wood, the length of time, if any, each such whisky has been so stored; and (4) in the case of any mixture of any kind of whisky or whiskies with neutral spirits, the length of time, if any, each such whisky has been stored in wood: *Provided*, That the provisions of this paragraph shall not apply insofar as they impose any requirement imposed by or under authority of the Federal Alcohol Administration Act.

(m) If it purports to be or is represented as any kind of whisky, and it contains alcohol derived from any source other than grain.

REGULATIONS MAKING EXEMPTIONS

SEC. 303. The Secretary is hereby directed to promulgate regulations exempting from any labeling requirement of this act (1) small open containers of fresh fruits and fresh vegetables and (2) food which is, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packed, on condition that such food is not adulterated or misbranded under the provisions of this act upon removal from such processing, labeling, or repacking establishment.

DEFINITIONS AND STANDARDS FOR FOOD

SEC. 304. For the effectuation of the purposes of this act the Secretary is hereby authorized to promulgate regulations fixing and establishing for any food definitions and standards of identity, and reasonable standards of quality and fill of container: *Provided*, That no standard of quality shall be established for fresh fruits (except fresh citrus fruits) or fresh vegetables and no standard of identity for fresh fruits or fresh vegetables. In the fixing and establishing of any standard of quality for any canned fruit or canned vegetable, consideration shall be given and due allowance made for the differing characteristics of the several varieties of such fruit or vegetable.

TOLERANCES FOR POISONOUS INGREDIENTS IN FOOD AND CERTIFICATION OF COAL-TAR COLORS FOR FOOD

SEC. 305. (a) Any poisonous or deleterious substance added to any food, except where such substance is required in the production thereof or cannot be avoided by good manufacturing practice shall be deemed to be unsafe for purposes of the application of section 301 (a); but when such substance is so required or cannot be so avoided, the Secretary is authorized to promulgate regulations limiting the quantity therein or thereon to such extent as he finds necessary for the protection of public health. In determining the quantity of such added substance to be tolerated in or on different articles of food the Secretary shall take into account the extent to which the use of such substance is required or cannot be avoided in the production of each such article, and the other ways in which the consumer may be affected by the same or other poisonous or deleterious substances.

(b) The Secretary is hereby authorized to promulgate regulations for the certification of coal-tar colors which are harmless and suitable for use in food.

EMERGENCY PERMIT CONTROL

SEC. 306. (a) Whenever the Secretary finds after investigation that the distribution in interstate commerce of any class of food may, by reason of contamination with micro-organisms during the manufacture, processing, or packing thereof in any locality, be injurious to health, and that such injurious nature cannot be adequately determined after such articles have entered interstate commerce, he is then, and in such case only, authorized to promulgate regulations providing for the issuance, to manufacturers, processors, or packers of such class of food in such locality, of permits to which shall be attached such conditions governing the manufacture, processing, or packing of such class of food, for such temporary period of time, as may be necessary to protect the public health, and after the effective date of such regulations, and during such temporary period, no person shall introduce into interstate commerce any such food manufactured, processed, or packed by any such manufacturer, processor, or packer unless such manufacturer, processor, or packer holds a permit issued by the Secretary as provided by such regulations.

(b) The Secretary is authorized to suspend immediately upon notice any permit issued under authority of this section if it is found that any of the conditions of the permit have been violated. The holder of a permit so suspended shall be privileged at any time to apply for the reinstatement of such permit, and the Secretary shall immediately after prompt hearing and an inspection of the establishment, reinstate such permit if it is found that adequate measures have been taken to comply with and maintain the conditions of the permit, as originally issued or as amended.

(c) Any officer or employee duly designated by the Secretary shall have access to any factory or establishment, the operator of which holds a permit from the Secretary, for the purpose of ascertaining whether or not the conditions of the permit are being complied with, and denial of access for such inspection shall be ground for suspension of the permit until such access is freely given by the operator.

CHAPTER IV

ADULTERATED DRUGS

SECTION 401. A drug shall be deemed to be adulterated—

(a) (1) If it consists in whole or in part of any filthy, putrid, or decomposed substance; or (2) if it has been prepared, packed, or held under insanitary conditions whereby it may have been contaminated with filth, or whereby it may have been rendered injurious to health; or (3) if its container is composed, in whole or in part, of any poisonous or deleterious substance which may render it injurious to health; or (4) if it contains, for purposes of coloring only, a coal-tar color other than one from a batch that has been certified in accordance with regulations as provided by section 404.

(b) If its name is recognized in an official compendium, or if it purports to be a drug the name of which is so recognized, and it differs from the standard of strength, quality, or purity as determined by the tests or methods of assay set forth therein; except that whenever tests or methods of assay have not been prescribed therein, or such tests or methods of assay as are prescribed are insufficient, for determining whether or not such drug complies with such standard, the Secretary is hereby authorized to bring such fact to the attention of the appropriate body charged with the revision of such compendium and if such body fails within a reasonable time to prescribe tests or methods of assay which are sufficient, then the Secretary may by regulations prescribe for the purposes of this act such tests or methods of assay. No drug shall be deemed to be adulterated under this paragraph because it differs from the standard of strength therefor set forth in an official compendium, if its standard of strength be plainly stated on its label. Whenever a drug is recognized in both the United States Pharmacopœia and the Homœopathic Pharmacopœia of the United States it shall be subject to the requirements of the United States Pharmacopœia unless it is labeled and offered for sale as a homœopathic drug, in which case it shall be subject to the provisions of the Homœopathic Pharmacopœia of the United States and not to those of the United States Pharmacopœia.

(c) If it is not subject to the provisions of paragraph (b) of this section and its identity or strength differs from, or its purity or quality falls below, that which it purports or is represented to possess.

(d) If any substance has been (1) mixed or packed therewith so as to reduce its quality or strength or (2) substituted wholly or in part therefor.

MISBRANDED DRUGS AND DEVICES

SEC. 402. A drug or device shall be deemed to be misbranded—

(a) If its labeling is false or misleading in any particular. Any representation concerning any effect of a drug or device shall be deemed to be false under this paragraph if such representation is not supported by scientific facts or substantial and reliable medical or scientific opinion.

(b) If it is dangerous to health when used in the dosage, or with the frequency or duration, prescribed or recommended in the labeling or advertisement thereof.

(c) If in package form unless it bears a label containing (1) the name and place of business of the manufacturer, packer, seller, or distributor; and (2) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count: *Provided,* That under subdivision (2) of this paragraph reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the Secretary.

(d) If any word, statement, or other information required on the label under any provision of this act is not prominently placed thereon in such a manner as to be easily seen and in such terms as to be readily understood by purchasers and users of such articles under customary conditions of purchase and use, due consideration being given to the size of the package.

(e) If it is for use by man and contains any quantity of any of the following narcotic or hypnotic substances: Alpha eucaine, barbituric acid, beta eucaine, bromal, cannabis, carbromal, chloral, coca, cocaine, codeine, heroin, marihuana, morphine, opium, paraldehyde, peyote, sulphonmethane, or any substance chemically derived therefrom or any other narcotic or hypnotic substance, which derivative or other narcotic or hypnotic substance has been designated as habit forming by regulations prescribed by the Secretary, and, except when dispensed on the written order of a member of the medical profession, its label fails to bear the name and quantity or proportion of such sustance or derivative and in juxtaposition therewith the statement "Warning—May be habit forming."

(f) If it is a drug and is not designated solely by a name recognized in an official compendium and its label fails to bear (1) a common or usual name of the drug, if such there be; or (2), in case it is fabricated from two or more ingredients, the name of each active ingredient, including the quantity, kind, and proportion of any alcohol: *Provided,* That, to the extent that compliance with the requirements of subdivision (2) of this paragraph is impracticable, exemptions shall be established by regulations promulgated by the Secretary. Such subdivision (2) shall not (except the requirements as to alcohol) apply to any drug the ingredients of which are fully and correctly disclosed to the Secretary.

(g) If its labeling fails to bear plainly and conspicuously (1) adequate directions for use, or (2) such warnings, in such manner and form, as are required by regulations prescribed by the Secretary, against use in those pathological conditions or by children where its use may be dangerous to health, or against unsafe dosage or methods or duration of administration or application: *Provided,* That where any requirement of subdivision (1) of this paragraph, as applied to any drug or device, is not necessary for the protection of the public health, the Secretary shall promulgate regulations exempting such drug or device from such requirement.

(h) If its name is recognized in an official compendium, or if it purports to be a drug the name of which is so recognized, and it is not packaged and labeled as prescribed therein. Whenever a drug is recognized in both the United States Pharmacopœia and the Homeopathic Pharmacopœia of the United States, it shall be subject to the requirements of the United States Pharmacopœia with respect to packaging and labeling unless it is labeled and offered for sale as a homeopathic drug, in which case it shall be subject to the provisions of the Homeopathic Pharmacopœia of the United States, and not to those of the United States Pharmacopœia.

(i) If it has been designated by regulations prescribed by the Secretary as a drug liable to deterioration, and is not packaged in such form and manner, or its label fails to bear a statement of such precautions, as such regulations require for the protection of public health. No such regulation shall be established for any drug recognized in an official compendium until the Secretary shall have informed the appropriate body charged with the revision of such compendium of the need for such packaging or labeling requirements and such body shall have failed within a reasonable time to prescribe such requirements.

(j) (1) If it is a drug and its container is so made, formed, or filled as to mislead the purchaser; or (2) if it is an imitation of another drug; or (3) if it is offered for sale under the name of another drug.

MEANING OF "ANTISEPTIC"; REGULATIONS MAKING EXEMPTIONS

SEC. 403. (a) When construing and enforcing the provisions of this act with respect to labeling and advertisements, the term "antiseptic" shall be deemed to have the same meaning as the word "germicide", except, however, in the case of a drug purporting to be, or represented as, an antiseptic for inhibitory use as a wet dressing, ointment, dusting powder, or such other use as involves prolonged contact with the body.

(b) The Secretary is hereby directed to promulgate regulations exempting from any labeling or packaging requirement of this act drugs and devices which are, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packed, on condition that such drugs and devices are not adulterated or misbranded under the provisions of this act upon removal from such processing, labeling, or repacking establishment.

CERTIFICATION OF COAL-TAR COLORS FOR DRUGS

SEC. 404. The Secretary is hereby authorized to promulgate regulations for the certification of coal-tar colors which are harmless and suitable for use in drugs for purposes of coloring only.

CHAPTER V

ADULTERATED COSMETICS

SECTION 501. A cosmetic shall be deemed to be adulterated—

(a) If it bears or contains any poisonous or deleterious substance which renders or will render it injurious to users under the conditions of use prescribed in the labeling or advertisement thereof, or under such conditions of use as are customary or usual.

(b) If it consists in whole or in part of any filthy, putrid, or decomposed substance.

(c) If it has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health.

(d) If its container is composed, in whole or in part, of any poisonous or deleterious substance which renders or will render it injurious to health.

(e) If it contains a coal-tar color other than one from a batch that has been certified in accordance with regulations as provided by section 504.

MISBRANDED COSMETICS

SEC. 502. A cosmetic shall be deemed to be misbranded—

(a) If its labeling is false or misleading in any particular.

(b) If in package form unless it bears a label containing (1) the name and place of business of the manufacturer, packer, seller, or distributor; and (2) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count: *Provided,* That under subdivision (2) of this paragraph reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the Secretary.

(c) If any word, statement, or other information required on the label under any provision of this act is not prominently placed thereon in such a manner as to be easily seen and in such terms as to be readily understood by the purchasers and users of such articles under customary conditions of purchase and use, due consideration being given to the size of the package.

REGULATIONS MAKING EXEMPTIONS

SEC. 503. The Secretary is hereby directed to promulgate regulations exempting from any labeling requirement of this act cosmetics which are, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packed, on condition that such cosmetics are not adulterated or misbranded under the provisions of this act upon removal from such processing, labeling, or repacking establishment.

CERTIFICATION OF COAL-TAR COLORS FOR COSMETICS

SEC. 504. The Secretary is hereby authorized to promulgate regulations for the certification of coal-tar colors which are harmless and suitable for use in cosmetics.

CHAPTER VI. FALSE ADVERTISEMENT

DEFINITION OF FALSE ADVERTISEMENT

SECTION 601. (a) An advertisement of a food, drug, device, or cosmetic shall be deemed to be false if it is false or misleading in any particular regarding such food, drug, device, or cosmetic. Any representation concerning any effect of a drug or device shall be deemed to be false under this paragraph if such representation is not supported by scientific facts or substantial and reliable medical or scientific opinion.

(b) The advertisement of a drug or device representing it to have any therapeutic effect in the treatment of Bright's disease, cancer, tuberculosis, poliomyelitis (infantile paralysis), venereal diseases, heart or vascular diseases shall be deemed to be false: *Provided*, That the Secretary shall establish exemptions from the provisions of this subsection in the case of drugs and devices with respect to which such a representation as to therapeutic effect would not, in his opinion, be a violation of subsection (a).

(c) Nothwithstanding any provision of this section, no advertisement of a drug shall be deemed to be false or misleading under this section if it is disseminated only to members of the medical profession and/or appears only in the scientific periodicals of that profession.

POWERS AND DUTIES OF THE FEDERAL TRADE COMMISSION

SEC. 602. (a) The Federal Trade Commission is hereby empowered and directed to prevent (1) the dissemination, or the causing of the dissemination, of any false advertisement by United States mails, or in interstate commerce by radio broadcast or otherwise, for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics; (2) the dissemination, or the causing of the dissemination, of any false advertisement by any means for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics in interstate commerce.

(b) Whenever the Commission shall have reason to believe that any person has disseminated, or is disseminating, or has caused or is causing the dissemination of, any false advertisement by any of the means and for the purpose specified in subdivision (a) of this section, and it shall appear to the Commission that a proceeding by it in respect thereof would be to the interest of the public, it shall proceed to prevent the same in the same manner and by the same procedure as provided by section 5 of an act of Congress approved September 26, 1914, entitled "An act to create a Federal Trade Commission, to define its powers and duties, and for other purposes", as amended. The provisions of said section 5 and of sections 6, 9, and 10 of said act, as amended, shall apply, for purposes of enforcement of the provisions of this section, insofar as they may be applicable. The circuit court of appeals shall have the same jurisdiction to review the orders of the Commission and to enforce the same, and shall review and enforce the same, as provided by said section 5.

(c) The Secretary shall report to the Federal Trade Commission on all cases of false advertising, to which subsection (a) may apply, that may come to his knowledge and submit therewith any evidence he may have together with any reports and scientific opinions of his Department relative thereto.

CHAPTER VII. GENERAL ADMINISTRATIVE PROVISIONS

PROVISIONS AS TO REGULATIONS

SECTION 701. (a) The authority to promulgate regulations for the efficient enforcement of this act, except as otherwise provided in this section and except those provisions which are to be enforced by the Federal Trade Commission, is hereby vested in the Secretary.

(b) The Secretary of the Treasury and the Secretary of Agriculture shall jointly prescribe regulations for the efficient enforcement of the provisions of section 712, except as otherwise provided therein. Such regulations shall be promulgated in such manner and take effect at such time, after due notice, as the Secretary of Agriculture shall determine.

(c) Hearings authorized or required by this act, except those provisions which are to be enforced by the Federal Trade Commission, shall be conducted by the Secretary or such officer or employee as he may designate for the purpose.

(d) The definitions and standards of identity promulgated by or in accordance with the provisions of this act shall be effective for the purposes of the enforcement of this act, notwithstanding such definitions and standards as may be contained in other laws of the United States and regulations promulgated thereunder.

PROCEDURE IN CASE OF CERTAIN REGULATIONS

SEC. 702. Whenever the Secretary deems that there should be established any regulation contemplated by section 301, paragraph (a) or (c); section 302, paragraph (g), (h), or (j); section 304; section 305, paragraph (a) or (b); section 306, paragraph (a); section 401, paragraph (a) or (b); section 402, paragraph (e), (g), or (i); section 404; section 501, paragraph (e); or section 504, he shall give appropriate notice of the proposal and of the time and place for a public hearing to be held thereon not less than 30 days after the date of such notice. After such hearing the Secretary is authorized to formulate and promulgate such regulation as he shall find to be necessary to effectuate the purposes of such provision. The regulation so promulgated shall become effective on a date fixed by the Secretary, which date shall not be prior to 90 days after its promulgation, and may be amended or repealed in the same manner as is provided for its adoption; except that (1) regulations setting up exemptions pursuant to section 402, paragraph (g), may be promulgated without notice or hearing and shall become effective at such time as the Secretary determines; and (2) public hearing on regulations under section 306 (a) may be held within a reasonable time after notice thereof, and the Secretary may fix the effective date of such regulations at any reasonable time after promulgation thereof.

EXAMINATIONS AND INVESTIGATIONS

SEC. 703. (a) The Secretary is authorized to conduct examinations and investigations for the purposes of this act through officers and employees of the Department or through any health, food, or drug officer or employee of any State, Territory, or political subdivision thereof, duly commissioned by the Secretary as an officer of the Department. In the case of food packed in a Territory or possession of the United States the Secretary shall attempt to make inspection of such food at the first point of entry within the territorial limits of the United States when, in his opinion and with due regard to the enforcement of all the provisions of this act, the facilities at his disposal will permit of such inspection.

(b) Where a sample of a food, drug, or cosmetic is collected for analysis under this act, the Secretary shall, upon request, provide a part of such official sample for examination or analysis by any person named on the label of the article; except that the Secretary is authorized, by regulations, to make such reasonable exceptions from, and impose such terms and conditions relating to, the operation of this sentence as he deems necessary for the effectuation of the purposes of this act.

(c) For purposes of enforcement of this act, records kept by the Treasury Department in accordance with laws, and regulations thereunder, relating to alcoholic beverages and medicinal liquors shall be open to inspection by any official of the Department of Agriculture duly authorized by the Secretary of Agriculture to make such inspection.

RECORDS OF INTERSTATE SHIPMENT

SEC. 704. For the purpose of enforcing the provisions of this act, carriers engaged in interstate commerce, and persons receiving food, drugs, devices, or cosmetics in interstate commerce, shall, upon the request of an officer or employee duly designated by the Secretary, permit such officer or employee, at reasonable times, to have access to and to copy all records showing the movement in interstate commerce of any food, drug, device, or cosmetic, and the quantity, shipper, and consignee thereof; and it shall be unlawful for any such carrier or person to fail to permit such access to and copying of any such record so requested when such request is accompanied by a statement in writing specifying the nature or kind of food, drug, device, or cosmetic to which such request relates: *Provided*, That evidence obtained under this section shall not be used in a criminal prosecution of the person from whom obtained: *Provided further*, That carriers shall not be subject to the other provisions of this act by reason of their receipt, carriage, or delivery of food, drugs, devices, cosmetics, or advertising matter in the usual course of business as carriers.

FACTORY INSPECTION

SEC. 705. For purposes of enforcement of this act, officers or employees duly designated by the Secretary, after first making request and obtaining permission of the owner, operator, or custodian thereof, are authorized (1) to enter, at reasonable times, any factory, warehouse, or establishment in which food, drugs, devices, or cosmetics are manufactured, processed, packed, or held for shipment in interstate commerce or are held after such shipment, or to enter any vehicle being used to transport such food, drugs, devices, or cosmetics in interstate commerce; and (2) to inspect, at reasonable times, such factory, warehouse, establishment, or vehicle and all pertinent equipment, finished and unfinished materials, containers, and labeling therein. Any such owner, operator, or custodian who refuses such request shall be guilty of a misdemeanor and shall on conviction thereof, be subject to the penalties prescribed by section 706 (b) of this act.

PROHIBITED ACTS AND PENALTIES

SEC. 706. (a) The following acts and the causing thereof are hereby prohibited:

(1) The introduction or delivery for introduction into interstate commerce of any food, drug, device, or cosmetic that is adulterated or misbranded.

(2) The adulteration or misbranding of any food, drug, device, or cosmetic in interstate commerce.

(3) The receipt in interstate commerce of any food, drug, device, or cosmetic that is adulterated or misbranded, and the delivery or proffered delivery thereof in the original unbroken package for pay or otherwise.

(4) The dissemination of any false advertisement by United States mails, or in interstate commerce by radio-broadcast or otherwise, for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics.

(5) The dissemination of a false advertisement by any means for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics, in interstate commerce.

(6) The introduction into interstate commerce of any food in violation of section 306.

(7) The refusal to permit access to or copying of any record as required by section 704.

(8) Forging, counterfeiting, simulating, or falsely representing, or without proper authority using, any mark, stamp, tag, label,

or other identification device authorized or required by regulations promulgated under the provisions of section 306.

(9) The using of any person to his own advantage, or revealing, other than to the Secretary or officers or employees of the Department, or to the courts when relevant in any judicial proceeding under this act, any information acquired under authority of section 306 or 705 concerning any method or process which as a trade secret is entitled to protection.

(b) Any person who violates any of the provisions of subdivision (1), (2), (3), (6), or (7) of paragraph (a) of this section shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than 1 year, or a fine of not more than $1,000, or both such imprisonment and fine; and for a second or subsequent offense imprisonment for not more than 2 years, or a fine of not more than $5,000, or both such imprisonment and fine.

(c) Notwithstanding the provision of paragraph (b) of this section, in case of a willful violation of any of the provisions of subdivision (1), (2), (3), (6), or (7) of paragraph (a) of this section the penalty shall be imprisonment for not more than 3 years or a fine of not more than $10,000 or both such imprisonment and fine.

(d) No dealer shall be subject to the penalties of paragraph (b) of this section (1) for having received in interstate commerce any article of food, drug, device, or cosmetic and delivered it or proffered delivery of it as received, if such delivery or proffer was made in good faith, unless he refuses to furnish on request of an officer or employee duly designated by the Secretary the name and address of the person from whom he purchased or received such article and copies of all documents, if any there be, pertaining to the delivery of the article to him, or (2) if he establishes a guaranty or undertaking signed by the person residing in the United States from whom he received in good faith the article of food, drug, device, or cosmetic, as the case may be, to the effect that such article is not adulterated or misbranded, within the meaning of this act, designating this act. To afford protection, such guaranty or undertaking shall contain the name and address of the person furnishing such guaranty or undertaking, and such person shall be amenable to the prosecution and penalties which would attach in due course to the dealer under the provisions of this act.

(e) Any person who violates any of the provisions of subdivision (8) of paragraph (a) of this section shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than 1 year or a fine of not more than $5,000, or both such imprisonment and fine.

(f) Any person who violates any of the provisions of subdivision (9) of paragraph (a) of this section shall be guilty of a felony and shall on conviction thereof be subject to imprisonment for not more than 2 years or a fine of not more than $5,000 or both such imprisonment and fine.

LIABILITY OF CORPORATIONS AND THEIR OFFICERS

SEC. 707. (a) When construing and enforcing the provisions of this act, unless otherwise provided, the act, omission, or failure of any officer, employee, or agent acting for or employed by any person, within the scope of his employment or office, shall in every case be deemed to be the act, omission, or failure of such person, as well as that of the officer, employee, or agent.

(b) Whenever a corporation or association violates any of the provisions of this act, unless otherwise provided, such violation shall also be deemed to be a violation by the individual directors, officers, or agents of such corporation or association who personally ordered, or did any of the acts constituting, in whole or in part, such violation.

INSTITUTION OF CRIMINAL AND CIVIL PENALTY PROCEEDINGS

SEC. 708. Before reporting any violation of this act to any United States attorney for institution of criminal proceedings thereunder, the Secretary shall, in accordance with regulations prescribed by him, afford appropriate notice and opportunity for hearing to the person against whom the proceedings are contemplated (1) upon the question of such violation; and (2) to review his tentative decision to make such report, upon cause shown satisfactory to the Secretary. The report shall be accompanied by findings of the appropriate officers and employees, duly authenticated under their oaths. Nothing in this act shall be construed as requiring the Secretary to report for prosecution or for the institution of libel, or injunction proceedings, minor violations of this act whenever he believes that the purposes of the act can best be accomplished by a suitable written notice or warning.

SEIZURE

SEC. 709. (a) Any article of food, drug, device, or cosmetic that is adulterated or misbranded when introduced into or while in interstate commerce, or which may not, under the provisions of section 306, be introduced into interstate commerce, shall be liable to be proceeded against while in interstate commerce, or at any time thereafter, on libel of information and condemned in any district court of the United States within the jurisdiction of which the article is found: *Provided, however,* That no libel for condemnation shall be instituted under this act, for any alleged misbranding if there is pending in any court a libel for condemnation proceeding under this act based upon the same alleged misbranding, and not more than one such proceeding shall be instituted if no such proceeding is so pending, except that such limitations shall not apply (1) when such misbranding has been the basis of a prior judgment in favor of the United States, in a criminal, civil penalty, injunction, or libel for condemnation proceeding under this act, or (2) when the Secretary has probable cause to believe from facts found by him that such misbranding of the article renders it imminently dangerous to health or is, in a material respect, false, misleading, or fraudulent; and in any case where the number of libel for condemnation proceedings is limited as above provided the proceeding pending or instituted shall, on application of the claimant, seasonably made, be removed for trial to any district adjacent to the district of the claimant's principal place of business or to any other district which may be agreed upon by stipulation between the parties to the proceeding.

(b) The article shall be liable to seizure by process pursuant to the libel, and the procedure in cases under this section shall conform, as nearly as may be, to the procedure in admiralty; except that either party may demand trial by jury of any issue of fact joined in any such case. In cases of articles of food, drugs, devices, or cosmetics seized under the provisions of this section when the same issues of adulteration or misbranding under the provisions of this act, raised by the same claimant, are pending in various jurisdictions, the United States District Court for any district where one of such seizures is pending, or for any district adjacent to the district of the claimant's principal place of business, or for any other district which may be agreed upon by stipulation between the parties to the proceeding, is hereby vested with jurisdiction to consolidate and try such cases; and on application of the claimant, seasonably made, such cases may be tried in any such jurisdiction of the claimant's choice or in the district so stipulated.

(c) The court at any time after seizure up to a reasonable time before trial, shall by order allow any party to a condemnation proceeding, his attorney or agent, to obtain a representative sample of the article seized, and as regards fresh apples and fresh pears, a true copy of the analysis on which the proceeding is based.

(d) Any food, drug, device, or cosmetic condemned under this section shall, after entry of the decree, be disposed of by destruction or sale as the court may, in accordance with the provisions of this section, direct and the proceeds thereof, if sold, less the legal costs and charges, shall be paid into the Treasury of the United States; but such article shall not be sold under such decree contrary to the provisions of this act or the laws of the jurisdiction in which sold: *Provided,* That after entry of the decree and upon the payment of the costs of such proceedings and the execution of a good and sufficient bond conditioned that such article shall not be sold or disposed of contrary to the provisions of this act or the laws of any State or Territory in which sold, the court may by order direct that such article be delivered to the owner thereof to be destroyed or brought into compliance with the provisions of this act under the supervision of an officer or employee duly designated by the Secretary, and the expenses of such supervision shall be paid by the party obtaining release of the article under bond. Any article condemned by reason of its being an article which may not, under section 306, be introduced into interstate commerce, shall be disposed of by destruction.

(e) When a decree of condemnation is entered against the article, court costs and fees, and storage and other proper expenses, shall be awarded against the person, if any, intervening as claimant of the article.

INJUNCTION PROCEEDINGS

SEC. 710. (a) In order to avoid multiplicity of criminal prosecutions, or libel for condemnation proceedings, the district courts of the United States are hereby vested with jurisdiction for cause shown, to restrain by injunction, temporary or permanent, any person from the repetitious introduction or causing to be introduced into interstate commerce of any adulterated or misbranded food, drug, device, or cosmetic. In such injunction proceedings it shall not be necessary to show on the part of such person an intent to continue the offense.

(b) Violation of any injunction issued pursuant to this section may be summarily tried and punished by the court as a contempt. Such contempt proceedings may be instituted by order of the court or by the filing of an information by the United States attorney; and process of the court for the arrest of the violator may be served at any place in the United States or subject to its jurisdiction.

DUTIES OF UNITED STATES ATTORNEY

SEC. 711. It shall be the duty of each United States attorney to whom the Secretary, consistently with the provisions of sections 708 and 709, reports any violation for institution of criminal, libel of information for condemnation, or other proceedings under this act, to cause appropriate proceedings to be instituted in the proper courts of the United States without delay. All suits instituted under this act, except those relating to the functions of the Federal Trade Commission, shall be by and in the name of the United States. Notwithstanding the provisions of section 876 of the Revised Statutes, subpenas for witnesses who are required to attend a court of the United States, in any district, may run into any other district in any proceeding under this act.

IMPORTS AND EXPORTS

SEC. 712. (a) The Secretary of the Treasury shall deliver to the Secretary of Agriculture, upon his request, samples of food, drugs, devices, and cosmetics which are being imported or offered for import into the United States, giving notice thereof to the owner or consignee, who may appear before the Secretary of Agriculture and have the right to introduce testimony. If it appears from the examination of such samples or otherwise that (1) any false

advertisement of such article has been disseminated in the United States by the importer or exporter thereof, or any person in privity with him, within 3 months prior to the date such article is offered for import, or (2) such article has been manufactured, processed, or packed under insanitary conditions, or (3) such article is forbidden or restricted in sale in the country in which it was produced or from which it was exported, or (4) such article is adulterated or misbranded, then such article shall be refused admission.

(b) The Secretary of the Treasury shall refuse delivery to the consignee and shall cause the destruction of any such article refused admission, unless such article is exported by the consignee within 3 months from the date of notice of such refusal, under such regulations as the Secretary of the Treasury may prescribe: *Provided*, That the Secretary of the Treasury may deliver to the consignee any such article pending examination and decision in the matter on execution of a bond as liquidated damages for the amount of the full invoice value thereof together with the duty thereon, and on refusing for any cause to return such article or any part thereof to the custody of the Secretary of the Treasury when demanded for the purpose of excluding it from the country or for any other purpose, such consignee shall forfeit the full amount of the bond as liquidated damages.

(c) All charges for storage, cartage, and labor on any article which is refused admission or delivery shall be paid by the owner or consignee and in default of such payment shall constitute a lien against any future importations made by such owner or consignee.

(d) A food, drug, device, or cosmetic intended for export shall not be deemed to be adulterated or misbranded under this act if it (1) accords to the specifications of the foreign purchaser, (2) complies with the laws of the country to which it is intended for export, and (3) is labeled on the outside of the shipping package with the words "For Export". But if such article is sold or offered for sale in domestic commerce, this paragraph shall not exempt it from any of the provisions of this act.

PUBLICITY

SEC. 713. (a) The Secretary shall cause to be published from time to time reports summarizing all judgments, decrees, and court orders which have been rendered, including the nature of the charge and the disposition thereof.

(b) The Secretary may also cause to be disseminated information regarding food, drugs, devices, or cosmetics in situations involving, in the opinion of the Secretary, imminent danger to health or gross deception of the consumer. Nothing in this section shall be construed to prohibit the Secretary from collecting, reporting, and illustrating the results of the investigations of the Department.

SEPARABILITY CLAUSE

SEC. 714. If any provision of this act is declared unconstitutional, or the applicability thereof to any person or circumstances is held invalid, the constitutionality of the remainder of the act and the applicability thereof to other persons and circumstances shall not be affected thereby.

EFFECTIVE DATE AND REPEALS

SEC. 715. (a) This act shall take effect 12 months after the date of its enactment. The Federal Food and Drugs Act of June 30, 1906, as amended (U. S. C., 1934 ed., title 21, secs. 1–15), shall remain in force until such effective date, and, except as otherwise provided in this paragraph, is hereby repealed effective upon such date: *Provided*, That the provisions of sections 701 and 702 shall become effective on the enactment of this act, and thereafter, the Secretary is authorized hereby to (1) conduct hearings and to promulgate regulations which shall become effective on or after the effective date of this act as the Secretary shall direct, and (2) designate prior to the effective date of this act food having common or usual names and exempt such food from the requirements of subdivision (2) of paragraph (1) of section 302 for a reasonable time to permit the formulation, promulgation, and effective application of definitions and standards of identity therefor as provided by section 304: *Provided further*, That the act of March 4, 1923 (U. S. C., 1934 ed., title 21, sec. 6; 42 Stat. 1500, ch. 268), defining butter and providing a standard therefor, and the provisions of the act of July 24, 1919 (U. S. C., 1934 ed., title 21, sec. 10; 41 Stat. 271, ch. 26), defining wrapped meats as in package form, shall remain in force and effect and be applicable to the provisions of this act: *And provided further*, That amendment to the Food and Drugs Act, section 10A, approved August 27, 1935 (U. S. C., 1934 ed., Supp. I, title 21, sec. 14a), shall remain in force and effect and be applicable to the provisions of this act.

(b) The provisions of this act shall not be held to modify or repeal any of the existing laws of the United States except as provided by paragraph (a) of this section.

(c) Meats and meat food products shall be exempt from the provisions of this act to the extent of the application or the extension thereto of the Meat Inspection Act, approved March 4, 1907, as amended (U. S. C., 1934 ed., title 21, secs. 71–91; 34 Stat. 1260 et seq.).

The SPEAKER. Is a second demanded?

Mr. REECE. Mr. Speaker, I demand a second.

The SPEAKER. Is the gentleman opposed to the bill?

Mr. REECE. No; I am not opposed to the bill.

The SPEAKER. Does any Member opposed to the bill desire to demand a second? [After a pause.] The Chair hears none. The Chair recognizes the gentleman from Tennessee to demand a second.

Mr. RAYBURN. Mr. Speaker, I ask unanimous consent that a second be considered as ordered.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. CHAPMAN. Mr. Speaker, this is a measure that comes to the House with a unanimous report from the Committee on Interstate and Foreign Commerce. The Senate bill was passed in May 1935 and was referred to the House Committee on Interstate and Foreign Commerce. Rather extensive hearings were conducted by a subcommittee of which I was designated as chairman. Some 4 weeks ago this bill was reported to the House and placed upon the calendar. I asked for a rule for its consideration and keenly regret that it was not brought before the House under a rule which would have made possible appropriate and adequate debate and would have afforded the membership of the House opportunity to offer amendments. Coming before the House as it does under a motion to suspend the rules, with no opportunity to offer amendments and only 20 minutes' debate allowed to each side, it is manifestly impossible to discuss this important bill as such a complex and technical piece of legislation ought to be discussed.

I wish the membership of the House to know that the gentlemen with whom I had the privilege of being associated on the subcommittee, the gentleman from Maryland [Mr. COLE], the gentleman from New Jersey [Mr. KENNEY], and the gentleman from Tennessee [Mr. REECE], performed able, diligent, and invaluable public service in the consideration of the subject of foods, drugs, and cosmetics, both in the hearings and in executive sessions, and in actually preparing the bill which we reported as a substitute for the bill that passed the Senate more than a year ago. We heard witnesses representing all shades of opinion and from various sections of the country. I believe it is generally conceded by those who have followed the course of legislation upon this subject that the hearings conducted by our committee contain valuable information upon the various phases of food and drug legislation.

After careful consideration of the bill as reported by the subcommittee the full committee reported unanimously the bill now before the House. It strengthens materially in many important details the food and drug law written into the Federal statutes 30 years ago under the leadership of that great pioneer in food and drug legislation, the late Dr. Harvey W. Wiley. It is not a perfect measure and some of its provisions are not as I would prefer to have them, but it is the best bill that we were able, under all the circumstances, to bring to the House and I believe is a great improvements over any other food and drug bill that has ever been presented to the Congress.

FRAUD REQUIREMENT ELIMINATED

In the few minutes allotted to me I shall summarize some of the provisions which constitute outstanding improvements over the present law. This bill eliminates the fraud requirement in the present law. Under existing law the Government must prove that a patent medicine manufacturer knew that a statement on the label of his product was false, and as long as that requirement is retained in the law it will be impossible for the Government to proceed effectively against a multitude of preparations that ought to be removed from the market. If I had the time I could cite numerous instances of products that have taken their toll of human life because of the impossibility of the Government proving the elements of fraud as required by law. An outstanding example is a product called Banbar, which formerly sold for $12 per pint, but now is being retailed at the bargain price of $9 per pint as a cure for diabetes. This worthless concoction is a brew of horsetail weeds gathered around the railroad tracks in the vicinity of Pittsburgh. I have a sheaf of testimonials from people who used this product as a cure for diabetes, and for each testimonial I have a death certificate dated a few months later than the testimonial in which the cause of the death of the person signing the testimonial was named as diabetes. Yet with the fraud provision in the present law the Government has found it impossible to stop

the sale of Banbar in interstate commerce. Under the terms of this bill the manufacturer would be required to show that he had reliable scientific opinion to support his statements, and certainly every medicine manufacturer who offers to treat serious ills ought to be required by law to give that much consideration to the health and life of the people.

DRUGS DANGEROUS TO HEALTH

This bill contains prohibitions against drugs dangerous to health when taken in accordance with the directions prescribed upon the label by the manufacturer. There is no such provision in the present law. Innumerable instances are recorded in medical literature where people have been killed or their health seriously and permanently impaired by taking potent drugs in accordance with the specified directions. If this bill becomes a law the Government can prevent such tragedies.

PROTECT FROM DRUG HABIT

Few things are as horrible and as destructive of the mental, moral, and physical well-being of the human race as the drug habit. This bill requires that substances containing habit-forming drugs must bear warnings to that effect. The present law contains no such provision. The enactment of this bill into law will prevent many people from innocently acquiring the drug habit and becoming addicts to those things which undermine and destroy manhood and womanhood.

TO CONTROL DEVICES

For the first time it is proposed in a bill before Congress to control therapeutic devices in interstate commerce. There are hundreds of worthless contrivances being sold to and used by gullible people. Suffice it to say that a fake contraption for the cure of consumption is just as serious a menace to health as is a worthless drug sold for the same disease.

TOLERANCES FOR POISONS

This bill authorizes the establishment of legal tolerances for added poisons in foods. Such a provision will make definite the prohibitions against excess added poisons. Without legal tolerances the public health cannot be safeguarded.

REQUIRES REASONABLE CLEANLINESS

There is a requirement in this bill that reasonable cleanliness be observed in the manufacture and handling of foods, drugs, and cosmetics. The present law contains no effective provisions along these lines, and many serious abuses in the sale of insanitary and unclean products are constantly occurring, with consequent sickness and death in various sections of our country.

FOOD STANDARDS AUTHORIZED

The House committee has gone further than the Senate committee by including consideration of the economic aspects of the subject. We believe not only that the public health should be protected directly but that the pocketbook of the housekeepers of America is entitled also to consideration. Indirectly the health element enters into that phase of the subject also, because if the housewife pays $1 for 13 cents of food value, many illustrations of which I could show you if time permitted, such an economic cheat results in many instances in undernourishment of children and resultant impairment of strength and loss of health. The most important economic provision in this bill is the authorization of standards of identity and quality for foods. Without such a provision the integrity of our food cannot be maintained, nor can purchasers have any definite knowledge of the grade value of the articles offered on the grocers' shelves.

TO PREVENT REPETITIOUS OFFENSES

This bill would authorize the Government to enjoin manufacturers against repetitious offenses. This is an important provision, the purpose of which is to secure compliance that cannot be secured under the present law. It should relieve the Government from the necessity of instituting a multiplicity of proceedings to bring manufacturers into compliance with the law.

CONTROL OF COSMETICS

A new subject is for the first time embraced in Federal legislation. That is the subject of cosmetics. The cosmetic industry has grown to huge proportions since the original Wiley Act became a law in 1906. These products form an important part of interstate commerce, and your committee believes that they ought to be brought within the control of the law. Many harmful and dangerous cosmetics have been sold to the public and used by unsuspecting women so as to result in their permanent disfigurement and impairment of their health. One well-known product is Lash Lure. A few years ago a lady in Ohio was to be the recipient of high honor to be conferred upon her at a banquet. Her picture, which I have here, shows that she was a very attractive and personable young woman. In preparation for the banquet in her honor she permitted the use of Lash Lure on her eyelashes, with the result that her eyeballs were seared, her sight destroyed, her beauty marred, and her health permanently undermined. During the hearings on this bill a lady visited the downtown shopping district of the city of Washington and at several stores purchased this product and gave me the packages, which I have here in my possession. Under the present law such a dangerous article cannot be removed from the market or brought under control in any way. We earnestly hope that this bill will go far toward correcting such evils and affording protection in the future to those who use cosmetics, which includes millions of the finest ladies in America.

Mr. Speaker, it has been the purpose of this committee to draft a bill that would give protection to the men, women, and children of America, to give protection to the consuming public, the users of foods, drugs, and cosmetics, and at the same time give protection to the honest and legitimate manufacturers of those products from the products of the quacks and shysters in the industries affected. [Applause.]

Mr. Speaker, I ask unanimous consent to revise and extend my remarks.

The SPEAKER. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. SIROVICH. Mr. Speaker, will the gentleman yield?

Mr. CHAPMAN. I yield.

Mr. SIROVICH. My distinguished colleague from Kentucky paid a glowing tribute to the pioneer crusader of pure food and drugs, Dr. Harvey W. Wiley.

Originally this food and drug department was under the supervision of the Public Health Service of the United States. Does not my distinguished friend feel it would be much better if we had this Department under the Public Health Service of the United States and competent physicians, scientists, and others, instead of keeping it under the Agricultural Department?

Mr. CHAPMAN. Replying to the gentleman, may I say that my recollection is that when he testified before the subcommittee which conducted hearings on this bill he was not averse to having it placed where it is now, in the Department of Agriculture.

Mr. SIROVICH. I suggest the advisability it would be a good thing to keep it there.

Mr. BOYLAN. Will the gentleman yield?

Mr. CHAPMAN. I yield to the gentleman from New York.

Mr. BOYLAN. I notice on page 54, subdivision (m) the following language:

If it purports to be or is represented as any kind of whisky, and it contains alcohol derived from any source other than grain.

Mr. CHAPMAN. Yes; it shall be deemed to be misbranded.

Mr. BOYLAN. That is identical to the Murphy amendment that was defeated twice in the Senate?

Mr. CHAPMAN. Replying to the gentleman, I will say that the United States Pharmacopoeia and all authorities on whisky have long since ruled that nothing should be labeled "whisky" unless it is made of cereal grains.

Mr. BOYLAN. Further, the United States Pharmacopoeia accepts alcohol made from any material as long as it complies with their standard.

Mr. CHAPMAN. I may say to the able gentleman from New York that the United States Pharmacopoeia does not recognize alcohol as being a whisky and as eligible to be labeled as whisky unless it is made out of cereal grain.

Mr. BOYLAN. I differ with the gentleman. Furthermore, why does the gentleman not provide for domestic grain if he wants to help the farmer? He merely states "grain." That could be imported grain.

Mr. CHAPMAN. I am not as good an authority on whisky as is the gentleman from New York, but I will say that it is not whisky unless it is made from cereal grain.

Mr. BOYLAN. The gentleman from Kentucky ought to be a connoisseur on whisky, coming from that State.

Mr. CHAPMAN. I may not be a connoisseur, but I know where they make the best and the only really good whisky that is made. That is in Kentucky.

Mr. BOYLAN. There is alcohol in every whisky, but, of course, whisky itself is not pure alcohol. The gentleman knows from his experience in the mountains of Kentucky that alcohol is used in the manufacture of whisky, and when they make the celebrated "white mule", as it is called, in the mountains down there and label it "whisky", the alcohol is in there nevertheless. The alcohol is not an addition, except water and sugar.

Mr. CHAPMAN. I will say to the gentleman from New York that I do not know what his idea of whisky may be or what may be regarded as whisky by some residents of the great Empire State, but I do know that in Kentucky where they make real whisky and know what real whisky is, the moonshine or "white mule" to which he refers, is not regarded as whisky at all. Neither are alcoholic beverages made from blackstrap molasses, raisins, or pumice of grapes regarded as whisky. The distillery business in Kentucky is an important industry and the whisky produced by Kentucky distilleries is made solely of cereal grains. An alcoholic beverage derived from any other source except grain is not recognized as whisky by the United States Pharmacopoeia, which is recognized by law as the official compendium, and is not recognized as whisky by anyone who knows what whisky is, and I submit to the House that to label any other kind of distillate as whisky ought to be forbidden by law as false labelling.

Mr. BOYLAN. I am talking about the moonshiners, the best whisky makers in Kentucky.

Mr. CHAPMAN. The distilling industry has long been an important industry in Kentucky and the moonshiners referred to by the gentleman from New York are not recognized as a part of that industry, nor is their product recognized as genuine whisky. The limestone water from the blue-grass section, which it is my privilege to represent, and from some other sections of Kentucky, makes it possible to produce a quality of whisky in Kentucky that cannot be imitated anywhere else in the world, and we propose in this bill to protect the producers of the finest article from the unfair competition of those who make beverages from other sources than grain, and also to protect the millions of consumers from using the inferior product not made of grain.

Mr. DIRKSEN. Will the gentleman yield?

Mr. CHAPMAN. I yield to the gentleman from Illinois.

Mr. DIRKSEN. The gentleman's contention is that whisky, a distillate of grain, is not only established in the United States Pharmacopoeia, but also in the codes that were drawn up under the N. R. A., as well as in State laws and under the ruling of President Taft a number of years ago as to what constitutes whisky and subsequent rulings by the Attorney General?

Mr. CHAPMAN. The gentleman is correct. If any of these gentlemen want whisky that is not made from grain they are welcome to it, but down in Kentucky they know better than to buy any of that kind of whisky.

Mr. STEFAN. Will the gentleman yield?

Mr. CHAPMAN. I yield to the gentleman from Nebraska.

Mr. STEFAN. May I commend the gentleman and members of the committee. In section (m) we will save to the American corn grower the market for his corn.

Mr. CHAPMAN. Yes; the gentleman is correct. Under leave to revise and extend my remarks, I include excerpts from the report of the Committee on Interstate and Foreign Commerce on the bill under consideration.

The Committee on Interstate and Foreign Commerce, to whom was referred the act (S. 5) to prevent the adulteration, misbranding, and false advertising of food, drugs, devices, and cosmetics in interstate, foreign, and other commerce subject to the jurisdiction of the United States, for the purposes of safeguarding the public health, preventing deceit upon the purchasing public, and for other purposes, report favorably thereon with an amendment and recommend that the act do pass.

The committee amendment strikes out all of the Senate bill and inserts in lieu thereof a substitute which appears in the reported bill in italic type.

INTRODUCTORY STATEMENT

THE PRESIDENT'S MESSAGE

On March 22, 1935, the President sent the following message to the Congress:

To the Congress of the United States:

Every enterprise in the United States should be able to adhere to the simple principle of honesty without fear of penalty on that account. Honesty ought to be the best policy, not only for one individual, or one enterprise, but for every individual and every enterprise in the Nation. In one field of endeavor there is an obvious means to this end which has been too long neglected: The setting up and careful enforcement of standards of identity and quality for the foods we eat and the drugs we use, together with the strict exclusion from our markets of harmful or adulterated products.

The honor of the producers in a country ought to be the invariable ingredient of the products produced in it. The various qualities of goods require a kind of discrimination which is not at the command of consumers. They are likely to confuse outward appearance with inward integrity. In such a situation as has grown up through our rising level of living and our multiplication of goods, consumers are prevented from choosing intelligently and producers are handicapped in any attempt to maintain higher standards. Only the scientific and disinterested activity of government can protect this honor of our producers and provide the possibility of discriminating choice to our consumers.

These principles have long been those on which we have founded public policy. But we have fallen behind in their practical application. No comprehensive attempt at reform in the regulation of commerce in food and drugs has been made since 1906. I need not point out to you how much has happened since that time in the invention of new things and their general adoption, as well as in the increase of advertising appeals. Because of these changes loopholes have appeared in the old law which have made abuses easy.

It is time to make practical improvements. A measure is needed which will extend the controls formerly applicable only to labels to advertising also; which will extend protection to the trade in cosmetics; which will provide for a cooperative method of setting standards and for a system of inspection and enforcement to reassure consumers grown hesitant and doubtful; and which will provide for a necessary flexibility in administration as products and conditions change.

I understand this subject has been studied and discussed for the last 2 years and that full information is in the possession of the Congress.

No honest enterpriser need fear that because of the passage of such a measure he will be unfairly treated. He would be asked to do no more than he now holds himself out to do. It would merely make certain that those who are less scrupulous than I know most of our producers to be, cannot force their more honest competitors into dishonorable ways.

The great majority of those engaged in the trade in food and drugs do not need regulation. They observe the spirit as well as the letter of existing law. Present legislation ought to be directed primarily toward a small minority of evaders and chiselers. At the same time even-handed regulation will not only outlaw the bad practices of the few but will also protect the many from unscrupulous competition. It will, besides, provide a bulwark of consumer confidence throughout the business world.

It is my hope that such legislation may be enacted at this session of the Congress.

FRANKLIN D. ROOSEVELT.

THE WHITE HOUSE, *March 22, 1935.*

GENERAL PURPOSES

This act seeks to set up effective provisions against abuses of consumer welfare growing out of inadequacies in the Food and Drugs Act of June 30, 1906, as amended (U. S. C., title 21, secs. 1–15). That act is popularly known as the "Wiley pure-food law" because that great pioneer in pure food and drug legislation, Dr. Harvey W. Wiley, led the fight for its enactment.

While the old law has been of incalculable benefit to American consumers, it contains serious loopholes and is not sufficiently broad in its scope to meet the requirements of consumer protection under modern conditions. In considering the measure the committee had before it a host of exhibits and examples of abuses of the consumer's health and pocketbook, against which there is now no effective restriction or no restriction at all. Among these were the following:

Worthless drugs sold for serious diseases, with accompanying death certificates showing death of users from those same diseases and evidence that their health might have been restored or lives prolonged through rational treatment.

Instances of deaths from powerful drugs bearing truthful labels, but where the directions for use called for too large or too frequent dosage or other improper use.

Potent drugs with labels that gave no warning against their probable misuse, with evidence of severe sickness and death caused by them.

Deadly drugs intended for reducing purposes or otherwise to affect the structure or function of the body, which do not fall within the narrow definition of drug in the present law.

Dangerous and worthless therapeutic devices.

Cosmetics that have caused deaths, blindness, and other bodily injury.

Poisonous foods in which the poison was a natural one and not added.

Foods contaminated with dangerous disease organisms for which no adequate control exists.

Confectionery containing metallic trinkets, with X-rays showing the trinkets lodged in the windpipes of children.

Uninformatively labeled infant and invalid foods.

Debased and cheapened foods sold under distinctive names, protected by the distinctive-name proviso in the present law.

Deceptive advertising of food, drugs, therapeutic devices, and cosmetics, resulting in innumerable abuses of consumer welfare.

These and many other illustrations before the committee demonstrate conclusively the need for prompt enactment of a measure to tighten up the provisions of the present law and extend its scope beyond its present limitations.

The committee approached the problem in a practical way. It has undertaken to provide a measure which will be an effective control for existing abuses and at the same time will impose no limitation, embarrassment, or hardship on honest industrial enterprise. The measure asks no more of honest business than what honest business now holds itself out to do. It merely sets up checks against the small but unscrupulous minority who have not chosen to observe the underlying principles of the old Wiley law and have taken advantage of its limitations to mulct the public and embarrass honest competitors.

IMPROVEMENTS OVER EXISTING LAW

The measure contains substantially all the features of the old law that have proved valuable in promoting honesty and fair dealing. But it amplifies and strengthens the provisions designed to safeguard the public health and prevent deception; it extends the scope of the law to include false advertising, cosmetics, therapeutic devices, and certain drugs that now escape regulation; and it strengthens the procedural provisions to make more certain the accomplishment of its purpose.

The principal respects in which the measure differs from the present law are:

False advertising of food, drugs, devices, and cosmetics is brought under regulation.

The adulteration and misbranding of cosmetics is prohibited.

Therapeutic devices are brought under control.

Drugs intended for diagnosing illness or for remedying underweight or overweight, or for otherwise affecting bodily structure or function are subjected to regulation.

Reasonable sanitation is required in the production of foods, drugs, and cosmetics.

Foods that are dangerous because of naturally contained poisons rather than added poisons are brought under regulation. The addition of poison to foods is prohibited except where such addition is necessary or cannot be avoided; and in such cases tolerances are provided limiting the amount of added poison to the extent necessary to safeguard the public health.

Where the other provisions of the measure are not effective to control danger to health arising from bacterial contamination of food, temporary license restrictions can be imposed until the difficulty is corrected.

Definitions and standards of identity are provided under which the integrity of food products can be effectively maintained.

Informative labeling of foods as to quality and composition is required for the information and guidance of consumers. Special emphasis is placed on the informative labeling for infant and invalid food.

The distinctive name proviso of the present law under which many debased and cheapened foods have escaped control is eliminated.

Informative labeling of distilled liquors is required to the extent that the same requirements are not imposed under the Federal Alcohol Administration Act.

The fraud joker, under which proceedings could be brought against falsely labeled patent medicines only upon evidence to prove that the manufacturer knew his labels were false, is eliminated.

Control is set up for drugs which are dangerous to health when taken in the dosage and with the frequency prescribed by the manufacturer in the labeling and advertising.

Habit-forming drugs must be labeled with warnings that they are habit forming.

Potent drugs liable to be misused must bear label warnings against probable misuse.

Special safeguards are set up for packaging and labeling deteriorating drugs.

Antiseptics must possess germ-killing power.

Authority is provided for inspection of factories making interstate shipments, without which the law could not be effectively enforced.

Carriers are required to make available for copying, records showing interstate shipments of suspected articles so that Federal jurisdiction can be established.

Increased penalties are provided for violations.

Injunction proceedings are authorized against repetitious offenses.

These and other less important provisions are contained in the bill to make the measure effective for consumer protection without imposing unnecessary burdens on industry.

EXPLANATION OF CERTAIN CHANGES MADE BY THE COMMITTEE

The Senate committee report explained the provisions of the bill in detail, and it is not believed to be necessary to repeat this explanation here.

Most of the changes from the Senate bill made by this committee are self-explanatory, but the following explanation is given with regard to some of them in order to avoid possible misunderstanding as to the intention of the committee:

Section 201 (b): The words "and not for the regulation of the legalized practice of the healing art" were omitted from the definition of drug because the committee was of the opinion that these words were unnecessary and if left in the act would merely cause confusion. The bill does not undertake to regulate the practice of the healing art. The inclusion of the words would merely give an excuse, in every proceeding involving a drug, for the claimant or the defendant to raise the question as to whether the practice of the healing art was being regulated in the particular instance. In the reference to the United States Pharmacopœia, the Homeopathic Pharmacopœia, and the National Formulary, the committee has added the word "official" before each reference in order that this reference will be understood to be to the current edition of the particular compendium. Each such compendium comes out periodically and the new issue will be the official issue.

Section 201 (c): The same words are stricken from this subsection as are stricken from subsection (b) and the same reasons for the action apply.

Section 201 (d): This paragraph defines the term "cosmetic" and the changes made by this committee are not changes of substance but are changes for the purpose of clarity, with one exception, namely, that the exception in the case of household cleansers is omitted as being surplusage.

Section 301 (a): It will be noted that the references to sections 701 and 703 are stricken out in this paragraph as well as throughout the bill. These references were stricken out because it was not necessary to refer to the sections, and in view of the problem of changing section numbers due to the striking out of certain sections in the bill it was deemed more convenient to omit the references to section 701 and section 703.

Section 302 (e): In this paragraph the words "it fails to bear" were stricken out and the words "unless it bears" were substituted therefor in order to make it more clear that both of the requirements specified are intended to apply.

Section 302 (k): In this paragraph the words "which is not prohibited by section 301" were omitted as being surplusage, and furthermore their presence created confusion as to the meaning of the words "stating that fact" which appear later in the paragraph.

Section 305 (sec. 304 of the bill as it passed the Senate): In this section the prohibition against including poisonous or deleterious substances in food is changed to a declaration that the addition of any such substance to food shall be deemed to be unsafe for the purposes of section 301 (a). This is not an actual change in policy, but this action was taken in order to avoid the possible claim that Congress was attempting to prohibit something which was not within its control.

Section 306 (sec. 305 of the bill as it passed the Senate): This section relates to emergency permit control, an extraordinary power to be exercised when food coming from a particular area is contaminated with micro-organisms and it is necessary to have some supervision of the situation until it clears up. The modifications made by the commttee are entirely for the purpose of clarity and in order to more adequately safeguard the rights of persons who will be affected, by assuring them full protection of due process of law. The prohibition against a manufacturer, processor, or packer shipping from the particular area when the permit system is in effect has been changed to a prohibition against any person so shipping. This is not actually a change in substance, since the penalty provisions are this broad in their scope in the bill as it passed the Senate. It will be noted that in this section, as well as in several succeeding sections, the words "an unsuspended, valid" have been omitted. This relates to a requirement that the manufacturer, processor, or packer hold an unsuspended, valid permit. The words have been stricken out as being unnecessary. The committee is of the opinion that when the manufacturer, processor, or packer is required to have a permit issued by the Secretary that that necessarily means a permit which is valid and in effect, and laws passed by Congress are uniformly written upon this assumption.

Section 402 (a): Under this section as it passed the Senate a representation concerning the effect of a drug or device had to be supported by demonstrable scientific facts or substantial and reliable medical or scientific opinion. The word "demonstrable" has been omitted. The Senate committee report indicated that the word was unnecessary and this committee struck it out on the ground that it added nothing to the provision. This same statement is applicable to the striking out of the same word in section 601 (a). This provision in section 402 (a), as in the case of section 601 (a), gives recognition to the right to distribute a

drug or device in interstate commerce if the representation upon its labeling regarding its effect is supported by any sound evidence. In other words, it protects the manufacturer of the article in a case where there is an honest difference of opinion among competent authorities upon the question of the effect of the drug or device.

Section 402 (g): In this paragraph as it passed the Senate a drug or device is deemed to be misbranded unless its labeling bears such warnings in such form and manner as may be adequate. The committee changed this to require such warnings as are required by regulations prescribed by the Secretary; its reason for so doing being that it believed that the requirement of the Senate bill was so vague that it might be held to be invalid. Certainly the manufacturers of drugs and devices would have had grave difficulty in telling what warnings would have been "adequate" on the labeling of many products.

Section 402 (h): This paragraph as it passed the Senate relates to the requirements that certain drugs be packaged and labeled as prescribed in the official compendium in which they are named, unless exempted under (1) of the section. The committee struck out the words "unless exempted under (1) of this section" as being surplusage.

Section 403 (a): This provision states that for the purposes of the act the term "antiseptic" shall be deemed to have the same meaning as the word "germicide." The justification for this provision is that the term "antiseptic" has more than one meaning, one of which is the same as "germicide", and it is undesirable to permit the word to be used under circumstances where it will be understood to mean the same as "germicide" without the person making representations with respect to it being held to that meaning.

Section 404 (sec. 403 of the bill as it passed the Senate): In this section the committee made a transposition of the words "and purposes of coloring only" for the purpose of clarity and with no change in meaning.

Section 601 (a): By this subsection as it was passed by the Senate it is declared that an advertisement of a food, drug, device, or cosmetic shall be deemed to be false if it is "false or misleading in a particular relevant to the purposes of this act regarding such food, drug, device, or cosmetic." The committee struck out the words "relevant to the purposes of this act" because it felt that by the retention of these words confusion and uncertainty would be caused.

It is difficult to understand in what situations an advertisement would be deemed to be false or misleading in a particular "relevant to the purposes of this act." The act relates to the adulteration and misbranding of food, drugs, devices, and cosmetics, and contains numerous procedural and implementing provisions to make those provisions effective. It also contains other provisions of a miscellaneous character. Then there is chapter VI, relating to false advertisements, in which the words above referred to appear. Nowhere in the act is there a statement of its purposes. Nothing helpful appears in the title of the bill, even if this could be considered. There is nothing in chapter VI which gives any idea as to when an advertisement would be relevant to the purposes of the act. Thus, it will be seen that if these words are included, it would be necessary to show something which is so vague, as applied to an advertisement, as to be incapable of proof. In view of these considerations, the committee thought it necessary to eliminate these words. It is felt that the test as to whether an advertisement is false or misleading in any particular regarding a food, drug, device, or cosmetic is adequate, and it is substantially the same test to be found in the provisions relating to adulterated and misbranded food, drugs, devices, and cosmetics.

Section 601 (b): In this subsection the words "for the purposes of this act the" were struck out as being surplusage.

Section 602: This section, inserted by the committee, gives the Federal Trade Commission power to proceed, by the cease and desist order machinery provided in the Federal Trade Commission Act, against (1) the dissemination of false advertisement by the mails, or interstate commerce, for the purpose of inducing directly or indirectly the purchase of food, drugs, devices, or cosmetics; and (2) the dissemination of any false advertisement by any means for the purpose of inducing directly or indirectly the purchase of food, drugs, devices, or cosmetics in interstate commerce. Various conforming amendments have been made in the bill to carry out the purposes of this new section, notably a change in the penalty section (sec. 706), which is modified so that the criminal and civil penalties will not apply in the case of false advertisements.

Section 702: The committee had several reasons for the omission of this section of the Senate bill. This section would have given to the district courts jurisdiction to restrain by injunction the enforcement of regulations, or to grant appropriate injunctive relief from any act or omission of the Secretary or his officers or employees, upon a showing that the regulation or the act or omission was unreasonable, arbitrary, or capricious, or not in accordance with the facts or law, and that the petitioner might suffer substantial damage by reason of the enforcement of the regulation or by reason of the act or omission. The committee was not aware of any precedent for such a provision. Insofar as it gave the court jurisdiction to decide whether the regulation, act, or omission was not in accordance with the facts, it was felt that this would constitute the imposition of a nonjudicial function upon the court. (See *Federal Radio Commission* v. *General Electric Co.*, 281 U. S. 464.) Aside from this consideration the court would have been authorized to grant the relief if the petitioner could show that he "may suffer substantial damage." This seemed to the committee to be a radical departure from the ordinary principles of equity under which relief may be granted where there is no adequate remedy at law and the complaining person can show that he will suffer irreparable injury.

The committee felt that there was no reason to add to the existing remedies which are applicable in the case of administrative action under the many other acts passed by Congress. There is always an appropriate remedy in equity in cases where an administrative officer has exceeded his authority and there is no adequate remedy of law, and furthermore the committee is of the opinion that ample protection is given by the so-called Declaratory Judgments Act enacted on June 14, 1934, as section 2074D of the Judicial Code (U. S. C., 1934 ed., title 28, sec. 400). Insofar as the court would, under the Senate bill, have been empowered to give relief in case a regulation or an act of the Secretary was unreasonable, arbitrary, or capricious, or not in accordance with law, this is merely the ordinary principle which the court applies in cases where an administrative official has exceeded his authority, and a person affected by an administrative official's action may always, whether in a criminal proceeding, equity proceeding, or any other proceeding, raise these issues. The provision of the Judicial Code above referred to gives the courts jurisdiction in actual controversies to declare rights and other legal relations of any interested party, and such a declaration has the force and effect of a final judgment or decree and is reviewable as such. This provision of the Judicial Code would apply to all kinds of disputes arising between parties or arising under legislation, but as stated in the report of the Judiciary Committee when it reported out the measure, "This form of preventive relief is distinguishable from curative relief in that the latter is incapable of redress until an injury has occurred or the contract broken." The remedy furnished seems to be peculiarly adapted to cases where the interests and rights of parties are affected by the acts of administrative officials. Prof. Edwin Borchard, of the Yale University School of Law, a recognized authority on this subject, stated in an article appearing in the Law Week that it is in this field that the act will have its greatest usefulness. An example of its usefulness under the present act would be in the determination of the validity of the tolerances for added poisonous and deleterious substances fixed by regulations of the Secretary under section 305.

Section 703: This section was omitted because the committee felt that the establishment of the committees provided for was unnecessary.

Section 704: This section was omitted because the committee felt that it was unnecessary to specifically authorize the committees referred to, and furthermore that the authorization for the Secretary to accept plans for self-regulation would have given rise to confusion and uncertainty, particularly in view of the rather contradictory character of the proviso appearing at the end of the section.

Section 706 (sec. 704 of the bill as it passed the Senate): The proviso at the end of this section was transferred to section 703 (a) and somewhat modified, with no substantial change in policy.

Section 705 (sec. 707 of the bill as it passed the Senate): The introductory words of this section were modified with a view to making more certain of the validity of the section and in order to avoid the possibility that in acting under it the Secretary would have to show that he was acting for the purpose of safeguarding the public health and preventing deceit upon the purchasing public. It would seem that the more simple language substituted by the committee is preferable.

Section 709 (sec. 711 of the bill as it passed the Senate): This is the section containing the Bailey amendment, which appears as a proviso at the end of subsection (a). The committee inserted a substitute for the Bailey amendment, the first part of which it is believed makes no change in policy but will avoid the embarrassment which the Secretary of Agriculture would experience if he were to begin a libel for condemnation proceeding and for some reason it was found to be impossible to have the case decided on its merits. This might occur because the Bailey amendment as it passed the Senate provides that "not more than one seizure shall be instituted" in cases of alleged misbranding, etc. There are two substantive changes made by this committee. One is that multiple seizures would be permitted in cases where the Secretary has probable cause to believe that the misbranding is in a material respect false, misleading, or fraudulent. This will permit protection of the public against such nostrums as a brew of weeds labeled as a treatment for diabetes and against innumerable other cheats and frauds which at best rob the consumer's pocketbook, and at worst rob him of health or life through his mistaken reliance upon them while his disease progresses unchecked. With this change the seizure section will continue to function as a means of "arresting the bullet in flight before it claims its victim", although the administrative agency will have materially less latitude in making multiple seizures than it has had under the present law for the past 30 years. The other change is that the provision for removal for trial to the jurisdiction of the claimant's residence has been changed to permit removal to any district adjacent to the district of the claimant's principal place of business or to any other district which may be agreed upon by stipulation between the parties.

Section 709 (f) (sec. 711 of the bill as it passed the Senate): This subsection was struck out because it seemed to the committee to be either unnecessary or else susceptible of the possible

construction that it might give each district court authority to issue injunctions which would operate throughout the United States.

Mr. Speaker, I reserve the remainder of my time.

Mr. REECE. Mr. Speaker, the subcommittee of which the distinguished gentleman from Kentucky is chairman held extensive hearings upon this bill after it was referred to the Committee on Interstate and Foreign Commerce. This subcommittee gave it unusually careful attention. After the subcommittee reached a unanimous decision it made a report to the full Committee on Interstate and Foreign Commerce, which reported the bill to the House without a dissenting vote.

The committee undertook to harmonize all conflicting opinions insofar as possible without destroying the effectiveness of the legislation, recognizing that the old Pure Food and Drug Act required strengthening in order to protect the health of our citizens. I think this bill as it now stands will protect the public.

Mr. COX. Will the gentleman yield?

Mr. REECE. I yield to the gentleman from Georgia.

Mr. COX. Is this the old Tugwell bill revamped and about which Members of Congress have been bedeviled for more than a year by the lobbyists of medicine makers, and the bill to which the little independent druggists are so bitterly opposed?

Mr. REECE. This is not a first cousin of the old Tugwell bill. It deals with the same subject matter, and that is the only connection between the two bills.

Mr. COX. Does this have in it the same provision that the original Tugwell bill had giving the Secretary of Agriculture control over the advertising of these various products?

Mr. REECE. The jurisdiction over advertising is left with the Federal Trade Commission. That is the jurisdiction which the Federal Trade Commission has heretofore had.

In my experience in the House I do not think I ever dealt with a controversial piece of legislation where the final result is as harmonious as in this case.

Mr. JOHNSON of Texas. Mr. Speaker, will the gentleman yield?

Mr. REECE. I yield.

Mr. JOHNSON of Texas. What is the difference between the House bill we are now considering and the Senate bill?

Mr. REECE. The Senate bill was revised in several particulars, one major particular being the matter that the gentleman from Minnesota referred to, whereby jurisdiction over advertising is left with the Federal Trade Commission instead of being placed in the Department of Agriculture.

Mr. MARTIN of Colorado. Mr. Speaker, will the gentleman yield for a question?

Mr. REECE. I yield.

Mr. MARTIN of Colorado. I would like to have the gentleman conclude the remarks he was making when he stated that he had never handled a bill where the results were as harmonious as in this case. Will the gentleman please state to the House just what he means by that statement?

Mr. REECE. What I said was where the results met with such harmonious approbation of the members of the committee interested in the legislation.

Mr. CRAWFORD. Mr. Speaker, will the gentleman yield for a question?

Mr. REECE. I yield.

Mr. CRAWFORD. Does the Federal Trade Commission have any power which goes beyond the power to issue orders to cease and desist, or does its power stop with the issuance of such orders?

Mr. REECE. After a finding of facts it would first issue a cease-and-desist order, and then, if there should be a violation, further action can be taken in the courts.

Mr. CRAWFORD. At the instigation of the Federal Trade Commission?

Mr. REECE. Yes; through the courts.

Mr. ALLEN. Mr. Speaker, will the gentleman yield?

Mr. REECE. I yield.

Mr. ALLEN. Does not the gentleman think we would be better off if we would forget about all this reform legislation and do something for business, or at least let them alone for a while, in order to bring about some recovery legislation?

Mr. REECE. I think some such legislation as is proposed in the pending bill should be enacted in order to strengthen the present Food and Drugs Act.

Mr. ALLEN. As a matter of fact, it was thought that this matter was going over until the next session; but they bring it in here unexpectedly today, and no one knows anything about it except the few Members who were on the subcommittee, and I am sure the gentleman will admit that this has nothing to do with recovery and is nothing but a reform measure. A bill of 87 pages cannot be understood by many with less than 1 hour to consider it. I know this bill will pass, but I trust the House conferees will insist on eliminating Senate provisions requiring formula disclosure on labels.

Mr. REECE. This is not a reform measure.

Mr. ALLEN. Is it a recovery measure?

Mr. REECE. Neither is it a recovery measure; it is a public-health measure.

Mr. ALLEN. I reiterate that the Senate provisions relative to formula disclosures should be stricken from their bill, and I have confidence that the House conferees will insist that it be stricken; otherwise the bill will cause much hardship and will not be fair to reliable firms who are employing thousands of men and women.

Mr. REECE. I do not consider it a reform measure, but a public-health measure.

Mr. Speaker, I yield 5 minutes to the gentleman from Michigan [Mr. MAPES].

Mr. MAPES. Mr. Speaker, I was not a member of the subcommittee of the Committee on Interstate and Foreign Commerce that handled this legislation. It is only fair to say that that subcommittee deserves a great deal of credit for the consideration it gave this bill and for the work it did in perfecting it.

Of course, a bill of its magnitude is not entirely satisfactory to anyone. There are some amendments in the bill which different people would prefer not to have in it and others would like to see some amendments made to it as it was reported by the committee, but on the whole I think it can be said it is a very creditable piece of work and fairly satisfactory to those who have given careful consideration to it. I am in favor of the passage of the bill. It is late in the session to do much with it in conference, but it may be that it can be perfected some more in conference. I dislike to see a bill of this importance brought up under suspension of the rules at the close of the session, with no opportunity to offer amendments on the floor, but I do not know of any way to dispense with the last few days of any session of the Congress, and as long as we cannot dispense with them, it is a great deal better that we pass legislation which has been given the consideration that this bill has had rather than let the legislation go by the board entirely. I think it would be unfortunate if this session of the Congress should adjourn sine die without passing this bill because of the work that has been done upon it and because of the great improvement which the passage of it will make over existing law, and for one I am in favor of the motion of the gentleman from Kentucky to suspend the rules and pass the bill. [Applause.]

Mr. CHAPMAN. Mr. Speaker, I yield 1 minute to the gentleman from New Jersey [Mr. KENNEY].

Mr. KENNEY. Mr. Speaker, it is gratifying to have served with the able members of the subcommittee of the Committee on Interstate and Foreign Commerce in the consideration of this bill which will come to be known as the Federal Food, Drug, and Cosmetic Act. Our work commenced in August 1935, under the direction of the gentleman from Kentucky, who is chiefly responsible for the bill as it now comes before the House. I would recommend to the House the reading of the hearings and particularly the cross-examination by the chairman [Mr. CHAPMAN] of one witness who appeared, a man who represented patent-medicine concerns on the one side and church papers on the other, he having exclusive control over the advertisements that went into those papers, and being the sole agency of the patent-medi-

cine houses to deal with these papers. That cross-examination will bring out forcibly that which the membership of the House already knows, that the chairman of this subcommittee [Mr. CHAPMAN] is not only an able lawyer, one of the first quality, but that he is a thorough, searching, excellent legislator, who adduced facts that furnished a large part of the groundwork upon which the bill in its present form is based.

This bill is a good consumers' bill, and one that is fair to the trade. The subcommittee had before it the old Wiley act, 30 years old, which was amended only two or three times in minor particulars.

There was before the committee, of course, the Copeland bill, S. 5. But the Wiley act was very carefully considered in all its phases as were the bills on the subject matter introduced by the gentleman from New York [Dr. SIROVICH], the gentleman from New York [Mr. MEAD], and the gentlewoman from Indiana [Mrs. JENCKES].

Time does not serve to review the bill in any essential detail. It is hoped by the committee that it will accomplish its purposes which are to protect the pocketbook and, what is more, the health of the public.

Every effort was made by the subcommittee to bring in a bill which would be fair to the trade in all matters which did not conflict with the interest of the purchasing public.

The Food and Drug Administration of the Department of Agriculture has done and is still doing much to protect the purchasing public from false, fraudulent, and exaggerated claims for foods and drugs. Prohibited by the administration from false labeling under the Wiley Act, manufacturers of foods and drugs have carried the selfsame false, fraudulent, and exaggerated claims to the public through advertisements in newspapers and magazines thereby avoiding control of the law under the Wiley Act. This bill will bring advertising under control of the law for the protection of purchasers of foods and drugs. It will also give supervision to the Government over devices and cosmetics in interstate commerce where there has been no supervision or control whatever, although it is conceded that there is absolute need for governmental regulation.

It would be wise for the Members of this House and all visitors to the National Capital to call at the Food and Drug Administration and there view the exhibits which have given rise to the appellation of the quarters containing their "Chamber of Horrors."

The study and considerations of this bill to preview the adulteration, misbranding, and false advertising of foods, drugs, devices, and cosmetics in interstate commerce have led me into a field of revelation. The public generally would readily appreciate the underlying purpose of this bill if they could but see and hear what I have seen and heard.

The SPEAKER. The time of the gentleman from New Jersey has expired.

(By unanimous consent Mr. KENNEY was granted leave to extend his remarks in the RECORD.)

Mr. KENNEY. The bill, designed to safeguard effectively the public health and to prevent deceit upon the purchasing public I sincerely trust will do so.

Among other things it will do:

(a) Prohibit false advertising of food, drugs, therapeutic devices, and cosmetics.

(b) Require cosmetics—other than soap—which was finally excluded from the act except when curative properties are claimed—to be truthfully sold and outlaws those injurious to health.

(c) Prohibit traffic in food which may render it dangerous to health. (The present law permits regulation of dangerous food only in the event that the poison is added.)

(d) Prohibit addition of poison to food except where such addition is required or cannot be avoided in production; authorizes limitation to point of safety of added poisons that are required or cannot be avoided.

(c) Authorize emergency license control of food that may be imminently dangerous because of contamination with micro-organisms, but a license can only be required when public health cannot be protected otherwise.

(d) Forbid traffic in confectionery containing metallic trinkets and other inedible substances which have been found to be a menace to the health of children.

(e) Require label declaration of artificial colors and artificial flavors in all food.

(f) Require fully informative labeling of infant and invalid food.

(g) Provide for the promulgation of standards of identity and a reasonable standard of quality for food. (A standard of quality is authorized by the present law for canned food only.)

(h) Require the labeling of unstandardized food to disclose the ingredients by name, except colorings and flavorings, which may be declared simply as coloring and flavoring.

(i) Prohibit traffic in drugs and devices which are dangerous to health under the conditions of use prescribed in the labeling or advertising.

(j) Require habit-forming drugs to bear warning labels.

(k) Require adequate directions for use of drugs and devices and appropriate warnings against their probable misuse through overdosage or by children or in disease conditions where they may be dangerous.

(l) Require that claims of effect of drugs and devices be supported by reliable medical or scientific opinion. (The present law makes fraud—that is, willful intent to deceive—an element of the offense; unwarranted therapeutic claims resulting from sheer ignorance of the manufacturer are not actionable.)

(m) Make the Homeopathic Pharmacopoeia of the United States the legal standard for homeopathic drugs.

(n) Require that official drugs recognized by the United States Pharmacopoeia, the National Formulary, and the Homeopathic Pharmacopoeia be packaged and labeled as required by these books.

(o) Require that antiseptics possess germicidal power.

(p) Proscribe the use of poisonous containers for food, drugs, and cosmetics.

(q) Require that food, drugs, and cosmetics be prepared and handled under conditions of reasonable cleanliness.

(r) Forbid the use of uncertified and impure coal-tar colors in food, drugs, and cosmetics.

(s) Proscribe slack filling and the use of deceptive containers for food and drugs.

(t) Provide for factory inspection and the procurement of records needed to prove Federal jurisdiction.

(u) Provide increased penalties for violations.

(v) Authorize the Federal courts to enjoin repetitious violations.

(w) Authorize seizure of only one interstate shipment in a case of misbranding unless the article is so misbranded as to render it imminently dangerous to health, or unless the misbranding has been the subject of a prior court judgment in favor of the Government. (The present law makes no such restriction on seizure; through seizure of multiple shipments in the channels of interstate distribution the public has been protected against the consequences of misbrandings involving not only imminent danger to health but lesser degrees of injury and also definite cheats.)

(x) Provide for trial of seizure cases in district adjoining manufacturer's home jurisdiction or, at the option of the claimant, the jurisdiction where the goods are seized. (Under the present law the courts and juries in the consuming rather than the manufacturing jurisdiction determine the issues in seizure cases.)

Mr. REECE. Mr. Speaker, I yield 1 minute to the gentleman from Ohio [Mr. COOPER].

Mr. COOPER of Ohio. Mr. Speaker, while I was not a member of the subcommittee that had this bill under consideration, I am a member of the full committee, and after the subcommittee reported it to the full committee we gave it very careful consideration. For years there has been a crying need for a strengthening of our Pure Food and Drugs

Act. This bill was given careful consideration. The committee was unanimous in reporting it. I believe it is a good measure, and while I regret there is not more time to consider an important bill like this, with only 40 minutes for discussion, nevertheless I believe Congress ought to consider it favorably. The Federation of Women's Clubs, legitimate merchants, and those who are endeavoring to sell pure food and drugs are actively behind this bill, and I hope that it will pass.

Mr. BIERMANN. Mr. Speaker, will the gentleman yield?

Mr. COOPER of Ohio. Yes.

Mr. BIERMANN. On page 74 of the bill there is a list of prohibited acts and penalties. Subsection 5 provides:

> The dissemination of a false advertisement by any means for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics in interstate commerce.

What kind of an obligation does that impose on a country newspaper, for example?

Mr. COOPER of Ohio. I have never heard that question raised. The gentleman from Tennessee [Mr. REECE], a member of the subcommittee, probably can reply to that.

The SPEAKER. The time of the gentleman from Ohio has expired.

Mr. BIERMANN. If a country newspaper is going to be held responsible for the act of every advertiser, it is a very severe law.

Mr. CHAPMAN. Mr. Speaker, I yield now to the gentleman from New York [Mr. MEAD].

Mr. MEAD. Mr. Speaker, first I pay my respects to the subcommittee and compliment it on the splendid work it has accomplished and the very earnest care it has given this most complex subject. We are indebted to the members of this subcommittee for the splendid work they have done. In 1905 a start was made in the protection of the public by the passage of the bill sponsored by Dr. Wiley, which covered food and drugs. We are now, by the passage of this measure, taking control of advertising and exercising jurisdiction over the cosmetic industry. We give to the Federal Trade Commission authority to regulate advertising, for the reason that they have the machinery, and for the added reason that conferring this jurisdiction on the Department of Agriculture the Food and Drug Commission would make that agency the jury, the judge, the policeman, and the district attorney. This measure will protect the consumer to a larger degree than ever before. It is a step in the right direction, and it covers the entire field. It protects those who were neglected in the past by reason of the lack of control over the manufacture of cosmetics. It protects the public from fraudulent advertising. It is a good bill, but by no means a perfect bill, though a step in the right direction, and I hope it receives the approval of the House.

Mr. CHAPMAN. Mr. Speaker, I yield now to the gentleman from Maryland [Mr. COLE].

Mr. COLE of Maryland. Mr. Speaker, as a member of the subcommittee on this bill I am glad to find, even at this late hour, the House leadership permitting its consideration. It is obviously impossible to discuss the bill in the fashion that I should like, due to the limited time for debate. At a later date I hope to extend my remarks more fully. The commerce committee of the American Bar Association, composed of five distinguished lawyers, studied this bill for 5 days. One of those lawyers is the present Assistant Attorney General of the United States, the Honorable John Dickinson. I ask unanimous consent to include the report of that committee in an extension of my remarks.

The SPEAKER. Is there objection?

There was no objection.

The report is as follows:

To the EXECUTIVE COMMITTEE:

The Commerce Committee has completed holding public hearings in New York on April 29, 30, and May 1, 1936.

There are now pending before Congress revisions to the Federal Food and Drugs Act and to section 2 of the Clayton Antitrust Act.

Our information is that each of these bills is likely to pass at this session of Congress. Any recommendations, therefore, that the committee has to offer must be made promptly before the annual meeting of the association in August.

Therefore our committee has made a preliminary report respecting the revision of the Federal Food and Drugs Act and to section 2 of the Clayton Antitrust Act.

"REVISION OF THE FEDERAL FOOD AND DRUGS ACT

"The Committee on Commerce has considered S. 5, to revise this act in the form it passed the Senate and is now before the House.

"The committee reiterates its approval of the public purposes and general principles of this bill; and it expresses the hope that this bill may be enacted, in due form, at the present session of Congress. For undoubtedly the public interest is promoted by an early and proper revision of this act to cure its defects, to bring it abreast modern needs, and to make it a stronger and adequate instrument of consumer protection.

"The committee again declares its opinion that this bill should not be amended to transfer the enforcement of its provisions against false advertisement from the Department of Agriculture to the Federal Trade Commission. It is too clear for argument that the administration of this vastly important new law should not be divided between two different Government agencies, whereby one agency enforces it against adulteration and misbranding and the other enforces it against false advertisement, with respect to the same products. And the agency of the Federal Government which is best equipped, experienced, and positioned to administer this revised act is the Department of Agriculture, which has always administered the Federal food and drug law. In making this statement the committee has in mind the application of section 5 of the Federal Trade Commission Act against false advertisement which constitutes an unfair method of competition; and it recommends no limitation of the application of this section accordingly."

The committee further declares the following additional opinion:

First. This bill should be amended to provide for a division of the official product sample taken for analysis, to enable a check analysis by the manufacturer of such product at its own expense. This as a matter of plain justice, in order to prevent the administration of the revised act, upon the basis of one-sided evidence and to preclude its misadministration upon the basis of an erroneous Government analysis.

Second. This bill should be amended to exempt proprietary food from the requirement that each food shall be labeled to declare all its ingredients, provided the manufacturer of such proprietary food fully and correctly discloses its ingredients to the Secretary of Agriculture. To require proprietary food so to declare its composition will be to permit, encourage, and validate its unfair and injurious competitive misappropriation and to sanction an effective labeling device for the deceptive palming off of an inferior food for a superior one. The present act has always expressly safeguarded the composition of proprietary food; the revised act will outlaw any injurious adulteration and any false or deceptive representation with respect to proprietary food; and the aforesaid filing requirement will give the Secretary of Agriculture all the information he may require to enforce the act against adulterated, misbranded or falsely advertised proprietary food. This amendment will require an additional amendment against the official misuse of the information so filed.

Third. This bill should be amended to provide for an impartial administrative board of review independent of the Department of Agriculture, created and empowered as follows:

"A board created and acting under rules prescribed by the President and empowered, upon cause shown, to review any decision by the Secretary of Agriculture to institute a criminal prosecution or a civil penalty proceeding with respect to an 'opinion representation.' The bill now empowers the Secretary to review his own decisions. But the point of this amendment is to secure an impartial review of that decision. This amendment arises out of the fact that the revised act regulates advertising which largely consists of opinion representations, which, in turn, are bound to present an honest difference of construction under the act. It is designed to prevent the misadministration of the act with respect to such representations, and it is duly safeguarded. This board will be an especially valuable remedy to smaller manufacturers who cannot afford the expense of defending court proceedings under the act. And there is ample precedent for it in the plan of this bill for advisory committees which are empowered to approve the basic regulations under the act before the Secretary can promulgate them."

Action on the above reports if delayed until the annual meeting of the association in August will be academic if, as contemplated, the bills above referred to are passed at this session of Congress.

The committee requests that it be authorized in the name of the association to make the views hereinabove expressed known to the appropriate committees of Congress.

Mr. Dickinson, a member of the committee, has stated that, because of his position in the Department of Justice, he expresses no opinion on the bill dealing with the amendments to the antitrust laws.

Mr. Roy F. Shields, of Portland, Oreg., was not present at the meeting of our committee in New York or the meeting of the committee this week in Washington.

Respectfully submitted.

HAROLD J. GALLAGHER, *Chairman*.
RUSH C. BUTLER.
JOHN DICKINSON.
CHARLES R. FOWLER.

Authority granted May 7, 1936.

Mr. COLE of Maryland. Mr. Speaker, this is a most important bill. Highly technical and not entirely as I would like to see it. In the many nights and days our committee spent in considering it, there was a spirit of compromise looking to a bill, not perfect, but strengthening existing law and bringing under the Food and Drug Administration cosmetics and devices and regulating the advertising of all. It is my prediction that when the bill comes from conference and is finally passed it will be generally accepted as a wonderful contribution to the needs of the day we have attempted to solve. I hope some recent critics of the bill who have gone to the extreme of attacking those of us on the committee who have been demanding protection to the consuming public will be men enough to admit it.

Mr. REECE. Mr. Speaker, I now yield to the gentleman from Wisconsin [Mr. O'MALLEY].

Mr. O'MALLEY. Mr. Speaker, I rise at this time to protest the attempt to pass a bill of this involved nature under this kind of procedure. Here is a bill of 87 pages, with a report of some 18 pages. It would be obviously impossible for any Member of this House to read even a portion of the 87 pages in the bill and the 18-page report in the 40 minutes allowed for debate and passage. This bill will affect practically every business in the United States. It will affect the newspaper business, the advertising business, and practically every manufacturer of drugs and cosmetics, the canner of foods, the farmer and fruit grower, and the producer of every conceivable product in the field of human consumption.

It is impossible to ask any questions about this bill. It is impossible to find out whether it is the old Tugwell bill, dehydrated or with a major operation performed on it. It is impossible to find out whether or not the bill has good mixed with bad, or, in short, to find out anything about it, because we do not even have time to ask questions.

This is a bill that will affect many businesses. I have heard gentlemen on the Republican side say we should not pass legislation at this time that might be used to harass business. This is a bill that could be used, under some of the wide powers delegated two departments, to harass small country newspapers, the businessman in every field, if the powers in the bill were abused. There is a section in this bill that makes it impossible for the publisher of even a small newspaper to know whether or not he is liable if he takes an ad from some concern by mail from a long distance away. He would have to conduct all kinds of extensive correspondence trying to find out whether he could or could not accept any food, drug, or cosmetic advertising. This bill should not be passed under this procedure. It has been here in one form or another for 4 years, and we should spend some time on it before acting on it, because it deserves intelligent, orderly attention. I have always favored stringent food and drug laws to protect our people from unscrupulous manufacturers, advertisers, and nostrum peddlers. But to pass a bill of this kind, with so many far-reaching powers, under suspension of the rules, which allows for no amendments or adequate discussion, may cause us to do more harm to the good manufacturers and ethical advertisers than we may realize. More than 6 months have passed since this bill was brought up. To rush it through in 40 minutes without crossing a "t" or dotting an "i" is a sad commentary on parliamentary government.

[Here the gavel fell.]

Mr. CHAPMAN. Mr. Speaker, I yield one-half minute to the gentleman from New York [Mr. PEYSER].

Mr. PEYSER. Mr. Speaker, I want to refer briefly to the new section in the bill we are discussing, applying to cosmetics, which was not in any previous drug act. For the benefit of the Members present who may have had some of their constituents approach them regarding this section of the bill that I have been advised by the Association of Cosmetic Dealers and Manufacturers in the United States, as well as others that are interested, that this bill, as drawn, is entirely to their satisfaction and that every objection has been met, and I sincerely hope the bill will be passed.

[Here the gavel fell.]

Mr. CHAPMAN. Mr. Speaker, I yield 1 minute to the gentleman from Colorado [Mr. MARTIN].

Mr. MARTIN of Colorado. Mr. Speaker, while I am a member of the Committee on Interstate and Foreign Commerce, which reported out this bill, I do not know much about it, except in a general way, but I am in a position, I think, to give a reassuring word to the other Members of this House who are in the same situation; and that is that this bill was gone over section by section and paragraph by paragraph in the full committee for several days, and the debate that was carried on between the eight able members of the subcommittee which brought out this bill was one of the best I have listened to in the full committee. I can assure you that the subcommittee which handled this bill know what is in it. They displayed thorough knowledge of it, and I felt justified as a result of what I heard in the discussion carried on by the subcommittee in giving my support to this very important piece of legislation.

The SPEAKER. The time of the gentleman from Colorado has expired.

Mr. REECE. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. WADSWORTH].

Mr. WADSWORTH. Mr. Speaker, reference has been made to two or three elements in this legislation. One question has been raised upon the floor apropos of the so-called Tugwell bill. I think I am not far wrong in saying that the bill reported by the Committee on Interstate and Foreign Commerce bears no resemblance to the original Tugwell bill. It cannot be recognized. As a matter of fact, the subcommittee, after weeks and weeks of work, revamped the legislation completely and wrote a new bill, which is not 87 pages long. It is less than half that length. I feel sure that the objectionable elements contained in the Tugwell bill do not appear in this one.

Mr. MARTIN of Colorado. About all they left was the title of the old bill?

Mr. WADSWORTH. That is about all. The subcommittee examined into the problem of the country newspapers and the full committee discussed it at length. The false-advertising section is found on page 66. I think if the Members will read section 601, commencing in line 21 on page 66, they will find that that language will not impose upon the country newspapers or any other newspapers any undue burden. It is true it does place them upon notice. They are already on notice. They must be careful in accepting advertisements which are sent to them, but they are careful. They have machinery of their own to inform them as to false advertisements, and if they will just be careful they will not suffer. We have left the administration of the false-advertising section to the Federal Trade Commission, which already has built up a series of opinions sustained by the courts in relation to false advertisements in connection with unfair business practices. The staff of the Federal Trade Commission can be trusted to administer that section in fairness.

[Here the gavel fell.]

Mr. REECE. Mr. Speaker, I yield the balance of my time, 1 minute, to the gentleman from Virginia [Mr. ROBERTSON].

Mr. ROBERTSON. Mr. Speaker, it is unfortunate that this bill comes to us with no opportunity for amendment. I feel sure that if the bill should be passed by the House and it goes to conference, the matter in which those who use sprays for fruits and vegetables will be taken care of. The House bill eliminates section 702 of the Senate bill. Section 702 gave the producer of fruits and vegetables using a spray a day in court on the reasonableness of a department regulation. This bill does not.

I have read with care page 8 of the committee report accompanying S. 5, dealing with the reasons for the elimination of section 702. I respectfully submit that the general provisions of law referred to on page 8 do not give a complainant his day in court on the facts to which I think every citizen is entitled where a criminal penalty is involved.

It is to be borne in mind that the present proposed bill is a radical departure from existing law with reference to tolerances and regulations. The Secretary now has no power to fix tolerances, the violation of which involve seizure, condemnation, and destruction of property and criminal penalties for the violation of tolerances promulgated by the Secretary. Under the present law the Secretary can merely give notice that if a commodity shows in excess of whatever figure the Secretary announces that the goods will be subject to seizure and the owners to prosecution. Therefore, under the present law whenever the Secretary makes a seizure or commences a prosecution he must in every case prove affirmatively that what he alleges to have found in or on a commodity is or may be injurious to health. The defendant then has the right to bring in witnesses to prove to the contrary. The defendant, therefore, has his day in court on the facts.

The underlying principle of the proposed bill is contrary to the present law, in that the Secretary is authorized to fix and promulgate tolerances by regulation. Having once promulgated them, all that he has to do in the case of a seizure or in a case of prosecution for the penalties is to prove the promulgation of the tolerances and that the goods contain more than the tolerance so fixed.

With section 702 omitted the defendant would have no opportunity to contest the soundness of the regulation promulgating the tolerance on the facts, providing there was substantial evidence to support the Secretary's tolerance at the time of its promulgation. The Supreme Court, in the case of *I. C. C.* v. *Union Pacific Railroad Co.* (222 U. S. 541), held, with respect to a review of the reasonableness of departmental regulations under general statutes, that the court can review the law under which the administrative agency acted but cannot review the facts if it appears that there are any substantial facts to sustain the regulations. In other words, with respect to the facts, the petitioner comes before the court as on a demurrer to the evidence. In that case Justice Lamar said:

> The courts will not examine the facts further than to determine whether there was substantial evidence to sustain the order.

The danger to which fruit growers would be subjected under the above situation and under the proposed law, with section 702 eliminated, was well illustrated in the spring of 1933 when, against the unanimous protest of all of the apple producers of the United States, Dr. Tugwell issued an announcement that he would seize and prosecute if he found fruit containing more than 0.014 grain of lead per pound. The growers knew they could not reach that low level and were forced to turn to other types of spray material much less efficient, or, to greatly reduce their spray program. But, even so, they still had their day in court on the facts because, as I have stated, the Secretary would have been required to prove affirmatively in each case that anything in excess of 0.014 was or might be injurious to health.

About 3 months later, or, on June 20, 1933, Secretary Wallace, in effect, raised the so-called tolerance to 0.02 grain by issuing an announcement that seizures and prosecutions would take place if the commodity showed in excess of that amount. It should be apparent to you that if the announcement by Secretary Wallace on June 20 was in accordance with the facts, then the announcement by Assistant Secretary Tugwell on April 2, 1933, was not in accordance with the facts. This whole vital principle affects several hundred thousand commercial growers and countless other thousands of growers of vegetables and similar fruits.

It is not sufficient that a review be had only on the ground that a regulation is unreasonable, arbitrary, or capricious. As pointed out in the case of I. C. C. against Union Pacific Railroad Co., cited above, if there is any substantial evidence to support the regulation of the Secretary, it could not be held either unreasonable, arbitrary, or capricious. At the same time, however, it might actually be contrary to the great weight of scientific information, and the facts or scientific information might well have changed, which it frequently does.

I do not agree with your legal adviser that Congress could not confer upon a constitutional court the right to consider the facts involved in a regulation carrying a criminal penalty. Under the Perishable Agricultural Commodities Act (48 Stat. 584) the Secretary of Agriculture (sec. 7 (a)) is empowered to determine damages sustained by virtue of violation of certain provisions of the act and to issue reparation orders, and the findings and orders of the court are made prima-facie evidence of the facts therein stated. However, any party aggrieved by such order can appeal direct to the district court and, quoting from the act (sec. 7 (c)):

> Such suits shall be a trial de novo and shall proceed in all respects like other civil suits for damages, except that the findings of fact or orders of the Secretary shall be prima-facie evidence of the facts therein stated.

It will be observed that under the above the defendant or aggrieved party has his full day in court on the facts under any order or findings issued by the Secretary.

I further feel that section 702 is distinguishable from the case cited in the report, Federal Radio Commission against General Electric Co. In that case the Radio Commission was authorized to pass on the question of certificates of convenience and public necessity, and its decision was to be final. In the first place, the Federal Radio Commission is supposed to be a board of experts, the same as the Interstate Commerce Commission and the Federal Trade Commission, and not a single administrative officer. In the next place, the case in question did not involve a criminal penalty.

The Federal Food and Drugs Act is a criminal statute, and I, therefore, feel that citizens must have their proper day in court on the facts as well as the law.

I think section 702 as passed by the Senate should be incorporated in the House bill, or language used similar to that in the Perishable Agricultural Commodities Act, whereby a defendant can appeal to the district court, and that on such appeal the suit shall proceed as a trial de novo, subject, if you deem best, that the findings of fact and the order or orders of the Secretary be prima-facie evidence of the facts therein stated.

The SPEAKER. The time of the gentleman from Virginia has expired.

Mr. CHAPMAN. Mr. Speaker, I yield the remainder of my time to the gentleman from Texas [Mr. RAYBURN].

Mr. RAYBURN. Mr. Speaker, I think everything that has been said about the work of this subcommittee is justified. I want to say this in respect to some remarks made here about what this bill does:

This bill, in my opinion, is a very great improvement on the present law. It is not anything like the original Tugwell or Copeland bills which were introduced in the House. The pending bill does this in the main, it protects a public that trusts advertisements in newspapers and advertisements and labels on bottles and packages from being imposed upon in the future as they have been so very much imposed upon in the past. In my opinion it is a forward step in protecting the stomachs and the lives of the people of this country.

[Here the gavel fell.]

The SPEAKER. The question is on the motion of the gentleman from Kentucky to suspend the rules and pass the bill.

The question was taken; and on a division (demanded by Mr. O'MALLEY) there were—ayes 151, noes 27.

So (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate, by Mr. Horne, its enrolling clerk, announced that the Senate had passed without amendment a joint resolution of the House of the following title:

H. J. Res. 639. Joint resolution to provide certain administrative expenses for the Division of Territories and Island

Possessions, Department of the Interior, and for other purposes.

The message also announced that the Senate had passed bills of the following titles, in which the concurrence of the House is requested:

S. 3925. An act for the relief of Mrs. Lulu M. Peiper; and

S. 4786. An act to authorize the Secretary of Agriculture to make such adjustments and revisions found to be due on contracts entered into by the Government with crop producers under the Agricultural Adjustment Act.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2456) entitled "An act to provide for the appointment of an additional judge for the northern and southern districts of West Virginia."

The message also announced that the Senate agrees to the amendments of the House to a bill of the Senate of the following title:

S. 4699. An act to provide a commissioned strength for the Corps of Engineers, United States Army, for the efficient performance of military and other statutory duties assigned to that corps.

The message also announced that the Senate had passed, with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H. R. 8555. An act to develop a strong merchant marine, to promote the commerce of the United States, to aid in national defense, and for other purposes.

The message also announced that the Senate insists upon its amendments to the foregoing bill, requests a conference with the House thereon, and appoints Mr. COPELAND, Mr. SHEPPARD, Mr. GUFFEY, Mr. MCNARY, and Mr. GIBSON to be conferees on the part of the Senate.

NAVAL AIR STATION, ALAMEDA, CALIF.

Mr. GREENWOOD. Mr. Speaker, I call up House Resolution 531.

The Clerk read as follows:

House Resolution 531

Resolved, That upon the adoption of this resolution it shall be in order to move that the House resolve itself into the Committee of the Whole House on the state of the Union for the consideration of S. 4020, an act to authorize the acquisition of lands in the city of Alameda, county of Alameda, State of California, as a site for a naval air station and to authorize the construction and installation of a naval air station thereon, and all points of order against said bill are hereby waived. That after general debate, which shall be confined to the bill and continue not to exceed 1 hour, to be equally divided and controlled by the chairman and ranking minority member of the Committee on Naval Affairs, the bill shall be read for amendment under the 5-minute rule. At the conclusion of the reading of the bill for amendment, the Committee shall rise and report the same to the House with such amendments as may have been adopted, and the previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit, with or without instructions.

Mr. GREENWOOD. Mr. Speaker, House Resolution 531 makes in order the consideration of the bill (S. 4020) to authorize the acquisition of land in the city of Alameda, Calif., as a site for a naval air station and to authorize the construction and installation of the naval air station.

The committee in charge of the bill asked me to take time enough briefly to explain the bill in order to facilitate its passage without too much time being consumed.

Mr. Speaker, the bill authorizes the Secretary of the Navy to acquire this site for an airport and operating base on San Francisco Bay. Admiral Standley, Chief of Naval Operations, has conferred with several members of the committee, and I conferred with him, and he assures me that he and his staff have made a critical examination of the necessity and of the facilities that are offered here for this operating base and that it is vitally needed. The administration, as I understand, the Chief Executive and the Bureau of the Budget, approve of the taking over of this piece of land for this naval air station.

The city of Alameda held an election and by that election decided to convey this land, some 95 acres above the high-water mark and some that is covered by water at certain stages of the tide. As originally provided in the Senate bill, $296,000 was required to satisfy a leasehold held by the Curtiss-Wright Co. This item of expense is eliminated in this bill. The city of Alameda at first desired $4,000 to cover the expenses of the election which was held. This amount, too, has been eliminated; and, so far as the cost to the United States Government for the land is concerned, there is no cost.

The bill does provide, however, that before December 31, 1939, the United States Government will expend at least $1,000,000 toward the construction and the completion of this air base.

The necessity of this site is that the station must be located so that ships can land to bring supplies and planes can be delivered in knocked-down condition, and where there can be complete cooperation between the air forces and the naval forces. Admiral Standley, Chief of Operations, assures me his staff considers this the best location from the standpoint of water front, higher land, and the other purposes to be filled by this character of air base as an operating base. There is an operating base at San Diego, Calif., and another one can be provided in Puget Sound, but these are several hundred miles away and are at the extreme limits of the territory to be protected. San Francisco, on the other hand, is centrally located and will offer full protection for all the lanes of transportation to the Hawaiian Islands and the Orient. This station, in addition, will be within a few miles of the naval base at Mare Island, with its repair shop, and with which there will be full cooperation. I have given you a summary of the bill and its purposes. I think if you will read the report of the committee you will reach the conclusion that for the defense by means of an air force of this western coast, and especially of San Francisco Bay, which is centrally located, that no objection will be raised to the acceptance of this gift of land from the city of Alameda because of its location and because of its advantages as has been recommended by the committee.

If there are no questions, Mr. Speaker, I move the previous question on agreeing to the resolution.

The previous question was ordered.

The resolution was agreed to.

Mr. VINSON of Georgia. Mr. Speaker, I ask unanimous consent that the bill (S. 4020) to authorize the acquisition of lands in the city of Alameda, county of Alameda, State of California, as a site for a naval air station and to authorize the construction and installation of a naval air station thereon, be considered in the House as in the Committee of the Whole.

The SPEAKER. Is there objection to the request of the gentleman from Georgia?

There was no objection.

The Clerk read the bill as follows:

Be it enacted, etc., That the Secretary of the Navy be, and he is hereby, authorized to purchase in behalf of the United States as a site for a naval air station, at a cost not to exceed $1, and to accept the title in fee simple to all that certain piece or parcel of land situate, lying and being south of the Alameda Mole, in the city of Alameda, county of Alameda, State of California, and more particularly described as follows: Commencing at a point on the United States bulkhead line, said point being distant due south thereon 202.1 feet from point "k" as said line and point are delineated and so designated upon that certain map entitled "Harbor Line Survey, San Francisco Bay, 1910, Sheet No. 6", on file in the United States Engineer's Office, customhouse, San Francisco; and running thence north 73°58′ west 409.95 feet to a point, said line being parallel with and distant southerly 122.7 feet measured at right angles from center line of the South Pacific Coast Railway Co.'s right-of-way; thence north 83°28′ west 342 feet to a point; thence north 76°5′ west 500 feet to a point; thence north 81°15′ west 680 feet to a point; thence north 89°50′ west 1,687.88 feet to a point on the United States Pierhead Line; thence south 47°50′53″ west 482.14 feet to a point, which point is the intersection of the United States Pierhead Line with the southwesterly line of the city of Alameda (also easterly line of the city and county of San Francisco); thence south 27°50′ east 11,529 feet along the southwesterly boundary line of the city of Alameda to a point, which point is the intersection with the westerly line of Benton Field; thence north 16°2′ east 9,344.13 feet to a point; thence north 73°58′ west 4,190.05 feet to the point of beginning, containing 929.337 acres, more or

less, free from all encumbrances, except a certain lease entered into by and between the city of Alameda and the Alameda Airports, Inc., a subsidiary of the Curtiss-Wright Corporation. Title to the above referred to property is accepted by the United States upon the understanding that at least $1,000,000 will be expended by the Government of the United States in development work by December 31, 1939, otherwise title to said lands will revest to the city of Alameda.

With the following committee amendment:

Page 3, line 15, after the word "all" strike out "encumbrances, except a certain lease entered into by and between the city of Alameda and the Alameda Airports, Inc., a subsidiary of the Curtiss Wright Corporation. Title to the above-referred to property is accepted by the United States upon the understanding that at least $1,000,000 will be expended by the Government of the United States in development work by December 31, 1939, otherwise title to said lands will revert to the city of Alameda" and insert "encumbrances: *Provided, however,* That at least $1,000,000 be expended for or contracted to be expended in the actual work of development of said naval air base by December 31, 1939, otherwise said lands shall automatically revert back to said city of Alameda."

The committee amendment was agreed to.

Mr. UMSTEAD. Mr. Speaker, I move to strike out the last word.

I should like to propound an inquiry to the chairman of the Naval Affairs Committee in reference to this bill. What is the estimated cost of the project that is being authorized in this bill?

Mr. DELANEY. At the present time there is in here the authorization for an expenditure of a million dollars between now and 1939.

Mr. UMSTEAD. I understand, but that is not the question. I would like to know what the estimated cost of this project will be when completed.

Mr. DELANEY. Of course, it depends entirely on the time the work will be done. That is the problem. No one can tell what may be spent there.

This is a project in California which is necessary, according to the recommendation of the Navy, and it is intended to proceed with the work at once, but spend very little money now. The gentleman, who is a member of the Appropriations Committee, will have control of the amount of money spent there between now and 1939.

Mr. UMSTEAD. Is it not a fact that a number of years ago an effort was made to have this land accepted by the Federal Government for the purpose of establishing a naval base?

Mr. VINSON of Georgia. I may say to the gentleman from North Carolina that in 1924 the city of Alameda offered this identical property to the Government for the purpose of having established thereon a navy yard and not a naval air base. The committee rejected the offer on account of the fact that there is a navy yard in the vicinity of Alameda; that is, at Mare Island. A navy yard and a naval air station are horses of a different color.

Mr. UMSTEAD. At the time that proposal was pending before the Congress is it not a fact that the evidence showed test borings were made, and after going down to a depth 250 feet they were unable to find any solid foundation?

Mr. VINSON of Georgia. I may say to the gentleman that may have been true, but the purpose at that time was to use the property for the construction of dry docks. That is not the purpose under this bill. This provides for an air base.

Mr. UMSTEAD. Is this not for the purpose of building a naval air station and a naval stores depot?

Mr. VINSON of Georgia. Not at all. There is no naval depot in connection with this. This is for a naval air base and no other naval activity.

Mr. UMSTEAD. In the construction of a naval air base is it not necessary to find somewhere a substructure which is sufficient to hold the superstructure?

Mr. VINSON of Georgia. Not at all; not in a case of this kind.

Mr. UMSTEAD. May I ask the gentleman another question. I believe this purports to take over 929⅓ acres of land?

Mr. VINSON of Georgia. I may say it involves approximately 85 acres of upland and 885 acres of what is known as submarginal land.

Mr. UMSTEAD. Does not the bill say that the tract of land contains 929.337 acres?

Mr. VINSON of Georgia. Whatever the bill says is correct.

Mr. UMSTEAD. That is approximately 929⅓ acres of land.

Mr. VINSON of Georgia. The gentleman is correct.

Mr. UMSTEAD. I will ask the chairman of the committee if it is not true that at this time only about 75 acres of the land is above water?

Mr. VINSON of Georgia. I think it is about 85 acres. It will cost approximately six or seven million dollars to build a sea wall around this area in order to make it into an air base, both for lighter-than-air craft and amphibian airplanes.

Mr. UMSTEAD. Then the gentleman admits the United States Government is about to take title to what purports to be 929⅓ acres of land, but, as a mater of fact, it is only 85 acres of land and the balance water?

Mr. VINSON of Georgia. May I say to the gentleman this piece of property today is bringing to the city of Alameda $1,000 a month from the corporation that is carrying on the clipper service between San Francisco and the Hawaiian Islands. This is the most valuable property for the purpose for which it is intended to be used that can be found on the Pacific coast.

Mr. UMSTEAD. That is the gentleman's opinion, but I am asking him some questions——

Mr. VINSON of Georgia. And I am giving the gentleman my opinion.

Mr. UMSTEAD. But the gentleman is not giving me his opinion on the questions I have asked, but on the general proposition. Is it not a fact, since the gentleman has mentioned the contract existing with this company that the company is exceedingly anxious to get rid of its contract and is willing to give the land provided its contract is canceled?

Mr. VINSON of Georgia. The company has not anything whatever to do with the giving of the land. The land belongs to the city of Alameda and the people voted by an overwhelming majority to make this contribution to the national defense of the country.

Mr. UMSTEAD. Is it not true that under the contract between the city and the company, the company is obligated to make certain improvements and expenditures of money of which they will be relieved by the passage of this bill?

Mr. VINSON of Georgia. I may state to the gentleman that I know absolutely nothing whatever about any contract between the city of Alameda and any aviation corporation.

[Here the gavel fell.]

The Clerk read as follows:

SEC. 2. The Secretary of the Navy is further authorized to construct, install, and equip at said naval air station such buildings and utilities, technical buildings and utilities, landing field and mats, and all utilities and appurtenances necessary for the operation, maintenance, and repair of landplanes and seaplanes, including ammunition storage, fuel and oil storage, and distribution systems therefor, roads, walks, aprons, seaplane ramps, docks, runways, sewer, water, power, station and aerodrome lighting, telephone and signal communications, and other essentials, including the necessary bulkheading, dredging, grading, and filling and the removal and remodeling of existing structures and installations.

Mr. DELANEY. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. DELANEY: Page 4, line 5, after the word "install", insert the word "acquire."

The amendment was agreed to.

Mr. UMSTEAD. Mr. Speaker, I move to strike out the last word.

Mr. Speaker, the purpose of my questions a few moments ago was to call the attention of the House to some of the

apparent unreasonable elements involved in this proposition. Unfortunately, I am not familiar with all the evidence, as are the gentlemen on the Naval Affairs Committee, and I do not, of course, undertake to express an opinion to the House based upon as much knowledge as they have of this matter. However, it is my opinion that this project, when completed, will cost a minimum of $40,000,000.

Mr. VINSON of Georgia. Mr. Speaker, will the gentleman yield?

Mr. UMSTEAD. I will.

Mr. VINSON of Georgia. I should like for the gentleman from North Carolina to furnish the House and the committee with his basis for that statement.

Mr. UMSTEAD. The basis I have for the statement is the opinion of the clerk of the Subcommittee on Appropriations for the Navy Department, for whose opinion I have the highest regard and respect.

Mr. VINSON of Georgia. May I ask the gentleman whether he thinks it is right and proper to come before the Congress and make the statement that a project is going to cost a certain amount of money when he has no evidence to support the correctness of such a statement.

Mr. UMSTEAD. How much does the gentleman from Georgia say it will cost?

Mr. VINSON of Georgia. I may state to the gentleman what the hearings show. The hearings show that approximately $15,000,000 will be the outside cost of hangars, runways, water, and everything else, and I may say further——

Mr. UMSTEAD. I do not yield to the gentleman further until I have asked another question. I now ask the chairman of the Committee on Naval Affairs if he did not himself say that the cost would be not less than $15,000,000 and not more than $30,000,000?

Mr. VINSON of Georgia. I stated to the gentleman it would cost approximately $7,000,000 to put up what are known as bulkheads and do the pumping in connection with this marshland.

Mr. UMSTEAD. I do not refer to the gentleman's statement made today, but a statement made to me on another occasion.

Mr. VINSON of Georgia. I do not recall the occasion, but whatever I stated was the fact as I understood it; and let me say to the gentleman from North Carolina that he is confusing this proposition with another matter pending before the Naval Affairs Committee.

Mr. UMSTEAD. Mr. Speaker, I cannot yield for a statement about all those matters. I am anxious to have my questions answered. The gentleman has questioned my statement——

Mr. VINSON of Georgia. I questioned the gentleman's statement that it would cost $40,000,000, and the gentleman should submit some proof in addition to a mere declaration by our esteemed friend, Mr. Pugh, a member of the staff of the Appropriations Committee.

Mr. UMSTEAD. Mr. Speaker, I do not yield further if that is the best answer that the chairman of the House Naval Affairs Committee can give this House.

I submit, Mr. Speaker, in the absence of a particle of evidence from those in charge of this bill as to what this project will cost, we are entitled to take the information I have obtained from a man who is in a position to know, and I have no apology to offer either to the chairman of the Committee on Naval Affairs or to the membership of this House.

One further thing and I am through. I know that this bill will pass this House, but I am reminding those Members of the House who are becoming alarmed over the size of naval expenditures that on occasions like this is the time to register opposition.

Mr. MARCANTONIO. Mr. Speaker, will the gentleman yield?

Mr. UMSTEAD. Not now. I say these matters should have very careful consideration. This proposal has not been discussed here on the floor. The chairman of the Committee on Naval Affairs did not use any of his hour that was given to him under the resolution for the discussion of the bill. He did not come here and show the House the details of this proposition and what it would cost, and now he resents my suggestion that it will cost a stupendous sum of money. My experience has been that you can add on 33 percent and sometimes 50 percent of the estimated cost of naval projects, and then be well within what the final appropriation will have to be.

Mr. Speaker, I have nothing more to say about it. I feel it is my duty to call this matter to the attention of the House. The Navy Department proposes to go out there and take 87 acres of land, build a retaining wall, without being able to find any foundation after boring 250 feet, and build up over 800 acres of land in order to get a place to have a naval base. [Applause.]

Mr. VINSON of Georgia. Mr. Speaker, I rise in opposition to the amendment.

There is no Member of this House who entertains a higher esteem and admiration and regard for the gentleman who furnished my colleague from North Carolina [Mr. UMSTEAD] the information than I do. There is no more competent, better-informed clerk of the House than Mr. Pugh, who advised the gentleman from North Carolina; but Mr. Pugh, as well as the gentleman from North Carolina, is absolutely in error, according to the testimony before our committee, and I invite my distinguished friend's attention to page 2595 of the hearings. Mr. MAAS, a member of the committee, propounded this question to Admiral King:

> Will you tell us what the complete project will cost in the way of authorization?
>
> Admiral TAUSSIG. I don't know whether the plans are far enough along.
>
> Admiral KING. Fifteen million dollars.

Mr. UMSTEAD. I ask the gentleman if a bill was not passed by this House to build a drydock, and the evidence was it would cost $10,000,000, and if in less than 12 months the Navy Department did not come back and say it would cost $15,000,000?

Mr. VINSON of Georgia. I cannot remember everything the gentleman asks me.

Mr. UMSTEAD. No; the gentleman has a convenient memory.

Mr. VINSON of Georgia. I will say this: That it is estimated on the acceptance of this property, which today is bringing to the city of Alameda $1,000 a month, it will cost, when fully developed, approximately $15,000,000. Let me point out to the gentleman from North Carolina the error into which he falls. There has been before the Naval Affairs Committee a bill to authorize an expenditure of some $15,000,000 or $16,000,000 for the purpose of building a naval depot in the vicinity of San Francisco Bay. The gentleman is of opinion that the naval depot is going to be built on the site which is now being acquired. I may say to the gentleman that the bill has not even been heard; there is no information as to where the site will be acquired. It has absolutely no connection whatever with the development of a hydroairplane base.

Mr. UMSTEAD. Mr. Speaker, will the gentleman yield?

Mr. VINSON of Georgia. Not now. It has no connection whatsoever with this matter at all. This is for the purpose of carrying out our definite policy with reference to the expansion of our air forces, and to have an adequate base in San Francisco Bay. This project has been recommended by the Budget, has the approval of the administration, and has unanimously been approved by the committee and has been passed by the Senate. Some 15 or 16 years ago the Navy Department sought to acquire this identical piece of property for the purpose of building a navy yard. The committee refused to accept this piece of property for that purpose, because it would have been a duplication of a navy yard within 5 miles of Mare Island Navy Yard, and it so happened that soundings were taken with reference to the construction of a drydock, and it was found that the soil did not have the stability to justify the building of a drydock. There is nothing of that character whatsoever in respect of this property. This is simply an aviation proposition and no navy yard proposition at all.

The SPEAKER. The time of the gentleman from Georgia has expired.

Mr. BUCK. Mr. Speaker, I move to strike out the last four words. In support of what the chairman of the Naval Affairs Committee has just stated, I assure the House that I have—and I ask permission to insert it in the RECORD at the end of my remarks—a written official statement from the Acting Secretary of the Navy, Admiral W. H. Standley, to the effect that it is not the intention of the Navy Department to use this Alameda property for anything but an air base.

The House knows the interest that I have taken in Mare Island Navy Yard, referred to by the gentleman from North Carolina, and the care with which I have guarded it. Naturally I wanted to be assured that the Navy Department did not contemplate duplicating facilities that now exist at Mare Island, or establishing additional facilities which had better be added to that yard. Hence I have asked and obtained a definite assurance along those lines from the Department.

I am informed that it is not contemplated to duplicate the facilities at Mare Island Navy Yard. It is not contemplated to include therein the bases of supply that the chairman of the Naval Affairs Committee spoke about.

Mr. Speaker, I now ask unanimous consent to append to my remarks the letter referred to.

The SPEAKER. Is there objection?

There was no objection.

The letter referred to follows:

DEPARTMENT OF THE NAVY,
OFFICE OF THE SECRETARY,
Washington, May 19, 1936.

MY DEAR MR. BUCK: With respect to H. R. 11039, to authorize the acquisition of lands in the city of Alameda, county of Alameda, State of California, as a site for a naval air station and to authorize the construction and installation of a naval air station thereon, I wish to let you know that the title of the bill accurately expresses the intent of the Navy Department in regard to the use of this site when it is acquired.

In connection with this I desire to call your attention to the hearings before the Subcommittee on Aeronautics of the Committee on Naval Affairs held on April 6, 1936, and especially to the testimony of Rear Admiral Taussig and Rear Admiral King, parts of which I quote herewith:

"Mr. ANDREW. What else would be required in this base besides docking facilities for plane carriers?

Admiral TAUSSIG. Only everything that is necessary for the handling and operation of repairs of aircraft, which will mean some shops, some barracks, and some quarters—things of that sort.

* * * * * * *

Mr. ANDREW. Would there be any competition with Mare Island?

Admiral TAUSSIG. None whatever.

* * * * * * *

Mr. DELANEY. This will in no way retard the development of the navy yard at Vallejo?

Admiral KING. It is not to be a navy yard at all.

Mr. DELANEY. Only an airport. It would not conflict with the work now at Mare Island either?

Admiral KING. Mare Island retains its status in regard to ships of the United States. This will be for planes. They have no planes there (Mare Island).

* * * * * * *

Mr. ANDREW. We could turn over from the Navy part of this land to some other branch?

"Admiral KING. In time of emergency, yes; but it certainly is not contemplated in peacetime, because this area will be all of it required for the naval air base that is to be developed there."

These statements of Admiral Taussig, who, as Assistant Chief of Naval Operations, was representing me during my absence, and of Admiral King, Chief of the Bureau of Aeronautics, clearly express the intent of the Navy Department to employ the Alameda site solely as a naval air station, and for no other purposes.

The Navy Department is in full accord with these statements, and I wish to express to you the official viewpoint of the Secretary of the Navy as concurring with the statements expressed in the hearings to the effect that the acquisition of the Alameda site for a naval air station will not in any way interfere with the Mare Island Navy Yard.

Sincerely yours,

W. H. STANDLEY,
Acting Secretary of the Navy.

Hon. FRANK H. BUCK,
House of Representatives, Washington, D. C.

[Here the gavel fell.]

Mr. TABER. Mr. Speaker, I rise in opposition to the pro-forma amendment.

Mr. Speaker, this bill has absolutely no limitation on its cost. It is not customary for this House to pass bills for the construction of projects without limitation.

Mr. VINSON of Georgia. Mr. Speaker, will the gentleman yield?

Mr. TABER. I yield.

Mr. VINSON of Georgia. The same thought has been running through my mind and it was when this matter was considered. The reason I hesitated to put a limitation in the bill was on account of the fact that in all probability the expenditure would be under that amount. If the gentleman from New York desires to put a limitation of $15,000,000 in the bill, which would be the maximum amount of the cost, I am perfectly willing to accept it, but when we do that we make it almost absolutely sure that they will spend $15,000,000. With the Appropriations Committee having jurisdiction of this matter, I think it is in the interest of economy to let the Appropriations Committee determine whether or not a certain sum should be spent.

Mr. TABER. I believe we ought not to pass any bill of this character without a limitation as to cost. I believe that sound business requires that when we pass a bill of this sort there be at least enough information about it before we pass it so that we can put a limitation in it; and if they are not far enough along with the project to know what it is going to cost and to be able to justify it on the basis of knowing what it is going to cost, and that it is a feasible proposition, it ought not to be before the Congress.

Mr. VINSON of Georgia. Will the gentleman offer an amendment to limit the appropriation to $15,000,000?

Mr. TABER. I will.

Mr. VINSON of Georgia. And I will gladly accept it.

Mr. REILLY. Mr. Speaker, will the gentleman yield?

Mr. TABER. I yield.

Mr. REILLY. Suppose it develops that it will cost more?

Mr. TABER. The Appropriations Committee will not go into this thing and get it started unless they believe it can be done for $15,000,000.

Mr. VINSON of Georgia. I am willing to accept the amendment.

[Here the gavel fell.]

The Clerk read as follows:

SEC. 3. There is authorized to be appropriated, out of any money in the Treasury of the United States not otherwise appropriated, the following sums: (a) Not to exceed $296,000 for the purpose of acquiring the Curtiss-Wright Corporation leasehold interest and all improvements of every kind and nature on said tract of land; (b) $4,000 to be paid to the city of Alameda, Calif., to reimburse said city for the expenses of a special election held for the purpose of authorizing the city council of the city of Alameda to convey to the United States the above-described parcel of land for the above-specified purpose, and for incidental expenditures in connection with such conveyance; and (c) $1,000,000 to be used for any of the purposes as set forth in section 2 of this act.

With the following committee amendment:

Page 4, line 19, after the word "appropriated" strike out the remainder of the bill and insert "such sums as may be necessary to effectuate the purposes of this act."

Mr. TABER. Mr. Speaker, I offer an amendment to the amendment.

The Clerk read as follows:

Amendment offered by Mr. TABER to the committee amendment: Page 5, line 6, after the word "act" insert "but not over $15,000,000."

Mr. DELANEY. Mr. Speaker, the committee accepts the amendment to the amendment.

The SPEAKER. The question is on the amendment to the committee amendment.

The amendment to the committee amendment was agreed to.

The SPEAKER. The question is on the committee amendment as amended.

The committee amendment as amended was agreed to.

The SPEAKER. The question is on the third reading of the Senate bill.

The bill was ordered to be read a third time and was read the third time.

The SPEAKER. The question is on the passage of the bill.

The question was taken; and on a division (demanded by Mr. UMSTEAD) there were—ayes 45, noes 47.

Mr. VINSON of Georgia. Mr. Speaker, I object to the vote on the ground that there is no quorum present, and I make the point of order that there is no quorum present.

The SPEAKER. Evidently there is no quorum present. The Doorkeeper will close the doors, the Sergeant at Arms will notify absent Members, and the Clerk will call the roll.

The question was taken; and there were—yeas 171, nays 122, not voting 130, as follows:

[Roll No. 127]

So the bill was passed.

The Clerk announced the following additional pairs:

Until further notice:

Mr. Warren with Mr. Crowther.
Mr. Sullivan with Mr. Ditter.
Mr. Boehne with Mr. Woodruff.
Mr. Mead with Mr. Robsion of Kentucky.
Mr. Kleberg with Mr. Brewster.
Mr. Chapman with Mr. Gifford.
Mr. Smith of Virginia with Mr. Kinzer.
Mr. Cochran with Mr. Cavicchia.
Mr. Bloom with Mr. Fish.
Mr. Jones with Mr. Higgins of Connecticut.
Mr. Kerr with Mr. Mott.
Mr. Weaver with Mr. Culkin.
Mr. Burch with Mr. Gwynne.
Mr. Nelson with Mr. Englebright.
Mr. Darden with Mr. Hoffman.
Mr. Snyder of Pennsylvania with Mr. Lemke.
Mr. Disney with Mr. Tobey.
Mr. Owen with Mr. Stewart.
Mr. Beiter with Mr. Nichols.
Mr. Jacobsen with Mr. Casey.
Mr. Schuetz with Mr. Hobbs.
Mrs. Jenckes of Indiana with Mr. Boykin.
Mr. Dobbins with Mr. Quinn.
Mr. Claiborne with Mr. Kocialkowski.
Mr. Kee with Mr. Sandlin.
Mr. Connery with Mr. Gray of Pennsylvania.
Mr. Tolan with Mr. Healey.
Mr. Zimmerman with Mr. Clark of Idaho.
Mr. McGroarty with Mr. DeRouen.
Mr. Sirovich with Mr. Gildea.
Mr. Wilson of Louisiana with Mr. Knute Hill.
Mr. Imhoff with Mr. Harter.

Mr. CREAL, Mr. COLE of Maryland, Mr. TAYLOR of Tennessee, Mr. DUFFY of New York, and Mrs. GREENWAY changed their votes from "nay" to "yea."

Mr. SCHAEFER and Mr. GREGORY changed their votes from "yea" to "nay."

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

The doors were opened.

DELAWARE VALLEY TERCENTENARY COMMISSION

The SPEAKER. The Chair lays before the House the following appointment to a committee.

The Clerk read as follows:

Pursuant to the provisions of Public Resolution 102, Seventy-fourth Congress, the Chair appoints as members of the United States Delaware Valley Tercentenary Commission the following Members of the House of Representatives: Mr. BOLAND, Mr. HAINES, Mr. WALTER, Mr. HOLMES, and Mr. STEWART.

THE LEGISLATIVE ACHIEVEMENTS OF HON. JOHN J. DEMPSEY, OF NEW MEXICO

Mr. McREYNOLDS. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD on the services of the gentleman from New Mexico [Mr. DEMPSEY] and to include therein the titles of certain bills with which he has been connected.

The SPEAKER. Without objection, it is so ordered.

There was no objection.

Mr. McREYNOLDS. Mr. Speaker, before the gavel falls to signify the adjournment sine die of the Seventy-fourth Congress, it is my desire as a Member who has served through seven successive Congresses to offer a few comments and to make a few personal observations with respect to a friend

and colleague, the Honorable JOHN J. DEMPSEY, the lone Congressman in this House from New Mexico.

That Mr. DEMPSEY, as a first-term Member, has been able to initiate and obtain favorable legislative action on so many measures of benefit to the people of New Mexico in the circumstances of a busy session of Congress concerned with great national problems, is truly an amazing record and must be gratifying to him and to his constituents.

"JACK" DEMPSEY, as he is popularly known to his friends in Washington, has endeared himself to all by his inate modesty and conscientious work. For what he has accomplished, however, he would be the last man to claim the full credit that is his due. He has told me that his tasks would have been more difficult and his achievements, perhaps, less noteworthy had it not been for the courtesy and consideration of the Members of the House and the officials of the various executive departments and emergency agencies of the Government with whom the business of the State of New Mexico has kept him in constant contact.

As chairman of the Committee on Foreign Affairs, I know something of Mr. DEMPSEY's legislative record. He has frequently been before our committee on matters affecting the interests of his State, which he has so ably represented.

I recall the splendid and successful fight he made to obtain authorization of Rio Grande canalization project. I know also of his active leadership in obtaining Federal funds for the Conchas Dam project, the Caballo Dam, and the Alamogordo Dam.

He has consistently supported appropriations for the Federal Emergency Administration of Public Works, and with Representative BEITER, of New York, and others was instrumental in obtaining an additional appropriation from the Seventy-fourth Congress for continuation of the worthy program administered by Secretary of the Interior Harold L. Ickes. For his own State he was instrumental in obtaining favorable action on P. W. A. applications for a loan and grant of $688,569 for the University of New Mexico, a loan and grant of $306,000 for the new supreme court building at Santa Fe, and for a number of other worth-while P. W. A. projects.

Mr. DEMPSEY has supported the war veterans on every occasion. He voted for payment of the bonus every time it came before the House, voting to override the President's veto.

At all times he supported the program of the farm leaders. He also voted for the Wagner labor relations bill and the Railroad Retirement Act.

A measure of great importance to water users in New Mexico was Mr. DEMPSEY's bill to extend relief by a moratorium to water users on United States reclamation projects and on Indian irrigation projects. He was responsible for amending the Senate bill eliminating the 2-percent interest charge to water users on deferred payments.

Mr. DEMPSEY did most effective work in obtaining funds for the Conchas Dam. Early in 1935, Senators HATCH and CHAVEZ and Congressman DEMPSEY, working in cooperation with Mr. Arch Hurley, of Tucumcari, a representative of the Arkansas River Authority, contacted all departments in Washington concerned, and after months of hard work obtained approval of the President for allocation of funds from the work-relief appropriation.

The Conchas Dam in New Mexico is a flood-control project estimated to cost $12,000,000. An initial allotment of $4,500,000 was made from Emergency Relief Act funds on July 23, 1935. This allotment, made to the Army Corps of Engineers, subsequently was reduced to $2,280,000. Later, it was found necessary to receive congressional authority and an appropriation. There was considerable opposition, but Mr. DEMPSEY prevailed upon the conferees and the Members of the House and finally an appropriation of $3,500,000 and authority to continue the project was carried in the War Department deficiency appropriation measure. In the past few days Mr. DEMPSEY secured the approval of the Reclamation Service under the direction of the Secretary of Interior for a survey on the irrigation district near Tucumcari, N. Mex. This survey will cost something in excess of $30,000 and as a result will make extremely valuable the lands which will be irrigated in northeastern New Mexico.

A better idea of what Mr. DEMPSEY has accomplished in the national legislative halls will be obtained from the following brief résumé of action on House bills and resolutions sponsored by the gentleman from New Mexico during the Seventy-fourth Congress:

H. J. Res. 58. To provide for defraying the expenses of the American Section International Boundary Commission, United States and Mexico, and authorizing an appropriation in the amount of $60,000 for engineering investigations. This was the first measure introduced by Mr. DEMPSEY and was referred to the Committee on Foreign Affairs. Mr. DEMPSEY had a conference with the Director of the Budget and Dr. Carr, of the State Department, and secured their approval, and it was favorably reported by the committee and passed February 6, 1935.

H. R. 3715. Authorizing the reimbursement of Edward B. Wheeler and the State Investment Co. for the loss of certain lands in the Mora grant, New Mexico. Mr. DEMPSEY appeared before the Claims Committee in behalf of this measure, which had received adverse departmental report, and obtained favorable consideration and report by the committee. S. 427 was substituted and passed by the House.

H. R. 3814. To further extend the period of time during which final proof may be offered by homestead and desert-land entrymen. S. 1065 identical to the House bill was substituted and passed.

H. R. 4372. For the relief of Charles L. Graves. S. 1502 identical to the House bill was substituted and passed.

H. R. 4373. For the relief of Albert Gonzales. Passed the House May 20 and passed the Senate June 6. Now awaiting Presidential approval.

H. R. 4541. To extend the provisions of section 2 of the act of February 28, 1925, authorizing reservations of timber, minerals, or easements to exchanges of lands in the State of New Mexico, under the act of February 14, 1923, and the act of February 7, 1929. S. 1066, identical to the House bill, was substituted and passed.

H. R. 5075. Providing for the appointment of Harry T. Herring, formerly a lieutenant colonel in the United States Army, as a lieutenant colonel in the United States Army and his retirement in that grade. S. 1426 was substituted and passed in lieu.

H. R. 5696. To authorize the Secretary of the Interior to provide by agreement with Middle Rio Grande Conservancy District, a subdivision of the State of New Mexico, for maintenance and operation on newly reclaimed Pueblo Indian lands in the Rio Grande Valley, New Mexico, reclaimed under previous acts of Congress, and authorizing an annual appropriation to pay the cost thereof for a period of not to exceed 5 years. S. 1832 was substituted and passed in lieu.

H. R. 5797. To amend an act entitled "An act to establish a uniform system of bankruptcy throughout the United States", approved July 1, 1898, and acts amendatory and supplementary thereto. An identical Senate bill was substituted and passed.

H. R. 6162. For the relief of Anna Hathaway. Passed the House amended and Senate concurred in House amendment.

H. R. 6163. For the relief of Mrs. Murray A. Hintz. Passed House and was amended in the Senate; the House later concurred in Senate amendment.

H. R. 6143. To extend the time during which domestic animals which have crossed the boundary line into foreign countries may be returned duty free. Passed both Houses of Congress and was approved May 21, 1936.

H. R. 6160. Authorizing adjustment of the claim of Korber Realty, Inc. An identical Senate bill was substituted and passed by the House.

H. R. 6141. Transferring certain national-forest lands to the Zuni Indian Reservation, N. Mex. Passed both Houses of Congress and was approved June 20, 1935.

H. R. 6258. For the relief of D. E. Woodward. Passed House and was amended in the Senate, and the House later concurred in Senate amendment.

H. R. 6538. For the relief of the State of New Mexico. S. 2206 was substituted and passed in lieu.

H. R. 6871. Directing the conveyance of certain lands to the regents of the University of New Mexico. S. 2247, identical to the House bill, was substituted and passed in lieu.

H. R. 6969. For the relief of Russell J. Vaughan. Passed the House January 7, 1936, and is now pending in the Senate.

H. R. 7054. To provide for the protection of land resources against soil erosion, and for other purposes. This measure established the Soil Conservation Service. It passed the House April 2, 1935, and was approved April 27, 1935.

H. R. 7741. To authorize an appropriation to pay non-Indian claimants whose claims have been extinguished under the act of June 7, 1924, but who have been found entitled to awards under said act as supplemented by the act of May 31, 1933. S. 2603, identical to the House bill, was substituted and passed in lieu.

H. Res. 213. Resolved that the House has heard with profound sorrow of the death of Hon. Bronson Cutting, a Senator of the United States from the State of New Mexico. Adopted by the House May 6, 1935.

H. R. 7024. To authorize the sale by the United States to the municipality of Hot Springs, N. Mex., of the north half of the southeast quarter and the northeast quarter of the southwest quarter of section 6, township 14 south, range 4 west, New Mexico

principal meridian, New Mexico. Amended in the Senate, and House concurred in Senate amendments March 30, 1936.

H. R. 8679. To eliminate the requirement of cultivation in connection with certain homestead entries. S. 2577 identical to the House bill was substituted and passed.

H. R. 8692. Authorizing construction, operation, and maintenance of Rio Grande canalization project and authorizing appropriation for that purpose. The measure was referred to the Committee on Foreign Affairs, who received an adverse report from the Department of State. On August 9 Congressman DEMPSEY had a conference with Department officials and prevailed upon the State Department to reconsider and favorably report the measure. The Foreign Affairs Committee then favorably reported the bill and considerable work was done during the closing days of the first session by Mr. DEMPSEY to get this bill before the House for consideration ahead of some of the measures already on the overcrowded calendar. It passed the House August 25, 1935, under suspension of the rules.

H. R. 9009. To make lands in drainage, irrigation, and conservancy districts eligible for loans by the Federal land banks and other Federal agencies loaning on farm lands, notwithstanding the existence of prior liens of assessments made by such districts, and for other purposes. Passed the House April 6 and the Senate June 2.

H. R. 10751. To further extend relief to water users on United States reclamation projects and on Indian irrigation projects. Mr. DEMPSEY was the only Member of the House who would introduce this measure. It was later amended providing 50-percent moratorium when Mr. DEMPSEY obtained assurance that the Department of the Interior would not object to a 50-percent moratorium. The 100-percent moratorium was opposed by the Director of the Budget as well as Department of Interior. A similar Senate bill was substituted and passed amended providing a 100-percent moratorium for 6 months making first payment fall due in September 1927, and striking a 2-percent charge; also providing an appropriation of $5,000 for an investigation of existing contracts.

H. R. 11768. Authorizing construction, operation, and maintenance of Rio Grande canalization project and authorizing an appropriation for that purpose. Passed the House May 4 and the Senate June 1; approved June 4, 1936.

H. R. 12058. To provide for an examination and survey to determine the best utilization of the surplus waters of the San Juan River and to determine the feasibility and cost of storing such waters and of diverting them to the Rio Chama. S. 3488, identical to the House bill, was substituted and passed amended.

H. R. 12604. Authorizing the coinage of 50-cent pieces in commemoration of the four hundredth anniversary of the journey and exploration of Francisco Vasquez de Coronado. This was the last measure of this type favorably reported by the Committee on Coinage, Weights, and Measures. Passed the House June 2, 1936.

H. R. 6453. To amend the act of May 13, 1924, entitled "An act providing for a study regarding the equitable use of the waters of the Rio Grande", etc., as amended by the public resolution of March 3, 1927. Favorably reported from Foreign Affairs Committee and passed the House April 1, 1935. Passed the Senate amended, June 24, 1935, and sent to conference July 12. Senate and House agreed to conferees' report, and measure was approved August 19, 1935.

From the above it will be noted that there has been enacted a total of 30 bills in the Seventy-fourth Congress which were introduced by Mr. DEMPSEY, a first termer, which would be an outstanding achievement for any Member, irrespective of the number of years of service.

REGULATION OF STEAM BOILERS, DISTRICT OF COLUMBIA

Mr. PALMISANO. Mr. Speaker, I ask unanimous consent to take from the Speaker's desk the bill (S. 2953) to provide for the inspection, control, and regulation of steam boilers and unfired pressure vessels in the District of Columbia, insist on the House amendment, and agree to the conference asked by the Senate.

The SPEAKER. Is there objection to the request of the gentleman from Maryland? [After a pause.] The Chair hears none and appoints the following conferees: Mr. PALMISANO, Mr. PATMAN, and Mr. DIRKSEN.

GRAND HAVEN, MICH.

Mr. MAPES. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (H. R. 12971) to amend the act of Congress approved May 27, 1935, authorizing the Secretary of Commerce to convey to the city of Grand Haven, Mich., certain portions of the Grand Haven Lighthouse Reservation, Mich.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the consideration of the bill?

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That the act of Congress approved May 27, 1935 (Public, No. 73, 74th Cong.), is hereby amended to read as follows:

"That the Secretary of Commerce is hereby authorized to convey to the city of Grand Haven, State of Michigan, for use for street and park purposes, all of the Grand Haven Lighthouse Reservation, Mich., which is not required to be retained for lighthouse purposes. The Secretary of Commerce shall describe by metes and bounds in the deed of conveyance the exact portions of the reservation transferred. The deed of conveyance shall also contain a provision that should the city of Grand Haven, State of Michigan, cease to use the property for the purpose for which it is conveyed, title thereto shall revert to the United States.

"SEC. 2. The United States reserves the rights-of-way over, underground, or across the area to be transferred for any use whatsoever in conducting the Lighthouse Service or other activities of the Government, and, further reserves the right to be furnished by the city of Grand Haven, any and all services, conveniences, and utilities at established rates, such as transportation, gas or electric lighting facilities, water connections and sewer connections, and such other utilities as may be installed in the vicinity of, and accessible to the reservation."

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

RECESS

Mr. O'CONNOR. Mr. Speaker, I move that the House do now stand in recess until 7:30 o'clock this evening.

The motion was agreed to; accordingly (at 5 o'clock and 46 minutes p. m.), the House stood in recess until 7:30 o'clock p. m.

EVENING SESSION

The recess having expired the House was called to order by the Speaker at 7:30 p. m.

STILL FURTHER MESSAGE FROM THE SENATE

A still further message from the Senate, by Mr. Crockett, its Chief Clerk, announced that the Senate had passed a bill of the following title, in which the concurrence of the House is requested:

S. 4780. An act to extend the laws governing inspection of vessels, and for other purposes.

The message also announced that the Senate disagrees to the amendments of the House to the bill (S. 5) entitled "An act to prevent the adulteration, misbranding, and false advertising of food, drugs, devices, and cosmetics in interstate, foreign, and other commerce subject to the jurisdiction of the United States, for the purposes of safeguarding the public health, preventing deceit upon the purchasing public, and for other purposes", requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. COPELAND, Mr. BAILEY, Mrs. CARAWAY, Mr. CLARK, Mr. MCNARY, Mr. VANDENBERG, and Mr. GIBSON to be the conferees on the part of the Senate.

The message also announced that the Senate had passed without amendment bills and a joint resolution of the House of the following titles:

H. R. 4641. An act authorizing the President to present a gold medal to George M. Cohan;

H. R 13001. An act to eliminate unnecessary expense in the administration of estates of deceased and incompetent veterans, and for other purposes; and

H. J. Res. 532. Joint resolution for the establishment of a commission in commemoration of the seventy-fifth anniversary of the Battle of Gettysburg in 1938.

PARTICIPATION BY THE UNITED STATES IN COMMEMORATION OF THE SEVENTY-FIFTH ANNIVERSARY OF THE BATTLE OF ANTIETAM

Mr. LEWIS of Maryland. Mr. Speaker, I ask unanimous consent for the immediate consideration of Senate Joint Resolution 255, to provide for the participation of the United States in commemoration of the seventy-fifth anniversary of the Battle of Antietam.

The Clerk read the title of the joint resolution.

The SPEAKER. Is there objection to the request of the gentleman from Maryland?

Mr. SNELL. Mr. Speaker, reserving the right to object, may we be advised what this is about?

Mr. LEWIS of Maryland. Mr. Speaker, the Battle of Antietam, well known, of course, to all of us, has its seventy-fifth anniversary in the coming year, 1937. The Senate passed a bill authorizing the appointment of a commission

to give Federal recognition to the event. The Senate bill, however, carries an appropriation.

The House committee has reported a bill striking out any appropriation or obligation on the part of the Government, and it is my purpose to substitute the House bill for the Senate bill, thus giving recognition by the Government to the celebration itself, with no appropriation.

Mr. SNELL. Of course, the gentleman well knows if we authorize this, an appropriation will have to be made to carry out the provisions of the resolution?

Mr. LEWIS of Maryland. No; that is not true in this instance. May I say to the gentleman from New York this authorizes no appropriation whatever and none is intended.

Mr. SNELL. How much was carried in the Senate resolution?

Mr. LEWIS of Maryland. Five thousand dollars, or perhaps more.

Mr. SNELL. The gentleman says positively there is no appropriation provided in this bill?

Mr. LEWIS of Maryland. I can give the gentleman from New York that assurance.

The SPEAKER. Is there objection to the request of the gentleman from Maryland?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

Resolved, etc., That there is hereby established a commission to be known as the United States Antietam Celebration Commission (hereinafter referred to as the commission) and to be composed of seven commissioners, as follows: Three persons to be appointed by the President of the United States; two Senators, by the President of the Senate; and two Representatives, by the Speaker of the House of Representatives. The commissioners shall serve without compensation and shall select a chairman from among their number.

SEC. 2. It shall be the duty of the commission to arrange, in cooperation with State, county, and other organizations, an appropriate observance and celebration to take place during the week of September 12, 1937, of the seventy-fifth anniversary of the Battle of Antietam.

SEC. 3. (a) Without regard to the civil-service laws or the Classification Act of 1923, as amended, the commission is authorized to appoint and prescribe the duties and fix the compensation of such employees as are necessary in the execution of its functions.

(b) The commission may make such expenditures (including expenditures for personal services at the seat of government and elsewhere, for office supplies, and for printing and binding) as may be necessary in the execution of the functions of the commission. All expenditures of the commission, including necessary traveling expenses and subsistence expenses (not in excess of $ per day) incurred by the commissioners and employees of the commission while traveling on the business of the commission, shall be allowed and paid upon the presentation of itemized vouchers therefor approved by the chairman of the commission.

(c) The commission shall cease to exist within thirty days after the date of the expiration of the celebration.

SEC. 4. There is authorized to be appropriated the sum of $15,000, or so much thereof as may be necessary, to carry out the purposes of this joint resolution.

Mr. LEWIS of Maryland. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Strike out all after the enacting clause of Senate joint resolution 255 and insert in lieu thereof the following:

That there is hereby established a commission to be known as the United States Antietam Celebration Commission (hereinafter referred to as the Commission) and to be composed of seven Commissioners, as follows: Three persons to be appointed by the President of the United States; two Senators, by the President of the Senate; and two Representatives, by the Speaker of the House of Representatives. The Commissioners shall serve without compensation and shall select a chairman from among their number.

SEC. 2. It shall be the duty of the Commission to arrange, in cooperation with State, county, and other organizations, an appropriate observance and celebration, to take place during the week of September 12, 1937, of the seventy-fifth anniversary of the Battle of Antietam.

SEC. 3. The Commission shall cease to exist within thirty days after the date of the expiration of the celebration.

The amendment was agreed to.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

A similar House resolution (H. J. Res. 571) was laid on the table.

ADJUSTMENT OF BOUNDARY OF THE FORT MARION NATIONAL MONUMENT, FLORIDA

Mr. WILCOX. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 12220) to authorize the adjustment of the boundary of the Fort Marion National Monument, Florida, in the vicinity of Fort Marion Circle, and for other purposes, with a Senate amendment thereto, and agree to the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

After line 13 insert:

SEC. 2. That the Secretary of the Interior be, and he is hereby, authorized to accept donations of land, interests in land or buildings, structures, and other property adjacent to and within a distance of 1,500 feet of the boundary of the Fort Marion National Monument in the vicinity of Fort Marion Circle and the Old City Gates, and donations of funds for the purchase and maintenance thereof, the title and evidence of title to lands acquired to be satisfactory to the Secretary of the Interior: *Provided*, That he may acquire on behalf of the United States out of any donated funds, by purchase at prices deemed by him reasonable or by condemnation under the provisions of the act of August 1, 1888, such tracts of land adjacent to the boundary of the Fort Marion National Monument in the vicinity of Fort Marion Circle and the Old City Gates as may be deemed desirable by him for addition to the monument.

SEC. 3. That any lands acquired on behalf of the United States under the provisions of this act shall be, and the same are hereby, added to the Fort Marion National Monument and shall be subject to the laws, rules, and regulations applicable to said monument.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

There was no objection.

The Senate amendment was concurred in.

A motion to consider was laid on the table.

PRELIMINARY EXAMINATION OF THE INTRACOASTAL WATERWAY IN FLORIDA

Mr. WILCOX. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (H. R. 12458) authorizing a preliminary examination of the intracoastal waterway throughout Broward County, Fla.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That the Secretary of War is authorized and directed to cause a preliminary examination to be made of the intracoastal waterway throughout Broward County, Fla., with a view to the control of floods in the said intracoastal waterway, in accordance with the provisions of section 3 of the act entitled, "An act to provide for control of floods of the Mississippi River and of the Sacramento River, Calif., and for other purposes", approved March 1, 1917, the cost thereof to be paid from appropriations heretofore or hereafter made for examinations, surveys, and contingencies of rivers and harbors.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

EXTENSION AND RENEWAL OF LEASE TO THE CHICAGO, MILWAUKEE & ST. PAUL RAILWAY

Mr. MURDOCK. Mr. Speaker, on behalf of the gentleman from Montana [Mr. AYERS], I ask unanimous consent for the immediate consideration of the bill (S. 4567) to authorize the Secretary of Agriculture to extend and renew for the term of 10 years a lease to the Chicago, Milwaukee & St. Paul Railway Co. of a tract of land in the United States Department of Agriculture Range Livestock Experiment Station, in the State of Montana, and for a right-of-way to said tract, for the removal of gravel and ballast material, executed under the authority of the act of Congress approved June 9, 1926.

The SPEAKER. Is there objection to the request of the gentleman from Utah?

Mr. SNELL. Mr. Speaker, reserving the right to object, I think the gentleman better tell us what this bill is all about.

Mr. MURDOCK. I spoke to the gentleman this morning about the bill. This is merely an authorization for the

Department of Agriculture to renew a lease on certain gravel land in the State of Montana to the Chicago, Milwaukee & St. Paul Railroad Co.

The SPEAKER. Is there objection to the request of the gentleman from Utah?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That the Secretary of Agriculture be, and he is hereby, authorized, in his discretion, to extend and renew for a term of 10 years that certain lease to the Chicago, Milwaukee & St. Paul Railway Co., bearing date the 26th day of June 1926, of a tract of land in the United States Department of Agriculture Range Livestock Experiment Station, in the State of Montana, containing an approximate area of 241.67 acres, and also a strip of land for a right-of-way to said tract, executed by the Secretary of Agriculture under the authority of the act of Congress approved June 9, 1926, upon the terms and conditions contained in said lease, or such other terms and conditions as the Secretary of Agriculture may deem proper; said renewal and extension to inure to the benefit of Chicago, Milwaukee, St. Paul & Pacific Railroad Co. (successor of said railway company), its trustees in bankruptcy, and of the corporation succeeding to the ownership of its railroad and property.

The bill was ordered to be read a third time, was read the third time and passed, and a motion to reconsider was laid on the table.

A similar House bill (H. R. 12694) was laid on the table.

CONTRACTS UNDER THE AGRICULTURAL ADJUSTMENT ACT

Mr. DRIVER. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 4786) to authorize the Secretary of Agriculture to make such adjustments and revisions found to be due on contracts entered into by the Government with crop producers under the Agricultural Adjustment Act.

The Clerk read the title of the bill.

Mr. SNELL. Mr. Speaker, reserving the right to object, I would like to ask the gentleman a question. As I understand the situation, this bill is purely local and entails no additional burden on the Treasury.

Mr. DRIVER. None whatever.

Mr. SNELL. It is simply a readjustment of claims among the gentleman's own people.

Mr. DRIVER. It authorizes the Secretary of Agriculture to make adjustments of the claims among our local people within the quota limits and without the cost of an additional dollar.

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That the third sentence of the item "Payments for agricultural adjustment" contained in the Supplemental Appropriation Act, fiscal year 1936 (Public, No. 440, 74th Cong.), is amended by striking out the period at the end thereof and inserting in lieu thereof a semicolon and the following: "and the determination of the Secretary as to the correct base acreage and production figures (regardless of the figures on which the contract was based) and as to the person or persons entitled to receive such fair and equitable payments shall be final and conclusive."

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

CONTESTED-ELECTION CASE OF LANZETTA *v.* MARCANTONIO

Mr. BUCHANAN. Mr. Speaker, I ask unanimous consent for the present consideration of a joint resolution, which I send to the Clerk's desk, making appropriations for the payment of expenses incurred in the election contest for a seat in the House of Representatives from the Twentieth Congressional District of the State of New York.

The Clerk read the title of the joint resolution.

There being no objection, the Clerk read the joint resolution, as follows:

House Joint Resolution 641

Resolved, etc., That the following sums, respectively, are hereby appropriated, out of any money in the Treasury not otherwise appropriated, for payment to the contestant and the contestee for expenses incurred in the contested-election case of Lanzetta against Marcantonio, Twentieth Congressional District of the State of New York, as audited and recommended by the Committee on Elections No. 1 of the House of Representatives, namely:

To James J. Lanzetta, contestant, $2,000.

To Vito Marcantonio, contestee, $1,739.83.

The foregoing sums to be disbursed by the Clerk of the House of Representatives.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

HOLDING COURT FOR THE EASTERN DISTRICT OF NORTH CAROLINA

Mr. WALTER. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (H. R. 12796) to amend the act entitled "An act to provide for the times and places for holding court for the eastern district of North Carolina", approved May 10, 1928, as amended (U. S. C., 1934 ed., title 28, sec. 179; U. S. C., Supp. I, title 28, sec. 179).

The Clerk read the title of the bill.

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That the act entitled "An act to provide for the times and places for holding court for the eastern district of North Carolina", approved May 10, 1928, as amended (U. S. C., 1934 ed., title 28, sec. 179; U. S. C., Supp. I, title 28, sec. 179), is amended to read as follows:

"That the terms of the District Court for the Eastern District of North Carolina shall be held at Raleigh, a 1-week civil term, on the second Mondays in September and March; and at the following places on each succeeding Mondays thereafter: Fayetteville, Elizabeth City, Washington, New Bern, Wilson, Wilmington, and Raleigh, the term at Raleigh being a criminal term only."

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

ANDREW JOHNSON

Mr. BUCK. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 4364) for the relief of Andrew Johnson, with a Senate amendment, and concur in the Senate amendment.

The Clerk read the Senate amendment, as follows:

Page 1, line 5, strike out "not otherwise appropriated" and insert "allocated by the President for the maintenance and operation of the Civilian Conservation Corps."

The SPEAKER. Is there objection to the request of the gentleman from California?

There was no objection.

The Senate amendment was concurred in.

A motion to reconsider was laid on the table.

INVESTIGATION OF CORPORATIONS ENGAGED IN MANUFACTURE, SALE, OR DISTRIBUTION OF AGRICULTURAL IMPLEMENTS AND MACHINERY

Mr. LEA of California. Mr. Speaker, I ask unanimous consent for the immediate consideration of the joint resolution (S. J. Res. 277) to investigate corporations engaged in the manufacture, sale, or distribution of agricultural implements and machinery.

There being no objection, the Clerk read the Senate joint resolution, as follows:

Resolved, etc., That the Federal Trade Commission be, and it is hereby, directed under the authority of and in pursuance of the act entitled "An act to create a Federal Trade Commission, to define its powers and duties, and for other purposes", approved September 26, 1914, as amended, to investigate and report to the Congress the facts relating to—

(a) Whether any corporation engaged in the manufacture, sale, or distribution of agricultural implements and machinery, of whatever kind and description is, or within the past 3 years has been, violating any of the antitrust acts of the United States, and the nature, extent, and effects of any such violation;

(b) The existence and effect of any contract, agreement, combination, or conspiracy in unlawful restraint of trade and the existence of any unfair methods of trade or competition in connection with the manufacture, sale, and distribution of said agricultural implements and machinery;

(c) Whether and to what extent methods of price fixing, price maintenance, and price discrimination in violation of the antitrust acts exist in connection with the manufacture, sale, and distribution of said agricultural implements and machinery;

(d) Any developments and tendencies in the direction of monopoly and concentration of ownership or control of the means of the manufacture, sale, or distribution of said agricultural implements and machinery;

(e) The existence of any combination to restrict or control the manufacture or supply of agricultural implements or machinery or to raise or control the price thereof, or to restrict credit in the sale thereof;

(f) Whether and to what extent the present prces of agricultural implements and machinery are due to any violations of any of the antitrust laws;

(g) Whether and to what extent costs and profits of any corporation engaged in the manufacture, sale, or distribution of agricultural implements and machinery have been affected, enhanced, or maintained by unlawful combinations, agreements, or understandings, or any other violations of the antitrust laws, and whether and to what extent costs and profits of any such corporations have been misstated or misrepresented to conceal or promote violations of the antitrust laws;

(h) The extent of concentration of control of manufacture and distribution of such equipment in the hands of particular manufacturers and the basis thereof;

(i) The costs, prices, and profits of manufacturers and distributors of agricultural implements and machinery;

(j) The distribution methods and dealer price spreads of margins entering into prices paid by farmers for agricultural machinery and equipment;

(k) The facts regarding the relative price movements of farm machinery and farm products since 1914;

(l) The facts regarding the relative price movements of farm machinery and implements and some of the machinery and implements of somewhat comparable material and labor;

(m) Any other pertinent facts regarding the present prices of agricultural implements and machinery, and the cause thereof; and

(n) What measures, legislative or otherwise, in the opinion of the Commission are needed to correct conditions in the farm-implement industry adversely affecting the interest of farmers.

The joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

A similar House bill was laid on the table.

CONTROL OF GRASSHOPPERS

Mr. JONES. Mr. Speaker, I ask unanimous consent for the immediate consideration of a joint resolution, H. J. Res. 642, by the gentleman from Oklahoma [Mr. MASSINGALE], to enable the Secretary of Agriculture to apply such methods of control of grasshoppers as in his judment may be necessary, which I send to the Clerk's desk.

The Clerk read the joint resolution, as follows:

House Joint Resolution 642

Resolved, etc., That for the application of such methods of control of grasshoppers as, in the judgment of the Secretary of Agriculture, may be necessary, in cooperation with such authorities of the States concerned, organizations, or individuals as he may deem essential to accomplish such purposes, including the employment of persons and means in the District of Columbia and elsewhere, printing and binding, rent outside of the District of Columbia, and for other expenses, there is hereby appropriated, out of any money in the Treasury not otherwise appropriated, the sum of $250,000, to remain available until June 30, 1937: *Provided*, That this appropriation shall be used for expenditures of general administration and supervision, purchase and transportation of poisoned bait, or materials for its manufacture, and such other expenses as in the discretion of the Secretary of Agriculture may be deemed necessary and that the cooperating States shall be responsible for the local distribution and utilization of such bait on privately owned lands, including full labor costs: *Provided further*, That, in the discretion of the Secretary of Agriculture, no part of this appropriation shall be expended for grasshopper control in any State until such State has provided the necessary organization for the cooperation herein indicated: *Provided further*, That no part of this appropriation shall be used to pay the cost or value of farm animals, farm crops, or other property injured or destroyed: *Provided further*, That procurements under this appropriation may be made by open-market purchases notwithstanding the provisions of section 3709 of the Revised Statutes of the United States (U. S. C., title 41, sec. 5).

Mr. JONES. Mr. Speaker, this makes available to the Secretary of Agriculture a certain amount of money for the purpose of furnishing materials for the poisoning of grasshoppers in a number of States. I think there are some 12 or 13 States where the pests exist. There is a limit of $250,000 on the total to be expended, and only for material.

Mr. MARTIN of Colorado. Is Kansas among those 12 or 13 States?

Mr. JONES. I understand so.

The SPEAKER. Is there objection?

Mr. WADSWORTH. Mr. Speaker, I reserve the right to object. Does this provide for a new appropriation?

Mr. JONES. It provides for a new appropriation. The first resolution was introduced to make available unexpended balances, but it was found that the appropriation had a time limit of December 31, 1935. Therefore, the unexpended balance has reverted to the Treasury. There is more than enough from the old appropriation for other pests to furnish this amount, but, as I say, it has reverted to the Treasury.

Mr. SNELL. How much did we appropriate last year?

Mr. JONES. Two million dollars.

The SPEAKER. Is there objection?

Mr. RICH. Mr. Speaker, I reserve the right to object. Will the gentleman yield?

Mr. JONES. Yes.

Mr. RICH. How much does the gentleman say this is going to require?

Mr. JONES. Not to exceed $250,000.

Mr. RICH. And it is new money?

Mr. JONES. Yes; because the other had reverted to the Treasury.

Mr. RICH. The trouble of it is, can you tell us where we can get the money?

Mr. JONES. Out of the savings of the new over the old administration. A very small percentage of the additional profits and values under the New Deal over and above values and profits of the previous administration would far more than cover all of these appropriations.

The SPEAKER. Is there objection?

There was no objection.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider laid on the table.

SOIL CONSERVATION

Mr. JONES. Mr. Speaker, I ask unanimous consent to take from the Speaker's table Senate Joint Resolution 291 and for its present consideration.

The SPEAKER. The gentleman from Texas asks unanimous consent for the present consideration of Senate Joint Resolution 291, amending section 11 of the Soil Conservation and Domestic Allotment Act, which the Clerk will report.

The Clerk read as follows:

Senate Joint Resolution 291

Resolved, etc., That section 11 of the Soil Conservation and Domestic Allotment Act (Public, No. 461, 74th Cong.) is amended by striking out the period at the end thereof and adding the following: "And for payments to committees or associations of producers in any region or regions to cover the estimated administrative expenses to be incurred by any such committee or association in cooperating in carrying out this act: *Provided*, That the Secretary may prescribe that all or part of such estimated expenses of any such committee or association may be deducted pro rata from the payments or grants made to the members thereof: *And provided further*, That the Secretary may make such payments in advance of determination of performance."

The SPEAKER. Is there objection?

Mr. SNELL. Mr. Speaker, what is this?

Mr. JONES. This simply enables them to pay the county and community committees in administering the soil-conservation program, and to pay them currently. In section 11 of the Soil Conservation Act they are authorized to use the various agencies of the Government, but unless they make these direct employees of the Government of the United States, they are unable to pay them until after the program is finished. They pay them only a small amount and they want to turn it over to the local associations as they did under the old act.

Mr. SNELL. And distribute more money for election purposes.

Mr. JONES. No; it has not anything to do with that. In fact, these committees are selected by the farmers themselves. They are selected, not as party men, but as farmers.

The SPEAKER. Is there objection?

There was no objection.

The joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider laid on the table.

WAR MINERALS RELIEF ACT

Mr. COX. Mr. Speaker, I ask unanimous consent for the present consideration of S. 1567, to amend section 5 of

the act of March 2, 1919, generally known as the War Minerals Relief Act.

The SPEAKER. Is there objection?

Mr. SNELL. As I understand, that is the bill that the gentleman spoke to me about, for which he has a rule?

Mr. COX. Yes.

The SPEAKER. The Clerk will report the Senate bill.

The Clerk read as follows:

Be it enacted, etc., That no person who filed a claim in accordance with the provisions of section 5 of the act entitled "An act to provide relief in cases of contracts connected with prosecution of the war, and for other purposes", approved March 2, 1919, shall be deprived of any of the benefits of said act as amended by the act of February 13, 1929, by reason of failure to file suit under said amendment in the Supreme Court of the District of Columbia or through abatement of any suit so filed.

Upon petition to the Secretary of the Interior in such abated suits, and in claims wherein no suits were filed under the said amendment, the Secretary is hereby authorized and directed to review all such claims upon matters of fact and, in the light of decisions of the Supreme Court of the District of Columbia in similar cases, and in accordance with the provisions of the said act, as amended, to make awards or additional awards in said claims as he may determine to be just and equitable.

SEC. 2. The rights of any deceased claimant under section 5 of said act shall be held and considered to descend to the legal representatives as personal property of such deceased claimant.

SEC. 3. This act shall not authorize payment to be made of any claim not presented to the Secretary of the Interior within 6 months after its approval.

The SPEAKER. Is there objection?

There was no objection.

Mr. CRAVENS. Mr. Speaker, I offer the following amendment, which I send to the desk and ask to have read.

The Clerk read as follows:

Amendment offered by Mr. CRAVENS: In line 3, section 1, substitute the word "claimant" for "person"; after the word "and", at the end of line 4, page 2, insert "any newly presented evidence or facts not before his predecessors and except where in conflict with the provisions of this act"; and for "Supreme Court of the District of Columbia", in lines 5 and 6, page 2, substitute "courts."

After the word "claimant" in line 13, section 2, insert: "The rights of any corporation which filed a claim under section 5 of the act of March 2, 1919, but which ceased to exist at any time after filing such claim, shall be held and considered to descend

"(1) to the persons who at the time such corporation ceased to exist were entitled under the laws of the State of incorporation to share in the assets of such corporation upon the dissolution thereof, or if any such person be dead, or dies after the enactment of this act but before he receives the benefits of this act, to his legal representative as personal property; and

"(2) to any officer, director, or stockholder of such corporation at the time it ceased to exist as trustee for the persons or legal representatives referred to in clause (1); and such persons or their legal representatives and such officers, directors, and stockholders shall be entitled to the benefits of this act."

The SPEAKER. The question is on the amendment offered by the gentleman from Arkansas [Mr. CRAVENS].

Mr. CRAVENS. Mr. Speaker, this bill is for the relief of certain prospectors and miners who, during the period of the World War, attemted to produce the mineral necessary for the proper carrying on of the war. They were provided for in a bill which was enacted in 1929. There are practically 94 claims affecting probably 275 claimants. When notices were sent out to these people of their right to file their suits in the Supreme Court of the District of Columbia, they had removed from their former residences and the notices mailed out to them were returned to such an extent that the Department stopped sending out the notices. These old miners received no notice of their right to prosecute their claims in the District of Columbia Supreme Court.

Mr. HOLMES. Mr. Speaker, will the gentleman yield?

Mr. CRAVENS. I yield.

Mr. HOLMES. Had these miners at that time surrendered their rights in the property involved?

Mr. CRAVENS. I do not understand the gentleman's question.

Mr. HOLMES. Had they vacated the property? Were they the owners of the property at the time the notices were sent out?

Mr. CRAVENS. These miners and prospectors had attempted to develop mining which would produce the necessary ores and minerals for the war. At the cessation of the war they abandoned their claims and moved away. Their addresses were not known. These are the only claimants, as I understand it, who have not received from the Government recognition.

Mr. DONDERO. Mr. Speaker, will the gentleman yield?

Mr. CRAVENS. I yield.

Mr. DONDERO. How much is involved in the bill?

Mr. CRAVENS. About $75,000. It is already provided for. It does not require any appropriation.

Mr. HOLMES. Will the gentleman yield further?

Mr. CRAVENS. Yes; I yield.

Mr. HOLMES. Have these miners received anything at all for the prospecting they did and the work they did on the claims?

Mr. CRAVENS. Nothing at all.

Mr. HOLMES. And they abandoned the claims?

Mr. CRAVENS. After the necessity for mining they did; yes.

Mr. HOLMES. They did abandon the claims?

Mr. CRAVENS. Yes.

Mr. MAPES. Mr. Speaker, will the gentleman yield?

Mr. CRAVENS. I yield.

Mr. MAPES. The Committee on Rules granted a rule to make this bill in order, and to save time unanimous consent was granted to bring up the bill without the addition of the rider. Nothing was said before the Committee on Rules about the amendment which the gentleman has introduced, and the amendment seems to be as long, if not longer, than the bill itself. The gentleman has not yet said anything about what the amendment provides. All I could gather from the reading of the amendment was that it gave jurisdiction to courts other than the Supreme Court of the District of Columbia to hear these claims?

Mr. CRAVENS. The gentleman is mistaken.

Mr. MAPES. Will the gentleman tell us just what the amendment proposes? Does it enlarge the scope of the bill?

Mr. CRAVENS. No, sir; it does not.

Mr. MAPES. Will the gentleman tell us what it does do?

Mr. COX. The gentleman might read the statement prepared by the agency having to do with these claims.

Mr. CRAVENS. I thank the gentleman for his suggestion. These amendments, as I understand it, were prepared by the Department. This bill meets with the approval of the Department and also the War Minerals Board, as I am informed, and is reported unanimously by the Committee on Mines and Mining.

Mr. MAPES. What effect do the amendments have upon the bill?

Mr. CRAVENS. None at all except to clarify it.

Mr. RICH. Will the gentleman yield?

Mr. CRAVENS. I yield.

Mr. RICH. Is this for a direct payment, or is it for permission to go before the courts?

Mr. CRAVENS. It gives them permission to go before the Secretary of the Interior.

The SPEAKER. The time of the gentleman from Arkansas [Mr. CRAVENS] has expired.

Mr. JENKINS of Ohio. Mr. Speaker, I rise in opposition to the amendment, not that I am especially opposed to it, but it strikes me that this bill should not have been brought up under unanimous consent, because it carries with it an adverse report by the Secretary of the Interior. And it provides for the payment of $75,000 of outlawed claims. This is the stepchild of an old bill that has been in this House for 15 or 20 years. I should like to know from the gentleman who introduced the amendment whether the claim of the Ashcrafts, down in Atlanta, Ga., is included in this?

Mr. CRAVENS. I do not understand the gentleman's question.

Mr. JENKINS of Ohio. I want to know whether the claim of the Ashcrafts, who claimed seven or eight hundred thousand dollars for war minerals claims in this same group, is included in this bill?

Mr. COX. There is no connection whatever.

The SPEAKER. Will the gentleman permit the Chair to answer? It is a little irregular, I know, but the Ashcrafts are not involved in this bill. The Chair knows that.

Mr. CRAVENS. The total amount involved in this is only $75,000.

Mr. JENKINS of Ohio. I should like to know if these claims are in the same group as the Ashcraft claim? The old bill provided for payment by the Government of nearly a million dollars, the majority part of which was to one group at Atlanta, Ga., I believe, by the name of Ashcraft. They were to get some seven or eight hundred thousand dollars, which represented practically nothing but back interest on a claim which had been adjudicated in full before.

Mr. COX. Mr. Speaker, will the gentleman yield?

Mr. JENKINS of Ohio. Yes; I yield.

Mr. COX. The gentleman is not correctly informed. It does not do any such thing. I know that case. It is in no wise related to any of the cases that are embraced in this bill.

Mr. JENKINS of Ohio. I know the Ashcraft bill and I know that what I am saying about that is correct.

Mr. COX. I know the bill, too, and I know the gentleman is in error.

Mr. JENKINS of Ohio. I do not want to get into any argument with the gentleman with reference to that, because I am satisfied with my own conclusions. We had that up in Congress many times, and I know we were able to defeat it every time it came up. I had a very active part in its defeat. I should like to know something more about the details of the pending bill as it applies to the Ashecraft claim if anyone can tell me about it.

Mrs. GREENWAY. Mr. Speaker, will the gentleman yield?

Mr. JENKINS of Ohio. Yes; I yield if the gentlewoman can answer my question.

Mrs. GREENWAY. I cannot answer the gentleman's question, because I know nothing about that bill, but I do know something about this bill.

Mr. JENKINS of Ohio. Then I yield to somebody who can answer me.

Mr. COX. Why does not the gentleman let the gentlewoman complete her statement.

Mr. JENKINS of Ohio. She can make it in her own time.

Mr. COX. Let her give her answer.

Mr. JENKINS of Ohio. She says she does not know about it. I want to know whether the pending bill has anything to do with the Ashcraft bill.

Mr. MILLER. If the gentleman will yield I will tell the gentleman.

Mr. JENKINS of Ohio. I yield to the gentleman from Arkansas.

Mr. MILLER. This bill simply covers the claims of 94 miners and has nothing whatever to do with the Ashcraft case. As the gentleman knows I opposed that bill.

The pending bill applies to these 94 miners, itinerant miners, you might call them, who went in there to develop that property during the war, relying upon the War Minerals Act. Then they disappeared, and this represents money they actually expended in development of the property at the request of the Government.

Mr. JENKINS of Ohio. Now, let me ask the gentleman a question. The gentleman remembers the Ashcraft case?

Mr. MILLER. I remember it.

Mr. JENKINS of Ohio. The gentleman says this case has no relationship to that. Those cases, as the gentleman will remember, had been adjudicated in the courts, some of them going to the Supreme Court. Have any of these cases been adjudicated in any court? If they have not, then they may have some merits which we should consider. Now, I should like to know whether any of these claims have ever been considered in any court.

Mr. MILLER. No. Absolutely not. This bill relates to 94 "one gallus" miners; that is all; it just applies to them.

Mr. SNELL. Mr. Speaker, will the gentleman from Ohio yield that I may ask the gentleman from Arkansas a question?

Mr. JENKINS of Ohio. I yield to the distinguished gentleman from New York, my floor leader.

Mr. SNELL. Why were these claims not included in the amendment to the war minerals relief bill we passed 2 or 3 weeks ago?

Mr. MILLER. No; because they come under a different heading. These fellows never did get the notice and never did in fact file their claims, and there was no adjudication of any kind of any of these particular 94 claims.

Mr. SNELL. This is the third or fourth time we have passed legislation taking care of miners. The gentleman can assure the House that this absolutely and finally closes it up?

Mr. MILLER. I will say I think so.

Mr. SNELL. God be praised!

The SPEAKER. The question is on the amendment of the gentleman from Arkansas.

The amendment was agreed to.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider and House Resolution 540 were laid on the table.

MEDICAL ADMINISTRATIVE CORPS

Mr. McSWAIN. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 4390) to amend the National Defense Act relating to the Medical Administrative Corps.

The Clerk read the title of the bill.

Mr. SNELL. Mr. Speaker, reserving the right to object, will the gentleman explain the bill?

Mr. McSWAIN. Mr. Speaker, this bill merely proposes to modify the law with regard to the Medical Administrative Corps so that 16 of the Medical Administrative Corps officers may be commissioned as pharmacists. The bill requires that those who are so commissioned must have graduated from a regularly recognized pharmaceutical college after a 4-year course. It will not cost one single additional cent. The bill has the approval of the Bureau of the Budget and is urgently and insistently requested by the Surgeon General of the Army.

The SPEAKER. Is there objection to the present consideration of the bill?

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That the third sentence of section 24e of the National Defense Act, as amended by the act of June 4, 1920 (41 Stat. 759, 774), is hereby amended by striking out that portion relating to the qualifications for appointment in the Medical Administrative Corps, which reads, "enlisted men of the Medical Department between the ages of 21 and 32 years, who have had at least 2 years' service", and substituting therefor the following: "pharmacists between the ages of 21 and 32 years who are graduates of recognized schools or colleges of pharmacy requiring 4 years of instruction for graduation, under such regulations and after such examination as the Secretary of War shall prescribe: *And provided further*, That the number of such pharmacists in the Medical Administrative Corps shall not exceed 16."

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

LITTLE ROCK CONFEDERATE CEMETERY, ARK.

Mr. McSWAIN. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 4190) to amend the act approved February 7, 1913, so as to remove restrictions as to the use of the Little Rock Confederate Cemetery, Ark., and for other purposes. I do not think there can be any objection to this bill. It will take but a moment.

The Clerk read the title of the bill.

The SPEAKER. Is there objection?

Mr. SNELL. I am constrained to object to the consideration of this bill, Mr. Speaker.

THE TAX BILL

Mr. DOUGHTON submitted the following conference report on the bill (H. R. 12395) to provide revenue, equalize taxation, and for other purposes:

Mr. DOUGHTON submitted the following report:

CONFERENCE REPORT

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 12395) to provide revenue, equalize taxation, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendments of the Senate numbered 44, 45, 47, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 71, 72, 73, 74, 75, 76, 77, 79, 80, 81, 85, 86, 87, 88, 90, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 111, 113, 116, 117, 119, 122, 123, 124, 125, 126, 129, 131, 134, 135, 136, 139, 140, 141, 142, 143, 144, 145, 148, 149, 150, 151, 155, 156, 157, 158, 166, 167, 168, 169, 171, 172, 173, 174, 175, 176, 177, 178, 180, 181, 182, 183, 184, 186, 187, 188, 189, 192, 193, 194, 195, 196, 197, 199, 200, 201, 202, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 221, 223, 224, 225, 226, 227, 228, 229, 230, 231, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 244, 247, 248, 249, 266, 267, 269, 270, 271, 275, 276, 277, 278, 279, 280, 282, 283, 284, 285, 287, and 288, and agree to the same.

That the Senate recede from its amendments numbered 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 68, 82, 83, 115, 120, 127, 146, 152, 159, 160, 161, 191, 198, 220, 222, 243, 250, 251, 260, 261, 264, and 289.

Amendment numbered 46: That the House recede from its disagreement to the amendment of the Senate numbered 46, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 13. NORMAL TAX ON CORPORATIONS.

"(a) Definition.—As used in this title the term 'normal-tax net income' means the net income minus the sum of—

"(1) Interest on Obligations of the United States and Its Instrumentalities.—The credit provided in section 26 (a).

"(2) Dividends Received.—The credit provided in section 26 (b). Such credit shall not be allowed in the case of a mutual investment company, as defined in section 48.

"(3) Dividends Paid.—In the case of a mutual investment company the credit provided in section 27, computed without the benefit of subsection (b) thereof (relating to dividend carryover).

"(b) Imposition of Tax.—There shall be levied, collected, and paid for each taxable year upon the normal-tax net income of every corporation, a normal tax as follows:

"Upon normal-tax net incomes not in excess of $2,000, 8 per centum.

"$160 upon normal-tax net incomes of $2,000; and upon normal-tax net incomes in excess of $2,000 and not in excess of $15,000, 11 per centum in addition of such excess.

"$1,590 upon normal-tax net incomes of $15,000; and upon normal-tax net incomes in excess of $15,000 and not in excess of $40,000, 13 per centum in addition of such excess.

"$4,840 upon normal-tax net incomes of $40,000; and upon normal-tax net incomes in excess of $40,000, 15 per centum in addition of such excess.

"(c) Exempt Corporations.—For corporations exempt from taxation under this title, see section 101.

"(d) Banks and Trust Companies.—For rate of tax on certain banks and trust companies, see section 104.

"SEC. 14. SURTAX ON UNDISTRIBUTED PROFITS.

"(a) Definitions.—As used in this title—

"(1) The term 'adjusted net income' means the net income minus the sum of—

"(A) The normal tax imposed by section 13.

"(B) The credit provided in section 26 (a), relating to interest on certain obligations of the United States and Government corporations.

"(C) In the case of a holding company affiliate (as defined in section 2 of the Banking Act of 1933), the amount allowed as a credit under section 26 (d).

"(D) In the case of a national mortgage association created under Title III of the National Housing Act, the amount allowed as a credit under section 26 (e).

"(2) The term 'undistributed net income' means the adjusted net income minus the sum of the dividends paid credit provided in section 27 and the credit provided in section 26 (c), relating to contracts restricting dividends.

"(b) Imposition of Tax.—There shall be levied, collected, and paid for each taxable year upon the net income of every corporation a surtax equal to the sum of the following, subject to the application of the specific credit as provided in subsection (c):

"7 per centum of the portion of the undistributed net income which is not in excess of 10 per centum of the adjusted net income.

"12 per centum of the portion of the undistributed net income which is in excess of 10 per centum and not in excess of 20 per centum of the adjusted net income.

"17 per centum of the portion of the undistributed net income which is in excess of 20 per centum and not in excess of 40 per centum of the adjusted net income.

"22 per centum of the portion of the undistributed net income which is in excess of 40 per centum and not in excess of 60 per centum of the adjusted net income.

"27 per centum of the portion of the undistributed net income which is in excess of 60 per centum of the adjusted net income.

"(c) Adjusted Net Income Less Than $50,000—

"(1) Specific Credit.—If the adjusted net income is less than $50,000, there shall be allowed a specific credit equal to the portion of the undistributed net income which is in excess of 10 per centum of the adjusted net income and not in excess of $5,000, such credit to be applied as provided in paragraph (2).

"(2) Application of Specific Credit.—If the corporation is entitled to a specific credit, the tax shall be equal to the sum of the following:

"(A) A tax computed under subsection (b) upon the amount of the undistributed net income reduced by the amount of the specific credit, plus

"(B) 7 per centum of the amount of the specific credit.

"(d) Exemption From Surtax.—The following corporations shall not be subject to the surtax imposed by this section:

"(1) Banks as defined in section 104.

"(2) Domestic corporations which for any portion of the taxable year are in bankruptcy under the laws of the United States, or are insolvent and in receivership in any court of the United States or of any State, Territory, or the District of Columbia.

"(3) Insurance companies subject to the tax imposed under section 201, 204, or 207.

"(4) Foreign corporations.

"(5) Corporations which, by reason of deriving a large portion of their gross income from sources within a possession of the United States, are entitled to the benefits of section 251.

"(6) Corporations organized under the China Trade Act, 1922.

"(7) Joint Stock Land Banks organized under the Federal Farm Loan Act, as amended.

"(e) Exempt Corporations.—For corporations exempt from taxation under this title, see section 101.

"(f) Tax on Personal Holding Companies.—For surtax on personal holding companies, see section 351.

"(g) Improper Accumulation of Surplus.—For surtax on corporations which accumulate surplus to avoid surtax on stockholders, see section 102."

And the Senate agree to the same.

Amendment numbered 48: That the House recede from its disagreement to the amendment of the Senate numbered 48 ,and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 26. CREDITS OF CORPORATIONS.

"In the case of a corporation the following credits shall be allowed to the extent provided in the various sections imposing tax—

"(a) Interest on Obligations of the United States and Its Instrumentalities.—The amount received as interest upon obligations of the United States or of corporations organized under Act of Congress which is allowed to an individual as a credit for purposes of normal tax by sections 25 (a) (1) or (2).

"(b) Dividends Received.—85 per centum of the amount received as dividends from a domestic corporation which is subject to taxation under this title. The credit allowed by this subsection shall not be allowed in respect of dividends received from a corporation organized under the China Trade Act, 1922, or from a corporation which under section 251 is taxable only on its gross income from sources within the United States by reason of its receiving a large percentage of its gross income from sources within a possession of the United States.

"(c) Contracts Restricting Payment of Dividends.—

"(1) Prohibition on Payment of Dividends.—An amount equal to the excess of the adjusted net income over the aggregate of the amounts which can be distributed within the taxable year as dividends without violating a provision of a written contract executed by the corporation prior to May 1, 1936, which provision expressly deals with the payment of dividends. If a corporation would be entitled to a credit under this paragraph because of a contract provision and also to one or more credits because of other contract provisions, only the largest of such credits shall be allowed, and for such purpose if two or more credits are equal in amount only one shall be taken into account.

"(2) Disposition of Profits of Taxable Year.—An amount equal to the portion of the earnings and profits of the taxable year which is required (by a provision of a written contract executed by the corporation prior to May 1, 1936, which provision expressly deals with the disposition of earnings and profits of the taxable year) to be paid within the taxable year in discharge of a debt, or to be irrevocably set aside within the taxable year for the discharge of a debt; to the extent that such amount has been so paid or set aside. For the purposes of this paragraph, a requirement to pay or set aside an amount equal to a percentage of earnings and profits shall be considered a requirement to pay or set aside such percentage of earnings and profits. As used in this paragraph, the word 'debt' does not include a debt incurred after April 30, 1936.

"(3) Double Credit Not Allowed.—If both paragraph (1) and paragraph (2) apply, the one of such paragraphs which allows the greater credit shall be applied; and, if the credit allowable under each paragraph is the same, only one of such paragraphs shall be applied.

"(d) Bank Affiliates.—In the case of a holding company affiliate (as defined in section 2 of the Banking Act of 1933), the amount of the earnings or profits which the Board of Governors of the Federal Reserve System certifies to the Commissioner has been

devoted by such affiliate during the taxable year to the acquisition of readily marketable assets other than bank stock in compliance with section 5144 of the Revised Statutes. The aggregate of the credits allowable under this subsection for all taxable years shall not exceed the amount required to be devoted under such section 5144 to such purposes.

"(e) National Mortgage Associations.—In the case of a national mortgage association created under Title III of the National Housing Act, the amount of the earnings or profits which the Federal Housing Administrator certifies to the Commissioner has been devoted by such association during the taxable year to the acquisition of such reserves as the Administrator may require under the provisions of section 303 of that Act."

And the Senate agree to the same.

Amendment numbered 67: That the House recede from its disagreement to the amendment of the Senate numbered 67, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment, insert "and Title IA"; and the Senate agree to the same.

Amendment numbered 69: That the House recede from its disagreement to the amendment of the Senate numbered 69, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

"(18) Religious or apostolic associations or corporations, if such associations or corporations have a common treasury or community treasury, even if such assciations or corporations engage in business for the common benefit of the members, but only if the members thereof include (at the time of filing their returns) in their gross income their entire pro-rata shares, whether distributed or not, of the net income of the association or corporation for such year. Any amount so included in the gross income of a member shall be treated as a dividend received."

And the Senate agree to the same.

Amendment numbered 70: That the House recede from its disagreement to the amendment of the Senate numbered 70, and agree to the same with an amendment as follows: On page 79 of the House bill strike out lines 7 to 11, both inclusive, and insert the following:

"(1) In the case of corporations not subject to the surtax on undistributed profits imposed by section 14, a surtax equal to the sum of the following:

"25 per centum of the amount of the retained net income not in excess of $100,000, plus

"35 per centum of the amount of the retained net income in excess of $100,000.

"(2) In the case of corporations subject to the surtax on undistributed profits imposed by section 14, a surtax equal to the sum of the following:

"15 per centum of the amount of the retained net income not in excess of $100,000, plus

"25 per centum of the amount of the retained net income in excess of $100,000."

And the Senate agree to the same.

Amendment numbered 78: That the House recede from its disagreement to the amendment of the Senate numbered 78, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"(c) Definitions.—As used in this title—

"(1) Special Adjusted Net Income.—The term 'special adjusted net income' means the net income minus the sum of—

"(A) Taxes.—Federal income, war-profits, and excess-profits taxes paid or accrued during the taxable year, to the extent not allowed as a deduction by section 23, but not including the tax imposed by this section or a corresponding section of a prior income-tax law.

"(B) Disallowed Charitable, etc., Contributions.—Contributions or gifts, not otherwise allowed as a deduction, to or for the use of donees described in section 23(o), for the purposes therein specified.

"(C) Disallowed Losses.—Losses from sales or exchanges of capital assets which are disallowed as a deduction by section 117(d).

"(D) Bank Affiliates.—In the case of a holding company affiliate (as defined in section 2 of the Banking Act of 1933), the amount allowed as a credit under section 26(d).

"(E) National Mortgage Associations.—In the case of a national mortgage association created under Title III of the National Housing Act, the amount allowed as a credit under section 26 (e).

"(2) Retained Net Income.—The term 'retained net income' means the special adjusted net income minus the sum of the dividends paid credit provided in section 27 and the credit provided in section 26 (c), relating to contracts restricting dividends. For the purposes of this subsection, such credits shall be computed by substituting in section 26 (c) and in section 27 for the words 'adjusted net income' wherever appearing in such sections the words 'special adjusted net income.' "

And the Senate agree to the same.

Amendment numbered 84: That the House recede from its disagreement to the amendment of the Senate numbered 84, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"(e) Tax on Personal Holding Companies.—For surtax on personal holding companies, see section 351."

And the Senate agree to the same.

Amendment numbered 89: That the House recede from its disagreement to the amendment of the Senate numbered 89, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 104. BANKS AND TRUST COMPANIES.

"(a) (Definition: As used in this section the term 'bank' means a bank or trust company incorporated and doing business under the laws of the United States (including laws relating to the District of Columbia), of any State, or of any Territory, a substantial part of the business of which consists of receiving deposits and making loans and discounts, or of exercising fiduciary powers similar to those permitted to national banks under section 11 (k) of the Federal Reserve Act, as amended, and which is subject by law to supervision and examination by State or Federal authority having supervision over banking institutions.

"(b) Rate of tax: Banks shall be taxable in the same manner as other corporations, except that they shall not be subject to the surtax imposed by section 14, and except that the normal tax imposed by section 13 shall be at the rate of 15 per centum instead of at the rates provided in such section."

And the Senate agree to the same.

Amendment numbered 91: That the House recede from its disagreement to the amendment of the Senate numbered 91 and agree to the same with an amendment as follows:

On page 17, line 7, of the Senate engrossed amendments strike out "104" and insert 105; and the Senate agree to the same.

Amendment numbered 92: That the House recede from its disagreement to the amendment of the Senate numbered 92, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"(6) Property Received by Corporation on Complete Liquidation of Another.—No gain or loss shall be recognized upon the receipt by a corporation of property distributed in complete liquidation of another corporation. For the purposes of this paragraph a distribution shall be considered to be in complete liquidation only if—

"'(A) the corporation receiving such property was, on the date of the adoption of the plan of liquidation, and has continued to be at all times until the receipt of the property, the owner of stock (in such other corporation) possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote and the owner of at least 80 percent of the total number of shares of all other classes of stock (except nonvoting stock which is limited and preferred as to dividends), and was at no time on or after the date of the adoption of the plan of liquidation and until the receipt of the property the owner of a greater percentage of any class of stock than the percentage of such class owned at the time of the receipt of the property; and

"'(B) no distribution under the liquidation was made before the first day of the first taxable year of the corporation beginning after December 31, 1935; and either

"(C) the distribution is by such other corporation in complete cancelation or redemption of all its stock, and the transfer of all the property occurs within the taxable year; in such case the adoption by the stockholders of the resolution under which is authorized the distribution of all the assets of such corporation in complete cancelation or redemption of all its stock, shall be considered an adoption of a plan of liquidation, even though no time for the completion of the transfer of the property is specified in such resolution; or

"(D) such distribution is one of a series of distributions by such other corporation in complete cancelation or redemption of all its stock in accordance with a plan of liquidation under which the transfer of all the property under the liquidation is to be completed within 3 years from the close of the taxable year during which is made the first of the series of distributions under the plan, except that if such transfer is not completed within such period, or if the taxpayer does not continue qualified under subparagraph (A) until the completion of such transfer, no distribution under the plan shall be considered a distribution in complete liquidation.

If such transfer of all the property does not occur within the taxable year the Commissioner may require of the taxpayer such bond, or waiver of the statute of limitations on assessment and collection, or both, as he may deem necessary to insure, if the transfer of the property is not completed within such three-year period, or if the taxpayer does not continue qualified under subparagraph (A) until the completion of such transfer, the assessment and collection of all income, war-profits, and excess-profits taxes then imposed by law for such taxable year or subsequent taxable years, to the extent attributable to property so received. A distribution otherwise constituting a distribution in complete liquidation within the meaning of this paragraph shall not be considered as not constituting such a distribution merely because it does not constitute a distribution or liquidation within the meaning of the corporate law under which the distribution is made; and for the purposes of this paragraph a transfer of property of such other corporation to the taxpayer shall not be considered as not constituting a distribution (or one of a series of distributions) in complete cancellation or redemption of all the stock of such other corporation, merely because the carrying out of the plan involves (i) the transfer under the plan to the taxpayer by such other corporation of property, not attributable to shares owned by the taxpayer, upon an exchange described in paragraph (4) of this subsection, and (ii) the complete cancellation or redemption under the plan, as

a result of exchanges described in paragraph (3) of this subsection, of the shares not owned by the taxpayer."

And the Senate agree to the same.

Amendment numbered 110: That the House recede from its disagreement to the amendment of the Senate numbered 110, and agree to the same with an amendment as follows: On page 23 of the Senate engrossed amendments, strike out line 6 and insert "resident alien, foreign partnership, or foreign corporation, not engaged in trade or business within the United States,"; and the Senate agree to the same.

Amendment numbered 112: That the House recede from its disagreement to the amendment of the Senate numbered 112, and agree to the same with an amendment as follows: On page 23 of the Senate engrossed amendments, line 16, strike out "14 (c) (2)" and insert "14 (d) (2)"; and the Senate agree to the same.

Amendment numbered 114: That the House recede from its disagreement to the amendment of the Senate numbered 114, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert "(except that such rate shall be reduced, in the case of a resident of a contiguous country, to such rate, not less than 5 per centum, as may be provided by treaty with such country)"; and the Senate agree to the same.

Amendment numbered 118: That the House recede from its disagreement to the amendment of the Senate numbered 118, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert a comma and the following: "except that such rate shall be reduced, in the case of a nonresident alien individual a resident of a contiguous country, to such rate (not less than 5 per centum) as may be provided by treaty with such country: *Provided*, That no such deduction or withholding shall be required in the case of dividends paid by a foreign corporation unless (1) such corporation is engaged in trade or business within the United States or has an office or place of business therein, and (2) more than 85 per centum of the gross income of such corporation for the three-year period ending with the close of its taxable year preceding the declaration of such dividends (or for such part of such period as the corporation has been in existence) was derived from sources within the United States as determined under the provisions of section 119: *Provided further*"; and the Senate agree to the same.

Amendment numbered 121: That the House recede from its disagreement to the amendment of the Senate numbered 121, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert "except that in the case of dividends the rate shall be 10 per centum, and except that in the case of corporations organized under the laws of a contiguous country such rate of 10 per centum with respect to dividends shall be reduced to such rate (not less than 5 per centum) as may be provided by treaty with such country"; and the Senate agree to the same.

Amendment numbered 128: That the House recede from its disagreement to the amendment of the Senate numbered 128, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 169. COMMON TRUST FUNDS.

"(a) Definitions.—The term 'common trust fund' means a fund maintained by a bank (as defined in section 104)—

"(1) exclusively for the collective investment and reinvestment of moneys contributed thereto by the bank in its capacity as a trustee, executor, administrator, or guardian; and

"(2) in conformity with the rules and regulations, prevailing from time to time, of the Board of Governors of the Federal Reserve System pertaining to the collective investment of trust funds by national banks.

"(b) Taxation of Common Trust Funds.—A common trust fund shall not be subject to taxation under this title, Title IA, or section 105 or 106 of the Revenue Act of 1935, and for the purposes of such titles and sections shall not be considered a corporation.

"(c) Income of Participants in Fund.—Each participant in the common trust fund shall include in computing its net income its proportionate share, whether or not distributed and whether or net distributable, of the net income of the common trust fund. The net income of the common trust fund shall be computed in the same manner and on the same basis as in the case of an individual. The proportionate share of each participant in the amount of interest specified in section 25 (a) received by the common trust fund shall for the purposes of this Supplement be considered as having been received by such participant as such interest.

"(d) Admission and Withdrawal.—No gain or loss shall be realized by the common trust fund by the admission or withdrawal of a participant. The withdrawal of any participating interest by a participant shall be treated as a sale or exchange of such interest by the participant.

"(e) Returns by Bank.—Every bank (as defined in section 104) maintaining a common trust fund shall make a return under oath for each taxable year, stating specifically, with respect to such fund, the items of gross income and the deductions allowed by this title, and shall include in the return the names and addresses of the participants who would be entitled to share in the net income if distributed and the amount of the proportionate share of each participant. The return shall be sworn to as in the case of a return filed by the bank under section 52.

"(f) Different Taxable Years of Common Trust Fund and Participant.—If the taxable year of the common trust fund is different from that of a participant, the proportionate share of the net income of the common trust fund to be included in computing the net income of the participant for its taxable year shall be based upon the net income of the common trust fund for any taxable year of the common trust fund (whether beginning on, before, or after January 1, 1936) ending within the taxable year of the participant."

And the Senate agree to the same.

Amendment numbered 130: That the House recede from its disagreement to the amendment of the Senate numbered 130, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"(b) Imposition of Tax.—

"(1) In General.—In lieu of the tax imposed by sections 13 and 14, there shall be levied, collected, and paid for each taxable year upon the normal-tax net income of every life insurance company a tax of 15 per centum of the amount thereof.

"(2) Normal-Tax Net Income of Foreign Life Insurance Companies.—In the case of a foreign life insurance company, the normal-tax net income shall be an amount which bears the same ratio to the normal-tax net income, computed without regard to this paragraph, as the reserve funds required by law and held by it at the end of the taxable year upon business transacted within the United States bear to the reserve funds held by it at the end of the taxable year upon all business transacted.

"(3) No United States Insurance Business.—Foreign life insurance companies not carrying on an insurance business within the United States and holding no reserve funds upon business transacted within the United States, shall not be taxable under this section but shall be taxable as other foreign corporations."

And the Senate agree to the same.

Amendment numbered 132: That the House recede from its disagreement to the amendment of the Senate numbered 132, and agree to the same with an amendment as follows: On page 28 of the Senate engrossed amendments, lines 15 and 16, strike out "a tax at the rates specified in section 13" and insert "a tax of 15 per centum of the amount thereof"; and the Senate agree to the same.

Amendment numbered 133: That the House recede from its disagreement to the amendment of the Senate numbered 133, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"(2) Normal-Tax Net Income of Foreign Companies.—In the case of a foreign insurance company (other than a life or mutual insurance company), the normal-tax net income shall be the net income from sources within the United States minus the sum of—

"(A) Interest on obligations of the United States and its instrumentalities.—The credit provided in section 26 (a).

"(B) Dividends received.—The credit provided in section 26 (b).

"(3) No United States Insurance Business.—Foreign insurance companies not carrying on an insurance business within the United States shall not be taxable under this section but shall be taxable as other foreign corporations."

And the Senate agree to the same.

Amendment numbered 137: That the House recede from its disagreement to the amendment of the Senate numbered 137, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"(a) Application of Title.—Mutual insurance companies, other than life insurance companies, shall be taxable in the same manner as other corporations, except as hereinafter provided in this section, and except that they shall not be subject to the surtax imposed by section 14, and except that the normal tax imposed by section 13 shall be at the rate of 15 per centum instead of at the rates provided in such section, and such normal tax shall be applicable to foreign corporations as well as domestic corporations; but foreign insurance companies not carrying on an insurance business within the United States shall be taxable as other foreign corporations."

And the Senate agree to the same.

Amendment numbered 138: That the House recede from its disagreement to the amendment of the Senate numbered 138, and agree to the same with an amendment, as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following: ", except that such rate shall be reduced, in the case of a resident of a contiguous country, to such rate (not less than 5 per centum) as may be provided by treaty with such country"; and the Senate agree to the same.

Amendment numbered 147: That the House recede from its disagreement to the amendment of the Senate numbered 147, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert a comma and the following: "except that in the case of dividends the rate shall be 10 per centum, and except that in the case of corporations organized under the laws of a contiguous country such rate of 10 per centum with respect to dividends shall be reduced to such rate (not less than 5 per centum) as may be provided by treaty with such country"; and the Senate agree to the same.

Amendment numbered 153: That the House recede from its disagreement to the amendment of the Senate numbered 153, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"(c) Tax in Case of Corporations.—In the case of a domestic corporation entitled to the benefits of this section the normal tax

imposed by section 13 shall be at the rate of 15 per centum instead of at the rates provided in such section, and such a corporation shall not be subject to the surtax imposed by section 14"; and the Senate agree to the same.

Amendment numbered 154: That the House recede from its disagreement to the amendment of the Senate numbered 154, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 261. TAXATION IN GENERAL.

"In the case of a corporation organized under the China Trade Act, 1922, the normal tax imposed by section 13 shall be at the rate of 15 per centum instead of at the rates provided in such section, and such a corporation shall not be subject to the surtax imposed by section 14"; and the Senate agree to the same.

Amendment numbered 162: That the House recede from its disagreement to the amendment of the Senate numbered 162, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"TITLE IA—ADDITIONAL INCOME TAXES

"SEC. 351. SURTAX ON PERSONAL HOLDING COMPANIES.

"(a) Imposition of tax.—There shall be levied, collected, and paid, for each taxable year (in addition to the taxes imposed by Title I), upon the undistributed adjusted net income of every personal holding company a surtax equal to the sum of the following:

"(1) 8 per centum of the amount thereof not in excess of $2,000; plus

"(2) 18 per centum of the amount thereof in excess of $2,000 and not in excess of $100,000; plus

"(3) 28 per centum of the amount thereof in excess of $100,000 and not in excess of $500,000; plus

"(4) 38 per centum of the amount thereof in excess of $500,000 and not in excess of $1,000,000; plus

"(5) 48 per centum of the amount thereof in excess of $1,000,000.

"(b) Definitions.—As used in this title—

"(1) The term "personal holding company" means any corporation (other than a corporation exempt from taxation under section 101, and other than a bank, as defined in section 104, and other than a life-insurance company or surety company) if—(A) at least 80 per centum of its gross income for the taxable year is derived from royalties, dividends, interest, annuities, and (except in the case of regular dealers in stock or securities) gains from the sale of stock or securities, and (B) at any time during the last half of the taxable year more than 50 per centum in value of its outstanding stock is owned, directly or indirectly, by or for not more than five individuals. For the purpose of determining the ownership of stock in a personal holding company—(C) stock owned, directly or indirectly, by a corporation, partnership, estate, or trust shall be considered as being owned proportionately by its shareholders, partners, or beneficiaries; (D) an indivdual shall be considered as owning, to the exclusion of any other individual, the stock owned, directly or indirectly, by his family, and this rule shall be applied in such manner as to produce the smallest possible number of individuals owning, directly or indirectly, more than 50 per centum in value of the outstanding stock; and (E) the family of an individual shall include only his brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants.

"(2) The term 'undistributed adjusted net income' means the adjusted net income minus the sum of:

"(A) 20 per centum of the excess of the adjusted net income over the amount of dividends received from personal holding companies which are allowable as a credit for the purposes of the tax imposed by section 13 or 204;

"(B) Amounts used or set aside to retire indebtedness incurred prior to January 1, 1934, if such amounts are reasonable with reference to the size and terms of such indebtedness; and

"(C) The amount of the dividends paid credit provided in section 27, computed without the benefit of subsection (b) thereof (relating to the dividend carry-over).

"(3) The term 'adjusted net income' means the net income minus the sum of:

"(A) Federal income, war-profits, and excess-profits taxes paid or accrued during the taxable year to the extent not allowed as a deduction by section 23, but not including the tax imposed by this section or a corresponding section of a prior income-tax law;

"(B) Contributions or gifts, not otherwise allowed as a deduction, to or for the use of donees described in section 23 (o) for the purposes therein specified, including, in the case of a corporation organized prior to January 1, 1936, to take over the assets and liabilities of the estate of a decedent, amounts paid in liquidation of any liability of the corporation based on the liability of the decedent to make any such contribution or gift, to the extent such liability of the decedent existed prior to January 1, 1934; and

"(C) Losses from sales or exchanges of capital assets which are disallowed as a deduction by section 117 (d).

"(4) The terms used in this section shall have the same meaning as when used in Title I.

"(c) Administrative Provisions.—All provisions of law (including penalties) applicable in respect of the taxes imposed by Title I of this Act, shall insofar as not inconsistent with this section, be applicable in respect of the tax imposed by this section, except that the provisions of section 131 of that title shall not be applicable.

"(d) Payment of Surtax on Pro Rata Shares.—The tax imposed by this section shall not apply if (1) all the shareholders of the corporation include (at the time of filing their returns) in their gross income their entire pro rata shares, whether distributed or not, of the adjusted net income of the corporation for such year, and (2) 90 per centum or more of such adjusted net income is so included in the gross income of shareholders other than corporations. Any amount so included in the gross income of a shareholder shall be treated as a dividend received. Any subsequent distribution made by the corporation out of earnings or profits for such taxable year shall, if distributed to any shareholder who has so included in his gross income his pro rata share, be exempt from tax in the amount of the share so included.

"(e) Improper Accumulation of Surplus.—For surtax on corporations which accumulate surplus to avoid surtax on stockholders, see section 102."

And the Senate agree to the same.

Amendment numbered 163: That the House recede from its disagreement to the amendment of the Senate numbered 163, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 401. CAPITAL STOCK TAX.

"(a) Section 105 of the Revenue Act of 1935 is amended by striking out '$1.40' wherever appearing therein and inserting in lieu thereof '$1.'

"(b) Subsection (c) of such section is amended by striking out '1934' and inserting in lieu thereof '1936', and by striking out ', as amended' wherever appearing in such subsection."

And the Senate agree to the same.

Amendment numbered 164: That the House recede from its disagreement to the amendment of the Senate numbered 164, and agree to the same with an amendment as follows: On page 38 of the Senate engrossed amendments, line 12, strike out "(b) section 105 (f) (4) of such act" and insert "(c) Subsection (f) (4) of such section"; and the Senate agree to the same.

Amendment numbered 165: That the House recede from its disagreement to the amendment of the Senate numbered 165, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 402. EXCESS-PROFITS TAX.

"(a) Section 106 (b) of the Revenue Act of 1935 is amended by striking out 'except that there shall be deducted the amount of income tax imposed for such year by section 13 of the Revenue Act of 1934, as amended' and inserting in lieu thereof 'computed without the deduction of the tax imposed by this section, but with a credit against net income equal to the credit for dividends received provided in section 26 (b) of the Revenue Act of 1936.'

"(b) The amendment made by subsection (a) shall not apply to an income-tax taxable year beginning before January 1, 1936."

And the Senate agree to the same.

Amendment numbered 170: That the House recede from its disagreement to the amendment of the Senate numbered 170, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"(b) The net income (specified in subsection (a) (1)) from the sale of articles with respect to which the Federal excise tax was not paid, and the net income specified in subsection (a) (2) or (3), shall not include the net income from the sale of any article, from reimbursement with respect to any article, or from refund or credit of Federal excise tax with respect to any article (1) if such article (or the articles processed therefrom) were not sold by the taxpayer on or before the date of the termination of the Federal excise tax; (2) if the taxpayer made a tax adjustment with respect to such article (or the articles processed therefrom) with his vendee; or (3) if under the terms of any statute the taxpayer would have been entitled to a refund from the United States of the Federal excise tax with respect to the article otherwise than as an erroneous or illegal collection (assuming, in case the tax was not paid, that it had been paid)."

And the Senate agree to the same.

Amendment numbered 179: That the House recede from its disagreement to the amendment of the Senate numbered 179, and agree to the same with an amendment as follows: On page 43 of the Senate engrossed amendments, lines 19 to 21, inclusive, strike out "any payments or credits with respect to the articles made to purchasers as specified in subsection (f) (3)" and insert "the portion of the amount of the Federal excise tax (or of the reimbursement specified in subsection (a) (2)) with respect to the articles which is paid or credited by the taxpayer to any purchasers as specified in subsection (f) (3)"; and the Senate agree to the same.

Amendment numbered 185: That the House recede from its disagreement to the amendment of the Senate numbered 185, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert "articles"; and the Senate agree to the same.

Amendment numbered 190: That the House recede from its disagreement to the amendment of the Senate numbered 190, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert "June 1, 1936, or thereafter in the bona fide settlement of a written agreement"; and the Senate agree to the same.

Amendment numbered 203: That the House recede from its disagreement to the amendment of the Senate numbered 203, and agree to the same with an amendment as follows: On page 46 of the Senate engrossed amendments, lines 23 and 24, strike out "the thirtieth day after the date of the enactment of this Act" and insert "June 1, 1936"; and the Senate agree to the same.

Amendment numbered 232: That the House recede from its disagreement to the amendment of the Senate numbered 232, and agree to the same with an amendment as follows: Restore the matter proposed to be stricken out by the Senate amendment; and the Senate agree to the same.

Amendment numbered 245: That the House recede from its disagreement to the amendment of the Senate numbered 245, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 701. TAX ON CERTAIN OILS.

"The first sentence of section 601 (c) (8) of the Revenue Act of 1932, as amended, is amended to read as follows:

"'(8) Whale oil (except sperm oil), fish oil (except cod oil, cod-liver oil, and halibut-liver oil), marine-animal oil, tallow, inedible animal oils, inedible animal fats, inedible animal greases, fatty acids derived from any of the foregoing, and salts of any of the foregoing; all the foregoing, whether or not refined, sulphonated, sulphated, hydrogenated, or otherwise processed, 3 cents per pound; sesame oil provided for in paragraph 1732 of the Tariff Act of 1930, sunflower oil, rapeseed oil, kapok oil, hempseed oil, perilla oil, fatty acids derived from any of the foregoing or from linseed oil, and salts of any of the foregoing; all the foregoing, whether or not refined, sulphonated, sulphated, hydrogenated, or otherwise processed, 4½ cents per pound; any article, merchandise, or combination (except oils specified in section 602½ of the Revenue Act of 1934, as amended), 10 per centum or more of the quantity by weight of which consists of, or is derived directly or indirectly from, one or more of the products specified above in this paragraph or in section 602½ of the Revenue Act of 1934, as amended, a tax at the rate or rates per pound equal to that proportion of the rate or rates prescribed in this paragraph or such section 602½ in respect of such product or products which the quantity by weight of the imported article, merchandise, or combination, consisting of or derived from such product or products, bears to the total weight of the imported article, merchandise, or combination; hempseed, perilla seed, rapeseed, sesame seed, and kapok seed, 2 cents per pound.'"

And the Senate agree to the same.

Amendment numbered 246: That the House recede from its disagreement to the amendment of the Senate numbered 246, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 702. PROCESSING TAX ON CERTAIN OILS.

"(a) The first sentence of section 602½ of the Revenue Act of 1934 is amended to read as follows:

"'(a) There is hereby imposed upon the first domestic processing of coconut oil, palm oil, palm-kernel oil, fatty acids derived from any of the foregoing oils, salts of any of the foregoing (whether or not such oils, fatty acids, or salts have been refined, sulphonated, sulphated, hydrogenated, or otherwise processed), or any combination or mixture containing a substantial quantity of any one or more of such oils, fatty acids, or salts, a tax of 3 cents per pound to be paid by the processor, but the tax under this section shall not apply (1) with respect to any fatty acid or salt resulting from a previous first domestic processing taxed under this section or upon which an import tax has been paid under section 601 (c) (8) of the Revenue Act of 1932, as amended, or (2) with respect to any combination or mixture by reason of its containing an oil, fatty acid, or salt with respect to which there has been a previous first domestic processing or upon which an import tax has been paid under section 601 (c) (8).'"

"(b) Notwithstanding the provisions of subsection (a) of this section, the first domestic processing of sunflower oil or sesame oil (or any combination of mixture containing a substantial quantity of sunflower oil or sesame oil), if such oil or such combination or mixture or such oil contained therein was imported prior to the effective date of this title, shall be taxed in accordance with the provisions of section 602½ of the Revenue Act of 1934 in force on the date of the enactment of this Act."

And the Senate agree to the same.

Amendment numbered 252: That the House recede from its disagreement to the amendment of the Senate numbered 252, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

"SEC. 801. EXEMPTION FROM ADMISSIONS TAX OF CERTAIN CONCERTS.

"Section 500 (b) (2) of the Revenue Act of 1926 is amended by striking out the period at the end thereof and inserting in lieu thereof a comma and the following: 'and any admissions to concerts conducted by a civic or community membership association if no part of the net earnings thereof inures to the benefit of any stockholders or members of such association.'"

And the Senate agree to the same.

Amendment numbered 253: That the House recede from its disagreement to the amendment of the Senate numbered 253, and agree to the same with an amendment as follows: On page 61 of the Senate engrossed amendments, line 16, strike out "804" and insert "802"; line 19, insert a period after "3207"; and, on page 62, line 9, strike out "subject" and insert "subjected"; and the Senate agree to the same.

Amendment numbered 254: That the House recede from its disagreement to the amendment of the Senate numbered 254, and agree to the same with an amendment as follows: On page 63 of the Senate engrossed amendments, line 11, strike out "805" and insert "803"; and the Senate agree to the same.

Amendment numbered 255: That the House recede from its disagreement to the amendment of the Senate numbered 255, and agree to the same with an amendment as follows: On page 63, line 19, of the Senate engrossed amendments, strike out "806" and insert "804"; and the Senate agree to the same.

Amendment numbered 256: That the House recede from its disagreement to the amendment of the Senate numbered 256, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 805. ESTATE TAXES—REVOCABLE TRANSFERS.

"(a) Section 302 (d) (1) of the Revenue Act of 1926, as amended, is amended to read as follows:

"'(d) (1) To the extent of any interest therein of which the decedent has at any time made a transfer (except in case of a bona-fide sale for an adequate and full consideration in money or money's worth), by trust or otherwise, where the enjoyment thereof was subject at the date of his death to any change through the exercise of a power (in whatever capacity exercisable) by the decedent alone or by the decedent in conjunction with any other person (without regard to when or from what source the decedent acquired such power), to alter, amend, revoke, or terminate, or where any such power is relinquished in contemplation of decedent's death.'

"(b) Except in the case of transfers made after the date of the enactment of this Act, no interest of the decedent of which he has made a transfer shall be included in the gross estate under such section 302 (d) (1) unless it was includible under such section before its amendment by this section."

And the Senate agree to the same.

Amendment numbered 257: That the House recede from its disagreement to the amendment of the Senate numbered 257, and agree to the same with an amendment as follows: On page 65, line 2, of the Senate engrossed amendments, strike out "808" and insert "806"; and the Senate agree to the same.

Amendment numbered 258: That the House recede from its disagreement to the amendment of the Senate numbered 258, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

"SEC. 807. RECONSIDERATION OF REFUND CLAIMS.

"(a) Section 3226 of the Revised Statutes, as amended, is amended by adding at the end thereof the following new sentence: 'Any consideration, reconsideration, or action by the Commissioner with respect to such claim following the mailing of a notice by registered mail of disallowance shall not operate to extend the period within which suit may be begun.'

"(b) The amendment made by subsection (a) shall not operate (1) to bar a suit or proceeding in respect of a claim reopened prior to the date of the enactment of this act, if such suit or proceeding was not barred under the law in effect prior to the date of the enactment of this act, or (2) to prevent the suspension of the statute of limitations for filing suit under section 608 (b) (2), as amended, of the Revenue Act of 1928."

And the Senate agree to the same.

Amendment numbered 259: That the House recede from its disagreement to the amendment of the Senate numbered 259, and agree to the same with an amendment as follows:

On page 67 of the Senate engrossed amendments, line 8, strike out "810" and insert "808"; and the Senate agree to the same.

Amendment numbered 262: That the House recede from its disagreement to the amendment of the Senate numbered 262, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 809. TERMINATION OF JEWELRY TAX.

"The tax imposed by section 605 of the Revenue Act of 1932 shall not apply to any article sold by the manufacturer, producer, or importer after the date of the enactment of this Act."

And the Senate agree to the same.

Amendment numbered 263: That the House recede from its disagreement to the amendment of the Senate numbered 263, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 810. TAX ON FURS.

"(a) Effective after the date of the enactment of this Act, section 604 of the Revenue Act of 1932 is amended by striking out '10 percentum' and inserting in lieu thereof '3 per centum'.

"(b) The exemption of articles sold for less than $75, provided by section 608 of the Revenue Act of 1934, shall not apply to articles sold after the date of the enactment of this Act."

And the Senate agree to the same.

Amendment numbered 265: That the House recede from its disagreement to the amendment of the Senate numbered 265, and agree to the same with an amendment as follows: On page 70, line 5, of the Senate engrossed amendments, strike out "816" and insert "811"; and the Senate agree to the same.

Amendment numbered 268: That the House recede from its disagreement to the amendment of the Senate numbered 268, and agree to the same with an amendment as follows: On page 71 of

the Senate engrossed amendments, in line 24, strike out "section 6" and insert "section 906"; and the Senate agree to the same.

Amendment numbered 272: That the House recede from its disagreement to the amendment of the Senate numbered 272, and agree to the same with an amendment as follows: On page 76 of the Senate engrossed amendments, in line 17, strike out "division" and insert "divisions"; and on page 78, line 4, strike out "cross examine" and insert "cross-examine"; and the Senate agree to the same.

Amendment numbered 273: That the House recede from its disagreement to the amendment of the Senate numbered 273, and agree to the same with an amendment as follows: On page 87 of the Senate engrossed amendments, line 9, strike out "Commission" and insert "Commissioner"; and the Senate agree to the same.

Amendment numbered 274: That the House recede from its disagreement to the amendment of the Senate numbered 274, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 908. LIMITATIONS ON ALLOWANCE OF CLAIMS AND INTEREST.

"(a) No claim shall be allowed under this title in an amount less than $10.

"(b) No interest shall be allowed by the Commissioner or by any court with respect to any amount paid or collected as tax under the Agricultural Adjustment Act, except with respect to amounts, refund of which is made or allowed under this title."

And the Senate agree to the same.

Amendment numbered 286: That the House recede from its disagreement to the amendment of the Senate numbered 286, and agree to the same with an amendment as follows: Omit the matter proposed to be inserted by the Senate amendment, and on page 60 of the House bill, after line 26, insert the following:

"(e) Mutual Investment Companies.—

"(1) General Definition.—The term 'mutual investment company' means any corporation (whether chartered or created as an investment trust, or otherwise), other than a personal holding company as defined in section 351, if—

"(A) It is organized for the purpose of, and substantially all its business consists of, holding, investing, or reinvesting in stock or securities; and

"(B) At least 95 per centum of its gross income is derived from dividends, interest, and gains from sales or other disposition of stock or securities; and

"(C) Less than 30 per centum of its gross income is derived from the sale or other disposition of stock or securities held for less than six months; and

"(D) An amount not less than 90 per centum of its net income is distributed to its shareholders as taxable dividends during the taxable year; and

"(E) Its shareholders are, upon reasonable notice, entitled to redemption of their stock for their proportionate interests in the corporation's properties, or the cash equivalent thereof less a discount not in excess of 3 per centum thereof.

"(2) Limitations: Despite the provisions of paragraph (1) a corporation shall not be considered as a mutual investment company if, subsequent to a date thirty days after the date of the enactment of this Act, at any time during the taxable year—

"(A) More than 5 per centum of the gross assets of the corporation, taken at cost, was invested in stock or securities, or both, of any one corporation, government, or political subdivision thereof, but this limitation shall not apply to investments in obligations of the United States or in obligations of any corporation organized under general Act of Congress if such corporation is an instrumentality of the United States; or

"(B) It owned more than 10 per centum of the outstanding stock or securities, or both, of any one corporation; or

"(C) It had any outstanding bonds or indebtedness in excess of 10 per centum of its gross assets taken at cost; or

"(D) It fails to comply with any rule or regulation prescribed by the Commissioner, with the approval of the Secretary, for the purpose of ascertaining the actual ownership of its outstanding stock."

And the Senate agree to the same.

STATEMENT OF THE REPUBLICAN CONFEREES ON THE PART OF THE HOUSE

Re: Conference report on the revenue bill

We have refused to sign the conference report on the revenue bill for two fundamental reasons:

In the first place, the compromise measure which has been arrived at has all the objectionable features of the original House bill, as set forth in our minority views filed in connection therewith and as reiterated by the Senate Finance Committee in their report rejecting the House provisions.

Secondly, we repeat that we are opposed to the enactment of any new taxes until the administration has first made an honest effort to reduce expenditures and eliminate waste and extravagance.

The primary purpose of the original House bill was not to raise revenue but to give effect to the Tugwellian philosophy of forcing the distribution of corporate earnings, irrespective of the needs of the business. Such coercion was accomplished by the repeal of the existing corporate income tax and the substitution of graduated "pressure" rates of as high as 42½ percent on amounts retained. The compromise bill retains the coercive features of the House bill, the only difference being in the degree of "pressure" exerted and in the fact that the coercive rates are imposed in connection with a normal corporate income tax of 8 to 15 percent.

In our minority views on the House bill, we set forth in detail our objections to the President's proposal to tax corporate reserves, which the House bill blindly embodied.

The Senate Finance Committee, after exhaustive public hearings on the House bill, and after careful study of its provisions, concurred in our views. In their report to the Senate they had the following to say respecting the House bill:

"Your committee believes that the undistributed profits-tax plan proposed by the House has certain fundamental defects, some of which are as follows:

"1. The plan proposes an entirely untried system which appears decidedly uncertain as to revenue yield.

"2. The plan will penalize many corporations not availed of for surtax avoidance in order that a comparatively few corporations availed of for that purpose may be reached.

"3. The plan will prevent the growth of new corporations in that they will be unable to build up reasonable reserves for working capital and future development.

"4. The plan may retard business expansion and seriously affect the unemployment problem.

"5. The plan penalizes the small corporation and the corporation with insufficient reserves and is of decided advantage to the large corporation and the corporation with excessive surplus.

"6. The plan tends to transfer the corporate control from the officers and directors of the corporation to the legislative branch of the Government."

These defects have not been cured in the compromise bill. In some respects it is even more objectionable than either the House or Senate bill standing alone. It still penalizes the accumulation of necessary "rainy day" reserves; it still penalizes the payment of debts; and it still penalizes corporations which reinvest their earnings for purposes of rehabilitation or expansion. It imposes a crushing burden on financially weak corporations whose reserves have been depleted during the depression.

There is no need to reemphasize the importance of corporate reserves, which are to business organizations and their owners and employees what life insurance policies are to an individual. The Department of Commerce is authority for the statement that from 1930 to 1934, inclusive, American business distributed through wages, dividends, etc., $26,600,000,000 more than it earned. This tremendous contribution to recovery was only made possible by drawing upon reserves accumulated in good times, and we shudder to think what conditions in this country might have been had the tax policy contemplated by the pending bill been in effect prior to the depression.

The compromise effected by the conferees on the part of the House and Senate is a hybrid tax measure resulting from the unnatural union of two conflicting theories of taxation. In its major characteristics, it mostly resembles the discredited House bill, and its effect will be much the same, threatening not only the security of our economic system but the very base upon which the stability of the Federal revenue depends. It is just another New Deal experiment which inevitably will be repudiated by the people.

Much more could be said relative to the general policy underlying the President's proposal and its injurious effect upon the country. The compromise bill is an outstanding example of the type of ill-advised legislation that is sure to result from an effort to carry out an arbitrary "must" program in the closing hours of a Congressional session without adequate consideration or study.

ALLEN T. TREADWAY.
FRANK CROWTHER.
ROY O. WOODRUFF.

Mr. DOUGHTON. Mr. Speaker, I call up the conference report on the bill (H. R. 12395) to provide revenue, equalize taxation, and for other purposes.

The Clerk read the conference report.

The SPEAKER pro tempore (Mr. WARREN). The gentleman from North Carolina [Mr. DOUGHTON] is recognized for 1 hour.

Mr. DOUGHTON. Mr. Speaker, I yield 10 minutes to the gentleman from Washington [Mr. HILL].

Mr. SAMUEL B. HILL. Mr. Speaker, I desire to make a brief statement of the important points in this legislation. The House and Senate conferees, after repeated sessions extending over several days, finally agreed upon a conference report. In order that you may have clearly the distinction between the House bill, the Senate amendments, and the provisions agreed upon in the conference report, I shall in a cursory manner review the rates in the House bill, the rates in the Senate amendments, and, finally, the rates of tax agreed upon in conference.

We are dealing with taxes upon the incomes of corporations. We are not dealing at the present time with taxes upon the incomes of individuals. The House bill, as it will be recalled, repeals the normal tax upon the incomes of corporations, and substituted in lieu thereof a tax upon the net income of corporations measured by the undistributed portion of such net income. The rates in the House bill were graduated from zero to 42½ percent on corporation incomes where the income was more than $10,000. The rates were graduated in the House bill on the income of corporations of $10,000 or less from zero to 29½ percent, depending upon the proportion of the net income retained by the corporation and not distributed through dividend payments.

The Senate amendments cut out these provisions of the House bill and substituted therefor a normal tax rate upon the incomes of corporations, beginning at 15½ percent and graduating up to 18 percent, using the same brackets as are in the existing corporate tax law.

Those two sets of rates were in conference. The conferees have agreed upon the following set of rates in lieu of either the House rates or the Senate rates.

The conferees agreed that there should be a normal tax on corporate income ranging from 8 percent to 15 percent, bracketed as follows:

Eight percent on the first $2,000 of net income; 11 percent on the next $13,000 of net income; 13 percent on the next $25,000 of net income; and 15 percent on all over $40,000. Those are the normal rates.

In addition to that, the conferees agreed there should be a surtax upon the undistributed portion of the corporate net income ranging from 7 percent to 27 percent as follows:

Seven percent on the first 10 percent of the net income undistributed; 12 percent on the second 10 percent of net income undistributed; 17 percent on the next 20 percent of net income undistributed, and 22 percent on the next 20 percent of the net income undistributed, which makes a total of 60 percent; and then 27 percent on all of the undistributed net income over 60 percent.

In addition to that the conferees have agreed that there shall be a capital-stock tax, and an excess-profits tax. The present capital-stock-tax rate is $1.40 per $1,000 in value. The rate agreed upon in conference is $1 per $1,000, and we retain the same rate of excess-profits tax as in the existing law.

It will be recalled that the House bill reduced the capital-stock tax to 70 cents per $1,000 and repealed the capital-stock tax at the end of the fiscal year 1936, and also repealed the excess-profits tax for taxable years ending after June 30, 1937.

The Senate amendments restored the capital-stock tax to $1.40 and the excess-profits tax at the present rates. The conference agreement is that the capital-stock tax be retained at $1 a thousand, and that the excess-profits tax remain as in existing law.

In addition to the rates agreed upon in conference there is this further provision which is of benefit to the smaller corporations. Corporations having a net income of $50,000 or less will pay a surtax at the rate of 7 percent on $5,000, even though the 10-percent bracket of the undistributed net income is less.

The conference agreed to eliminate the Senate amendment increasing the individual income-tax rates 1 percent in the brackets between $6,000 and $50,000.

This covers, in a brief way, the tax on corporate income.

We have kept in the bill, in addition to the tax on corporate incomes, the unjust enrichment tax, frequently referred to as the windfall tax.

[Here the gavel fell.]

Mr. DOUGHTON. Mr. Speaker, I yield the gentleman 10 additional minutes.

Mr. SAMUEL B. HILL. The rates on unjust enrichment are the same as they were in the House bill, 80 percent, and there are very few changes in the House provision as to the unjust enrichment tax.

Then we have retained, also, the provision for refunds or drawbacks under the Agricultural Adjustment Act as to the tax on processed commodities exported or sold to charitable institutions or other tax-exempt institutions, and also the refund on the floor stocks of all individuals other than processors at the same rate and under the same terms as were included in the House bill.

We have included in the conference agreement certain additions to the House bill dealing, first, with taxes on certain oils and oil-bearing seeds. I am not going to take your time to enumerate the different oils and the different oil-bearing seeds. I am sure most of you are familiar with those provisions. They have been agreed upon in conference practically as placed therein by the Senate.

Also, certain miscellaneous provisions were put in the bill by the Senate amendments, a few of which we retained in the conference agreement, but most of which were stricken out in conference.

In addition to the subjects of taxation enumerated the Senate also put into the tax bill by amendment a title containing provisions governing the procedure as to refunds to processors and other taxpayers under the Agricultural Adjustment Act. I may say to the House that the provisions under this title are substantially the same as the provisions in a separate bill which was reported out by the House Committee on Ways and Means and was on the calendar, but had not been acted on by the House when the matter was taken up in the Senate. These provisions are practically identical with the provisions in the House bill, which had the approval of

the Ways and Means Committee on consideration of a bill other than this tax bill.

Mr. FULLER. Mr. Speaker, will the gentleman yield?

Mr. SAMUEL B. HILL. For a short question; yes.

Mr. FULLER. As I understand, the tax is 15 percent on corporations and you have left that as it was and that we were to eliminate the capital stock tax after this year, but in conference you have left that at 15 percent on corporations, but have agreed to a retention of the capital stock tax at $1, instead of $1.40, which would really mean a 16-percent capital-stock tax.

Mr. SAMUEL B. HILL. In conference we agreed upon a graduated normal tax of from 8 percent to 15 percent instead of from 12½ percent to 15 percent, as in existing law, and instead of 15½ percent to 18 percent, as provided in the Senate amendment to the House bill.

Mr. FULLER. Does your conference report change in any way the House provision in regard to the tax on banks and insurance companies?

Mr. SAMUEL B. HILL. No; we retained banks, trust companies, and insurance companies on a flat rate of 15 percent, and they are not subject to the undistributed tax.

Mr. FULLER. You do require them to pay the capital-stock tax of $1 instead of the $1.40 that they are now paying?

Mr. SAMUEL B. HILL. All corporations will pay the capital-stock tax.

Mr. VINSON of Kentucky. Mr. Speaker, will the gentleman yield?

Mr. SAMUEL B. HILL. I yield.

Mr. VINSON of Kentucky. It may be of interest for the gentleman to tell of the change in the intercorporate dividend situation and also inform the House that the increase in the individual surtax brackets, from $6,000 to $50,000, the increase being 1 percent, has not been agreed to.

Mr. SAMUEL B. HILL. As the gentleman from Kentucky states, the increase in the surtax rates between the brackets of $6,000 to $50,000, as placed in the bill by a Senate amendment, has been eliminated.

Mr. RICH. Mr. Speaker, will the gentleman yield?

Mr. SAMUEL B. HILL. I yield.

Mr. RICH. What provisions are there in the bill with respect to corporations, for instance, that in 1936 did not have any surplus over their earnings, but are supposed to pay out their surplus if they want to keep from paying the tax? If a corporation does not know what its earnings are going to be in 1936, is it going to be compelled to pay the surtax on all of its earnings, provided it does not pay the earnings to the stockholders in the year 1936?

Mr. SAMUEL B. HILL. That is correct. If it does not pay it out in 1936, it will pay a surtax on the undistributed portion.

Mr. RICH. There is not a corporation in the United States that earns over $100,000 that knows within 30 to 60 days after the end of the year what its earnings are going to be.

Mr. SAMUEL B. HILL. They will certainly know approximately what their earnings are.

Mr. RICH. No; not within 20 percent of what they are going to earn, not until within 30 to 60 days after the end of the year.

Mr. SAMUEL B. HILL. Oh, I think the gentleman is unfair to the corporations, and I cannot agree to that premise.

Mr. RICH. What is the difference between an insurance company and a banking corporation and any other corporation, so far as trying to save money for a rainy day is concerned? Why do you exempt insurance companies and banks? If it is good for them, why is it not good for any other corporation?

Mr. SAMUEL B. HILL. They are compelled under law to keep certain reserves on hand.

Mr. RICH. Then the States that made those laws knew that it was necessary for them to have reserves, but here you are coming in with a tax bill and breaking down the fundamental principles that your father and my father taught us—to work and to save—contrary to all common sense.

Mr. SAMUEL B. HILL. There is nothing in this bill which compels a corporation to pay out everything in dividends, Mr. RICH. But you are compelling them to do one of two things—pay it out or pay it all in taxes to the administration. That is what the administration is doing.

Mr. MCREYNOLDS. If a loan has been made by the R. F. C. to a corporation, the terms of which provide that no dividend shall be paid until that loan is satisfied, will such amount held by the corporation be subject to the excess tax?

Mr. SAMUEL B. HILL. It will not.

Mr. VINSON of Kentucky. Mr. Speaker, will the gentleman yield?

Mr. SAMUEL B. HILL. Yes.

Mr. VINSON of Kentucky. In regard to the tax on intercorporate dividends, I think the House might be glad to know that the present exemption of 90 percent has been reduced to 85 percent. Under existing law the effective tax on intercorporate dividends is 1½ percent, whereas in the conference report it is 2¼ percent.

The SPEAKER. The time of the gentleman from Washington has expired.

Mr. DOUGHTON. Mr. Speaker, I yield 5 minutes to the gentleman from Indiana [Mr. PETTENGILL].

Mr. PETTENGILL. Mr. Speaker, and gentlemen of the House, before the roll is taken on this bill, I wish to announce that one Democrat is not going to vote for it. He is going to vote against it because he is a Democrat, and is still a Democrat, and because he still believes in the principles of Jefferson and Jackson, and not those of Rexford Guy Tugwell. Jefferson and Jackson won campaigns and Tugwell never carried a precinct. They did not believe in making it hard or impossible for the little man to grow and succeed. Let us get a few facts straight. Take a little company that makes $2,000 and has to retain it in its business. You are increasing the tax on that little corporation 15 percent. If the company earns $4,000 net, its tax is increased 24 percent. If it earns $5,000, you are increasing its tax load 26 percent. If it earns $10,000, you are going to make it pay 61 percent more than under existing law. If it earns $20,000, you are increasing its tax burden 98 percent. Yes; 98 percent. Go home and tell that to your constituents—98 percent. You may do as you think best. But I am not going home and tell them that I voted to penalize that little company 98 percent for the privilege of retaining its earnings in its business in order to expand it and put more men to work.

When the company would forego payment of dividends in order to expand you are asking it to pay its earnings to its stockholders and not to its workmen. At the same time that you are asking the business interests of the country to expand to absorb the army of men who are still out of work you adopt the principle that the money must go to their stockholders rather than to their employees. I cannot defend it.

Where can the little businesses get funds today to expand? From the banks? Try it. From the sale of stock and go through the delay and expense of getting permission from the "blue sky" commissions? Try that. No; their only chance to get on their feet again after the beatings they have taken is to plough back their earnings, the same as practically every business in America has always done.

What is your answer to their effort to get going again, to increase their inventories, to buy more raw materials, to buy new machinery and equipment, to enlarge their plant. The answer is "98 percent."

On the other hand, take a corporation that has come through the depression with a huge surplus and is therefore in a position to pay out all its earnings to its stockholders. See the advantage you give that corporation, the strong one, over its competitor, whose only chance to survive is to retain its earnings. The fortunate company, the giant, let us say, on earnings of $1,000,000 will pay under this new bill $148,840,

almost the same as under existing law. Its weaker competitor, on the same earnings and under necessity of retaining them, will pay under this bill $323,327.80, or $174,487.80 more than the first. What does that do? That permits the first corporation to underquote its competitor by the amount of tax it does not pay. It can offer its products to the public that much cheaper. If each company made 17,448 units of its product—washing machines, electric refrigerators, or typewriters, or automobiles, or plows—the first corporation can underquote the second $10 a unit. The second gets that $174,487.80 extra tax money from the sale of its product and has to add it to the price of its product. What chance to survive does the second one have? You are giving the first, by law, a $10 per unit advantage over the other.

Bear in mind this bill does not touch past accumulations of earnings. It only touches future earnings. It, therefore, gives the company with a surplus already in hand an advantage in the competition for markets. It rewards it in the future for doing in the past the very thing this bill seeks to prevent its competitor from doing. It permits it to use surpluses accumulated in the past to prevent its competitor from accumulating surpluses in the future.

This bill hits the little and helps the big. It will inevitably lead to still further concentration of capital in a few hands and encourage monopoly. I am certain that Jefferson and Jackson would never support this bill.

But, bad as this bill is, I might support it for a year or two if we were at the same time reducing outgo from the Treasury. When the Government shows a disposition to pay as it goes and to bring outgo within income I will vote to increase taxes.

When the people of this country begin to think this bill over and see how it is working out, to prevent these little businesses from expanding and putting men to work and absorbing this army of the unemployed, I anticipate that the theorists and professors who fathered this bill are going to regret it. As a member of the party in power, I cannot accept that responsibility. You are increasing the tax of even the smallest corporation earning $2,000 net 15 percent, and at the same time you are asking it to put men back to work. [Applause.]

I attach a table prepared by the Treasury showing the tax increases under this bill.

Net income	Total tax		Increase	
	Present law	1936 revenue bill [1]	Amount	Percent
$1,000	125	144.40	19.40	15.52
$2,000	250	288.80	38.80	15.52
$3,000	380	461.10	81.10	21.34
$4,000	510	633.40	123.40	24.20
$5,000	640	805.70	165.70	25.89
$10,000	1,260	2,082.00	792.00	61.40
$20,000	2,640	5,236.00	2,596.00	98.33
$50,000	6,940	15,163.10	8,223.10	118.49
$100,000	14,440	31,502.80	17,062.80	118.16
$200,000	29,440	63,927.80	34,487.80	117.13
$300,000	44,440	96,352.80	51,912.80	116.82
$400,000	59,440	128,777.80	69,337.80	116.65
$500,000	74,440	161,202.80	86,762.80	116.55
$1,000,000	149,440	323,327.80	173,887.80	116.36

[1] Tax computation based on no distribution.

Mr. DOUGHTON. Mr. Speaker, I yield 12 minutes to the gentleman from Massachusetts [Mr. TREADWAY].

Mr. TREADWAY. Mr. Speaker, the gentleman from Washington [Mr. SAMUEL B. HILL], who spoke just a moment ago, is a most modest man. The remarks he has just made probably conclude a most distinguished service in this body. He has been a member of the Ways and Means Committee for four Congresses, and during the last two Congresses has been chairman of the important subcommittee on taxation.

It has been my privilege and honor to serve with him during the entire period that he has been a member of the committe. I can only voice the deep regret of the membership of the committee, irrespective of party, that we are to lose the services of a man who has so conscientiously served in this Congress on that important committee, the gentleman from Washington, Mr. SAMUEL B. HILL. [Applause.]

I am not one of those who have always approved the nominations to high office made by the present occupant of the White House. On the contrary, it goes without saying that the party affiliation I owe, it would be quite out of place for me to have approved very many of them, so far as my personal judgment is concerned.

But if I am any judge of men, I want to say that in this instance the President has honored himself by the selection of a man of the conscientious judgment and capacity of SAMUEL B. HILL for a position on the Board of Tax Appeals. [Applause.] The matters coming before that Board will be safe in the hands of such a man as he, and what is the loss to this Congress and to the Nation in the way of a capable legislator will of course be the gain to the country in the judicial capacity which he is shortly to undertake. I congratulate the Government on securing his services, and I personally voice the sentiment of this House, I know, in expressing my regret and your regret at his departure from this body. [Applause.]

Mr. Speaker, we are considering at this time a so-called conference report on the revenue bill. I venture to say that no member of that conference can tell you what is in it, because they have not seen it. It is not in print. I do not know whether it is even typed at this time. At least I have not seen a copy of it. There is more anxiety being shown on the part of the Democratic majority to be prepared for the obituary services in Philadelphia next Tuesday than to write a respectable tax bill in this Congress. [Applause and laughter.] We will be glad to have them go there because it will be the last time they will shout as they have done for the last "3 long years." [Applause and laughter.]

I think the tax report now before us can be better described in a short editorial in tonight's Washington News than I can describe it:

> The House wanted to lift some money from one pocket of a corporate taxpayer, and the Senate wanted to dig deeper into the other pocket. The Senate and House conferees compromised by deciding to pick both pockets.

[Laughter.]

That is a very good description, and it is as much as anybody knows about the contents of a bill to take $800,000,000 out of the pockets of the taxpayers of this country. There never was a tax bill written in this or any other country in the manner in which this has been written. We gave a blank check yesterday and the day before in the conference committee to two experts to write what they saw fit, and I defy any member of the majority of the conference of this House to say that they have seen in print the bill now before us. They have not done so.

Mr. DOUGHTON. Well, if the gentleman defies anybody for it, of course there is no foundation for that statement.

Mr. TREADWAY. There is. You never have seen it until you came on this floor tonight. What is the use of bluffing this House? You have never seen it, and you know you have not.

What more of record can the Democratic Party make to go before the people of this country in the next 3 months than they have made here in writing an $800,000,000 tax bill that nobody knows what is in it? I sat in that conference every day this week. I do not pretend to comprehend what is there. I cannot explain it to you, my colleagues, and the Democratic majority cannot explain it to their colleagues. That is the situation. Think of it!

They call something in here "unjust enrichment." A while ago they called it a "windfall tax"; all names of an unconstitutional method of endeavoring to take from the pockets of the people money that belongs to the people, not to the Federal Treasury. We used to arrest thieves that did that sort of thing. If you had stolen property, you were just as much of a thief as though you had stolen it yourself. That is the method under which this bill is being written, and if the Democratic majority in this Congress wants to

write a tax bill that way and defend it before the people of this country in the next few months, we will help them in explaining it to the people. It is the most indefensible proposition that has ever been suggested in this Congress.

Some of us Yankees were taught the virtues of thrift, but, under this bill, if a corporation wants to be thrifty and prudent it is penalized for it by a total tax running up to 42 percent. My opponents will say, "No; that tax is only 27 percent." My friends, 27 and 15 make 42 in the old arithmetic I used to study. Of course, the New Deal may have some other kind of arithmetic, but they are taxing corporate income up to 15 percent and undivided profits up to 27 percent, and if that does not make a penalty tax of 42 percent I miss my arithmetic.

Along with my Republican colleagues on the conference committee I refused to sign the conference report on this measure. We did not wish to have our names in any way connected with this unfortunate legislation. It has been condemned by every recognized authority on the subject of taxation. It has been condemned by the body at the other end of the Capitol after exhaustive public hearings and careful study. Its only friends are the impractical theorists in the administration who gave it birth. The Democratic majority in this body purport to be for it, but only because they must seek reelection on a platform of "standing by the President."

Practically every objection which the Republican minority on the Ways and Means Committee made against the original House bill obtains with respect to the compromise bill. It is still a bill to penalize prudent business management and not a bill to raise revenue. It still puts a penalty on the accumulation of "rainy day" reserves. It still hampers the growth of small corporations and fosters monopoly. It still constitutes an unwholesome interference with the exercise of sound judgment in the management of corporate affairs. It still oppresses debt-burdened corporations and corporations struggling to get on their feet after undergoing the ravages of the depression. It still crucifies the weak corporation while permitting the well-financed corporation to minimize its tax. It still creates inequities and unfair competitive situations as between corporations in the same business. It still adds to the complexity of income-tax computation and administration. It still jeopardizes the Federal revenue by experimenting with an untried form of taxation. Many other objections could be cited.

In this connection, let me say that while the Republican minority are opposed to the present tax bill for the reasons stated, we are also opposed to the imposition of any new tax burden of any kind on the people until the administration has first adopted a sane spending program by reducing expenditures and eliminating waste and extravagance. When that is done, we will cooperate in the enactment of a sound and equitable tax measure sufficient to maintain the Nation's credit, but we will not provide any such unsound, unscientific, unfair, inequitable, dangerous, and experimental proposal such as is contained in the pending measure.

Mr. CRAWFORD. Mr. Speaker, will the gentleman yield?

Mr. TREADWAY. I yield.

Mr. CRAWFORD. I should like to ask the gentleman a question with reference to the computation of the tax I would have to pay by reason of not having distributed earnings. Can I deduct the normal tax liability before determining what my net earnings are?

Mr. TREADWAY. I wish the gentleman from Michigan would ask somebody who has seen this report rather than me.

Mr. CRAWFORD. I attempted to ask the gentleman from Washington, but he did not have time to answer.

Mr. TREADWAY. They claim to have seen it. I do not claim to have seen it. Has the gentleman seen a copy of the report? The gentleman has asked for one. Did he get it?

Mr. CRAWFORD. No.

Mr. TREADWAY. No; and I did not get one either.

Mr. RICH. Mr. Speaker, will the gentleman yield?

Mr. TREADWAY. I yield.

Mr. RICH. I asked the gentleman from Washington if this tax bill compelled payment of a tax at its rates on a surplus for the year 1936 if a corporation wanted to save it, and he said, "Yes."

Mr. TREADWAY. Yes.

Mr. RICH. I should like to ask the gentleman from Massachusetts, or any man in this House who knows anything about a business that makes $100,000, whether the operators of the business can tell within 30 or 60 days what the tax is going to be?

Mr. TREADWAY. It does not make any difference whether they know or not, they are penalized.

Mr. RICH. People running an ordinary business do not know what it is going to be.

Mr. COOPER of Tennessee. Mr. Speaker, will the gentleman yield?

Mr. TREADWAY. Can the gentleman give us any information?

Mr. COOPER of Tennessee. I wanted to give the gentleman some information.

Mr. TREADWAY. Oh, the gentleman wanted to furnish some information. If there is a man in existence who can give us information about this bill I should be glad to have him do so.

Mr. COOPER of Tennessee. If the gentleman wants some information I will give it to him.

Mr. TREADWAY. Bully, bully! If the gentleman can do that, go right ahead for there is nobody else who can.

Mr. COOPER of Tennessee. There is not anything in what the gentleman said; so if he wants some detailed information we can give it to him.

Mr. TREADWAY. There are two exceptions to that—two people who know what is in the bill, because Mr. Parker and Mr. Beaman were given a blank check to write in the bill anything they saw fit.

Mr. DOUGHTON. If the gentleman will yield, the gentleman cannot corroborate that statement he just made, to save his soul.

Mr. TREADWAY. Why, what a ridiculous statement to make! If Mr. Beaman and Mr. Parker did not get a blank check to put in the bill anything they saw fit I am a liar, that is all; and I am not; I am telling the gospel truth.

[Here the gavel fell.]

Mr. DOUGHTON. Mr. Speaker, I yield 10 minutes to the gentleman from Kentucky [Mr. VINSON].

Mr. VINSON of Kentucky. Mr. Speaker, the distinguished gentleman who has just taken his seat is the same gentleman who made the remarkable statement during the debate upon this bill before its passage in the House, that he did not know anything about this tax bill and that he did not want to know anything about it. [Applause.]

Mr. RICH. Mr. Speaker, a parliamentary inquiry.

The SPEAKER pro tempore. Does the gentleman yield for a parliamentary inquiry?

Mr. VINSON of Kentucky. No; I do not.

The SPEAKER pro tempore. The gentleman declines to yield.

Mr. VINSON of Kentucky. I want to address myself to the statement of my friend from Indiana. He is a very distinguished Member of this body, and I know that Members listen attentively to him. I can excuse him because I feel certain he does not understand the rates in the conference report which has not been printed. I want to take his own illustration of a corporation having a net income of $2,000. I want to show the House that his conclusion as to the tax, under the conference report, is in error.

Under existing law the rate upon $2,000 will be 12½ percent, or $250. Under the bill that passed the Senate the minimum normal rate was 15½ percent and the one rate on undistributed was 7 percent. Under the Senate bill the tax on a net income of $2,000, all retained by the corporation, would be a normal tax of $310. Deducting $310 from $2,000 leaves $1,690 as undistributed. The tax on the undistributed, to wit, $1,690, at 7 percent, is $118.30. The total tax is $428.30 under Senate bill.

That is the tax the House went up against. The Senate increased the normal minimum rate from 12½ percent to 15½ percent, and the normal maximum rate from 15 percent to 18 percent.

Under the conference report the normal rate on $2,000 is 8 percent. Anybody's pencil will figure that normal to be $160. Now, take $160 from $2,000 and there is left as an adjusted net income the sum of $1,840. Apply the 7 percent rate on the undistributed on that amount. You deduct the tax from your $2,000 to get the adjusted net. Seven percent of $1,840 is $128.80. Add the normal tax, $160 to the 128.80, the tax on the undistributed, and you have a total tax of $288.80 instead of $700, which the gentleman gives as the tax figure under the conference report.

Mr. LAMNECK. Will the gentleman yield?

Mr. VINSON of Kentucky. I yield to the gentleman from Ohio.

Mr. LAMNECK. Under the schedule, as I understand it, you pay a 7-percent surtax on the first 10 percent retained; is that right?

Mr. VINSON of Kentucky. That is where the gentleman from Indiana fell into error. We give special treatment to the small corporations. We take all the undistributed—if 10 percent of the net income is less than $5,000—as the amount in the first bracket upon which we apply the 7-percent rate. In other words, if a corporation has a net income less than $5,000, you cannot have a rate on undistributed greater than 7 percent. If the income is less than $5,000, the whole amount takes the 7-percent rate. I can see now how my friend from Indiana fell into his error. He is usually so careful and is possessed of such ability that it makes an erroneous statement coming from him doubly dangerous. [Applause.]

I am talking about the rates in the conference report. The normal rates are on net income; 8 percent on the first $2,000; 11 percent on the next $13,000; 13 percent on the next $25,000; and 15 percent above $40,000. On the undistributed income it is 7 percent on the first 10 percent; 12 percent on the next 10 percent; 17 percent on the next 20 percent; 22 percent on the next 20 percent; and 27 percent above 60 percent. These rates are on the undistributed.

But we have the special cushion for the smaller incomes. Unless a corporation earns more than $5,000 net income you cannot have a higher rate on undistributed than 7 percent. If my friend will permit, I want to give the House a concrete picture of the minimum rates and the maximum rates under the various bills.

In the House bill the maximum tax on $100,000 is $42,500, all retained. In the Senate bill the maximum tax is $23,219. In the conference report the maximum tax is $31,501. This maximum is for total retention of $100,000—no dividends paid at all. The minimum tax under the House bill was zero, under Senate bill $17,440, under conference report $13,840—all paid out—no retention.

Now, for corporations with a $10,000 net income, under the House bill the maximum rate is $2,967; under the Senate bill, $2,178; and under the conference report $2,082. This is for total retention—no dividends. The minimum tax in the House bill was zero. Minimum tax, Senate bill, $1,590; and under conference report, $1,040—all paid out—no retention.

I want to say to the Members of the House and the country at large that in this conference report we have favored the small-income-producing corporations of this country.

Now, let us take up the question of retention. The total tax depends upon amount of net income undistributed. Take your $2,000 corporation. Assume a distribution of 70 percent—that is, $1,400. Take 8 percent of the $2,000 and you have $160 normal tax. Subtract that $160 from the $2,000 and there is left $1,840. Subtract the distribution, 70 percent of the $2,000, or $1,400, and you have left undistributed $440. Apply the 7-percent rate on $440 and you have a tax of $30.80 on undistributed, which, added to $160, the normal tax, gives you a total of $190.80, total tax.

Mr. SIROVICH. Will the gentleman yield?

Mr. VINSON of Kentucky. I yield to the gentleman from New York.

Mr. SIROVICH. Is it not a fact that we have in the whole of the United States 257,000 corporations. Of these 257,000 corporations more than 220,000 have an income of less than $15,000 annually. If we would have permitted the Senate tax bill to have passed in this House, it would have put a greater burden upon these small corporations than the conference report, which relieves them to a large extent?

Mr. VINSON of Kentucky. It does not take an actuary or a statistician to look at the Senate bill and observe the 3-percent increase in the normal rates, from 12½ percent minimum to 15½ percent minimum and from a 15 percent maximum in the existing law to an 18 percent maximum in the Senate bill. The increase in normal minimum rate is about 25 percent; in the normal maximum rate, about 20 percent.

[Here the gavel fell.]

Mr. DOUGHTON. Mr. Speaker, I yield the gentleman 5 additional minutes.

Mr. PETTENGILL. Mr. Speaker, will the gentleman yield?

Mr. VINSON of Kentucky. I yield to my friend from Indiana.

Mr. PETTENGILL. What is the increase in percent of the proposed tax over the existing law in the case of a corporation that earns $10,000 and retains all of it?

Mr. VINSON of Kentucky. In response to the inquiry of the gentleman from Indiana [Mr. PETTENGILL], I believe I can give him the figures where it is all retained.

Mr. PETTENGILL. Ten thousand dollars.

Mr. VINSON of Kentucky. Where it is all retained?

Mr. PETTENGILL. Yes; 61 percent.

Mr. VINSON of Kentucky. Just a minute, the gentleman has asked me the question.

If all retained, in the House bill it would be $2,967 or 29.67 percent.

In the Senate bill, it would be $2,178, or 21.78 percent.

In the conference report, with this special treatment of the $5,000 credit, it is $2,082, or 20.82 percent.

Mr. SIROVICH. And not $6,000.

Mr. VINSON of Kentucky. The point is that when you figure the normal rate on $10,000, under the conference report it is $960. If all is paid out, that is the total tax, $1,040, against $1,290 under existing law, and $1,590 under Senate bill. If all is retained, subtract $960 normal tax from $10,000 and you have $9,040, as adjusted net.

Now, the error my friend from Indiana has fallen into, and I can absolve him from any blame for not knowing it, because the report has not been printed, is in not using the $5,000 in the first bracket on undistributed income, to which 7 percent is applied. Then you only have $4,040 to take the higher rate. The figure $5,000 takes the 7-percent rate instead of 10 percent of $9,040 or $904. Then deducting $5,000 from $9,040—leaves as I say only $4,040 for the higher rates.

So I say to my friends in the House that the rate on $10,000, all of it retained, in the conference report is $2,082, This is less than the bill that passed the Senate. It is less than the bill that passed the House originally. [Applause.]

Mr. PETTENGILL. Will my good friend agree that on a $10,000 income, all retained, which is the little corporation of this country, the increase in taxes is 61½ percent over existing law, and on a $20,000 net income it is almost a 100 percent increase in taxes?

Mr. VINSON of Kentucky. I have not figured the percentage of increase, but I may say to my friend that the history of retention in this country, over a period of 15 years, is a retention of 25 to 30 percent. I have shown the House that if there is a 70-percent distribution, which is substantially the average, the tax on the $2,000 corporation is $190.80, or $59.20 below existing law, and $103.70 below the Senate bill.

Mr. WOODRUFF. Mr. Speaker, will the gentleman yield?

Mr. VINSON of Kentucky. I yield.

Mr. WOODRUFF. Before he takes his seat will the gentleman inform the House what the revenue will be temporarily under this proposed measure and permanently?

Mr. VINSON of Kentucky. The Treasury estimates that in the first year, under this bill, there will be more than $800,000,000 of revenue in excess of the revenue now being

derived from corporations. And, as I figure it, about the only thing that is really of a temporary nature is the "windfall" tax. There may be some tax decline in the corporation-liquidation amendment. [Applause.]

[Here the gavel fell.]

Mr. DOUGHTON. Mr. Speaker, I yield 5 minutes to the gentleman from New York [Mr. CROWTHER].

Mr. CROWTHER. Mr. Speaker, we could have no greater evidence of the necessity of a thorough study of our tax system in this country than the exhibition we have had here tonight, which has reflected rather more heat than light on the subject. [Laughter.]

I regret there is not time enough to be distributed among the members of the committee who are interested in order to say more about this policy of taxation. Our present tax laws are a Hungarian guolash, a potpourri of surtaxes, normal taxes, excise taxes, tariff taxes, disjointed and disconnected and entwined with a mass of complicated administrative sections that are as hard to understand as the Greek alphabet. This volume that is here tonight does not contain our entire tax law. It exists in a stack of statutory laws probably this high [indicating]. It really is a subject that needs a careful investigation and study by the Committee on Ways and Means and the Finance Committee, together with the very best State experts we can get. It needs serious study. Such studies have been given the matter in other countries of the world, but we keep jumping from one policy to another and adopting tax methods that are unsound, and offering always the emergency as an excuse. The method adopted in the House bill of laying taxes and using as a base the undistributed profits, is absolutely an unsound policy of taxation.

We are getting somewhat used to tax problems under this administration. This is the fifth tax bill I think we have, or the fifth new source of revenue. Under the N. R. A. we had a special bill to provide $276,000,000 for the purpose of amortization. Then we continued the nuisance taxes and capital-stock taxes and promised to take them off when prohibition was repealed, but when it was repealed we needed the money so badly that they never were taken off and are still in existence Then we continued the increased postage at 3 cents at the request of Mr. Farley to bring us another hundred-odd million dollars of revenue. In 1934 we had the so-called "loop-hole" taxes, where we closed up those openings through which the holding companies were evading taxation. Then we had the soak-the-rich tax bill of 1935, after we had been promised at the beginning of that session that there would be no taxes. At the beginning of this session we were again promised there would be no taxes, and in its closing hours we have now up for consideration the soak-the-corporation tax bill of 1936.

This bill will not balance the Budget, and the administration finds itself in an embarrassing position. You hate to pass a tax bill, especially involving the low-tax brackets; but, of course, that was stricken out—you did not consider it politically expedient to raise the income-tax rate in the lower brackets just on the eve of an election. You do not dare go into this next campaign without making some slight gesture toward balancing the Budget. Of course, this bill will not balance the Budget, but it will supply a little loose change for the alphabetical boys to play politics with between now and the 3d of next November. [Applause.] This business of levying these heavy taxes on business corporations is an unsound system, and I am glad to see the conference report is coming back to the House with very much more moderate taxes on undistributed profits, and they are reckoned on the undistributed amount rather than the net income, which is a great advantage, but again I say the policy is unsound.

It is just another high-toned method of distributing wealth, the Tugwellian theory, the Frankfurter theory of distributing wealth by making corporations pay out their earnings at a time when serious impairment of capital structure is the rule rather than the exception. To round out the attack on business you characterize the corporations of the country as horrible examples of entrenched greed. You forget that they are the people who employ the men and women wage earners of the country It is just a plan to crucify business, and that has been the plan of this administration. It has shown a hatred and distrust of business ever since March 4, 1933. That is not the way to promote American welfare, that is not the way to create industrial activity, the renewal of which is the greatest problem that we face in this country today. [Applause.]

Mr. DOUGHTON. Mr. Speaker, I ask unanimous consent to revise and extend my remarks in the RECORD.

The SPEAKER pro tempore. Is there objection?

There was no objection.

Mr. DOUGHTON. Mr. Speaker, those who oppose this legislation, this tax bill, may well be divided into three classes: First, those who know little or nothing whatever about the bill, as was exemplified by the speech of the gentleman from Indiana [Mr. PETTENGILL] and the gentleman from Massachusetts [Mr. TREADWAY]. They demonstrated clearly that they know nothing about what is in the bill. The next class is that class which speaks for those who would avoid or evade their just share of the taxes to support this Government. They are those who speak for fortified privilege, and those who would evade carrying their just burden of the expense of our Government. The third class is the class who would play politics with this legislation, those who would try to capitalize this tax bill and deceive and mislead the American people for the purpose of making political capital.

The principle of this tax legislation is based on sound fundamental justice. It merely proposes that the earnings of corporations, whether paid by corporations as such or by stockholders after the earnings are distributed, shall bear the same percentage of tax as those who are in business as individuals or as partnerships. This is the fundamental principle on which this tax bill is based, and everyone should know that.

The House and Senate conferees are in complete agreement on the revenue bill of 1936, except as to one minor amendment in respect to an appropriation.

Your conferees succeeded in bringing about the adoption of a plan which will give very substantial recognition to the principle of basing our corporate tax system upon the undistributed profits of corporations. This is, of course, the most important matter connected with this legislation. The House bill, as originally passed, provided for a tax based entirely on undistributed profits. In the case of the large corporations the rate varied from zero, where all profits were distributed, up to 42½ percent of the net income where all profits were retained. In the case of the small corporations with a net income of $10,000, or less, the rates varied from zero to 29½ percent of net income.

On the other hand, the Senate bill proposed a normal tax on the net incomes of all corporations graduated from 15½ percent to 18 percent, an increase of 3 percent over existing law. In addition, the Senate bill proposed to tax the undistributed net income of corporations at a flat rate of 7 percent.

The conferees recommend a new plan which, while retaining a normal tax on corporations, also imposes a graduated undistributed-profits tax which will discourage the accumulation of unnecessary surpluses. Briefly, the plan is as follows:

First. Impose a normal tax of 8 percent on the first $2,000 of net income; 11 percent on the next $13,000 of net income; 13 percent on the next $25,000 of net income; and 15 percent on the balance of the net income in excess of $40,000.

Second. Impose a surtax on the undistributed net income of corporations equal to the sum of the following:

Seven percent of the portion of the undistributed net income not in excess of 10 percent of the adjusted net income.

Twelve percent of the portion of the undistributed net income in excess of 10 percent and not in excess of 20 percent of the adjusted net income.

Seventeen percent of the portion of the undistributed net income in excess of 20 percent and not in excess of 40 percent of the adjusted net income.

Twenty-two percent of the portion of the undistributed net income in excess of 40 percent and not in excess of 60 percent of the adjusted net income.

Twenty-seven percent of the portion of the undistributed net income in excess of 60 percent of the adjusted net income.

Special relief from this surtax is given corporations having adjusted net incomes of less than $50,000, by allowing the first $5,000 to be taxed at 7 percent even though the 10 percent bracket is less. This has the effect of reducing the amount taxable in the upper brackets by an amount equal to the excess of $5,000 over 10 percent of the adjusted net income.

The net effect of the three plans may be brought out by the following comparison in the case of a corporation with a net income of $100,000:

Maximum tax:	
House bill	$42,500
Senate bill	23,219
Conference report	31,501
Minimum tax:	
House bill	0
Senate bill	17,440
Conference report	13,840

A similar comparison for a small corporation with a net income of $10,000 is as follows:

Maximum tax:	
House bill	$2,967
Senate bill	2,178
Conference report	2,082
Minimum tax:	
House bill	0
Senate bill	1,590
Conference report	1,040

The corporate-tax plan proposed in the conference report is estimated to produce six hundred and thirty-four millions of additional revenue after taking care of a loss of about forty millions occasioned by reducing the capital-stock tax from $1.40 per $1,000 to $1 per $1,000. Other changes in the bill should bring the total of permanent revenue up to about seven hundred and ten millions. The President requested only six hundred and twenty millions of permanent revenue, so that we are providing about ninety million in excess of his request. We have retained the windfall tax in the House bill with some minor changes which is expected to produce eighty-two millions of temporary revenue. The President asked for one hundred and seventy-two millions of temporary revenue. The shortage here is compensated for by the excess of permanent revenue provided.

I will now point out briefly some of the more important features of the bill as modified by the conference report.

The surtax increases upon individuals proposed in the Senate bill have been eliminated.

Both the House and Senate bills provide that dividends received from corporations should be subject to the normal tax in the hands of the shareholders. This feature, of course, is retained in the conference report. Banks, trust companies, and insurance companies are exempted from the surtax on undistributed profits and pay a flat normal tax of 15 percent.

Corporations in receivership are exempt from the surtax on undistributed profits and are subject to the regular normal tax paid by other corporations.

Relief is given to corporations in respect to the undistributed-profits tax where the payment of dividends is restricted by contract.

Section 102 dealing with the surtax on corporations improperly accumulating surplus is restored to the bill in a similar form as found in existing law with certain changes which make it more consistent with the new scheme of taxation.

Certain changes have been made in respect to the provision governing the liquidation of corporations which should facilitate the simplification of corporate structures.

The taxation of foreign corporations and nonresident aliens has been changed to a considerable extent from existing law, although both the House and Senate bills were somewhat similar on this point. The general policy followed has been to deduct as much tax as possible at the source rather than to rely upon returns made by nonresident corporations or individuals.

Provisions have been inserted in the bill which give special treatment to common-trust funds operated by banks, and also to certain classes of investment trusts.

Section 351 in respect to personal-holding companies which is not contained in the House bill has been restored on a similar basis as is the case with existing law.

The capital-stock tax which was eliminated in the House bill after 1 year, and retained at the rate of $1.40 per $1,000 in the Senate bill, has been included in the conference report at a rate of $1 per $1,000.

The windfall, or unjust-enrichment tax, has been retained in the conference report in a similar form as proposed in the House bill. A number of amendments have been made in respect to this tax.

Refunds of floor stock taxes are also taken care of in the conference report in a similar form as passed by the House.

The Senate bill contains a provision clarifying and somewhat broadening the definition of various fish, animal, and seed oils taxed under the Revenue Act of 1934, as amended. The House receded in respect to this amendment with an amendment.

The Senate receded in respect to an amendment, which was proposed, which would have allowed a deduction from the gross estate for estate-tax purposes of the proceeds of certain policies of insurance taken out with the Treasury of the United States as beneficiary for the purpose of paying the tax. It was found that this amendment might result in an annual loss of thirty-two millions and your conferees did not feel that this loss of revenue was justifiable at this time.

Certain administration amendments have been made which should facilitate the administration of our tax system by the Bureau of Internal Revenue.

To conclude, I believe that your conferees have won a substantial victory in maintaining the principle of a graduated tax on undistributed profits, which graduation is sufficient to discourage the unreasonable accumulation of surpluses. On the other hand, it is believed that the rates are not so high as to bring about any unwise distribution of current earnings. In any event the bill will give a fair test to the proposal for a tax on undistributed profits. Very substantial revenue will be produced and that, of course, is of supreme importance at this time. [Applause.]

The SPEAKER pro tempore. The time of the gentleman from North Carolina has expired. All time has expired. The question is on agreeing to the conference report.

Mr. SNELL. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The question was taken; and there were—yeas 223, nays 99, not voting 102, as follows:

[Roll No. 128]

Mr. Schuetz with Mr. Taylor of South Carolina.
Mr. Weaver with Mr. May.
Mr. Montet with Mr. Wood.
Mr. Kleberg with Mr. Scrugham.
Mr. Jones with Mr. Cannon of Wisconsin.
Mr. Beiter with Mr. Goldsborough.
Mr. Kocialkowski with Mr. Wilson of Louisiana.
Mr. Bulwinkle with Mr. Sandlin.
Mr. Cary with Mr. Carmichael.
Mr. Ayers with Mr. Fiesinger.
Mr. Duffey of Ohio with Mr. Sanders of Louisiana.
Mr. Dunn of Mississippi with Mr. Moritz.
Mr. Eagle with Berlin.
Mr. Parks with Mr. Brennan.

Mr. CONNERY. Mr. Speaker, I desire to vote.

The SPEAKER pro tempore (Mr. WARREN). Was the gentleman present and listening when his name was called?

Mr. CONNERY. I was not, Mr. Speaker. If I were, I would have voted "aye."

The SPEAKER pro tempore. The gentleman does not qualify.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore. The Clerk will report the amendment in disagreement.

The Clerk read as follows:

Amendment no. 281. Page 307, section 915. "Salaries and administrative expenses."

"Funds made available to the Secretary of Agriculture for salaries and administrative expenses by the appropriation 'Payments of Agricultural Adjustment' under title I of the Supplemental Appropriation Act, fiscal year 1936, shall be available until June 30, 1937, for transfer to the Treasury Department for salaries and administrative expenses in carrying out the provisions of this title and of title IV, including necessary investigative work, and for refunds and payments under title IV. Such funds shall be available for expenditure by the Secretary of the Treasury for personal services and rent in the District of Columbia and elsewhere, for law books, books of reference, press releases, trade journals, periodicals, and newspapers, for contracting reporting services, printing and paper in addition to allotments under the existing law, travel expenses, for mileage and per diem of witnesses, in lieu of subsistence; payment of which mileage and per diem may be made in advance upon certification of such officer as the Commissioner or the Secretary may designate, and such certification shall be conclusive. In addition to the foregoing, the administrative expenses provided for in this section shall include such miscellaneous expenses as may be authorized or approved by the Commissioner or the Secretary for carrying out the provisions of this title, including witness fees and mileage for experts, notarial fees, or like services, and stenographic work for taking depositions."

Mr. SAMUEL B. HILL. Mr. Speaker, I move that the House recede and concur with an amendment which I ask the Clerk to report.

The Clerk read as follows:

Mr. SAMUEL B. HILL moves that the House recede from its disagreement to the amendment of the Senate no. 281 and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

"SEC. 915. SALARIES AND ADMINISTRATIVE EXPENSES.

"Funds made available to the Secretary of Agriculture by the appropriation for the fiscal year 1936 in section 32 of Public, No. 320, Seventy-fourth Congress, approved August 24, 1935, to the extent of the unobligated balance thereof; and by the appropriation in section 12 (a) of the Agricultural Adjustment Act, in an amount not in excess of $15,000,000; shall be available until June 30, 1937, for transfer to the Treasury Department for salaries and administrative expenses in carrying out the provisions of this title and of Title IV, including necessary investigative work, and for refunds and payments under Title IV. Such funds shall be available for expenditure by the Secretary of the Treasury for personal services and rent in the District of Columbia and elsewhere, for law books, books of reference, press releases, trade journals, periodicals, and newspapers, for contracting reporting services, printing, and paper in addition to allotments under the existing law, travel expenses,

for mileage and per diem of witnesses in lieu of subsistence, payment of which mileage and per diem may be made in advance upon certification of such officer as the Commissioner or the Secretary may designate, and such certification shall be conclusive. In addition to the foregoing, the administrative expenses provided for in this section shall include such miscellaneous expenses as may be authorized or approved by the Commissioner or the Secretary for carrying out the provisions of this title, including witness fees and mileage for experts, notarial fees, or like services, and stenographic work for taking depositions."

The motion was agreed to.

A motion to reconsider was laid on the table.

Mr. RICH. Mr. Speaker, a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state it.

Mr. RICH. Is it permissible to put in a tax bill the manner by which the money collected is to be expended by the Department of Agriculture?

The SPEAKER pro tempore. No point of order was made.

Mr. RICH. I make it now.

The SPEAKER pro tempore. The point of order comes too late.

ADULTERATION, MISBRANDING, AND FALSE ADVERTISING OF FOODS DRUGS, DEVICES, AND COSMETICS, ETC.

Mr. RAYBURN. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (S. 5) to prevent the adulteration, misbranding, and false advertising of food, drugs, devices, and cosmetics in interstate, foreign, and other commerce subject to the jurisdiction of the United States, for the purposes of safeguarding the public health, preventing deceit upon the purchasing public, and for other purposes, with House amendments, insist on the House amendments, and agree to the conference asked by the Senate.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The SPEAKER pro tempore. Without objection, the Chair appoints the following conferees: Mr. CHAPMAN, Mr. COLE of Maryland, Mr. KENNEY, Mr. REECE, and Mr. WOLVERTON.

There was no objection.

SHIP SUBSIDY

Mr. BLAND. Mr. Speaker, I move to suspend the rules and pass the resolution which I send to the desk.

The Clerk read as follows:

House Resolution 557

Resolved, That immediately upon the adoption of this resolution the bill H. R. 8555, with the Senate amendments thereto, be, and the same is hereby, taken from the Speaker's table, to the end that the Senate amendment to the title of the bill be, and the same is hereby, agreed to; and Senate amendment no. 1 be, and the same is hereby, agreed to with the following amendment: Strike out section 303 of title III of the said Senate amendment.

The SPEAKER pro tempore. Is a second demanded?

Mr. LEHLBACH. Mr. Speaker, I demand a second.

Mr. BLAND. Mr. Speaker, I ask unanimous consent that a second be considered as ordered.

The SPEAKER pro tempore. Without objection, it is so ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Virginia [Mr. BLAND] is recognized for 20 minutes and the gentleman from New Jersey [Mr. LEHLBACH] for 20 minutes.

Mr. BLAND. Mr. Speaker, the matter which is before the House is a bill commonly known as the ship-subsidy bill. That bill passed the House about a year ago and went to the Senate. The Senate has stricken out all after the enacting clause and has substituted its own provisions. The situation is that it has added many drastic features, but at the same time, in the words of the President, "It is a step in the right direction." I am authorized by the President to make that statement.

The situation in the Senate is that the bill carrying the appropriation for ocean-mail contracts is now being filibustered against until this bill is adopted.

I have served in this House long enough to realize that all legislation is a compromise. I have served long enough to know that it is impossible for me to get always the legislation that I desire. The bill will help to preserve certainly the status quo, and, I believe, will be at least an experiment in trying to build up a merchant marine. We are face to face with the inevitable situation that unless appropriation for the ocean-mail contracts goes through and some provision is made we will find shipping on the rocks. Companies will be in bankruptcy. They will be tied up or they will be operated by this Government at a vastly increased cost over the present sum which it requires to operate them.

Mr. O'MALLEY. Mr. Speaker, will the gentleman yield?

Mr. BLAND. For a brief question; yes.

Mr. O'MALLEY. What are the Senate amendments that have been added to this bill? I would like to get some information.

Mr. BLAND. I wish it were possible for me to cover all of these amendments, but I will say they are the amendments that have been sought by Senator BLACK and by Senator CLARK and by other gentlemen who have been fighting the original bill. Ocean-mail contracts are carried on until June 30, 1937. A maritime commission is established.

Mr. VINSON of Georgia. Mr. Speaker, will the gentleman yield?

Mr. BLAND. Time is flying.

Mr. VINSON of Georgia. Will the gentleman advise the House as to whether he is in accord with these Senate amendments to which he has just referred?

Mr. BLAND. I have just said that it is a compromise. Personally I should like to have a different bill. I realize that I cannot get it; that in the situation I had better take what I can get and hope to amend it in the future if it will not work. I hope it will work. The proponents of this bill say it will. If so, then we can have a merchant marine; if it does not work, we can amend and have something else.

Mr. VINSON of Georgia. Mr. Speaker, will the gentleman yield further?

Mr. BLAND. I yield.

Mr. VINSON of Georgia. Does the gentleman think, in his own opinion, that it will work?

Mr. BLAND. I do not know; but I do believe it will certainly stay bankruptcy and destruction at the present time.

Mr. VINSON of Georgia. We would be in the same fix if the provisions did not work, would we not?

Mr. BLAND. We would not, for we would not be in a position where we could amend and correct. But we are face to face, in my opinion, today with the death of the American merchant marine unless we pass this act. It does contain provisions that in my opinion will enable us to work something out. I believe that there are many salutary provisions in the bill, and I would rather accept this bill today and have something than to face the future with destruction ahead of us.

Mr. CELLER. Mr. Speaker, will the gentleman yield for a brief question?

Mr. BLAND. I yield.

Mr. CELLER. Do I understand that one Senate amendment involves the so-called Black lobby bill?

Mr. BLAND. It does not to the extent that the Black lobby bill was considered here. There is a provision in the bill relating to lobbying which relates to shipbuilding and also ship operators.

Mr. CELLER. It is not the general bill.

Mr. BLAND. It is not the general bill. I think I can safely say that.

Mr. BIERMANN. Mr. Speaker, will the gentleman yield?

Mr. BLAND. I yield.

Mr. BIERMANN. Can the gentleman tell us about what this is likely to cost the United States Treasury per year?

Mr. BLAND. No; I am unable to say just what it will cost, because the maritime commission must work out a long-time program. The commission is authorized to work out a long-time program. It will certainly cost in all probability as much as the present ocean-mail contract. I do not think it will go above that.

Mr. BIERMANN. What does that cost now?

Mr. BLAND. About $22,000,000.

Mr. VINSON of Georgia. What is the difference between the House bill and the Senate bill?

Mr. BLAND. It would take more than 20 minutes to tell that.

Mr. RAMSPECK. Mr. Speaker, will the gentleman yield?

Mr. BLAND. I yield.

Mr. CELLER. Mr. Speaker, a point of order.

The SPEAKER pro tempore. The gentleman from Virginia has already yielded to the gentleman from Georgia.

Mr. RAMSPECK. Is not this the situation we are faced with, that this is the only legislation we can get and there is a possibility that the appropriation for continuing the ocean-mail contracts may fail if we do not take this?

Mr. BLAND. Absolutely.

Mr. RAMSPECK. And if we do take this it sets up a maritime authority, counsel, or whatever they call it, and carries the matter over until next January?

Mr. BLAND. Yes; and provides for recapture and all that sort of thing.

Mr. Speaker, I reserve the balance of my time.

Mr. CELLER. Mr. Speaker, a point of order.

The SPEAKER pro tempore. The gentleman from New York will state his point of order.

Mr. CELLER. Is it in order to ask that the amendment concerning the lobbying features of the bill be read to the House at this time?

The SPEAKER pro tempore. The Chair does not think it is in order now.

Mr. CELLER. How can that be read, under the circumstances?

The SPEAKER pro tempore. By unanimous consent.

Mr. CELLER. Mr. Speaker, I ask unanimous consent that that portion of the bill be read to the House.

Mr. BLAND. Not to be taken out of the time for debate.

Mr. CELLER. Not to be taken out of the time for debate.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York? [After a pause.] The Chair hears none.

Mr. HOLMES. Mr. Speaker, a point of order.

The SPEAKER pro tempore. The gentleman will state the point of order.

Mr. HOLMES. Mr. Speaker, I make the point of order that there is not a quorum present. This is too important a bill to be acted upon with so few listening to the debate.

Mr. O'MALLEY. Mr. Speaker, a parliamentary inquiry.

Mr. LEHLBACH. Mr. Speaker, I make the point of order that a parliamentary inquiry is not in order.

The SPEAKER pro tempore. Does the gentleman from Massachusetts insist upon his point of order that a quorum is not present?

Mr. HOLMES. Mr. Speaker, I insist upon my point of order.

The SPEAKER pro tempore. The Chair will count.

Mr. HOLMES. Mr. Speaker, I withdraw my point of order.

The SPEAKER pro tempore. The Clerk will report the portion of the bill with reference to which unanimous consent was obtained for the information of the House.

The Clerk read as follows:

SEC. 807. It shall be unlawful for any person employed or retained by any shipbuilder or ship operator holding or applying for a contract under the provisions of this act, or employed or retained by any subsidiary, affiliate, associate, or holding company of such shipbuilder or ship operator, to present, advocate, or oppose any matter affecting any such shipbuilder or ship operator or any subsidiary, affiliate, associate, or holding company thereof, before the Congress or any Member or committee thereof, or before the Commission, or any other governmental agency or any member, officer, or employee thereof, unless such shipbuilder or ship operator shall have previously filed with the Commission in such form and detail as the Commission shall by rules and regulations or order prescribe as necessary or appropriate in the public interest, a statement of the subject matter in respect of which such person is retained or employed, the nature and character of such retainer or employment, and the amount of compensation received or to be received by such person, directly or indirectly, in connection therewith. It shall be the duty of every such person so employed or retained to file with the Commission within 10 days after the close of each calendar month during such retainer or employment, in such form and detail as the Commission shall by rules and regulations or order prescribe as necessary or appropriate in the public interest, a statement of the expenses incurred and the compensation received by such person during such month in connection with such retainer or employment. Whosoever shall violate this provision shall be guilty of a misdemeanor.

Mr. LEHLBACH. Mr. Speaker, we are asked in the closing hours of this session to enact a piece of legislation which not a single Member of the House, with the exception of three, has ever seen. It is not in print. It is not available. It is a fundamental piece of legislation, enacting for the first time direct aid to merchant-marine operations in lieu of indirect aid which have heretofore been the policy of the Government.

Mr. Speaker, we considered such a bill in the last session of Congress. After weeks of hearings, after months of deliberation in committee, and after protracted debate in the House, during which probably 80-odd amendments were offered, discussed, and considered, we passed a bill upon which the House was so divided that the final passage was by a majority of only seven votes.

The bill went to the Senate and was there referred to a committee. The committee considered the bill. Amendments were offered by four or five different Members of the Senate, some of them avowed enemies of the merchant marine and of Government aid in support thereof.

This bill was reported, as a matter of form, some time this spring, I believe. After it was reported it was again amended in committee while the bill that was actually reported lay dormant on the calendar. Yesterday for the first time a bill, not the one that was reported, but an amended bill, was considered by the Senate and passed at 2 o'clock this afternoon with a number of amendments offered from the floor and adopted.

Nobody knows what is in this bill at the present time. Sight unseen and without any knowledge of the provisions of the bill we are told to pass it here tonight. It is none of our business and nobody cares whether we know what we are supposed to pass or not.

In order to help the passage of this bill we are told there is a filibuster going on at the other end of the Capitol, which has for its purpose striking out an appropriation of $26,000,000 in the Post Office appropriation bill for the payment of existing lawful contracts which are being carried out. They say unless we pass this bill, of which we know nothing, they will welsh on the payment of these mail contracts and wreck the merchant marine of the United States. We are not mice, and we have some semblance of manhood, I should say. At least I hope so.

It is a silly and an idle threat to filibuster in order to prevent the adoption of the conference report on the Post Office appropriation bill. It is of no avail anyway, because if the conference report on that appropriation bill is not adopted a continuing resolution will have to be agreed to, and that continuing resolution will provide for the payment of the mail contract. It is all a silly bluff. Men can deceive and delude children.

Mr. CELLER. Will the gentleman yield?

Mr. LEHLBACH. I yield to the gentleman from New York.

Mr. CELLER. I congratulate the gentleman upon his statement, and I think the attitude of a certain gentleman in the other Chamber is contemptible.

Mr. SNELL. Will the gentleman yield?

Mr. CELLER. I yield to the gentleman from New York.

Mr. SNELL. This bill has been amended by the Senate, and some of these amendments apparently are not in print. Does the gentleman know anything about them?

Mr. LEHLBACH. Something was read at the desk which pertained to lobbying. I believe it is a provision of the Black lobby bill but confined to shipping and shipbuilding interests.

Mr. O'MALLEY. Will the gentleman yield?

Mr. LEHLBACH. I yield to the gentleman from Wisconsin.

Mr. O'MALLEY. Does the gentleman know how many amendments the Senate added to the bill as originally reported?

Mr. LEHLBACH. The bill that is presently under consideration, although I have no knowledge, is the bill as it passed the House with everything that any Senator wished

to have stricken out eliminated, and anything that any Senator wanted to put in inserted in the bill. It is the most hodgepodge arrangement, it is the most foolish arrangement that has ever come before this House. [Applause.]

Mr. LUDLOW. Will the gentleman yield?

Mr. LEHLBACH. I yield to the gentleman from Indiana.

Mr. LUDLOW. Does the gentleman, who is an expert on the merchant marine, have any idea whatever how much this bill will cost the taxpayers of the United States?

Mr. LEHLBACH. I have not the slightest idea, and nobody else on God's earth has any idea.

Mr. LUDLOW. Does the gentleman think the House ought to be held up at the point of a gun aimed at us by the Senate and forced to pass this bill without knowing anything about it?

Mr. LEHLBACH. Certainly not, and that is what I am trying to impress upon the gentleman.

Mr. LAMNECK. Will the gentleman yield?

Mr. LEHLBACH. I yield to the gentleman from Ohio.

Mr. LAMNECK. Is the bill we are considering no. 8555?

Mr. LEHLBACH. H. R. 8555, with Senate amendments. I hold in my hand copy of a committee print from the Senate Committee on Interstate Commerce. In this committee print are lead-pencil interlineations and yellow typewritten sheets. There are two copies. This second copy was lent to me by the legislative drafting service of the House, and that is all the information there exists as to what we are supposed to vote on.

Mr. RICH. Will the gentleman yield?

Mr. LEHLBACH. I yield to the gentleman from Pennsylvania.

Mr. RICH. If we have not anything more than that, and someone else would want to stick in a few more yellow sheets, would that be possible?

Mr. LEHLBACH. As far as any Member of the House is concerned, that could be done. I want to say there is no reason at all why we should vote for this bill.

If anybody is in favor of adequate aid of the merchant marine on a sensible, sound, and sane basis, there is no earthly reason why he should vote for this bill. There will be no wrecking of the merchant marine if this bill fails. The merchant marine will continue as it has for years; and when the new Congress meets in January of next year, we can take up the question and work out a solution about which we will know something, on which we shall have deliberated, and on which we will vote with some semblance of understanding and reason.

It is an outrageous proposition to force this down our throats on the basis of a fool bluff at the other end of the Capitol with respect to a filibuster and on the pretense that all the merchant marine will disappear off the seas if this specific bill, at this specific hour, is not passed.

I appeal to the common sense, I appeal to the self respect of this House not to be so dragooned. [Applause.]

Mr. BLAND. Mr. Speaker, I yield 5 minutes to the gentleman from Iowa [Mr. WEARIN].

Mr. WEARIN. Mr. Speaker, I realize this is a subject of vital importance and I would have the House know, in spite of the remarks of the distinguished gentleman from New Jersey [Mr. LEHLBACH] that this subject has been before the Congress for over a year now and has been debated thoroughly upon a number of occasions. I want to take this opportunity of assuring the House that I do not believe there are any things incorporated in this bill which have not been discussed before the committees of the Congress and the House itself upon various occasions. I am perfectly free to state——

Mr. O'MALLEY. Mr. Speaker, will the gentleman yield?

Mr. WEARIN. I am sorry my time is so limited that I cannot yield in the 5 minutes and get this picture before you. I am just as much opposed to subsidies as I have ever been and I am certainly opposed to the many things and the many evils that accompany them. Furthermore, I would certainly be opposed to them ever becoming a permanent policy of the Democratic Party and especially ship subsidies, but I wish to assure the House that this is the situation before us at the moment.

We have the 1928 Merchant Marine Act and we have been functioning under that in the face of fraudulent contracts expending some $25,000,000 or $26,000,000 a year, and we must now either continue under those contracts, cancel them without having a program for an American merchant marine, or we must pass this bill. I am free to say to the House that in spite of the fact I am opposed to subsidies as a general rule, of the three alternatives, the latter is the preferable action at the moment.

I am very pleased that it incorporates many of the things for which I have fought over a long period of months to get into the merchant marine law. It incorporates provisions for recapture of excess profits on the part of subsidized shippers. It provides for a limitation of salaries to $25,000, so that excessively large pay checks cannot sap these subsidies and go into the pockets of private individuals, but will be used for the building of a merchant marine as they should be if we are going to have one.

I may say further that there are provisions in this bill eliminating the evil of holding companies with which we have been faced in the past in attempting to build a merchant marine.

The measure includes various provisions for the protection of labor, including minimum wage scales and reservations with reference to working hours and working conditions on board ships, and innumerable other items which will serve, in my judgment, to protect the public interest better than has ever been done before; and if we are going to have merchant-marine legislation on the statute books, then certainly we had better have a law of this type than legislation of the character of the 1928 act, under which the American people have been robbed and pillaged, and we still do not have a merchant marine.

We must consider the subject from this angle, because at this closing hour we are faced with the problem of having condemned the present system and we have nothing to offer as a substitute. Furthermore, I am frank to say that in my judgment a considerable portion of the subsidized merchant marine of this country or some of the interests involved therein, would like to see this measure fail for the very reasons I have outlined here with reference to the provisions that are contained in this act. They do not want a law with the safeguards to which I have already referred. It is not perfect. There are many things I would like to see in it that are not in it, but it is the best that can be done under the circumstances. [Applause.]

If I thought we could defeat this bill and cut off the existing appropriation now in controversy between the two branches of this Congress and pass a measure such as the Moran bill providing for Government ownership and private operation until such time as the shipping interests were capable of financing their own merchant marine I would pronounce that as the preferable action, but it is obvious that cannot be done this session.

Again I repeat that we have the alternative of continuing under the 1928 act which has been proved to be a failure and that has resulted in a long series of fraudulent contracts, cancelation of those contracts without offering anything in their place as a new program, or the passage of this bill incorporating many of the safeguards of the public interest for which a few of us have fought consistently month after month. Even though I continue to be opposed to subsidies and will always oppose their being incorporated in the principles of the Democratic Party, I do feel that under the rather unique circumstances the latter is the preferable course for the time being.

[Here the gavel fell.]

Mr. BLAND. Mr. Speaker, I yield 5 minutes to the gentleman from Maine [Mr. MORAN].

Mr. MORAN. Mr. Speaker, this bill has been unfairly represented as one which would wreck the American merchant marine. The exact contrary is true. We have already wrecked the American merchant marine under the present

policy, continuation of which is the only alternative to this bill. The very fact that many merchant marine bills have been introduced in both the House and the Senate, even though the bills have varied in their contents and policies, is ample and convincing evidence of the fact that every person informed upon the question of the American merchant marine agrees fundamentally in the viewpoint that the present situation means the wreck of the American merchant marine and that some remedy is essential. The alternatives, therefore, before the House are clear—either to continue the present system, which all admit wrecks the American merchant marine, or to try a new plan. This bill provides a new plan.

Mr. CELLER. Mr. Speaker, will the gentleman please tell us what the amendments are?

Mr. MORAN. This bill in the first place meets the President's wishes as expressed in his message to Congress in that it provides aid to our merchant marine both by construction and by operating subsidies. Furthermore, as specifically requested by the President, the ocean-mail contracts are canceled, but not under any difficult or any unfair method or system. They are to be continued for as long as necessary, up to a limit of 1 year, during which period the new commission will arrange new contracts with these contract holders, wherever possible in the interest of the merchant marine, or will provide them fair damages for any loss sustained by such cancelation with the usual court recourse open to them if the adjudication is not considered satisfactory. There are labor provisions in this bill which were fought for in the contest a year ago over the merchant marine bill. The labor provisions begin on page 20 of the bill and provide minimum wages, maximum hours, and vastly improved living conditions for American seamen. This bill also provides that our new merchant marine personnel will be 100-percent American.

The bill also provides the necessary corollary to any subsidy system, and that is a recapture system; a recapture of excess profits either in construction or in operating subsidies, and that is certainly in the public interest and in the interest of well-established merchant marine.

A special provision is contained for special aid for our export trade, for our farmers, to do all we can to export the products of American industry and the American farm. Salary restrictions are contained in the bill.

The SPEAKER pro tempore. The time of the gentleman from Maine has expired.

(By unanimous consent, Mr. MORAN was granted leave to extend his remarks in the RECORD.)

Mr. MORAN. Some references have been made to the evils of Government ownership, an alternative provided in this bill in the event private ownership fails to produce an adequate merchant marine. Here are some facts concerning Government ownership and so-called Government operation:

From 1917 to June 30, 1935, Congress has appropriated $3,753,211,216.68 (see schedule A–1) for expenditure by the United States Shipping Board Merchant Fleet Corporation. Of this sum, over $3,000,000,000 represent the amount paid for the wartime fleet (comprising some 2,500 passenger and cargo vessels, tankers, barges, tugs, and so forth, constructed, purchased, and seized during the World War, and the balance of this sum has been expended largely in the settlement of wartime claims, in liquidating this enormous wartime fleet, and for developing and operating various foreign services.

All except approximately 280 vessels (cargo, passenger, and refrigerator) have been sold for a very small percentage of their construction cost. Approximately $335,000,000 has been realized, either in cash or notes receivable, for the vessels sold; and included in this sum were 220 vessels, with a construction cost of approximately $516,000,000, sold to the mail contractors for $41,000,000. There is a balance of approximately $18,000,000 yet due on vessels sold, the majority of which is due from mail contractors.

Of the actual cash received from the sale of these vessels, $125,000,000 has been deposited in the revolving construction loan fund and the balance of the cash received from such sales has been used for liquidation purposes or deposited in the insurance fund to take care of losses experienced in underwriting insurance on vessels on which the Government had a mortgage. None of the proceeds of the sale has been used for operating vessels.

The net assets of the United States Shipping Board Bureau and the United States Shipping Board Merchant Fleet Corporation, as at June 30, 1935, were approximately $225,000,000, which are inclusive of the fleet of some 280 vessels referred to above with a book value of approximately $30,000,000.

Much has been said about the cost of Government operation and it is obvious when most people have discussed this subject, they have not spoken from the record. Operating losses on all lines, after overhead expenses and every other form of expense has been included except depreciation, for the fiscal years 1917 to 1935, inclusive, amounted to only $103,255,981.81. (See schedule A–2 attached.) This included the cost of developing services to all parts of the world, many of which were abandoned after it was determined that they were too costly or otherwise impracticable.

As pointed out hereinbefore, all the enormous appropriations and proceeds from the sale of the wartime constructed vessels which were sold for about an average of 10 percent of their cost was used to either purchase, construct, or otherwise acquire the wartime fleet and to liquidate wartime claims and the fleet itself. The actual cost of developing and maintaining these services from inception has represented only a small percentage of the amount appropriated during the same period. During this entire period of so-called Government operation these vessels were operated almost exclusively by managing operators, who were compensated on a commission basis under which plan the Government stood the losses and the operator realized the profits, because he had no investment and because his commission on gross revenue invariably exceeded the expenditures for his personal account.

Included in these losses is a loss of six or seven million dollars incurred by the Government in the direct operation of the United States Lines—the prize passenger fleet—for a period of 6 years extending from 1923 to 1929.

Since the inception of the 1928 act and up to December 31, 1935, the Post Office Department has paid a net subsidy of approximately $143,000,000 (this represents the excess of the actual mail payments on a mileage basis over what it would have cost on an American poundage basis). During this period of approximately 7 years, the mail contractors have built some 30 vessels at a cost of approximately $150,000,000, 75 percent of the cost having been borrowed from the Government. The construction differential on a passenger vessel is much lower than that on a cargo vessel. As the majority of the vessels constructed were of the passenger type, it is safe to assume that the construction differential on this total expenditure of $150,000,000 did not exceed 25 percent of the cost; therefore, 25 percent of the $150,000,000 would be $37,500,000. Deduct this sum from the expenditure of $143,000,000 and you have approximately $105,000,000 representing the cost to the Government in maintaining these prize services for a period of 7 years, whereas all services under Government ownership were developed and maintained for a period of approximately 18 years for the sum of $103,000,000.

Schedule A–1

Fiscal year:	
1917	$50,100,000.00
1918	1,067,533,816.55
1919	1,810,190,032.80
1920	357,272,986.00
1921	37,298,133.33
1922	103,959,000.00
1923	70,459,000.00
1924	50,411,500.00
1925	30,344,000.00
1926	24,330,000.00
1927	24,198,574.00
1928	22,290,000.00
1929	18,688,750.00
1930	16,494,000.00
1931	11,346,000.00

Schedule A–1—Continued

Fiscal year—Continued.	
1932	[1] $42,406,000.00
1933	5,360,000.00
1934	5,310,000.00
1935	5,219,424.00
Total	3,753,211,216.68

[1] Includes $35,000,000 for construction-loan fund and $5,000,000 for fighting fund.

Schedule A–2—Profit (+) or loss (−) before depreciation

Fiscal year:	
1917	+$339,457.80
1918	+44,422,190.29
1919	+98,593,463.41
1920	+73,879,964.58
1921	−52,327,143.15
1922	−49,595,779.45
1923	−42,967,184.52
1924	−41,196,394.59
1925	−30,063,788.24
1926	−19,606,608.75
1927	−15,926,411.88
1928	−16,279,368.57
1929	−14,434,987.71
1930	−11,043,625.66
1931	−9,335,572.76
1932	−8,430,705.82
1933	−5,386,806.51
1934	−2,198,549.32
1935	−1,698,130.96
Total	−103,255,981.81

Mr. Speaker, the merchant marine question has plagued this Congress for 2 years. On the one hand, we have a group of individuals who seem to have more interest in personal gain than they have in a merchant marine, and the influence they have been able to exert is not only surprising but depressing. On the other hand, we have a group whose sole interest has been the protection of the public interest. The subject is so complicated that it has been difficult to keep track of and offset the many maneuvers which have been made to gouge the American people. The bill now before the House is an extraordinarily fine piece of legislation. All "jokers" introduced in former bills by tricky lobbyists have been eliminated; many safeguarding features, bitterly opposed by these same lobbyists, are in this bill. No wonder there is a hue and a cry; no wonder lobbyists are rushing around here with their coattails out straight; no wonder their mouthpieces work themselves into a rage. The real situation is that these lobbyists have been defeated, and, instead, this American Congress is now about to enact into law a bill that will provide a real American merchant marine, and will do so under methods and conditions which are fair and just to the American people.

American flag operations—Overseas services—Percentage of tonnage

Fiscal year ending June 30	Imports and exports combined (percent)	Exports (percent)	Imports (percent)
1922	52.29	----------	----------
1923	45.60	----------	----------
1924	43.93	----------	----------
1925	41.36	----------	----------
1926	38.12	----------	----------
1927	35.83	----------	----------
1928	39.96	32.58	49.32
1929	40.77	----------	----------
1930	40.27	----------	----------
1931	39.84	29.05	51.23
1932	36.78	26.62	47.62
1933	33.44	----------	----------

The following percentages were taken from a statement showing the classifications of operating expense for calendar year 1934 of owned and chartered vessels operated on mail routes, which statement did not include charter hire expense for chartered vessels, exhibit 8 of statement of assets and liabilities and income and expense as at December 31, 1934, of shipping companies having ocean-mail contracts with the United States of America under the provisions of the Merchant Marine Act of 1928.

	Percent
Wages	0.145
Subsistence	.069
Stores, supplies, and equipment	.053
Fuel	.161
Repairs	.070
Marine insurance	.049
P. & I. insurance	.011
Other vessel expense	.020

Wharfage and dockage charges	.032
Canal tolls	.032
Stevedoring and other cargo expense	.212
Agency fees, commissions, and brokerage	.041
Advertising	.016
Other voyage expense	.019
Total	1.000

Average distribution of cost of vessels constructed in American yards since about 1923:

	Percent
52 combination passenger and cargo vessels:	
Materials	51.9
Labor	28.0
Overhead	20.1
Total	100.0
23 tankers:	
Materials	47.4
Labor	31.2
Overhead	21.4
Total	100.0

Mr. BLAND. Mr. Speaker, the question is a practical proposition, in the closing hours of the Congress, whether we are defeated as to ocean-mail contracts, and as I said awhile ago, the merchant marine is on the rocks and I am faced with a condition. That condition I meet in this way, hoping something may be worked out in the future if this will not work. As I said, the President of the United States said to me it is a step in the right direction, and for that reason I am trying to get this bill through.

The SPEAKER pro tempore. The time of the gentleman from Virginia has expired. All time has expired. The question is on the motion of the gentleman from Virginia to suspend the rules and pass the resolution.

The question was taken; and on a division (demanded by Mr. BLAND) there were—ayes 118, noes 83.

So (two-thirds not having voted in favor of the motion) the resolution was rejected.

ON THE RELATIONS OF ENGINEERING SCIENCE TO FLOOD CONTROL

Mr. OLIVER. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD by the insertion of a speech made by Morris E. Cooke, head of the Rural Electrification Administration.

The SPEAKER. Is there objection?

There was no objection.

Mr. OLIVER. Mr. Speaker, under leave granted me to extend my remarks, I include excerpts from an interesting address by Hon. Morris L. Cooke, Administrator, Rural Electrification Administration, on the important subject of flood control, before the Ecological Society of America and the American Association for the Advancement of Science, at Rochester, N Y., on June 18, 1936, as follows:

The engineering of flood control is a problem of ecology—of human ecology. It is something larger than calculations of precipitation, run-off, cubic-second, and acre-feet; levees and revetments; dams and spillways. Every engineering work that has modified the soil, or the minerals lying below the earth's surface, or the behavior of waters, is one increment in a great combination of forces that influence human destiny. Little did the first settler who turned under the natural sod of the great "dust bowl" perceive the influence of his act either on himself or on his fellow men. But today we perceive that the rich assets provided by nature in that region are all but destroyed. Scientists and engineers should have tried to prevent such naive ignorance as that of farmers who encouraged sheet erosion because they believed a new soil was provided thereby. Engineers who drained the wet lands in the northern sector of the Mississippi drainage area, and those who promoted irrigation works on lands infertile or alkaline, gave scant thought to the influence of their acts on the water table, the ground moisture, the availability of water

for farms and cities, and the welfare of many an honest, hard-working, God-fearing rural family.

All engineer groups, not merely civil engineers, have been and still are both narrow and short-sighted. The mechanical engineers, for instance, have not recognized the influence on man's adjustment to his environment of those huge, productive equipments—in themselves magnificent examples of engineering—which they have designed and constructed. Engineers have not perceived the basic reality of the problem of assimilation of their new mechanical technology, and they have for this reason helped to create this great economic dust bowl of unemployment out of which we are making painful efforts to extricate ourselves. The engineering profession has been absorbed for the most part with the problems of a machine here and a machine there, a dam and reservoir for power here, a levee or dam for flood control there. Any one such task involves a great number of subsidiary problems, and it is these that have absorbed the abilities and the time of the limited supply of competent technically trained men in a country undergoing rapid development.

If we would preserve our country, and thereby our society, engineers and scientists must have become conservationists. In addition to the simple definition that conservation is wise use, one of the best definitions of which I know is the joint product of 27 scholastic units of the University of Wisconsin, the major concepts of which can be summarized as follows: Maximum present and future benefit from the use of natural resources; substitution of renewable for nonrenewable resources; maintenance of renewable resources at a level commensurate with the needs of society; prompt adjustments to the advance in technology; balancing of natural against human resources; harmonizing the objectives of conservation with conditions of the present and future economic order.

This definition is pertinent because flood control is a problem of conservation, not merely of engineering in the common meaning of the term. In the narrow view flood control is a problem of conserving the lives of those who reside and of properties located in areas subject to destructive floods. This aspect is critical and makes necessary levees, large reservoirs, and channel improvements on large streams. But in the larger and proper view the problem of flood control overlaps and is conditioned by interrelated problems of conservation of many kinds, such as precipitation and the character of the soil on which it falls and from which it runs off; creeks, ponds, marshes, and the flow of streams, small and large; the ground-water supply and seepage; clean water, sanitation, and health; recreation; forests, grasses, other vegetation; wildlife.

It is a problem of upstream engineering where waters have their origin, as well as of downstream engineering where their destructive power is felt. And upstream engineering reaches back onto the land, to infiltration and run-off engineering at the points of ultimate origin. It is a problem of prevention engineering as well as of counteraction engineering.

Heretofore engineering has had its eyes focused on the locations and on the consequences of floods to those immediately affected; on counteracting works, such as levees, revetments, huge reservoirs, and floodways. This is still the route by which the anxieties of particular and restricted areas will be quieted. But such steps will not either check soil erosion or solve the country-wide flood problem. Hereafter our vision must extend back to the point of origin and the behavior of every raindrop throughout the drainage area in which flood forces are generated. Our engineering grasp must include all other related conservation problems and integrate their treatment, for the sake of economy if for no higher motive, in programs of conservatory flood control.

For over a century the problem of flood control on the Mississippi River from Cairo to the Gulf has been attacked as a problem in itself and by counteractive measures only. Floods on the lower Mississippi are handled as situations in themselves. So are floods on the Missouri and on the Ohio, on the Monongahela and Allegheny, on the White, Arkansas, and Red Rivers, on the Tennessee and Cumberland. If we could from the beginning have recognized that these are all members of the great Mississippi River drainage area, requiring both preventive and counteractive measures, planned and coordinated for the entire system, we would have been able to devise and adopt a more rational, more effective, and, measured in terms of total benefits, less costly system of control.

The waters of the lower Mississippi, of course, come immediately from the major tributaries I have named. But the waters of any one of these come in turn from its own tributaries, and the waters of these tributaries from lesser streams, and the waters of these are made up of innumerable raindrops. How these raindrops are made to behave as they wend their way to the sea not only affects favorably the extent and cost of counteractive measures on the lower main stem, but also may result in innumerable benefits throughout the entire drainage area. For the measures which would necessarily be pursued throughout the drainage area, and especially back in the watershed sectors, would involve selective use of lands; erosion control through forestation, reforestation, restoration of grasses, and improved agricultural practices; the creation of numerous small reservoirs for small power sources, local irrigation, and provision for recreation and wildlife; the restoration of the ground-water supply, whereby "every field is made a reservoir"; restoration of seepage and the dry season flow of streams; the elimination of pollution and provision for adequate clean water; and improvement of navigation on major and minor waterways.

No one questions the need of counteractive measures, but one may well question the restriction of efforts to such measures. An inclusive attack on the problem of conservation, of which flood control is but a part, is of primary importance.

The problem of erosion control alone is much more important than the problem of flood control; the annual losses are greater, the problem is less localized, and the threatened result is essential destruction of our great country. But erosion control, although it means conserving soil, is as much a problem of water as of soil, for its causes are found in the destructive behavior of water arising from man's carelessness. We do not save the soil by disregarding the water factor, but by handling the soil in such a manner that the water falling on it behaves itself.

Notwithstanding the splendid work of the Department of Agriculture, and especially of its experiment stations and Extension Service, American agriculture is not holding its own. Soil is being washed away at an accelerating rate, buildings are depreciating rapidly, and agricultural assets of all kinds are being depleted.

This progressive decline toward a degraded agriculture on which depleted assets are being worked by a tenant peasantry is as serious for the Nation as for the individuals affected; as serious for the cities as for the rural areas. I have only to remind you that studies of population trends indicate that the present fourth of our population represented by those engaged in agriculture are the progenitors of two-thirds of our population 100 years hence. Cities do not reproduce themselves; they depend on the surplus youth of "ruralaria" to maintain the population. The critical problem of eugenics today, therefore, is the maintenance of high physical and cultural standards in the agricultural sector of our population. Dr. O. E. Baker, senior economist of the Department of Agriculture, has said: "Nature has provided (for the United States) the basis for as fine a rural aristocracy as the world has ever known, but instead it is becoming a land of tenant farmers living in houses that are frequently little more than hovels."

If we are to reverse the trend in rural life, speed is of paramount importance. For once begun, decline in economic and cultural status is difficult to arrest. As in some human ills, the disease progresses at an accelerating rate, while the patient becomes less able to resist. Also as in some human ills, the cure may be impossible if effective treatment is not applied at an early stage.

Downstream engineering is concerned necessarily with powerful forces and huge works—great reservoirs, gigantic dams, powerful apparatus of control. Upstream engineering will necessarily be concerned not only with smaller structures but with a technique in which simplification and automaticity predominate, in order to reduce the overhead of investment and heavy maintenance and operating costs.

Relatively simple and inexpensive schemes—that is an important consideration. However, we have misled ourselves in the matter of relative costs because of a very narrow concept of the nature of benefits and costs and are unduly frightened whenever the matter of cost arises.

Analysis of costs and benefits, even of public works, has been and still is an application of the technique of calculating measurable expenditures and receipts as employed by private industry. That technique generally is not adequate for calculating the costs of conservation works for three major reasons. It seldom takes into consideration: First, multiple uses and benefits; second, intangible uses and benefits that cannot be measured in terms of money and sold; and third, costs or losses that are being experienced and will continue to be experienced if the contemplated measures of conservation are not pursued. Social accounting is quite a different order of accounting from that employed by private industry. Private accounting is the accounting of acquisition and the preservation of ownership; social accounting is the accounting of the satisfaction of need and the prevention of losses of human and physical assets.

Sometimes engineers fail to consider their projects as potentially multifunctional in that one development may yield a number of services or products. Too frequently their calculations indicate infeasibility as measured by the criteria of private industry. But in any calculation of costs and benefits of works for social purposes, such as are not limited by any simple profit-making objective, every beneficial use, with adjustments in design if necessary, should be taken into consideration. The project can then be treated as one of joint costs, and the jont costs allocated to the several beneficial uses.

Intangible benefits must also be taken into social accounting calculations. An individual is not in business "for his health", as he puts it, which means that he seeks only objectives measurable in profit returns. That point of view governs his benefit-cost calculations. A society, on the other hand, makes investments only "for its health", i. e., for the public welfare. Therefore, intangibles must come into the calculations, for public welfare is made up very largely of intangibles. The great floods of 1927 destroyed not only millions of dollars of property in certain localities on the lower Mississippi but through the loss of income occasioned locally they restricted the volume of business throughout our entire economy. This fact is held to have played a part in starting the United States on the downward spiral of depression. The losses of the depression, in the nature of losses of income that will never be realized, already amount to some $200,000,000,000.

Social accounting must take into very special consideration the benefits realized from the prevention of losses of natural resources capital. Soil-erosion specialists estimate the annual money loss of land removed from productive agricultural use each year at $400,000,000. This is a loss of basic capital which means the loss

of a continuing flow of income throughout the future. If we can stop this loss of basic capital, the cost of the preventive measures can be many times $400,000,000 and yet the works will not have compelled a cost that would not have been incurred in any case. Erosion specialists tell us that the cumulative loss from erosion is not less than $10,000,000,000—most of it incurred since 1900. If we could have prevented it with $10,000,000,000 worth of conservation works, the works would not have meant the incurring of any new cost.

If we can keep in mind that a society is in business for its health, and only for its health, and can have no other business than welfare, then this matter of social as distinguished from individual accounting becomes clarified. Every businessman, every citizen has a vital stake in his society. Whatever the accounting he employs in private business, he should insist that social accounting be employed in collective affairs.

As scientists and professional specialists in works involving physical forces, engineers have indeed a great responsibility to the Nation. To meet that responsibility adequately they must somehow rise above certain limitations of the present scientific and professional point of view. They must develop the broad, the integrated view. They must develop to the highest degree the spirit of social service. But the engineers cannot alone carry the responsibility. Other sciences and professions must assume their share. The Government must assume its share. The body of citizens must assume its share. Each of us must have vision, the spirit of service, and the spirit of sacrifice.

To meet the situation created by wanton waste of our natural resources will require the complete dedication of our people to a cause affecting future generations even more than our own; a cause involving expenditures greater than those of war. Further, through education and the impact of local public opinion the attitude toward land tenure must change long before any such new point of view can obtain validation in the basic law. If the Nation is to be saved, it must be established that individual possession of land does not carry with it the right to ruin.

The present administration in the creation of the Soil Conservation Service, the Civilian Conservation Corps, and the National Resources Committee, and in appropriations made for the support of the work of these and similar agencies, has made a start. But the real army has yet to be organized, the general staff set up, and professional agencies such as yours called to the colors.

MRS. CHARLES F. EIKENBERG

Mr. DOCKWEILER. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 5078) for the relief of Mrs. Charles F. Eikenberg, with a Senate amendment, and concur in the Senate amendment.

The SPEAKER. The Clerk will report the Senate amendment.

The Clerk read as follows:

Page 1, line 5, strike out "not otherwise appropriated" and insert "allocated by the President for the maintenance and operation of the Civilian Conservation Corps."

The SPEAKER. Is there objection?

There was no objection.

The Senate amendment was concurred in, and a motion to reconsider the vote was laid on the table.

JOHN B. RICKETTS

Mr. LUCKEY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 10439) for the relief of John B. Ricketts, with a Senate amendment, and concur in the Senate amendment.

The SPEAKER. Is there objection to the request of the gentleman from Nebraska?

There was no objection.

The Clerk read the Senate amendment, as follows:

Page 1, line 5, strike out "not otherwise appropriated" and insert "allocated by the President for the maintenance and operation of the Civilian Conservation Corps."

The Senate amendment was agreed to.

A motion to reconsider was laid on the table.

EXTENSION OF REMARKS

Mr. CALDWELL. Mr. Speaker, I ask unanimous consent to extend my own remarks by inserting an address delivered by Hon. B. A. McGuiness, delivered at the annual Flag Day ceremonial, on June 15.

The SPEAKER. Is there objection?

Mr. RICH. Mr. Speaker, I object.

PERMISSION TO ADDRESS THE HOUSE

Mr. LUCAS. Mr. Speaker, I rise for the purpose of making a unanimous-consent request on a matter which involves the House.

The SPEAKER. The gentleman will state it.

Mr. LUCAS. Mr. Speaker, I ask uanimous consent that on tomorrow, after the disposition of business on the Speaker's desk, I be permitted to address the House for 12 minutes upon the portrait painting of the late Speaker of the House, Hon. Henry T. Rainey.

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

There was no objection.

MEETING OF COMMITTEE ON RULES

Mr. O'CONNOR. Mr. Speaker, I wish to announce that the Committee on Rules will meet tomorrow morning at 9:30 o'clock.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted as follows:

To Mr. HARLAN, indefinitely, on account of official business.

To Mr. BACHARACH (at the request of Mr. POWERS), on account of death in family.

To Mr. HOBBS (at the request of Mr. HILL of Alabama), on account of important official business.

To Mr. ELLENBOGEN, for 2 days, on account of business.

SENATE BILLS REFERRED

Bills of the Senate of the following titles were taken from the Speaker's table, and, under the rule, referred as follows:

S. 670. An act for the relief of Eliza Boykin; to the Committee on Claims.

S. 2827. An act for the relief of Margaret Scott Bayley; to the Committee on Claims.

ENROLLED BILLS AND JOINT RESOLUTION SIGNED

Mr. PARSONS, from the Committee on Enrolled Bills, reported that that committee had examined and found truly enrolled bills and a joint resolution of the House of the following titles, which were thereupon signed by the Speaker:

H. R. 237. An act for the relief of the Rowesville Oil Co.;

H. R. 254. An act for the relief of the Farmers' Storage & Fertilizer Co., of Aiken, S. C.;

H. R. 4900. An act to amend the naturalization laws in respect of residence requirements, and for other purposes;

H. R. 9485. An act to convey certain lands to Clackamas County, Oreg., for public-park purposes;

H. R. 9654. An act to authorize the purchase by the city of Scappoose, Oreg., of a certain tract of public land revested in the United States under the act of June 9, 1916 (39 Stat. 218);

H. R. 10356. An act authorizing the Secretary of the Navy to convey a right-of-way over certain lands situated in Solano County, Calif., to the State of California for State highway purposes;

H. R. 10630. An act making appropriations for the Department of the Interior for the fiscal year ending June 30, 1937, and for other purposes;

H. R. 11103. An act to extend the times for commencing and completing the construction of a bridge across the Mississippi River between New Orleans and Gretna, La.;

H. R. 11140. An act to provide more effectively for the national defense by further increasing the effectiveness and efficiency of the Air Corps of the Army of the United States;

H. R. 12848. An act to provide an additional place of holding terms of the United States district court in the eastern district of Kentucky, and to amend section 83 of the Judicial Code, as amended; and

H. J. Res. 179. Joint resolution authorizing the President to present the Navy Cross to J. Harold Arnold.

The Speaker announced his signature to enrolled bills and joint resolutions of the Senate of the following titles:

S. 283. An act for the relief of Beatrice I. Manges;

S. 2047. An act to promote the general welfare of the Indians of the State of Oklahoma, and for other purposes;

S. 2456. An act to provide for the appointment of an additional district judge for the northern and southern districts of West Virginia;

S. 2912. An act to repatriate native-born women who have heretofore lost their citizenship by marriage to an alien, and for other purposes;

S. 3440. An act to amend certain acts relating to public printing and binding and the distribution of public documents and acts amendatory thereof;

S. 3841. An act to amend an act entitled "An act to establish a uniform system of bankruptcy throughout the United States", approved July 1, 1898, and acts amendatory thereof and supplementary thereto;

S. 4026. An act to amend the National Defense Act of June 3, 1916, as amended;

S. 4464. An act to authorize the coinage of 50-cent pieces in celebration of the opening of the San Francisco-Oakland Bay Bridge;

S. 4512. An act to amend section 641 of the Code of Laws for the District of Columbia;

S. 4568. An act to permit construction, maintenance, and use of certain pipe lines for petroleum and petrolem products in the District of Columbia;

S. J. Res. 241. Joint resolution to declare December 26, 1936, a legal holiday in the District of Columbia;

S. J. Res. 272. Joint resolution to provide for the maintenance of public order and the protection of life and property in connection with the Presidential inaugural ceremonies in 1937;

S. J. Res. 273. Joint resolution authorizing the granting of permits to the Committee on Inaugural Ceremonies on the occasion of the inauguration of the President-elect in January 1937, and for other purposes;

S. J. Res. 280. Joint resolution to ratify and confirm the appointment of Isaac Gans as a member of the Alcoholic Beverage Control Board of the District of Columbia; and

S. J. Res. 286. Joint resolution fixing the date of meeting of the Seventy-fifth Congress.

BILLS AND JOINT RESOLUTION PRESENTED TO THE PRESIDENT

Mr. PARSONS, from the Committee on Enrolled Bills, reported that that committee did on this day present to the President, for his approval, bills and a joint resolution of the House of the following titles:

H. R. 237. An act for the relief of the Rowesville Oil Co.;

H. R. 254. An act for the relief of the Farmers' Storage & Fertilizer Co., of Aiken, S. C.;

H. R. 4900. An act to amend the naturalization laws in respect of residence requirements, and for other purposes;

H. R. 5368. An act to provide for the addition of certain lands to the Chalmette National Monument in the State of Louisiana, and for other purposes;

H. R. 8442. An act to amend section 2 of the act entitled "An act to supplement existing laws against unlawful restraints and monopolies, and for other purposes", approved October 15, 1914, as amended (U. S. C., title 15, sec. 13), and for other purposes;

H. R. 9485. An act to convey certain lands to Clackamas County, Oreg., for public-park purposes;

H. R. 9654. An act to authorize the purchase by the city of Scappoose, Oreg., of a certain tract of public land revested in the United States under the act of June 9, 1916 (39 Stat. 218);

H. R. 10356. An act authorizing the Secretary of the Navy to convey a right-of-way over certain lands situated in Solano County, Calif., to the State of California for State highway purposes;

H. R. 10630. An act making appropriations for the Department of the Interior for the fiscal year ending June 30, 1937, and for other purposes;

H. R. 11103. An act to extend the times for commencing and completing the construction of a bridge across the Mississippi River between New Orleans and Gretna, La.;

H. R. 11140. An act to provide more effectively for the national defense by further increasing the effectiveness and efficiency of the Air Corps of the Army of the United States;

H. R. 12848. An act to provide an additional place of holding terms of the United States district court in the eastern district of Kentucky, and to amend section 83 of the Judicial Code, as amended;

H. R. 12869. An act to liberalize the provisions of Public Law No. 484, Seventy-third Congress, to effect uniform provisions in laws administered by the Veterans' Administration, to extend the Employees' Compensation Act with limitations to certain World War veterans and other persons, and for other purposes; and

H. J. Res. 179. Joint resolution authorizing the President to present the Navy Cross to J. Harold Arnold.

EXTENSION OF REMARKS

HAWAII IS A DOMESTIC PRODUCER

Mr. KING. Mr. Speaker, the discussion of this resolution has dealt principally with the status and needs of domestic sugar producers. I am in full sympathy with the arguments advanced by the spokesmen for the different sugar-producing areas of continental United States; but wish to call attention to one simple fact which is frequently overlooked.

The sugar producers of the Territory of Hawaii, as well as the producers of all other commodities in my constituency, are domestic producers. The same treatment should be accorded them as that accorded the producers of any State. This principle should be accepted both as a matter of justice and of law, and I appreciate the recognition of it by several Members in the course of their remarks on this resolution.

The Territory of Hawaii is in every respect an integral part of the United States. Its production is a part of the domestic production. Its commerce with other parts of our country is inseparably a part of the interstate commerce of the United States. Its citizens are citizens of the United States, bearing every responsibility and burden of such citizenship and possessing all of the rights and privileges which pertain thereto.

Residents of Hawaii pay Federal taxes on exactly the same basis as residents of any State. Internal-revenue collections in Hawaii flow into the Federal Treasury exactly as they do from any State. In 1935 Federal income taxes paid in Hawaii amounted to $4,253,875, a sum greater than that paid in by any of 19 States. The total United States internal-revenue receipts from Hawaii in 1935 were $5,692,097, and this amount is greater than the receipts of any of 11 States.

Federal taxes paid from the Territory of Hawaii greatly exceed the Federal expenditures there, exclusive of the costs of the Military and Naval Establishments. In this connection I quote the statement of Dr. Ernest Gruening, Director of the Division of Territories, United States Department of the Interior, which appeared in the New York Times of November 4, 1934, as follows:

> Hawaii and Alaska contribute to the Federal Treasury exactly as do the States on the mainland. They send income taxes, internal-revenue taxes, and customs taxes to Washington. Hawaii is the star contributor in this connection. It has paid an average of more than $5,000,000 a year to the Central Government for the 34 years since annexation, a total of $185,000,000. The Central Government has spent an average of a little more than $1,000,000 a year, a total of $35,000,000, on the Territory, thus leaving a direct net profit of $150,000,000 in taxes alone from these islands. It is the only example of such a profit in American history. Hawaii pays more taxes to Washington than do any of 16 States.

The same laws which apply to immigration and to labor in the several States apply to the Territory of Hawaii, as, of course, they should. The Hawaiian sugar producers not only pay higher wages to their labor than the average wages paid to farm labor elsewhere in the United States but also provide year-round employment and good working and living conditions.

The sugar producers of the Territory of Hawaii complied strictly with the production-reduction program of the Jones-Costigan Act, realizing that quota legislation is essential for the protection of the domestic-sugar industry in view of the reduction in the sugar tariff. More than 24,000 acres of cane land were taken out of production, and the reduction of production by all means in the year 1935 was more than 144,000 tons, as shown by official figures. The crop cycle for Hawaiian sugarcane is 2 years, and therefore the reduction program bore especially heavily upon that area.

The existing act discriminates to the prejudice of the Territory of Hawaii in several of its features. This is not

an appropriate time to present these matters. As the gentleman from Texas [Mr. JONES] has said, it is essential under the present circumstances that the resolution be adopted, and I appreciate the cooperation he has extended those interested in this measure.

When permanent legislation for sugar is enacted, or when any legislation of any nature is under consideration, the Territory of Hawaii should be accorded its rightful status of equality under the law with the 48 States. This should be the status of the Territory of Hawaii, whether the legislation is a tax or revenue measure allocating the responsibility of citizens for the support of their Government, or a measure to secure benefits through the regulation of interstate commerce in, and importation of, an agricultural commodity.

HOME RULE ON THE RANGE

Mr. TAYLOR of Colorado. Mr. Speaker, 2 years will have elapsed on June 28, 1936, since President Roosevelt signed "an act to stop injury to the public grazing lands by preventing overgrazing and soil deterioration; to provide for their orderly use, improvement, and development; to stabilize the livestock industry dependent upon the public range; and for other purposes" (48 U. S. Stats. 1269).

Some of you may recall that last year, on the first anniversary of the signing of the act, I gave an account of the stewardship of the Interior Department during the first year (vol. 79, CONGRESSIONAL RECORD, pt. 9, 74th Cong., 1st sess., pp. 10393–10397).

I want to briefly call the attention of the House and the country to some of the splendid additional achievements that have been accomplished by the Interior Department in the administration of this law during the second year.

During the first year of the life of the act the Grazing Division of the Interior Department, which administers this law, devoted itself to the preliminary steps necessary for the carrying out of the terms and provisions of the law. The establishment of organizations, the devising of rules and regulations for equitable administration, the working out of plans for the cooperation of State grazing associations, and other numerous duties and activities for the fair and proper administration of 80,000,000 acres of public grazing land has been a tremendous task. At the end of the first year 32 grazing districts had been established and organizations had been completed partially or fully for these districts.

During the past year the total number of grazing districts has been brought to 37, which include substantially all of the 80,000,000 acres of public grazing land permitted by law. The administration of these 37 districts has been divided into 9 regions, each in charge of a regional grazier, whose staff includes several technical and clerical assistants in each case.

The essential element, however, of the Grazing Division's administration is in the advisory boards, consisting of elected representatives and stockmen in each district. Serving on these boards are 509 representative and able stockmen. Through their knowledge of local conditions and usage the Department of the Interior has access to information and recommendations on every point and section of the country under the jurisdiction of the Grazing Act.

During the year 1935 a total of 15,081 grazing licenses were issued for 8,411,000 head of livestock. Of these, 1,577,000 were cattle, 146,000 horses, 6,516,000 sheep, and 172,000 goats. Licenses for the year 1936 have been issued for the use of spring and summer ranges.

The rules and regulations for the use of the range, which were promulgated during the first year, were received by the majority of the stockmen with complete satisfaction. However, a number of minor details which need clarification came to the surface. On the basis of the year's experience a new set of rules was devised to govern the administration of the districts for 1936.

Under these rules an applicant for a grazing license must be, first, a citizen of the United States, or one who has declared his intention to become a citizen, a group, association, or corporation authorized to conduct business under the laws of the State in which the district is located. Qualified applicants, who must also be owners of livestock naturally, are classified for the issuance of licenses in the following priority:

First. Qualified applicants with dependent commensurate property with priority of use.

Second. Qualified applicants with dependent commensurate property but without priority of use.

Third. Qualified applicants who have priority of use but not commensurate property.

Fourth. Other qualified applicants.

In addition to the priority classification, the first year's experience showed the advisability of defining the terms "property", "dependent", "near", "commensurate", and "priority of use." These definitions will not only allow for the more equitable distribution of grazing privileges but they will also facilitate the handling of applications for licenses.

One of the most interesting things in connection with the granting of grazing licenses is that out of over 16,000 applicants only 250 have ever protested the recommendations of the local advisory boards. Out of these 250, only 51 applicants have ever appealed from the action of the local representatives to the Division of Grazing. This by itself is a powerful endorsement of the system of the recommendatory advisory boards cooperating with the administrative organization.

It may be of interest to the House to know that an outstanding procedure for appeals has been organized and put into service by the Grazing Division. This system fairly permits full development of all facts in the case and complete review by the Director of the Division of Grazing and by the Secretary of the Interior of the cases where appeals are made from the recommendations of the district advisory boards. It grants full and fair protection to all interested parties.

With the organization for the administration of the grazing law completed, and clarification brought about in the rules and regulations, detailed attention has been given to the enforcement procedure; that is, the strict enforcement of the rules and regulations and the taking of prompt and forceful action against violators. Users of the western range and those familiar with the range conditions well realize the necessity for a system which will protect both the limited forage resources and the license users.

To meet the problem of the control of privately owned lands in established grazing districts, whose mixed and varied ownership has made a complex situation, a system of cooperative agreements, under section 9 of the act, has been formulated and approved by the Secretary of the Interior.

This system of cooperative agreements, now in operation in the State of Montana, seems to be one of the major achievements of the Grazing Division during the second year of its life. The terms of these agreements provide a means of administration of range areas where range ownership is varied and complex. Generally, there is only a relatively small percentage of public land, or of land under the administration of one agency. In the State of Montana, Federally owned land represents hardly more than 25 percent of the total grazing lands.

The remainder involves the property of railroads, the State, counties, or areas under the control of other Federal agencies. Under existing agreements the local livestock association is authorized to lease or otherwise acquire the rights to grazing lands belonging to these other organizations or agencies; and these lands, with the Federal lands, are then administered as a unit by the association under the supervisory authority of the Secretary of the Interior and in conformity with the rules and regulations promulgated by him for the administration of the grazing districts.

So far this cooperative agreement is in operation only in the State of Montana. It is anticipated, however, that there are many sections in other parts of the West where such agreements are practicable and will provide the best means for carrying out the policy of proper land use in those regions of mixed ownership.

Since the issuance of grazing permits must be based on the proper use of the land, the Department of the Interior is confronted with the problem of accumulating the necessary large amount of information upon which to base administrative action. This information includes not only the determination of the proper carrying capacity and the proper seasons for use of the ranges, but it must also include well-defined plans for preserving the forage resources and a measure of the basic ranch properties. This range-survey work has been fully organized during the second year and is progressing satisfactorily.

Efforts are being made to push this work ahead as fast as possible and all available facilities, State as well as Federal, are being used in this work. Collection and analysis of this information is a necessary preliminary in compliance with the law in the issuance of term permits. From all present indications, it is expected that sufficient material from a considerable portion of the areas under examination will be available so that issuance of these permits can be begun during the next year.

It may be well here and now to point out that the personnel engaged in the administration of the grazing law was originally composed of technicians recruited from various agencies of the Department, all of whom are expert in public-domain questions and conditions. Through this intimate knowledge, the personnel of the Grazing Division was able to inaugurate immediate range administration far more competently than employees available from any other Federal department. At the present time, the small original nucleus has been augmented by about 25 new field employees, all of them western men, fully familiar with the range and livestock problems of the West and of demonstrated administrative ability. There have been those in the past who did not believe that so small an organization was capable of providing an adequate administration for 80,000,000 acres of public lands. But they did not take into consideration that no other Federal organization had at its command an advisory service of more than 500 stockmen, all well acquainted with the local problems and the national situation and who were not only subject but willing to respond immediately to the call of duty at any time.

This system of home rule under Federal administration and supervision, instituted as one of the main objects and integral parts of the Taylor Grazing Act's administration by the Department, has been highly successful and satisfactory to the stockmen. The district advisers, chosen in elections at which all qualified licensees of the district vote, constitute organized recommendatory groups to the administrative officers of the Interior Department. The advisers themselves organize into a board and elect one of their own members chairman. Their individual duties and duties as a board have been clearly and carefully defined in the rules and regulations of the Department. The boards sit in advisory capacity during the consideration of applications for licenses and render assistance in the settlement of other local problems involving the use of the range. That the methods for arriving at their recommendations are eminently fair is shown by the small number of protests or appeals already cited, and which works out to slightly less than 1.6 percent.

I am perfectly confident that the great progress of the Grazing Division in its gigantic task can be laid in large part to the adoption of the policy of home rule and the selection of public-land experts and western men familiar with the range and livestock problems in administrative posts. Naturally, there are other factors which have helped to make this progress possible, notably the Civilian Conservation Corps and its work in range improvements and the cooperation of the General Land Office of the Department of the Interior.

It has been but a little over a year since the first C. C. C. camps under the Division of Grazing were established. In April 1935 seven C. C. C. camps were allocated to the division. Since then the number has been increased to 45 camps, with about 8,000 enrollees each 6-month period. These camps are functioning in the three regions comprised by the States of Colorado, Utah, Wyoming, Nevada, New Mexico, Arizona, Montana, Oregon, California, and Idaho.

These camps are carrying on a wide variety of projects throughout the 10 western public-domain States, the purposes of which are to aid the stockmen in obtaining an adequate water supply, to construct truck and stock trails, and to assist in the rehabilitation of vast areas of grazing lands by the improvement of range conditions. In practically every area the range has been so neglected and the land so overgrazed that many years will be required to accomplish satisfactory reconditioning. The concentrated efforts of the C. C. C. workers have already advanced rehabilitation in some sections from 10 to 20 years.

The first work planned in each district was that for which there was the most urgent need whether it was erosion contral, development of springs, well drilling, construction of storage reservoirs and dams, flood control, trail construction, eradication of poisonous plants, rodent control, or some other equally necessary project.

The story of the C. C. C. grazing camps often recalls the tales of frontier days. To complete some of the projects the enrollees have had to carry sand, cement, pipes, and other necessary equipment over mountain trails. Truck trails were built where before there were only cow paths. Water was brought to a drought-stricken, denuded range country. Miles of telephone lines have been constructed in sections of the West which had never before had that form of communication. Water once more surges from springs trampled by cattle into uselessness. In the carrying out of this much-needed range rehabilitation, thousands of young men have been given work under healthful conditions to mind and body, which is fitting them for practical, gainful occupations on their return to private life.

The development of an adequate water supply is assisting materially in making possible a better utilization of available forage resources. In certain sections of this public domain there were 30-mile drives between watering places, nearby springs being inaccessible until the C. C. C. workers built trails and in some instances corrals, so that the herds driven through the country could reach, and if necessary, stop overnight at these springs. This enables stockmen to save a loss which sometimes amounted to as much as 25 percent of the herd on long drives to and from market.

The importance and value of truck trail and trail construction is enormous, and the benefits of the increasing range water supplies cannot be overestimated.

It is difficult to picture in a few figures work which occupied such a short period of time and covered such a large area of territory, but the following brief data from the statistical report through March 1936 gives some idea of the magnitude of the work accomplished in less than a year: 1,777,348 acres treated for rodent control; 64,741 acres treated for eradication of poisonous weeds and plants; 921 miles of truck trails; 409 miles of stock driveways, foot, horse, and truck trails; a great many water-supply projects; 172,000 acres treated for erosion control including the construction of approximately 47,000 linear feet of permanent and temporary diversion ditches; and 25 bridges constructed and 324 miles of telephone line installed.

A continuation of this work by the C. C. C. enrollees will bring further relief to stockmen who know the need but had all but despaired of the means of restoring the great range land before the advent of the Emergency Conservation Work and the Grazing Act.

I want to digress a moment to say that the original bill as I introduced it applied to all of the remaining vacant, unappropriated, and unreserved land of the public domain of the United States, at that time estimated at 173,000,000 acres, and the bill passed the House in that form. One of the hamstringing amendments added by the opponents of the bill during 3 months' debate in the Senate reduced the acreage to which the law could be applied to 80,000,000, leaving the remaining half of the public domain open to free exploitation, as it has been ever since.

Realizing the ruinous absurdity of this condition and the inevitable and rapid destruction of the remaining unprotected public land, the chairman of the Public Lands Committee of the House, Mr. DEROUEN, of Louisiana, at the opening of Congress in January 1935, introduced a bill making all

the public land subject to the provisions of this grazing-district law. The bill promptly passed the House. The opponents of the law again loaded that bill with so many injurious amendments that the President was compelled to and did veto it.

Soon after the opening of this session of Congress I introduced another bill (H. R. 10094) merely amending the Taylor Grazing Act by increasing the amount of public lands, subject to its provisions, from 80,000,000 acres to 143,000,000 acres and making no other change in the law—just changing the figure 80 to 143. The bill passed the House unanimously March 16. It remained peacefully in the Public Lands Committee of the Senate from that time until last Monday, the 15th of June, when it was reported out with five riders amending other sections of the law and adding a new section.

While I somewhat doubt if any of these proposed new provisions should or could pass either the Senate or the House on their own merits in an independent bill, nevertheless I hope the bill will pass even in that form and become a law before this session of Congress adjourns. Otherwise the remaining public domain that is not already practically destroyed will very soon be utterly ruined by overgrazing and tramping out all the verdure on it.

The General Land Office has been cooperating fully with the Division of Grazing in carrying out the provisions of the act. At the present time there are approximately 2,255 applications pending in the General Land Office for leases on isolated tracts of public-domain grazing lands under section 15 of the grazing law. Of this number about 1,600 involve lands in proposed or contemplated grazing districts. These applications have been submitted to the Grazing Division for report, as the act provides that only such lands may be leased for grazing which are so situated that their inclusion in a grazing district is not justified. Of the remaining 655 lease applications for isolated tracts of grazing land all have been or are under examination by the Division of Investigations. Reports on these investigations have begun to come in.

In addition to these applications there are about 50 applications for sale of isolated grazing tracts in the public domain under section 14 of the Grazing Act. About 15 applications to make homestead entries in established grazing districts have also been received. These homestead applications are awaiting the classification of the land, as the act allows homesteading in grazing districts only on such land as is classified as more valuable and suitable for agricultural purposes than it is for grazing.

Applications for the exchange of State lands under section 8 of the Grazing Act have been made by the States of Arizona, Colorado, New Mexico, Utah, and Wyoming. The total number of these applications is 349.

The General Land Office reports that there are also a number of applications for private exchange of lands under section 8 of the act. The Land Office has made such changes in its regulations as were found necessary in cooperating with the Grazing Division.

Conservation of wildlife on the western range lands is another aspect of the situation in which both the Division of Grazing and the stockmen themselves are very much interested. Recently testifying before a House committee Grazing Director Carpenter pointed out that there were three methods of wildlife conservation now in use in the grazing lands of the West.

These three methods are: The program of cooperation between the Division of Grazing and the Biological Survey, the New Mexico plan, and the conservation of wildlife by the stockmen themselves.

A cooperative program has been worked out between the Grazing Division and the Biological Survey, under which game ranges will be set up in grazing districts for the conservation of wildlife. This program has been inaugurated and satisfactory progress is assured.

Ten areas embracing approximately 10,000,000 acres of land in various Western States have been agreed upon for wildlife ranges. Several have already been established. In these areas, definite numbers of wildlife species will be given priority to the forage ranges and the remainder will be utilized for domestic livestock.

New Mexico is so far the only State which has submitted and had approved a general plan for protection and control of wildlife in connection with the administration of grazing districts. The New Mexico plan was approved by the Secretary of the Interior August 21, 1935.

In substance, the New Mexico plan provides that in addition to the regularly elected district advisers for each grazing district established under the Taylor Grazing Act in New Mexico, there be appointed one district adviser in each grazing district to represent wildlife and recreational resources. Such district adviser shall have the same qualifications as the elected advisers, except that he need not be an owner of livestock, and he shall be nominated by the land-use committee of the New Mexico State planning board. This district adviser may be appointed by the Secretary of the Interior in the same manner and form as the other district advisers.

The utilization of grazing district lands by domestic livestock shall be in accord with the following fundamental outline for conservation and propagation of wildlife and other natural resources upon the public domain: Carrying capacity to provide for game, game and bird refuges, areas best suited to wildlife production, game animals to be limited, and game-law observance.

Other States, it is hoped, whose public domain comes within the administration of a Taylor grazing district will submit similar plans to cover the situations within their respective borders in the near future.

From an individual standpoint, the ranchers and livestock men are themselves the greatest conservators of the wildlife in the West. Many of the large ranches are literally game reserves and bird refuges, where grouse, sage hens, pheasants, deer, and antelope abound and are afforded such protection as the owners of the ranches on which they roam are able to give them.

I want to pay a richly deserved tribute to Mr. Ferrington R. Carpenter, the director of the Grazing Division that has the administration of this law. Its very great success, popularity, and far-reaching accomplishments during the brief 2 years since it was enacted is very largely due to his marvelous activity, enthusiasm, and splendid qualifications for that position. There is no man in the West who better knows the western stockmen and their conditions and needs than Ferry Carpenter. He is an ideal man for that position.

By the way, he recently uncovered the first rules and regulations for a grazing district to be promulgated in the history of the country. What is now the famous Boston Common was, according to the records found by the director, the first grazing district in the United States. It is of interest to note that the ratio of five sheep to one cow or ox which was used at that time, is the ratio used today. In a brief statement on this early public-grazing range, Mr. Carpenter said:

In 1634, just 300 years before the Taylor Grazing Act was passed, a tract of 50 acres in the town of Boston, Mass., was purchased by the Province authorities "as a training field and for the grazing of cattle in common." The rules regulating this early grazing district bear a similarity to many of the regulations under the Grazing Act. Preference was restricted to freeholders who were inhabitants of the town. Each person was allowed one animal unless he had a tax rating in excess of £50 ($250), and in that event he was allowed two head. Five sheep could be substituted for one cow or ox "on account of the value of the wool to the community for clothing purposes." The carrying capacity was fixed at 70 head. The range was protected and improved by laws forbidding the digging of sod and providing for draining stagnant water and the clearing of brush and wood. Sheep had to be kept under the hands of a shepherd from May 1 to October 15. A man was appointed to water the bulls and to drive them into the Cornhill Cemetery at night. A fee of 5 shillings per annum was charged. The only free-use permit was issued to the preacher for one horse. Grazing of livestock was continued on this land until 1830.

This tract, the Boston Commons, is one of the historical spots in America. Soldiers camped and trained on it in the Revolutionary War, War of 1812, and Civil War. Witches have been hanged there, and many famous public assemblies were held. It is now a public park and garden in the heart of the city.

It is a far cry from 50 acres to 80,000,000 acres, but it seems significant that certain basic principles in range control should have been carried in the American consciousness for more than 300 years. And in view of the magnitude of the task set for the Division of Grazing of the Interior Department, it is apparent that not only is real progress being made in the conservation—the proper use—of the public domain grazing lands and the other objectives of the Grazing Act, but that the work is being done ably and well.

Naturally the fact that this stupendous task is moving ahead with fairness to range users, with concrete accomplishments in range preservation and restoration, is of great personal interest to me, as I am honored in having my name associated as the author of the Grazing Act. In contemplating the progress made in the 2 short years of the grazing administration, I cannot help but feel that we are truly on our way to the proper utilization and preservation of the public-domain grazing ranges of the West, and that these ranges under the Grazing Division of the Department of the Interior and the enlightened self-interest of the livestock men of the West will be a great factor in the public conservation of our country. The safeguarding, protecting, and upbuilding of the western public range is and will be an enormous impetus to public conservation generally. Our country is turning its face from the days of exploitation, waste, and greed to the preservation of our marvelous natural resources for use and benefit of its citizens today, tomorrow, and in the generations that follow.

THE SECOND LOUISIANA PURCHASE

Mr. BURDICK. Mr. Speaker, the first purchase of Louisiana was made by Thomas Jefferson in 1803, and for that act of wisdom Jefferson was applauded by his countrymen, and succeeding generations have and will honor him.

The second purchase of Louisiana was made by James A. Farley, Postmaster General of the United States, and chairman of the National Democratic Party. For this act James Farley will receive the condemnation of his countrymen now living and their descendants in the years to come.

The public knows that Huey Long, late Senator from Louisiana, was an uncompromising fighter for the common people. He could not be bought, was unafraid of Federal prosecutions, and there was only one way in which he could be stopped. With the cowardly assassination of Huey Long, the Long machine took an added power and influence, and when the election occurred in January 1936, the anti-Long forces were swept down to ignominious defeat. Soon after this election, O. K. Allen, who had been elected Senator to occupy the seat of Huey Long, died very suddenly. James A. Noe, lieutenant governor under Allen, became the Governor, but Richard W. Leche had been elected to that position in the January election.

The real money man of the Huey Long forces was Robert Mastri, of New Orleans, and the man who handed out the money to finance the Long machine was Seymour Weiss, owner of the Roosevelt Hotel in New Orleans. Mastri furnished the money and Weiss handed it out because they liked Huey Long and stayed with him in his fight against the Roosevelt administration.

While the Long forces were fighting the administration, the Department of Justice was busily engaged with secret-service men in Louisiana in looking up "something" against the Long followers. Evidence was presented to the grand jury concerning tax evasions of Seymour Weiss and he was indicted for this offense and the further offense of conspiring to avoid taxes. These Long followers were under indictment when the January election took place.

Shortly after election, and at a time when the Long machine seemed invincible, there was a meeting held in the city of New York between the administration forces represented by James Farley and the newly elected Governor Richard W. Leche. At that meeting an agreement was made between these two warring factions, and all political differences were agreed to be settled. In this agreement the Long forces were to do two things in particular: First, the Long Congressmen were to withdraw their names from the Frazier-Lemke petition then on the Speaker's table, and were to vote against the bill if it did come up; and, second, the Long machine was to deliver Louisiana for President Roosevelt. The other part of the agreement was that the criminal indictments against Weiss and other conspirators were to be dismissed, although it was agreed that civil suits might be continued to recover any taxes lost to the Government. Certain patronage theretofore withheld from the Long machine was to be restored, especially that pertaining to New Orleans. This deal was made and each side agreed to carry out their part of the agreement.

Neither the Long Congressmen nor Mrs. LONG, then Senator, knew anything about the deal, where it was made, who made it, or what the terms were.

I knew of this deal within a few days after it was made, and wrote out this statement then, but did not offer it in the CONGRESSIONAL RECORD because I was pretty sure no one would believe it. Since January, however, my statement has been proved in full, and I now offer it to show that the followers of Huey Long ignominiously surrendered to the present administration, and James Farley is in full command of the situation in Louisiana. Even the loyal administration Congressmen who fought Huey Long and were overwhelmingly defeated have been left out in the cold by Mr. Farley, and from now on he will deal with their enemies in Louisiana. Their loyalty to the administration makes no difference now since they have been defeated.

What is the proof of this New York sale, the second Purchase of Louisiana?
